Clarendon Junior College Has Record Enrollment With 190 Students Listed

The largest number of students to enroll at Clarendon Junior College was completed with the last day of registration September 23 showing a final total enrollment of 190 students. The night school enrolled a total of 47 students and a total of 153 students were enrolled in day school. Ten of these students were enrolled in day and night classes.

This growth represents a determination of all the individuals who continue to work for a growing college in our community. The increased student contact program that began in February, 1964, is one of the major reasons for this increased enrollment. Preliminary studies indicate that a comparable increase will be obtained by the fall of 1965. "The Athens of the Panhandle" is a growing institution.

Cancer Memorial Fund Inaugurated Here

In response to numerous requests from families and individuals, the American Cancer Society has inaugurated a memorial fund to which families and friends of cancer victims may contribute, according to Mrs. W. J. Lewis, Memorial Chairman of the Donley County Unit.

"The memorial fund in memory of a friend or a member of the family is acknowledged by the American Cancer Society, and a memorial card is sent to the family stating that a memorial has been received and giving the name of the donor. These contributions may be in any amount," Mrs. Lewis said.

Mrs. Lewis said, "Memorial funds are used to support the Society's three-fold attack on cancer through research, education and service.

Although the major source of funds for this program comes from the Society's annual April Crusade, memorial funds received throughout the year are becoming of increasing importance to the Society as more families and individuals become aware that they can contribute in the name of a loved one to the ultimate victory over this dread disease," Mrs. Lewis said. "The American Cancer Society is deeply grateful to individuals and families throughout the county who are using this practical means of assisting the Society on the fight against cancer."

"Memorial funds should be sent to the American Cancer Society, Donley County Unit, Box L, Clarendon, Texas," Mrs. Lewis said.

1965 WHEAT PROGRAM

Friday, October 2, 1964, is the last day for producers to sign-up in the 1965 Wheat Program. If you sign up now to take wheat out of production you will get:

- (1) Diversion payments
- (2) Certificates and
- (3) A chance to change your intention in the spring

You will get the above benefits whether you have a big yield, an average yield, or a complete crop failure of your wheat crop.

These benefits are available only if you sign up by October 2, 1964. See your ASCS Office for more details.

HAYING AND GRAZING DIVERTED ACRES AND/OR CR

Producers who are interested in grazing or haying soil bank and/or diverted acres should keep in mind that before they do anything with these acres, they must file a written request and have prior approval to do. Failure to do so will be considered a violation of the soil bank contract and/or wheat and feed grain agreements.

Please keep this in mind and if you have any questions, stop by the office and let us go over them with you.

ACP

The individual cost-share limit a person may earn under this program has been increased from \$1,000 to \$1,500.

CHANGE IN OFFICE HOURS

Beginning October 6, 1964, the office will be closed from 5:30 to 9:00 A.M. each Tuesday morning. This is for Tuesday mornings only. This time will be spent for staff conferences.

THOUGHT FOR THE DAY

"Don't be discouraged if your efforts are criticized. At least you've done something worth talking about."

GRAZING DIVERTED ACRES

We have received word from the State Office that all diverted acres in our county have been released for grazing beginning today, October 1, 1964. This grazing will be free. Producers who now have applications on file for grazing will only be charged through September 30, 1964.

Please remember, this is for grazing only. If you plan to harvest hay from these acres, you must have prior approval of the committee and pay the fee.

National Fire Prevention Week Proclamation

Whereas the President of the United States has proclaimed the week of October 4-10 as National Fire Prevention Week; and whereas experience has shown that effective community fire-prevention programs can save thousands of lives each year and millions of dollars in property, I, C. J. Lohoefer, Mayor of the City of Clarendon, do hereby proclaim October 4-10 as National Fire Prevention Week in Clarendon and do urge all citizens of the community to check their own premises and business establishments to erase all fire hazards.

In witness whereof: I have hereunto set my hand and caused the Seal of the City to be affixed. This the first day of October, 1964.

C. J. Lohoefer,
Mayor, City of Clarendon

Bronchos Travel To Groom Friday Nite To Play Groom Tigers - 8 p.m.

Colts Win Tilt With Groom 16-0

The Junior High Colts racked up another victory when they met the Groom Junior High team on Broncho field Thursday night. The game ended with the Colts scoring 16 points to the Groom 0. The first quarter was scoreless but in the second quarter Robert Thomas set up the first talt when he ran 40 yards then gained another 5 to make the first touchdown and extra points. The third quarter was scoreless. The second touchdown came in the fourth quarter when Mike Sloan ran 30 yards to reach pay dirt. Walter Reese carried for the extra two points.

The team made good effort on both offense and defense.

The Junior High Pep Rally was held at 1 p.m. Thursday afternoon.

The Colts will meet the McLean Junior High team at McLean Thursday evening, tonight. Game time is 7 p.m. Fans are invited to go along with the Colts and help cheer them to another victory and see a good game.

SEVERAL INJURED IN WEEK END CAR MISHAPS

Three separate auto mishaps Friday and Saturday kept Murphy Funeral Home Ambulance service quite busy.

Early Friday morning, a motor scooter operated by Joel Greene, son of Mr. and Mrs. W. S. Greene, was in collision with a pickup driven by Pete Bromley. Both Bromley and Joel were taken to Adair Hospital where Bromley was treated for shock and Joel was treated for head lacerations. He received a broken tooth in the accident.

Saturday, two Indian brothers by the name of Wildcat, flipped their car a mile east of town. Both were treated at Adair hospital and released.

Saturday afternoon, a car driven by Ray Briggs of Amarillo and Jim Formway were in collision at the intersection two blocks west of stop light on highway 287. Briggs was taken to Memphis hospital and treated for broken ribs and a back injury. Three grandchildren who were accompanying him back to Amarillo were uninjured along with Formway.

Screwworm Case Found On High Plains

A confirmed case of screwworms has been reported from Briscoe County. Officials of the Southwest Screwworm Eradication Program say the case was found on a ranch about 20 miles northeast of Silverton. This is the first reported case of screwworms since last fall on the High Plains.

The screwworm infestation was found in the eye of an animal. At the present time, Program officials say origin of the case is unknown. It was not known whether the case was in cattle brought in from another area or in cattle which had been on the ranch for some time.

Action has already been taken to find out more about the case and to get control measures underway in the area where the case was found. Sterile screwworm flies will be dropped over the infested area within 24 to 48 hours.

Close check on your livestock is vital at this time, says Dixon Hubbard, Extension Livestock Specialist, Lubbock. Keep stock under close surveillance and call county agent Flip Breedlove at once if an animal is found that is thought to be infested with screwworms. Breedlove can send some of the maggots to the Screwworm Eradication Center at Mission, Texas. If they are found to be screwworms, you will be quickly notified.

Don Rummel, Area Extension Entomologist says all producers should use an approved smear or repellent on all wounds or other cut areas on all livestock. This is doubly important at this time, since screwworms migrate fast during the damp, cooler weather experienced lately.

Any further information concerning this problem can be had from Breedlove's office.

BILL TODD IMPROVING

Friends will be pleased to learn that Bill Todd is reported improving nicely at this time and will possibly get to come home this week end. Mr. Todd underwent major surgery last Friday. He is in room 759, Northwest Texas Hospital in Amarillo.

Mrs. Bertha Beard former resident of Clarendon attended funeral services for her brother-in-law Virgil V. Jackson at Albuquerque, N. M. Sept. 19th. Mr. Jackson and family had visited often in Clarendon with relatives and friends in past years.

TWC Approves Greenbelt Water Permit To Move Dam Site Near Here

Fire Department To Host Open House Saturday, Oct. 10

The week of October 4th thru 10th will be National Fire Prevention Week and the local Fire Department will have a full fire prevention program going throughout the week. Fire Prevention Posters have been put up in the business district at this time and fire inspection information has been distributed to the operators of businesses within the community.

Basil Smith, Fire Chief, states that a full program of fire prevention and inspection information will be handled through the school children and the climax of the weeks activities will be an open house at the Fire Station on Saturday evening, October 10th. Film strips will be available for showing in the schools and a fire prevention poster contest will be held among the 4th and 5th grade students. The posters will be judged by the fire department on Thursday night, Oct. 8th and the winners will be announced and the posters on display at the Open House on Saturday morning.

Smith stated that it has been some time since we have had a major fire in the City of Clarendon and to keep this record of fire prevention, will depend on you and your co-operation in the inspection and elimination of fire hazards, not only during National Fire Prevention Week, but every day of the week and every week of the year. Inspect your home and businesses now and renew your pledge, during Fire Prevention Week, to become more cautious with combustible materials, and more conscious of fire hazards and the elimination of them.

The Texas Water Commission approved the permit to change the dam site of the Greenbelt Municipal and Industrial Water Authority to a place five miles north of Clarendon, near Highway 70, in a meeting in Austin Monday.

Following the meeting, Dr. Shell H. Townsend, authority president announced the contract for building the dam would be let just after the first of the year, 1965. Of course this will happen only if things continue like they have at the present," he said.

The meeting with the TWC was attended by Dr. Townsend, State Sen. Andy Rogers and authority attorney and secretary-treasurer William J. Lowe of Clarendon.

Dr. Townsend announced today that the pipe for the 73-mile line from Lelia Lake Creek to Childress and Quanah would be delivered from plants in Dallas and Odessa on November 16. "The pipeline will be completed by June 1, 1965," Dr. Townsend said.

"Plans now call for Childress to be the headquarters of the pipeline - laying project," he said. "We understand that the line will be laid Childress to Quanah and from Childress to Lelia Lake Creek."

Dr. Townsend received the signed contracts on the pipe line Tuesday from the R. H. Fulton firm of Lubbock, the contractor who presented the lowest bid on the project.

SERVICES AT ODESSA FOR JOHNIE W. BEARD

Johnie Wayne Beard, 11, son of Mr. and Mrs. J. L. Beard of Odessa and formerly of Clarendon, died early Thursday in an Azle hospital. He has been in ill health since birth.

Funeral services were held Saturday at St. John's Episcopal Church, Odessa with burial in Sunset Memorial Gardens.

Survivors also include two sisters Tammy and Tracy Beard, both of the home; paternal grandmother, Mrs. Bertha Beard of Odessa; maternal grandparents Mr. and Mrs. Cecil Combost of Odessa.

Dr. Robert Gerner, a surgical resident at the Milwaukee County General Hospital in Milwaukee, Wisconsin, spent the week with his mother, Mrs. E. H. Gerner and other relatives.

Jaycees Complete City Industrial Survey

The Clarendon Jaycees undertook a project earlier this year of completing an Industrial Survey for the City of Clarendon. The forms for this survey were furnished by General Telephone Company and through a special call from their San Angelo office, a rush was made to complete the forms with up-to-date information.

The call came through on Friday of last week, asking that the forms be completed and sent to the San Angelo office, as they had a good factory prospect for Clarendon. Our town was picked due to the Greenbelt Dam site being located near here.

The Clarendon Jaycees started Friday and completed the survey some ninety man hours later. The project was completed with the wonderful help and cooperation of all the people in town that were called upon to gather the information. Clyde Price, Jr., project chairman says that he certainly appreciated the way the people of Clarendon worked together to complete this very worthwhile survey.

By Congressman Walter Rogers

The United States of America is the finest and the greatest

You may be ... drinking dirty water ... without knowing it!

It's no wonder! Most tap water is dirty! It may contain rust particles, sand, algae, worms, and other old-fashioned dirt. It may be rusty, pink and cloudy, flat-tasting water. But ... you can clean it up ... easily, inexpensively.

A special home water filter, the Aqua-Pure® removes even microscopic particles. This new filter gives you thousands of gallons of sparkling clean, filtered water. Call us today. The unit is smaller than you'd think!

The Aqua-Pure filter will clean several POUNDS of dirt from your water each year!

Clip this adv. It is worth \$1 on the purchase of this filter at \$33.55. Deluxe model—Taste Free. Odor Free at \$32.50.

nation in the history of mankind. No civilization, modern or ancient, can produce any comparable accomplishments in the government of mankind. No country in any civilization in the history of mankind has approached our country and its philosophies in guaranteeing, insuring, and preserving the basic rights of the individual man.

Because of our position, brought about by the blood, the sweat, the tears, and the devotion to duty of our own ancestors, we have living evidence to substantiate the faith and confidence we should all have in our philosophy of life, in our form of government, and in our understanding of the needs of man. As far as I am personally concerned, this faith and confidence is absolute and concrete, and it is my wholehearted feeling that we can, as a nation, meet and destroy any challenge from without or within. I believe that a great majority of other Americans feel as I do, and it is because of this that my confidence in the future is and shall remain unshaken.

On the other hand, we have a vocal and bitter group in our midst who continually defile our governmental structure, demean the basic principles upon which freedom has been founded, and viciously attack their fellow Americans. It is these Americans who disturb me, not because I think they will ever mount a force sufficient to destroy America and what it stands for, but because I feel they are contributing to the cause of those in foreign areas who are deeply jealous of our accomplishments and who try to destroy those things which we have built.

I have no difficulty in understanding why Nikita Khrushchev would condemn and demean our institutions, our philosophy of government and our achievements. He has visited our country for only a short stay. However, he saw enough to convince him of the great strength, of the great faith, and of the great confidence enjoyed by the American people. Certainly it would be his mission to return to Communist Russia and try to belittle our institu-

tions, our government, our resources, and our ability.

The same could be said of Mao Tse-tung, except that he has not visited our country. He, too, is a party in interest with Khrushchev to try to destroy the United States of America and all that it stands for. He is a Communist at heart and bent on the domination of mankind in this world.

The same rule could be applied to Castro who has known this country much better than any Communist. Castro is fully familiar with our country, our government, our philosophies, our principles, and most of all, our people. He has enjoyed the great luxuries that have been made possible for mankind through the ingenuity of our people in this great country.

We could name others in Communist countries or in borderline countries who are always ready, able, and willing to downgrade, to poor mouth, condemn, vilify, castigate, and to eventually destroy us and what we stand for. Yes, I can understand these people who are either misguided or acting with malice aforethought. They feel that they have something to gain.

But what I cannot understand are those Americans among us who leave no stone unturned to cast every suspicion on our government, our institutions, our activities, our way of life, and even our own neighbors. People who, in many instances, are living in the lap of luxury, enjoying every conceivable benefit that has yet been produced by man. Some of whom have not even had to work for the riches they now enjoy and many of whom have received the richest blessings of God and their fellowman, and who, because of their material wealth could help measurably in the solution of many of the ever-present problems of man. I can not believe that they would consciously contribute to the cause of those enemies of freedom who constantly seek our destruction. I would hope that

they would re-evaluate their positions, their activities, and their attitudes, and realize that an unintentional dis-service is as damaging as if it were intentional.

Our country, its institutions, its resources, and all of its people need these other Americans for a united front in the furtherance of the basic philosophy of the freedom and dignity of man as an individual, the bedrock upon which this country stands.

ELECTRIC FARM HAND NEEDS CARE FOR SERVICE

Electric motors can be used for many work-saving jobs around the farm and in the home, but should not be overworked, says Henry O'Neal, Extension agricultural engineer, Texas A&M University.

Electric motors can be burned out by overloading, low voltage, high temperature conditions, or short circuits, O'Neal warns. Small motors can be bought with built-in protectors against overloading and high temperature conditions. The motor is automatically turned off if it gets too hot, and it is a good safety investment, he says.

General purpose motors will operate satisfactorily at 15 percent overload without harm in temperatures up to 104 degrees F., O'Neal says. If a motor is too hot for you to hold your hand on for a few minutes, it is in danger of overheating, he explains.

Larger motors, one-half to one horsepower and up, should be protected by a magnetic starter. A motor starter is a good investment and insurance against an expensive motor burn-out.

SENIOR PERSONALITIES

Gene Branum was born April 7, 1946 in Amarillo. He is a tall six foot three with blond hair and brown eyes. He says that his pet peeve is the "Doings of L.B.J." His idol of course is "Goldwater". His favorite foods are fried chicken and homemade ice cream. The colors that dazzle him are red and blue. His ambition is to become a successful lawyer, once out of college.

Gene's recreation is to travel to different places. (China) His favorite movie is "Parent Trap". The ideal girl of Gene's is any girl he can get to smile at him. (He likes toothpaste smiles!)

Regina Borden was born April 11, 1947 in Clarendon. She has brown hair and brown eyes. She says that her pet peeve is Buddy Wooten in English class. Her favorite foods are candy and steak. Her favorite color is red.

Her ambition is to be a hair stylist. (I wonder what the women's hair styles will be like then!) The thing that she likes to do best is play tennis. The movie she enjoyed best was "Palm Springs Weekend." (I bet she would like to go there. Who wouldn't!) Her dream boy is Sammy Johnson.

Mrs. Wills Speaks To Pathfinder Guests

Mrs. Lia Wills of Pampa spoke to members of Pathfinder and guests at their meeting in Patching Club House Friday afternoon.

Meeting was opened by Mrs. T. M. Caldwell, Jr. who led the group in the Pledge of Allegiance and after singing two verses of "America" Rev. Bob Ely, pastor of First Methodist Church pronounced the invocation. Mrs. Caldwell then presented Mrs. Wills.

Mrs. Wills, a refugee from Yugoslavia, has lived in the United States for some eight years. She spoke on dangers of Communism in America and gave first-hand experiences of what it means to live under Communist rule in a country where freedoms have been lost. She closed with a warning to America, a warning of the way Communism is creeping into American government, schools, and churches and urged all to be aware of the situation and do everything possible to preserve our rights.

Mrs. Wills was accompanied by Mrs. Saunders of Germany. Mrs. Saunders has been in the United States one month and in Pampa one week. She is married to an American serviceman.

During the social hour refreshments were served from a beautifully laid table centered with an arrangement of fall flowers. Fall flowers also decorated the entertaining rooms.

Hostesses for the afternoon were Mrs. Frank Phelan, Jr. and Mrs. Wm. S. Greene. They were assisted by Mrs. C. G. Stricklin. Approximately fifty members and guests were in attendance.

SIX OCTOBER PLENTIFUL FOODS EXEMPLIFY FALL ABUNDANCE

Fall, the time of harvest, is living up to the highest expectations again this year.

For October offers another harvest of abundance, with apples, rice, beef, cheese, turkeys and Bartlett pears in especially big supply.

Apples and rice are featured on the U. S. Department of Agriculture's October list of plentiful foods, reports the Texas Agricultural Extension Service.

You can look for high quality at attractive prices when you select apples this October. They'll be ideal for Halloween "trick-or-treat" and parties. This year's forecast promises the largest crop since 1937 and a 20 percent gain over the 1958-62 average. Oct. 15-24 is National Apple Week.

The predicted rice harvest, most of which will be completed in October, tops the average by 33 percent.

Beef, particularly lower grades, will continue plentiful, as it has been for more than a year, according to USDA's Agricultural Marketing Service. So plan on lots of hamburgers and meat loaves for October menus.

A larger turkey crop than last year's promises a big supply of these poultry favorites this month.

And cheese and Bartlett pears, both in greater supply than last year, will offer lots of easy-to-prepare taste enjoyment.

FHA LOANS ASSISTING YOUNG FARM FAMILIES

Mr. Claude Moore, County Supervisor of Armstrong, Donley and Gray Counties, advises that twelve young farm families are receiving loans to assist them in the purchase of farms, the construction of essential farm buildings, the acquisition of livestock and machinery, and funds for the further development of their resources this year.

"Over 1,000 young farmers less than 35 years of age have received the financial and technical assistance of the Farmers Home Administration in Texas this year," stated L. J. Cappleman,

State Director. Mr. Cappleman reported that, "One of the major endeavors of the Farmers Home Administration in 1964 is to assist young farmers in accomplishing the extremely difficult task of acquiring the capital and the skill needed to take over the farms of their retiring elders."

Mr. Moore stated that over the past three years, many young farmers who received the assistance of the Farmers Home Administration have been formally recognized as outstanding young farmers in the State by various publications and farm organizations.

The County Supervisor advised that this financial assistance is available to young farm families who are unable to obtain adequate credit from private sources meet all eligibility requirements and have the ability and the desire to become successfully established in farming and ranching operations.

Few woodchucks get up as early as February 2, since this date is still midwinter to them.

SHELL GAME — State Sen. William Patman of Ganado and Rep. Paul Haring of Goliad have entered strong protests with the State Parks and Wildlife Commission, on behalf of their constituency, opposing an application by Heldenfels Brothers of Corpus Christi to dredge for oyster shells in Copano Bay.

According to Haring, Heldenfels Brothers wants to use the shell to build a road by Copano Bay. But the State Highway Department would readily accept the use of lime instead. Protesters insist that dredging in the bay would kill off live oyster reefs and destroy fishing, sporting and tourist attractions in the area.

Palmetto Dam Project

Edna and Ganado area people packed a Water Commission hearing room when Bureau of Reclamation representatives and the Jackson County Flood Control District took up consideration of the proposed Palmetto Bend Dam Project.

Most of those attending the hearing favored construction of the 15-mile dam which would cost \$48,150,000 to build. However, Commission Chairman Joe Carter said no written protests had been received.

Harry Burleigh, area planning engineer of the Bureau of Reclamation, outlined the two-part project. It will begin with construction of a dam across Navidad River to form a reservoir with a capacity of 192,000 acre

feet and a conservation level of 44 feet.

Part two of the plan would extend the dam across nearby Post Oak Branch and Lavaca River.

Burleigh said that the first phase, if authorized by the Commission, plus the Federal House and Senate and the people of Jackson County, would satisfy Jackson County's water needs for about 19 years.

Commission, which will write the state's comments on the project, took the matter under advisement after six hours of discussion.

HEARINGS CONCLUDED — A legislative study committee completed its hearings on congressional redistricting and settled down to figuring how to draw 23 districts of equal population.

At the final meeting in Austin Rep. John Traeger of Seguin suggested a redistricting plan which would create a new 16-county district in the Guadalupe River Basin. His proposal also would combine the East Texas districts of Congressmen John Dowdy of Athens, Wright Patman of Texarkana and Lindley Beckworth of Gladewater.

Unless the study committee of the Texas Legislative Council comes up with something better, Traeger served notice he intends to submit his plan to the next Legislature.

Sen. George Moffett of Chilli-coche, committee chairman, indicated repeatedly that the panel is aiming for a plan in which no district varies more than five per cent in population from the mathematical average of 416,508.

MENTAL RETARDATION PLAN — Texas' biggest effort to initiate a plan reaching into many communities for combating mental retardation is under way.

Planning work was authorized by a special committee appointed by Governor Connally.

Goal of the committee is to measure the size of the problem, pinpoint available services and accurately forecast needs to treat and prevent retardation. A long-range study is planned under federal grants.

Mental retardation afflicts 300,000 Texans. Over 8,000 mentally retarded children are born each

year, the committee was told.

Hearing on application of Portland Savings and Loan Association for a charter is set for November 25 by Savings and Loan Commissioner James O. Gerst

State Banking Board set hearings on charter applications of Brook Hollow State Bank, Dallas, Fritch State Bank at Fritch and Harris County State Bank, Houston, and on September 25 will hear applications of Colonial State Bank, Wake Village and Downtown State Bank, Houston.

HIGHWAY WEEK in Texas for 1964 will be observed October 4-10. Governor John Connally holds the official proclamation just after signing it at the State Capitol in Austin. Admiring the hand-lettered, illuminated proclamation are members of the Texas Highway Commission and State Highway Engineer D. C. Greer (right). Others pictured (left to right) are Commissioners Hal Woodward of Coleman, Herbert C. Petry, Jr., Chairman, of Carrizo Springs, and J. H. (Jack) Kultgen of Waco. Sponsoring the event is the Texas Good Roads Association which has taken as theme for the observance: "Mobility: Your Fifth Freedom."

Howell of San Antonio to succeed E. E. Voigt on the San Antonio River Authority Board. Howell an oilman, is also a director of the San Antonio HemisFair.

PALMETTO DAM PROJECT — Edna and Ganado area people packed a Water Commission hearing room when Bureau of Reclamation representatives and the Jackson County Flood Control District took up consideration of the proposed Palmetto Bend Dam Project.

Most of those attending the hearing favored construction of the 15-mile dam which would cost \$48,150,000 to build. However, Commission Chairman Joe Carter said no written protests had been received.

Harry Burleigh, area planning engineer of the Bureau of Reclamation, outlined the two-part project. It will begin with construction of a dam across Navidad River to form a reservoir with a capacity of 192,000 acre

feet and a conservation level of 44 feet.

Part two of the plan would extend the dam across nearby Post Oak Branch and Lavaca River.

Burleigh said that the first phase, if authorized by the Commission, plus the Federal House and Senate and the people of Jackson County, would satisfy Jackson County's water needs for about 19 years.

Commission, which will write the state's comments on the project, took the matter under advisement after six hours of discussion.

HEARINGS CONCLUDED — A legislative study committee completed its hearings on congressional redistricting and settled down to figuring how to draw 23 districts of equal population.

At the final meeting in Austin Rep. John Traeger of Seguin suggested a redistricting plan which would create a new 16-county district in the Guadalupe River Basin. His proposal also would combine the East Texas districts of Congressmen John Dowdy of Athens, Wright Patman of Texarkana and Lindley Beckworth of Gladewater.

Unless the study committee of the Texas Legislative Council comes up with something better, Traeger served notice he intends to submit his plan to the next Legislature.

one time would result in savings, Burleigh stated. But Commissioner Otho Dent was reluctant to consider part two immediately.

"If phase one is an entity unto itself and you don't intend to do anything with phase two for 15-20 years, I'm not in favor of the state surrendering its rights to control of water in the second watershed at this time," Dent said.

Commission, which will write the state's comments on the project, took the matter under advisement after six hours of discussion.

NOTICE OF ELECTION

Whereas, the petition for the organization of the Hall and Donley Counties Water Control and Improvement District No. One, was on May 26, 1958, duly granted by the State Board of Water Engineers; and

Whereas, the board of directors of said District at a meeting held on August 25, 1964, duly passed and entered the following order to-wit:

It is ordered by the board of directors of the Hall and Donley Counties Water Control and Improvement District No. One, that an election be held on the 17th day of October, 1964, for the purpose of electing five directors of said District, one from each Precinct of said District; that an election be held at Lesley Co-op gin office for voters residing in Precincts Nos. 1, 2, and 3 of said District; and an election be held at the Lakeview Co-Op Gin office for the voters in Precincts Nos. 4 and 5 of said District. Voters shall vote for a director to represent his or her precinct whose name is printed on the ballot, or crossing out the name printed thereon and writing in lieu of the name marked out, any other qualified person.

That the polls shall be opened for such an election at the Lesley Co-Op gin office, in said district, and JOE NEAL BERRY, QUILLA CLARK, JOHNNY DRIVER and WORLEY HUGHES being proper persons therefor, they are hereby appointed presiding judge, assistant judge, and clerks, respectively, of said election; and that the polls shall be opened for such election at the Lakeview Co-Op Gin office, in said district, and GLENN VERDEN, AUBREY ROBERTSON, MRS. JAMES SKINNER and MRS. DEL E. WELLS being proper persons therefor, they are hereby appointed presiding judge, assistant judge, and clerks, respectively, of said election.

No person shall vote at said election, at either of the two polling places, unless he is a qualified voter under the constitution and laws of Texas and unless he is a resident property tax paying voter in said District. All votes of such election shall be by ballot.

Said election shall be held and conducted in accordance with the laws of Texas for the holding of general elections for State

and County officers, except as herein otherwise provided.

On or before five days after such election the persons holding such election shall make in triplicate due returns of all votes cast, one copy being retained by the presiding judge, one copy delivered to the president of the District, and one copy delivered to the secretary of said District. Public notice of this order shall be given by publication of the copy hereof, once a week, for three consecutive weeks in a newspaper of general circulation published in each of the counties in which said district is located, the first publication shall be at least twenty-one days prior to the election and not more than thirty-five days prior thereto.

By order of the board of directors of the Hall and Donley Counties Water Control and Improvement District No. One,

HILLTOP NOTES
 News from CJC

THIS AND THAT
CJC Cagers Look Good
 We were privileged to sit in a Bulldog work-out for a little while the other day, and were quite impressed by the prowess and ability of this year's players. Coach White says his boys are not on experience—only two sophomores—but they are long speed and natural ability. If you find yourself with a little extra time on your hands, amble over to the gym after 3:00 and watch the Bulldogs going through their paces. They will appreciate your interest.

HERE AND THERE
Local Church of Christ Entertains Students

All college students who are members of a Church of Christ were invited to be special guests at the local church last Wednesday evening. Supper was served at 6:00, and then the group attended a lecture, one of a series, hearing guest speaker Mr. Bob Wear of Canyon, Rev. Robert C. Jones is pastor.

WHEN AND WHERE
President Speaks
 CJC held its first assembly Wednesday, September 23, at 10:00 A.M. President Vaughan was the principle speaker, welcoming each student to Clarendon Junior College, and congratulating them on the wisdom of including a college education in their plans for the future. He challenged them with the information that the average lifetime earning power of an individual with an elementary education would be \$184,000. The average high school graduate would earn \$247,000 in his life-

of college would earn, on the average, \$293,000 in his life-time, and the average college graduate would have a life-time earning amounting to \$417,000. President Vaughan pointed out that each year spent in Clarendon Junior College could mean as much as \$23,000 to a student, or a total of \$46,000 during the two year course.

"Of a hundred students starting third grade together, only 54 will graduate from high school; only 35 will enroll in college; and only 16 will graduate from college," President Vaughan stated. These are rather sobering figures, and we here at the college were quite impressed.

WHO AND WHAT
Meet the Faculty
 Mrs. Joan Hamilton is another new face among members of the faculty at Clarendon Junior College. She hails from Levelland, Texas, and is a graduate of Iowa Park High in Wichita Falls. Mrs.

Hamilton took her B.B.A. degree from North Texas University and earned her M. Ed. degree from Texas Technological at Lubbock. She taught English for two years in Colorado City, Texas Public Schools before coming to Clarendon Junior College as head of the English Department.

Mrs. Hamilton is a member of the Methodist Church and holds a membership in various professional organizations, including Texas State Teacher's Association and Texas Junior College Teacher's Association. Her hobbies include sewing, reading, and bridge. She has two sons, Scott, aged 7, and Alan, aged 5. Mrs. Hamilton said that she was very favorably impressed with Clarendon and the college and pleased to be a member of the community and of the college faculty.

Bronchos Outclassed By Shamrock Irishmen

The Clarendon Bronchos were outclassed by the Shamrock Irishmen to the tune of 40-16 Friday night in Broncho Stadium. Although the Bronchos fought hard to the end, the Irish dominated the game on defense as well as offense.

Shamrock's first score came on the first time they gained possession of the ball. They kicked off to Clarendon, then held the Bronchos on downs and forced them to punt. The Irish drove to the 10 yd. line where their quarterback rolled around right end for the first six points. Two more points were added when the Irish halfback ran the ball over for the extra points.

The Bronchos failed to move the ball and were forced into a punt situation, but a bad snap from center gave Shamrock the ball deep in Broncho territory. Taking advantage of this break, the Irish scored again on a pass to right end. They attempted to kick the extra point, but a penalty nullified the attempt and the score was 14-0.

Clarendon scored their initial TD in the second quarter. The tally was set up by a long pass from David Mooring to Lawrence Gardner. Then Mooring passed again, this time to Richard Bell in the end zone for six points. Another pass from Mooring to Bell for the two extra points made the score 14-8.

Shamrock took the ball on kickoff and promptly moved it downfield to score in three plays. They also added two extra points. The Bronchos took the ball on kickoff after the score but were unable to move it and Shamrock took possession on downs. The Irish luck held and they scored again on a 4th down pass to the left end. When their attempt to make the extra points failed, the

score remained 28-8 at the end of the first half.

At the beginning of the second half, Clarendon tried an on side kick and gained immediate possession of the ball. The Bronchos then quick kicked to the one yard line, hoping to hold and regain possession, but Shamrock moved the ball out of danger. Then the Irish quarterback broke loose and ran 70 yards to pay dirt. Their extra point attempt failed leaving the score 34-8. Shamrock scored their last goal on a quarterback keeper around right end making the score 40-8.

In the fourth quarter Richard Bell intercepted an Irish pass. The Bronchos scored on the next play with a long pass from Mooring to Bell. The same combination worked for two extra points, and the final score was 40-16.

The Clarendon coaches were somewhat disappointed with the Broncho defense and with the poor protection given the passer on offense. The coaches singled out no particular players as being outstanding on defense, but were pleased with the gang tackling shown by the whole team. Offensive standouts were Mooring, Gardner and Bell.

GROWERS CONTRIBUTE TO KEEP COTTON CLASSING OFFICE

Final plans were made last week to open the Memphis Cotton Classing office. No definite date was mentioned for the opening which will be set when sufficient cotton samples begin to arrive from gins in this 12 county area.

In order to meet the financial commitments necessary for the continued operation of the Classing Office, a voluntary collecting program of 25 cents per bale from cotton growers of the area from the 1964 crop will be conducted. Gins in the territory will act as collecting agents as they did in 1959 and 1960. Money collected will be used to pay for the operation of the equipment and upkeep on the building.

This arrangement will be of special interest to cotton growers of this area. The Memphis office is much nearer this area than the Altus office and handling of the cotton can be expedited by maintaining it.

A 12 county district is represented in the Rolling Plains Cotton Producers, Inc. and directors of this organization have the responsibility of supervising the operation of this office along with the U. S. Department of Agriculture. Directors expressed their appreciation for the cooperation of the gins in the district and stated that this year's collecting program is absolutely essential to keeping the Classing Office in operation in this and future years.

A. J. Garland is secretary of the Rolling Plains Cotton Producers, Inc. and the director from Donley County is H. S. Mahaffey. Other counties included are Hall, Motley, Cottle, King, Childress, Collingsworth, Wheeler, Briscoe, Armstrong, Gray, and Carson.

COVER CROPS

This is the time of year when cover crops are grown primarily for winter protection. However, if some of the spring seeded crops failed due to drought, and if moisture conditions are favorable, a cover of sorghums, sudan, or millet may be drilled in late summer in order to provide protection during the critical wind erosion period. Since there is very little native grass grazing

this winter, these cover crops will be very valuable in their use as winter grazing.

A point should be made that cover crops are generally grown, primarily for protection and therefore should be carefully managed. Generally a 4" average stubble should be left on legumes and at least 50% of cereaceous type plants should be left. This information is related by your local Soil Conservation Service.

NEW CROP TURKEYS COMING TO MARKET

Any day can be turkey day, for turkeys have changed their status from special day holiday fare to special everyday food, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist. New-Crop birds are arriving at many Texas markets.

Consumers have a wide choice of forms of turkey. These include whole birds, boneless turkey shaped to resemble a whole turkey, turkey rolls, whole turkey leg roasts, turkey breasts, drumsticks, and smoked turkey.

Processors work continually to make turkey one of the most convenient foods. The first oven-ready birds of several months ago and the more recent boneless selections have followed by the ultimate in convenience—

turkeys that have a "pop-up" cooking gauge which tells when the bird is done. This new addition takes all the guesswork out of turkey roasting for those who do not have meat thermometers.

This year's turkey crop is expected to be 5 per cent larger than the 1963 crop. These large supplies, plus competition from beef and broilers, are keeping late summer prices low. The new-crop turkeys coming to market are offering delicious eating at prices that are easy on the food budget, says Mrs. Clyatt.
