## One Negro Charged With Assault; Four Others Being Held In Jail

According to Sheriff Truett Behrens, one Negro man has been charged with assault and four other Negro men are being held in county jail pending further investigation and charge of vagrancy, drunkenness and carrying knucks in connection with entering white homes a short time prior to 1 a.m. Friday morning.

Bonnie Ray Weatherston, age 20, has been charged with assault in connection with entering the Lloyd C. Huff home at Coronado Courts and the Pete Borden home. Sheriff Behrens reported that the alleged intruder entered the Huff home through a kitchen window and had entered the ladies' bedroom when frightened away. The intruder ripped a porch screen at the Pete Borden home and entered the ladies' bedroom where he was again frightened away.

After receiving the first call, Sheriff Behrens had Weatherston apprehended along with the other four, who are being held on the other charge and further investigation. They are all Negroes, Albert Evans, Joe Boy Hanes, Vernon Moore and Jim Ellis.

Sheriff Behrens will take all five to Lubbock Friday for Polygram tests.

Considerable concern and alarm has arisen from the incident in the white section of Clarendon with many residents keeping their firearms loaded and handy which is a good indication that any movement at night in the residential area by Negroes, whites or anyone will be risky.

### Officers Elected For Beef Cattle Ass'n.

The directors of the Rolling Plains Registered Beef Cattle Association met Tuesday night, the 3rd of September at eight p.m. in the Community Room of the Farmers State Bank of Clarendon. New officers are selected each year just before the coming sale. The sale this year will be held on the 4th of December.

Bill Bradley of Memphis was elected president; vice-president is W. H. Cooke, III, of Quail; treasurer is H. A. Green of Clarendon; sales manager is John Knorpp of Clarendon and secretary and manager is Flip Breedlove of Clarendon. The directors are Tommie Potts of Memphis, Bill G. Thornberry of Brice Rt., Clarendon, Gene Floyd of Hedley, Wade Watson of Claude, J. Gilbert of Claude, J. D. Swift of Clarendon, L. Ford of Claude, Geo. Saunders of McLean, R. The Commercial Breeders appointed as "Advisory Commercial Committee" were Bill Cushing Forrest Sawyer, and Joe Robinson of Clarendon. The directors thought that a representation of commercial breeders on the board would be of great benefit to the sales. Breedlove said that consignments for the coming bull sale would start about the 15th of September and forms would be mailed out from his office to breeders.

### SURVEY FORMS NEEDED BY SATURDAY

The Jaycees remind everyone who has a community attitude survey form and has not completed it or has just failed to get it to the Jaycees these forms will need to be completed and turned in to the club by Saturday at the latest. This deadline is necessary so that the forms may be analyzed and the results tabulated as soon as possible. So if you have a survey form, complete it today and return it to the Jaycees. Your co-operation will certainly be appreciated.

### OPEN HOUSE TO BE HELD AT YOUTH CENTER

The Jaycees and Jaycee-ettes will be hosting an open house at the Lions Club Youth Center on Sunday, September 8th from 2 to 5 p.m. and everyone is invited to attend. The Coca-Cola Bottling Co. will be serving refreshments to all who attend.

The Youth Center ceased to be used by the youth of our community and the state of repair was brought to the attention of the Board of Directors of the Lions Club. The Board asked the Jaycees to do the work and they would furnish the materials, which was agreed to, and the renovating process began. The Jaycees and Jaycee-ettes have put many, many man hours into the complete renovation. Many individuals donated material to be used, but the Lions Club Youth Center Fund spent many dollars buying the needed materials for the renovating. There are still many items needed in the way of furnishings to make the project complete in every detail, but a vast improvement has been made over the facilities the youth center has offered in the past.

The Jaycees state that the renovating included new ceilings, new paint inside, new light fixtures, replacing plumbing fixtures, renovating of furniture, new curtains, repair of air conditioners and a thorough cleaning of the floors and new wax being applied.

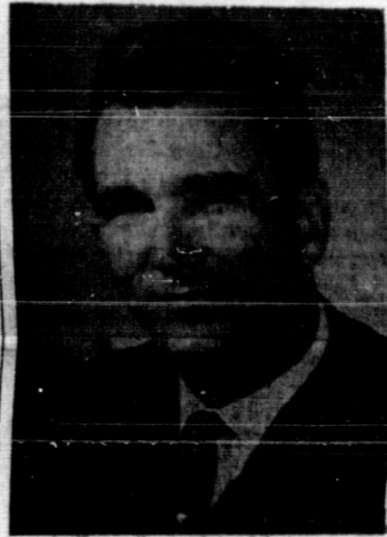

The Jaycees and Jaycee-ettes extend to you an invitation to come to see what has been done on Sunday, as the youth center, as it is today, is one of which we of this community can be proud.

### IMMUNIZATION AGAINST INFLUENZA ADVISED

The Texas State Department of Health has issued a bulletin calling on Texas physicians to advise their patients regarding desirability of immunization against influenza. It is hoped that a major epidemic will not occur this winter, but sporadic outbreaks of the common types of influenza are believed likely during the coming season.

Selected groups of the population are urged to seek immunization because of their greater vulnerability to severe illness from influenza. These groups include persons over 45 years of age, and particularly those over 65. Also included are pregnant women, and persons of all ages who suffer from any chronic disease.

The Health Department has recommended that immunizations start as soon as practical after September 1st.

### Clarification Made On College Fees

The Legislature of the State of Texas determines the tuition for all state supported colleges. No change has been made in the tuition at state supported colleges for this year. Tuition remains at \$50.00 per semester for students in the Clarendon Junior College District. Additional fees are: (1) laboratory fees range from \$2.50 to \$4.00 per semester; (2) activity fee is \$5.00 per semester hour. For the usual three-hour course the tuition at Night School would be \$22.50.

A student from the Clarendon Junior College District may attend school for an entire year at Clarendon Junior College with an anticipated cost of \$150.00 which includes all tuition, books, fees, and the school annual. ONE YEAR OF COLLEGE EDUCATION FOR \$150.00 — WHERE? CLARENDON JUNIOR COLLEGE. ENROLL SEPTEMBER 16. For further information call 874-3552.

## Bronchos Open Football Season Against Gruver Here Friday Night

### Donley County Fair & Quarter Horse Show September 13 & 14

Everything is ready to go for the Donley County Fair and Quarter Horse Show to be held in Clarendon on the 13th and 14th of September. The Quarter Horse Show will be held on the 13th at one p.m. at the Rodeo Grounds. The show is approved by the American Quarter Horse Association and is open to the world. The show will be judged by Mr. Russell Moore of Plainview.

County Agent Flip Breedlove says that all department heads have received fair catalogs and all exhibits will be set up on the 12th of September, so that they will be ready for the judging on the 13th. All exhibits will remain on display both days of the fair until four p.m. on the 14th.

Breedlove says that the different departments of the Fair are the Community Agriculture Exhibits, Merchants Department, Flower Show, Poultry Show, Home Economics Department, Needle Craft, Fine Arts, Canned Goods, Homemade Baking Department and the Quarter Horse Show.

Everyone is urged to take part in the County Fair, bring flowers to the Flower Show, enter the Baking Departments, the Needle Craft and the Fine Arts Departments; take part in all departments. Remember to set up all parts of the fair on the 12th except the Flower Show which must all be in place by nine a.m. on the 13th. All judging will be done on the 13th of September and most judging will start at ten a.m. on that date.

The catalog is now off the press and is available at the county agent's office and in most business firms in town. Let's make this the best fair ever held in Donley County regardless of the lateness of the crops. Remember the date to set up exhibits is September 12th and judging on the 13th of September.

The Clarendon High School Bronchos will open their 1963 football season here Friday night at 8 p.m. in Broncho Stadium with the always tough Gruver Greyhounds of District 1-A as their first opponents.

The Bronchos will be a definite underdog in this opening game. Gruver has been a power in District 1-A for the past three years, and although they have lost some of their regulars from last year, they still have more experience and a big weight advantage over the Bronchos.

Coach Jack James reports his squad of Bronchos in good physical condition for the first game and are expected to put up an impressive battle against the Greyhounds. We are going to have to depend on defense more than offense as the Bronchos are just not fast enough, Coach James added.

Coach James has indicated that his probable starters in the backfield will be David Mooring at the quarterback slot, John Grady and Ronnie Longan at the half-back positions and Teddy Graham in the fullback spot. In the line will be Dennis Stewart and Lester Welch in end positions; Douglas Bradshaw and Larry Gray, guards; Ronnie McAnear and Steve Shelton, tackles; and Kenneth Price as center.

The gate for inside car parking at the game will be open promptly at 6:30 for those who wish to park inside the stadium. The price will be \$1 per car plus regular admission. Anyone desiring to leave their car at the gate prior to 6:30 may do so and it will be parked inside if the keys are left in the car. Do not park your car where it will block the entrance.

story along for what it's worth to all of you men who are about ready to retire.

The above reminded us of the fellow who was fixing to retire and was telling his friend;

"For the first month we mean to just sit still like in our rocking chair, not moving a'tall. ... Maybe after that if we feel like it we will rock back and forth just a little."

Some folks can say they are retired, others are just tired.

If to know each other better. It to like each other more; Then we've missed a real blessing.

If we've never met before. So, if we pass along the way And you're lonesome as can be; Just walk right up and grab my hand, And say "Hello there," to me.

We don't have a license to write poetry but the above seems to express better than straight sentences how we feel about

making and keeping friends.

When we find a home where the family lives together, works with each other, and goes to the same places, then most every time we find a happy family.

When we find a community that does things together; work, play, and even worship together we will find that even though the school may have become mechanized and gone into town there still exists a real friendship between its people.

We have always felt that if nations could know each other better that we would get along with more peace in the world. If the real folks, the average people from each country could meet their counterparts in the rest of the world it might solve many problems. We have never known a lot about the foreign student exchange program, but from what we have heard it would seem a step in this direction.

The best should serve with the best. Join the Texas Highway Patrol.

**LIBRARY NOTES:**

EDITH BARNES

A memorial gift has been given to the library to be dedicated to the memory of Mrs. Laura Mahaffey.

Quoting from Clarence Day: "The world of books is the most remarkable creation of man nothing else that he builds ever lasts monuments fall nations perish civilizations grow old and die out and after an era of darkness new faces build others but in the world of books are volumes that have seen this happen again and again and yet live on still young still as fresh as the day they were written still telling men's hearts of the hearts of men centuries dead."

"The Wild Place" by Katherine Hulme, who also wrote the "Nun's Story," is about her job from 1945 until 1951 of helping

rescue, rehabilitate and find homes for the displaced left in Germany at the end of the war. These poor souls were not in Germany because they had wanted to be but because Hitler and his sub-human followers had forced them to leave their homelands and be shipped like cattle to be used as slave laborers.

Katherine Hulme was Deputy Director of Wildflecken (The Wild Place).

Quoting: "For five years she shared in the vitality and exasperation, the irrepressible gaiety, the loyalty and despair of this stripped little world, to which America was a beacon of hope. She and her co-workers prepared these men and women, these children without a country, for a new lease on life. Her story, engrossing and compassionate, is alight with scenes which lift the heart and make us proud of the indestructible integrity of man."

"Miss Hulme is a writer of power, understanding, and spirit. When she writes of humanity unconquered by fear, brutality, himelessness, or disease, she writes with humor and a compassion close to tears. Her people of Wildflecken are too vivid to be forgotten."

A book has been given to the library for Pat Heath's memorial shelf.

6 to 16 pounds, will be abundant during September and this year's market price is expected to be similar to that of a year ago. Fryers are always a favorite, and provide an economical and delicious meat for either home meals or picnics.

Housewives may find tuna ideal for salads, sandwiches, casseroles, and other easy-to-prepare dishes, and tuna inventory stocks remain huge.

# Army Reservists Train Troops

**HARD DAY IN THE MINE FIELDS**—Advanced Combat Trainees at Fort Ord, Calif., learn to locate hidden mines in the battlefield from an instructor of Northern California's major Army Reserve component, the 91st Division. The 91st is spending its annual two-weeks active duty for training at Camp Roberts, Calif.

need for 900,000 new junior and senior college graduates by 1974.

The prediction, called "conservative" by committeeman Gifford Johnson, Dallas industrial leader, includes 456,000 four-year college graduates, and 440,000 graduates of two-year schools.

Right now the total enrollment in 19 of the state's four-year colleges and 34 private senior colleges totals 175,100. Junior college enrollment in 35 state junior colleges and 10 private schools is 37,200.

If these students all were to graduate, they would produce about half the number of graduates needed in the next four years. But Johnson said the problem is — many won't graduate.

There is a big drop-out problem in colleges and an even bigger drop-out problem in the grades below college level.

Johnson stated that only 54 percent of the students enrolled in the third grade in 1953 graduated

from high school in 1963.

What to do about the drop-out problem, which Governor Connally has called "one of the most critical problems of the decade"? Both Johnson and committeeman Tom Saelly of Midland, as well as other members of the committee which is composed of some of the state's most powerful citizens, recommended more and better counseling through all the high school years and college.

"If students aren't encouraged to stay in high school and perform well there, they don't have a chance," Johnson said.

His concept of free colleges and state universities which would admit only the top 15 percent of high school graduates brought a lot of favorable comment from the committee. But Chairman H. B. Zachry of San Antonio warned all that this was just the preliminary to a preliminary report. Final report to Governor Connally is not due until

August, 1964.

**POLL TAX CAMPAIGN ON**—Governor Connally will kick off the League of Women Voters' campaign for repeal of the poll tax with a speech on September 9 — the day the women launch a two-month drive for repeal of the tax.

November 9 is the date voters will decide whether to strike the poll tax requirement for voting from the State Constitution.

Vice President Lyndon B. Johnson, Sen. Ralph Yarborough, Sen. John Tower, congressmen and state legislators are being invited to the September 9 meeting in Austin.

**NEW REGIME** — Commissioners of two brand-new state agencies were sworn into office, as well as the man who will take Attorney General Waggoner Carr's place on the State School Land Board, Judge Wilson Fox of Taylor.

New commissioners are Loan Regulatory Commissioner Frank Miskell, and Parks and Wildlife Commissioners, Will Odum of Austin, chairman, J. M. Dellinger of Corpus Christi, and A. W. Moursund of Johnson City. All four have been trying to keep up with new roles and heavy commission agendas at the same time.

**PARKS BOARD BOWS OUT** — State Parks Board held its last meeting just a few days before being replaced by the Parks and Wildlife Commission. But it could not transact any business since it couldn't get a quorum.

Chairman Maurice E. Turner of Huntsville was there, as well as Ed Kilman of Houston and Max Starcke of Austin. But Reese Martin of Beaumont was out of the state; Uvalde member Harry Hornby was ill, and J. Carter King of Albany was not available.

Parks planner E. J. Urvanovsky of Texas Tech was on hand to present an estimated \$400,000 plan for a model parks system — developed with a \$70,000 legislative appropriation. But the board asked him to make his recommendations to the Parks and Wildlife Commission at some later date.

**REHABILITATION RECORD SET** — J. W. Edgar, Commissioner of Education, claimed a new record for the Texas Vocational Rehabilitation program. He announced that a total of 3,566 disabled men and women were rehabilitated into productive jobs during the year ended on June 30.

Edgar said 365 of these persons had been receiving public assistance payments totaling some \$346,000 a year. He figured their new ability to be self-supporting now would have many thousands of dollars in federal and state assistance funds.

**OLD FOLKS ASSURED OF INSURANCE** — New law assuring Texans 65 years of age and older the right to purchase health insurance now is in effect. First period of enrollment for the cooperative plan will be October 1-31.

All licensed insurance agents in the state are eligible to give details about the plan.

**SLOW DRIVING PROHIBITED** — Col. Homer Garrison, Jr., director of the Department of Public Safety, issued a reminder that the new speed law specifically makes it a violation to drive a vehicle so slowly as to impede traffic.

Minimum limits, as well as maximum limits, are being posted on the highways throughout the state.

**YOUTH** — Austin was stacked full of high school leaders as Atty. Gen. Waggoner Carr held a conference on youth.

The 1,140 young people who attended were told how to prevent juvenile crime and school dropouts. It is up to them to put the ideas into effect through high school organizations.

Basically, the solution is in finding things for junior high and high school students to do. Recreation for those who only need to keep occupied and jobs for those who need to help their families at 14 or 15 were the major prescriptions.

Carr hoped the conference had set some brushfires in the civic consciousness of high school leaders to burn out the pockets of trouble for many thousands of Texas young people.

**PADRE** — In a colorful ceremony, the State of Texas handed over some 90,000 acres of submerged land in Laguna Madre to become a part of the Padre Island National Seashore.

Hailed as a tourist attraction, the Padre project was created by Congress and the Texas Leg-

islature agreed to contribute the state's land.

Reserved to the Permanent School Fund are the oil and gas which may lie under the shallow waters of Laguna Madre.

The National Park Service, with a \$1,500,000 appropriation to start, will buy the uplands of Padre Island from private owners. Governor Connally, Land Commissioner Jerry Sadler and Attorney General Carr, members of the School Land Board which signed the deed, all predicted bright things for this major addition to the Texas recreation scene.

**POLLUTION** — Some areas of the state have developed major water pollution problems and the new Texas Water Pollution Control Board has set out to cure them.

Board will have a hearing on September 25-26 designed to protect the vast Ogallala formation, which supplies irrigation and municipal water in most of the Panhandle and South Plains. Expected to come from the hearing is an order prohibiting the use of open, unlined surface pits for the disposal of salt water produced with oil and gas.

## THE GREAT MARCH

(From The Dallas Morning News Editorial Page, Thursday, August 29, 1963, Dick West, Editorial Editor.)

Any way you cut it, the great march on Washington was mass pressure on Congress to legislate for "racial equality," and mass pressure is not the American way to legislate.

Congress, we trust, will not abdicate its time-tested practice of calm deliberation. Parliamentary bodies who succumb to threats and mass hysteria sign the death warrant of reason and invite the inevitability of anarchy.

Nobody questions the right of Negroes, bearded beatniks, ballad singers and white preachers to squat on the steps of Lincoln's monument and demand what they ought to be earning.

They have a right to do that, just as they have a right to make fools of themselves.

But the vital question in Washington is not whether Congress should legislate in behalf of the Negro but in behalf of America. Only one American in ten is a Negro — which doesn't mean that the other nine are anti-Negro.

The crowd which marched Wednesday made no bones about the fact that it cares little about the other nine, as long as the one gets his demands.

Democracy with a little "d" takes the one into consideration, but doesn't tell the other nine to go to the devil. Democracy must do the best that it can for all ten, and the best is hard to arrive at under mass pressure and the threat of violence.

The demonstration in the nation's capital — numerically, now, almost a black capital — had the blessing of the President of the United States, who knows where a vote comes from, but who had gone on television in May and June to say that the answer must come in the courts, and not the streets.

It followed months of demonstrations in 100 cities in which Negroes, demanding their "rights" under law, deliberately broke the laws designed to let the law-abiding live lawfully.

From Birmingham to Brooklyn, the American people have endured a "civil rights" summer characterized by the infliction of civil wrongs.

Nobody knows how Congress will react to this march.

But the Negro, sooner or later, will wake up to the fact that the "equality" he demands in a civil-rights bill would be a grant of unprecedented power to a government already obese with power.

That power, someday, can be turned against the Negro and any other minority.

Law imposed by the demands of a few will never solve the fundamental differences of taste, aspiration and environment.

Let us hope that the Negro rises on his merit, gets his due under law, is bestowed a set of rights that are fair to him and not unfair to the rest.

But racial equality, if there is such, must be preceded by racial respect and a harmony that comes from the good will of good men, regardless of pigmentation.

**TO THE PEOPLE OF THE 18th DISTRICT**

**By Congressman Walter Rogers**

**Action to Forestall a Rail Tie-Up**

I had to read the papers to find out what happened during the civil rights march here last Wednesday. Those of you who witnessed the event on television were in a far better position than I to know what occurred. Where I spent the day — working in my office, in a meeting of the House Interior and Insular Affairs Committee, on the floor of the House of Representatives — there was little to indicate that anything beyond the ordinary was taking place in Washington. The demonstration was confined to the area generally bounded by the Washington Monument on the east and the Lincoln Memorial on the west. Here on Capitol Hill, more than a mile away, only the presence of a large contingent of Capitol Police served notice that the day of the much-published "march" had arrived. Wisely the civil rights movement's leadership permitted only scattered delegations to visit the offices of Congressmen and Senators (although none came to my office) and an unusual weekday calm prevailed on the "Hill."

The problem facing the House on Wednesday had nothing to do with the civil rights march. Confronting us was the threat that unless we acted before the day ended the country would become embroiled in a nationwide railroad strike. The railroads had served notice that as of one minute after midnight they would impose a set of "work rules" bitterly opposed by the railroad brotherhoods. And the brotherhoods adamantly insisted they would strike if the rules went into effect. In the impasse that had developed in more than four years of controversy, it was apparent that a railroad work stoppage would have a catastrophic effect on the nation's economy. It was up to Congress to do something.

Congress had delayed action in the hope that as the deadline approached the railroads and the brotherhoods would finally iron out their differences within the traditional frame work of collective bargaining. I was among those who hoped fervently that a settlement between the disputants would remove the necessity for Congressional action. But it became increasingly apparent during August, as the House Commerce Committee of which I am a member and the Senate Commerce Committee heard witnesses representing the railroads and the brotherhoods and the government, that some action by the Congress was going to have to come if the country was to keep its vital rail network functioning.

Time finally ran out. The Commerce Committees of the House and Senate had determined the basic form the legislation should take. On Tuesday, the Senate (by a vote of 90 to 2) passed its version of a proposal to provide for a settlement of the dispute. Wednesday, the House passed what amounted to the same measure (by a vote of 286 to 66, and with less than six hours before the deadline the President added his signature to enact it.

None of us liked the idea that Congress should be used as a forum to settle an individual labor dispute. One of the objections raised against Congress-

al action in the matter was that any measure passed would constitute an order for "compulsory arbitration." It was said that Congress should avoid setting any precedent that might disrupt the long-established pattern of collective bargaining and bring future disputes before it for resolution. But the measure signed into law Wednesday actually provides for arbitration that the parties had already agreed to in principle; their dispute was not over the question of whether there would be arbitration, the dispute was over when the arbitration would occur. Future proposals for compulsory arbitration, as Chairman Oren Harris of the Commerce Committee told the House, "are likely to involve both the question of 'whether there shall be arbitration' and 'when shall arbitration occur.'" Congressman Harris said, "This resolution is only a precedent with respect to the latter question, since the parties to the dispute had already agreed among themselves upon the answer to the first, and most crucial, of these two questions."

Congress thus called for binding arbitration of the two major issues in the controversy. The two big questions are over the 32,500 firemen's jobs on freight and yard diesels, jobs which management says should be eliminated and which the brotherhoods insist are needed, and the crew consist issue — how many conductors and brakemen are to man each train. Under the new

law, these two issues are to be submitted to a seven-man panel (two union, two carrier and three "public" representatives) which then must submit a decision within 90 days from Wednesday. The "award," as it is called, would be effective 60 days later and remain in force for two years. In the meantime, the disputants would resume collective bargaining on six other issues which they have indicated can be settled in the traditional way. These include pay structure changes; increasing the 100-mile standard for a day's pay; yard and road work performed by the same crew; the manning of self-propelled vehicles; employment security; and training of engine service employees.

DENVER, COLO., HERALD-DISPATCH: "What would happen if this nation turned her microscopes away from studying the selfish, the lazy, the crafty and the confused — and focused them instead on the industrious, the able, the honest and the morally strong?"

### Jaycees Serve 2,500 Holiday Travelers

The Jaycees set up a rest stop at the top of the hill west of Clarendon and with the help of the Jayceettes served free hospitality to over 2,500 Labor Day travelers who were traveling on Highways 287 and 70. The rest stop was run around the clock during the holiday week end with travelers from all over the United States and some from foreign countries stopping by to rest and visit with the locals while receiving free hospitality. The rest stop received a wide coverage of publicity throughout the state. Many of the travelers said the locals had one of the finest they had seen so far. Safety literature was passed out to all who stopped, as well as literature advertising the facilities of our city and junior college. A mock wreck scene was set up depicting the theme of "Road Hog Charlie" and what can happen by driving with too much speed.

A complete list is being prepared and a thank you article will be run next week to all the merchants who contributed to the success of the Jaycee Rest Stop, one of the finest in the nation.

Mrs. Pearl Gibson and Dana have returned home from a visit to Lompac, Calif., where they visited her daughter, Mr. and Mrs. John Culver. They also visited at Santa Claus, Calif., and the famous Disneyland. Accompanying them on the trip were her sister, Mr. and Mrs. Dalton Melton and daughter, Sharon, of Amarillo.

Man, do you want to wear the uniform of "Texas Tan"? If so, STOP the nearest Texas Highway Patrolman.
