Sheriff Truett Behrens reported that Willie Weatherton, colored, received a severe eye injury and other serious injuries and four others received lesser injuries in a four car pile-up on Highway 70 at the Cemetery south of town about 12:50 a.m. Sunday.

Behrens reported that two cars belonging to Jerry and Gene Taylor were parked facing east at the entrance to the IOOF Cemetery and a car operated by Johnny Linville was parked on the highway facing north with headlights on and a fourth car, driver unknown, was parked on the east side of the highway facing north with headlights on. The car driven by Weatherton with Haley Ingram (colored), traveling south and apparently the driver became blinded and confused and couldn't tell which lights to try to miss. Weatherton's car struck the Linville car almost head-on and veered off and hit the two Taylor cars. None of the three parked cars were occupied but the youths were caught in between. Jerry Taylor received back lacerations and Gene Taylor received lacerations and one ear was almost amputated. Linville and Ingram received only minor injuries, Behrens stated.

Forty Prospects Report For Football Practice

Forty prospects have reported for fall football training this week, twelve of them freshmen and the other 28 scattered through the other grades.

Out of this group, Coach Jack James has seven letter-men returning. They are Teddy Graham, Ronnie McAnear, Larry Gray, Steve Shelton, Johnnie Grady, Lester Welch and Kenneth Price. This leaves Coach James with a small, inexperienced team but he reports they are looking good for such a short workout period. The squad is working out twice each day and will follow this routine until the first day of regular classes when they will drop to only one on August 28th.

Another new face on the field this season is Assistant Coach Harold Gouge who replaces Jack Murphy as line coach. Murphy resigned several days ago to take another position in East Texas. Gouge, age 29, lettered three years at West Texas State and served as line coach at Littlefield three years and at Shamrock one year. His home was originally at Borger where he played with the Bulldogs.

Coaches James and Gouge have quite a chore cut out for them to get the Broncs ready to meet a powerful Gruver team here in the season opener Friday, September 6th.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all of the bonds which are to be set aside for that purpose, shall be set aside and retained in said Fund for the purpose of retiring all such bonds, and shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall hereafter be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds purchased pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the

principal and the interest thereon, together with the expenses hereof, authorized or hereafter issued and sold by said Board. Such shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All bonds thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to Texas veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or the Marine Corps of the United States between September 16, 1940, and March 31, 1945, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above named and who at the time of his or her enlistment, induction, commissioning, or draft into the service, was a resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board may be used by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold or resold, by said Board; for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds.

"All moneys attributable to the bonds issued and sold pursuant to this Amendment shall be set aside for that purpose. After December 1, 1965, all moneys attributable to such bonds shall be set aside for the retirement of such bonds and to pay interest thereon; and when there are sufficient moneys to retire all of such

bonds, all of such moneys then remaining or otherwise becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds heretofore issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds heretofore issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds heretofore issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance of such additional bonds, until there are sufficient moneys to retire all of the bonds heretofore issued and sold, at which time all such moneys then remaining a part of the Veterans' Land Fund shall hereafter become a part of said Fund and shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it deems necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption by the Legislature. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Saturday after the first Monday in November, 1963, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such fund to be expended in accordance with instructions and requirements that may be provided by law; and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such fund to be expended in accordance with instructions and requirements that may be provided by law.

The activities of the week included swimming, hiking, fishing, exploring, riding ski lift, movies, fun house and sitting around the camp fire each night. Paul Bunyan McAnear kept a nice supply of wood at all times. The troop visited the state fish hatchery and Rio Grande box canyon where everyone waded in the Rio Grande River. Camp was broken Friday

morning. The caravan came by way of Taos where Kit Carson Park and the Indian Pueblo were visited. The troop spent the night in Tucumcari, New Mexico.

Evelyn Davidson, Jerry Hicks Wed In Lakeview Rites

Nuptial vows were solemnized at 3 p.m. Sunday, July 28, in the Lakeview Baptist Church for Miss Evelyn Davidson and Jerry Hicks with the Rev. Robert Griffin, pastor, officiating in the double ring, informal ceremony.

The bride is the daughter of Mr. and Mrs. Clyde Davidson of Lakeview and the groom is the son of Mr. and Mrs. Olace Hicks of Clarendon.

The altar was decorated with baskets of white gladioli and a sunburst arrangement of greenery and white wedding bells in the background. Family pews were marked with white satin bows.

Mrs. H. W. Spears provided the wedding music and accompanied Miss Cheryl Craghead as she sang "I Love You Truly."

Given in marriage by her father, the bride wore a light blue brocaded street-length dress with a semi-full skirt. She wore white accessories and carried a white Bible topped with white carnations accented with pale blue agapanthus tied with white ribbon streamers.

Miss Linda DeBord of Ash-tola was maid of honor. She wore a pink sheath dress, white accessories, and a white carnation corsage.

Larry Hicks of Clarendon served as his brother's best man. Ushers were Wayne Lewis and Neel Carter, both of Clarendon.

The mother of the bride, Mrs. Clyde Davidson, wore a navy blue dress of eyelet embroidery accented with white accessories. Mrs. Olace Hicks, mother of the

bridegroom, wore a suit of beige silk complimented with apricot accessories. Both wore corsages of white carnations.

Immediately following the ceremony, a reception was held at the school cafeteria. The bride's table was laid with an ivory lace cloth over an underskirt of blue and appointed in crystal. Centering the table was a three-tiered wedding cake flanked by white candles in crystal holders.

Misses Cheryl Craghead, Joan Proffett and Patsy Ann Reed presided at the refreshment table serving the wedding cake and punch.

Miss Carolyn Orr presided at the register to secure signatures of the guests.

The newlyweds are at home at the Beck Apts., 1202 S. Hawley, Clarendon. Jerry is associated with his father in the dirt contracting business.

MARY MARTHA'S CLASS MEETING

The Mary Martha's met in the home of Mrs. W. C. Ragan last Tuesday. The meeting opened with prayer by Mrs. J. D. Woods. After a short business meeting Mrs. Billie Christel brought the Devotional. Her scripture was taken from John, 1-4.

Miss Vada Waldron was guest speaker. She gave her life's testimony, beginning from her childhood on to the present time. She told of her work on the foreign fields of Argentina where she has worked for 26 years. She was wearing a pin awarded her for 25 years work in the Baptist missionary work, which the audience found very interesting. Her story of the hardships, heart aches and pleasures were so very interesting and heart warming. It is a challenge to the Christian People to wake up and do our best to help the Missionaries on the foreign fields with our money, our prayers and our encouragement.

Three guests attended the meeting. They were Miss Edgar Mae Mongole and sister, Mable, and Miss Vata Waldron. Thirteen members were present. The hostess served lovely refreshments of cheese cakes frosted Cokes and mixed nuts. The plates were decorated with toothpick manikins.

Everyone came away from this meeting with a desire in their hearts to do more for the suffering humanity on the foreign fields and we are deeply grateful to Miss Waldron. —Rep.

From an article in the Amarillo Daily News, "Reading Biggest Hurdle for Potential Dropout Students": "But most characteristic of all, according to Sumner is his (dropout's) inability to read."

"Reading is the heart of all learning," Sumner said. "If you can't read, you can't learn anything."

"Actually these kids are very tough. Suppose you were unskilled in dancing: Do you think you could stick it out for 10 or 11 years in a situation where success depended on your dancing?"

"The typical high school dropout had trouble with reading when he started school, Sumner said, and the problem compounded as he progressed through school.

"The only solution, he says, is remedial reading at every school level.

"School should make reading more important than anything else," and revamp curricula to help students who do not have linguistic skills. Sumner said.

Pulitzer Prize winner Oliver La Farge died two weeks ago in New Mexico. He will not only be missed in literary circles but by the Indians of New Mexico as he has been a spokesman for their rights for a long time.

The movie "Hud," made from Larry McMurtry's book "Horseman Pass By," is the official U.S. entry at the 1963 Venice Film Festival.

"Paramount noted that the movie, a modern-day Western which is basically a character study of four persons living on a Panhandle ranch, has been 'hailed by critics in the U.S. and England as the best American film of 1963.'"

These wrecks accounted for two persons injured and property damage in the estimated amount of \$2,155.00.

The rural traffic accident summary for this county from January through July of 1963 shows a total of 19 crashes. As a result of these crashes there were one person killed and 11 persons injured. The estimated property damage amounted to \$13,843.00.

"There are many good jobs open in the Texas Highway Patrol for young men between 21 and 35 who would like to help prevent the tragic crashes and collisions that occur on the streets and highways," Sergeant Wilson said.

With the starting of school facing us in the next week or so the Sergeant reminds all motorists of the state law regulating traffic in regard to school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which is stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

"During the first six months of this year, Texas had one person killed and 110 injured in accidents involving school buses," the Sergeant said. "This is tragic and useless. School buses are plainly marked and motorists know that they carry a priceless cargo — human lives."

Commenting on the upcoming Labor Day week-end facing Texas motorists, the veteran patrol supervisor said, "Many Texas families will take advantage of this last long summer week-end to take trips prior to the opening of school. As a result, traffic will be heavy and the possibilities of traffic crashes will be increased."

"Because this holiday is so much a family affair, more people will be occupying cars. Thus, any traffic accident might result in several casualties. This has been evidenced several times on Texas highways in recent weeks. During the 72 hour Labor Day week end last year 24 crashes claimed the lives of 32 persons."

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

Momentous Decisions To Come

History will remember this First Session of the 88th Congress for decisions it will make in the weeks to come. Up to now, Congress has not acted on any legislation of an unprecedented nature. Measures enacted so far have, in the main, provided for the continuation (or abandonment) of programs established in past Sessions, met the financial obligations of the government, taken care of the government's "housekeeping" responsibilities.

That pattern is changing. Now the focus of Congressional activity is on legislation of a momentous nature — legislation of such scope that decisions made will have a bearing on the Nation's very security and its economic well-being and on the future course of Federal-State relations and personal liberty.

The three most important pending legislative matters — and certainly there are many other vital matters of national importance — are the nuclear test ban treaty, tax code revision and a tax cut, and civil rights.

The test ban hearings are making daily headlines. The Senate, which Constitutionally is the only body of Congress

empowered to act in ratifying treaties, will explore the treaty provisions thoroughly. Tax legislation has been the subject of prolonged hearings by the House Ways and Means Committee; a bill is likely to be submitted to the full House in a matter of days. Then the Senate will begin its own work on the tax bill. Meanwhile, both houses of Congress are in the committee stage of considering civil rights legislation.

The Senate will dominate the coming Congressional drama. It alone holds the power of "yea" or "nay" over the test ban treaty. It will be in the spotlight also because Senate rules permit unlimited debate on measures reaching the floor. The debate may continue until each Senator has had his say. It can be cut off only by exercise of that rarely invoked Senate procedure called "cloture," by which two-thirds of the Senate must concur in a motion to end debate.

By contrast, debate is limited on the floor of the House. A major bill coming before the House is presented along with a "rule" adopted by the Rules Committee — a resolution (which the full House may either adopt, amend or reject) establishing in part the number of hours during which debate is to be permitted and whether or not amendments to the bill may be submitted during debate. There can be no filibusters in the House; once a bill has reached the floor a decision on it cannot long be delayed.

The Senate, on the other hand, can devote weeks to debating the provisions of a bill. Oratory is more common to the Senate, once called "the world's most exclusive debating society," since its rules permit prolonged discussion. Now, it's anyone's guess as to what will happen in the Senate on the nuclear test ban treaty, the tax bill or civil rights.

But with the shadow of a bitter civil rights showdown looming over every Senate action, I would say that the country is assured of a very thorough airing of all measures coming before it. Senate opponents of civil rights legislation, with an eye on the calendar, may attempt to forestall action on civil rights by prolonging debate on all controversial issues presented to the floor.

Those who expect Congress to be in session until the snow flies aren't going to be far wrong, I'd guess. It may happen that the First Session won't end until the Second Session is ready to begin in January, and that this will be the first continuous Congress since World War II. Again, how-

ever, predicting coming events on Capitol Hill is like forecasting rain in the Texas Panhandle; you can find yourself all wet when you least expected it.

I don't look for the August 28th civil rights "march" on Washington to have much impact on House or Senate consideration of civil rights legislation. It will be business as usual in my office. While I believe the rank-and-file of those who are coming here to demonstrate believe their action may have an effect on the legislation, their leaders know better. The leaders, I believe, are simply giving their followers a chance to let off steam. I doubt that the demonstration will produce more support for civil rights legislation than it otherwise would have; on the contrary, if the march gets out of hand, if violence occurs in the Capital, votes in the House and Senate will turn against civil rights legislation. While Congress is responsive to public opinion, it has a low regard for pressure tactics and threats.

Texas Highway Patrol Announces Openings

Capt. V. W. Blackwell of the Texas Highway Patrol today invited men in the Clarendon area who feel they are "just a little better than the average" to meet him at the Highway Patrol Office, 118 Western in Amarillo between 8 p.m. and 9 p.m. on August 26 to try out for a job in the Patrol Service of the Texas Department of Public Safety.

"There are good jobs open for young men between 21 and 35 who can qualify," said Blackwell, "and while we want men who are much better than average to fill them we will go along with those who are just a little bit better."

"These are career positions which offer much in the way of security in benefits, but they are gained only after a period of 16 weeks of rugged training at one of the outstanding police academies in the nation. Upon completion of this training men will be assigned whenever possible within 100 miles of their home town at a basic salary of \$453.00 per month."

"In other words, these positions are for men who are willing to accept a challenge at anytime, now or in the future. The job of protecting the lives and property of the people of Texas is not always easy." Blackwell said men who can meet these basic requirements are welcome to meet him on August 26:

1. Texas citizen for at least one year.
 2. 21 to 35 years of age.
 3. 5', 8" or more in height.
 4. Not less than 2 pounds or more than 3 pounds per inch of height.
 5. 20-30 vision without glasses.
 6. High school education or the equivalent.
- "If you can meet the above qualifications," the veteran patrolman added, "come on in — the water is fine."

SPECIAL PROVISIONS FOR RETIRED EXPLAINED

Many people are not aware they don't have to retire completely to receive social security benefits according to Hal Geldon, Amarillo social security district manager.

Geldon stated that special provisions in the social security law make it possible to receive some social security benefits even though a person may have fairly high earnings. He explained that a person can earn \$1200 during the year and receive all of his benefits. And just \$1 in benefits is withheld for every \$2 earned between \$1200 and \$1700. Geldon pointed out that a full month's benefit is payable for any month in which the beneficiary does not earn over \$100 in wages and does not actively engage in self-employment.

Geldon urged all workers to visit the social security office when they near retirement age to learn more about their benefit rights. The office is located at 1006 Adams Street, Amarillo, Texas.

Recent visitors in the home of Mrs. Odell Duggins were her sister and family, Mr. and Mrs. Robert Thieme and Linda of San Antonio.

Duck Season Will Be Longer This Year

Duck hunters in the Central Flyway will have bigger bag limits and a longer season to look forward to when the 1963-1964 seasons open this fall. The Central Flyway states of North and South Dakota, Nebraska, Kansas, Oklahoma, Texas, and those parts of Montana, Wyoming, Colorado, and New Mexico lying east of the Continental Divide have been given options of selecting 35 consecutive days of duck shooting or split seasons totaling 32 days, according to the Bureau of Sport Fisheries and Wildlife.

Daily bag and possession limits of four and eight were approved by Secretary of the Interior Stewart L. Udall. This is double the bag and possession limit of the 1962 season in the Central Flyway.

The restriction on taking mallard ducks continues this year, with only two mallards allowed in the daily bag and four in possession. Mallard breeding populations set an all time low in 1962 and have not shown marked recovery this year. Average mallard production is expected this year from the lowered breeding populations, and the Bureau hopes that continued restrictions will allow for an increase in the 1964 mallard breeding stock.

Bag and possession limits on wood ducks remain at two and two as in 1962. The bag and possession limits on coots have been increased to eight and sixteen.

A complete closure on canvasbacks and redheads will continue this fall, with these species still below the long-term average population level, despite closed seasons the past three years.

The individual states are allowed to select their season within the period starting October 5 and ending January 5. Shooting hours are from sunrise to sunset, except on opening day when gunning will start at noon.

Central Flyway states may select a 75 day consecutive or split season goose shoot within the period starting Tuesday, October 1, and ending Wednesday, January 15.

The daily bag and possession limit on geese will be five, including not more than two Canada geese or their subspecies, or one Canada goose or its subspecies and one white-fronted goose, or one white-fronted goose. Only one Ross's goose will be allowed in the daily bag and possession limit.

Restrictive bag limits in 1962 accomplished their objective of protecting a greatly depressed breeding population of ducks which occurred at a time of prolonged drouth throughout the important waterfowl breeding grounds of the continent. While above average rainfall improved habitat conditions somewhat this year, total production of ducks remained well below the long-term average, particularly on mallards which have not shown any marked increase in numbers this summer.

In recommending continued restrictions on species still in short supply the Bureau hopes to increase the breeding populations for 1964. With the Canadian drouth cycle apparently ended, this increased breeding population could take advantage of improved water conditions next year.

The framework within which the states select their season represents an increase of one week at the start and one week at the end of this year's hunting period, compared with 1962.

Hunters in eastern New Mexico and western Texas will be allowed a 30 day season on sandhill (little brown) cranes, beginning November 2 and ending December 1, with a bag and possession limit of two birds.

Mr. and Mrs. Dude Cornell and son vacationed in Colorado last week.

Mr. and Mrs. Earl Butler and family of Borger visited Sunday with his parents, Mr. and Mrs. Clyde Butler.

FARM NEWS

from County ASCS Committee

ASC Committee Elections Near
Farmers in Donley County are reminded that community elections of Agricultural Stabilization and Conservation farmer-committeemen will soon be taking place.

A farmer will be eligible to cast a ballot for the men he wants to represent him on the committee if he is participating or is eligible to participate in one or more of the national farm programs administered locally by the farmer-committeemen. Such a person is eligible to vote in the committee election if he or she is of legal voting age and a farm owner, tenant, or sharecropper, or, if not of legal voting age, in charge of the farming operations on an entire farm.

Programs administered by the ASC County and Community committees include the Agricultural Conservation Program, acreage allotments, marketing quotas, commodity loans, the Feed Grain Program, the National Wool Program, farm storage facility loans, and others as assigned by the Secretary of Agriculture.

In Donley County, the elections will be held by mail on September 12, 1963. Votes will be tabulated publicly on September 17, 1963.

The elections will choose three community committeemen and two alternates. The chairman, vice-chairman, and regular member of the elected ASC committee will also serve respectively as delegate, alternate delegate, and second alternate delegate to the county convention to be held soon thereafter, where the ASC county committee will be chosen. Producers are beginning to sign applications for assistance to seed rye. If you are planning to seed rye in the near future you may begin making your applications now. The cost-share rate is \$2.00 per acre, and the recommended rate is 60 lbs. per acre but not less than 48 lbs. This practice is applicable only to cropland which is susceptible to serious wind erosion. None of the growth may be harvested for hay or seed. Volunteer stands will not qualify. No grazing will be allowed on rye seeded with assistance prior to February 1, 1964. Grazing after that date will be permitted, provided a good stand is maintained through the slow season or until the land is prepared for the spring crop. Sales receipts, documents of proof of purchase, or certifications that seed grown on the farm was used, showing the number of pounds and the price paid for the rye seed must be presented before payments will be made.

Tax Seizures Of Autos Planned

By C. J. Lohoefer, Mayor

The City of Clarendon is about to put the bite on the citizen who gets contrary about paying taxes on his automobile. Recent legislation which put teeth into the necessary tax laws in the state will allow the city tax office to seize and sell automobiles to satisfy delinquent tax bills.

The automobiles to be seized if necessary in the near future are those owned by people who still refuse to pay their taxes after we have published these delinquent taxes. You will know then if your name is still on our tax roll.

Three out of our citizens are paying their taxes. The City feels that the tax office owes it to the three citizens who are paying their taxes to collect from the fourth citizen who isn't. I think those three who are paying kind of expect it of us.

The citizen who thinks the tax office is so far behind on collection that it won't get to him very soon is guessing wrong. In other words if we miss you this year, we'll probably get you for two years next year. The taxpayer who declines to stay current on his automobile taxes is creating grief for himself further down the line. The citizen's troubles begin when the tax bill falls due. Immediately after the car tax bill goes delinquent the tax office begins charging eight (8) per cent penalty and six (6) per cent interest on the tax bill. Penalty and interest is established by state law. In the second year the tax bill draws an additional six per cent and for each additional year the bill is delinquent another six per cent is tacked on.

We also have checks that are

bad. The law has been changed to require at least one day in jail and \$1.00 fine for conviction of passing a hot check in any amount.

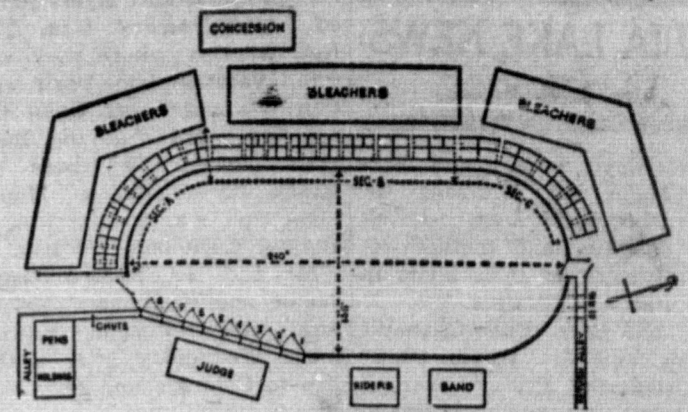

\$100 Reward Offered 4-H And FFA Members

The American Galloway Breeders Association at the annual meeting which was held in Rapid City, South Dakota, August 16, 1963, voted to offer a \$100 reward to any 4-H Club or FFA member who showed a Grand Champion steer either crossbred or pure breed from a registered Galloway Sire in a show of 100 steers. A carcass evaluation and pictures alive and on the hook are required by the organization in return for collection of the reward. C. B. Morris and H. A. Green will offer an additional \$100 reward to 4-H or FFA exhibitors who qualify for the American Galloway Breeders Award with a steer out of a sire of their trade name which is OF CLARENDON.

Representatives to the annual American Galloway Breeders Association from the Southwest Area were C. B. and Jim Iwring of Prosper Valley Farms, Greenville, New Mexico, Mr. and Mrs. Harry Schach, Rush, Colorado, and Mr. and Mrs. H. A. Green, Clarendon, Texas.

Boys Ranch Rodeo Labor Day Week End

The largest crowds in the history of the famed Boys Ranch Rodeo are expected at Cal Farley's Boys Ranch over the Labor Day week end, September 1 and 2, when the 312 boys now being cared for hold their 19th annual event.

To accommodate the holiday crowds, the rodeo arena seating capacity has been expanded with the construction of 81 new concrete reserved boxes made possible by the Ranch's neighbor, the Texas Sand and Gravel Company, donating materials. The older boys of the Ranch worked on much of the construction as part of their vocational

training. The new boxes will provide front row seats for more than 500 spectators with four, six and eight seats in a box.

The Boys Ranch Rodeo is the only rodeo of its kind in the nation in which boys are the only contestants. Riding professional rodeo stock, they attract larger crowds each year with more than 7000 attending last year's two performances. It is fast-moving entertainment as older boys ride bucking broncs, Brahma bulls and steers while the younger Ranchers take on the calves. All of the boys have some part in the rodeo.

A rapid sale of reserved box seat tickets is expected by Boys Ranch officials and advance orders are being taken at the Ranch's headquarters in Amarillo. The reserved box seats are \$2.50, which includes all admission charges. General admission will be \$1.50 for adults and 75c for children and servicemen in uniform. Proceeds from the rodeo will be used for the Ranch's expansion program.

Mr. and Mrs. R. T. (Dick) Gilbert of Amarillo visited Tuesday with Mrs. Clyde Gilbert.
