Area Rains Continue Soaking County

City-Contractor Agree On Repair Helps Corn, Grain Crops, Slows Cotton

Mayor Alex Williams called a special meeting of the city commissioners Thursday, July 24 at 2 p.m. to discuss with City Engineer Bill McMorries and Ken Abbot, general contractor, the reconstruction of the one million gallon water reservoir that collapsed recently.

A motion was passed giving City Manager Dave Marr the authority to employ a construction company to repair the storage reservoir under the direction of the city engineer. The resolution approved by the city dads, also gave Marr the authority to negotiate directly with the construction company for the amount to be expended for such repairs to the tank. The approximate amount to be spent by the city for this work is \$14,000.

The Resolution states that the City of Muleshoe faces an emergency with respect to the storage of water for human consumption and safety and that the repair and reconstruction of the reservoir is essential to the public health and safety and that there is an immediate need for such storage to be available.

The agreement between the City and the contractor states: The contractor will furnish all material, labor, supervision, equipment, etc. to complete the repair of the damaged one million gallon concrete reservoir located in South Muleshoe.

The work will include the following items of work:

1. Replace earthen material removed by the washout in six inch lifts compacted to 95 percent standard proctor density.
2. Repair and reconnect the eight inch A. C. well line and 16 inch A. C. Supply line.
3. Remove and replace damaged portion of the six inch concrete floor.
4. Construct four foot by

Cont. on Page 2, Col. 1.

MEN AT WORK . . . "Please pardon our progress - work on U.S. Highway 84 began this week," said a representative of Cooper and Woodruff, Inc., Amarillo, Texas. He pointed out that all progress requires a little inconvenience, and often even more than a little patience, but the results are usually worth it. The highway between east Sixth and west Eighth, will be torn up the next few weeks while the firm makes this

busy street into a wide four lanes, that motorists will enjoy driving on much more and that will be attractive. "Be assured that we will get this important job, a part of a Texas Highway Department program, done as quickly as possible. Thanks in advance for your patience," the construction man said.

Uninsured Drivers Law

AUSTIN --- Uninsured motorists involved in traffic accidents resulting in death, personal injury or property damage in excess of \$250 may be subject to suspension of their driving privileges and vehicle registrations under a revision to the Texas Safety Responsibility Law.

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said the new law--which was enacted

during the recent Legislative session--requires DPS to evaluate traffic accidents (meeting the above criteria of seriousness) to determine if there is a "reasonable probability of judgement" against one or more of the drivers. If such a finding is made, and if the driver or owner has no liability insurance meeting the state's minimum requirement of \$10,000/\$20,000/\$5,000, then the DPS must require the

insured motorists believed at fault to satisfy the security provisions of the law. This may be done in one of the following ways:

--By submitting a written release signed by the other damaged parties.

--By filing an installment agreement made with the other damaged parties involved.

--By depositing security in a sufficient amount to take care of damages sustained by others and maintain proof of financial responsibility for a period of five years from the date of the accident.

--By filing copies of civil damage judgement obtained against other parties involved in the accident, or a judgement of non-liability.

When the security provisions of the law are not satisfied by the uninsured owners and operators, and the DPS determines there is "a reasonable probability of judgement" against such persons, the following provisions of the law become applicable:

--A written notice of future driver license and motor vehicle registration suspension must be forwarded to such persons by certified mail. Such a notice will advise that a hearing will be granted upon request.

--Upon receipt of a request for hearing, the DPS will notify the persons requesting same to appear before the traffic court judge in their presence.

Cont. on Page 2, col. 1.

This time last year, the farmers were crying for rain having only received 3.07 inches, compared to the 12.62 inches of rain this area has had this year . . . and it was still cloudy and misting rain early Saturday morning.

The past six days of rain have been beneficial to area farmers with the exception of some cotton farmers who report the wet weather is slowing down cotton maturity and may effect the growth of tomatoes, making an early fall tomato crop this year.

"We don't want to run the rain off, because it was so dry last year," said John Fuston ASCS director. He pointed out that it couldn't be anything but GOOD for corn and milo crops, but is bad for cotton. "Cotton crops need hot dry weather to be any good," he commented.

Fuston estimated there are approximately 65-70,000 acres of cotton planted in Bailey County, though not all have been hurt by the rains. He said he would have an accurate figure of the amount of cotton planted in the county by August 1.

J. K. Adams, of Muleshoe is certainly pleased with his alfalfa crop, stating he believes the crop will make with only one watering. He was lucky and didn't have any hay down when the rains came.

"The corn and the grain sorghum crops have really been helped by this kind of weather," said Adams. "Warm weather and long sunny days are needed for the cotton, as it is slowing down its maturity," he commented. "I have quite a few tomatoes planted and they are blooming, but we may have more of a fall tomato crop than usual," said the Muleshoe farmer. He couldn't estimate how much rain he has received

on his place since last Sunday when the rains began because he had his sprinkler system turned on and part of the precipitation recorded, came from the sprinkler. However, the gauge recorded 1.10 inches after the last good rain received.

On Thursday morning, Harmon Elliott, Muleshoe Chamber of Commerce Agriculture chairman said, "Crops in a broad area around Muleshoe are as good as they have ever been. The dry land crops have received good moisture. The cotton is blooming, the maize beginning to boot and the sunflowers are really looking good."

Elliott got his wish, as he commented, "it will take more rain to finish up the crops, in order to make real good yields, but at this point, the south part of the county is in real good shape."

The E. W. Bass family, two and a half miles northwest of Muleshoe are happy with the rains. They have an irrigated farm and have planted cotton and maize. Mrs. Bass said they didn't feel it would hurt their cotton crop. She pointed out that they were just getting ready to irrigate when the rains began on Sunday. They have received 2.8 inches of rain since Sunday.

The Harold Allison farm, near Lazbuddie has received 1.65 inches of rain since Sunday. Their farm is irrigated.

Coach Chuck Stout announces that physicals for all high school football players will be given Sunday, August 3, at 2 p.m. at the high school field house.

Attention

Beginning Wednesday, July 30, Weldon Menzer, drivers license patrolman, will be back in the Muleshoe Office on his regular schedule.

Plan A Safe Farm

Farmers and ranchers put a considerable amount of time into planning their production operation. Yet, one of the most important plans--a farm safety plan--is often neglected.

Farm safety plans are being given special emphasis this year during National Farm Safety Week, July 25-31, points out Spencer Tanksley, county agent with the Texas Agricultural Extension Service.

Muleshoe L L All Stars Play Pampa Monday

The Muleshoe Little League All Stars will play the Pampa Nationals in the bi-district Championship game Monday at 7:00 p.m. at Pampa.

The Pampa Nationals are champions of District I after defeating Borger by a score of 8-6 Thursday night at Dumas. Other teams defeated by the Pampa Nationals on their way to the District Championship were: Carson County, by a score of 4-3; Canadian, by a score of 18-3; and the Pampa Americans, by a score of 4-3.

The Muleshoe Little League All Stars drew a bye in their first round, then defeated Olton, 8-5; Plainview, 12-4; and Levelland, 6-3.

The winner of Monday's game will advance to the state tournament beginning August 4, at Waco.

Directions for going to the Little League Park in Pampa are: coming in on Highway Cont. on Page 2, col. 1.

A good farm safety program will help avoid accidents, protect you and your workers, save lives and money, show that you are concerned and boost morale.

According to Tanksley, the first step in planning a farm safety program is to make a checklist of the potential accident hazards on your farm or ranch. Such a checklist might include the following:

1. Clear out rubbish and litter around buildings, yards and roadways.
2. Check stairwells and ladder openings for secure handrails and check ladders for soundness.
3. Check roads, especially intersections, for good visibility.
4. See that guards and shields are secure on machinery and equipment.
5. Shut off power before

Mike Pool

At Workshop

NACOGDOCHES--Mike Pool of Muleshoe High School is taking part in the eleventh annual High School Speech Activities Workshop at Stephen F. Austin State University.

During the camp the students receive two-weeks of concentrated training in debate, oral interpretation, extempore speaking and persuasive speaking.

Approximately 50 high school speech and debate students from throughout Texas and Louisiana are participating in the annual camp.

BAILEY COUNTY 4-H'ers AT CAMP . . . The annual 4-H Electric Camp is being held this week in the Sacramento mountains, of New Mexico. The camp, sponsored by Southwestern Public Service Company, is located 28 miles southeast of Cloudcroft and those attending from Bailey county are, front row, left to right: Ken Eubanks, Brian Kirby and Curtis Carpenter. Back row, left to right: Sharla Farmer, Sheila Hunt, Prynness Parkeman, and agent Robin Taylor. The Southwestern instructor is Bill Harr from Lubbock.

Changes Proposed In State Brucellosis Regulations

AUSTIN--Interested Texas cattle producers will have an opportunity to express their views on proposed changes in the state's brucellosis eradication program during a public hearing September 4 in Austin, scheduled by the Texas Animal Health Commission according to Dr. H. Q. Sibley, executive director.

On July 1, 1975, 24 Texas counties had qualified as bovine brucellosis free areas and 23 other counties had no known infection. Current regulations do not contain provisions for protection of these clean areas, Sibley emphasizes.

The TAHC has proposed a number of major changes in the brucellosis program. The Commission voted to propose the regulation changes to bring the Texas program more in line with national brucellosis standards contained in the "Uniform Methods and Rules" for eradication recommended by the United States Animal Health Association.

Changes under consideration include:

- (1) Outlining the manner in which cattle may move into, within, and from certified areas to protect the status of these areas without further tests.

(2) Authorizing testing of all eligible test cattle prior to loan, lease, sale, or any change of ownership except, (a) breeding cattle that are consigned from herd of origin directly to slaughter and (b) animals originating in certified brucellosis free herds. These changes would give the Commission flexibility in handling the various situations that occur in different parts of the state.

(3) Requiring "S" branding of brucellosis exposed cattle only when going on permit to slaughter or to a quarantine.

Cont. on Page 2, col. 2.

UNUSUAL LICENSE TAG . . . George Cabrera, Janitorial and Carpet Cleaning Service in Muleshoe, has a very unusual license tag displayed on his van. He was in California in June to visit his son, Jimmy Cabrera who had a tag on his vehicle which read "MEXIAM". He told his dad he was the only person in the State of California who had such a tag. Deciding he would like to have a tag like it, George made application, paid \$10 extra for the tag and received it on July 25. Now, he is the only Texan displaying such a tag.

LOCAL MAN INJURED . . . Herb Griffith, 45 of 700 W. Eighteenth Street was injured in a car-pickup collision on Eighteenth and Avenue H around 1:10 p.m. Wednesday, July 23. He received bruises and was shaken up a bit and admitted to West Plains Hospital, Muleshoe. He was held overnight for observation. Police Chief Buddy Black said Mike Bomar, 18, driver of the pickup, was backing out of a drive and stopped. Griffith apparently didn't see the pickup and struck it.

Cotton Strengthens Grip On Open-End Spinning

NEW YORK -- On the production line and the profit and loss statement, cotton is proving itself the fiber of the future to textile mills running the modern open-end spinning frame.

Production of 100 per cent cottons and cotton blends accounted for 79 per cent of all open-end spun yarns in February 1975, said Karl Mueller, director of product development for Cotton Incorporated, the fiber company of U. S. cotton producers.

"That's an increase of six

per cent in less than a year," said Mueller. "Cotton's share of total open-end spinning in March 1973 was 73 per cent." Mueller said the increased use of cotton came at the expense of synthetics, which dropped from 27 per cent of open-end spinning production to 21 per cent.

Mueller told a convention of the American Association of Textile Technologists that cotton is proving itself better than synthetics in performance, economics, and aesthetics for use in open-end spinning. Open-end spinning first made its presence felt in the United States in the late 1960s. Hal E. Brockmann, Cotton Incorporated vice president for textile research and development, said it offers several advantages over conventional ring-spinning equipment. Most important is increased production, with lower costs for labor and raw materials, Brockmann said.

Cotton Incorporated has installed the most advanced open-end spinning frame in the United States in its research center at Raleigh, N. C. The frame is being used to find the best possible uses for cotton in open-end spinning, Brockmann said.

Mueller, from the New York marketing offices of Cotton Incorporated, told the textile experts that the increase in cotton use over the past year has been greater than had been predicted.

"Advantages of cotton for open-end spinning are not even

questioned anymore," Mueller told his audience. "Open-end machinery manufacturers have told me quite clearly that the more easily the rotor spins," Synthetics cause problems because lubricants or finishes, which are applied in the manufacturing process, come off during open-end spinning. The foreign substances build up deposits on the rotor and com-

bing rolls and interfere with the spinning.

Mueller predicted that as the economy improves, more mills will invest in open-end machinery. Increasing adoption of open-end spinning will then generate even more use of cotton, he said.

Brockmann added that further adoption of open-end spin-

ning should also mean better markets for cotton now considered low in quality.

"Low-micronaire, short-fiber cotton," Brockmann said. This works to the advantage of both mill operators, who can profitably use the less expensive cotton fiber, and producers, who should find greater demand for their "lower grade"

cotton, Brockmann explained.

Open-end spinning also means lower costs for the mill because it eliminates at least one packaging stage and it delivers yarns in bigger packages that cut down on labor requirements.

Use of the open-end spun yarns made significant inroads last year into the production of denims and other bottom-weight, or coarse yarn, fabrics,

Mueller reported.

Recent studies conducted at the Textile Research Center at Texas Tech University prove that denims made with open-end spun yarns easily meet the required industry standards for performance.

"Satisfying performance requirements for denim means that the entire bottomweight fabric market has become fer-

tile ground for open-end spun yarns," Mueller said. Tests at Texas Tech also show that open-end spun yarns meet industry performance standards for the middleweight fabrics.

And at the Cotton Incorporated research center, Brockmann said, tests already indicate that cotton spun on the open-end machines may perform well in the knitting of mediumweight and lightweight tricot fabrics, both of which have been made only from synthetics in the past.

Volunteer Firemen Attend School

COLLEGE STATION --

Owen Jones, volunteer fireman on the Muleshoe Volunteer Fire Department of Muleshoe, is attending the 46th Annual Texas Firemen's Training School July 21-25. The school, attended by nearly 1,521 students representing about 640 cities from approximately 32 states, is being held on the Texas A&M University campus this week.

Firemen can choose their course at the school from a list including Firefighting, Fire Prevention, Fire Department Officer Training, Fire Department Pump Maintenance, Specialized Fire Protection, and Disaster Rescue Operations.

Fireman Jones is being sponsored by Bailey County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward the cost of the school. Since volunteer firemen are interested in attending this school to help do a better job of fire fighting and fire prevention, 100 County Farm Bureaus and the Texas Farm Bureau Insurance Companies in the statewide program have sponsored 100 firemen at the school.

"The Farm Bureau Insurance Companies believe volunteer fire departments have been very effective in reducing the amount of loss involved by fire in rural areas," said President Carrol G. Chaloupka of Dalhart. "It is our hope in sponsoring this program that the fireman will help the Muleshoe Volunteer Department to better serve the residents of Bailey County."

Let Others Know You Care

COLLEGE STATION -- Taking time to share your ideas, feelings and problems is one way to let your family know how important they are to you, Mrs. Ilene Miller, family life education specialist, said this week.

"Open, honest communication will involve both verbal communication and physical communication.

"A hug, back rub or squeeze of the hand have special meaning for those we love -- just as the words 'I love you' do," the specialist with the Texas Agricultural Extension Service, the Texas A&M University System, said.

Honest two-way communication lets the family know they're cared for and that their ideas are important too, she said.

A family can also express feelings of love and affection by supporting and praising the accomplishments of its members. To build feelings of self-worth in others, support and encourage desirable behavior in positive ways, rather than criticizing or shaming the individual.

The specialist said that doing things together can create closeness between family members. There's a feeling of unity when members are involved in something that inter-

ests them. Cooperating on family projects can give everyone a sense of pride when the task is complete.

"An occasional treat or thoughtful sign of appreciation also helps family members to feel special. A bouquet of flowers to show how much you care, planning a family outing or serving a favorite food can create pleasant feelings.

"Think of the person you love and think about what they like and enjoy doing. Then play ways to let that person know how special he is to you," she said.

Mrs. Steven Newton

Miss Casey, Newton Marry In Enochs

Rhea Lyn Casey and Steven Mack Newton were united in marriage Friday, July 25, at 6:00 p.m. in the First Baptist Church in Enochs. Rev. Cleo Scott, of Temple and also an uncle of the bride performed the double ring ceremony.

Parents of the couple are Mr. and Mrs. J. W. Casey of Austin, Mrs. George Inglis of Arlington and Mr. and Mrs. R. T. Newton.

The ceremony took place beneath an archway of pink carnations and greenery. There were baskets of white gladiolas and pink carnations on each side of the arch, with candelabras on the side. Music was furnished by Mrs. Herbert E. Sowder. Mrs. Dennis Newton of Stinnett, sang "The Twelfth of Never" and "The Lord's Prayer".

The bride, given in marriage by Bill Sowder of Enochs, was dressed in a formal empire gown of white satin and Chantilla lace, with a scoop neckline trimmed with seed pearls. The long lace sleeves came to a point over the hand. The back was finished with a lace train. She had her bouquet made of pink carnations centered with a cymbidium orchid to be lifted out for the going away corsage.

Mrs. Pat Risinger of Bula served as Matron of Honor and bridesmaids were Miss Lisa Risinger, of Bula and Mrs.

Jerry Nichols, of Enochs. The matron of honor wore a pink crepe princess style with Sweetheart necklines and short puff sleeves. The nosebags were of pink carnations and long pink streamers. The bridesmaids wore the same identical outfits.

The best man was Jerry Sowder of Bula and groomsmen were Dennis Newton of Stinnett and Tom Newton of Lubbock. Terry Sowder and Pat Risinger, both of Bula served as ushers. The candlelighters were Mark and Janet Fred of Denver City.

Following the ceremony, a reception was held in the Fellowship Hall of the First Baptist Church. Mrs. Tom

Jeff Lynn Honored With Baby Shower

Jeff Lynn, son of Mr. and Mrs. Dave Lynn of Muleshoe was honored with a baby shower, July 19, at 10:00 a.m. in the home of Mrs. Randy Johnson.

The guests attending the shower were Susan Johnson, Joyce Johnson, Nelda Wilhite, Patsy Camp, Ellen Gallman, Altha Lowery, Aone Stewart, Misty Stewart, Lori Johnson, Vicky Haseloss and Jeff's mother, Vicky Lynn. There were others who brought gifts, but were unable to attend the shower.

Roberta Johnson and Donna Doshier served pumpkin and banana nut bread on a table decorated with a stork centerpiece and candles.

Everyone brought individual gifts and the hostesses were Roberta Johnson and Donna Doshier, both of Farwell. Everyone attending the shower were from the Farwell community.

Golden Gleams

Make no friendships with an angry man.

-Proverbs 22:24.

Anger makes a rich man hated, and a poor man scorned.

-Thomas Fuller.

How much more grievous are the consequences of anger than the causes of it.

-Marcus Aurelius.

LOUISA'S LETTER

Dear Louisa,
What do you think of a man who accuses his wife of being frigid when he is the cause of it himself? How can a person enjoy being close to someone who needs a bath and a shave, not to mention brushing his teeth. People and magazines talk about women and tell them they should stay clean and sweet if they wish to hold their husbands - why don't they tell some of these smelly men to take a little trouble in keeping clean themselves?
Wife-La.

Answer:
I think you have a point there. Many men are very

Newton and Miss Donna Heathington, both of Lubbock served at the bride's table. Miss Sherri Claunch of Bula and Miss Leila Roberts of Haskell, served chocolate cake and coffee at the groom's table. The table was laid with a linen cloth.

The baskets of gladiolas and carnations were placed on either side of the bride's table. The table was covered with white lace over white satin cloth. The cake was three

Tops Meeting Held Thursday

The TOPS Club had their regular meeting, July 24, at the Bailey County Electric Co-op meeting room. Mrs. Bobby Newman presided over the meeting. There were 15 members weigh in. There were not any winners for the can-can drawing. Sandra Martin had a birthday, and she drew out of the birthday box for her gift.

The Queen of the Week was Sandra Martin; first runner-up was Mrs. Dan Vinson; and second runner-up was Mrs. J. J. McDonald.

TOPS area supervisor of Plainview is planning an area workshop soon and will invite as many members from TOPS that want to attend. All members from this area are urged to watch for this meeting coming up.

The meeting was closed with a good night song and let out early because of bad weather conditions.

Next week will be measurement night.

tier white with pink roses around the sides. The top cloth. The cake was a traditional three tiered wedding cake. It was white with pink roses around the two bottom layers and sugar doves around the edge of the top layer which also featured a bride and groom under an archway of doves.

For their wedding trip to Ruidoso the bride chose a green and pink plaid dress with a matching long sleeve waist jacket.

The bride was a 1975 graduate of Bula High School and is now employed at Retail Merchants in Lubbock. The groom is a 1973 graduate of Bula High School. He has attended South Plains College in Levelland for two years and will be entering Texas Tech in the fall.

The rehearsal dinner was served by the groom's parents, Mr. and Mrs. R. T. Newton in their home, Thursday evening, following the rehearsal.

AUGUST WEDDING PLANNED . . . Mr. and Mrs. Sam Richards of Friona, announce the engagement and approaching marriage of their daughter, Rhonda Lynn to Jerry Lynn Bentley, son of Mr. and Mrs. A. L. Bentley, of Friona. Rhonda is the granddaughter of Mr. and Mrs. N. W. Lee of Muleshoe. Rhonda is a 1975 graduate of Friona High School. Bentley graduated from Friona High School in 1973 and is employed at Crow's Meats. The couple is planning an August 15 ceremony at the Friona United Methodist Church.

TEXAS TALK by RAY DAVIS

Officials are predicting a decrease of no more than 20 percent in domestic purchase of feed grains during the current marketing year. Others are saying that an improved livestock market will cut the decrease to even less. USDA projections are for the production of about 220 million short tons of feed grains with about 165 million tons sold in the United States and another 42 million tons exported to foreign countries. According to the figures released by the Department of Agriculture, total carryover of feed grains by the end of the marketing year should not exceed 30 million tons. Although that's a lot of grain, records show it to be only about 60 percent as much as the carryover at the end of 1971. Officials citing these figures are predicting relatively stable prices for grain sorghum. Major factors which could produce a change in the situation include the extent of recovery of the cattle market and, as always, the most variable of all, the weather.

RECIPE

By Sarah Anne Sheridan

Casseroles continue to be a time-saver for busy homemakers. The many casserole combinations are innumerable.

Eggplant Casserole

- 1 small eggplant
 - 4 medium tomatoes, sliced
 - 2 medium green peppers, chopped
 - 2 medium onions, chopped
- seasoning: salt, pepper, garlic salt, sugar
 1/2 lb. sharp Cheddar cheese, sliced 1/8 inch thick

Slice unpeeled eggplant 1/4 inch thick. Parboil until partially tender. Place layer eggplant slices in casserole. Add a layer of sliced tomatoes, filling spaces with chopped green peppers and onions. Sprinkle lightly with each of the seasonings. Add a layer of cheese. Repeat until casserole is filled, ending with cheese. Cover; bake 30 minutes at 400 degrees until steaming. Remove cover, reduce heat to 350 degrees and cook another 30 minutes or until eggplant is tender and sauce thick and golden.

HANGING BASKET WON . . . Left to Right are Danita Throckmorton, who won the hanging basket, Delores Kelton, representative for Decorators 216 and Billie Duncan, vice-president of Jaycee-Ettes. The Muleshoe Jaycee-Ettes donated the Swedish Ivy and Mrs. Gid Howell, owner of Decorators 216, donated the basket given away with the Swedish Ivy.

Baptist Church, Miss Debbie Dillard registered guests. Miss Lisa Bennett, daughter of the honoree, was a special guest, other special guests from Muleshoe were Mrs. J. D. Evans, mother of the honoree, and Mrs. R. G. Bennett, Jr., the honoree's mother-in-law. A Swedish Ivy hanging basket intertwined with baby rattles, cupie dolls, and pink and

blue bows decorated the serving table which was covered with a lace tablecloth over yellow cloth. Fingerprint cookies, banana punch, nuts and mints were served. Hostesses were Bonnie Carpenter, Mrs. Alton Carpenter, Mrs. Don Dillard, Mrs. David Everts, Mrs. Kenneth Ferguson, and Mrs. Kenneth King. Hostesses presented the honoree with the centerpiece as their hostess gift and also with individual gifts.

Three Way News

By Mrs. H.W. Garvin

Mrs. Carrol Fort and Mrs. Joe Batteas and children from Brownwood visited Mrs. P. L. Fort, Bonnie Long and Mr. and Mrs. E. T. Batteas, Monday.

Mr. and Mrs. George Tyson spent the weekend camping in the mountains in New Mexico.

Mr. and Mrs. Carl Miller from Canyon spent the weekend in the community, visiting relatives.

A. O. Mitchell is a medical patient in Cochran Memorial Hospital at Morton.

Mr. and Mrs. H. W. Garvin were in Lubbock, Wednesday on business and visited their grandson, Jimmy Gilentine.

Lynn Kelley 23, son of Mr. and Mrs. Truman Kelley of Beaumont was killed on a motorcycle close to Beaumont, Saturday morning and was buried Sunday at Fredrick, Oklahoma. Lynn was born and grew up in the Maple community and was a graduate of Three Way High School. Survivors are his parents of Beaumont, a sister, Gwen of Houston, his grandmother, Mrs. Fred Kelley, his grandfather, John Tyson, and uncles and aunts in the Maple community are Mr. and Mrs. R. L. Davis and Mr. and Mrs. Caton Tyson.

Mr. and Mrs. Lamar Pollard and boys from Levelland spent Sunday with her parents, the Rayford Mastens.

Mr. and Mrs. D. S. Fowler from Maple and their son, the James Fowlers and Mr. and Mrs. Green from Lubbock, spent Thursday at Pala Duro Canyon and attended the show, "Texas", Thursday evening.

The community received a very good rain Sunday night, which was badly needed.

Glen Fowler from Lubbock is spending the week with his grandparents, the D. S. Fowlers.

Raquel Guzman

Mr. and Mrs. Filemon Guzman of Muleshoe are the proud parents of a new baby girl born July 23, 1975 at 7:22 a.m. in the West Plains Memorial Hospital of Muleshoe. The baby weighed seven pounds and two ounces and was named Raquel Guzman. She is their second child.

Ricky Don Alexander

Mr. and Mrs. Leo Alexander of Muleshoe are the proud parents of a new baby boy born July 23, 1975 at 12:39 a.m. in the West Plains Memorial Hospital of Muleshoe. The baby weighed nine pounds and eight ounces and was named Ricky Don Alexander. He is the couple's fourth child.

Billy Jason Snell

Mr. and Mrs. Bill Snell of Muleshoe are the proud parents of a new baby boy born July 23, 1975 at 5:00 p.m. in the West Plains Memorial Hospital of Muleshoe. The baby weighed eight pounds and eight ounces and was named Billy Jason Snell. He is the couple's fourth child.

Think About It
 In Grandpappy's day the country could be talked into a depression. With modern progress, it now can be statistized into one.
 Enquirer, Cincinnati.

SEPTEMBER WEDDING PLANNED . . . Mr. and Mrs. Mike Duarte of Goodland, announce the engagement and approaching marriage of their daughter Martha to Phillip Yruegas, son of Mr. and Mrs. Nestor Yruegas of Needmore. The couple plan a September 20th wedding in the St. Ann's Catholic Church of Morton at 3:00 p.m. The bride-elect is a 1974 graduate of Three-Way. Her fiancé is a 1974 graduate of Muleshoe and is in the Air Force, stationed in Carswell A. F. B., Ft. Worth, Texas.

Optimism is more important to business than cash is to buyers.
 The size of a man can be measured by the size of the thing that makes him angry.

"Nobody can do more to stretch America's critical fuels than your electric companies"

Roy Tolk
Chairman Of The Board
Southwestern Public Service Company

You count on your electric company for dependable electric service.

But your electric companies can do even more for you.

By building new plants that use different fuels to make electricity, they can "free up" hundreds of millions of barrels of badly needed oil and millions of cubic feet of gas.

A single nuclear plant can produce as much electricity in a year as a gas-fired plant burning 57 million 960 thousand MCF of gas.

Almost any fuel can be converted into electricity.

Your electric company uses a generator to make electricity. And like the generator in your car, it needs to be turned by something.

In hydroelectric plants, the generators are hooked up to elaborate "water wheel" turbines that turn them.

But in most electric plants, it is steam, made in a boiler, that turns the generators.

How you make the steam is a key to saving fuels for this country.

In gas or oil-fired plants, these fuels are burned to make the steam. In coal plants, coal. In nuclear power plants, the carefully controlled nuclear reaction gives off heat that makes the steam.

How coal and nuclear fuel can take the place of oil or gas.

Knowing that it's all in how you make the steam, you can see that the way to save oil or gas is simply not to build more power plants that depend on those fuels.

With the oil and gas shortage, the industry has had a hard time getting those fuels to keep these plants going. Where available, it has been expensive.

So the idea is to shift to fuels which are more plentiful.

Coal, for instance, is now used to make about 46% of the nation's electricity. Nuclear energy only 6%.

The oil and gas saving answer is to build new plants that can use coal or nuclear energy. Both of these alternative fuels also offer important economic advantages over oil and gas. There are economies for consumers, too.

Then why haven't more electric utilities switched over to coal and nuclear fuels?

The answer is the industry is trying — but the going is tough.

The past year has been so hard on some electric companies financially that 83 new nuclear installations have been delayed or shelved. And what hurts most is that it takes 10 years to build a nuclear plant. Based on projections of the population and energy use for 1985, we need each one of the plants still being held up.

The country needs new coal-burning plants, too. But environmental restrictions have closed off much of the coal supply.

We are optimistic that the delays will be overcome and construction schedules maintained on both nuclear and coal-burning plants. We hope that a reasonable balance can be struck between our environmental goals and our energy needs.

The country has hundreds of years worth of coal in the ground and a long-range supply of uranium to rely on—these are two fuels we have in great supply. And that, to the electric companies, is fuel reliability.

Fortunately, Southwestern Public Service Company continues to be a financially healthy company, thanks to understanding customers and effective regulatory agencies, and has been able to go ahead with its construction plans.

A word about the clean burning of coal.

The electric companies favor and support the objectives of the Clean Air Act, but have disagreed so far with the Environmental Protection Agency on the best way to achieve these objectives in the burning of coal. There are a number of ways to achieve health-related air standards, and we think they all have a place.

A requirement to install unnecessary equipment will cost consumers hundreds of millions of dollars. Not to mention the possible threat to the continuity of service.

As we've said, reliability must govern whatever electric companies do.

How you can help stretch all of our fuels.

This last year, you helped by using electricity wisely, but there's still more you can do.

Shift any electrical job you can out of the "rush hour" periods to quieter times, such as nights and weekends.

If enough people do this, your electric company can often avoid having to start up an extra generator during rush hours.

And since these "spare" generators are generally less efficient than the main generators, they use more fuel.

So shifting electrical jobs can really help.

Can new coal and nuclear plants slow down the rapid rise of electric rates?

Electricity prices, like everything else, have climbed rapidly the last year and show every indication of continuing to climb.

So the economies of a nuclear plant, for instance, cannot turn inflation around, but they can slow it down. And that is important.

To sum up, your electric companies are in a unique position of being able to help stretch this country's critical fuels—specifically oil and natural gas—and keep your electric service reliable at the same time.

It's a big order, but with your help, we can do it.

Ebb Randol Last Rites Held

Funeral services for Ebb Randol, 77, of Farwell, were conducted at 4 p.m. Thursday at the Farwell High School auditorium. Grover C. Ross and Leonard Ginnings, officiated.

Randol, born April 30, 1898 in Trent, Tex., died Tuesday morning at a Lubbock hospital. He moved to New Mexico at the age of six, homesteading south of Texico with his family in 1903. He had been a minister of churches in Farwell, Melrose, Muleshoe, Ft. Sumner and Arch, and had preached throughout the area for the past 55 years.

Survivors include his widow, Genevieve, of the home; three daughters, Mrs. Carl Davis and Mrs. Hugh Edwards of Farwell and Mrs. James Spurlin of Olton, Tex.; six grandchildren and eight great-grandchildren.

He was buried in the Plains Sanctuary Mausoleum in Clovis under the direction of Steed-Todd Funeral Home.

Pallbearers were Dan Bullon, Dennis Edwards, Carl Glenn Davis II, Randy Spurlin, Clarence Meeks, W. T. Meeks, L. R. Vincent and Otis F. Bryan. Honorary bearers included the area ministers of the Church of Christ.

Just because a man is a good sport doesn't necessarily mean he's a good man.

WHO KNOWS?

1. How many bills has President Ford vetoed since being in office?
2. Name the first black to become a full general.
3. What position will he hold?
4. When did the U.S. postal service begin?
5. Who was the first American to land on the moon?
6. When did this occur?
7. Where was the first automatic parking meter installed?
8. Name the capital of Vermont.
9. Who is credited as the founder of Canada?
10. Name its Prime Minister.

Answers To Who Knows

1. Thirty-three.
2. Lt. Gen. Daniel James Jr.
3. Commander in chief of the North American Air Defense Command.
4. July 26, 1775.
5. Neil A. Armstrong.
6. July 20, 1969.
7. Oklahoma City, Oklahoma, in July, 1935.
8. Montpelier.
9. Jacques Cartier.
10. Pierre Elliott Trudeau.

SCHEDULE OF EVENTS

MONDAY	JULY 28
12 noon	Jaycoes XIT
TUESDAY	JULY 29
12 noon	Rotary Catholic Community Center.
7:30 p.m.	OES Masonic Hall.
	Rebeka Lodge, Odd Fellows Hall.
WEDNESDAY	JULY 30
7:30 p.m.	Demolays, Masonic Hall.
THURSDAY	JULY 31
5:30 p.m.	Weight Wathers First Presbyterian Church
6:00 p.m.	TOPS Bailey Co. Electric Meeting Room.
FRIDAY	AUGUST 1
6:30 a.m.	Kiwanis Club.

Any upcoming community event for Schedule of Events please report it to the Journal office.

Sorghum Situation Uncertain

COLLEGE STATION -- Although the sorghum harvest is making good progress over South Texas and harvesting is expected to start in Central areas soon, the price outlook for the crop is still uncertain.

"We expect sorghum prices to remain under the pressure of large feedgrain crop prospects for much of the summer," says Roland Smith, grain marketing specialist for the

Texas Agricultural Extension Service. "However, rumors of pending large foreign purchases may be sufficient to override the negative price effects of the large crop. Unless substantial purchases do occur, we would expect Central Texas prices to average near \$3.60 per hundredweight in late July and August. Sorghum prices in the Panhandle could range from \$3.95 to \$4.20 for

the same period.

"Although the carryover from last year is expected to be small by this fall, the price that farmers receive for their new crop of sorghum will hinge greatly on domestic and foreign demands," notes the Texas A&M University System specialist.

A large harvest is in prospect in the United States and in Texas where sorghum acreage is up considerably as many farmers switched from cotton. On July 1 the 1975 U.S. sorghum crop was projected to be be-

tween 860 and 900 million bushels while the corn crop was estimated at 6.05 billion bushels.

"Some increase in livestock feeding is boosting the domestic demand for sorghum but this increase has been limited to now. But, a big

question mark for sorghum is the export situation," contends Smith.

"If Russia's feedgrain crop has suffered as much from dry weather as some people think, then exports to that country will certainly bolster the sorghum market. Also poor weather

has set back feedgrain crops in Argentina, a major exporting country."

So, feedgrain exports may begin to increase as the big U. S. crop starts coming in.
