H. D. Ramsey Rites Are Held Here This Morning

Was Leading Business Man In Clarendon Many Years Ago

Funeral services were conducted at the First Baptist church here at 10 a. m. today for H. D. "Buck" Ramsey who died in a San Antonio hospital early Tuesday. Rev. J. Perry King, the pastor, had charge of the services.

He is survived by his widow, Mrs. Adelia Ramsey of San Antonio; a brother, Forest Ramsey of Ardmore, Oklahoma, and Mrs. Emma Southern of Compton, California. Mrs. Genoa Doshier of Amarillo, widow of Geo. Doshier, a former sheriff of this county, is a niece.

As a special mark of respect to the memory of Mr. Ramsey, all three of the Clarendon banks remained closed today from 9:45 a. m. to 12 o'clock.

As a young man, Mr. Ramsey entered politics in Donley in 1902, and was easily elected county treasurer. Later he became a druggist for several years. Successful as a business man, he invested in stock and later became president of the Donley County State bank.

A prominent church worker and member of the Baptist church from early in life, his benefactions were many. Old timers often went to him for a loan in a pinch and got the money. He joked about the matter with the writer a few years ago while on a visit here. "They always paid it back," he said. "That was the trip here when he preached at the Baptist church. He had a large congregation and made an excellent talk filled with human kindness and appeal."

For more than twenty years he had resided in San Antonio. Even at that, he made many trips just to see old friends and really enjoy life as he wished. Old residents of Clarendon remember him kindly and speak of Buck Ramsey as a real man during his long residence here. He was a little past 80 at his death.

PIONEER PREACHER IS VISITING HERE

Horseback And Saddlebag Trips Made When Few Lived in West

It was around forty years ago that Rev. G. A. Oller began preaching to the sparsely settled districts of West Texas. He has spent practically all that forty years in West Texas as a Baptist minister.

He came to Texas 62 years ago. He recalls being in Clarendon in 1870 when saloons flourished and men rode into saloons and fired their guns in frontier fashion. In discussing that phase of frontier life Monday, he was positive in stating that he was "mighty glad that day was gone."

He is now 83 years old while Mrs. Oller is 75. Both have done team work in keeping the Baptist minister in the field ministering to a people who were served only by those ministers of strong faith and much perseverance.

Rev. and Mrs. Oller are guests of their daughter, Mrs. Bill Crawford and family. They expect to remain here over the Fourth to enable them to see old-timers whom they called "neighbor" in the years long gone.

WEST POINTER VACATES

The lowest tax rate since 1926 is a pleasant announcement by Mayor Connally this week. The rate this year will be one dollar a hundred.

The rate last year was one dollar and twenty cents.

The above rates are based on valuations after being given an official ok by the Board of Equalization June 13th.

Surviving is the widow who lives at Monahan where she deceased was in the grocery business.

YOUTH IS KILLED BY BOLT SATURDAY

Funeral Rites Are Held Monday At Methodist Church Here

Directed to bring up the milk cow about seven p. m. Saturday, Ovell Davis, 13, left the house going in the direction of where a cow was staked some distance from the house.

After some thirty minutes had expired and the youth did not return, his father went to see what was wrong. He found the son lying on the ground with his face burned, clothing torn and the left shoe torn from the foot. One glance and the distressed father realized that his son had met death by lightning.

The father tenderly gathered the lifeless form in his arms and started for the Pink Rogers home nearby. Here help was secured and the trip was hastily made to secure aid of a physician, but of no avail as death had probably been instantaneous.

Funeral services were held at the Methodist church at 10 a. m. Monday. Rev. H. C. Gordon, the pastor, was in charge. He was assisted by Rev. J. Perry King, pastor of the First Baptist church. Interment was made in Citizens cemetery.

Relatives of the mother from a distance came to aid in any manner possible. Others were present. Friends and neighbors from the Goldston community where the family had resided on the Chas. F. Risley farm, were present in large numbers.

Besides the parents, Mr. and Mrs. Tullis C. Davis, there remains Odell Arvis and Glenda Sue of the family of children to mourn the passing of the son and brother. The family resides in the old Canteon home.

NEAR TRAGEDY IN LONG NIGHT DRIVE

Pigs, Onions And Canned Goods Scattered When Truck Overturns

On his way from Dallas to Panhandle with a mixed truck load, he went well with G. S. Sneatheln until he reached a point near the Frank Brown farm some three miles west of town about 2:30 a. m. Saturday.

At that point the truck got out of control and turned over. He and his sister-in-law, Mrs. W. A. Sneatheln, were badly shaken up, and his back was wrenched to the extent that he was taken to Amarillo for treatment.

The pigs escaped unhurt, later being found at the J. T. Mayo farm where he had penned them for further directions. Onions were scattered about the highway, so was linseed oil, canned goods and a trunk containing personal effects.

Sneatheln's home is said to be at Frisco, Texas.

RURAL ELECTRIFICATION TO BE EXTENDED SOON

The Rural Electrification Administration has given preliminary consideration to an application of the Hall County Elec. Coop., Memphis, Texas, for an additional loan of \$125,000 to extend 150 miles of rural lines to serve some 425 farms in Hall and Donley Counties, and has outlined the steps which must be completed before an allotment of funds can be made.

The original application covered 110 miles to serve 289 members. REA has already allotted \$98,000 for this project.

It will be necessary for the project sponsors to obtain and submit signed applications for membership in the cooperative as well as applications for electrical service from it; also obtain signed easements for the right-of-way for the power lines, and prepare and send to REA a detailed map of the proposed extension.

Rain! Rain! Rain!

Official rainfall reading of Joe Goldston shows that .95 of rain fell here today between 7 and 10 a. m. This added to that of Tuesday night makes a total of 3.43 for the week to Thursday noon.

Burglars Overlook Money

Upon opening the doors of the Palmer Motor Company this morning, Elmer Palmer found the safe had been torn open. The burglars had made a diligent search for money by opening the tin box inside and searching the various other receptacles but overlooked what money the safe contained. It was under a clip in plain sight.

The only loss was \$6.79 taken from the cash register, the machine being damaged when it was pried open.

Entrance was made through the west garage door in the rear. The front of the safe was demolished evidently with two crowbars and a sledge hammer found near the safe. To deaden the noise, the safe had been laid on auto tires.

BAPTIST CHURCH IN LELIA LAKE MAKES PROGRESS

Membership Constantly On Increase And More Room Made For Sunday School

When asked for a statement of the progress of the Baptist church in Lelia Lake of which he is pastor, Rev. V. W. Allen, summed up the achievements during his pastorate of 28 months.

"But first I want to mention the very fine Father's Day service we had Sunday," the minister said. He said reports from the Sunday school teachers gave a resume of their accomplishments for the year to date, and what they hoped to do before the end of the year.

The treasurer's report revealed cash collections of \$3,500.00 during the past 28 months. During the same period, exclusive of the above, two Sunday school rooms were built and paid for by contributions.

"We have a very efficient B. T. U., and still running close to the Sunday school in number," the pastor said.

During the 28 months under the work of the present pastor, there has been 104 additions to the church, 57 of whom came by baptism.

A cordial invitation is given by the pastor to any one who wishes to worship with them in the Lelia Lake Baptist church.

MUMPS SPOIL CALIFORNIA TRIP MONDAY MORNING

The contagious illness generally regarded by custom as of little consequence, can make a lot of folks a lot of trouble some times. Just such a thing happened in the Midway community Monday morning.

Miss Billy Ruth Wills of Atlanta, Georgia recently arrived to spend some vacation time with relatives in the J. A. Meaders home. A trip was planned to California where Mr. and Mrs. Bill Meaders and children live. There was much joy in the planning. Then what happens? The mumps!

In addition to having the mumps, Miss Wills is most disappointed in that the trip plans were dropped. She cannot journey across the continent just now. Others who had planned to go were Mrs. J. A. Meaders, Misses Katie Meaders, Virginia, Jane and Mary Ellen Williams.

LIGHTNING STRIKES BARN ON CAP MORRIS FARM

During the electrical storm Saturday afternoon late, lightning struck the large barn on the Morris farm near Sunnyview, formerly owned by W. K. Davis.

The barn was immediately consumed by fire with the loss of some fifteen tons of maize and other feed, harness and other farm equipment.

The farm is being managed by Arthur Davis, son of W. K. Davis.

About an hour later, lightning struck the barn of W. K. Davis at his home place. The top and a portion of the side were torn away, it is said, but the structure did not take fire.

UP FROM BRAY COUNTRY

Ben is a brother of the late lamented Olin W. Kyser who passed on last fall. He was one of the very finest characters a fellow could meet and his visits to the Leader office are sadly missed.

Cannons Celebrate On Father's Day

The Cannon family dote much on the family reunion idea. They get together and pass the flowers to the living in that wholesome manner so much appreciated by real folks.

On Father's Day, Mr. and Mrs. J. F. Cannon were at the home of their eldest son at Balls. All the children of this fine couple were present except one, Jim Cannon.

Present were Sam Cannon and family from Vernon; Joe Cannon and family of Electra. All the children residing in and near Clarendon were there. Mrs. Hulda Wilson of Memphis was present as she always is on these occasions.

Then from Lubbock came Mr. Cannon's brother and family. Friends from Levelland showed up for the celebration. More came from Plainview.

Being a bit old-fashioned, they had dinner at the noon hour, and it was a real dinner. Mr. Cannon stated Tuesday. After eating, the crowd amused themselves with taking pictures, singing and talking over past history connected with the ones represented at the joyful gathering.

CLARENDON MEN ARE MAKING TOUR OF MOUNTAINS

Jimmy Watters of the Clarendon food store force, and Maurice Lane of the Clifford & Ray store force were the fortunate young men. Both earned the vacation in the estimation of their employers and numerous friends. "We want to get out in the wilds, camp out and have a real rest," Maurice stated as the single-handed freight motorcade headed into the hazy west. They expect to be gone some two weeks.

MAYOR OPERATES WHEAT ELEVATORS IN MOORE

While the crop is said to be spotted in many instances, that of Moore county is doing pretty well, Mayor Connally stated Sunday.

Mr. Connally is spending all his time near Sunray where he owns and operates two wheat elevators. He has bought wheat in that section for many years.

Others have estimated the wheat yield at eight to sixteen bushels per acre as it is being harvested.

Sand blown fields denuded of early crops by high winds over a two week period, became temporary lakes Tuesday night. Reports from all portions of Donley county show the rainfall to be general with no wind or hail damage. The fall was fairly gentle resulting in little or no erosion except in rare cases.

Farmers swarmed into Clarendon and Hedley early Wednesday in their eagerness to prepare all tractor and planting machinery for instant planting when the fields become dry enough to permit of plowing. Especially noticeable was the demand for tractor lights to permit a twenty-four hour schedule.

The rain began in some parts of the county Monday, but became heaviest late Tuesday afternoon and lasted practically all of Tuesday night. The official register in Clarendon showed a fall of 2.48 up to 6 a. m. Wednesday.

The flood control dams on Clarendon's water shed held back the water, feeding it through at a rate that enabled the city ditch through town to handle it with ease. The ditch stood at the same level for hours, finally lowering about 4 p. m. Wednesday.

Farmers questioned from all sections of the county told the same story. In many fields where blowing soil was protected by stubble or other rubbish, early plantings were off to a good start. But the moisture "met" as testified to by several who made a posthole digger test.

The Levelland area had a fall up to ten inches in some places, and a good rain fell over the entire area. Other reports are:

Panhandle 3 inches, Claude 2.56, Clarendon 2.48, Childress 1.90, Dalhart 1.20, Dimmitt 2.21, Dumas .55, Fallett .60, Hereford 1.44, Memphis 2.02, Miami 1.88, Pampa 1.57, Plainview 2.44, Stratford .48, Boise City .42, Hollis 2.80, Woodward .60, Elk City 1.50, Conway, Groom and McLean 4, Tulla 2.75, Kress 4, Huppy 2, Dimmitt 1.20, Amarillo 4.42.

A storm in the Shallowater section injured five persons and partially wrecked several homes. Most of the damage resulted in that area 12 miles northeast of Shallowater. The rainfall is said to have approximated 6 to 10 inches there.

MEMBER OF PANHANDLE PRESS ASSOCIATION

IDLENESS A CURSE.

Among my valued friends are two men who are following a profession that has much work among boys. One of them told me recently that recreation was not solving the boy problem. They need work—sweaty work—and a reward for their labors.

Boys evidently do not need so many swimming ponds, tours and libraries as they need plain jobs. That may sound crude in this young-bring-the-duck age, but recall that practically all the great men of all history were workers. They knew how to sweat. They preferred exercise to physis.

Boys have to have a home environment of the better kind. And when we get to thinking about home, the mind just naturally wanders around to the smokehouse where hangs the hams, and the ash hopper. Lye leached from wood ashes in that hopper and made into home-made soap certainly got the dirt.

This is no ash-hopper age, either. We've gone far beyond that. The old idea of a smokehouse is being woefully neglected—so are boys. Have you noticed the difference in the quality of farmers? Take for instance those who raise stock. Those men were hard-working boys one time. The breeding of high-class stock—cattle and hogs—is no fool's game. There is a hundred angles to stock growing. You have to know back-ground, color, size, quality and a lot of other things.

The greatest phenomenon in America today is our indifference to idleness. The happiest people are those who work for what they get. The happiest period in the Nation's history was when the people had jobs—just plain ordinary sweaty jobs at fair wages.

EDITOR WARWICK SAID IT. The Newsman attended the con-

vention of the Texas Press Association at Lubbock Thursday and Friday. Lubbock certainly did everything possible to entertain royally the guests. The attendance was a great disappointment. Those fellows from down state expect Panhandle publishers to attend meetings 300 to 500 miles away, but hesitate to attend them when held out this way. There were a few high spots on the program, but on the whole the program was not so good as the one held annually by the Panhandle Press Association. After all no place produces such fine newspapers and such superior newspaper men and women as does West Texas.—Canyon News.

POLL TAX FOR WOMEN DREW PROTEST

Women were first assessed a poll tax as a requirement for voting in 1922. Many of them valued the price of a poll tax, \$1.75, more than the privilege of voting 'against' some one, as many alleged their husbands did.

Then another law came along to require the payment where real estate was owned by husband and wife. Her poll tax was assessed against the real estate just the same as the husband.

All was not well in hubby's domain. In fact a number of them right here in Donley county signed a petition of protest in 1926 and presented it to the commissioners court. No results. The same protest shows of record in the county capitol for the year 1927. No results again. That was the beginning of this tax-paying hysteria that we are now experiencing, but no one has the temerity to protest because it does no good.

UNITY AND STRENGTH

A father in one of Aesop's fables, wished to prove to his sons that unity is strength. He asked each of them to break a single stick, which they did with ease. However, when he gathered several sticks into a bundle, none of the sons could break it.

The same principle of unified strength applies to our country's progress and prosperity. As long as separate groups such as business, labor and government stand alone, the structure is weak.

But when all groups decide to go ahead together, nothing in the world can stop us.

"I thought I knew all about automobiles!"

A LOT of folks have had their eyes opened wide by a ride in a 1939 Ford V-8. They just didn't realize how much more value and how many improvements we've put in this car the last few years.

Today's advanced Ford is a product of progressive engineering, fine materials and honest

construction. It is backed by an experience of building far more cars than anybody else in the world.

One ride in today's Ford—with its smooth 8-cylinder engine, stabilized chassis, hydraulic brakes—will prove it's the modern car in the low-price field.

TEMPLE OF TRUTH

By the Apostle

OLD HUMANITY.

If the patriotism of the voters was as ardent in times of peace, as in war, a lot of fellows would stand a darned poor chance of re-election.

IGNORANCE NOT BLISS.

Ignorance as to the different kinds of Taxes one has to pay may be bliss, but we doubt it. No son, the amusement tax is no joke!

HOT WEATHER POME.

A young lady named Sue, Had suitors a few; With ciggies and gin Halitosis set in, And the boys said adieu To poor little Sue.

BUM ENDING.

The fellow who wrote a world history from 5000 B. C. to A. D. 1939 found few sales for the book. They didn't like the way the story ended.

MODERNIZED MENTIONS.

Quote: You probably wouldn't worry about what people think of you could you know how seldom they do!

Unquote: Now go right ahead and dress as you please this hot weather. It's strictly up to you and the weather.

THE SCRAP HEAP.

Many a bone is broken during this "record breaking" age.

VOCAL OUTBURSTS.

The woman who looks as though she is holding a secret sorrow is interesting—until she begins to turn it loose.

MAINSRING OF LIFE.

Life, after all, contains only one great problem: That of so adjusting one's self to the inevitable that peace of mind and self-respect may be safely maintained.

HAIR RAISING!

Speaking of irate readers recalls a personal experience. Some years ago an article was printed about a burly fellow who had committed a crime. He was dead sore about the whole mess—the arrest and all. He suddenly showed up at my office with a gun in his hand. He wanted to borrow four-bits on it—and got it.

DISAPPOINTMENT.

If our forefathers were to return and look over the condition of the nation now, they would go back to their graves quicker than a negro would quit a graveyard at night.

POLITICAL FOOTBALL.

The Social Security measure is nothing more than a three-act play, where people wait, work and wonder.

THE BATTLE CRY.

A politician of note in summing up the standing of the two parties says, "The GOP must be reborn to survive. The Democrats must repent to be saved."

HIS OPINION.

Bachelor Bill says a girl is creature fond of good clothing, but not necessarily wrapped up in 'em.

OUR WEAKLY POME.

Some folks go fishing— While others just fish. Some men are merchants, While others just wish. The wisher goes broke, Because he never tries. The merchant prospers, And continues to advertise.

LET OUT THE SECRET.

An East Texas woman, when asked her secret of longevity after having passed the 97th milestone, said: "A long walk daily, and a hearty laugh." How far would one have to walk these times to see anything that would provoke a hearty laugh?

NO METES OR BOUNDS.

You don't know. Maybe a fish goes home and lies about the size of the bait he stole.

The Apostle observed "Pappy's Day" with a bang in counting up the sox, ties, suspenders and other wearing apparel. And from way down in old Clay county comes a bushel of fine peaches from none other than J. B. Wadsworth, Jr., a fine young fellow who has been reading the Leader for many years.

GROWING STRONG.

All the folks around here will recall J. D. Pope, our good friend who went to Arkansaw some years ago, and liked it so well that he married and just staid there. Now comes the King Features and pictures in the Wichita Record, and the Star-Telegram a "J. D. Pope, aged 73, of Searey, Arkansaw who loaded and unloaded a piano on a truck." Hurrah for Mr. Pope and Arkansaw. Won't he be surprised to see this. Yep, like all sensible people, he takes the Leader and is paid in advance.

ZOO-ISH COMPLIMENT.

A newspaper friend in another state in his sheet refers to this writer as a "human pack rat," all because the writer gathers fossil shells, rocks of petrified objects, etc. To all of which we plead guilty. If any reader of this paragraph wants to do the writer a real favor, send him something of the fossil nature, or even tell him where to find it. This has been a hobby for over thirty-five years, and we have thousands of them.

NO FORTUNE TELLER.

It is purely a matter of speculation what next year will bring forth. A man with a broad vision can't foresee his own finish.

OPTIMISM PERSONIFIED.

Optimism is that quality of mind that makes Mahatma Ghandi content with a diaper and a bowl of goat's milk.

SPORTSMAN'S SHOW AT AMARILLO 26TH

AMARILLO, June 22.—Sportsmen from the entire Tri-State area will take part in the first elaborate sportsman's show ever staged in the West—a one-week event that will have something of interest for everybody.

The Southwest Sportsman's Show will be held at the Tri-State Fair Grounds in Amarillo June 26 to July 1st, inclusive.

A group of sportsmen from the Amarillo area are sponsoring the event, with the cooperation of the News-Globe, the Texas Game, Fish and Oyster Commission, and the Panhandle Sportsman's Club.

In addition to a huge building packed with interesting exhibits and displays, twice-daily exhibitions will be given by five outdoor sports champions. Ken Wilhelm of Hollywood, champion trick shot archer; L. L. Cline of San Antonio, holder of more medals and awards for pistol and rifle shooting than any other amateur; David Dudlah of Memphis, Tennessee, the widely publicized sling-shot champion; Ted Allen of Denver, world's champion horseshoe pitcher, and Jack Lamb of Houston, noted authority on bass casting—these are the champions who will perform daily at the show.

Among the exhibits will be a complete Texas game fish aquarium; the famous San Antonio collection of live game birds; the Southwest's most extensive collection of mounted game trophies; a display of live smallgame; an outdoor art exhibit, and a score of commercial equipment displays. There will be two continuous motion picture shows, exhibiting film from the library of Field and Stream magazine and the Texas game commission. These will be shown in air-conditioned theaters.

The exhibit hall will be decorated with tons of evergreens from the mountains of New Mexico and the canyons of Texas.

Outside an artificial lake has been constructed for casting exhibitions and for hunting dog trials. There will be world champion dogs on display in a bench show as well as in field and lake trials.

All this will be available to the visitor on one ticket for which a nominal sum will be charged. It is hoped to pay expenses of the show, because if it is successful it will be made an annual event. The show is not a commercial promotion but a

METHODIST CIRCUIT NOTES
 J. G. Walker, P. C.

Has been many days since we enjoyed a day better than we did at Goldston Sunday. The Sunday school session was full of spirit, which furnished a good background for preaching. That made it easy for us to make an effort to preach. The congregational backing was fine. Baptized two and received them into church at close of morning service. These are to be transferred to another church, but we are proud that we can do work like that at Goldston.

The parties preferred that it be done at Goldston which showed their love for and confidence in Goldston people. This should convince that the efforts there are not altogether in vain, and encourage to put forth a stronger effort to build up the community church. We may go to other places to worship and may enjoy it immensely, but there is no place like home to do most effective service, where the young people go to school, have their associates and meet often during week days and all meet together Sunday at Sunday school and church and work with no strangeness to hinder. There is where the Lord can best use you, and you will get most joy out of it. When we let the Spiritual Fire burn low in our own community we make a great blunder. We don't believe that Goldston people will thus fail.

Singing was fine in the afternoon, and another good service in the evening.

We go to Lelia Lake next Sunday 11:00 a. m. and 2:30 p. m. and Naylor 8:30 p. m. Do be with us in these services. Lelia Lake had above forty in Sunday school Sunday. We want at least fifty next Sunday. We can do it.

When is your revival to begin? Are you making preparations for it? Don't wait too late. It all depends upon you and the Lord, but He is waiting for you to get ready.

Mrs. Essie Tice of Mineral Wells returned home Monday.

COCKY COYOTE CORNERS PORTER'S POULTRY

The best authentic coyote story comes from the Coyote J. R. Porter farm north of the river, in which Earl E. Porter, a brother of the Judge, is the principal. A few mornings back, Mr. Porter heard a commotion among his poultry on the range near the house. Looking in that direction he saw a coyote herding the hens toward the house, which wasn't a bad idea even on the part of a coyote. But the varmint's instincts were contrary to man's constitutional rights when he began snapping at the heads of the chickens. By that time, Mr. Porter had gotten into action and went out to do battle with the intruder. They got within a few feet of each other. "Why I could have grabbed that coyote with my hands," Mr. Porter stated. He was reluctant about the grabbing method lest the fight involve two, one of which was armed with teeth. As a result of this reasoning, Mr. Porter "whammed" the coyote in the side with a hunk of concrete, all of which made the coyote recall unfinished business farther afield on a more friendly basis. Breathing the political Texas atmosphere may have supplied the coyote with a preponderant supply of "gall", is the only explanation, in his efforts to "grab" everything that was loose.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

The Joyous Rain has come again! We dirt gardeners have cast aside our weary facial expressions and assumed a carefree manner again. Glances were about to be searchers for beauty spots as the hot winds were injurious regardless of all efforts made with sprays and hose.

The faithful caretaker of the Christian Church lawn has secured excellent results with his evergreens that were set about a year ago, and his lovely catalpa and poplar trees. That row of poplars were very sick appearing one year ago as the borers and freezes had attacked them, but careful attention has over come these troubles. They are quite lovely.

Willard Skelton is vigorously working what was a sand spot into a lovely green lawn. He has a new type of spray, and his grass is growing nicely. Willard has a tendency to dress up the lawns where he rents with grass and trees. This is a praiseworthy habit too.

We have failed to mention the Braswell and Bill Word lawns. They have been diligently cared for during these trying hot winds.

Kelly Chamberlain is striving to rival his next door neighbor by having his new lawn set, and watering generously. The place is very pretty. It is unfortunate that all the lawns can not be cared for, as it certainly enhances the beauty of the home to have a well kept lawn. The membership of the lawn keeping brigade increases each year in our town, for which we are just grateful.

CARD OF THANKS

Next to the solace of Divine promise, the kindness, sympathy and assistance of close friends means most to those of us distressed by the passing of a loved one. May we thank each of you who so kindly aided us to bear the sorrow that has recently come into our lives. Your beautiful floral offerings were but a part of the personal interest shown in her during her sickness and death. May God bless each of you in doing good deeds when needed most.

LIGHTNING AFFECTS LOCAL POWER SERVICE TODAY

Lightning hampered the otherwise excellent electric service of the Utilities company this forenoon when a transformer on the high line, and a generator at the local power house were disabled. The smaller engine was started up and reduced service continued so far as the small engine could pull the overload.

MUSEUM SIDELIGHTS

Those interested in visiting the Donley County Museum are invited any Sunday afternoon from four to six o'clock.

A number of articles have been added since the last report. Mrs. Frank E. McCrary, who has recently visited Mr. and Mrs. Arthur Letts of this city, has given to the Museum the following items: a paper knife once used on the desk in Washington of her husband's father, George W. McCrary, Secretary of War, during the Hayes administration, 1876; a night cap worn by her husband's mother in 1854; an old hickory basket for holding wood for the fire-place; a photograph of the noted scientist, Luther Burbank, some old book shelves, a scarf, a glove-button hook, a slate pencil, and two large postcard pictures of Plymouth Rock.

Mrs. Jim Headrick has placed in the Museum an old "Blue-back" spelling book, a night cap worn by her grandmother in 1860, and five group pictures of the old Clarendon College, the oldest of which bears the date 1898.

Mrs. J. D. Swift has added to her group of exhibits a jewel case brought from Mexico City thirty years ago, embossed with the Mexican coat of arms—the eagle perched on a cactus with the snake in its talons.

We wish to make special mention of two separate collections of rare stones and prehistoric fossils found in this vicinity and loaned respectfully by Will Chamberlain and J. C. Estlack. The Museum authorities highly appreciate these collections, and all other loans and gifts made by friends and patrons.

WALTER KNORPP PURCHASES RUNDELL HOME

SPUR ROUNDUP IS COLORFUL AFFAIR

CLARENDON MAN HELPS MAKE FIRST RODEO SUCCESS

One hundred and sixty riders participated in riding events at the Spur Roundup Friday. Bob Whiteside of Sweetwater won two firsts in riding—steer riding and bronc riding. Miss Sydna Yokley of Canadian won first in the cowgirl roping contest.

Every wild west event had plenty of expert entrants. This included wild cow milking, calf roping, steer wrestling, steer and bronc riding, etc. The sponsors' dance was held at the Spur Inn Friday night and two other dances were held near the rodeo grounds.

A feature of Friday night's program was the milking of a wild cow by Jerry Sadler, member of the Texas Railroad Commission. He made good time and the crowd thoroughly enjoyed the butting he got when the cow attacked him from behind while he was pouring the milk from the bottle before the judge.

Sadler Given Chaps. At the beginning of the program, Senator Harris from the Spur district introduced Sadler and Representative Allison of Levelland. Allison then presented Sadler with a pair of chaps and declared that Sadler was now a full-fledged West Texan.

Mr. and Mrs. John D. McClellan of Clarendon attended the two-day affair in which Mr. McClellan acted as one of the judges in the rodeo events. He was given a big hand. Photos of these judges appeared in Sunday's Star-Telegram accompanied by statements that "these men helped in a big way to make Spur's first rodeo a big success."

"We helped out at a chicken barbecue in which sixty birds were fixed up just right with all the trimmings," Mr. McClellan stated upon his return. He was accompanied to the event by Mrs. McClellan, both of whom enjoyed every moment of the time in the midst of old-time West Texas hospitality.

HAS OPERATION

Miss Belva Robertson is improving nicely following an appendectomy at Adair hospital Saturday. She is a daughter of Mr. and Mrs. Jim A. Robertson on the Liesberg farm near Sunnyview.
