### Clarendon wins homecoming game

It was Homecoming 1982 at Broncho Stadium last Friday night, complete with moms and mums, currents and exes, court and queen, foes and fans. And, oh yes, a football game.

And quite a game it was! Clarendon defeated highly respected rival Childress for the second year in a row, this time by the score of 7-0.

The Broncho defense played superbly, bending at times but always coming up with the big plays and never breaking. The maroon marauders have now allowed only 13 points in the last four games.

On offense, the Weather-ton cousins, David and Glenn, combined for 228 yards rushing, each going over the century mark, ala James/Dickerson of SMU fame.

David finished the game with 100 yards on 18 carries (he is now averaging over 110 yards per game for the season), and Glenn gained 128 yards on 12 carries for his first 100+ game. "Curly" also scored the game's only touchdown.

On the first offensive series of the game, senior Fullback David Weather-ton churned, spun, and muscled his way up the middle of the tough Bobcat defense for 8 yards. But two no-gain plays forced the Bronchos to punt.

On the first play for the Clarendon defense, senior Tackle Brad McGuire, who seems to be getting better and better each week, slipped through the Bobcat offensive line unblocked and hit the quarterback, causing a fumble that was recovered alertly by senior End Ray Crump.

Taking the ball on the Childress 33, the Broncho offense then executed in succession the three phases of their vaunted veer option offense: first a dive play to the fullback (David Weather-ton gained 3 yards); then a fake dive to the fullback and a quarterback keeper (junior Dyron Howell gained 5 yards); then a fake dive to the fullback, a quarterback keeper, and a pitch to the trailing tailback (Glenn Weather-ton gained 5 yards).

With the ball resting on the 20-yard line, Howell then dropped back to pass and threw a strike into the hands of senior Tight End Ray Crump, who raced into the end zone. Unfortunately, the ball was dropped. Howell next dropped back and threw another strike, this time to senior Split End Kelly Hill in the end zone. Unfortunately, it was dropped too.

Soon facing a fourth-and-eight at the 18, the Bronchos tried a reverse to tight end. But Crump was dropped for a 2 yard loss.

Childress then took the ball and drove to their own 48 yard line, but there they fumbled the pigskin and senior End Todd Muse recovered. The next Clarendon drive ended at the 20 yard line, however.

Again taking the ball deep in their own territory, the Bobcats tried to move it out. They got to their own 40, but **Con't page 7**

### Mr. Quinn will be Donley County spelling bee chairman

Floyd Guinn, principal of Clarendon has been named to serve as Donley County's Spelling Bee director for 1983.

The National Spelling Bee is Sponsored nationally by the Scripps-Howard Newspapers and in the area by the Amarillo Globe News and West Texas State University, Canyon.

Gene Parker, director of placement at the university, and bee coordinator, announces the continuation of the educational program for the 35th year for public and parochial school students.

Rules, established by the national sponsors, say that no student who will be older than 16 by June 1 of 1983, or in a grade higher than the eighth, will be allowed to enter, beginning at the classroom level.

Each director will set the date for his respective elimination event and report the winners to the newspaper no later than April 9, 1983.

The district contest to be held in Amarillo on April 30, 1983 include champs from a 45-county, four-state area. The Bee will be in the afternoon, beginning at 1:30 p.m. in the auditorium of Stephen F. Austin Junior High School, 1808 Wimberly.

In Amarillo all of the champs will be vying for a trip to Washington, D.C. for June, beginning on the 6th, plus other numerous gifts from the sponsors.

Once again the Amarillo Globe-News is making available the study book, "Words of the Champions" for 40 cents. The newly designed book, containing in excess of

CONNIE HAVENS, Delbert Robertson stand with overall winner Bobbie Havens.

### Clarendon to defend title

The Regional Finalist Clarendon Bronchos are preparing to defend the District 2-AA title that has been in their trophy case for the last two seasons and are apparently planning on keeping it this year as they have shaped a very fine pre-district record of 4-1 including a shut out of a very fine Childress team (7-0), this was a great effort on the part of the Bronchos since Childress has been goose-egged only one other time since Nov. 15, 1971, a total number of games-137.

This was in preparation for the first district game-Shamrock, a team that is 1-4 and has played some very good teams. Phillips, Wheeler, Childress are all common to the Bronchos. It will be a challenge for Shamrock as well as the Bronchos.

This leads to a traditional rival of two teams that are going to put a lot of effort into getting off on the right foot. Shamrock has made the Bronchos work for the victory the last two years 13-7 in '80 and 26-0 in '81. So it seems that the game will be a great challenge for the Bronchos to

accept, especially since they are fighting the flu bug in addition to preparing for the Irish.

Shamrock will average just under 200 pounds a man in the offensive and defensive lines, with excellent speed and nifty running backs. They are good tacklers and have made every team work to get the victory.

As we look at Shamrock, some of their outstanding players are Gilbert Salinas, a 165 pound running back that has some of the qualities that you would find at other schools such as Wellington. He has speed, quickness, strength, toughness and football sense. Ritchie Torbet, 155 pound quarterback that can throw the football very well, also plays the monster man in their defense. Mike Gaither a 6'3" 205 tight end that according to coaches has great hands. Roger Chase (215 lb.), Brad Hensley (210 lb.), Chet Coleman (208), Kenneth Shields (189), Scott Teny (180 lb.) make up the interior line for the Irish and with this size, the Bronchos are in for a tough fight.

The Irish will be using a multiple defense such as 3-2, 4-3, wide tackle 6, and offensively they use a split back and spread to move the ball.

The starting lineup for this game are:

### Lift someones spirit with a bouquet of balloons

by Katie Dvorak

Anyone who has ever talked with Katherine Green knows at once that there is an individual with more energy than an atomic bomb, more bubble than Lawrence Welk and more imagination than Walt Disney. And this summer, her energy hath run over until she has created the ultimate comic weaponry... clowns and balloons!

Katherine will blow up latex balloons or mylar (those pretty silvery balloons) and write what ever you like upon them, in any color, put on her clown suit and sing songs to you for any occasion you name. That isn't half of it either!

Clarendon's number one clown, garbed in green and stripes on one side, green and white polka dots on the other, orange hair and a big red nose, will entertain kids at their birthday parties with finger games, songs and the usual clowning around. She will bring a bunch of balloons and sing a happy birthday song, a happy anniversary song or any song you choose. She even has 1000 special Bronco balloons to an ready to go to any game.

One occasion recently was at the college cafeteria at lunch time. Katherine took a bundle of balloons to an aspiring cheerleader and sang "I hope you make cheerleader" to the tune of "happy birthday". Everyone stood still, all noise and gulping of food halted and the pretty coed turned as red as the nose on Kathrine's face.

"This is such a happy business and it's more fun

than anything I've ever imagined doing." Kathrine bubbles out, "So far the reactions have been just terrific. The father of this little boy I just did a party for was so enthusiastic about what I did for the boy that he has already booked me ahead for his other sons' party!"

For a really special treat (getting a bunch of balloons from a clown isn't really special?) your balloons may accompany a cake, or candy or homemade bread. "I'm not artistic enough," (if you believe this, I've got a bridge to sell you) she claims, "to decorate cakes. I just make them taste good and look good."

So what else does this little clown do? Cater affairs that don't require clown suits, that's what.

Kathrine will cater special occasions such as luncheons for the Pathfinder Club, bridge clubs, showers, wedding rehearsal dinners, etc. "I've taken a course in catering from a very famous caterer in Dallas," she said "and feel like I've learned some really good tips. I've been to the Far East, Europe, the Bahamas and even studied in Mexico and lived all over the United States so I have a few good recipes and secrets I've picked up along the way to make my catering special." Word of mouth is the best way to advertise, says Green whose specialty in putting good things into mouths is a solid tribute to that philosophy.

Kathrine is a pretty intelligent clown and caterer and mother of three small children. She has a B.A. in

Spanish from Texas Tech, a M.A. in English from WTSU and she taught at Clarendon High for several years. Her great desire now is to learn some magic and get a degree in French. You never know when some Frenchman will want a magical clown with balloons that can cater crepes and mousse!

Naomi Green, creator of the clown suit, Bernie Green, helper and supporter of the clown's family and everyone who has ever run into this vibrant wall of good humor and vitality are all pleased and happy to announce the "ballooning" business of Clarendon's Clown, Kathrine Green!

Call her at 874-2313 and order some happiness today.

### Fund for Morrow's kidney transplant

Johnny Morrow, son of Barbara Morrow from Clarendon, has been battling with the kidney dialysis machines for over two years now. He has no kidneys and has been unable to accept one from any of his family. But now his name is on the top of the donor list in Houston. Johnny and his mother will have to be ready to go at a moments notice to receive a life-saving operation when his name is called.

Expenses to travel, to live and eat and pay for services will be astronomical. Measures have already been taken to start a special fund for the Morrrows to help meet their expenses.

Contact Dona Goss at the Donley County State Bank and your donations will be processed into that account.

### Tax statements late

1982 Tax Statements are being calculated for all tax entities on the same statement. They will not be in the mail or available at the office until late October.

Her Grandparents are Warren and Ruby Jewel Hardin. Her Great-grandfather is Richard Dingler.

BLANCHE SMITH celebrated her 90th birthday Oct. 2nd.

AVA NAYLOR aunt to T.E. Naylor holds up cake made by great niece Genevieve McAfee. She is 94.

### Jeremy Neil Tunnell

Mr. and Mrs. Kelly Tunnell of Lubbock are proud to announce the birth of their son Jeremy Neil. Jeremy was born October 2nd at 9:20 a.m. at Community Hospital in Lubbock. He weighed 8 pounds and 5 ounces and was 21 inches long.

Jeremy's older brother, Timothy Don welcomed his new little brother home and is anxious to begin to teach him all about being a little brother.

Grandparents are Vonna Tunnell of Clarendon and Mr. and Mrs. James Schults of Panhandle.

### VA work study

Veterans pursuing full-time training on the GI Bill or Vocational Rehabilitation Program may apply for the VA's work-study program, advised the Director, Waco VA Regional Office.

The work-study program offers an additional allowance to veteran students in return for their employment in VA-related activities.

Congress authorized the program to give needy veterans an opportunity to earn additional money to assist them in paying their own way during their school attendance and to accomplish necessary work for the VA.

Work-study program veterans can earn \$3.35 per hour (minimum wage) tax-free for work performed.

### Cotton acreage reduction

National Cotton Council President Ed Breihan said Secretary John Block's announcement of a cotton acreage reduction program along with advance payments should help bolster sagging farm income.

The program announced today by Secretary Block calls for a 20 percent reduction from the 1983 base of more than 15 million acres to be eligible for program benefits. An additional 5 percent paid diversion is offered to participants.

An advance payment of 50 percent of the expected 1983 payments will be made at the rate of 6.4 cents per pound for expected deficiency and 12.5 cents per pound for the diversion payment. Sign-up for program compliance and advance payments will begin Oct. 1, and the advance payments will be made at that time.

Breihan commended the Secretary on his action. He pointed out that the Council's Board of Directors earlier this month had requested that the Secretary use all tools at his disposal to reduce the cotton carryover to not more than 3.5-4 million bales as soon as practical.

The action had been made necessary by an unusually large 1981 crop and weak market conditions, leading to an excessive carryover of 6.5 million bales, Breihan explained.

### Bazaar to be Saturday

The "Christmas in October" Bazaar will be Saturday, October 9, from 10 a.m. to 5 p.m. in the Clarendon Community Center.

The community center is located North of Chamberlain's Motor Company on Highway 287.

The bazaar is being sponsored by the Extension Homemaker's Council and will feature handcrafted and homemade items.

The public is invited to attend.

### A Fireman's Prayer

When I am called to duty, God, whenever flames may rage;  
Give me strength to save some life, whatever be its age.

Help me embrace a little child before it is too late.  
Or save an older person from the horror of that fate.

Enable me to be alert and hear the weakest shout,  
And quickly and efficiently to put the fire out.

I want to fill my calling and to give the best in me,  
To guard my every neighbor and protect his property.

And if, according to my fate, I am to lose my life;  
Please bless with your protecting hand, my children and my wife.

### Troubled Vets

#### now have help

Amarillo Veterans Administration Medical Center has recently awarded contracts to two local agencies for counseling troubled Vietnam Veterans. According to Medical Center Director, Paul Grogan, the contracts were awarded to Amarillo Guidance and Counseling Center, 900 South Lincoln Street, and to Northwest Texas Hospital Pavilion, 7201 Evans in the Medical Center.

Readjustment counseling for the Vietnam Era Veteran is available for those Veterans experiencing a variety of adjustment problems including marital stress, difficulty holding jobs, depression, sudden rage or memory impairment. These and other kinds of problems could be related to delayed stress which has been experienced by numbers of Vietnam Era Veterans.

Vietnam Era Veterans desiring readjustment counseling should contact Carole Babb or Jem Murphy in the Social Service Department at the Amarillo VAMC, 355-9703, X286 or 297. They will be available to discuss the outreach counseling program with you and assist you with a referral to either Amarillo Guidance and Counseling or Northwest Texas Hospital. Both of these organizations have Vietnam Era Veterans and other qualified staff who will offer readjustment counseling.

The VA has invested eleven million dollars nationally in an outreach program for Vietnam Veterans who live in areas distant from outreach centers. This program has been established for Amarillo and the Northern Panhandle area since the nearest Vietnam outreach centers are in Oklahoma City, Albuquerque, Dallas and El Paso. All inquiries will be welcomed and receive prompt attention.

MR. AND MRS. MIKE NEWHOUSE

## Newhouse-Foard nuptials

Miss Rhonda Foard, daughter of Mayland Foard of Lakeview and Mrs. Ray Chambliss of Hereford, became the bride of Mike Allen Newhouse, son of Mr. and Mrs. Bright Newhouse of Clarendon, in a double-ring ceremony read at five o'clock on the afternoon of September 11th.

The Carey Baptist Church was the setting for the exchange of vows with Bright Newhouse, officiating the ceremony.

For her wedding, the bride, escorted and given in marriage by her father, chose a long taffeta ivory color gown fashioned with a ruffled neckline and ruffled sleeves. Her bridal bouquet was an arrangement of burgandy and ivory roses with ribbon streamers.

Maid of honor, Connie Lynn of Childress wore a long gown of burgandy designed with long sleeves and pleated skirt. Best man was Dennis Swinney of Clarendon.

The bride's mother, Mrs. Chambliss, attended her daughter's wedding attired in an ivory and red street-length dress. Mrs. Foard wore a street-length dress fashioned with a prairie skirt.

The bridegroom's mother, Mrs. Newhouse, wore a sky blue two piece suit. Traditional wedding music was presented by Mrs. Bennie Foard, pianist, aunt of the bride.

Following the wedding a reception was held in the Fellowship Hall of the church. Stacey Foard presided at the guest register.

The refreshment table was laid with white lace over a pink cloth, and centered with the bride's bouquet. Crystal and silver appointments completed the setting.

Alternating at the serving table were Felinda Trolinder, Paula Lipscomb, Royan McGrath, and Susan Tarr, all of Lubbock.

The bride is a 1980 graduate of Hereford High School, and a 1982 graduate of Clarendon College.

The groom is a 1977 graduate of Clarendon High School, and is now farming in Donley County.

The couple will live in Clarendon.

TODD MUSE AND JOHN Weathererton make touch-smith held "Curly" down.

Con't from page 1  
once again they failed to block Brad McGuire and he crashed into the Bobcat backfield to make another big tackle. Childress then punted to the Broncho 15 yard line.

Then the offense made a big play. David Weathererton took a quick pitch from Howell and raced outside the Bobcat defense for 56 yards. Then David took the ball again, this time on a dive play, and broke two tackles as he gained 5 more yards. A screen play to David gained 10 more yards. A score looked inevitable.

The Bobcat defense stiffened, however. A quick pitch to David gained nothing, as did a draw to David, and the 75-yard Broncho drive ended just inside the Childress 10 yard line.

The home team forced the visitors to punt again, though, and Clarendon prepared to start another drive from their own 30. But the Bobcat defense, not to be outdone, forced the Bronchos to punt also. Then the Bronchos returned the favor, forcing Childress to punt again.

Both defenses were shining. But "Curly" Weathererton broke the punting duel by blazing 52 yards from his own 10 to the Bobcat 38, again restoring the Broncho field position advantage that the home team held most of the evening. This big play was set up by excellent trap blocking by senior Tackle John Smith, senior Center Ken Dorris, and sophomore Guard Tim Cole (who was substituting for junior Arlis Thomas, who was ill).

This drive was stalled at the Bobcat 35, however, and from that point the Bronchos attempted a fake punt. Howell's pass to junior Flanker Richard Gaines fell incomplete, though.

Once again, the maroon offense rose up to minimize the effect of an unsuccessful offensive gamble. Senior Safety Brett Bryant blitzed and junior Linebacker Creed Wright stunted on first down and nailed a Bobcat back for a 3 yard loss. Then "Curly" flattened a Childress runner on a sweep toward his cornerback position.

On third down, senior Linebacker John Smith and sophomore Tackle Dean Cearly (subbing for Thomas on defense), stopped a runner for no gain. Childress punted again, into the Broncho end zone.

With time running out in the half, Howell came out passing. But the Bobcat safety intercepted near midfield and returned the ball to the Broncho 35. There was still time for the visitors to score, but Brett Bryant broke up one pass and Glenn Weathererton covered a Bobcat receiver like a blanket on another deep throw. On third down a strong rush forced the Childress quarterback to scramble for 10 yards, but then the clock expired for the half. It was still 0-0.

In the third quarter, the teams again traded punts. Childress drove the ball from their own 40 to the Broncho 18 on their second possession, however, before McGuire again made a big play on defense, chasing down a Bobcat back from behind. Then David Weathererton broke up a pass at the 10 yard line. Finally, facing a fourth-and-one from the 8, the Bobcats went for it.

The game was on the line, and the ball stopped there, on the line of scrimmage. McGuire simply refused to budge as Childress foolishly tried a dive directly at him, and Creed Wright hurried in from his linebacker spot to stop the ballcarrier for no gain.

Starting yet another drive, from their own 27, the Broncho offense produced an 18 yard gain on a David Weathererton sweep. But two passes fell incomplete and McGuire, subbing for Arlis Thomas as punter, got off a big one.

Childress proceeded to fumble at their own 38 on the next play, and McGuire recovered. A 32 yard run by sophomore

Rodney Smith was then nullified by an illegal procedure penalty, but the maroon offense came right back for another big play when Howell threw a pass to Ray Crump over the middle, moving the ball to the Childress 15.

This scoring opportunity fizzled also, though, when a keeper and two passes produced no gain and a Ray Crump field goal attempt was partially blocked by a Bobcat player.

Childress then drove from their own 20 to the Broncho 38, where a furious pass rush by Ken Dorris, McGuire, and Rodney Smith produced a sack by Dorris at the 48. Again the maroon defense forced the visitors to punt.

Starting at their own 32, the Broncho offense moved to the Childress 10 yard line in only one play: a 68 yard sprint by Glenn Weathererton on a quick pitch. Another quick pitch to Glenn from the 10 resulted in a long-awaited touchdown. Ray Crump (subbing for placekicker Arlis Thomas, who was conspicuous even in his absence) kicked the conversion for a 7-0 lead.

In the fourth quarter Childress threw a lot of passes to try to make a comeback, but it didn't work. Another big rush by Dorris, Smith, and Ray Crump resulted in a Broncho interception by senior safety Kelly Hill, who atoned for a few dropped passes on offense by making a spectacular grab of a Childress pass and returning it 12 yards to the Broncho 27 yard line.

But Childress was not about to give up. On the next play a Clarendon miscue left a Bobcat defender unblocked and he raced in to hit Howell before a handoff. Clarendon lost the fumble at their own 20.

Predictable, though, the Broncho defense rose to the occasion to preserve the victory. End Todd Muse stopped a sweep play and McGuire snuffed out a dive play. Two incomplete passes then ended the final Childress threat.

All the Bronchos had to do was control the ball for the remaining minutes. This they did, aided by a big third down play in which David Weathererton gained 25 yards.

Then it was over. And it was off to the homecoming dance for a very happy bunch of players and students, proud of their 4-1 pre-district record.

**Bronc Buster**

Hi Bronco Fans!  
The Senior Class would like to thank everyone for buying mums. The homecoming dance was a big success.

Congratulations to Kim Wilson, the 1982 Homecoming Queen, and her attendants, Patrice Shields and Linnie Salmon.

Everyone really did a super job in supporting the Broncs this week. The spirit was really high. This spirit helped the Broncs to defeat Childress 7-0.

F.H.A. Beau of the week was Brad McGuire. The spirit stick went to the seniors.

The J.V. game will be at Shamrock today. Everyone should make an effort to be there and give them some support.

Friday the Broncs will host the Shamrock Irish with the game beginning at 7:30. This will be the first district game of the season so the Broncs will really need everyone's support.

### Open house in Altus

Mr. W.E. Cain, Area Director of the Altus Marketing Services Office, USDA, Agricultural Marketing Services, Cotton Division, is announcing their annual open house on October 14-15, 1982, at their offices, 1104 North Spurgeon, Altus, Oklahoma. Hours will be 8:00 a.m. to 4:45 p.m. each day.

The staff at the Altus Marketing Services Office looks forward to this event each year as an opportunity to meet with farmers, ginners, cotton merchants, and others interested in cotton. Visitors may tour the facilities and discuss any questions concerning cotton in this area.

The Altus Marketing Services Office will also demonstrate Instrument Cotton Classing (HVI), which will be utilized for the first time this season in this office.

The public is invited.

### Sibley surprise party

Sunday, September 19, 1982, the First Presbyterian Church of Clarendon, Tx., was the setting for a surprise birthday celebration for Nonalie Sibley. When she finally arrived (after all of Mike's stalling to keep her from being too early), she opened the vestibule doors to find one whole side of the Church filled with her family. To say she was surprised would be quite an understatement.

Filling the pews were Luke Spear(brother), Houston; Margaret Thomas (sister), Sandi Blair (niece), Maris Blair (Great niece), Amarillo; Ann and Chauncey Hommel, Clarendon; Gene and Kathy Hommel, Tina, Chad and Tammy, Lubbock; Cindy and Monty Reed, Oklahoma City; Jeff and Cathy Kubiak, Somer and Aaron, Lubbock;

Frank and Terri Hommel, Christina, April and Laura, White Deer; Betty and Odell LaGrone, Amarillo; Ginger and Tommy Tucker, Amy and Chuck of Canyon; Garre and Debbie LaGrone, Hillary and Matt of Canyon; Judy and Ches Bostick and Britany of Amarillo; Mike and Judy McCully and Michael of Lefia Lake, Karen and Ray McAnarney of Pampa; JoAnn Brown and Rick of Clarendon; Wanda and Harold Root, Genia and Dan of Canyon.

During the service, Garre LaGrone sang a special number for his Grandmother. Dr. Manning conducted one of the sweetest services you could ever attend anywhere, focusing mainly on the family. Thanks again Dr. Manning and Nita, and all the congregation for so graciously moving to one side of the Church for us.

Following the Church Service, the family went to the Chauncey Hommel home for lunch and much visiting. The rest of Nonalie's surprise was having Delores Crump of Anderson Studios

there to make pictures for her album; which was her gift from all.

During the afternoon, Renae and Howie Bentley of Bloomington, Il., and Mike, Vicki and Whitney LaGrone

of San Francisco, Ca. all called to wish her a happy birthday.

The occasion was ended with a huge birthday cake and four gallons of home-made ice cream.

## LUPUS have YOU heard of it?

Lupus Erythematosus is a puzzling and unique disease of unknown cause and cure. It is more common than Leukemia, Hodgkin's Disease, Cystic Fibrosis, Multiple Sclerosis or Muscular Dystrophy, so why haven't you heard of it?

October has been declared the battle against Lupus month. It is certainly a dreadful disease to consider and to donate toward it's ultimate cure or even to help discover it's cause.

Dr. Steven N. Berney, assistant professor of medicine at Philadelphia's Temple University Health Science Center, says that the symptoms of lupus imitate other diseases so that doctors are often unaware of the disease in their patients.

"Complaints are often non-specific," Dr. Berney says. "In the beginning there may be nervousness,

fatigue, irritability, apathy. In the absence of physical findings, it is hard to determine the causes."

Doctors don't know what causes lupus nor do they know what cures it. They do know that it is an inflammatory disease of the connective tissue that supports and protects all parts of the body. A patient's immune system goes out of kilter and produces antibodies which attack its own tissue.

The disease may attack the skin first, then may settle in the joints and muscles. It may show itself in a high fever, paralysis, anemia, pleurisy, a telltale butterfly rash across the bridge of the nose, stomach pains or psychosis. It can attack vital organs, such as the heart, kidneys, lungs and brain.

No one knows why, but lupus strikes mainly at women between 15 and 35.

While the cause of lupus remains a mystery, it is known that certain phenomena will lead to lupus attacks. One of them is sunshine.

Another stimulant is pregnancy. One of the precipitators, and the most troublesome and difficult to control, is stress. Lack of rest can be calamitous as well.

What is the treatment? Dr. Allen R. Myers, chief of rheumatology at the University of Pennsylvania School of Medicine and Dr. Berney, both conservative practitioners, use aspirin therapy.

Steroids are used by their damaging side effects sometimes produce worse problems than lupus itself.

There is no data which suggests that lupus is a contagious or infectious disease in humans. There are 500,000 Americans afflicted with lupus and there is an indication that it is becoming more prevalent.

Since October is the month designated to fight for a cure for lupus, why not consider

making a generous donation to this cause. There are many right here in Clarendon who have diagnosed lupus.

To make contributions, write Lupus Foundation of America, Inc. POB 7845, Amarillo, 79109. All contributions are tax deductible and will be acknowledged by a receipt.

### Bullock reports

State Comptroller Bob Bullock Thursday sent the biggest check ever for a single month's tax collections, \$49.2 million, to 967 Texas cities as their share of the one-percent city sales tax for September.

Statewide totals are up 20 percent over last September's payment of \$41 million. The payment reflects taxable sales made in July and reported to the state by the end of August.

Clarendon's net payment this period is \$5,641.03

comparable payment prior year was \$3,562.44. 1982 payment to date is \$61,618.33; 1981 payment to date was \$56,911.40 this is a 8.27 percent increase over last year.

Howardwick's net payment this period was \$1,937.70; comparable payment prior year was \$1,758.44; 1982 payment to date is \$6,489.45; 1981 payment \$6,606.77 with -1.78 percent decrease so far this year.

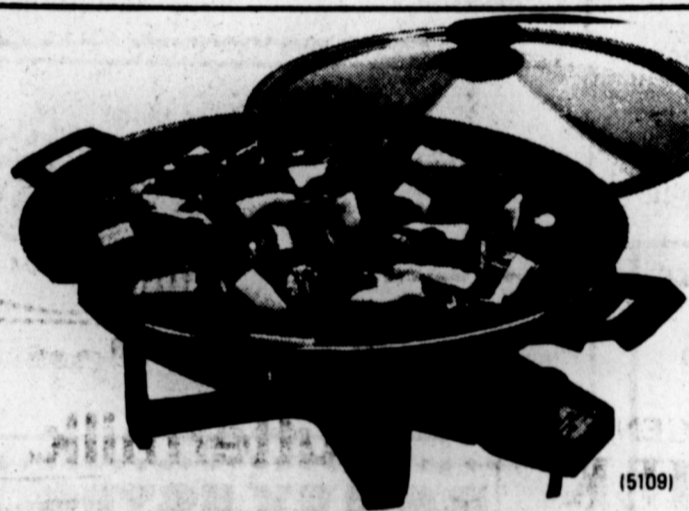

Hedley 1982 payment to date was \$3,492.30, 1981 payment to date, \$2,944.25 with a 18.61 percent increase.

## CRIME STOPPERS

The polling place is the heart of our democracy. Here, with a ballot, the people of Texas select the leaders of their government. As voters, they have the right to choose the men and women who make and enforce the laws of the State, levy the taxes, and decide how those taxes should be spent.

The voices, opinions, and influence of the voters of Texas are all recorded at the polls — with their vote.

But their vote can be stolen, as surely as a thief can steal their property, through an act of criminal vote fraud or coercion. If our elections can be corrupted through fraud or coercion, the valuable freedom of choice we have will be lost.

For the month of October, 1982, the Texas Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" on vote fraud and coercion. If you have information on this criminal activity, please call the anti-crime hotline at 1-800-252-TIPS (8477). Cash rewards are available for information leading to arrest and felony indictment of those who would, through fraud or coercion, attempt to set aside the voting process. Citizens do not have to reveal their name, just give their information, and they will be given a unique code number for identification purposes.

Help your election officials protect your vote, call 1-800-252-TIPS today.

## NOTICE OF VOTE ON TAX RATE

The County of Donley conducted a public hearing on a proposal to increase your property taxes by increasing the Tax Rate from .21466 calculated rate to .2318 a total of 8% on the one hundred dollar valuation.

A public meeting to vote on the tax rate will be held on October 11, 1982 at 2:00 p.m. at County Courthouse.

### VA burial allowance

For more than a year, the Veterans Administration's \$300 burial allowance has been limited by public law to veterans eligible for VA pension or compensation at the time of their death, and to

those who die in VA medical facilities, advised the Waco VA Regional Office Director.

The \$150 plot allowance, not affected by the change, still is available to all veterans who serve honorably during war periods.

## Darlene Ball

Darlene Ball was born and raised in Amarillo, Texas. Married in 1948 and moved to Tucson, Ariz. and lived in a look out tower, and packed all they owned by mule, bare necessities of life. So for a past time and hobby Mrs. Ball made Indian carvings using bark off of trees. Then moved to the desert, ranching and started studying sculptors specializing in the "human anatomy", statues "nudes" (Indian Statues) one piece of sculptor of an "Inca Peru Sun Goddess" was made into lamps, patio

statues and at that time sold for \$300. She studied sculptor under an associate of Ted Dr. Garcia, now world famous for his Indian art. Mrs. Ball also sketched people for many years in pastel chalk. She has been oil painting for 5 years now and has instructed the Senior Citizens in Hedley in oil painting. Her students were: Marie Bland, Inez Bland, Vera Mae Petty, Jonnie Hill, Nettie Alexander, Mr. and Mrs. Davidson, Beulah Hall, Ann Miller, Gail Johnson and Mickie Lett. Mickie has won several

ribbons on her paintings. Mrs. Ball is part Cherokee Indian and her favorite paintings are Indians, one in particular. In Indian Maiden which she sold 15 of the same painting. Mrs. Ball also gave lectures on Indian culture to

schools, 4-H clubs, F.H.A. clubs and extension clubs. Mrs. Ball's Father and grandparents, plus an uncle once lived in Giles when Giles was a big cattle shipping center. All were ranchers and farmers. So it has

been an interesting move for Mrs. Ball to Hedley, to meet people her father went to school with and his ole neighbors. She learned her father once sang Indian songs to the school.

## Quail bag limits double

Hunters in this part of Texas will be allowed to take 20 quail per day during the 1982-83 hunting seasons according to Texas Parks and Wildlife Commissioners. This decision comes as a result of quail production surveys conducted in August by Parks and Wildlife per-

## The Lions Tale

Some of the Lion Club members ate so much Tuesday that the "belly button" button on their shirts popped! Fried chicken, green beans, cooked carrots, mashed potatoes, gravy, fried okra, tossed salad, hot rolls, corn bread, fried chicken livers, tea and peach cobbler were served. It's no wonder that everyone leaves with a big grin of satisfaction.

Guests were introduced, Judge Jim Chappell from Memphis was the guest of Lion Chrystal; L.V. Smith from Oregon was the guest of Lion Fred Carter; Bill Eklund, manager of the cleaners, was the guest of Lion Jerry Chambless; Dave and Katie Dvorak were guests of Lion J.C. Woody.

Bill and Dave decided that, in spite of the type of persons in the Clarendon Lion's Club, they would join up anyway because the food was so good. They were unanimously voted into membership.

Songs were sung but song-leader Billie Ray Johnston had a little problem when someone started to loudly sing the chorus before any of the verses were sung. After the pledge and invocation, Boss Lion Paul Bivens conducted a brief business meeting.

In typical "Army volunteer style" Lion members were "volunteered" to help scrape paint and repaint the cornice and other woodwork on the old building. Three will be in a team; one to scrape, one to paint and one to move the bucket. Boss Lion Bivens will draw up a schedule for all of the Lion's work.

Jerry Chambless brought a film on dog bites for meter readers and how to tell a friendly dog from a biter. Some of us meter readers already have one good way to tell when a dog will bite...we compared scars. One rule of caution was: Never Turn Your Back on a Dog.

There were 23 members present and the four guests and Lion Sweetheart Jessie Adams.

sonnel. These bag limits do not apply to counts regulated by general or special law enacted by the legislature.

Quail season opens Oct. 30 and extends thru Jan. 30 in Donley County.

Landowners interested in improving quail production on their property can obtain an excellent booklet on the subject from the Texas Parks and Wildlife Dept. for only \$1.25.

The booklet, authored by noted quail biologist, A.S. Jackson, is entitled "Quail Management Handbook for West Texas Rolling Plains".

Although Jackson's studies concentrated on West Texas, the management techniques described in the booklet can be applied throughout the state, officials said.

To obtain the booklet, send check, cashier's check or money order for \$1.25 (tax included) to the Information-Education Division, TP&WD 4200 Smith School Rd., Austin, 78744.

## PETS AND HEALTH

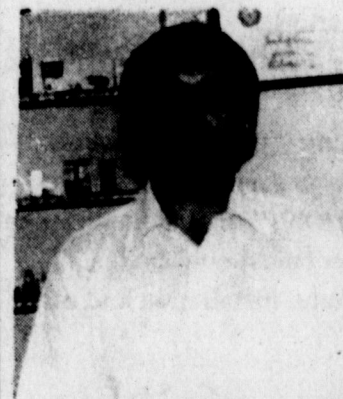

Thirty-eight percent of Americans now own one or more dogs, twenty percent own cats, and fourteen percent own some other type of pet (birds, turtles, hamsters, monkeys, snakes, rabbits...the list goes on and on). Sixty million dog and cat owners share their living quarters with their pets and several other million share their homes with other pets.

The most common problems caused by pets include allergic reactions, bites and INFECTION. Allergic reactions may be noticed as sneezing, wheezing, or watery eyes.

Bites can lead to infection resulting from the bacteria that live in the mouth of pets. The possibility of infection from bites (and scratches) can be minimized with thorough cleansing of the wound and by leaving the area open to the air.

Infections from other than bites are not as common but may be caused by parasites that are passed from the pets to their owners (fleas, ticks, mites).

Many animal health experts recommend that dogs and cats receive regular immunizations. Owners should wash hands after handling their pets and should not share their beds or eating utensils with their beloved roommates.

# IN AND AROUND HEDLEY

## Sneak preview of Weatherly floats

Some of the more blessed in Hedley were honored recently with a sneak preview of four of the famous Sue Weatherly designed and created floats that grace the annual Cotton Festival each year.

Sue's creative imagination

has soared to all time heights this year. Possibly her greatest and most beautiful creation will be revealed during the Saturday parade in Hedley. It is the opinion of this staff writer that the Little Miss Cotton float will be the most stunning float panned by Hedley citizens have ever seen.

Sue's craft has been revered in Hedley for many years.

She has been making floats almost as long as she has been around. Sue gets ideas from catalogues, has the men in town build her frames to her specifications and then, usually single-handedly, Sue locks herself up in dusty, rank, stinky, dim, forlorn barns scattered hither and yon around town to stuff cotton, kleenex, tassles, paper, glittering ropes of color and whatever else she can get her hands on into the chicken wire that surrounds the floats.

Some of Sue's floats are stored and simply touched up each year. Some are changed periodically; some are totally re-created. She has re-created the float for the Security State Bank, Bob Bell Insurance and the Little Miss float for this year.

If these floats ever left Hedley to attend local parades, there is no question, no doubt, no challenge that her floats would literally steal the show. You MUST attend the parade in Hedley Saturday afternoon to see the most colorful extravaganza ever seen in this generation.... creations from the float genius of Texas: Sue Weatherly.

that he do so, because the rear of the building was to become the permanent resting place of the Lion and Lioness floats used in the annual Cotton Festival parades.

One work night was called and it seemed that the entire town showed up to clear away debris. Messer's AG boys cleared a path through the rubble since they too have an interest in using the building.

The rear of the building quickly became an offense in the eyes of Sue Weatherly. How could her floats get through those pitifully small doors? So, one calm night, a crew of roaring Lions tied a chain around the pillar between door and once-upon-a-time window, hooked up a huge truck and pulled down the wall. Some fellows with more bravado than brains stood under the falling debris during the excitement of the moment and some wives with more concern than brains stood just out of harms way shouting "Don't get dirty! Look out!" and other helpful sayings. Meanwhile, some Lionesses with more energy than brains were diligently mopping and sweeping away, mindless of the new dust this havoc had just created. It is small wonder that things progressed at all. However, with the muscle of the Lions who hammered the bulging floors flat once again, hooked plumbing up in the tiny restroom, shoveled mounds of broken sheet-rock and bricks away, things began to take shape.

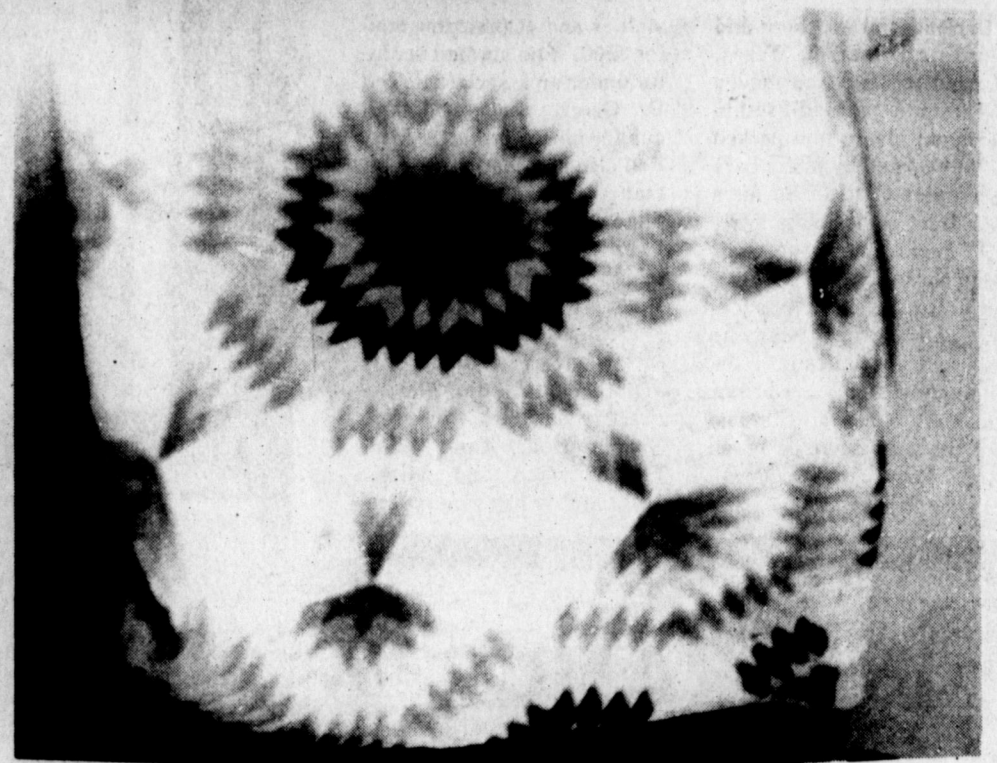

Lionesses climbed rickety ladders to wipe a century of grime and dirt off of the window, swept great clouds of dust into the air, tried to saturate it into swirls of mud onto the floor, then tried to mop that off so that the wood floors once again looked like nice wood floors. Even the smell changed from one of mildew and decay to Lysol and bananas.

There have never been so many dust covered, sweaty individuals with big white grins from dirty ear to dirty

ear working on one project together without food or beverage as incentive. Nope, these whirling dervishes worked because they had a common goal, a common cause and a community spirit that nowhere but Hedley could produce.

On October 8th everyone is invited to the Chili Supper sponsored by the Lioness Club in conjunction with the Cotton Festival. It will be held inside the clean and shining Old Post Office so you can all see what community effort, elbow grease and good fun can create. It is a miracle that only a small community with a big heart could produce. Please come by, eat with us and admire our hard work.

Thanks to Ansil Adamson and all of those tireless souls who helped out!

## Wanna play post office?

by Katie Dvorak

Everyone in Hedley, from grandbabies to grandparents turned up at one time or another to help play post office change over in Hedley. Through the gracious gift from Ansil Adamson, the former post office building has been donated to the Lion and Lioness Clubs of Hedley to be used for their needs.

A new roof was promptly placed upon the aging edifice and the funds were given from both club's treasuries readily and gladly. Adamson's son-in-law was anxious to remove the 2 X 4's in the partitions in the building and all of the Lion's were anxious

# Giles has a history that is unique and perhaps one of the most thrilling in Texas

By MRS. RUBY WATT GLASS

Giles having a history that is unique, and perhaps one of the most thrilling of any community in the 254 counties of Texas, being noted for its water supply.

I will endeavor to write a brief history of Pioneer days, incidents that happened from 1895 to the present time 1965 at Giles.

Of my experience and the experiences of men, women and children of old Pioneer days, this is no dream or idle tale, but in every sense a true history, so far as I know my object in writing this article is by request of a life long friend, Craig Johnson.

In the fall of 1895 my father the late E.H. Watt and family moved to Giles. The family consisting of the wife, two children, Fred and Rubye moved from Field, now known as Bowden about 23 miles up the Denver from Amarillo; moved to Giles in freight train, spent the night in a box car and moved into the Section house where we lived for 10 years. Mr. Watt was sec. foreman.

Mr. Watt was born in Prince Edward Island, Canada, coming to the United States at an early age. He and Mrs. Watt began their married life in Navarro County, Tex.

Mrs. Watt was born in Mobile, Ala. she was a southern aristocrat. Her father W.H. Crawford fought in the war between the states. He owned several slaves, but the war broke many of the southern slave holders.

Many interesting facts concerning the early days of Giles when it was a promising trading center in the Panhandle country.

Giles was at one time considered the largest cattle shipping point in the world. The springs in the Giles vicinity which is now Memphis present water supply was the principal reason for Giles success as a shipping point. The stock pens were located about one mile south of the Giles depot. There was always grass and water and the cattle were driven from all over the Panhandle to await shipment over FW&DC Ry, Mr. Willingham was agent and operator for the Ft. Worth & Denver City Railroad for a number of years at Giles.

Fred Watt recalls seeing 13 to 14 herds at the Giles loading pens waiting shipment. In 1895 there were very few people living in Giles. The buildings consisted of several residences, a hotel, a general merchandise store, and a post office. Mrs. E.L. Mevis was in charge of the post office. A small school house which was blown away in a sand storm, goes to show that the sand storms in the early days were very severe. After the building was blown down Mrs. L.V. Crain taught one term of school in her home which was a half dugout. The pupils were Fred Watt, Hugh, Wilma, Merle Crain, Arthur Ramson.

The pioneer women of the community got busy to raise funds to replace the school house, with untiring efforts they fostered nearly every kind of entertainment such as box suppers, masquerade balls, dances etc. They finally met with success and another one room structure was constructed by a carpenter named Otto Anderson. The first school taught in this building was under the tutorship of Mrs. L.V. Crain.

Another of the early day teachers was Miss Allie Davis. She taught a subscription school which was of two months duration, she had 8 pupils Fred and Rubye Watt, Duke Rodgers, Claude, Willard Curtis, Ruby Thaxton and Luther McKenzie. Mr. Thaxton boarded Miss Davis free of charge one month and Mr. Watt one month. Thus ended another early day school. As time went on more families moved into the community. A larger school building was necessary. By 1912 there were 112 children enrolled in the Giles school. This was sufficient until 1928, a large brick structure consisting of six rooms, an auditorium and basement, eleven grades were taught, moved 1907.

In 1911 some of the young ladies of Giles persuaded Mrs. E.H. Watt to teach them to crochet and so formed a club, met twice a month and practiced crocheting under Mrs. Watts expert experience. This club was named the Prilla Club. Later in the year Mrs. Ida Chitwood came as a Home Demonstration Agent and she taught war time cooking.

During World War I it became the Giles Red Cross workers at the close of the war the women decided to call themselves the Giles Pioneer Club which meets regular and holds the distinction of being the first club in Donley Co. to donate canned food to Boys Ranch.

1902 Judde J. S. Akers family moved to Giles from Iowa Park to his ranch four miles north of Giles. He engaged in raising registered Hereford cattle. He was the first county judge of Wichita County a true southern gentleman in every right. He was an officer in the confederate army between the states.

Mr. and Mrs. Akers family consisted of five children at home. Saddle, Lulu, Clay, Georgie, Byrda and two grand children Mayne and Jim Banta. The Akers were a great asset to Giles as they were great church and community workers.

The first religious organization a Union Sunday School was organized here in 1895 by T. B. Gardner of Memphis and one of the first sermons preached was by Emanuel Dubbs, Christian minister, Indian fighter and buffalo hunter. Minister Dubbs would come by train from Clarendon once a month to spend the weekend in the Akers or Watt home.

Preachers regardless of their denominations were asked to hold services in Giles. An old Methodist minister by the name of Lart held a meeting once a year, he was of the shouting type and always drew a crowd.

Bro. A. D. Rogers of Memphis came often to preach and in time 32 were baptized. Later, a Methodist church building bund for a church in Giles was started by a donation of \$250 from the Methodist conference, and numerous bake sales, benefits and private contributions went into the fund before it was completed, this was used by all faiths for several years. But the Methodist always felt that, as a denomination they had priority over the others, and in later years had a Methodist Sunday School which was of short duration. With better roads and automobiles people began drifting away for services at Hedley and Memphis.

Someone would brought a vase of Lilacs for the old fashioned pump organ. Every one dressed in their best. Two noted singers were to be present, Vivian Hawkins and wife moved to Giles in 1915. He was a wonderful song leader.

The organist was Rubye Watt. Albert was ask first to display his ability as a singer. He sang every thing and a plenty too. He would start on soprano and first thing you would know he was singing tenor. We've heard of children being born kicking. Well we all thought Albert must have been born singing. Then Vivian was ask to lead, all at once I laid my hands on the keys and began to play an old song, it might have been *Nearer My God To Thee*, we've heard that old song all of our lives, but didn't realize how beautiful it was until Vivian sang it. I believe we all felt nearer to God than ever before, then we used *Rock of Ages*. This turned into a singing never to be laughed at from then on, and was one of the ways Sunday evenings were spent in Giles.

The T. C. Ramsons came by way of Louisiana to settle in Giles. T. C. was of Irish decent coming Emerald Isles. At an early stage in life he met Minnie Choat. They married in Lansing, Mich. from there they moved to Louisiana, after a few years there, they moved to Giles, Tex. There Arthur, their son was born, they came to Giles about 1896 when Minnie filed a claim on section 62. They became substantial citizens of the community. T.C. Ramson was the first depot agent for FW&DC Ry in Giles. Arthur Ramson married Louis Thaxton, to bless their home one son was born Arthur Jr. He lives today on the homestead of his grandparents.

Another prominent fixture to the Giles community was T. C. Johnson. An energetic man bought land for a home and

helped put Giles on the map by buying the sand and gravel business from George Causey, pumper on the railroad.

Mr. and Mrs. Johnson were kind and courteous to everyone. Mrs. Johnson took a delight in having large crowds partake of her good cooking. The family consisted of Marie, Tom, Bill, George, Barney and Lovell. Bill and Barney were owners and operators of the Gold Rush filling station. Fred Watt recalls buying gas for eight cents at one time. Bill is now owner of Mobile Service station. Barney has a filling station and bus stop in Hedley.

The Craig family came to Giles about 1915. A farmer and devout Christian gentleman, his very attractive daughter Ruby met Bill Johnson and after much persuading Bill succeeded in claiming Ruby as his own and August 29, 1919 they were married and to this union one son was born, Craig. He grew up in Giles and attended school here. He graduated from Hedley school.

T.C.'s brother C.Y. Johnson and family was substantial people, their younger brother Albert was a singer. So the word got around singing Sunday. The church was extra attractive.

Mrs. Anna Rhine Mevis married Ed L. Mevis in Chicago, Illinois. They came to Wichita Falls, Texas there Mr. Mevis was an employee of the rail road co.

Mrs. Mevis tired of living the life of a gypsy, moving around heard of land cheap at Giles. About 1887 they came to take up land. Mrs. Mevis was asked to be post mistress, she consented and was faithful to her trust until her death, 1928.

Mr. Mevis being connected with the railroad wasn't in Giles long at a time. He was a kind hearted fellow and wanted Mrs. Mevis to go back to Wichita Falls but she loved broad open spaces and home on the range. Mr. Mevis' train was lost during the terrible Galveston flood in 1900.

When Anna Rhine married E.L. Mevis her people disinherited her, being a Protestant. Mr. Mevis was Catholic, later converted to Protestant church.

Mr. and Mrs. Mevis had no children of their own, but a friend of Mrs. Mevis had twins a girl and a boy. She died at their birth. Mrs. Mevis adopted Lyle, reared and spoiled him as if he were her own. Lyle attended school in Wichita Falls. It was there he first started his railroad career by being call boy for the passenger train and depot.

Mrs. Mevis brother Asa Rhine came from the north and made a brief visit, he was so well treated he made his home in Giles until his death. He and his sister made life happy for early settlers. Always ready to help the weak and troubled souls. Mrs. Mevis store was an early day meeting place for both young and old. It was especially a favorite with the cowboys during the shipping season. The old store was destroyed by fire August 30, 1931.

### Gin at Giles

G.G. Willingham traded several head of registered Hereford cows and some money for a gin at Newlin and moved it to Giles in 1910-12.

George Causey fired the coal burning engine and Geo. Crain ran the suction stands. Fred Watt, Clyde Willingham and another boy ran the press. This was before very many farmers raised cotton. The gin wasn't a paying business so Mr. Willingham had it torn down.

Bill Curtis killed—one of the great calamities around Giles was the shooting of Bill Curtis in 1901. Mr. Curtis owner of the Diamond Tail Ranch east of Giles had been to Kansas City with a shipment of cattle was en route to his home in Heneritta, Texas. The Curtis family lived at the ranch in summer but always kept a home in Heneritta. No one seemed to remember the name of a fellow on the train that day who had his pistol out shooting ducks as the train passed through Lelia Lake where there were shallow lakes. When he had finished shooting with no game he dropped the gun into the pocket of his over coat which he was carrying over his arm. Bill Curtis and a long time friend Bill Harrell had started to the diner for breakfast when they met the man in the isle just as they passed the man the gun fell from his pocket and was accidentally discharged. The bullet entered Mr. Curtis' body below his ribs and went upward through his chest. Mr. Curtis was taken off the train at Memphis and to the Stephens Hotel to await a special train which came from Ft. Worth to take him to a specialist in that city. Tom Curtis and his wife Idle and Mrs. Bill Curtis were notified and boarded the train at Heneritta. Bill Curtis lived only a few days. He requested his sons not to prosecute the offender who had shot him by accident. Mr. Curtis was only 53 years of age at the time of his death. Following the shooting the man jumped from the train between Lelia Lake and Giles near old Rowe. He was later picked up by deputy sheriff W.J. Owens. Lodged in jail in Memphis to be afterwards released without indictment.

### Train wreck south of Giles Stockpen 1912

Henry Franks, who owned property near the stockpens had driven some cows and calves to the stock pens. The calves were shipped out and the cows left in the pen. The cows became restless, broke out and got in truck wrecking the south bound train. The train took on water and coal at the water tank. The engineer went to Mrs. Mevis store for a snack. He said I'm going to run the wheels of to get into Childress at a certain time. He met fate before reaching his destination. Also the brakeman and fireman all met their death and several cars were derailed. The engine landed on its side on the dump.

Mollie Bailey Circus camped in Giles on the banks of Buck Creek and showed in Giles. The Bailey show was traveling by horse drawn wagons. Molly Bailey, owner and operator of the show always rode in the lead wagon with feet on the wagon bed. They cooked on open camp fire, the tent set up, Mollie took her place at the little old fashioned organ and played during the sales of tickets. This was the only music the show possessed.

Dayton Shelton created quite a sensation when he eloped with Miss Julia Crawford, a sister of Mrs. E.H. Watt. They rented a buggy and horse from Memphis Livery stable and rushed to Oklahoma, where the ceremony was preformed on the river banks. Two sons and two daughters, Lloyd, Dick, Mamie and Rubye blessed their union.

Charlie Crow, Dayton Shelton, Romeo Derrick and others made ranching their livelihood. Charlie Crow remembers Billy the Kidd. It was in 1881, he'd say, north of Roswell, New Mexico, he was just a small boy 6 years of age with his daddy William Crow. They was in a wagon to get a load of wood, they had eaten dinner and going towards home when a line rider stopped them and asked for a hand out. They had a few cold biscuits. Mr. Crow gave them to the man who dismounted sat on the ground while he ate, holding the reins all the time. Charlie noticed he had two six shooters on. One in the holster around his waist and the other in his boot leg. When the traveler finished his snack he thanked Mr. Crow before he rode out of sight. Mr. Crow said, "Son that was Billy the Kidd." Billy went on the Fort Sumner and was killed by Pat Garrett within 30 days of the Crow meeting.

While Mr. and Mrs. Watt was living in the Section house a neighbor named Howell came every night for a week to spend the night. Mr. Watt wondered why he came so often. He would insist on sleeping on the porch so Mrs. Watt made him a pallet as requested. Later, they found out that Howells daughter Mary, had eloped with Preston Smith. Howell had planned to shoot Smith when they passed the Section house, but the couple turned west at Giles. So Howell's plans were not carried out. Had the Watts known his plan they would have denied him lodging on the porch.

Another visitor who came to Giles to visit and stayed to marry and settle at Rowe was Miss Willie Crawford, a sister

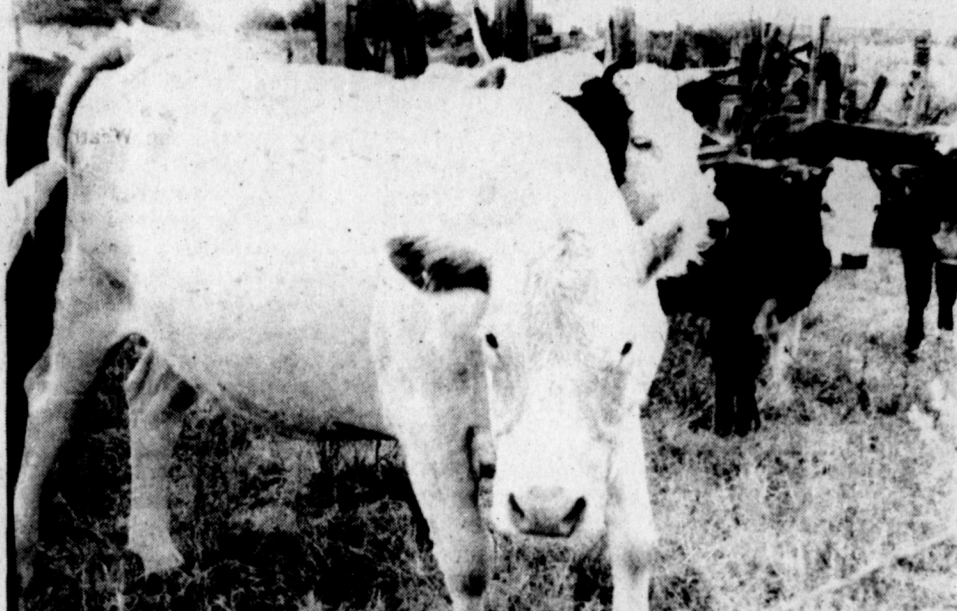

of Mrs. Watt. She had been in the Watt home about a year when she met and married W.T. Rains who had a stock farm near Rowe. Mrs. Rains a widow still lives on the place she went as a bride 60 odd years ago. The Rains had three children Mabel, Issac and Charles. Mabel married Clyde Bridges and lives near her mother, Issac lives in home with mother. Charles moved to Amarillo.

The Fort Worth and Denver City Railway ran a special train from Childress in the 1906 to bring crowds to attend the big May 30th celebration held on Buck Creek. It was through the efforts of G.G. Willingham and E.H. Watt that Giles was selected to be the site for this celebration which attracted thousands from all parts of west Texas.

The cottonwood grove just east of the depot on Buck Creek

was the picnic grounds boosting of a grand stand.

The Giles baseball team, played, which was successful in most of its games, and played exhibition games at the 30 of May celebration included—E.H. Watt, Fred Watt, Arthur Ramson, Clay Akers, Rithle Neeley, Richard Wylie, John Bishop, Charlie Shaw, Pierce Brown, Fred Watt and Charlie Shaw are the only ones of these famous players surviving. Mr. Shaw 89 years of age makes his home with his sons of Hedley—Fred Watt 78 and keeps busy raising registered Hereford cattle. He married Miss Byrda Akers in 1915. Three children came to bless this home, Lela Ruth, Fred Jr. and Virginia. Lela Ruth married Collier Heoter, home in Dumas, Virginia married Edwin Ayres and lives in Kaufman. Fred Jr. is with his father and is a prosperous young cow man.

These are the original (above and below pictures) cows given the Watt Brothers as calves 12 years ago.

## Watt Brothers Running P herd

In a time when you hear so often, "kids don't work like they used to, when we were kids" from parents and grandparents. They apparently never met the Watt Brothers, Keith, age 13 and Guy 11, sons of Mr. and Mrs. Fred Watt of Hedley.

It seems that these two young men, started off with two gift baby heifers, given to them by a friend, now own a herd of about 40 head of cattle.

The boys father, Fred, worked for Mr. Tanner, when Keith was born, he wanted to give the new baby his first calf. As time would have it, two years later a baby brother came along, and Mr. Tanner gave them each a heifer calf.

The Watt family has a ranch at Giles where Fred took Keith with him on horse back a lot to check on the cattle. After one such trip Fred came in, told his wife Peggy that he found the perfect brand for the boys calves. A Running P. It seems that this particular day Keith had an accident, Keith and Fred both came home drenched.

By the time Keith was four years old, he had his own horse, and went with his father almost everywhere. They not only worked their own 2500 acre Watt Cattle Co Bar O Bar Ranch, but helped other ranchers work their cattle. Fred said, "Guy who only weighed about 3 1/2 pounds at birth, suffered from asthma and he was unable to start riding until about age 8.

Fred and Peggy let the boys use a 360 acre pasture, they owned east of Hedley to pasture their cattle. The boys have kept all their heifer calves, but sell the steers each year. They added to their herd by buying day old calves at the feed lot near their home, they would take the calves, put them on a milk cow they keep for the family use.

As the calves were weaned they were turned loose with the rest of the cattle. The boys managed to keep all the cattle in this one pasture, except one, which insisted on returning home, finally they gave up trying to keep her with the rest of the herd, and let her stay on the home range, which is 8 to 10 miles away.

The boys decided that if they intended to stay in the cattle business, they needed a bull so they talked to their banker and he loaned them \$250, and their father sold them one of them one of his registered heretora bulls.

The Watt Brothers not only work their herd, branding, vaccinating, mending fences, feeding and keeping the wind mill working, but they help their dad with 125 head of mother cows and bale 160 acres of feed every year.

This year Keith and Guy rounded up their original two gift calves, which by this time are close to 12 years old, along with 9 steer calves and took them to market.

The boys ventured into a new business this summer, their ranch has about 2 miles of frontage on highway 287, they built a fruit stand. This time they borrowed \$500 to start this business. In six weeks time, they had sold enough produce to repay their note, pay all expenses and had \$86 each left. As long as customers came and there was no slack-time, they like the business just fine, but that waiting between customers, and just standing around doing nothing, and the fact that, they had to go to Dallas for most of their produce, made them decide that the fruit stand business just was not their "cup-of-tea."

They buy most of their own clothes, including boots and coats. Maybe not all "kids work like they used to", in grandpa's day, but bet grandpa is mighty proud of Keith and Guy Watt.

Keith is a 8th grade student at Hedley where he plays pool on the junior high basketball team and runs track. He won second in the district last year in 1600 meter. Guy is in the 5th grade this year, and is learning blacksmith from his father.
