PLANS FOR NEW HOME OF HOUSTON SHOW REVEALED

Plans for the new home of the Houston Livestock Show were presented recently at the annual meeting of the Houston Livestock Show and Rodeo Association.

The new home will be built adjacent to the famed Harris County Domed Stadium, which will house the rodeo held as a feature of the livestock show.

Construction is set tentatively to begin Nov. 1, 1964. The show will be held in the new facilities beginning in 1966.

The new home, a giant Y-shaped building, will be the world's

largest air-conditioned livestock exhibition hall under one roof. It will cover 12 acres and will accommodate 1,700 head of halter cattle, 600 horses, 1,000 commercial cattle, 1,200 swine, 1,200 sheep and goats.

The new building will offer a 208 feet by 80 feet judging arena, separate sheep and swine areas, an auction arena for breed sales and commercial cattle, facilities for poultry and rabbits, a milking parlor, with observation facilities, and level ramp loading facilities.

Contracts for the exhibition

hall have been signed with the Houston Sports Association, and approved by the Harris County Commissioners Court.

President Stuart Lang expressed his appreciation to the membership for making the '64 show the most successful ever, with a record number of volunteer committee workers. He said a record number of rodeo entrants competed for the largest purse offered at any rodeo in the world except the National Finals, a Rodeo Cowboys of America sponsored event.

Among the new marks report-

ed by President Lang: A new attendance record; \$20,500 for the grand champion steer; \$3,500 for the grand champion lamb; \$4,000 for the grand champion rabbit; the commercial steer auction set a record; while the souvenir program was the largest ever published by the show, and sold out at the earliest date.

Allan Shivers was the first Governor of Texas to serve more than two terms.

When a Parks and Wildlife Department information-education officer showed a wildlife program to 150 Camp Fire Girls on Lake Fannin near Bonham, the cast of characters almost came to life.

During the slide sequence on poisonous snakes, a particular picture of the copperhead snake was spotlighted at length, and was thoroughly discussed. Returning to their cabins, some of the girls almost stepped on the real-life counterpart of the reptile.

Some thought the snake came to see the show. Others wondered if it was all part of the act. Never was a snake better illuminated by flashlight for adults to safely climax the grand finale.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

Anniversary Of The GI Bill

Twenty years ago, American GIs were consolidating their foothold in Normandy, battling north of Rome in Italy, pressing the South Pacific campaign against the Japanese. On June 22,

1944, President Roosevelt signed into law the "GI Bill of Rights," a measure approved unanimously by both houses of Congress and surely one of the most historic legislative measures ever enacted. Its impact was great on millions of veterans and their families — and on our national way of life.

More than 16,500,000 Americans were eventually under arms in World War II. Although the war was a long way from won in 1944, the people, their Congress,

and leaders of veterans' organizations recognized the need to provide a program serving as a buffer against possible economic and social chaos in the post-war period.

In 1944, public opinion was near-unanimous in its support for the "Servicemen's Readjustment Act," as the GI Bill was formally titled. Americans could envision the prospect of a million men a month passing through separation centers and heading for home. It was apparent that

the veterans would face an uncertain economy as industry recoiled to peacetime production. Could the post-war economy absorb them? It could and it did. Private industry, responding to five years of pent-up demand for consumer goods, was to convert from defense to peacetime production in a much more orderly manner than many pessimists had thought possible. And the readjustment, loan, and educational benefits provided by the GI Bill helped the national conver-

sion from wartime to peacetime in ways that historians and economists have not yet fully assessed.

The education and training programs of the GI Bill cost approximately \$15.1 billion. It is estimated that veterans trained under the GI Bill, because of the increased skills and education they have attained, will return to the Treasury — in taxes — twice and perhaps three times that amount.

The GI Bill is perhaps best

known for the educational benefits provided. More than 7,800,000 World War II veterans — nearly half of all those who served — took some form of training under the GI Bill. Of the total enrolled in the program, 2.2 million attended colleges and universities; 3.5 million went to schools below college level; 1.4 million participated in on-the-job training; 700,000 underwent on-the-farm training.

With the Nation's high-gear economy still critically short in some areas of skills and with our unemployment problems centered on workers who are primarily unskilled, it is interesting to speculate whether our economic advance could have been made without the enormous reservoir of manpower trained under the GI Bill. By categories, the United States gained 450,000 engineers; 180,000 doctors, dentists, and nurses; 360,000 school teachers; 150,000 scientists; 107,000 lawyers; 243,000 accountants; 36,000 clergymen of all faiths; 711,000 mechanics; 303,000 construction workers; 288,000 metalworkers; 138,000 electricians and 700,000 who trained for business and executive careers.

One out of every five single-

family houses built in the United States since the end of World War II has been financed by the GI loan program for either World War II or Korean War veterans. Of the 28 million homeowner properties in the country, 16 million are mortgaged properties and about 22 percent are financed with veterans Administration GI loans. In all, more than 5,268,000 GI loans were made to World War II veterans to purchase homes, farms, or businesses — and the record of repayment has been excellent. The GI loan program made a vital contribution to home-ownership in this country.

The GI Bill is a historic example of long-range planning in the national interest.

Whole-meal sandwiches are quickies for lunch. Cheese is a sandwich that combines with so many foods for interesting combinations. Try this triple-decker open-face: Toast one side of bread, spread untoasted side with butter. Add a spoonful of baked beans, cover with a slice of Cheddar cheese and top with Bermuda or sweet onion sliced thin. Place the sandwich under the broiler until the cheese melts.

Peanuts are a nutritious food, important for B Vitamins. They are exceptionally high in niacin, and their high fat content makes them a good source of food energy. Among vegetable foods, peanuts rate high in the quality of protein they furnish and may be used as an alternate for meat, eggs and cheese.

The Greeks believed that clouds were the God Apollo's cattle sent out to graze in the meadows of heaven.

She suggested beginning with a cover for a detachable chair seat or separated back as first projects.

Pinto and Lancaster; their son, William Green, and family in Trinidad, Texas and their son, Robert L. Green in Temple; also their old home town, Ferris, Tex-

as. They reported a six inch rain in Temple and 12 to 14 inches on the Leon River which dumped an eight foot rise in the Belton Lake making fishing very poor.

Moore of Memphis, Mr. and Mrs. Chuck Cospo and family of Canadian, and Mr. and Mrs. Bob Parker and family of Irving were visitors Sunday in the home of Mr. and Mrs. F. O. Hodge. "Operation Motorcide" To Begin July 3rd

While the drivers of Texas are making plans for 4th of July trips, the Texas Department of Public Safety is getting ready for "Operation Motorcide," a three day vigil of tabulating all traffic deaths in the State. Major Harry Hutchison, Regional Commander of this area for the D.P.S., reported today the State is approaching the mid-point in the year amid definite indications that traffic deaths will hit an all time high again in 1964.

"If we continue to take lives at the present rate, 1964 will become the most deadly year in Texas history for traffic fatalities," he said. "Motorcides" at this time are over 150 more than at the same time last year, and considering the trend of increased accidents and casualties, we have every reason to expect that traffic deaths will exceed the previous all time high in Texas of 2,729 in 1963.

"Only 271 more deaths in 1964 than in 1963 will make a total of 3,000 lives lost on our streets and highways in one year, an increase for the year of ten percent over 1963." Deaths in traffic this year have consistently been in excess of 15 percent over 1963, an indication that the 3,000 mark will be surpassed.

Hutchison said that "Operation Motorcide" will be placed in effect from 12:01 a.m. Friday, July 3rd, and continue through 11:59 p.m. Sunday, July 5, 1964. In order to focus attention upon the added dangers of holiday travel when traffic is at a peak and as an integral part of the operation, which calls for maximum enforcement, additional personnel from other uniformed services of the D.P.S. will augment the regular Highway Patrol force. These patrolmen have been instructed to be extra alert for and direct their enforcement efforts toward those violations that are most of ten caused factors in traffic accidents. In addition every effort will be made to remove drinking drivers from the highway.

"Since police traffic supervision cannot cover the entire street and highway system in the State every minute of the day, the big hope for safe driving and accident prevention rests with the individual motorist," Hutchison concluded.

Visitors in the home of Mr. and Mrs. C. B. Harp through the week end were Mr. and Mrs. Johnie Rex McClellan of McLean, Mr. and Mrs. Jack Lamberson of the Shelton Ranch, Lucky Thompson and Don Murphy of Turkey, Laura Mae Harp and Susan Bulman of Amarillo and Sue Rhoades of Ashtola.

Clifford Beard has returned to his home in Grand Prairie after spending several days with his mother, Mrs. Odell Barker.

Mr. and Mrs. Les Bursleson and Leta, and Mr. and Mrs. Odell Barker and Roberta visited Mr. and Mrs. James Bursleson in Dimmitt Sunday.

David and Rodney Adams of Gallup, N.M., are visiting their grandparents, Mr. and Mrs. Bill Adams.

OUTSIDE ODOR IS NOT FATAL

Arrival of fishing and camping season pinpoints the fact, all outdoor smells aren't exactly as pleasant as wild honeysuckle or magnolia blossoms. A few pungent smells are more correctly called odor than aroma.

Easily remembered solutions to three common problems are offered by W. R. Long, information and education officer for the East Texas headquarters of the Parks and Wildlife Department and a veteran outdoorsman. "When the family dog, or the camper himself, get involved with a skunk," he says, "there's no need for despair. The sickening odor may be removed by a sponge bath of two cans of tom-

ato juice. A substance in the liquid will quickly neutralize the scent. Follow with a soap and water bath.

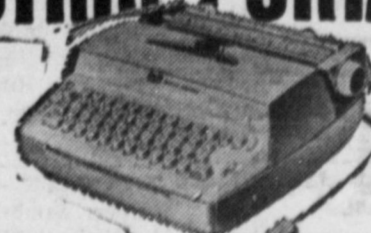

"Stubborn odors that cling to hands after cleaning fish may be completely eliminated by a generous application of any ordinary tube toothpaste.

"The sleeping bag that was stored last fall will probably have a molded, musty odor when unpacked this year. Freshen it with a spray can of household deodorant. This treatment will make it smell new again."

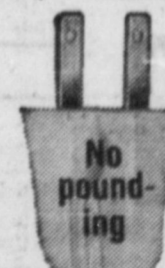

Thomas Boyd of Amarillo is spending a few days with his grandparents, Mr. and Mrs. Walter Hughes.

State Democratic party leaders here have completed advance preparations for a June 16 Texas party convention which could turn into a donnybrook or go off smooth as silk.

over votes (some counties are sending up to 15 times their authorized strength) will be quartered in 27 hotels scattered all over Houston.

Big job is selecting delegates to the August national presidential nominating convention in Atlantic City and picking Texas national Democratic committee representatives.

Big argument is whether the convention will go on record as favoring the as-yet-unwritten national Democratic platform.

Gov. John Connally, who claims a two-thirds to three-fourths margin of control, prefers that delegates remain silent on the liberal national program. He wants to write his own state party platform at the September state convention along moderate-to-conservative lines.

Sen. Ralph Yarborough and State AFL-CIO President Hank Brown argue the convention not only should pledge its support to President Johnson (there is

no argument about that) but to his liberal program as well. Some 26 per cent of the convention's seats are in contest.

Austin Attorney Will D. Davis, chairman of a State Democratic Executive Committee sub-panel on credentials, has instructed heads of 14 rival delegations from seven counties to send him advance written briefings on their positions.

Hearings will begin Monday (June 15) at 9 a. m. in the Shamrock. Recommendations of Davis' an 8:30 a.m. Tuesday (June 16) group will be passed along to the full SDEC, which will decide in an 8:30 a.m. Tuesday (June 16) session which delegations will be seated. The convention opens at 10 a. m.

Rival fund-raising events are scheduled Monday (June 15) The pro-Connally SDEC will stage a \$10-a-plate dinner to finance the convention. Yarborough' Gulf Coast friends have scheduled an appreciation dinner for the

senator at the same time.

If President Johnson has any preference about how things should go, he apparently kept silent on them during his recent trip to Texas. Aides maintained to the end of the visit he did not discuss politics with his old friend Governor Connally, Senator Yarborough or anybody else.

CONGRESSIONAL REDISTRICTING — Texas Legislative Council study committee has set three hearings to gather first-hand advice from the homefolks on how to form 23 Texas congressional districts of equal population. Dates are July 9, July 10 and July 17.

They will be held in Fort Worth, Dallas and Houston. Others apparently will follow.

Legislators, political party spokesmen and the general public from counties where the meetings will be held and surrounding counties are invited to attend the sessions and give their views on how best to comply with federal court redistricting orders, said Committee Chairman Sen. George Moffett of Chillicothe. Atty. Gen. Waggoner Carr warned the committee that the 1965 Legislature must solve the congressional redistricting question.

Carr said, "The more you base it on any other considerations, the greater risk you run of having to go through the same thing again in the courts."

LOAN REGULATIONS ADOPTED — Small loan company advertising of such terms as "lowest," "easy payments" is "misleading" under new state regulations. All advertising claims by lenders are subject to the test of absolute accuracy.

Regulations were adopted after public hearings here and go into effect on July 1, Regulatory Loan Commissioner Frank A. Miskell has announced.

Miskell lists other regulations as: No strong arm collection practices permitted. . . Companies must keep detailed records showing all charges on loans. . . Borrowers must be furnished copies of insurance policies purchased in connection with loans. . . Money collected in premiums must be turned over to the insurance companies promptly.

COURTS SPEAK — State Supreme Court in a Sweetwater case said cities, by ordinance, can establish compulsory retirement ages for policemen.

The high court also: Held oil field truckers don't have to haul pipe at lower rates set by the Railroad Commission in 1962 until a court attack on the rates is finally settled.

Set arguments for July 8 on Dallas County Flood Control District's suit to keep the city of Irving from annexing district lands and on appeal of Dr. Daniel William Scott Jr. of Houston from revocation of his license by State Board of Medical Examiners order.

Court of Criminal Appeals was urged to reverse the murder conviction and death sentence of Carl Junior Hackathorn, 19, for slaying Mrs. Bobbie Jewel Nuttycombe, 18, of Dallas.

That court also was called on to order a \$100,000 bond reduced to \$10,000 on Samuel Spivey, another 19-year-old, charged with robbery by firearms in a bizarre Houston robbery-torture case.

The attorney general's office asked federal court to dismiss state appeal of an interstate commerce commission order permitting higher passenger train fares in Texas.

STATE SCHOOL SITE — The big question of location of a newly-approved West Texas State School for the mentally retarded will not be settled until September, according to most recent reports from the Board for State Hospitals and Special Schools.

Board's site selection committee, made up of C. E. Bentley of Abilene, former Lt. Gov. Walter Woodul of Austin and Jesse M. Osborn of Muleshoe, has been visiting some 30 West Texas towns which are competing for the school.

BIG SHOPPER — The idea of a \$6,900,000 grocery bill would be enough to cause the average housewife (or her husband) to swoon, but that was the size of the State's grocery bill for fiscal 1963. When the overall item is digested, it points to thrifty shopping. The \$6,900,000 fed some 40,000

inmates of state eleemosynary institutions, such as state hospitals, special schools, medical schools and correctional institutions. Cost of feeding each person under state care is about \$173.68 per person. . . and that shopping triumph should be enough to make the housewife green with envy.

State Board of Control, "Housekeeper for the State," and its purchasers have mastered the technique of conquering spoilage and waste problems to the point that it is looked on as a model by all other states, Canada and Puerto Rico.

Purchasing Chief Sam G. Cook believes that inmates of Texas institutions are probably the best cared for and best fed of any in the country. He says it is because the state purchasing law lends equal importance to acceptance of the "lowest" and "best" bid from food wholesalers.

AIRPORT AID SOUGHT — Texas Aeronautics Commission is seeking \$450,000 in state aid to help build local airports during the next two years.

At budget hearings here Commission spokesman and representatives of towns over the state argued for a program too insure at least one airport in all 254 counties. Thirty-five now have none.

Commission requests a \$1,100,000 budget for the next biennium, including the airport program and \$200,700 for an agency headquarters building at the Austin Municipal Airport. All funds except the building cost would come from aircraft fuel taxes.

AG DECISIONS — Attorney General Carr has:

Ruled that a county clerk should not accept for recording in the Deed Record a certified copy from another court of record where the seal of the court has not been affixed thereto;

Held state highway funds cannot be used to finance a Texas travel exhibit at sports and vacation shows under either the state constitution or current laws;

Concluded that the party whose candidate for governor received the most votes in the 1962 general election will have first spot

on the general election ballot this year.

HIGHWAY IMPROVEMENT PLAN — State Highway Commission authorized a \$168,000,000 improvement program to get more safety and less congestion on 2,067 miles of primary and state highways.

Of the amount authorized, \$151,000,000 is earmarked for construction, and \$15,000,000 for right-of-way. About 65 per cent of the cost is expected to come from state gasoline tax revenue and license fees and the rest from federal grants in aid.

SHORT SNORTS — Highway Commission authorized \$180,700 for construction to enhance recreation resources at Dam B State Park, Eisenhower State Park and Lake Whitney State Park. . . Land Commissioner Jerry Sadler reports that lease of 40,632 acres of state-owned land brought \$1,730,000 to the University of Texas permanent fund with big tract leased in Andrews, Martin and Reagan Counties and highest bid on a single parcel in Ward County. . . Latest reports from State Treasurer Jesse James shows a drop in cigarette taxes from \$8,331,687 for May, 1963 to \$7,29,642 for May, 1964. . . Texas unemployment dropped to 147,000 in April, lowest since October, 1959, reports Texas Employment Commission. . . In order to protect the legions of undersized brown shrimp being driven from the bays by sudden cool weather and local heavy rains, the Parks and Wildlife Commission issued an emergency order, resetting the 45-day closed Gulf shrimping season for the period June 5 through June 19, inclusive. . . Oil operators in Andrews and Martin counties will be banned by Texas Water Pollution Control Board order from use of unlined surface pits to dispose of salt water but can file for exceptions. . . Biologists for the Parks and Wildlife Department are urging increased harvest of deer (especially does) during the 1964 hunting season in the mid-coastal area because three years of drought seriously have reduced the range-carrying capacity and caused death by starvation among many deer herds.

FARM NEWS

from County ASCS Committee

1964 Grain Sorghum Price Support Set

Prices for the 1964 crop of grain sorghum will be supported in Donley County through loans at \$1.75 per hundredweight for grain sorghum grading No. 2 or better. This compares with the average county loan rate of \$1.69 for the 1963 grain sorghum crop. Price support on the 1964 crop will be available to those grain sorghum producers who participate in the 1964 feed grain program by diverting at least 20 percent of their total grain sorghum, barley, or corn acreage to conserving uses and meeting other provisions of the program. This support will be available from time of harvest through January 31, 1965. Grain sorghum loans will mature March 31, 1965.

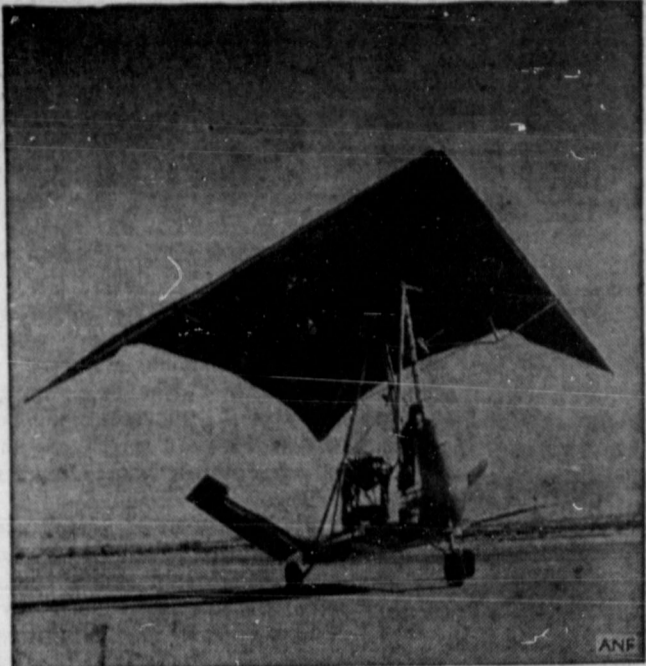

Summer Performance
The training school for performance reporters and planimeter operators is being held this week and in all probability the reporters will begin measuring in the fields next weeks.

We again ask your cooperation in going to the field with the reporter. If you cannot go with him, please arrange to have a representative present who can, otherwise, the reporter will not be able to measure any diverted acres.

If your farm is ready to be measured at this time, please let us know so the reporter can visit you soon. Due to hail and heavy rains, some of the crops over the county are just being planted and will have to be measured later. We would like very much to measure the farms which are ready early.

ASCS And The Small Farmer

UNDER TEST—The XV-8A "FLEEF," designed and built by Ryan Aeronautical Company for the U.S. Army's Transportation Research Command, is currently under flight test at Yuma, Arizona. The short take-off, less than 500 feet, and landing distance, about 100 feet, indicate the "FLEEF" has desirable characteristics for operations with military units in remote areas where limited airstrip facilities are available.

farmers as well as the larger producers. Approximately one-third of the cotton farms are still operated by tenant farmers, most of whom are small farmers. Some 70 percent of all cotton farms have an acreage allotment of 15 acres or less. Nearly 60 percent of the farms have 10 acres or less, and under the law are exempt from having to make any downward adjustment in their cotton production.

In order that we of this community may be reminded of the true meaning of the celebration of July 4th and the greatness of the American Way of Life, the local Jaycees are sponsoring the project "Let Freedom Ring."

Tommy Messer, chairman of the project, has announced that at 10 a.m. July 4th all of the bells in the community will ring for a period of five minutes. "FANDANGLE" TICKET HOLDERS HAVE CHOICE

The "Fandangle" presented recently in the theatre in Palo Duro Park was finally presented under adverse conditions and many ticket holders were unable to attend the make-up performance. The executive board of the foundation wants you to see the theatre under lights on another occasion and so have decided to give those who held tickets and could not return for the Sunday performance, the same privileges which donors have.

You may send your tickets or stubs in a stamped self-addressed envelope to Fandangle, Box 268, Canyon, Texas, before July 1. You will be registered as a donor and will receive an acknowledgment. When our summer-long production opens, you will have a credit of \$2.50 or \$4 for each ticket or stub returned, to use for tickets to that show; or if you prefer, we will send you a ticket to "Fandangle" which is to play in Albany, Texas, June 26-27.
