JA COWPUNCHER GETS A BREAK

CANYON, Feb. 28.—Replicas of real Indians and real cowboys are going to inhabit the museum of the Panhandle-Plains Historical Society here.

Chief Sky Eagle, realistically done in plaster of paris and war paint, stands near the huge mounted buffalo.

And soon a model of Fred Scott, former JA ranch cowboy, will stand beside an array of old saddles, in full regalia of the range. Casts of Scott were made recently by Harley Goettsche of Higgins, a Junior in West Texas State College who is highly skilled in the making of life-like models. Scott's right hand will rest upon a Goodnight saddle and in his left hand will be a lariat.

Scott is regarded as a typical cowboy, as indeed he was for 18 years. He quit the JA outfit in 1895, and in 1900 moved to Canyon to school his children. Now 75 years old and the operator of a filling station, he is in good health and is very active. Goettsche has commended his patience and his interest in the project.

OLD RECORDS TO BE COLLECTED FOR MUSEUM

CANYON, Feb. 28.—Collecting of historical records for the museum of the Panhandle-Plains Historical Society through a West Texas State College sponsored WPA project will start this week and gradually will be extended to 26 plains counties.

Direction of the workers has been entrusted to Mrs. Winnie Davis Hale of Amarillo, the supervisor. The sponsor's superintendent is Dr. L. F. Shetty of West Texas State College.

Potter county will be the first to be combed for public and private records, relics, and heirlooms of historical value. Blocks of four or more counties likely will be worked at one time so that the supervisor can give close attention to the work. Mrs. Hale formerly was supervisor of the Federal Writers' Project in Amarillo.

The historical project will involve no original writing, but much collecting and copying. Only WPA workers are eligible for the employment. From six to ten will be used in each county. A grant of \$26,000 makes the project possible.

The museum now is the depository for historical, archaeological and paleontological materials collected in three federal projects bearing these names. The collections will make the museum a rich field for research. Enlargement of the museum soon is becoming imperative because of the mass of new materials being assembled.

Longer Staple Means Three Million Dollars More to Texas Farmers

COLLEGE STATION, March 1.—The 1-32 inch increases in the staple length of Texas cotton in 1938 over that of 1937 meant better than \$3,000,000 to farmers, according to H. H. Williamson, director of the Texas A&M College Extension Service.

The 1-32 inch over-all increase in staple brought an additional 20 points in price, or \$1 per bale, he explained.

The 22,589 farmers in the 213 one-variety cotton communities, with less than 7 percent of the 1938 Texas cotton acreage, cut more than a third of the \$3,000,000 melon for themselves when their quality cotton brought in an extra \$1,139,211.

With the 632,897 acres in organized one-variety cotton blocks bringing in almost \$2 an acre extra through increased staple length and care in harvesting and ginning, the director estimated that Texas cotton farmers would have received an additional \$16,040,206 from the 1938 crop had all of the 9,153,000 acres planted to cotton been similarly handled.

"In other words, Texas farmers missed a sixteen million dollar bet in 1938," Williamson said.

Increased price for their quality cotton was only one of the benefits members of one-variety cotton associations reaped during the past year, he pointed out. For one thing, county agricultural agents reported that varieties used in the blocks yielded an average of 37 pounds of lint per acre above the state average of 164 pounds.

Homer Mulkey was in Amarillo Monday on business.

FORT WORTH, Feb. 22.—The Texas Poultry Federation will immediately begin a statewide membership campaign, it was announced here today by the president, John B. Collier, Jr., upon his return from Austin where he attended a meeting of the officers and directors of the organization.

A. H. Demke of Stephenville, executive secretary-treasurer of the federation, and other officers will be in charge of the campaign.

"We have the unqualified endorsement of Governor W. Lee O'Daniel in attempting to carry out the plans of the organization," said Demke. "The Governor told us at the Austin meeting that the program of the Texas Poultry Federation which is to promote all phases of the poultry industry in Texas is in line with his program to industrialize Texas."

"It was the Governor's opinion that not only the poultry and allied industries will benefit from our campaign but that many other businesses will be helped."

Besides Demke and Collier the officers of the federation are D. H. Reid, head of the Texas A & M poultry department, first vice president; W. W. Cardwell, Luling, second vice president, and Ross M. Sherwood, chief of the poultry husbandry department of Texas Agricultural Experiment Station, third vice president. They and the following are directors: Mayor Tom Miller, Austin; W. A. Siedel, San Antonio; H. H. Drumm, Brenham, and I. Commer, Hamilton.

Mrs. Inez Austin left for her home in Longview, Texas Friday after visiting her daughter, Mrs. R. R. Dawkins and Mr. Dawkins.

Congratulations . .

Stock Feeding is an industry that affords a home market for both stock and feed, and employment for those engaged in the work. It is a "Farm Pay Roll" that means success when properly handled.

You young fellows are doing a mighty fine work in finishing off the best in Herefords, Hogs and Sheep. You offer proof of a possibility within the reach of most any stock-farmer.

RIGHT ON THE BARREL HEAD

There is so much class legislation pending before the lawmaking bodies at Austin that the matter is truly alarming. The common people of Texas hold the balance of power. One letter, postal or telegram from a voter is more powerful than two lobbyists, and Austin is full of professional lobbyists. Your representative and senator will appreciate knowing what you want them to do. Knowing that fact, they know what you will do if they ignore your wishes. The great trouble is that people grumble but never let their representatives at Austin know what they want done.

Write, wire or phone Gov. Lee O'Daniel, Senator C. C. Small and Rep. Gene Worley. Address each of them Capitol Station, Austin, Texas, when writing. A postal will do. The poorest can spend three cents for postals to write to these men. Your interests demand that you do something.

The comment below gives you—the average citizen—an idea of what is going on. It is now up to you to do what you think best about the matter.

Your club women, H. D. club women and others should protest by petition. You can help keep the prices down. Many of these bills mean a higher price for the consumer to pay.

The lawmaking bodies are in session now. Below are a few of the most vicious class legislation bills. If you hear of any more, include them. Below we name seven class legislation measures. Prices are too high now. Hidden taxes is the principal cause. If the large chain stores are permitted to force the smaller merchant to raise prices, it means ruin for the small store owner and higher prices to the consumer.

Here is the Class Legislation that Will Harm Texas:

The Fair Trade (Price-Fixing) Practice Act
S. B. 40 by Spears of San Antonio.
H. B. 231 by Reader of San Antonio.

Unfair to consumers, this law will fix and raise prices in every store in every town in Texas. It will kill business enterprise, retard industrial development, and make opening new businesses almost impossible. It gives the manufacturer power by law

to fix retail prices on his product. His minimum must be set so high that prices will "freeze" at that level, and will absolutely destroy ALL local competition because price as a factor will disappear. The law invalidates anti-trust laws.

The Anti-Discrimination (Price-Fixing) Act
H. B. 160 by Morris of Greenville.

By prohibiting sale of goods at less than 6 per cent above cost, this law is the opening wedge for increases in this prohibitory limit. Even the 6 per cent clause will immediately raise prices on fast-selling staples like sugar, rice, flour, bacon and compounds. The law is a penalty on poverty. Its provisions require that a merchant be held guilty until he proves himself innocent, thus reversing customary legal procedure. This law will react against under-financed merchants, many of whom are now supporting it, in the long run by freezing their operations. This law eventually will kill the price factor, too, and destroy local competition.

The Optometry Bill
S. B. 138 by Burns of Huntsville.

H. B. 410 by Keith of Sherman
This law will PROHIBIT any kind of price advertising, free examinations, or guarantee of services or material. It will prohibit a jewelry store from operating an optometry shop, will create a monopoly for established optometrists, and you will be forced to pay from 5 to 10 times as much as you are now paying for optometry work in Texas.

The Medical Practices Act
S. B. 74
H. B. 148 by Thornton of Galveston.

Sec. 6, Article 6 of this law prohibits use of advertising. It will legislate out of business every chiropractor in Texas.

The Public Health Bill
H. B. 148 by Thornton of Galveston.

This law will work the same as The Medical Practices Act.

Bill to Abolish the Liquor Control Board
H. B. 261 by Hardin of Prairie Hill.

This law will place control of the liquor business in the hands of county officials, will tend to make liquor

Roger A. Burgess of Perryton a local political football, lead to graft and malfeasance.

2% Luxury Tax
H. B. 461 by Dwyer of San Antonio.

This bill levies tax on retail sales of personal, tangible property and on certain enumerated services such as telephone and telegraph messages, cleaning and dyeing, laundries, entertainments, railroad fares, and electricity and gas services, all of which will fall for the consumer to pay when he is already paying over half of his wages for such tax.

heads the construction committee. With him are C. M. Rogers of Amarillo, George Heath of White Deer, Lee Vardy of Turkey, H. T. Burton of Clarendon, W. A. McIntosh of Borger, and Una Brooks of Amarillo.

METHODIST
CIRCUIT NOTES

J. G. Walker, P. C.

Had two services at Lella Lake Sunday. Attendance was too small. Glad to have brother and sister Allen and some of their people with us in the afternoon service. Trust that they will be with us often.

Jesus could not make people come and follow Him. He wept bitter tears as He uttered these words: "O Jerusalem, Jerusalem, how oft would I have gathered thy children together even as a hen doth gather her brood, and ye would not."

Because they would not, one day the walls of Jerusalem were battered down by Roman soldiers. Because they would not, the Jews have been a wondering people ever since. Because they would not, may be the cause of their persecution in Germany today. Because they will not, is why they are not Christians to-

day. Because they will not is why Lella Lake is not a live church today. Because they would not is why the church took a downward move. Because they would not is why the building is so dilapidated. Because they will not is why it remains so. Because they will not is why seats are vacant at worship service. Because they will not is why the pastor's heart is crushed down.

If we do not have a revival it will be because the people will not. We have the people of Lella Lake. They have not altogether neglected us. We are recipients of their friendliness to-night. As we write this, the norther is puffing hard against the room, but it is warm and pleasant on the inside. Lella Lake bought the canvass, paper, tacks, paste, window-shades and glass for windows. They also furnished labor to remodel and repair the room. We would feel wickered if we did not hold them dear in our hearts. Why people do these good things and neglect Jesus and His church? Each reader try to answer this question.

The attendance at Naylor is the

evening was good. Much room for encouragement. The pastor did his best trying to preach. Believe we have something started there. Come and see.

We are looking forward to Ashtola next Sunday when we will be in Ashtola. Believe we will have good attendance and fine services. You are cordially invited.

UNCLE SAM HOLDS SACK ON BANK LOAN

CHICAGO, Feb. 2.—Stockholders of the defunct Central Republic Bank and Trust Co. must pay \$14,000,000 of double indemnity assessments to the Reconstruction Finance Corp. as partial repayment of the famous \$90,000,000 "Dawes loan."

The United States Circuit Court of Appeals ordered the payment in a ruling upholding a District Federal Court decision made in 1916. A 32-page decision, written by Presiding Judge Evan A. Evans, with the concurrence of Judges Will M. Sparks and Walter Treanor, criticized the RFC for lending such a huge amount "without adequate security and full investigation."

There was "no excuse or justification" for the loan, the ruling said.

Having lived in Donley Co. most of my life I am naturally a Donley County enthusiast, and can not resist boasting Donley county. The past Monday we had every variety of weather. Early before the sun arose it looked like Xmas, with every thing covered white with ice. Then when the Old Sol made his appearance the ice melted and everything had the appearance of a lovely spring day. Later it turned colder and snowed for awhile, after which the sun came out, and then it looked awhile like a Panhandle sandstorm was in view, that passed and for a few minutes it was sunny like an April day. Laundry hanging on the line at this time was frozen stiff by four o'clock, and by bed time everything was white with snow.
