CHS BAND ENTERS UIL CONTEST

Wednesday of last week the Clarendon High School Band took part in the University Interscholastic League band contest at Caprock High School in Amarillo. Approximately sixty bands from this region participated. Bands were judged in two areas: concert playing and sight reading ability. In concert competition each band performed one march and two overtures for a panel of three judges. In the sight reading competition each band was required to perform an overture at sight—without any rehearsal whatsoever. Ratings of I thru V were given.

The CHS band received a division II rating in concert and a II rating in sight reading. This is extremely good considering our band has not entered this competition in three years. Only four bands in our classification (A) received better ratings.

The Band members and Mr. Anthony are looking forward to next year—to a bigger and better band for Clarendon High School.

QUANAH MAN BUYS TOP STALLION

QUANAH, Tex. (Special)—A Quanah insurance man with an eye for horseflesh has added a top-flight quarterhorse stallion to his breeding stock here this spring.

John T. L. Jones Jr., who breeds Quarterhorses for racing, has acquired Bar Heels, a full brother to Bobs Folly, a former world record holder. Bobs Folly stands 12th for all time in the number of AAA qualifiers in Quarterhorse racing.

Bar Heels' mother has produced a total of seven ROM qualifiers, five of which are AAA winners. Other stallions in Jones' stables near Quanah are Kays Children TB, a half-brother on the dam side to five stakes winners and three stakes producers; as well as Dawns Ruby.

WEEK END 'SPECIALS' CAN CUT FOOD COSTS

Use week end specials as a guide to cutting food costs, says Mrs. Gwen Clyatt, Texas A & M.

Prices do fluctuate, and shop-mond, Virginia.... Along this same line a letter came this week from the editor of the above magazine asking about four pages of questions and wanting a picture.... Now, what could this mean?.... He is asking for it, isn't he?

Captain Frank Daugherty, 1605 North 25th Street, Lawton, Okla. came zipping along with these nice commandments as given to the employees of a Chinese bank;

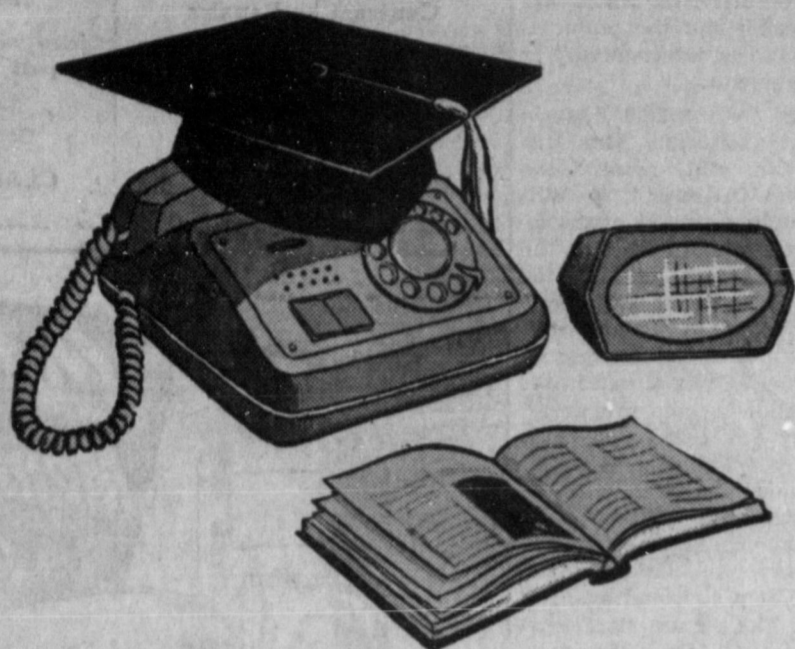

1. Don't lie, it wastes my time and yours. I'm sure to catch you in the end.
 2. Watch your work and not the clock. A long day's work makes a long day short, and a short day's work makes my face long.
 3. Give me more than I expect, and I'll pay you more than you expect. I can afford to increase your pay if you can increase my profits.
 4. Keep out of debt. You owe so much to yourself that you can't afford to owe anyone else.
 5. Dishonesty is never an accident.
 6. Mind your own business, and in time you will have your own business to mind.
 7. Don't do anything here that hurts your self-respect. The employee who is willing to steal from me is capable of stealing from me.
 8. It's none of my business what you do at night, but if dissipation affects what you do the next day you will last half as long as you hoped.
 9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet for my vanity, but I need one for my money.
 10. Don't kick if I kick. If you are worth correcting you are worth keeping.
- Winding up the mail for the week; Mr. & Mrs. Guy Watson of Wayside sends a card asking Uncle Zeb not to give up for awhile. This fat mail this week does give a lot of encouragement. Thanks....

Extension consumer marketing specialist. pers who take advantage of these slight changes can come out ahead.

A recent study by the Economic Research Service of the USDA showed that the average weekly food bill for a family of four—which included two teenagers—was \$32.11 over a three-month period. During this time, the food bill varied from month to month. For the first month, the market basket averaged \$33.04 a week, and one month later the cost of the identical food was \$1.13 less. By the third month, it had dropped another

51 cents. Lower prices for meats and some vegetables were responsible for most of the differences, the survey showed. Meat, which accounts for one-third of the family's weekly food bill, was the item most frequently on sale. Among the meats on sale during the survey, chuck roast was the first followed by frying chickens, ground beef and luncheon meats. Also listed were vegetables, dairy products, fats and oils, fruit and vegetable juices, fresh and canned fruits, coffee and soft drinks. These items can add up to a well-balanced diet, the specialist says.

Speaking of Zip Code; we noticed an AP story in today's paper to the effect that they had run a check on the zippiness of the zip. It seems that the un-zipped letters go here first....

Another letter came all the way from Walter McLaren of Buena Park, California. His street address is 6902 Indiana Street, and his zipper stops at 90621.... Walter is well remembered in these parts of Texas. He is 94 years young and has typed out thousands of letters back home since going west some dozen years back. He pecks out four to six page letters full of memories going back for most of a century. Honestly, his memory works better seventy-five years back than mine often does at just seventy-five days. Bless you Walter, and may you make it a good 100 to say the least....

News From Clarendon College

THIS AND THAT

Dafynitions
by Punk Campbell

Spring has finally arrived up on the Hill this week. Which

means that we are finally approaching the last leg of this academic year. Spring fever seems to be taking effect also, because everyone is certainly welcoming the end of school — and then, HOLIDAYS!

I heard a good joke the other day—but on second thought, guess I'll skip that one. However, I did overhear Butch Brown say he thought "perfume" was any smell that was used to drown a worse one.

Clydean Wood says a "sweater" is a garment worn by a child when his mother feels chilly. Kenny Willingham believes that "trade secrets" are what women do.

Joyce Burcham says "tobacco" is found in many southern states and in some cigarettes.

Ronnie Wood thinks outlaws are a menace to society, but "inlaws" are worse.

Saundra Richburg says June is the month when girls like to be "well-groomed."

Wondall Luttrell defines a "tree" as an object that will stand in one place for years, then jump in front of a lady driver.

HERE AND THERE

The tennis season is almost over at Clarendon College, with two remaining matches to be played against Lubbock Christian and South Plains on April 12th and 13th respectively. Our teams have already played against Amarillo College, Howard County, Odessa, New Mexico Military Institute, Frank Phillips, and San Angelo, with a pretty fair average of wins. Johnny Lacy is currently placed third in conference standing in number one singles.

Clarendon College will field teams in the tennis and golf tournaments at the Roswell Regional meet to be held May 7th and 8th. Johnny Lacy, Gregg Wood, Doug Mitchell, Kenneth Willingham, Karen Clements, and Sandy Verden will be at the net. Mickey Daugherty and Bill Trosper will enter the golf competition.

The local Iota Phi chapter of Phi Theta Kappa operated the concession stand in the college gym during the recent volleyball tournament. "The proceeds from the concession stand will be used in the purchasing of a neon sign for the college," stated Larry Hight, chapter reporter.

WHO AND WHAT BULLDOG BANNER Waves in California

The newspaper staff was pleasantly surprised to receive a very nice letter from an ex-student in California, Mr. Wayne Black, who stated that the first copy of its tabloid has been forwarded to him by a friend. He commended the staff for its efforts and said how pleased he was to note the tremendous progress being made by the college in every way. He also included a check for \$20.00 to be added to the Phi Theta Kappa fund for purchasing a sign for the college. Mr. Black is an ex-member of Phi Theta Kappa and he stated that he would like to have a part in this worthwhile project. Our sincere thanks to Mr. Black and other exes for their encouragement and support of Clarendon College.

The Phi Beta Lamda Chapter of Clarendon College met Friday, April 2, for the purpose of issuing membership cards. The National Charter was received and the chapter voted to purchase a frame for it and hang it in the Business Department. The members also voted to sponsor an all-college Dress-Up Day on Wednesday, April 14, which is the last day of classes before the Easter vacation begins. The organization will sponsor a May Day Dance, Saturday night, May

1st. More information will be given on this activity at a later date. Jimmy Blackerby is now acting as First Vice-President.

WHEN AND WHERE

Community Fine Arts Festival
A joint observance of National Library Week and National Music Week is being sponsored by Clarendon College during the week of May 3-7. All students are urged to participate in the varied program of activities which has been planned, and the public is cordially invited to attend any or all of the events.

On May 3rd, at 2:00 P.M. in the college auditorium, Mrs. Mildred Ritter will review the book, "The Ordways," by William Humphrey, noted contemporary Texas author. He tells the story of the transplanting of the Ordway family from Tennessee to Texas, covering the years between the Civil War to the present time. Coffee will be served in the library following the review.

On May 5th, the Movie made from William Shakespeare's classic, "Julius Caesar," will be shown twice at the Mulkey Theatre. Regular admission prices will be charged for the feature, which will start at 5 p.m. and again at 7:30 P.M. The picture stars Marlon Brando and James Mason.

The festival will be concluded on May 7th with a musical program sponsored by the Fine Arts Department in the college aud-

itorium at 10:00 A.M. The Library Faculty Committee, which planned the week's activities, is to be commended for this fine program. The committee consists of Mrs. Doyle Williams, Mrs. Joan Hamilton, Mrs. Velma Weaver, Mr. Weldon Day, and Mr. Daniel Nutter.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Farmers, especially those living near large cities, would get a big tax break under a constitutional amendment now pending in a House committee.

Bill by Rep. W. T. (Bill) Dungan of McKinney, calls for farm land being used for agricultural purposes to be taxed on its productive capacity, instead of its market value.

Witnesses testifying before the House Constitutional Amendments Committee said that in some cases taxes exceed the dollar-yield of the land being used for farming and ranching. In those cases, pressure to sell the land for residential or commercial development virtually is impossible to resist.

Testifying in favor of the resolution, Rep. Alonzo Jamison of Denton said Texas soon may get to the point when only people

with city jobs will be able to afford land in the countryside.

Other supporters were representatives of the Texas Farm Bureau, the Texas Farmers Union, the South Texas Milk Producers Association and farm bureaus of Nueces and Hays counties.

Dungan said the proposal provides for land to be assessed at lower rates so long as it is in agricultural use.

At the time the land is taken out of agricultural production, it would have a lien for the difference between the agricultural tax evaluation and the market value the seven preceding years. Tax would be payable either by the farmer or the buyer.

STUDENT LOANS — Texas students from junior college to graduate school level would be able to get state-financed loans to pay for their education under

a proposed constitutional amendment due to go to the voters in November.

Senate approved the measure by Rep. George Hinson of Mineola to set up a \$75,000,000 bond-supported loan fund.

State, denominational, private college and university students would be eligible to borrow sums needed for tuition and reasonable living expenses. Loans would be repayable in 10 years at four to four and a half per cent interest.

Gov. John Connally recommended the program in his message to the Legislature last January.

If voters approve the plan, Hinson estimates \$28,000,000 to \$32,000,000 will be borrowed by Texas students within the next two years.

LONGER TRUCKS PERMITTED — Larger trucks, twin trailer trucks and three unit combinations soon may be traveling Texas highways.

A bill passed and sent to the governor will extend maximum single trucks from 35 to 40 feet and tractor-trailer maximums from 50 to 55 feet.

Three-unit combinations up to 65 feet long, now not allowed, will be permitted on Texas highways.

DRINKING HOUR CHANGES — Bars would stay open later and liquor stores close earlier under

a House Liquor Regulations Committee recommendation.

Committee okayed a bill by Rep. Dick McKissack of Dallas to extend beer-drinking hours to 2 a.m. seven days a week and make beer available at noon instead of 1 p.m. on Sundays.

Also approved was a bill by Rep. L. DeWitt Hale of Corpus Christi to close package stores at 8 p.m. instead of 10 p.m. Exception would be hotel room service which would be permitted until 10 p.m.

Hale said his bill would help curb liquor store burglaries by closing during hours when most holdups occur.

Committee also heard testimony on a bill regulating liquor sales to minors. It places the burden of responsibility on the purchaser rather than on the seller. Bill calls for Texas Liquor Control Board identification cards for persons age 21 and over.

Retailer could require that cards be shown before making a sale. Misuse of identification cards or misrepresentation in acquiring them would subject purchaser to fine and jail term.

ELECTION INVALIDATED — A justice of the peace and a constable elected by write-in votes in Mitchell County last November cannot hold their offices because at the time of the election the

precincts for which they were elected did not exist, Atty. Gen. Waggoner Carr ruled.

An order of the commissioners court changing precinct boundaries has been entered, but it was made effective January 1.

However, Carr added that it is perfectly lawful for persons to be elected to an office which is not printed on a ballot by writing in the name of the office and the name of the person they wish to vote for. Election in this manner is valid even if only a small number of persons participate.

APPOINTMENTS ANNOUNCED — Four University of Texas regents have been named by Governor Connally. Three of them were confirmed by the Senate a few days later.

Connally reappointed W. W. Heath of Austin. Also named were Jack S. Josey of Houston, W. H. Bauer of Port Lavaca and former Congressman Frank N. Ikard of Wichita Falls. Josey, Bauer and Heath were confirmed. Ikard, who is working in New York, has not yet been interviewed by the Senate nominations committee.

Connally also announced nine appointments to the Texas State Historical Survey Committee. Reg appointees are Patrick E. Taggart of Waco, Charles R. Woodburn of Amarillo, Edward H.

Harte of Corpus Christi, and Lewis R. Timberlake of Austin. Others named are R. Don Thorne of El Paso, Thomas C. Unis of Dallas, Harold L. Kennedy of Palestine, A. M. Pate Jr. of Fort Worth and Robert L. Lowry of Houston.

RURAL PHONE SERVICE HIT — Rural citizens are open to discrimination by some telephone companies, House State Affairs Committee was told.

Witnesses from East, Central and North Texas testified at a hearing in favor of a bill to give commissioners courts or a state commission power to regulate rural area telephone rates.

Bill by Reps. Dick Cherry of Waco and James D. Cole of Greenville was sent to subcommittee.

STATE PARK IMPROVEMENTS — Nearly 100 piney woods residents jointly presented Governor Connally the report of the Big Thicket Park Study Commission.

Included were recommendations that an additional 2,000 acres be acquired for the Alabama-Coushatta Indian Reservation; that a 200-acre camping area be set aside immediately south of the reservation; that a 10,000-acre Big Thicket State Forest be created south of the camp area; that 15,000 acres be acquired and

designated as a Wildlife and Wilderness Area; and that 90 per cent of the Big Thicket country be retained for private uses, but kept in character with the park project.

Texas Highway Department meanwhile announced plans to construct improvements on FM 1915 to make Caddo Lake more accessible to Northeast Texas residents. Project is part of the department program of working with local areas in developing recreational resources.

CAR PROPERTY TAX BOOST-ED — Auto owners would have to show proof they have paid their vehicle property taxes before they could get license plates under a bill approved by the House Revenue and Tax Committee.

Bill by Rep. John Traeger of Seguin, familiar to legislators from past sessions, now is on House calendar for debate.

GAMBLING CURB OFFERED — Proponents of legalized race horse betting have a rival in a proposed constitutional amendment sponsored by Rep. Rayford Price of Frankston to prohibit all forms of organized gambling.

"The unfair thing I ever saw to the little ponies," lamented Rep. V. E. (Red) Berry of San Antonio, perennial champion of horse racing.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

TO HELP SMASH THE SMUT PEDDLERS

The House of Representatives acted April 5 to protect American families from the forced intrusion into their homes of morally objectionable material. On your order, under the terms of this bill, the Postmaster General must require the sender to halt his mailings to you or your children of any mail matter you believe to be obscene, indecent or vile.

You make the determination of what is obscene, under the provisions of this bill, and mailers must respect your decision or face a contempt charge. Under existing statutes aimed at smut peddlers, defining what is and what is not obscene is a question often tangled in courtroom controversy. On the same day the House passed the bill to help you control your own mail, the Supreme Court agreed to hear the appeal of one Ralph Ginzburg, who in December, 1963, was sentenced to five years in Federal prison and fined \$28,000 upon his conviction for sending obscene material through the mails. The Federal judge who tried Ginzburg termed his publications "dirt for dirt's sake and dirt for money's sake." It remains to be seen whether the Supreme Court will sustain Ginzburg's conviction, and the crucial point at issue will be the definition of obscenity.

The bill just passed by the House makes an end run around the problem of defining obscenity. Each person who receives mail is free to apply his own definition. If he feels that unsolicited mail addressed to him—or to his children—is obscene, he may return such mail to the Postmaster General and require him to notify the sender not to send additional such mail. The Postmaster General so advises the sender—who, if he fails to comply, can be held into Federal court and punished for contempt. Enactment of this bill will go a long way to help curb the vile

traffic in pornography. The mass mailers of filth will find that millions of American parents have suddenly come into the possession of a means to curtail their operations. Its enactment would be one more blow aimed at what some have called the "pornography industry" — a business "earning" its unscrupulous practitioners millions, perhaps billions of dollars each year. Last year, according to Post Office Department estimates, more than a million American school children were sent material soliciting their purchase of smut disguised as "art," or "literature," or "culture," or "education."

Ginzburg's publications, for which he was convicted in Philadelphia, were being sent to teenage children. When this matter came to my attention I immediately embarked upon a course to help put a stop to this entire venture. The offensive magazine was Eros Magazine, Inc. It was only after a heated exchange of correspondence that I was able to find out that this corporation (?) was nothing more than a protective front. It had been incorporated by Ginzburg, his wife, Susan, and a Mrs. Celia Abelson. ALL of the stock was owned by Ginzburg. In his own words, he wrote, "I am the only stockholder in Eros Magazine and the Board of Directors consists of myself, my wife and Mrs. Celia Abelson." The people of this country can draw their own conclusions as to why these peddlers of filth think they need some kind of semi-false front behind which to hide. It might be well to remember that their first defense is always, "My Constitutional rights of freedom of speech and freedom of the press." It has been my opinion for many years that the entire

procedure is nothing more than a sinister attempt to create legal entanglements that will defeat the very purpose of the laws and the Constitution behind which they are trying to hide. The Communists have been using this method for a long time—for example, their constant plea of the Fifth Amendment.

The time has come in this country to recognize the fact that words can be as offensive as physical blows. The written word can be more offensive many times than the spoken word, and much more widespread. It is time to stop begging the question and to face the fact that obscenity, filth, pornography, whether spoken, written, portrayed on the screens of movie houses, or shown on television, can produce nothing more than an immorality and corruption of morals than can and will destroy this nation as surely as Sodom and Gomorrah were destroyed. Let us hope the Supreme Court meets this challenge.

LIBRARY NOTES

EDITH BARNES

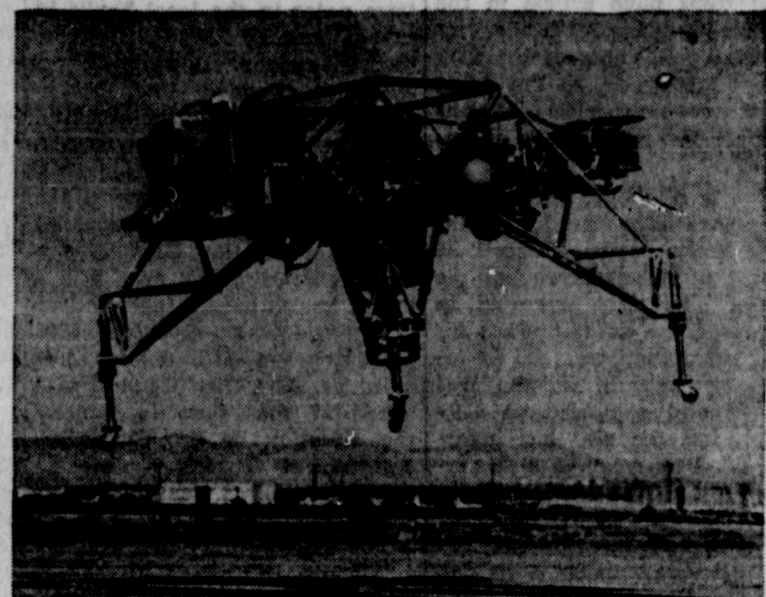

Eight more memorial books have been given to the library dedicated to the memory of Doctor and Mrs. Sarah Stocking. All of these books are about the early days in Texas or the Southwest.

In passing we might mention that the library has a lot of good books on other parts of the United States as well as the rest of the world and ones that cover more of a period of history than the late 1800s and early part of 1900.

Saul Bellow's "Herzog" has been on the Best Seller's List for twenty seven weeks and has been number one for weeks and weeks for what that is worth. It does tell us one thing and that is a lot of people have bought it and still are. It does look like at least a top contender for this year's Pulitzer Prize. His "The Adventures of Augie March" won the 1954 National Book Award.

"Herzog" is the absorbing story of a man's weakening grip on the world of reality then his slow fight back to normality. In the beginning he writes to every body his thoughts touch on even though he knows he will never mail these letters.

"Quoting: "Yet surprisingly, in the midst of the chaos Herzog finds calm. True, he is surrounded by disaster and disorder. His career seems shattered. His work on a new book is abandoned. But Herzog feels a freedom, a confidence, a strength with which to take hold of his life. Both character Herzog and author Bellow ask the great questions we all ask, and they laugh off the

pat answers and try to find new ones. But they're not sure. Herzog's sudden serenity has come because he has made up his mind to give it a try. Ramona is coming to the house for dinner. He is going to visit his son at camp. He is going to stop writing these letters."

"The fate of this man among us who seeks survival, written as it is with Bellow's great gift of truthful communication with the individual, will command your interest and involvement.

It is a novel that must be read. It is a major work."

Dr. von Braum says: "Libraries have long been famous as the storehouses of knowledge, keeping in touch with the world of the past. They are often called the memory of the human race, for on their shelves is the record of everything man has thought, dreamed or discovered. Their value to civilization cannot be overrated."

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Chevair. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

NEWS FROM CITY HALL

The front page article in the last Donley County Leader indicated the business of the City Council last week, so I'm going to answer some specific questions in which I think we are all interested.

Yes, Mr. X, we do have a budget and we have remained within the limits of that budget. At no time in recent years has the City of Clarendon operated in the red. True, some months we spend more than we take in (as this last month, income was \$7835.11 and expenditures \$10,947.75), but the city has invariably ended the year with a surplus. The City Policeman and the City Administrator are included in this year's budget and we expect to have a surplus at the end of the year. As you may have noticed last week, the City Al-

dermen have changed the fiscal year to correspond with the tax year. A good idea, I think.

Mr. Y, there are some short term notes in the local banks in the amount of \$22,500. The cost to the taxpayer was primarily for extensive sewage line, which was badly needed in the east part of town, north of Highway 287. An additional line was installed in the west part of town. Mr. Lohoefer had this completed on the request of the City Health Officer. Briefly, this area was a public health hazard last summer when "sleeping sickness" became so prevalent in nearby communities. The City Council was asked at that time to remedy the situation or the State Department of Health would be notified. What you may not know, Mr. Y, in these same banks there is also over \$35,000 on deposit in sinking funds and time deposit, due to the foresight of good city councilmen in years

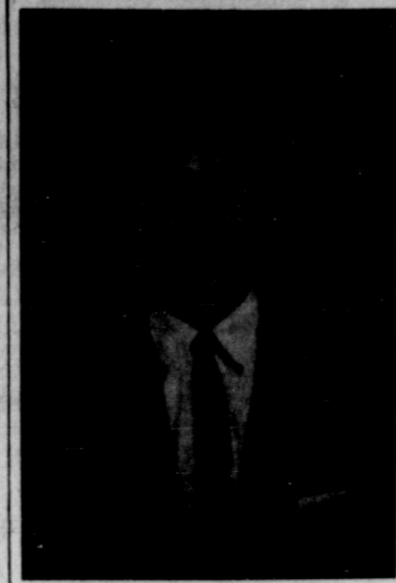

past. These funds will remain on deposit for bond retirement and not to be used for current expenses.

Yes, Mr. Z, we are in the process of collecting delinquent taxes. We received about \$61.00 this month in back taxes. Our total delinquent taxes are over \$20,000. Last week the City Aldermen decided that we should start enforcing the collection of these back taxes, even by public sale when necessary. But when we stop to think about it, this \$20,000 isn't a great amount since the beginning of taxation in Clarendon. In fact, it indicates a pretty good collection ratio.

Yes, we do have a "dog catcher's wagon." It cost less than \$500. This vehicle will be used. Many citizens were also upset by the city ordinance which did not allow dogs to run loose. The real reason for this ordinance is to cause licensing and vaccination of the dogs in town. There were a lot of rabid skunks in Clarendon this spring, and many dogs were bitten by these skunks. How many "loose dogs," unvaccinated, running around the city isn't known. But these unvaccinated dogs present a real threat to children and adults alike. Just one case of rabies in a human being is one too many. This is the real reason for the ordinance and the dog catcher's wagon.

Mr. Z, there are two small water wells that the city has leased for \$1.00 from the railroad. The city maintains these wells and may use them if necessary. The railroad has the option to use the water if necessary for their steam locomotives, (and you just don't see these old steamers any more). These two wells will only pump 300 gallons of water daily together, but they will act as an "ace in the hole."

Now just a brief word about our general finances. At the present all debts of the City of Clarendon will be paid by 1970, and the majority of the debts by

GRANDSON WINS VET SCHOLARSHIP AT A&M

Bill Goldston, son of Mr. and Mrs. LaVern Goldston of McLean and grandson of Mrs. John Goldston of Clarendon, has been presented a \$1,000 scholarship to A&M Veterinary School. The award was made on the basis of maintaining the highest grades through the term and was given by the Farmers and Merchants State Bank of Shamrock.

Bill attended Clarendon College in 1962 entering A & M for his second year. In 1964 he was chosen to enter A & M Veterinary College. He has seven more trimesters of fifteen weeks each.

1967. This is unheard of in this day and age. Most municipalities are deeply in debt for years in the future. Of course there are many things that we are doing without which we need, like more paved streets, possibly a municipal swimming pool, and even a new city hall or new hospital in the years ahead. But before we vote any bond issue we want to be sure that we can meet our obligations. AS OF RIGHT NOW, WE ARE.
