LOAN SHARKS RULE.

It now appears that the loan sharks have been more diligent than the law-makers since the law is on the side of the loan sharks. At any rate, Attorney General C. Mann is camping on their trail.
 Here is how the Attorney General sums it up:
 "The Supreme Court has held that the state, acting through its Attorney General, is without authority under existing laws, to maintain its action for an injunction commanding loan companies to cease charging and collecting usurious interest.
 "Though our Supreme Court had not written on the subject, the decisions of the other states, notably Kansas and Minnesota, have upheld the authority of the state in the exercise of its sovereign power to maintain such actions through its Attorney General.
 "I entertain the hope, however, that the deplorable conditions revealed by the investigations conducted by this department will not go unheeded and that we may expect the Legislature to provide, at an early date, the express statutory authority which the court has indicated must be given before the legal representatives of the state may act effectively to curb the evil.
 "The investigations being conducted by this department must now be discontinued, but they have disclosed widespread and flagrant violations of the usury laws. It has been discovered that collectors for loan sharks are carrying guns, that citizens are being intimidated and harassed to the point of desperation, losing their jobs, their children going without food, their homes being broken up, all because of illegal attempts to collect the payments of usurious interest contracted for in direct violation of the Constitution."
 Thus it is squarely up to the Legislature to do something about the matter right now if the majority have one bit of public pride and regard for human rights left in them.

was or where it came from. Another business man noticed the fate of the circular and they got to talking. They looked in the wastebasket and found 27 such circulars. Not a one had been opened. They cost money and then more for postage, but failed to reach the prospective customer. The odd part of the whole matter is that the two men commented on the fact that not a newspaper was found in the wastebasket. One of these business men had in times past mailed out just such circulars, he said, before he learned that people seldom read them.

COCKEYED CONDITIONS

Time was when everything of major importance was accepted without question. People went to church, because they considered it their duty. Now the world is asking, why go to church? Time was that going to school was taken for granted. A lot of young people are asking now, why get an education when so many college graduates are out of jobs? Time was when most young men looked either to the farm or the business house as a certain means of livelihood, and future independence. Now they are asking, why go into business when 93% of all business people eventually fail; and the government has to help the farmer make a living? Most young people have one idea: get hold of a car, drive like hades, have a swell time, and let the government look after you in old age. Living under these cockeyed conditions of the past few years has made most people wonder just which way is the right way. But after all, straight living, honesty, thrift, and economy will win, regardless of what may happen in between times.

HAD HIS SHARE

An editor knocked at the Pearly gate. His face was scarred and old. He stood before the man of fate for admission to the fold.
 "What have you done," Sr. Peter asked.
 "To gain admission here?"
 "I've been an editor, sir," he said.
 "For many and many a year."
 The Pearly gates swung open wide.
 And St. Peter touched a bell.
 "Come in," he said, "and choose your harp."
 "You've had your taste of hell."
 Mr. and Mrs. Gott and son spent the week end in Canyon.

HAS THE GOVERNMENT EVER BEEN OUT OF DEBT?

There has been only one short period when the American Government was entirely free from debt. The national debt was first created in 1775 when the Continental Congress issued bills of credit to finance the Revolutionary War. It was one of the chief ambitions of the early Presidents and Secretaries of the Treasury to extinguish the national debt, but this dream was not realized until the second administration of Andrew Jackson.

Treasury reports show no public debt receipts during the years 1834 and 1835. On January 1, 1835, and 1837, the Treasury had funds in hand to meet all outstanding indebtedness on presentation.
 In other words, during those two years the United States government was free from debt, and it is the only period for which such statement can be made.

In his annual report to the Congress on December 2, 1834, Levi Woodbury, Secretary of the Treasury, stated with reference to the national debt:

"Thus, before the close of the year (1834,) the whole will either be paid, or money provided to pay it; and the United States will present that happy, and probably, in modern times, unprecedented spectacle of the people substantially free from the smallest portion of the public debt."
 The national debt returned with the financial troubles of 1837, and has been with us ever since.

DENTISTS LAW IS REFERRED

Operation of the provisions of a law prohibiting advertising by dentists automatically was suspended yesterday when petitions referring the measure to a vote of the people at the 1940 general election were filed with Harry M. Moore, secretary of state. The law, enacted by the 14th legislature, was scheduled to become effective June 12th.

The petitions, carrying the signatures of 10,907 Arizonians in Maricopa and other counties, were filed by E. W. d'Allemand and M. J. Cassidy, as individuals and as representatives of the Arizona Newspapers Association.—Holbrook (Ariz.) News.

DID YOU KNOW?

At one time, tomato plants were carried on all submarines of the British navy. A tomato plant is 200 times as sensitive as the human nose and 75 times as sensitive as the canary in detecting the presence of poisonous gas which is one of the main dangers in submarines. These gases are given off by the storage batteries and are very deadly at times. Chemical test was not sensitive enough to warn the crew of the presence of the gas, while the leaves of the tomato plant would droop when exposed. Mice and canaries were formerly carried as detectors.

UNITY AND STRENGTH

A father in one of Aesop's fables, wished to prove to his sons that unity is strength. He asked each of them to break a single stick, which they did with ease. However, when he gathered several sticks into a bundle, none of the sons could break it.

The same principle of unified strength applies to our country's progress and prosperity. As long as separate groups such as business, labor and government stand alone, the structure is weak.

But when all groups decide to go ahead together, nothing in the world can stop us.

The year is half gone and not a mosquito has shown. They seldom trouble any, but what we started out to say was, the Leader will be sent free for a year to the first party who brings in a "skeeter" in a bottle. Don't mash it. You might bring in a blastophagus bug, and they look like a mosquito when mashed.

ANOTHER RECORD!
Fully ninety-five percent of the citizenship of this county is made up of native born white Americans. Of that number, fully forty percent have resided here for more than 25 years, and many for a half century. Perhaps this is due to the fact that we do not have ticks, chills or fever. Can any of our exchanges match that?

CHIC SALE DIVISION.
Much has been done regarding sanitation the past few years and in an article along those lines we read of the lady who stepped into the drug store to buy a tooth brush. The drug clerk inquired as to the kind and size and she replied: "Give me a large one, as we have a large family." This reminds us of the story of the doctor who was called to a home where a contagious disease was discovered, and he remarked to the mother: "I suppose you are taking precautions to see that the other children are not exposed." "Yes," she replied, "I bought a sanitary drinking cup and am making every one of them use it."

THREE LITTLE WORDS.
"These are voted tops as the 6 sweetest words in the English language:
I love you.
Diner is served.
Keep the change.
All is forgiven.
Sleep until noon.
Here's the five.
And the saddest were:
External use only.
Buy me one.
Out of gas.
Dues not paid.
Funds not sufficient.
Rest in peace."

SEASONABLE PRICES.
We can always tell when summertime comes. Fuel oil goes down and gasoline prices go up.

DAILY MARKET.
A strong democratic paper in Connecticut allows as how Mr. Garner could not be elected. First, this paper tells of how Garner "snubbed" a certain singer's recital at the Lincoln Memorial in Washington. He was asked to be present. Later he was phoned to be present. Despite all that, he did not go. The singer was Marion Anderson, a nigger woman, and Garner no doubt had heard niggers sing while a kid living down in Red River county, Texas long ago. He likely enjoys more the bleat of a Uvalde county sheep at this age. He most certainly is not the type of man to desire votes or prestige in any form by lending his presence to a social function—nigger or otherwise.

ONE-ARMED BANDITS.
New Mexico and Arizona are having a round with slot machines, commonly referred to as one-armed bandits. The alleged carnival stopping here recently had some soft-fingered gentry aboard who started the racket here, but the sheriff stopped that mess before it got started. It appears that officers to the west are "standing in" with the offenders judging from the tone of the exchange weeklies from that direction.

WHAT'S IN A NAME?
Father's Day was originated by a man named Meek—Harry C. Meek of Chicago.

WRONG STUFF.
One Senator in Washington Friday made bold to allow as how England should not have sent over the king and queen, but a little "jack."

HOT WEATHER POME.
"Deck your limbs in floppy pants—Yours are the limbs, my sweeting. You look divine as you advance—Have you seen yourself retreating?"

TEXANS AND ROYALTY.
Texas climbed right on the map when British royalty reached Washington. In fact they copped the deal as far as notoriety is concerned. Cong. Nat Patton said "hello Cousin George, hello Cousin Elizabeth," just like that! Boy, howdy! Did he knock 'em all cold with his smartness. He'd never heard of England, most likely until recently, much less the nobility. Then the Vice President (who has nothing to do with vice whatever,) saw the monarchs coming up the capitol steps and yelled: "The British are coming!" John had his pockets filled with Uvalde county pecans for ammunition which is about all he felt he needed since England is no longer able to defend herself alone. But the monarchs acted right civil and never mentioned anything about their forefathers having burned the capitol back in 1812. John Nance Garner walked right up, shook hands, spent two days with them. When they pulled the "Emassy Party" the last night, old John went home and to bed because he doesn't care anything about nigger singers, British nobility or anything else if it interferes with his daily 'project' of sleeping and eating. The vice president regards his health and personal comfort first.

Officials of the New York World's Fair went into a huddle next day after only 147,000 were in the grounds to see the King and Queen. The Saturday previous, the attendance was much greater. The public is not so interested in royalty, but would gang in to a race track with a honky-tonk joint every few yards. Booze and speed will bring 'em out, brother.

GARDEN GLANCES
"America beautiful lies in the hands of the gardeners."
This week the glances of the gardeners were tempted to linger on the Jim Patman lawn. It is a very attractive place with numerous evergreens artistically landscaped. Gay clumps of blooming plants are partially hidden by the shrubs and evergreens. The vacant lot next door has not been neglected, for it too, shows care. The Patmans certainly are deserving of praise from the City Beautiful Committee for their care of this extra space.
Another home with an inviting lawn is that of Dr. Ellis. One can now realize from passing the street, the immense amount of work and thoughtful planning on the arrangement of the lily pool and rock work, and general scheme of beautification that has been done here.
We can all discuss our court house lawn. It is a lovely shade of green, and we have so many beautiful young trees. There are American elms, Chinese elms, ash and others. The differently formed leaves and different shades of green supervising this green lawn, make a very restful looking spot in our town.
The predominating annuals this week are the old-fashioned standing cypress with its scarlet plumage, and numerous petunias.
As one glances at these garden spots he is reminded of a quotation from Edgar A. Guest—
"A garden is a plot of soil
Where men and women take the hours,
The rain, the sunshine and their toil
And shape them into Summer flowers."

BETTE DAVIS WINS AWARD FOR BEST ACTING OF 1938

STAR OF "DARK VICTORY" GETS COVETED HONOR TWICE

For the second time in her brilliant career, Bette Davis has received the highest accolade that can be given to a film actress—the annual award of the Motion Picture Academy for the best performance of the year. She first received the award in 1935 for her work in "Dangerous." The 1938 award was given her for her portrayal of the vixenish southern belle in "Jezebel." But Miss Davis, who is not one to rest on her laurels, has already put herself in the running for the 1939 award by her superb acting in "Dark Victory," the drama which will open at the Pastime Theatre at the regular Saturday night Prevue.

The golden statuettes, nicknamed "Oscars," are the most coveted possessions in the motion picture world, and the entire industry votes on who shall receive these annual awards. The almost unprecedented honor of being the recipient of two "Oscars" puts the blonde New England girl in the position of first lady of the screen—a position for which she is eminently fitted.

An actress from her cradle days on, Miss Davis has had to fight every inch of the way for the success she has achieved. After graduating from dramatic school she applied to Eva Le Gallienne for a job. To conceal her eagerness, she acted so nonchalant during her interview that Miss Le Gallienne was completely deceived and called her "a frivolous little girl" whose attitude toward the theatre was not serious enough. It was a heart-breaking setback to the enthusiastic young thespian, but she soon found other jobs—and by dint of studying all the parts in the plays in which she appeared, occasionally got the opportunity to substitute for leading ladies who were indisposed. A few good roles on Broadway netted her a Hollywood contract in 1930. But being an extremely natural young person she arrived there without any fantastic pets, orchid corsages or dark glasses. And Hollywood, unaccustomed to such going-on, rated her a "colorless" type and cast her accordingly. Discouraged but far from daunted, Bette determined to go back to the New York stage. Then a friend tipped her off that George Arliss needed an unusual-looking blonde for a top role in "The Man Who Played God." She took a screen test at the Warner Bros. studio, and received the role, a contract, and some other good parts.

Mrs. Weldon Harkness and children of Burk Burnett, are visiting her parents, Mr. and Mrs. U. T. Devers. They will reside at Quannah after this week.

AN INSTITUTION WITH A NATIONAL REPUTATION FOR THE TREATMENT OF CHRONIC DISEASES

To Whom It May Concern:

I came to the Milling Sanatorium in July scarcely able to walk into the hospital without assistance. I had high blood pressure, a bad heart and many other ailments. Also my eyesight was failing me. I stayed eight weeks and took treatments. Today I am well and enjoying life to the limit. My eyes are fine, and I owe many more thanks to the institution than I can find words to express.

MORAN CAME UP THE 'HARD WAY'

DAN MORAN President Continental Oil Company

The story of Continental Oil Company and its rise to prominence in the oil industry, is told in the current issue of Fortune Magazine. A striking feature of the article is a thumb-nail sketch of Conoco's President, Dan Moran:

"Born at Cynnet, Ohio, he had picked up cash as an office boy and as a telegraph operator, earned his way through the University of Dayton, and then had gone south. To Tulsa, where he saw the oil spout from the Glenn Pool strike, then to Port Arthur, where he signed up as an engineer for the Texas Co. From there he was sent down to Panama and to South America, and from South America he had trekked north again into Mexico and to the States. He had spent seventeen days in a hurricane on an oil barge. He had helped repair the ravages of another hurricane, which ripping through Port Arthur, had floated away the oil tanks of a refinery there like so many toy ships. He had built refineries, drilled for oil, and had put up ocean terminals at Charleston, at Savannah, Pensacola, Mobile, Key West, and in Cuba. And in the process he had learned something of men and something of the sweet-smelling stuff called crude."

CHEVROLET SALES SHOW BIG GAIN DURING MAY

DETROIT, June 14.—For the first time since 1933, Chevrolet dealers' May deliveries of new passenger cars and trucks this year eclipsed those of April. The announcement was made at company headquarters here today, in connection with the release of figures showing the month's new deliveries as 77,125 units. This is 34.8 per cent above the total for May a year ago, comparison of the record reveals, and is the second-highest month since the 1939 models' introduction.

The figures show that Chevrolet's sales in the final 10 days of May exceeded those for both the preceding 10-day periods, and that passenger cars and trucks both shared in the advance over corresponding periods of last month and last year.

Truck deliveries for the month were 15,474, as against 11,436 in May 1938.

Used car sales for the month totaled 157,461, a gain of 25.8 per cent over May of last year. The final 10-day period was 6,412 units above the period immediately preceding, and 11,942 units above the period ending May 10, giving the company's retail sales organization a grand total of 234,586 new and used car sales for May.

LELLA LAKE METHODIST CHURCH

Services every 4th Sunday. Morning at 11 o'clock. Afternoon at 3 p. m. J. G. Walker, pastor.

METHODIST CHURCH

To accomplish the greatest good as a church, we need the help of all our members and friends. Attend next Sunday's services. Your presence will add much to the services. H. C. Gordon, Pastor.

METHODIST CIRCUIT NOTES

J. G. Walker, P. C.

We were glad to be at McKnight Sunday at 11 a. m. Sunday school was interesting. Attendance at preaching service was the best we have had. We administered the Sacrament and it was an impressive service. Not many in attendance in evening at Bray, but an enjoyable service. Reports show that Sunday school at Lella Lake still running good. Some new ones. Mrs. Balew of Clarendon was with

them. We do not know the subject she discussed, but we are sure it was good, and we are very thankful for her service. We are truly glad to find several in Clarendon who are willing to help out in rural church work. Much is being said today by many church workers about the country church. All admit that it has been a great factor in making Methodism what it is today. All can see that her influence is not as powerful today as it once was.

All admit that the retard in rural church work is due to neglect. To be sure the country people have neglected to do their work well, but not all the loss of power is due to the neglect of individual members of these country churches. They have been woefully neglected by people moving from the country to towns or cities, engaging in different kinds of business which must be fed by these country people still living in the old community. The country people are supporting them, but they feel under no obligation to help them in their struggle to keep the church work going in the old community. Rural life is being improved in many ways. Better schools, better homes, better roads, better trained teachers and all home conveniences. But the church, the only divine institution seems to be the most backward. Why are we willing to see the church lag behind? Some body needs to take the road, bum gas, sacrifice time and pleasure to help the weak brother.

Meet us at Goldston next Sunday.

A Father's Prayer
On Father's Day

By George W. Bigham
I'd like to have you think of me,
As one with whom you'd rather be—
I'd like to make my home so fair,
That you would all be happy there—
To have you think when life is done,
'Twas here you had your finest fun.

Within these walls with love aglow,
You live tomorrow's long ago—
Nor is the time so far away,
When this shall be your yesterday.

It's then you'll turn once more to see,
The little home that used to be—
When comes that time I want you then,
To wish you could be here again—
I want your memories to be,
A picture of a kindly me.

To have you say how very good,
Your youthful lives were made by Dad—
I want you to recall this place,
As one of charm and tender grace—
To love these walls of calm content,
Wherein your youthful lives were spent—
And feel through each succeeding year,
You lived your happiest moments here.

I feel I shall have failed unless,
This home shall shelter happiness—
Where you have found your finest mirth,
Around your Father's humble hearth—
And here life's finest joys attain,
I shall have lived my life again.

I feel I shall have failed unless,
This home shall shelter happiness—
Where you have found your finest mirth,
Around your Father's humble hearth—
And here life's finest joys attain,
I shall have lived my life again.

WATER FLOWERS IN SUMMER WITH SPECIAL CARE

COLLEGE STATION.—Watering flowers a little every night may be fun, says J. F. Roshorough, horticulturist of the Texas A&M College Extension Service, but the flowers will do better if they are watered thoroughly once a week and allowed to dry out somewhat in between times.

A summer mulch of peat moss or a similar mulch will prove more than worthwhile in holding back weeds, keeping the soil cooler, and reducing surface evaporation. A more robust plant and larger, brighter flowers will result.

Some plants will do better if they are pinched back when they are six to eight inches high. Such plants as the zinnia will develop into a much bushier plant if this method is used.

Another pointer listed by Roshorough is the removing of blooms. As blooms reach their prime they should be removed before they have a chance to go to seed. This will not only result in more blooms, but a longer blooming period.

Mr. and Mrs. Robert Harvey of Lubbock visited his mother, Mrs. Monica Harvey, over the week end.

Mrs. Nannie Holcomb, who has been visiting her cousins, Mr. and Mrs. R. I. McGowan, returned to Turkey Sunday.

COUNTIES IN SOUTH TEXAS RECEIVE TAX REMISSIONS
AUSTIN, June 6.—Gov. W. Lee O'Daniel today signed a bill remitting for an additional 10 years all state ad valorem taxes paid into the general revenue fund by seven South Texas counties to improve the seawall at Corpus Christi.
Representative W. E. Pope of Corpus Christi said the remission would total about \$1,600,000. The original tax remission began in 1921 and extends until 1946. Counties whose taxes will be turned over to Corpus Christi are Nueces, Jim Wells, Jim Hogg, Brooks, Kleberg, Willacy and Duval.
T. T. Harrison of Memphis is spending quite a bit of his time in Clarendon in order to promote the construction of an oil mill.

BECAUSE LIFE DEPENDS ON TIRE SAFETY—
They Choose **Firestone CHAMPION TIRES**
FIRESTONE WINS 20th Consecutive Victory In Indianapolis 500-Mile Race

WILBUR SHAW, the 1939 winner
On May 30th, Wilbur Shaw drove to his second victory in the 500-mile Indianapolis Race on Firestone Champion Tires at an average speed of 115.03 miles an hour. Champion race drivers, whose lives and chances of victory depend on tire safety, know tire construction. That is why they select and buy Firestone Tires for their racing cars.
A merciless sun beat down upon the speedway as Wilbur Shaw drove to victory on Firestone Champion Tires. The blistering brick of the main stretch and the granite-hard surface of the turns and the back stretch put tire safety to the test supreme! Record after record was shattered. Speeds reached as high as 160 miles an hour on the straightaways, as 33 of the fastest drivers in the world waged a breathtaking battle for gold and glory.
Never before in all the history of the motor car have tires been put to such a torturous test. And never before has any tire so firmly established itself as a Champion in construction and performance, as well as in name. Here is dramatic proof of the extra strength which the revolutionary new Safety-Lock cord body provides in Firestone Champion Tires—of the extra protection against blowouts assured by the new and advanced Firestone patented Gum-Dipping process—of the extra mileage resulting from the tougher, wear-resisting rubber compounds in the sensational new Gear-Grip tread.
No longer can there be any question of which tire is safest. One tire—and only one—provides these exclusive safety construction features. One tire—and only one—has been on the winning cars at Indianapolis for 20 consecutive years. Motor car manufacturers enthusiastically adopted the Firestone Champion Tire for their 1939 models. Order your new car equipped with this amazing tire. Or drive in and let us equip your present car with a set of new Firestone Champion Tires, the one tire—and only one that is safety-proved on the speedway for your protection on the highway.
See Firestone Tires made in the Firestone Factory and Exhibition Building at New York World's Fair. Also visit the Firestone Exhibit at the Golden Gate International Exposition at San Francisco.
Listen To The Voice of Firestone with Richard Crooks, Margaret Spaul and the Firestone Symphony Orchestra, under the direction of Alfred Wallenstein, Monday evening, over Nationwide N. B. C. Red Network.

WALLACES ATTEND A FAMILY REUNION AT GREENVILLE

Among the one hundred and sixty to attend the birthday celebration and family reunion of J. A. McKinney, 78, near Greenville Sunday was Mr. and Mrs. L. L. Wallace and children of Clarendon.

Also present was Mrs. J. H. Wallace, mother of Leamon L. Wallace here. In helping her father observe his birthday, Mrs. J. H. Wallace had the good fortune to have with her six sisters and four brothers.

A whole beef was barbecued, garnished with all kinds of good eats, Leamon Wallace stated Wednesday, and he is a mighty fine judge of good eats.

CLARENDON MOTOR DRESSES UP WITH PAINT JOB

The white ceiling with blue border adds much to the lighting effect as well as the beauty of the interior of the building where the Chevrolets make headquarters. The window frames are taking on freshness of paint at this time. The electric sign was repainted and changed up a bit, all of which gives manager W. W. Noblet an air of prosperity along with his sales force and mechanical departmental workmen.

GRASSHOPPERS ARE DOING LITTLE DAMAGE TO DATE

Grasshopper poison plants located at Clarendon and Hedley will be open only on Monday and Friday of each week, County Agent H. M. Breedlove announced today.

There has been very little demand for poison up to the present time. It is expected that with the continuation of warm weather, it will be necessary to keep the plant open full time. Breedlove said that according to reports from all parts of the county, hoppers were not nearly as bad this year as the last two years, however, both grasshopper plants will be open and ready should an outbreak start.

MANY MISERIES MAKES MAN MOVE MOMENTARILY

You said it! With looking after two farms at the busiest season, and a mercantile business at the same time, keeps J. B. Masterson, merchant prince of Hedley on the jump. When asked about his crops on his Ashtola farm, Mr. Masterson stated that he was about the only one up that way who would not have to replant. Heavy damage was sustained in that section from the high wind of Friday night.

BRYAN RITES ARE HELD WEDNESDAY

MEMBER OF BAPTIST CHURCH SEVENTY-FIVE YEARS; HAD RESIDED HERE 33 YEARS

Bereaved relatives and sorrowing friends paid their last tribute to the memory of Mr. Clarence A. Bryan at the First Baptist church here at 4 p. m. Wednesday. Rev. J. Perry King, the pastor, had charge of the services. Rev. H. C. Gordon, pastor of the First Methodist church led in prayer.

Mr. Bryan passed away at the home of his daughter, Mrs. W. A. Land, late Tuesday, never having recovered from a fall on the street sustained March 13th of this year.

He was born at Opelika, Alabama November 29, 1864 and came to east Texas in 1884. He was converted and united with the Baptist church at the age of 13, and lived a consecrated christian life for the remainder of his 75 years.

He was married to Miss Lucy Baldwin July 18, 1872 at Woods, Texas, Rev. Geo. W. Butler officiating. To this union seven children were born, six of whom survive. They are Eugene F. Bryan, Amarillo; Earl W. Bryan, Tenaha; Mrs. Eula L. Whitlock, Mrs. Sarah Ona Land, Mrs. Eva F. Sanford and Reagan C. Bryan all of Clarendon.

A sister, Mrs. John D. de Steiguer of San Marcos, aged 91, is the only surviving member of the family, Mr. Bryan having been the youngest, and who was 88 years, six months and fourteen days old at his passing. Fifteen grandchildren and fifteen great grandchildren survive.

His wife preceded him in death on November 9, 1926, Rev. S. R. McClung, pastor of the local Baptist church at the time, had charge of the funeral service.

"A Rest From Earth's Labors In an Unclouded Day," was the subject of Rev. King in the service Wednesday in which he portrayed the beautiful philosophy of a consecrated life and the calm assurance of a reward beyond the grave to the faithful. Mr. Bryan led a blameless life mellowing with the years, and looked forward with that confidence and sincerity that comes to those who take time, as he did, to map out a course of right living and follow it through.

TAKING BUSINESS COURSE

Miss Dorthea Watson enrolled Monday to pursue a business course in West Texas college at Canyon.

Mrs. Edd Barnes is visiting her sister in Pampa this week.

MRS. W. H. COOKE FUNERAL TUESDAY

RESIDENT OF CLARENDON FOR MORE THAN HALF A CENTURY

Funeral rites were held here Tuesday afternoon at three o'clock for Mrs. Cooke at the family home. Rev. Frederick A. Foster, pastor of an Amarillo Episcopal church, officiated.

Attending the casket were Dr. T. H. Ellis, H. B. Kerbow, P. B. Gentry, Sam Dyer, Meredith Gentry and Kelly Chamberlain.

In failing health for several months, her children recently succeeded in persuading her to seek relief in a Lubbock hospital, at which place she passed away just before noon Sunday at the age of seventy-one years.

She was the widow of W. H. Cooke, who, with Charles Goodnight, organized the first bank in the Panhandle here in 1889. Mr. Cooke passed away in 1926.

Mrs. Cooke arrived in Clarendon on the first train to run over the newly constructed Denver road in 1887. She was the official mother of the Greenbelt Golf Association and never missed a tournament until this year when her health would not permit. Her sons and grandsons competed in these tournaments.

Surviving are seven children. W. H. Cooke, of Lubbock, pioneer traveling man of West Texas; Al Cooke of Littlefield; Mrs. Frances Forrest and Miss Julia Cooke of El Paso; Miss Mary Cooke and Dick Cooke of Clarendon, and Mrs. Ray Carr of Borger. And three grandsons, Burch Cooke of California, and Alec and Billie Cooke of Clarendon, the last two whom she reared in her home.

Her mother, Mrs. M. F. Moore, 90; a sister, Mrs. R. A. Morgan and a niece, Mrs. S. A. Lightfoot, resident of Lubbock.

DAIRY EXPERT INTERESTS MANY FRIDAY

In presenting facts to our local people on the subject of dairy products, V. A. Maddox of the A&M extension service had an interested audience all day Friday.

He demonstrated the various processes of making Neufchatel cheese of two types and straight cream cheese.

His talk on dairy cows, their care and protection along with sanitation, was most helpful. The meeting was a decided success as the dozens testified who made it a point to be present.

FORMER CLARENDON RESIDENT SUCCUMBS TO TYPHOID IN GROOM HOSPITAL

Funeral rites were held in Silverton Wednesday afternoon for Mrs. Earl Allard who died at Groom Tues.

Mrs. Allard, formerly Ruth Lawler, daughter of Mr. and Mrs. N. M. Lawler of Goodnight, spent her school days here when Clarendon was the family home. Besides her husband she leaves two babes, Ray Jean 4, and Mary Katherine, aged three.

She was the third girl in the family to contract typhoid recently. Peggy Lawler was the first patient in the family. Then Mrs. Helen Watson, wife of O. C. Watson Jr. became a victim of the disease thirteen weeks ago and still is ill, being unable to attend the funeral of her sister Wednesday. Her condition has been critical much of that thirteen weeks, during which time she was a patient in a Lubbock hospital.

Attending the last rites from here were Mr. and Mrs. O. C. Watson and son George, and Mr. and Mrs. B. C. Antrobous.

BAND TO PAMPA TUESDAY

Clarendon's High School band, directed by Ray Robbins, was one of several bands to share in the opening day's ceremonies at Pampa. The band went up Tuesday for the Top 'O Texas annual event that closed Wednesday.

RETURNS TO OZONA

Visiting her parents here, Mr. and Mrs. J. H. Hurn, and sister, Mrs. Nathan L. Cox and family for several days, Mrs. G. J. Van Zandt and son Joe returned to her home at Ozona this week.

Mrs. Abe Cole and daughter, Elizabeth, have returned to Amarillo after a visit of several days with his parents, Judge and Mrs. A. T. Cole.

Sales Tax Defeat

The sixth vote of the House on the sales tax was taken just before noon today. The result was 91 to 55, seven votes short of carrying.

The "Price Fixing" bill was approved by the Senate today. The House will again pass on the bill since an amendment was attached when the Senate voted. The House had voted the bill some three weeks before. This same bill is also known as the "Fair Trade" bill. The law, if passed, would give eastern manufacturers the right to dictate to Texans what they shall pay for certain manufactured articles of food, wearing apparel and machinery.

If you don't like a dictatorship in authority in another state telling you what to do next, write, wire or phone Gene Worderly to oppose the bill. The Leader is unalterably against a dictator, prices or otherwise. We've lost too much of our freedom

HORSE VICTIM RECOVERS

Painfully injured when a horse fell on him some two weeks ago, Marshall Holcomb was able to be taken back to the JA ranch Monday. A broken pelvis bone caused him most pain at the time. He is improving nicely.
