Services Held Friday For L. N. Cox

Funeral services were held Friday afternoon in the First Methodist Church for Levi Nathan Cox with Rev. J. V. Patterson officiating, assisted by Rev. Bob Ely.

Mr. Cox, 68, died in an Amarillo hospital last Wednesday following a short illness. He was born February 27, 1896, in Cook County and moved to Clarendon in 1915 from Mobeetie, Texas. He attended Mobeetie schools and Old Clarendon College. He was married to Miss Evadne Hurn June 25, 1924, in Clarendon. He was a postal clerk in the local post office for 30 years before his retirement.

He was a member of the First Methodist Church and had served as church treasurer and was a member of the Official Board for a long number of years. He was a member of the American Legion and was a veteran of World War I.

Survivors include his wife, Mrs. Evadne Hurn Cox; two daughters, Mrs. Ladelle Dill of Farmington, N.M., and Mrs. Inelle Bagwell of Claude; two sisters, Mrs. Ethel Brandt of Sweetwater, Okla., and Mrs. Mary Naylor of Carlsbad, N.M.; also six grandchildren.

Palbearers were Copus Boyd, Charlie Bairfield, John Bass, Clyde Hudson, H. T. Warner, and Dwayne Naylor. Members of the J. R. Porter Sunday School Class of which he was a member served as honorary palbearers. Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

Booster Trip Is Planned For Saturday, June 27

The Jaycees are in the process of planning a Booster Trip for the purpose of extending invitations to the residents of area towns to attend our annual celebration and rodeo this year.

The Booster Trip will be a one day trip as it was last year and the tentative date for the trip has been set for Saturday, June 27th. If you have made the trips in the past years, you know how enjoyable they are, and if you haven't made the trip before you will certainly want to make your plans now to take a car and a car load of friends with you.

There is only one stipulation for anyone making the trip and that is that there will not be any alcoholic beverages carried or drunk while on the trip. Make your plans now to travel with the boosters and watch next week's Donley County Leader for further details.

First Term Sets Record At Junior College

The first term of summer school began at Clarendon Junior College on June 1 with the registration ending Monday night, June 8. A total of 91 registrations were completed by the end of the registration period. Of this number a net of 85 students remained enrolled at the close of registration.

An analysis of the records reveal that 23 students were at Clarendon Junior College during the past year. A total of 15 students are high school graduates who have not attended another college. The remaining 47 students represent 15 junior and senior colleges. The majority of these students will complete six hours of college work in the 12 weeks of school with some students completing a total of 12 hours in the 12 weeks.

Classes were formed in American History, Government, Freshman English, Sophomore English, Biology, and College Algebra. Additional students were needed to form an Art class which will be offered again in the second term that begins on July 13.

Information on the second term of summer school is available at the college. You may telephone 3552.

Services Held For Samuel Lee Ramsey

Funeral services for Samuel Lee Ramsey, age 87, were held Friday, June 5, at 4:00 p.m. in the Murphy Memorial Chapel of Clarendon with Rev. Bob Ely, pastor of the First Methodist Church, officiating. Interment followed in the Citizens Cemetery of Clarendon with Murphy Funeral Home in charge of arrangements. Palbearers were Joe Lovell, Earl Butler, Leo Wallace, Doyle Henderson, Jim Lovell and Tate Poovey.

Mr. Ramsey died at 2:45 a.m. on Thursday, June 4th, at the North Plains Hospital in Borger. He was a retired groceryman, having owned and operated a grocery store in Channing for 15 years before moving to Borger.

He is survived by three sisters, Mrs. Myrtle Oliver of McAllister, Oklahoma, Mrs. Mattie Bullard of Watsonville, California, and Mrs. Maude James of Lincoln, Arkansas; one grandson, William Lee Ramsey of Phillips, Texas.

Mr. and Mrs. Arvis Davis and Tracy of Paducah visited here the week end. Arvis has won a trip to the World's Fair and he and his family plan to leave with a group next week.

Parade To Be Under Direction Of Jaycees

The Jaycees will have the overall responsibility of the annual western parade this year and it being only a little over three weeks away, they urge anyone planning to build floats for the parade to start immediately, so that you will have them completed in time.

The Jaycees will be offering a great deal of prize money for the best floats in the business, community, civic clubs, religious groups, and any other organizations which would like to enter their floats for judging.

There are several empty buildings which you might secure permission to use while building a float, and if the Jaycees can be of any assistance in securing a location for you, you are asked to contact Hubert Kidd, Jaycee President, at any time.

Start now on your plans for a float and further details concerning the parade route and other information will be forthcoming in the next issue of the Donley County Leader.

SERVICES HELD WED. AT QUANAH FOR B. THOMAS

Funeral services were held Wednesday afternoon at the Quanah Baptist Church for Billy F. Thomas, 33-year-old army sergeant stationed at Ft. Sill and former area resident. Military graveside rites were conducted by the Amarillo A.F.B. Burial was in the Quanah cemetery.

Thomas was killed Sunday evening when a deer rifle he was putting into his car went off, the bullet striking him under the heart. He was a graduate of Quail High School and a member of the Baptist Church.

Survivors include his mother, Mrs. Alma Murphy of Quanah; a son, Randy of Clarendon; a twin brother, Ted, with the U.S. Navy in Corpus Christi; and a sister, Mrs. W. T. Gilbreth of Panhandle.

FARM NEWS

from County ASCS Committee

Wheat Price-Support

The price-support loan rate for the 1964 crop wheat in Donley County will be \$1.29 per bushel less any storage. This support will be available to all growers who stay within their farm's 1964 wheat allotment. An "Application for Price Support" must be filed at the county office before any grain produced on the farm may be placed in the loan.

Information on premiums and discounts, on sedimentation and protein tests, and on other operating and fee provisions is also available at the county office.

Cotton Appeals

Friday, June 5, was the final date to file an appeal on the cotton yield set for farms in our county. If you do have an appeal on file, however, you will have until Monday, June 15, to bring in your proof of production.

ACP

In controlling erosion of farmland — the country's most extensive conservation problem — mechanical measures are important, and ACP has helped farmers terrace and install other erosion control structures on millions of acres. Vegetative cover, however, is the most widely used and adapted method of controlling erosion. ACP helps with about 20 million acres of vegetative cover establishment of improvement each year.

A Thought

"The best kind of pride is that which compels a man to do his best work, even though no one is looking."

4th Queen Contest Gets Underway

The contest to determine a July 4th Queen sponsored by the Jaycees-ettes got underway at a Coke party in the home of Margaret Naylor Saturday. Six girls entered the contest. Prizes will be a \$50 wardrobe for the winner and a \$25 wardrobe for the first and second runner-ups. Deadline for entering the event is Saturday, June 13th. So, girls you still have time to sign up! You may do so by contacting Mrs. Billy Mac Hicks or Mrs. Chauncey Hommel.

A few changes have been made in regards to the contest this year. The young lady must be between the ages of 15 and 19 and unmarried. It is not necessary that you ride horseback but those who do have horses may appear mounted if they so desire. Votes are obtained by selling tickets to the various events — rodeo performances, pre-western dance, and a pair of hand-made western boots.

Girls who have signed up to date include Melinda Moore, Sherry Shaw, Regina Borden, Pam Hicks, Emily Neece, Jackie Swinney, Adelle Barnhill, and Janice Riley. All of these girls will appreciate any votes they receive. The public may help by buying tickets from these young ladies.

Country Club Barbecue Slated For June 23

C. B. Hudson, president of the Clarendon Country Club, announced this week that the annual chicken barbecue would be held at the Club Tuesday, June 23, at 7:30 p.m.

Chickens will be 85c per half and orders must be turned in on or before June 20th at Tunnell's Pharmacy, Saye's, or Goodman Furniture. The club will furnish beans and coffee.

Mrs. Mary Sue Longan and Pat of Greeley, Colo., are visiting Mrs. Edith Longan and other relatives and friends.

Plans Progressing For Annual Celebration

Lee Palmer, president of the Outdoor Entertainment Association, announced this week that plans were progressing nicely for the Annual Celebration here July 2-3-4, but that it would take lots of work and the cooperation of everyone the remaining three weeks to make this one of the best.

He reported that a number of beehives have already been donated for the free barbecue July 4th and approximately 18 beehives should be lined up by the end of this week. The crowd for the Free Barbecue will in all probability be even larger than any previous celebration and we want to have plenty of meat for everyone, he added.

He also reported that the new section of bleachers at the Rodeo Grounds were complete with the exception of a few details and that the new dance floor had been completed at the rodeo grounds and dances would be held all three nights of the celebration. Art Orth and his Country Gentlemen of Pampa will furnish the music.

Everyone will have an opportunity to dance to this outstanding band on the night of June 27th when the pre-western week dance will be held to start off the week of festivities.

Box seats are now available at Palmer Motor Co. for all rodeo performances and the boxes will go on a first come, first serve basis.

With the added seating capacity for the rodeo, the new dance floor for open air dancing and the free barbecue all thrown in with the western parade, old settlers reunion, etc., this should be one of the largest and most outstanding celebrations in Clarendon's history, Palmer concluded.

Cornell And Hill Win Run-Off Races With Heavy Vote Cast Saturday

Services Held Wed. For P. F. Wiedman

Funeral services for Phillip Fred Wiedman, age 68, were held Wednesday, June 10th, in the First Methodist Church of Clarendon with Rev. Bob Ely, pastor, officiating. Masonic graveside services followed in Citizens Cemetery with Clarendon Masonic Lodge in charge.

Mr. Wiedman died Monday at 12:20 p.m. in the Adair Hospital. He was a retired farmer and rancher, and a veteran of World War I. He was born September 9, 1895, at Clarendon and had been a resident of Donley County his entire life. He was a member of the First Methodist Church, Clarendon Masonic Lodge and the American Legion.

Survivors include two daughters, Mrs. Ida Mae Barnard of Albuquerque, N.M., and Mrs. Shirley Wilson of Amarillo, Texas; four sisters, Miss Rhoda Wiedman, Mrs. Julia Heuer, and Mrs. Helen Churchman of Clarendon, Mrs. Gertrude Hardisty of Salem, Oregon; three brothers, A. C. Wiedman of Kiowa, Kansas, Shorty Wiedman of Clarendon, William M. Wiedman of Dallas, Texas; and four grandchildren.

Services were under the direction of Murphy Funeral Home of Clarendon.

The Weather Picture Is Hot

The general conversation topic is Hot, Dry weather. The mercury climbed to a scorching 103 Sunday with a strong wind. The wind continued Monday but the mercury dropped to 99. It climbed back to 103 Tuesday but the wind was light. The low temperature Tuesday night was 67 degrees.

In the water department, .64 inch was received in a downpour last Wednesday afternoon. This same storm cloud dropped hail both east and west of town wiping out several hundred acres of crops. The strong wind Sunday and Monday took its toll in crops, also.

The weather is scheduled to continue on the warm side which is the usual occurrence for the month of June.

An exceptionally large number of voters turned out to cast their ballot in the second Democratic primary last Saturday. The total vote of 1743 was only 204 votes under the first Democratic primary May 2nd. This was an outstanding turnout considering the fact so few were listed on the ballot. The County as a whole voted on two races while Precinct No. 3 voters had three races listed on their ballot.

Lonnie "Bill" Cornell came out victorious in the Sheriff's race unseating incumbent Truett Behrens 1069 votes to 674. In the first primary Cornell received 887 votes while Behrens drew 647.

In the race for County Commissioner of Precinct No. 3, Junior Hill defeated Frank Murray, incumbent, 384 to 198 votes. In the first primary Hill received 267 votes and Murray received 194 votes.

Cornell and Hill will begin their four-year terms of office next January 1st.

DALLAS' BIG 'MAIN PLACE' PROJECT

Located in the center of downtown Dallas, the model above shows the three major buildings which will be constructed in several stages on the ten-acre Main Place site. Estimated to cost \$120,000,000, the first stage will be the 34-story, \$41,000,000 office building in the center of the picture. Later phases will include the massive second office building on the left, which will straddle Main Street, and on the right, a large department store with a 400-room motel on top. The development is actually one big, ten-acre "super block" tied together with outdoor plazas for pedestrian traffic 15 feet below ground level.

Establishing High-Producing Pastures
Pasture grasses are rapidly becoming of major importance in both the High Plains and Rolling Plains.
Midland Bermuda grass, which has proven its adaptability over the past few years, along with

Indiangrass and Switchgrass, which have long ago proven their adaptability, are the principal grasses being established.
High-producing pastures do not "just happen." They are planned and managed for. There are no "short-cuts" in establishing high-producing pastures. There are

1. Must select adapted species of grasses. There are many grasses adapted to the Texas Panhandle. However, many of these do not respond favorably to fertilization and/or irrigation.
2. Must select adapted species of grasses. There are many grasses adapted to the Texas Panhandle. However, many of these do not respond favorably to fertilization and/or irrigation.
3. Must have proper seedbed. Many failures to get grass established can be traced to improper seedbed preparation. If the seedbed is considered adequate for the planting of grain sorghum, then it is adequate for grass planting.
4. Must have good planting material. High-quality seeds may cost more in the beginning, but in the long run, they have proven less expensive. There is little loss in livability of Bermuda grass sprigs when they are planted immediately after digging. If the sprigs are to be transported any distance, dampen and cover and get them in the ground as soon as possible.
5. Material must be planted at the proper time. Failures to obtain stands after July 1 are quite common since the grass has insufficient time to establish an

- adequate root system and, in many instances, winter-kills.
6. Must control weeds. Any plant that competes with improved pasture grass is a weed. Effective methods of control may be herbicidal sprays, cultivation, or even controlled grazing, depending upon the species of weed competition.
7. Must fertilize properly. Vigorous growing grasses such as Midland Bermuda grass, Switchgrass, and Indiangrass respond to fertilizers in many ways. The water requirement per ton of forage produced will be reduced about one-third on well-fertilized pastures as compared to non-fertilized. The tonnage will be much higher and the feed value will be almost doubled.
8. Must allow plants to establish before grazing. Since grass plants receive approximately 95 percent of the elements for growth taken from the air through the leaves and the elements are transported to the roots as "stored food," it is all important that the grass be allowed to keep its leaves until established in order to carry on the manufacturing process.
9. Must follow a timely and proper irrigation plan that will provide about one-third inch of water each day.
10. Must properly use the grass after it is established. Research and experience have shown that Midland Bermuda grass should be grazed no closer than five inches, and tall grasses such as Indiangrass and Switchgrass no closer than 12 inches during the growing season. Since over 80 percent of the total feed value of a grass is above the proper height, one only risks the disappointment in reduced yield if it is not properly used.

was a bit chilly it was well worth being an eager beaver just to see the new foliage.

Happiness kept to ourselves is like a seed unplanted. Happiness shared is like the flower that grows from the planted seed.

Fate may give us enough money for our needs, but seldom for our wants.

Some men my age would give a pretty penny to get a haircut like The Beatles.

The politicians have been hammering away like mad on their platforms. They seem to feel that they are building stairsteps to their longed for office.

"I gave a beggar from my little store of well earned gold. He spent the shining ore and came again, still cold and hungry as before.

"I gave a thought, and through this thought he found himself. Fed and clothed, crowned with blessings manifold, and now he begs no more."

them cold, and many of the week-night activities seem little removed from that of a club. Indeed many say that they find better fellowship in a club, for there is less gossip, less tittle-tattle, less meanness, less bitterness, and fewer hurt feelings over trifles." He made this statement some twenty-five years ago but it would seem even more of an indictment in many churches today. As we read his book this passage sort of jumped out at us, because we had so often wondered why church people seem to try ever so hard to hurt and be mean to each other. Very often more cruel than the lodge or club members.

PATTERNS FOR PROGRESS

What makes a community grow?

Our recent PATTERNS FOR PROGRESS ads have summarized basic economic development factors. The series continues as we advance to community development, which is made possible by sound economic development.

The West Texas community of Ballinger is a shining example. With organization, teamwork and sound planning, Ballinger has developed a \$400,000 Memorial Hospital (pictured above) . . . 17 new commercial buildings . . . modernization of 16 others . . . 21 new businesses . . . a new community center . . . major park improvements . . . a frontier museum . . . and the adoption of a new city charter.

Ballinger is an outstanding PATTERN FOR PROGRESS.

When such a community spirit seeks new industry, even more growth comes. The Early-Return Problem
It is Tuesday, November 3, 1964, election day. Twilight blankets the Eastern Seaboard. The polling places are closing. The election tallies and the computerized forecasts "naming" our next President are flashing westward across the Plains and mountains to the States washed by the Pacific. In the West the polls are still open and will be for several hours more. From television and radio, millions upon millions of Western voters are learning before they have voted how election trends are developing. The computers are predicting how their votes will count — for a

winner, for a loser, in landslide, as deciding ballots in a close race.

To what extent is the Presidential vote in the West influenced by early returns from the East?

In his classic study of a Presidential election, "The Making of The President 1960," Theodore H. White observed, "The psychology of the bandwagon, of being with the victor, may effect ten, twenty or fifty thousand California votes; conversely, the psychology of emergency may, if there seems to be the slightest hope, rush sluggards out of their homes to vote their convictions. Both parties focus tightly on Connecticut on election evening to transmit early returns to influence the California vote."

For several reasons Connecticut is the key Eastern State in early-return considerations. It

Teens Turn Out by Thousands To Join March of Dimes TAP's

Thousands of teenagers across the nation have found a way to have fun while doing an important community project.

They have joined the Teen Age Program (TAP) of the 1964 March of Dimes in the fight against birth defects and arthritis.

Many are helping to carry out the public education program against birth defects, today's greatest unsolved childhood medical problem. Others are assigned to help with the Mothers' March for the March of Dimes. A great many choose to think up their own projects in their schools or suburbs.

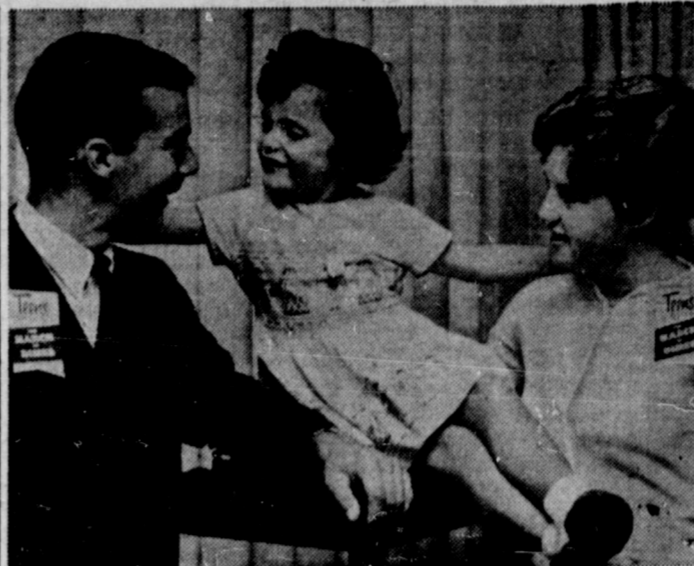

Whatever job, it is important, because the fight against birth defects is vital to every young person who plans to have his own family someday, after completing school and career preparations.

Heading the TAP program are Judy Meyers, 18, Aurora, Colo., and Philip Dawson, 18, Jamestown, N. Y., who are the national TAP co-chairmen for the 1964 March of Dimes this January.

Judy, a freshman at the University of Colorado, was a vice president of Mu Alpha Theta, mathematics honor society at Aurora High School, and Philip, a freshman at Miami University, Oxford, Ohio, was a member of the National Honor Society at Jamestown High School.

Both young people feel that a high scholastic rating is not only desirable but necessary in today's world. Both feel that good marks give a teen leader added prestige with his peers. "It's terribly old-fashioned to think that the Big Man on Campus is a 'C' student," Judy and Philip said. "More often than not, he's an 'A' student who is also aware of the importance of community activities."

Judy is the daughter of Mr. and Mrs. Samuel Meyers of Aurora. She became a March of Dimes volunteer several years ago because she wanted

GETTING TO KNOW YOU: Little Virginia Paige, 5, who was born with a birth defect, gets acquainted with Philip Dawson, 18, of Jamestown, N. Y., and Judy Meyers, also 18, of Aurora, Colo., who were appointed national co-chairmen for the 1964 Teen Age Program (TAP) of the March of Dimes. Thanks to the latest medical techniques, provided by March of Dimes funds, you'd never know that Virginia, who lives in New York with her parents, was born with a serious birth defect.

"to do something useful." She decided to study languages at the University of Colorado for the same reason, because she thinks that linguists can be of service to their country in the coming years.

Philip, son of Mr. and Mrs. George H. Dawson of Jamestown, comes from a family active in community service. His father is a deacon in the First Presbyterian Church of Jamestown, and a district commissioner for the Boy Scouts of America. Philip first heard of the March of Dimes through his mother, who was active in the Mothers' March for the March of Dimes during the years the Salk vaccine was being developed and tested.

Currently, Philip plans to go on to law school after college. He has tentative plans for a career in politics, "because I feel that this is an interesting part of our present-day life." Both young people feel that if teens throughout the country

are told the importance of the March of Dimes programs against birth defects, arthritis and polio, they will volunteer in great numbers for January's March of Dimes.

They based their predictions on two things, (1) neither Philip nor Judy ever had any trouble in finding volunteers for their March of Dimes projects in their home states, and (2) both teens pointed to the fact that the Peace Corps never has any trouble in finding volunteers.

"Young people today want to do something useful, along with putting forth every effort to do justice to their scholastic programs," the two national March of Dimes volunteers said. "Just because a teen wears sloppy clothes sometimes and is a little loud other times doesn't mean that he doesn't want to do something worthwhile. The vast majority of teens want very much to be good, useful citizens."

is populous; the Democratic and Republican parties are well organized; its voters ballot on voting machines, and the results are all but completely tabulated half an hour after the polls close.

Polls in Connecticut close two and three hours before the polls close in California, Washington, and Oregon — four and five hours before they close in Alaska and Hawaii. If early returns do influence elections, there is less time but still ample time for votes also to be influenced in Midwest and Mountain States after the tallies flash from Connecticut and other States up and down the East Coast.

Constant improvements are being made in reporting techniques of television, radio, and the printed press as well as in communications technology. The effectiveness of computer vote analysis is improving. Unlike pre-election polls, which (as we

THE DEPENDABLES: SUCCESS CARS OF '64

The rather handsome car above is what you might call a two-time winner. Dodge led the nation in percentage sales increase last year and continues to set and smash these lofty sales marks in 1964.

It's also called a 1964 Dodge. Or the low-priced car that doesn't look like one or feel like one. People who have bought one, and who, incidentally, are trading in all kinds of other cars in record numbers, say they like: 1. The looks. 2. The roomy and rather posh interiors. 3. The extra savings of its famous Slant Six.

4. The lively V8 that goes on regular gas. 5. The self-adjusting brakes and 32,000-mile interval between major grease jobs. 6. The solid way it's put together — with a fully unitized, rust-protected body. 7. The price (right with Ford and Chevy).

If these seem like pretty good reasons for buying a car, join the swinging trend-setters who are changing the look and feel of the low-price field. You'll find them at your Dependable Dodge Dealer's.

have seen this year) are shaded by uncertainties and "undecideds," data computers can predict election outcome with cold accuracy providing the calculations are based on returns from carefully selected precincts with clear histories of past voter performance.

What, if anything should be done if elections are influenced by communicating early returns into areas where voting has not been completed? There is no easy answer. It is my view that the Federal government can not prohibit wire or wireless communications from disseminating early returns. I would be opposed to any attempt to impose on the press media or private citizens any restraint on relaying election returns in their possession. To impose such restraints would violate the First Amendment to the Constitution and the prohibition against censorship contained in the Communications Act.

I believe the answer, if one is required, must be found in amending election laws or writing new ones. State legislatures might agree to a uniform election code prohibiting the release of Federal election returns in one

State until the polls have closed in all States. As a last resort, would the people of the country be willing for their Congress to separate Federal elections from the election process as it is now constituted and in that way establish time control over the release of Federal election returns? Perhaps some day we will have to wrestle with a solution to this question: The Marshall Islands, now a U. S. Trust Territory in the Pacific, are not hours behind the East Coast — they are a full day ahead of it. In some distant year, if the islanders do attain the vote, will Americans be saying, "As go the Marshall Islands, so goes the Nation?"

TATES OBSERVE GOLDEN WEDDING ANNIVERSARY

Mr. and Mrs. Tom Tate observed their fiftieth wedding anniversary Sunday afternoon, June 7th, at the Bank Committee Room in Hedley.

A large number of friends and relatives were present to honor this pioneer couple. Mr. and Mrs. Tate were married June 7, 1914, in Quail, Texas. The Tates have resided in the Hedley Community since their marriage.

Mrs. Leon Doherty served refreshments from a table covered with a gold linen cloth and centered with a floral arrangement and a three tiered wedding cake marked with the gold numeral "50" to the top.

Guests were registered by a granddaughter, Mrs. Nell Cox of Lorenzo, daughter of the late Orville Tate. Mr. and Mrs. Don Carson of Borger honored the parents with the celebration. Also present was David Tate of Amarillo, son of the late Tommy Dean Tate.

The couple received a number of lovely and useful gifts which were displayed.

STATE CAPITAL Highlights AND Sidelights By Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texas Restaurant Association, headquartered in Austin, is backing a proposal to legalize the sale of mixed drinks in Texas.

Executive Vice President W. Price, Jr., of the 2600-member organization, reports that a six-member committee of his group has drawn a bill for presentation.

TRA's bill would authorize local option elections on the sale, by food establishments, of distilled spirits in sealed containers of two ounces or less. Also it would extend the liquor curfew until 2 a.m.

Price said he has sounded out a number of legislators and found them enthusiastic. One of the most prominent members of the House of Representatives is expected to introduce the measure. Price, however, declined to name the sponsor.

Repeated efforts to legalize over-the-bar sales of mixed drinks in Texas have collapsed in recent sessions of the Legislature under the combined weight of opposition by united dry forces and church groups.

"This is not a wet-dry issue," said non-drinking ex-restaurantier Price. "Texans can buy anything they want to drink right now. All we are trying to do is make it convenient for a man who wants to have a drink served in a dignified manner at a nice restaurant to be able to get one."

Price, who also is secretary of the Texas Tourist Council, said he believes sale of mixed drinks "will definitely stimulate the tourist program in our state."

Furthermore, he estimated, the TRA bill would produce nearly \$3,000,000 a year in new tax

revenue.
"SKY'S THE LIMIT" — Legislative Budget Board members heard a warning from their executive director, Vernon McGee, that "the sky seems to be the limit" on state agency spending requests for 1965-67.

As an example, McGee cited budget proposals of the State hospital system and institutions of higher education.

He also noted the legislative committee of the State Bar of Texas judicial section has proposed big pay boosts — of \$12,000 a year — for judges. Under the Bar Committees plan, base salaries of district judges would be doubled — from \$12,000 to \$24,000 a year. Court of Civil Appeals judges would be raised from \$16,000 to \$28,000, and the Supreme Court and Court of Criminal Appeals from \$20,000 to \$32,000.

Some civil appeals judges had requested no raises at all until the committee report came out, McGee said. But amended budget requests now are being received and the \$12,000 raises supported in budget hearings now underway.

RUMP DELEGATION THREATENED — Threat of a rump liberal delegation to the national democratic convention was posed by State AFL-CIO President

JUMPING GENERAL—Beaming obvious pride and pleasure, Major General Robert H. York poses upon completing his first jump as a sport parachutist. General York, commander of the 82d Airborne Division, Fort Bragg, a paratrooper since 1956, was trained in sky diving by the Division's sport parachute club, holder of the coveted Matthew B. Ridgway Trophy for outstanding parachute clubs.

H. S. (Hank) Brown.

Brown said a sure way to prevent that is for all legally-elected delegates to be seated at the

state democratic convention at Houston on June 16 and for the convention to embrace the national party platform and all party nominees.

Gov. John Connally said moderate-conservative delegates will comprise two-thirds of the duly elected representatives at the June meeting, and he does not want resolutions endorsing all planks of the national platform.

State Democratic Executive Committee Chairman Frank C. Erwin, Jr., has named Austin attorney Will D. Davis as head of a SDEC panel to hear delegation contests from Bexar, Dallas, Harris, Hutchinson, Edwards, Randall and Sherman Counties. SDEC will make the final decision as to which delegations to seat. The eight contests involve 819 of the Houston convention's 2,834 votes.

The Houston convention will name delegates to the democratic national presidential nominating convention and select Texas national committee representatives. Texas Democrats are united in support of President Johnson this year. Key issue is whether the convention will support the national platform and agree to support ALL party nominees.

PRESIDENT HONORED — President Lyndon B. Johnson returned to Austin and Johnson City to address commencement ceremonies, talk politics and visit with friends.

In his fourth trip to his home state since becoming president, Johnson addressed graduates of Johnson High School in Johnson City, where he graduated 40 years earlier, and the University of Texas. Both the President and Mrs. Johnson received an honorary degree from UT.

The biggest gathering of state officials and lawmakers in the capital city since the last legislative session turned out to hear the Presidents university speech and visit with him at a reception afterward.

COURTS SPEAK — Sunday closing laws specifically authorize emergency purchases. Supreme Court held in a Nueces County case, Case involved week end sales by Shoppers World on emergency certificates.

Decision did not pass on constitutionality of the 1961 closing statute, although one judge said in a concurring opinion the whole act should be declared invalid.

The high court also concluded oil and gas production formulas adopted by the Texas Railroad Commission are subject only to timely attacks in court. Its opinion apparently continues some 2,000 allocated formulas placed in doubt by its 1961 "Normanna" decision. The court overturned lower court rulings invalidating Calhoun County gas field allocation. Aluminum Company of America claimed small track operators were permitted to drain away \$9,000,000 worth of gas from an Alcoa lease.

Texas Water Commission findings authorizing the City of Wichita Falls to build \$12,500,000 "Halsell Dam" on Little Wichita River were upheld by the Third Court of Civil Appeals. Commission affirmed a Travis County District court ruling of last June. Suit was brought by landowners in the proposed reservoir area, who claimed the dam should be constructed 27.7 miles from Wichita Falls instead of 11 miles from the city as planned.

Supreme Court agreed to review cases where courts of civil (Continued on last page.)

Highway Commission Authorizes New Improvement Program

AUSTIN, Texas, June 5, 1964—More safety and less congestion for 2,067 miles of Texas highways was the objective today of a \$166 million improvement program authorized by the Texas Highway Commission.

The biennial Consolidated Highway Program is beamed at correcting traffic problems on parts of the Primary Highway System of U.S.-and State-numbered highways in Texas.

The Highway Commission called the 2-year program "vital to our keeping pace with a traffic explosion that is increasing five percent a year." In view of the diffusion of Texas' 22 metropolitan areas — more than any state — "these city-connecting highways must continue to be systematically upgraded for the good of the cities they serve, as well as the safety and convenience of the through traveler," the commission said.

The 25,000-mile Primary Highway System carries a bigger burden of the state's 50-billion-mile-a-year traffic load than all other systems combined, commissioners pointed out. Yet some 20,000 miles of the Primary system are considered obsolete by contemporary standards, they said.

Of the amount authorized for the Consolidated improvement program, \$151 million is earmarked for construction and about \$15 million for right of way. The program will be funded from state gasoline tax revenue, license fees and federal grants in aid. About 65 percent of the cost will come from state funds.

Under the new program, heavily-traveled Primary highways will be upgraded, some to four-lane standards. Widening of bridges, paving of shoulders and other improvements for safety are also included for various highways over the state under the extensive program.

Highway Department studies indicate dramatic improvements in safety statistics result from such programs as the one au-

LOCALS ATTEND RITES FOR RELATIVE

Willie Alpheus Rush, 52 years old, passed away June 4th at his home in Elida, N.M., after a few weeks illness. Services were held June 6th at Fourth St. Church of Christ, Portales, N.M., with ministers Elmo Burkett and Eb Randel in charge. Burial was in Levelland Cemetery at Levelland, Texas.

Surviving are his wife, Mary, and two sons, all of the home, three sisters and a brother.

Mr. Rush, a prominent cattleman, had lived in Elida 20 years, and was a member of the Church of Christ.

Relatives attending services from here included J. M. Graham, Mr. and Mrs. Harold Graham, J. R. Graham, Mrs. Hubert Rhoades, Mr. and Mrs. Doyce Graham and Mike Graham.

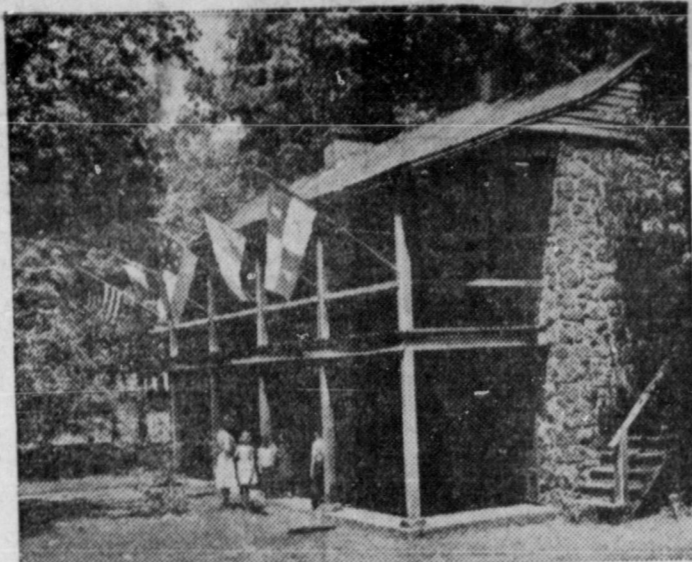

VISIT IN GUYMON

Mr. and Mrs. C. E. Bairfield were in Guymon, Okla., Saturday to visit with the family of H. L. Wheeler. Mr. Wheeler, a retired Methodist minister, died Wednesday morning. Funeral services were held Saturday afternoon.

Visitors over the week end in the home of Mr. and Mrs. C. R. Brown were her two brothers, Mr. and Mrs. H. R. Griswold of Olympia, Washington, and Mr. and Mrs. Jack Griswold of Amarillo, also their son, Mr. and Mrs. Joe Brown of Amarillo.

About 30 guests from Pampa, Greeley, Colo., Amarillo, and homefolks helped Harley Longan celebrate his birthday Sunday. All enjoyed a burger supper.

Mr. and Mrs. Tom Corder of Amarillo, Mrs. Mary Sue Longan and Pat of Greeley, Colo., and Mrs. Edith Longan were dinner guests Sunday in the home of Mrs. J. C. Estlack.

NACOGDOCHES—Built in 1779 as a Spanish trading post and fort, the Old Stone Fort is now a museum, located on the campus of Stephen F. Austin State College in Nacogdoches. Over its walls have flown eight flags.

appeals ruled paying traffic fines in corporation court does not constitute a conviction which can be counted toward drivers license suspension.

OIL IMPORTS CHANGES URGED—Gov. John Connally and state railroad commissioners have called on U.S. Secretary of Interior Stewart L. Udall to revise the oil imports program before the next quota period starting July 1.

They particularly recommended oil from the Texas region of surplus be moved to the West Coast where foreign oil continues to fill almost total market growth. Connally said deterioration in Texas crude prices and production dropoff "threaten to erase the slight progress of 1963 and assure a third consecutive year of decline in the State's reserves and productive capacity." The domestic producing industry, he said, must continue to grow in

proportion to total imports under a stabilized price structure.

COTTON EXPORT PUSHED—On request of West Texas growers, the governor called on President Johnson to encourage favorable consideration of an export sales program for extra long staple cotton. The plan now is under consideration by the Department of Agriculture.

Growers are faced with a surplus threatening price and acreage reductions. Supima Association advised Governor Connally there is a world demand for extra long staple cotton and this is an opportune time to dispose of stocks owned by Commodity Credit Corporation.

ANIMAL HEALTH COMMISSION DIRECTOR RESIGNS—Dr. R. G. Garrett, executive director of Texas Animal Health Commission has resigned effective October 1. He plans to devote all his time to his farm and ranch near Taylor.

Commission Chairman C. E. Knolle and other livestock industry representatives joined in

commending Dr. Garrett for his work in the screwworm and brucellosis eradication programs, as well as day-by-day administrative direction of the agency.

WATER HEARING POSTPONED AGAIN—Texas Water Commission for the third time rescheduled hearings — to June 30 — on five Brazos River watershed reservoir projects.

Reservoirs are Proctor, Comanche County; Stillhouse Hollow, Bell County; Somerville, Washington County; Decordova Bend, Hood County; and Belton, Bell County.

Negotiations on sale of water to downstream interests are continuing.

"BACKTAGGING" PICKS UP—The system of certifying for brucellosis eradication by vaccinating cows and culls as they go through livestock markets, called "backtagging," is catching on fast, according to Federal and State animal health authorities.

U.S. Department of Agriculture says that reports on 2,104 head of backtagged cattle were received from more than 20 slaughter houses in April.

Follow-ups on the backtagged cattle, in addition to samples taken from 2,905 other cattle slaughtered last month, produced 205 reactors.

DROP-OUTS AND STAY-INS—Top brass of the Texas Education Agency heard the initial report on progress in the agency's "Stay in School Project," aimed at reversing the rising tide of public school drop-outs.

Agency consultants reported on what they have accomplished since March when the SIS pilot project started. Commissioner of Education J. W. Edgar termed it an impressive start.

The study, and local efforts to implement it and deal with the drop-out problem, will continue and ultimately will become a state-wide effort.

committee headed by Senator George Moffett of Chillicothe met to consider holding public hearings over the state. Texas for the first time has registered 5,000,000 motor vehicles and now ranks behind only California and New York in total registrations. April retail sales index declined six percent from March apparently due to effect of the early Easter on retail apparel buying, Bureau of Business Research reports. Governor's Committee on Higher Education met here to put together the pre-

liminary second draft of its recommendations for building a top-rated system of state colleges and universities. Paul J. Thompson, longtime head of the University of Texas School of Journalism and a professor for nearly 39 years, died at the age of 73. Mrs. Richard Bass of Dallas is new co-chairman of the Texas Goldwater for President committee. Texas Railroad Commission took testimony on whether several segments of Calhoun County's Appling gas field should be merged. Sixteen new

game wardens, selected from 229 applicants, received diplomas this week. State Highway Engineer DeWitt C. Greer celebrated his 24th anniversary as head of the State Highway Department, and his 37th year with the department.

LOCAL GIRLS ATTEND SUMMER CAMP

Anna Beth Simmons and Suzanne Moore of Clarendon, and Susan Bagwell of Claude are enrolled at Camp Mahaba at Belton, Texas, and will be there the coming month. Claude Moore took the girls down Wednesday of last week.

Mr. and Mrs. Harley Dean Longan and Lori Sue of Trinidad, Colo., visited his grandmother, Mrs. Edith Longan, and other relatives and attended the Green-Vallance wedding in McLean Thursday evening.

I wish to thank all my friends and neighbors for their visits, flowers, cards, food and other kindnesses shown me while I was ill. May God's blessings be with you always.

Carrie Johnson

To those who expressed their sympathy in so many beautiful and practical ways during our recent bereavement we extend our heartfelt thanks. The visits and flowers sent to the hospital, the lovely floral offerings, the food, the sympathetic cards, and many other kindnesses were sincerely appreciated.
