Wheeler-Matador Class B Bi-District Game Here Friday Night, Nov. 23rd

Shortly after the Wheeler win over Claude and Matador won their district, the local Jaycees were asking these schools to let Clarendon host the bi-district clash here in Broncho Stadium, and with the help of the school officials were able to convince them that this is where it should be.

As most of you probably remember the Class B bi-district play-offs were held in Broncho Stadium on Thanksgiving Day last year and Chauncey Hommel, President of the Jaycees, states that we are certainly fortunate to have these two towns select our city again this year.

The Jaycees will be in charge of all arrangements for the game and with the help of the Jayceettes will be operating concessions at the game. Gene White, Chairman of this Jaycee project, asks that you make your plans to attend the game and give these visiting schools a welcome that will always be remembered. You will certainly see two fine football teams in action, so be at Broncho Stadium on Friday night, Nov. 23rd, at 7:30 p.m. to see Wheeler and Matador battle for the bi-district championship.

First General Rain In Months Covers Area

The first general rain in the Clarendon area in many months fell Monday night and Tuesday bringing a temporary end to crop gathering. It was a slow rain throughout the area, with practically all soaking in.

The moisture will be of untold benefit to the wheatland and is expected to help pasture lands considerably.

The official weather observer here measured out a total of .70 inch, Lelia Lake received .78 inch and Hedley reported .90 inch.

The first killing freeze of the season preceded the rain and the cotton should be defoliated and open before long to really get the cotton harvest in full blast.

Road Bond Election Set For Dec. 21

A legal notice is appearing in the Leader this week giving notice of a Road Bond Election to be held in Donley County December 21, 1963.

The Donley County Commissioners Court responding to a petition signed by 78 persons asking that an election be held in Donley County on the proposition of the issuance of \$100,000 of Road Bonds of said county, and the levy of a tax in payment thereof, have called such an election to be held on the 21st day of December, 1963.

The election is to determine "Whether or not the bonds of Donley County, Texas, shall be issued in the amount of \$100,000 bearing interest at a rate not to exceed 4% per annum, and maturing at such time as may be fixed by the Commissioners' Court, not to exceed 20 years from the date thereof, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes or in aid thereof throughout Donley County, Texas; and whether or not ad valorem taxes shall be levied annually on all taxable property in said county sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at their maturity."

The ballots of said election shall read as follows:

"For the issuance of Road Bonds and the levying of an ad valorem tax in payment thereof," and "Against the issuance of Road Bonds and the levying of an ad valorem tax in payment thereof."

It is understood that if this bond issue carries, the money will be used to purchase right-of-way from Clarendon to the east county line on Highway 287 to make the highway four lanes.

JAYCEE LIVING CHRISTMAS CARD

The Jaycees are asking that you be a part of their Living Christmas Card this Christmas by simply contributing to the Jaycees whatever you would ordinarily spend for Christmas cards to your friends here in Clarendon.

The money that is received will be given to the Ministerial Alliance to purchase baskets of food for needy families in and around our Community.

Don't wait, figure up what you would spend on Christmas cards this year and mail your contribution to Jaycees, P.O. Box 726 and become a part of the Living Christmas Card.

County-Wide Highway Meeting Is Scheduled For Thursday Night

A county-wide meeting of parties interested in planning a long time road program for Donley County will be held in the hospitality room of the Farmers State Bank Thursday at 7:30 p.m. The meeting is being sponsored by the highway committee of the Clarendon Chamber of Commerce, and the committee has been assured that delegations from Hedley, Lelia Lake, Alarreed, McLean, and Clarendon will participate in the meeting.

The sponsors of the meeting feel that there has been a need for county-wide planning and county-wide unison of effort for a number of years, and that a long range road program that can be presented by the entire county to the commissioners' court for approval and then to the State Highway Department will be a big boost to securing more and better roads for Donley County.

If you are interested in setting up a long time road program for Donley County, if you have any particular project you would like to see incorporated into the program, and if you would like to work with the county as a whole to provide a better road system for the county, be present at the meeting.

The Jayceettes appreciate the cooperation of merchants who have taken advertising for the containers, the City of Clarendon for their help in installing them, and the help of all others who have in any way brought this project to a successful conclusion.

Hedley Schedules Ex-Student Banquet

We want to remind anyone in Clarendon and all of Donley County who is an Ex-Student of Hedley that our Annual Ex-Student Banquet is just around the corner. It will be held in the High School Auditorium Saturday night, Nov. 30th, at 8:00 p.m. A good program and meal is being planned.

SAM HOUSTON STAMP

Senator Ralph Yarborough of Texas, right, attends the unveiling of the new Sam Houston 5¢ Commemorative Stamp with Postmaster General John Gronouski at the stamp section of the United States Bureau of Engraving. The drawing of Texas hero Sam Houston is by Tom Lea, famed Southwestern artist of El Paso, Texas. Senator Yarborough, a member of the Post Office and Civil Service Committee recommended Lea as the one to make the design for the Post Office Department. The stamp shows a full length drawing of Sam Houston who was 6 feet 6 inches tall and portrays him as he would have looked at the time he defeated the Mexican Army at the battle of San Jacinto.

Benjamin Franklin, the first postmaster general gave the following definition of the Postal Service; "Messenger of sympathy and love, servant of parted friends, consoler of the lonely, bond of the scattered family, enlarger of the common life, carrier of news and knowledge, instrument of trade and industry, promoter of mutual acquaintance, of peace and good will among men and nations."

Few things would upset the average day like not having the morning mail or the postman come our way. Those of us who have lived at the far end of a long mail route will surely agree that to see the mail man coming down the road was the thrill of the day.

GENERAL TELEPHONE

OF THE SOUTHWEST

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

In the first session of the 88th Congress draws nearer to an end, I think it is appropriate to repeat a portion of a newsletter that I wrote some time back. I take the liberty of repeating this because I think it is most important that all Americans realize the threats posed against our form of government. Well-meaning but misled individuals or groups can very easily do as much damage to our philosophy of government as a

sinister force bent on destroying us. It is for this reason that I repeat this newsletter with the hope that it will further alert all Americans as to the basic bedrock upon which this government was built and upon which it must be preserved.

Our U.S. Constitution separates the power of government among its three great branches — the legislative, the executive, the judicial. Behind the very sound "separation of powers" doctrine is the theory that by keeping the three branches independent of one another, and by keeping their authority in balance, a concentration of tyrannous power is made impossible.

Man has yet to devise a better system of government than that by which we are governed. A keystone of our system is this "separation of powers". And, despite some stir recently over a "Fund for the Republic" pamphlet entitled "The Elite and the Electorate", there is not the slightest consideration being

S&S Photo by Guenter H. Schuettler

READY AND WILLING

giving in the Congress to changing the Constitutional balance of power. The pamphlet is not a government publication. The "Fund for the Republic" has no connection with government. The pamphlet argues that some authority now vested in the Congress should be transferred to the President in order that the United States might act more swiftly to meet sudden challenges at home and abroad. I'm strongly opposed to any such change—to any move to reduce the power of the Congress, the people's most direct voice in their government. I'm certain the great majority of Congressmen and Senators shares my conviction, as does the great majority of the American people.

From time to time in our history, one branch or another has been dominant in the exercise of

power granted under the Constitution's broad outlines. In some periods, the Congress has acted most forcefully. Occasionally the U.S. Supreme Court has acted so strongly as to be accused (and I have raised the point) of exercising powers properly resting

with the legislative branch, the Congress. We have had strong-willed Presidents who wielded their powers so vigorously that they were accused in their day of being near-dictators.

Of all our Presidents, Abraham Lincoln (whom we now all revere

but who was a bitterly controversial President in his own time) cornered more power for the executive than any other. Consider these actions of Lincoln: Under the war power he proclaimed the slaves of those in rebellion emancipated. He devised and put into execution his own plan of reconstruction. He increased the Army and Navy beyond the limit set by statute. The privilege of the writ of habeas corpus was suspended wholesale and martial law declared. Public money in the sum of millions was spent without Congressional appropriation. Lincoln knew his Constitution. He did none of these things innocently. He knew how far he could go in taking for his office the powers of a divided, weak Congress.

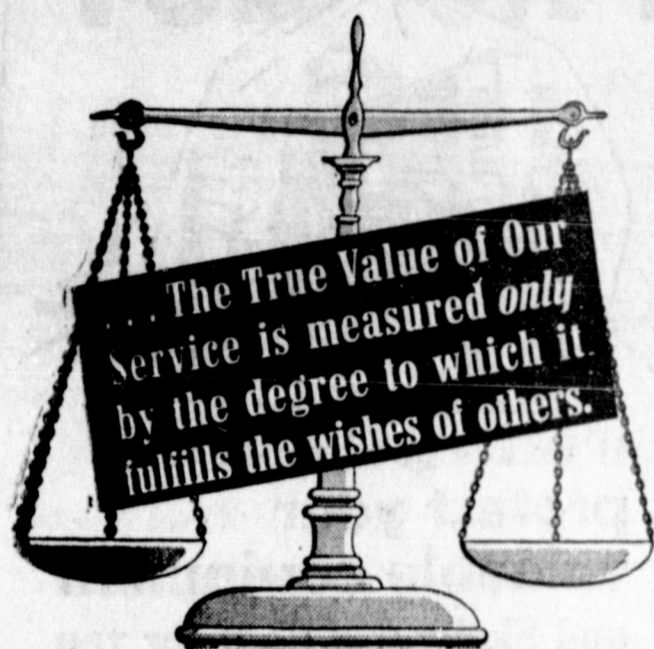

Thus, through history, one branch or another of our government has been in a position somewhat more powerful than the other branches. Today, in my view, Congress must be extremely wary about extending any further delegations of authority to departments in the executive branch. Because Congress has sometimes not been specific enough in its delegations of stat-

utory authority to executive departments, or too generous in the powers it has passed along, the departments (constituting the government bureaucracy) have assumed larger responsibilities than legislators envisioned. Occasionally the Congress seeks to return to itself grants of authority.

Generally, it can be shown that the "separation of powers" doctrine has been respected, that fluctuations in the exercise of power have through history been contained within the broad confines established by our Founding Fathers in the Constitution.

A sweeping, drastic change in the balance of legislative, executive, and judicial powers could not be made without the adoption of a Constitutional amendment. So fundamental to the entire Constitutional framework is the separation doctrine that, in my firm view, no major change could be made short of the outright repeal of the Constitution—and such a step is beyond any possibility.

FIRE-RETARDANT PAINT IS BEING DEVELOPED COLLEGE STATION

A new fire-retardant outside paint is being developed by the U.S. Department of Agriculture. The new paint looks like ordinary paint and can be applied with brush or roller, says the USDA. But the paint's reaction to fire is entirely different.

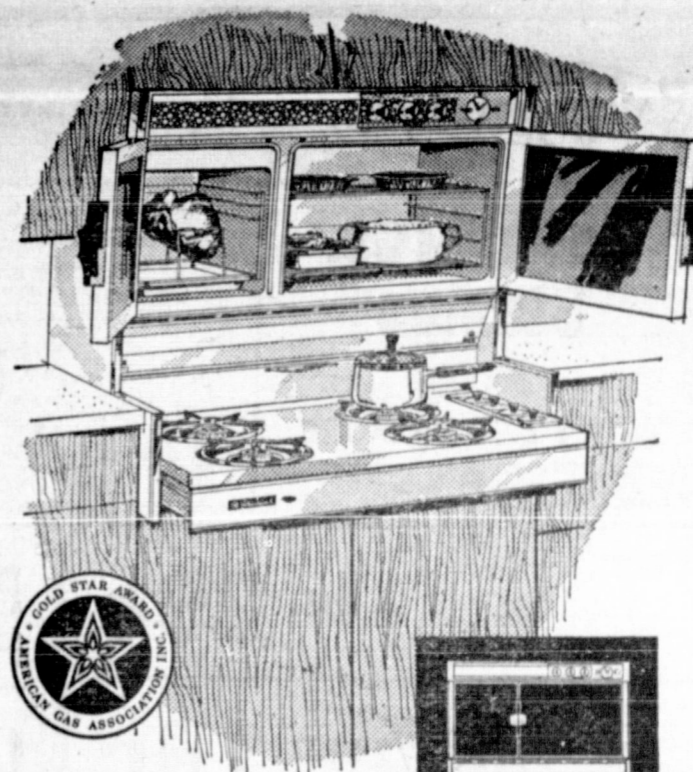

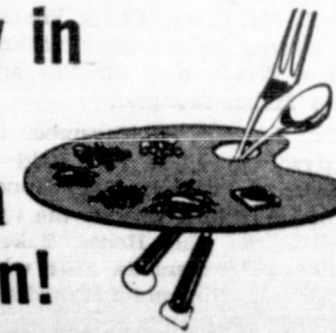

When exposed to flame, the paint develops a thick, carbon-containing layer that acts as a fire-retardant, insulating barrier. The experimental formulations contain oil derived from tung nuts, an important crop in the Gulf Coast region, the Department says. Research that led to the discovery is being continued at the Southern Utilization Research Laboratory at New Orleans.

The scientists are now seeking formulations that will require less paint for effective protection and still possess other properties desired in paints. No paint formulations or samples will be available for industrial testing until this work is completed, says the Department.

AUSTIN — Gov. John Connally has made public the itinerary of his famous guests, President and Mrs. John F. Kennedy.

They are due in the Lone Star State on November 21 and 22.

The Kennedys will visit San Antonio, Houston, Fort Worth, Dallas and Austin — in that order.

In San Antonio the President will preside at dedication ceremonies at the Aerospace Medical Center. He will arrive at Kelly Air Force Base about 3 p.m. on November 21.

That evening he will attend a dinner in Houston for Congressman Albert Thomas.

Next morning, Kennedy will be honor guest at a breakfast sponsored by the Fort Worth Chamber of Commerce.

At noon, he'll attend a Dallas Citizens Council and Graduate Research Center luncheon in Dallas.

Then he'll fly to Austin, arriving at Bergstrom Air Force Base about 4 p.m. That evening Gov. and Mrs. Connally will honor the Kennedys with a reception at the Mansion. Elected Democratic State officials and their wives will attend.

TICKETS BY THE TON — Most touted attraction of President Kennedy's Texas trip is the \$100-a-plate dinner, which the State Democratic Executive Committee will sponsor in the Austin Municipal Auditorium at 7:30 p.m. on November 22.

An SDEC aide estimates that a ton of invitations — 60,000 in all — have been mailed to Democrats over the state.

GOLDWATER WAGON — State Rep. Dick Morgan of Dallas, chairman of Texas' Draft Goldwater Committee, named Lewis J. Moorman, Jr., San Antonio rancher-oilman as state finance chairman.

Moorman was state GOP finance chairman during the Nixon-for-President Campaign, and in U.S. Sen. John Tower's race in 1961.

GOP National Committeeman Albert B. Fay of Houston ap-

pointed members of the party's Candidates Committee to recruit "a blue-ribbon slate of candidates" for Republican primaries in 1964. They will meet in Dallas on December 12, for Republican primaries in 1964.

Recruiting Committee includes Fay, Mrs. Ike Kampmann, Jr., of San Antonio, State Chairman Peter O'Donnell, Jr., of Dallas, Mrs. G. N. McDaniel of Borger, Mrs. Tobin Armstrong of Armstrong, Wilton Fair of Tyler, W. J. Klattenhoff of Slaton, and J. C. Man, Jr., of Wichita Falls.

HOSPITAL POLICIES AIRED — A special committee to review hiring policies in State hospitals was named by the State Board for Hospitals and Special Schools. Action followed disclosures that a convicted kidnapper and former mental patients have worked as doctors at some state institutions.

Dr. Raleigh R. White of Temple said he considered employment by the San Antonio State Hospital of a woman doctor who had served a prison sentence for kidnapping an "error in judgment."

Board Chairman Howard T. Tellespen of Houston, reacting to newspaper criticism of hiring a former mental patient as a doctor at Wichita Falls State Hospital, pointed to progress made throughout the hospital system.

"Out of a total of some 220 doctors, we have a wonderful, dedicated group of men," Tellespen commented. "You will find a few sour apples even among personnel of private companies which pay the best salaries, and we don't have a high wage scale compared to private industry."

Tellespen named Dr. White to the personnel study committee along with Dr. George A. Constant of Victoria and Ward R. Burke of Diboll.

Another committee was named by the Board to select the site for a new school for the mentally retarded, to be located west of the one-hundredth meridian. Members of this committee are C. E. Bentley of Abilene, chairman; Jesse Osborn of Muleshoe; and Walter F. Woodul of Austin.

ADVERTISE TEXAS — Twenty-seven advertising agencies are interested in handling Texas' \$200,000 account to promote travel and tourist spending in the State.

The 27 firms told Texas Tourist Development Agency they want to compete for the privilege of ballyhooing the State's attractions to the world. They represent 20 percent of all agencies contacted. At a November 15 meeting TTDA will determine which firms will be asked to make

formal presentation of advertising plans at their next meeting, set for January 16-17.

APPOINTMENTS — Governor Connally appointed E. W. Boedeker of Levelland as District Attorney of the 121st Judicial District. He succeeds Morgan L. Copeland who will join the legal department of Gulf Oil Corp. in Midland on December 1. District is composed of Hockley, Cochran, Yoakum, and Terry counties.

Connally also designated Peter Michael Curry of San Antonio as judge of the new 166th District Court of Bexar County, effective February 1. Court was created by the 58th Legislature.

Governor reappointed Judge W. St. John Garwood of Austin, John Peace of San Antonio and Abner McCall of Waco to the Texas Civil Judicial Council. Council was authorized by the Legislature to propose a plan for statewide judicial redistricting.

Earlier, Connally picked Sam Rayburn Bell of Paris, Joseph A. Chandler of Stephenville, J. C. Looney of Edinburg, Charles Prothro of Wichita Falls and Dan C. Looney of Dallas to fill vacancies on the Texas Commission on Higher Education.

House Speaker Byron Tunnell of Tyler appointed Reps. Bill Clayton of Springlake, Henry Fletcher of Luling and Menton Murray of Harlingen to an interim House Committee on Soil and Water Study. Committee is assigned the task of recommending new methods of conserving soil and water resources.

COURTS SPEAK — State Supreme Court, reversing itself, agreed to hear arguments on January 8 on Shell Oil Company and Aluminum Company of America suits against the Railroad Commission's oil and gas production formulas. Issue pits major oil firms against independents. Latter now are favored by formulas used in 300 gas fields and nearly 2,000 oil fields, the major oil firms contend.

High court voided a Texas High Commission prohibition against use of imported material in State road building and maintenance. Its decision backed up the Third Court of Civil Appeals.

Third Court took under advisement arguments in a suit to halt construction of the giant \$6,000,000 Millican Dam on the Navasota River.

Contesting the project are property owners whose land would be flooded by the huge reservoir — estimated to be twice as large as all seven lakes in the Colorado River chain.

College Station, Bryan and Navasota cities which would be assured long range water supplies... are fighting for construction of the dam.

A VERY WET ISSUE — Rep. Jake Johnson of San Antonio proposes a bipartisan referendum on whether local option elections should be held on sale of liquor by the drink.

Johnson said he will try to get candidates for governor and lieutenant governor to take a stand on the issue.

Democratic and Republican headquarters spokesmen said they have received no formal requests for referendum on their primary election ballots.

Short Snorts

Ray H. Horton of Houston was named chairman of Texas Research League; and Tom Sealy of Midland, vice chairman. Grogan Lord of Georgetown was re-elected treasurer.

H. Lewis Rietz, president of the Texas 65 Health Insurance Association, advises that 50,046 Texans, 65 and over, signed up for health insurance under the Texas 65 plan during the initial October enrollment period.

Cities of Uvalde, Canadian and Dallas received Texas Municipal League awards for best reports on municipal governmental operations.

Finance heads of Andrews, Kermit and Fort Worth were cited for outstanding financial administration by the Municipal Advisory Council. Kingsville received a distinguished merit award for its government reports.

A milk shortage may result if dairymen fail to get relief through an emergency hay program, Agriculture Commissioner John White warns.

Three thousand are expected for the Texas Congress of Parents and Teachers meeting here November 20-23.

From the 25,000 acres of vegetable land which it owns, F. H. Vahlsing, Inc., in Texas' Lower Rio Grande Valley, can load a carload of packaged vegetables every 12 minutes.

USDA Reports On Local Cotton Quality

According to K. E. Koelkel of the Agricultural Marketing Service's cotton classing office in Memphis, Texas, the quality of cotton as regards to micronaire readings and staple length was slightly off that classed the previous week.

For the week ending Friday, November 15, 14,000 samples were classed bringing the season's total to over 56,000. As of the same date last season 54,500 samples had been classed.

Thirty-three (33) percent of the cotton classed was White, with 17 percent Middling. Sixty-seven (67) percent fell in the colored grades, with 44 percent Middling Light Spotted.

Samples reduced in grade because of Bark amounted to nearly 2 percent and over 1 percent was below normal in preparation. The staple length ranged from 13/16 to 1-3/32 inches, with 74 percent stapling 15/16 inch, the predominant staple length. Other lengths were: 29/32 and shorter - 10 percent; 31/32 inch - 13 percent; and 1 inch and longer - 3 percent.

Micronaire readings were slightly lower than the previous week, with 3.4 and lower - 6 percent, compared with 3 percent last week. Seventy-two percent of the readings were 4.0 and 4.9.

The fiber strength tests continued to be good, however more cotton is falling to the Fair category. Over 50 percent tested Strong and Very Strong; 34 percent was Average; and, 14 percent was Fair.

The local market was a little more active this week, with more cotton selling than the previous week.

Average prices paid farmers for the main qualities moving into trade channels were: Middling, 15/16 - 39.90; Strict Low Middling, 15/16 - 29.75; Middling Light Spotted, 15/16 - 29.80 and Strict Low Middling Light Spotted - 28.90. Barky cotton was selling for even to 20 points over the CCC loan rates. These prices were based on uncompressed, mixed lots in warehouse.

Cottonseed prices at gin points were \$53.00 and \$55.00 per ton. Hand labor was receiving \$1.75 and \$2.00 cwt. for pulling cotton delivered to the gin.

Ex-Student Reunion Enjoyed By Big Crowd

About 80 ex-students were on hand to register at the high school Saturday morning and others arrived throughout the day to make the reunion one of the best ever. Near 100 attended the business meeting Saturday afternoon and there were 164 ent for the banquet Saturday evening. A larger number attended the dance which followed at the Legion Hall.

At the business meeting Wesley Powell of Houston was recognized as having traveled the greatest distance to attend. He is the son of Mr. and Mrs. C. C. Powell of Clarendon. George Benson representing the class of 1917 was from the oldest class in attendance and Mrs. Lucile Naylor was recognized as the teacher present having taught in the public schools for the longest period of time, 26 years. Mr. R. E. Drennan led a sing-song which everyone enjoyed and which brought back many pleasant memories of sing-songs in years gone by. Queen candidates were introduced.

The banquet Saturday evening was held in the high school cafeteria with Mrs. L. P. Moore as mistress of ceremonies. Morris Ledger, High School Principal, pronounced the invocation and Basil Smith, president of the association, welcomed exes and guests. He also recognized officers serving with him and the various committees functioning to make the reunion a success. Mrs. Robert Bain introduced the queen candidates and the honor classes. Minnie Belle Spurgeon Hicks was crowned queen of the reunion this year by Basil Smith and was presented a bouquet of red roses.

Misses Lynn and Beth Bourland, daughters of Mr. and Mrs. Fred Bourland, presented several musical selections. They were accompanied by Mrs. Velma Weaver at the piano. Mrs. Glenn Wallace also entertained with a clever reading.

Comments were favorable regarding the dance at the Legion Hall. Everyone seemed to enjoy the visiting and the music present for the banquet Saturday pa.

Basil Smith and his staff of officers assisted by the various committees are to be commended for making the occasion a memorable one. Officers are elected for a two year term. Serving another year will be: Basil Smith, president; Mrs. Joe Shadle, vice-president; Mrs. Jack Eads, Secretary; Mrs. Robert Bain, assistant secretary; Mrs. Jo Ann Benton, treasurer; and Mrs. Rosa Lee Rhodes, historian. Of special interest to many will be the fact that the class of 1961 had the largest number of members in attendance.

To those of you who were unable to attend, you certainly missed a wonderful time. We will be looking forward to having you with us next year and hope that it will be possible for those of you who did attend to return.

Two Rural Accidents Investigated In County During October

The Texas Highway Patrol investigated two accidents on rural highways in Donley County during the month of October, according to Sergeant J. W. Wilson, Highway Patrol supervisor of this area.

These wrecks accounted for an estimated property damage of \$800.00.

The rural traffic accident summary for this county from January through October of 1963 shows a total of 29 accidents resulting in one person killed, 15 persons injured and an estimated property damage of \$21,348.00.

The Sergeant said, "Don't walk yourself to death," that is a slogan we would like for you to remember for the rest of the year. November and December are noted as dangerous months in traffic and especially for pedestrians. During these last two months of 1962 in Texas there were 65 pedestrians killed and 768 injured in collisions with motor vehicles. There are many reasons for this: longer hours of darkness, bad weather, pedestrians not visible to drivers, holidays and lack of drivers and pedestrians concentration.

The veteran patrol supervisor stated some tips to aid both the pedestrian and drivers. Always wear something light colored when walking after dark. If possible, carry some kind of light, walk on the left side of the road facing traffic day or night so that you can see approaching traffic. If you have a dark colored raincoat or overcoat, put a strip or two of reflectorized material across the back and front when walking on the highway or street.

IN MEMORIA OF SANDRA JEANNE TROUT

who passed away November 14, 1957. You bade no one a last farewell. You said goodbye to none. Your loving heart had ceased to beat before we knew you were gone. God saw that you were suffering and the hills were hard to climb so he closed your weary eyes and whispered "peace be thine."

Still there is many a heartache and many a silent tear but only a beautiful memory of a darling daughter so dear — still missed.

During the afternoon session Mr. Clyde Hudson with Mrs. Rayburn Smith at the piano led us in some fine hymns of the Church. Each of the ministers, who helped in the morning service, gave the highpoints of their ministry in Clarendon. These were cherished moments for everyone. Others sharing in this service were the ministers wives, Mrs. E. D. Landreth, Mrs. E. L. Stanford, Mrs. John English and Mrs. Owen Powell, formerly Mrs. I. E. Biggs. Mr. Lee Nowlin, a very prominent layman of the Northwest Texas Conference and residing in Plainview, also gave a statement on what the Church had meant to him while passing through its services during his time in Clarendon.

The afternoon session was closed with a communion service in which Mrs. Lee Nowlin inspired those present with a beautiful hymn followed with the Communion Ritual led by Reverend J. V. Patterson and assisted by Dr. John English, Dr. E. D. Landreth, and Reverend E. L. Stanford. A list of those who had passed from our midst was read before the Communion Service. We also appreciate the work done by Mr. George Wayne Estlack on the bulletins for the day and the history books which shall be a keepsake for many who attended the services. We have several more books if you would like to send some to former members or friends, Rev. Patterson stated.

Again we wish to say thank you for coming and sharing with us on this wonderful occasion. Rev. Patterson concluded. List of visitors: Mrs. J. F. Anthony of Lubbock; Johanna Naylor, Danny Naylor, Ronny Naylor, Richard Naylor, all of Thalia; Mr. and Mrs. E. T. Fedric of Stratford;

Bronchos Lose To Memphis In Final Game

The Clarendon Bronchos played their final game of the season last Friday night, losing to Memphis 28-8 before a large ex-student homecoming crowd in Broncho Stadium.

The Bronchos had a rough season, winning only one game which was with Groom. They displayed strong opposition against some of the more powerful teams in the area but seemed to be unable to cope with the others. The Bronchos received exceptionally good fan support throughout the season.

In the game Friday night, the Cyclones scored their first tally in the 2nd quarter on a 20 yard scamper by Stargel. Stargel went on to score three of the four Cyclone touchdowns, three of which were made in the 3rd quarter.

The Bronchos scored their only touchdown in the final two minutes of play. They marched down field gaining 4 first downs before scoring. Mooring reached pigskin from the 5 yard line, Graham carried the pigskin for the 2 point conversion.

For part of the Bronchos, this was the final game to be played for Clarendon High School. A total of six seniors will be lost to the Broncho squad. They are: Steve Shelton, Ronnie McAnear, Teddy Graham, Dennis Stewart, Ronnie Longan and Lester Welch.

FARM NEWS

from County ASCS Committee

Cotton Vote Choices Defined
All farmers who engaged in the production of upland cotton in 1963 are eligible to vote in the Dec. 10 cotton referendum. The basic program choices are:

(1) If at least two-thirds of the growers who vote in the referendum approve of quotas, then the quotas will be in effect for the 1964 upland cotton crop, marketing penalties will apply to any 'excess' cotton produced on a farm, and price support at a level within the range of 65 to 90 percent of parity will be available to farmers who comply with their farm acreage allotments.

(2) On the other hand, if more than one-third of the growers who vote oppose the quotas, then there will be no quotas and no penalties applicable to the 1964 upland cotton crop, and price support to farmers who comply with their farm acreage allotments will be available at 50 percent of parity, as directed by law.

Allotments are not affected by the outcome of the balloting. They will remain in effect — whether or not quotas are approved — as a means of determining eligibility for the available price support.

While the Secretary of Agriculture is directed by law to proclaim quotas for the next crop when the total cotton supply exceeds normal, it is the growers themselves who decide whether or not quotas shall be used. Previous votes on the subject have been outstandingly favorable. Marketing quotas for the 1963 upland cotton crop were approved by 93.7 percent of the growers voting.

Allotments for individual

farms will be made available to growers within the next few days, so that farmers may have the information prior to the December 10 referendum.

Office Closed For Holidays
This office will be closed Thursday, November 28, 1963, in observance of Thanksgiving.

Band Sweetheart Presented At Football Game Friday Night

In half-time ceremonies at the Clarendon-Memphis football game Friday night Miss Clydean Gilbreth, daughter of Mr. and Mrs. Clyde Gilbreth, was crowned sweetheart of the Clarendon High School Band. Barry Hudson, a member of the band and son of Mr. and Mrs. Carroll Hudson, escorted her to the center of a large heart, formed by the band and Broncho Drill team, where he placed the crown upon her head and presented her with the traditional sweetheart locket. Miss Dolfia Vallance, twirler in the band and daughter of Mr. and Mrs. Dick Vallance, then presented Miss Gilbreth with a beautiful bouquet of red roses.

Miss Gilbreth is a senior student at CHS and has been a member of the band since the seventh grade. She plays a clarinet.

Following the presentation of the band sweetheart, the band and drill team formed a large star and presented a tribute to ex-students as they played the Alma Mater. Lights were turned out and twirlers presented a drill with fire batons. Small flashlights placed on the hats of band members outlined the formation. This was one of the most outstanding performances for the group this season.
