TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

THE THRESHER TRAGEDY

The loss of the 129 men of the submarine Thresher has saddened all America. It is a tragedy that reminds us again of the stark cost of maintaining our freedom—a cost that dollars alone can't meet. As President Kennedy said, "These brave men have joined their comrades, 1,500 of whom were lost in submarines in the fight for freedom in World War II. The future of our country will always be sure when there are men such as these to give their lives in preserving it."

Now we must do our best to determine why the Thresher disaster occurred. Twenty-two more submarines of the Thresher type are scheduled for construction. More brave American seamen will be assigned to man them. It is a responsibility of the government to see to it that they have the safest, most technically-perfect craft it is possible for our experts to devise. And it is vital that American industry and American workmen accept the responsibility to see to it that materials and workmanship are of the highest quality.

It is expected to be some time—if ever—before we know the exact cause of the Thresher tragedy. The submarine and its crew are in a grave 8,400 feet deep about 220 miles east of Cape Cod. The Thresher lies too deep to be salvaged. The determination of the cause of the disaster can be achieved only by photographing the wreckage from the Navy's deep-diving bathyscaphe Trieste, to be brought from the West Coast to the scene. Meanwhile, a number of theories are being advanced about possible causes for the submarine's plunge into

water so deep that intense pressure would collapse its hull like an eggshell, dooming its crew to a sudden death. A Naval Court of Inquiry has been convened at Portsmouth, N.H., the home port of the Thresher, to hear evidence accumulated so far. Part of the court's job will be to consider the nature of work done on the Thresher during a recent overhaul in the Portsmouth Naval Yard when cuts a yard wide were made in her hull so as to install new equipment. The cut-out section was welded back in place and the weld then examined by X-ray for flaws. "To the best of our knowledge and belief there were no defects in the work," said Admiral George W. Anderson, Chief of Naval Operations. "Whether or not there were defects remains to be seen."

Was this work defective? Did some other vital piece of equipment give away? How can a similar accident be prevented in the future? Let us all hope that the answer can be found.

Vice Admiral Hyman G. Rickover, the caustically outspoken Naval officer who, more than any other single American, is responsible for our great strides in nuclear-powered seafaring, made a speech last fall that received little notice at the time. The admiral laid it on the line for the National Metal Congress, meeting in New York. The troubles of the Navy in the construction of nuclear-powered submarines, he said, can be laid to two main causes: (1) Poor workmanship and poor quality control, and (2) Incomplete understanding of basic manufacturing and inspection processes.

Admiral Rickover was careful, in the wake of the disaster, not to relate any of his criticisms to the Thresher. "It would be improper for me to make any comment on that speech at this time," he said after the Thresher was lost.

However some of the points

he stressed last fall should be studied carefully by all Americans who have a part in our weapons production program—not only in the manufacture of nuclear submarines but in making aircraft and missiles and the countless other items in which our servicemen must put their trust as they man the lines against our Cold War opponents. These contractors participating in our Defense program and the men and women who work for them must be certain that their

own efforts are worthy of the men who will utilize the equipment. Unfortunately, high standards have not always been met. Among several examples cited by Admiral Rickover as he ticked off his criticisms was this one: "Some of the types of difficulties we constantly encounter have to do with faulty welding, faulty radiography and defective castings. That is, with deficiencies in basic conventional processes of present-day technology. The

press frequently reports malfunctions of advance components or systems caused by failure of a weld, improper use of a routine process, or use of defective materials. Industry apparently considers such failures to be inevitable, since not enough is being done to correct the abuse."

All of us play some part in the nation's defense. Let us be faithful to the sacrifice of the men of the Thresher by doing our best to meet our own responsibilities as Americans.

LENNOX, S.D., INDEPENDENT: "We spend billions on education believing that higher intellect will solve all of man's problems, but the simple fact of the matter is that it is man's emotions, not his intellect (or lack of it) that cause most of his troubles. A rejected, unloved child becomes a social problem because of an emotional upheaval in his life, not because he has been failed by our educational system. We are only fooling ourselves if we think such problems

can be solved by starting at the top and working down. The trouble lies in the basic unit of society—the family..."

WYNNE, ARK., PROGRESS: "The people who still believe American taxpayers' billions can buy us friends would do well to consider the example of God—He gives us everything, even life itself, but even He is not universally loved and respected."

Through this cable flows power for progress

A literal web of cables strung on highlines tie together all the communities we serve. Through these cables flow the electricity to light the darkness, to relieve housewives of home-making drudgery, to turn the wheels of industry, and to perform countless other tasks economically and continuously.

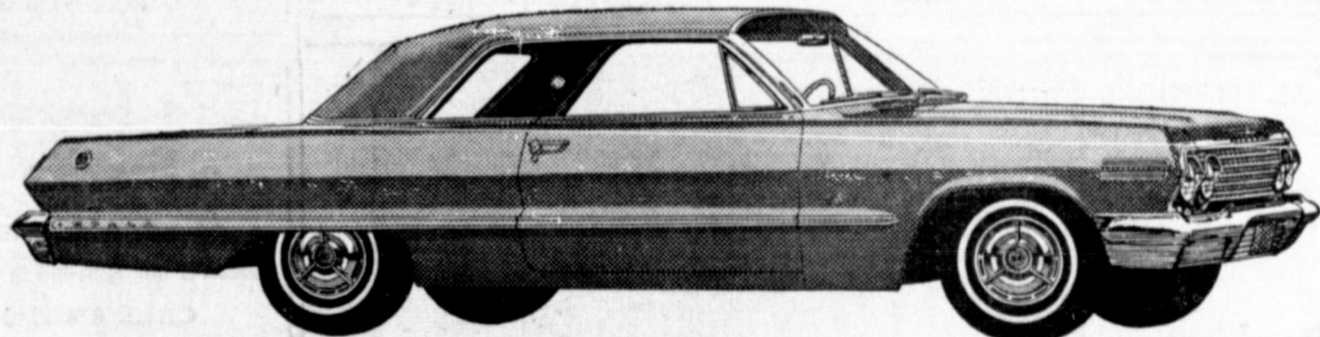

Because our service area is the center of one of the Nation's fastest growing regions, we are engaged in a long-range program of expansion. Generating and distribution facilities are being enlarged to serve more people, more businesses, more industry.

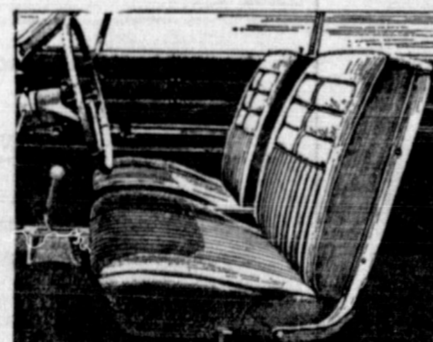

That is why our product — electricity — is not only the power FOR progress, it is a symbol OF progress here in the Center of the Southwest.

PORT HURON, MICH., TIMES HERALD: "Those who oppose medicare under Social Security are not callous to the real needs of many of our elderly for health care. They simply believe that the Administration approach is a case of attempting brain surgery with an axe instead of a scalpel."

MARION, WISC., ADVERTISER: "Reaction to liberalism (liberalism with OUR hard earned money, that is) is growing daily and it won't be long when the word conservatism returns to its time-honored place of respectability. The very survival of the nation depends upon it."

JUNCTION CITY, ORE., TIMES: "Two score and ten years ago our fathers brought forth upon this nation a new tax. Now we are engaged in a great mass of calculations, testing whether that taxpayer or any taxpayer so confused and so impoverished can long endure."

The following appeared in the Shamrock Texan recently with only the name of the town different...

"Most everyone believes that George Washington was born in Virginia. He wasn't. He was born in Texas near Clarendon. There was only one tree in all of Donley County. It was a mesquite tree and was located in Father Washington's back yard.

Well, one day Father Washington had to hitch up his team and go to town for supplies. He needed some harness oil to soften up some horse collars for the spring plowing, a keg of sauerkraut, a sack of flour, some corn ground for cornbread, a new grate and a damper for the stove, a plug of chewing tobacco, and some half soles for little Georgie's shoes.

Mother Washington needed some dippin' snuff, some bees wax for quilting quilts, a new thimble, some elastic for garters, a new hat pin, and some whitenin' powder for going to church. She also wanted some asafedita for quietening little Georgie's nerves.

Father Washington drove into Clarendon and put up at the wagon yard for the night. He got up early the next morning and done his shopping and was

soon on his way home. While he was gone little Georgie got out his Bowie knife and whacked down the tree — the only one in the whole of Donley County.

It is said that the country around Clarendon is so flat that you can see days away. Father Washington was about four miles away when he looked up and saw that the tree had been whacked down. He whooped up his team to a lather and before the wagon stopped jumped out and asked "Who cut down that tree?"

Little Georgie stepped up and said, "I did it Father, I cannot tell a lie." Father Washington grabbed him, took him to the house, locked all the doors and pulled down the shades and said, "Son, if you can't tell a lie we can't live in Texas." So they moved to Virginia.

IT'S UP TO YOU...

Life itself can't give you joy, Unless you really will it; Life just gives you time and space— It's up to you to fill it....

If we don't watch out failure will catch up with us while we sit down to wait for success....

Even those who are afraid of what the future holds for them, usually want to stick around and see more of it.

If we do only the things that have to be done we will get by, but if we do all that should be done we will have a better chance of becoming a success in life.

A good way to succeed with any promotion, Is to be sure we have our own self in motion....

Behind every successful man is a good woman... and the chances are good that she will catch him.

It seems such a shame when just at the time our country

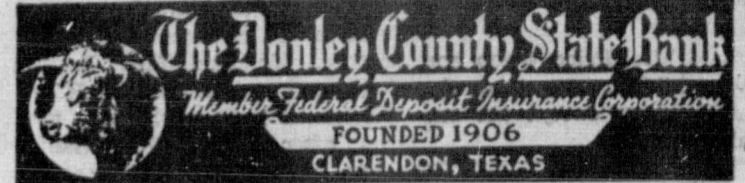

needs to be on its knees in prayer the courts decided to outlaw it.

The whole world is willing to share our smiles, but only our closest of friends will share our tears. It's often very disappointing to count up our friends who would even share our sorrows with us....

FACT AND OPINION

To stem the rising tide of accidental poisonings of small children, the American Red Cross urges parents to take the utmost precautions to keep poisonous substances beyond their children's reach. It is estimated that there are 500,000 accidental poisonings a year among children five years old and younger, of which 500 prove fatal.

Capital & Surplus \$225,000

point of protection for college students

If your son or daughter is now enrolled in College or has been accepted for enrollment—here's an important point: your youngster may be eligible for \$10,000 of life insurance protection for only \$40 a year.

Fidelity and Guaranty's College Life Plan is designed for college students between the ages of 16½ and 24½ years. It's sound, low-cost term insurance that doesn't automatically terminate when the student leaves school. At age 28 it converts to a cash-value building permanent life plan at guaranteed standard premiums. An additional \$10,000 of permanent "cash value" life insurance may be purchased at age 31—without physical examination.

There are other important extra points of protection, too. May we send details? Just call

GENERAL TELEPHONE TOWNS ON THE MOVE

Bonham Initiative Saves mill Payroll

When the Bonham Cotton Mill announced it would close its doors finally in early 1962, that North Texas city stood to lose a 61-year old industry with a \$14,000 weekly payroll.

Aggressive citizens of the 7357 population community arose to the emergency. Today, little more than a year later, Red River Textile Mill, Inc., is not only continuing the operation of its predecessor, but is talking plans for an eventual major expansion.

Bonham's vigorous enterprise in the face of crisis is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

Nelson-Lovell Vows Exchanged In Double Ring Ceremony

Miss Shirley Nelson became the bride of Mr. Joe Tom Lovell Friday evening, April 12, 1963. The double ring ceremony was held in the home of the bride's parents, Mr. and Mrs. L. V. Nelson, Claude, Texas. Rev. Paul Hancock, Pastor of the First Christian Church of Clarendon, performed the ceremony.

The attendants were Mrs. Jimmie McFarland, sister of the bride, and Mr. Jim Lovell of Dumas, brother of the groom. Music was rendered by another sister, Mrs. Marilyn Prickett and her husband, Ken. Mrs. McFarland played the wedding marches and accompaniments.

The Nelson home was decorated with baskets of spring flowers. The table was covered with a grass linen heirloom cloth. A beautiful four tiered wedding cake, made for the groom by his aunt, Mrs. Onita Dial, of Hartley, helped serve as table decoration. The three top tiers were placed on a silver tray and a garland of flowers was laid around them.

The bride wore a tailored sheath dress of soft coffee hue with self colored embroidery. A duster type, many buttoned, light wight, tan coat completed the going away costume.

Only the immediate members of the L. V. Nelson and Ben Lovell families were present, except for the minister and Miss Ruth Justiss, who presided with Mrs. Jim Lovell at the refreshment table.

The bride is a graduate of Texas Tech. She was previously employed as a designer for the Dotty Dan Mfg. Co. of Lamesa.

She has done graduate work at Texas Woman's University and taught Homemaking in the Floydada High School two years before entering the Claude High School in the same capacity last year, which position she holds at this time. She plans to continue teaching.

The groom is a graduate of S.M.U. He spent four years in the Navy. He has continued service through the Naval Reserve and holds the rank of Lt. Commander. He is employed at the Farmers State Bank in Clarendon, in the capacity of Vice President and Cashier.

After a short trip to Santa Fe, N.M., Mr. and Mrs. Joe Lovell are at home to their friends in Clarendon, Texas.

BANQUET HONORS 1962-63 HEDLEY SENIOR CLASS

The Baptist Church honored the Hedley Senior Class of 1962-63 on Friday night, April 19, at the Fellowship Hall with its annual banquet.

The Last Round-Up was the theme for the occasion with the Hall being appropriately decorated in Western Settings. The campfire, the retired cowboy, saddles, horse-shoes, lassos, skillets, coffee-pots, and various other items that were familiar in the day of the Old West were found throughout the Hall. The menu of Little Doggie, Cow Puncher Potatoes, Ranch-Pintos, Spur Salad, Flap Jacks and Saddle Soap, and Rangers Delight was served from tables lighted with lanterns. Western Music could be heard in the background. Mrs. Joe Miller was toastmistress for the evening and Bro. Gene Grace, pastor, was the speaker. Everyone had a very enjoyable time.

Visitors were Sue Maxwell, Doug, Shirley, Maxwell and Sabrina and Taylor Layton from Wellington. Members present were Joy and Minnie Roberson, Nora Helm, Maudia James, Ola McBrayer, Johnny Bryson, Oma Brock, Willie Putman, Blanche Gray and the hostess, Irene Pritchard.

One quilt was quilted and another one partly done. Carolyn McBrayer received a pollyanna gift.

Our next meeting will be with Nora Helm May 2nd, at which time will be our Mother's Day pollyanna gift exchange. —Rep.

FUTURE HOMEMAKERS OF AMERICA

The Future Homemakers of America met in the Clarendon High School Cafeteria Monday night at 7 o'clock, April 22, 1963.

Pat Green, Beth Bourland and Lynn Bourland gave a report on the State FHA Meeting which they attended in Dallas, Texas, April 19th and 20th. Mrs. Bourland accompanied them to Dallas.

Mr. John Knorpp was our guest speaker for the evening. His subject was "Women's Rights in Law." He brought out the fact that there are many fields open for women who are interested in entering the study of law. He also told of some of the rights women have under the Texas law. Everyone enjoyed his talk and learned much from it.

Our guests were Mesdames Logan, Tolleson, and Gilbreth. We are always happy to have visitors. —Rep.

Junior-Senior Banquet Held Saturday Evening

The annual Junior-Senior Banquet was held Saturday evening, April 20, in the High School Cafeteria. "European Rendezvous" was the theme for the evening and decorations were continental in style. Mr. Frank Frenoglio and associate prepared a genuine Italian Spaghetti supper which consisted of spaghetti, sausage, spaghetti sauce, Italian style bread, green salad with Italian dressing, Pizza pie, and ice tea. Orange sherbet was served as dessert.

Rod Stone was master of ceremonies and welcomed the seniors. The response was given by Dwight McAnear, senior class president. The invocation was pronounced by Wondall Luttrell, a member of the junior class. Following the banquet, Rod Stone presented Mr. Frenoglio and his associate with a gift in appreciation for giving their services free of charge.

The same theme, "European Rendezvous," was carried out in decoration for the Prom which was held in the College Gymnasium. A sidewalk cafe area extended down one side of the gym and on the other side were decorations of buildings, a stone wall, and a small garden. "Snozz" Dunn and his orchestra from Amarillo furnished the music.

Much work went into the decorations and credit is to be given those mothers who so diligently worked with them to get everything in readiness. Sponsors of the Junior Class this year are Mr. Edgett and Mr. Lewis.

MARTIN QUILTING CLUB MEETING

The Martin Quilting Club met April 18 in the club room with Lorene Helton as hostess. Two quilts were quilted on.

SODALITAS CLUB ENTERTAINS CLUBS

The Sodalistas Club entertained members of the Garden Club, the 1919 Study Club, and a number of other guests with a salad luncheon at the Lions Club Den Thursday night, April 18. The Club was honored to have as a guest the Top of Texas District President of the Texas Federation of Women's Clubs, Mrs. E. H. Morris.

The tables were decorated with peach blossoms and apple blossoms to carry out the theme of springtime. A large peach tree in full bloom was at the entrance.

Mrs. Doyle Messer brought the devotional. A very interesting and entertaining musical program was presented by Mrs. Mack Bush. The trio, Mrs. Don Springer, Mrs. J. M. Dickson and Mrs. Mack Bush opened the program with a medley of numbers appropriately titled "Serenade to Spring" and sang several numbers from the musicals, "My Fair Lady" and "Oklahoma." They were accompanied by Miss Susan Cox on the piano. Miss Cox also sang a solo, "Goodnight, My Love."

Mrs. Earl Wheatley, dressed in a checked shirt, blue jeans and a baseball cap, carrying a fishing pole, gave a reading entitled "Spring Fever." Miss Jeanne Kay White, daughter of Mr. and Mrs. Billy White, did a tap dance number, "I'll See You in My Dreams."

A piano duet, "April Showers" was played by Miss Thava Davis and Mrs. Mack Bush. Miss Patsy Falk of Wellington presented two marimba arrangements, "Fascination" and "Melody of Love."

Th Sodalitettes (Misses Susan and Gay Maddox, Renee and Tanya White, Cindy and Nancy Saunders, Rhonda Morgan, Connie Lee DeBord, Angela Messer, Kay Stewart, and Jeanne Kay White) sang two vocal selections "Wells Fargo Wagon" and "Gary Indiana," and did a musical game, "The Hokey Pokey." Agriculture Clinic Is Successful

The Agriculture Clinic held in Clarendon at the Community Room of the Farmers State Bank on the 16th of April was a good educational meeting for all attending says County Agent Flip Breedlove. Approximately 125 different farmers and ranchers attended the clinic during the day. C. L. Lewis was the MC for the program.

Different parts of the program included: The 1964 wheat program by Mr. Albert Marshall of the state ASC office; Fertilizers, by Mr. James Valentine of the A&M College Extension Service; Grain sorghum varieties for this area by Mr. Bill Gunter of the Texas A&M College Extension Service; Insect control in cotton, wheat and grain sorghums by Mr. John Thomas of the Texas A&M College Extension Service; Feeding cattle and feed lots by Mr. Paul Marion, superintendent of the Spur Experiment of the A&M College and native grasses, varieties and planting by Mr. Bright Newhouse of the SCS of Donley County.

The Donley County program building committee plans each year to have an agriculture clinic and to have different topics of discussion for each year.

THE WEEKLY NEWSPAPER

The American weekly newspaper is an institution which is as old as the nation. And it has shown the toughest kind of staying power.

For instance, a recent census made by the Ohio News Bureau shows that the state's weeklies exceed the dailies in circulation by a margin of 2,158,237 to 2,102,204. And weeklies, it also found, are read in the majority of Ohio homes.

The weekly — in an era in which all the media are competing almost desperately for circulation and advertising — has proven its durability beyond any question.

There's very good reason why this should be the case. The weekly paper, is the community historian — an immortal record

of births and deaths, marriages and divorces, business successes and failures, the growth and progress of the town and the county, the changing attitudes of mind that come with passing generations.

Beyond that, the good weekly is a mold of opinion. Through its editorial columns it provides not only facts but controversial opinion. It stirs debate and curiosity. In a phrase, it makes people think. And this, perhaps, is its greatest contribution to the nation it has served so well, long and faithfully.

SWINDLE RECEIVES HONOR IN BERLIN

Sp-4 Teddy F. Swindle, who is with the Special Troops in Berlin, was one of six contestants for soldier of the month of March and received a \$25 bond. Swindle and his wife, the former Marilyn Ayers, have been in Berlin the past nine months. Marilyn has been teaching on the Army base there. She is the daughter of Mr. and Mrs. C. C. Ayers.

Those who called on Mrs. Edith Longan Sunday were Mrs. Mary Sue Longan and son, Pat, of Greeley, Colo., Mr. and Mrs. Harley Longan, and Mr. and Mrs. Charles Blackburn and children.

May we take this method of thanking our neighbors and friends for their kind expressions of sympathy in the loss of our loved ones, Clark L. Cook and Miss Thelma Cook. We are indeed grateful for the food, beautiful flowers and many other kindnesses in our hours of sorrow. May God bless each of you.

The Family of Clark L. Cook and Miss Thelma Cook.

We wish to thank everyone who assisted in any manner in helping extinguish the grass fire on our place last Wednesday. Mr. and Mrs. B. J. Leathers

AUSTIN — Scandal has struck again in Texas. This time on the Railroad Commission.

Revelation by the Dallas Morning News that Commissioner William J. Murray had grossed some \$285,000 from oil investments in earnings from a Throckmorton County lease caused the commissioner to resign his post.

Question was a matter of ethics... whether or not it was proper for a public official to make investments in an industry over which he exercised control, in whole or in part.

Murray's answer was that he grew up in the oil fields, was educated in petroleum engineering and it was the only business in which he had any practical experience.

He admitted his investments and pointed out that they were a matter of record, in his own name, and he had nothing to hide. He stated that he resigned his post as a commission member because he felt that "harmful publicity" might lessen his effectiveness.

Murray hinted that the investigation into his past investments was prompted by his refusal to call off the East Texas slant-hole, well-drilling investigations, in which he played an active part.

Murray's attorney, Les Proctor, submitted the former RR commissioner's personal financial records to Travis County District Attorney Tom Blackwell for checking. They are being examined by Blackwell, Atty. Gen. Waggoner Carr and State Auditor C. H. Cavness.

State law provides for removal from office of any public official violating the Code of Ethics. Since Murray resigned that question now has become moot. All that remains is the matter of determining whether any civil or criminal statute has been violated.

Proctor says none has been. RESIGNATION ACCEPTED — Gov. John Connally accepted Murray's resignation with the comment that "It is regrettable for all of Texas that documented facts made public within the past few days indicated a question of propriety of legality of his outside business transactions in view of his position of authority on the commission."

"Public officials have a sacred trust. It is imperative to continued confidence in our form of government that their conduct in office be beyond a shadow of a doubt. Anything else undermines the confidence of the people in responsibility and integrity in government."

INVESTIGATION PROPOSED — In the House of Representatives, Rep. George Hinson of Mineola introduced a resolution asking for a thorough study of the sweeping powers of the Railroad Commission by the Texas Legislative Council.

Resolution received prompt committee approval and was sent immediately to the House floor.

Rep. Bob Eckhardt of Houston gained permission of the House to introduce a bill to tighten regulations prohibiting public officials from participating in any private enterprises which might be in conflict with their public duty.

Eckhardt said his bill would amend the Code of Ethics and clarify it. It also would include a section providing that no public official or member of the Legislature could appear before any state board or commission where the office-holder had private interests that might be affected by the agency's action.

HOUSE PROBERS — House State Affairs Committee recommended adoption of a resolution by Rep. Rufus Kilpatrick of Beaumont that would establish a general investigating committee. Normally one acts only between sessions of the Legislature.

Rep. Ben Jarvis of Tyler said Speaker Byron Tunnell is interested in fast action on the Kilpatrick resolution, which would give the investigating committee broad authority.

Rep. Horace Hocston, Republi-

cans member from Dallas, opposed the resolution and asked for a postponement to study it. He said he once served on such a committee, and "no good has come from general committee investigations." Later Houston changed this statement and agreed that investigating committees do "throw a white light into some dark shadows."

APPROPRIATIONS — A record \$3,100,000,000 spending program — the general appropriation for the next biennium — went to a conference committee following rejection by the House of Senate amendments.

Motion not to concur in Senate changes was made by Rep. W. S. Heatley of Paducah, chairman of the House Appropriations Committee.

MORE TAXES — Some \$43,000,000 in additional revenue would be gained during the next two years by adoption of a House Revenue and Taxation Committee substitute for House Bill 106.

Rep. R. H. Cory of Victoria, chairman of the subcommittee that revised the proposed tax law to comply with Governor Connally's program, said the bill as now drawn would incorporate a one-year extension of the state franchise tax to April 30, 1965. This would net the state \$11,200,000. Repeal of the exemption of outer clothing under \$10 would get \$20,400,000. Bringing motor vehicles under the sales tax would provide \$6,100,000. Other minor changes would round up additional millions.

LENDING — All Texans were invited to appear and testify about the so-called "loan shark" legislation.

Enough Texans accepted to make it a three-hour session with the House Banks and Banking Committee. There were two major points of disagreement. One — the insurance provisions of Senate Bill 15 (passed by the Senate). And two — the maximum loan to be made for a company to fall under the act, and thus be allowed to charge more than 100% interest.

Witnesses representing the insurance companies generally protested that the new commissioner, to be called for under the act, would have too much power. Especially over rates.

On the maximum loan proposition, opinions varied widely. Bill specifies \$1,500. Some witnesses would like to lower it to \$300. Others thought it should be raised to \$3,000 or more.

WOMEN'S RIGHTS — Legislation to provide equal rights for women is in this status: Senate Joint Resolution No. 2, which is what the women want, has passed the Senate. It was heard by the House Constitutional Amendments Committee and sent to a subcommittee.

If the resolution gets through the Legislature, it will have cleared perhaps its biggest hurdle. Next step calls for passage of a constitutional amendment, by vote of the people. Amendments usually receive public approval.

However, even after that, all questions of women's rights would not be defined. A good bit of legislation still would be required.

Former Attorney General Will Wilson, in testimony before the House committee, said that if the amendment is passed, "The Legislature will have its work cut out for it in the next session."

SHORT, SHORT SNORTS — House has passed a bill to force most state agencies to sell their "executive-type" airplanes. Bill now goes to the Senate.

Biggest crowd of the legislative session came to a session of the House Game and Fish Committee, which lasted five hours. The proposition: to close all Gulf Coast bays to netting. Result: subcommittee.

Another measure affecting the Gulf Coast was a bill introduced by Rep. Leroy Wieting of Portland, setting in motion a "pilot program" of regulation by the Texas Game and Fish Commission over wildlife resources in Aransas County. It might have far-reaching effects, giving the commission authority to fix seasons on game birds, game animals and fresh and salt water fish and shellfish, excluding shrimp.

During the 1937-49 period, the maximum Social Security tax paid by an employee was \$30 — one per cent on the first \$3,000 of pay. The current tax is \$174 — 3 5/8 per cent on the first \$4,800. The 1968 tax will be \$222 — 4 5/8 per cent on the first \$4,800.

Herbert Hoover says: "I have come to believe that moral forces and certain forces embedded in the soul of America are more important than all of the other issues — for they lay at the base of their solution. The Nation needs a rebirth of a great spiritual force which has been impaired by cynicism and weakened by foreign infection. Call it nationalism if you will. But there is an American kind of nationalism which is neither isolationism nor aggression and embedded deep within it is compassion for distress both at home and overseas."

SOIL SAMPLING ROLLS ALONG

COLLEGE STATION — During the past October and November more and more farmers climbed aboard the "bandwagon" and had their soil sampled, according to William F. Bennett, soil chemist, of the Texas Agricultural Extension Service. Samples for the two months were about 50 percent higher in 1962 than for the same period of the previous year with the High Plains Laboratory receiving the largest increase in samples. The other two soil sampling laboratories in Texas are in Baylor county and at Texas A&M College. High counties for the two month period were Ellis with 197, Bell with 168 and Travis with 162, Bennett says. Hockley, Calhoun and Kaufman counties all submitted over 100 samples each, he adds. The annual fertilizer tonnage report shows that Texas farmers used 944,901 tons of fertilizer in 1961-62 as compared to 766,055

tons in 1960-61, the chemist says. The High Plains and Trans Pecos areas continued to be the heaviest users applying 30 percent of the state total. East Texas, North Central Texas and the Coastal Prairie followed in decreasing order. Hale, Harris, Hidalgo and Deaf Smith counties all used over 20,000 tons while Lubbock, Lamb, Wharton, Dallas, Jefferson and Parmer rounded out the top 10 counties in fertilizer usage. Bennett says that all this means more soil sampling especially for spring crop planting and advises farmers to make their samples early to insure prompt return of the report. He also encourages taking good samples and using a soil sampling information sheet. According to the Washington Daily News local taxpayers increased their debt from \$3.8 billion to \$12.1 billion for schools from 1952 to 1960. Eros is the God of Love.

Flip Breedlove and Bill Gresham of District 1 Agriculture Extension Service to the homes of Mr. and Mrs. A. B. Ivey, Mr. and Mrs. A. C. Carter, Mr. and Mrs. Price Webb and Mr. and Mrs. Elmo Fortenberry where they observed the improvement and progress made by these families this year. Building and lots of redecorating, such as painting, new drapes, rugs, carpeting had been done. Mr. Fortenberry had drilled a new irrigation well. After the tour, the group returned to the Community Center where a dinner of fried chicken, salads, vegetables, pies, cakes, iced tea and coffee was waiting to be served. There were 52 present and all seemed to enjoy the meal and fellowship together. Mr. and Mrs. Albert Fithen and Mr. and Mrs. Forrest Bennett from the Fairview Community in Armstrong County were present. We were happy to have all the visitors present.

After the noon meal Mrs. Joyce Curtis, Bob Angeley, Flip Breedlove, Bill Gresham, Mr. and Mrs. Bennett and Mr. and Mrs. Fithen left for Ashtola for a tour there. The regular Community Center meeting was held Friday night with a good crowd in attendance. Games of "42", visiting and making plans for the coming year progress in the community were the events for the evening.

Refreshments of sandwiches, iced tea, Kool-Aid and coffee were served. The next meeting will be May 3rd with Martiel Webb and Carmen Wright as hostesses. Bring cake for your group and the hostesses will furnish the drinks. Please make a note of this date and what you are to bring as there will not be another notice before our next meeting. —Rep.

ASHTOLA COMMUNITY PLACES THIRD IN TRCP CONTEST

The Ashtola Community placed third in the Texas Rural Community Progress Contest. The judges and Mr. Breedlove met with us at the community center and from there a tour was made of one of Warren Hardin's farms, the Hubert Rhoades' home and then to the Lewis Race Track, home of the famous Vic-Mon.

Visitors from the Fairview Community were Mr. and Mrs. Forest Bennett and Mr. and Mrs. Albert Fithen. Miss Edith Lois Wilson and Mr. Bill Gresham of the extension service also visited.

A table with fancy work was displayed and all enjoyed an afternoon of visiting. Homemade ice cream and cake were served to guests and many Ashtola neighbors. —Rep.

SOIL CONSERVATION DISTRICT NEWS

Ranch Planning
The feasibility of ranching is very hazardous from an economical standpoint, especially on a limited acreage and from the standpoint of buying the land. Many of those who own the land, also, appear to be struggling to benefit more than a meager living. Although ranching seems to be risky, more benefits can be obtained from better and improved management. This can best be accomplished through ranch planning. Practices of benefit through ranch planning include:
1) Water supplies — Number & locations
2) Distribution of salt supplies
3) Cross fencing to insure a

better distribution of grazing
4) Deferment from grazing as needed to allow seedset and increase vigor of the better grasses
5) Rotational Systems
6) Proper Range Use — Not to graze more than approx. 50% by weight of the current annual growth of the key grasses.
7) Brush control
In considering pastures for grazing, an analysis should be made of the species present and a determination of the best time to graze these grasses in order to get the most benefit — both from a total forage and a plant physiology standpoint. For instance: 1) Switchgrass — Very good palatability in late spring and summer, but poor in fall and winter. 2) Buffalograss — Highly palatable in all seasons of year. It retains its nutrients in the winter and can be used for winter grazing. 3) Sand Blue-stem — This grass is highly palatable and requires good management in the growing season.

however, it can be grazed in the dormant stage of growth without injuring the plant and supply plenty of forage.

In considering grazing of pastures, much benefit can be obtained from knowing some of the characteristics of the better grasses within these areas. From this information we will know during which season grazing will be best in each pasture.

Also, in planning with the rancher it is important that he is able to identify and know something about the management of his key plants. Proper utilization of a key grazing plant on the range site handling the major load of cattle, will insure proper management of all other species of grass along with their related sites.

From the grasses present, a condition can be determined from the rangeland. This entails determining how much of the present composition can be used in figuring the % of present composition as compared to the highest form of vegetation which can be grown in the area. From this information, we determine the range conditions as excellent, good, fair, and poor.

After determining condition and range sites, the carrying capacity of the pastures can be determined. With this information, a grazing schedule can be worked out which can be utilized as a rotational-deferment system, if desired. This allows the same volume of forage to be used and allows each pasture a resting stage to improve plant growth.

For further information on ranch planning, please contact your local Soil Conservation Service Office.
