TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

THE RIGHT TO KNOW

Undue secrecy in public affairs brings misunderstanding and weakens the proper functioning of government. Democratic processes depend upon the people's ability to make wise decisions and upon their possessing the information on which to base those decisions. An informed, intelligent electorate is essential to representative government. Protecting the right of the people to know, to have access to a steady flow of information on the activities of their government, has been a constant challenge through our history and will continue to be one. The First Amendment to the Constitution is perhaps the most widely quoted of all the provisions of the Bill of Rights because it is so absolutely vital to freedom and free institutions. It states, "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercises thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances." The guarantee of "freedom of the press" set out in the First Amendment is not the same as the question "freedom of information" or free access to government information to the maximum extent consistent with security. Freedom of the Press includes not only the written word but also the spoken word; electronic press as well as the printed press. The Constitutional protection permits the press to serve a free people by printing such information as it wishes to print, to make such comment as it wishes to make without fear of reprisal. In order to pass information along the press must be able to obtain it—and efforts to insure greater access to govern-

ment information bring the continuing attention of Congress. The objective is not only to serve the public by insuring access by the professional reporters of press media to government information but also to insure that the individual citizen, if he so chooses, can obtain the information he seeks. Under the provisions of a new bill pending in the House and Senate, the test of who shall have access to public records is revised so that the great majority of records shall be available to "any person," not merely to those who (as now spelled out in existing law) are "properly and directly concerned." The bill also sets up standards for categories of records which may be exempt from public disclosure, replacing vague phrases with specific definitions of information which may be withheld. Some of the specific categories cover information necessary to protect the national security; others cover such material as FBI files. The bill also gives citizens

the right to go to U. S. District court in an effort to obtain access to information being denied them. The bill, in effect, spells out in greater detail than ever written into law before the responsibilities of government administrators in making information available. Meanwhile, I am continuing to battle against attempts being made to turn over a Federal bureau the right to tell an American citizen what he can or cannot receive on his radio or television set. Proposals now before our Committee on Interstate and Foreign Commerce would have this effect, and I am doing my best to see that they do not become law. The Communications Act expressly prohibits broadcast censorship. However, Federal bureaus are constantly seeking to control the information the citizen can receive—and, in my view, it is essential that Congress stand off these threats.

Progress and Profit come from the same root... We try for progress in our farming because we want to make a profit... We save for the future because we hope to profit from our thrift... Profit has been the incentive that has led people to invent new and better ways of doing things... It has been the chief factor in making our country the greatest and richest in the world...

Some folks are a success overnight based on their own personal inventory.

One of my favorite "Sleeping through the sermon" stories had to do with the old deacon who snored away from beginning to end each service. Finally the preacher talked to him about the habit. "Don't think nothing

about it Brother Pastor, when you first came to this church I stayed awake for several times. Then, I decided you was doing alright so I just relaxed and left it with you.

Along the same line someone handed me the following: I never see my preacher's eyes Though they with light might shine— For when he prays he closes his, And when he preaches—mine.

Paying cash for what we want is a good way to break the habit of wanting so much.

Uncle Jay Bob says that the main thing he would like to save for his old age is himself.

Two more memorial gifts have been given to the library to be dedicated to the memory of Mr. C. B. Morris.

A memorial gift has been given to the library to be dedicated to the memory of Mrs. J. J. Stewart, mother of Dr. J. Gordon Stewart.

Why do folks still try to tell other folks what they can read or worse yet to go to any length to try and have a book banned? If it is ever going to get through to those who would be self appointed censors it should be soon as it has been more obvious that a sure fire way of making a book

not only most bought but most read is to make a big fuss and try to have it banned.

Of course in the plus column is that some really good books will be read where otherwise they would get nowhere with the reading public.

The following is a quote about censorship from the Amarillo Sunday News-Globe "In The Spotlight" by Jean Ater. "An 'Adult Viewpoint:'... 'They (would be censors) would ban all books that juvenile minds and emotions are not equipped to handle.'"

"I object. It has taken me years, not all of them good years, to become an adult. Superman and Captain Marvel and the Three Stooges used to knock me out, but I have grown since then. And so, I trust, have you.

But there are those who want to turn back my timeclock, and yours. In their world, every thing in our society would be acceptable and there would be no point in growing up."

Tom Lea's two book history of the King Ranch is in the library if any one is interested in getting the background story about Alice B. Atwood who died recently and left an estate estimated to be worth millions to a policeman who befriended her. The paper said she was a daughter of the founder, Richard King, that is wrong, she was a granddaughter.

A memorial gift has been given to the library to be dedicated to the memory of Mr. Buel Sanford.

AN OPEN LETTER TO THE PUBLIC

Twelve years ago we were uncertain children about to begin our school days. Tonight we are graduating from high school; a little uncertain of the future before us, but very happy.

Those years have passed much faster than any of us ever expected. We have had our ups and downs, as all people do. There have been times of elation, and

others of disappointment. And then there was the period of blooming into young ladies and growing into young men. That was when we had to make big adjustments, and get used to our new feelings and experiences. Those twelve, very short years hold many precious memories for us. They are over now. In a way, graduation is like the end of a beautiful storybook, and we have turned the last page and closed the book. We will never run and play and be so carefree as those children in the book. We will never again get our first pair of heels, or shave for the first time. All that is over. But it really isn't so sad; we all have a future to look forward to, and most of all, even though we cannot live those days over, we can always reopen that book and see back into the past.

As we march down the aisle tonight, you will notice we are standing a little straighter, and our heads are being held a little higher. That is because we are proud of ourselves and of our accomplishments. Please don't feel sad or left out. You are the ones that guided us, and gently corrected us, and set examples for us to go by. So much you have done, and so little thanks from us. How many times have we said we loved you? Thanked you? Appreciated what you were doing? Probably very few times. What we were hesitant to say in words we have tried to say in actions. We have tried to do what you asked of us, gone by the examples set, and benefited from your loving corrections. We want you to be proud of us and our accomplishments. We want never for you to be ever the least bit ashamed of us.

We could never repay you for all you have done. All we can do is continue doing our best and being the good citizens you taught

SOIL CONSERVATION DISTRICT NEWS

BENEFITS OF IRRIGATION SYSTEMS

Irrigation systems in Donley County have grown very rapidly. The number is above three hundred. Some of these wells are strong and some are weak. They compare favorably with those in other Panhandle Counties.

The general public likely fails to realize the investment costs invested in these irrigation wells. The cost of an irrigation system on the high plains may be as much as \$25,000.00. This investment in

underground concrete, asbestos-cement, and plastic pipe exceeds \$900,000.00 for the irrigation wells in operation in this Soil Conservation District. The necessary equipment per farmer runs 30 to 60 thousand dollars varying with the size of the farming operation. The irrigation farmer spends five times as much money on labor, seed, fertilizer, water, insurance, insect control, etc. He hopes that his net income will thrive that of the dryland neighbor. It is easy to see that related in-

News From Clarendon College

## HERE AND THERE CAMPUS CHATTER

by Jim Blackerby

The year is over and many of us will not return to the Hill again as a student. To those who will return to Clarendon College, we leave a challenge.

The challenge is to maintain the old CC spirit and always strive for school progress. The college a student attends is only as good as the student makes it. Clarendon College has been fortunate in that, although few in number, the college students on the Hill represent quality.

The graduates of CC are proud of the heritage of their alma mater. To those returning and to

the new students next year, the graduates leave a fine tradition of progress, of friendliness, and of school spirit. Take this heritage and improve upon it.

## THIS AND THAT DAFYNITIONS

By Gwen King

Now that school is out the students feel that their summation of college should be heard.

John Colson feels that a professor is a textbook wired for sound, whereas Jerry Taylor feels that a professor is one who talks in someone else's sleep.

"Professor emeritus," says Robert Call, "is a teacher who has had it."

Mr. Nutter says that a rare volume is a borrowed book that comes back.

On interviewing Buster Brannum after his final exams, he explained to me that regret is insight that comes a day too late.

This is the last dafynition col-

## WHEN AND WHERE CC ANTICIPATES NEW BUILDING

Clarendon College students were elated during this last week of classes to learn that the eagerly awaited building program will get under way immediately. The first buildings to go up on the new campus will be the housing complex which will include a cafeteria, student union building, bookstore, boys' dorm, girls' dorm, and swimming pool. The contractor has assured us that the dorms will be ready for occupancy by September 1.

Sophomore students are groaning because they will not be around to enjoy the new facilities. Freshmen students are overjoyed at the realization that they will be among the first to occupy the modern, completely air-conditioned buildings. Complete academic facilities will be added to the housing complex the following year, so that fall freshman stu-

dents can not only enjoy the new dorms, but can also look forward to new class rooms the following year. Looks as though old CC is on the move.

## WARNING! LIBERALS SEEK UPSET ON JUNE 4TH!

Most Knowledgeable Man in State Government  
—Governor John Connally.

Crawford Martin was the overwhelming choice of Texans by more than 100,000 votes in the first primary. But the job isn't done yet. Liberal forces, hoping for a light vote in the runoff, are redoubling efforts to capture this important office. Your help is urgently needed; make SURE you vote on June 4th to keep good government in Texas!

## CRAWFORD MARTIN HAS A 20-YEAR RECORD OF PUBLIC SERVICE

- Served as mayor of Hillsboro
- 14 years a key leader in the State Senate . . . three times unopposed for re-election.
- Twice selected as his Secretary of State by Governor John Connally.

## CRAWFORD MARTIN HAS WORKED FOR ALL TEXANS.

- Helped write or pass most of our important laws enacted the past decade.
- A proven friend of senior citizens. Helped obtain first medical aid for elderly.
- Fought to pass the first laws controlling loan sharks.
- Was a key leader in passing insurance reform legislation.
- A leader in passing Gilmer-Aikin laws for better education in Texas.

## WTU NOTEBOOK—PATTERNS FOR PROGRESS

### ECONOMIC DEVELOPMENT

... its benefit to you

Economic development means developing all of the basic economic resources of a community or area to their fullest potentials, creating new wealth in the area and attracting wealth from outside the area. It CAUSES a higher standard of living for all of the people, making the community a better place to live, work and play. It PROVIDES improved community facilities, increases job opportunities, especially for the young people, and attracts new people to the town.

### FIVE BASIC SOURCES FOR ECONOMIC IMPROVEMENT

- INDUSTRY—creates new jobs, utilizing and increasing the labor force's value to the community plus helping to share the tax burden for improved community facilities.
- TOURISM—adds wealth to the community that was created outside of the area, and makes a favorable impression on tourists as a good place to live. Tourists' dollars circulate many times within a community.
- AGRICULTURE—improvement of product yields and quality of products produced plus further processing of the products can add greatly to the economy of an area.
- NATURAL RESOURCES—developed in an area change and increase the wealth as well as providing job opportunities. Depletion of the natural resources can cause adverse effects on the economy.
- GOVERNMENT—local, state and federal institutions and agencies keep tax money in the area and in some cases, bring in additional wealth from the outside.

An object of a sound economic development program is to balance the economy of a community or area from all five sources. ATTENTION and EFFORT should be given to the ones which present the best possible chances for economic development and improvement. Attracting new industries, or the expansion of existing industries, usually provide an excellent opportunity for economic development.

Ask your WTU local manager for additional information and services available.

## Miscellaneous Shower Honors Miss Fedric

Miss Cheryl Fedric, bride-elect of Gary Neil Adams, was honored at a miscellaneous shower Saturday morning, May 21 at Patching Club House. Guests were received between the hours of 9 and 11 a.m.

Mrs. Bill Cornell welcomed the guests and presented them to the honoree, her mother, Mrs. Steve Fedric, and the prospective groom's mother, Mrs. Raleigh Adams. Miss Anita Fedric presided at the register.

The honoree's chosen colors of blue and yellow were carried out in the decor. The refreshment table was laid with a cutwork cloth and centered with an arrangement of blue and white daisies with white gladioli. Appointments were crystal. Serving alternately were Misses Leane Hilly, Beth Bourland, Donna Hill, and Carol Chamberlain.

About thirty guests called and a number sent gifts. Hostesses for the courtesy were Mesdames Joe Pfeiffer, Bobby Trout, Hershel Heath, Lloyd Risley, Mike West, Alvin Hicks, L. P. Moore, Billy Goodman, Orville Housden, Bill Allen, Bill Cornell, Dean Hill, Allene Estlack and Eda Walling.

## Mr. and Mrs. T. A. Sullivan Celebrate 50th Wedding Anniversary

Mr. and Mrs. T. A. Sullivan were honored at an Open House at the family home in Clarendon Sunday afternoon, May 22, the occasion marking their fiftieth wedding anniversary. Hosts for the occasion were their children: Mr. and Mrs. Vernon Mosch of Dryden, New York; Mr. and Mrs. Jack Sullivan of Caledonia, New York; Mr. and Mrs. O. D. Mayo of Berthoud, Colorado; Mr. and Mrs. Doyle Brazille, Mr. and Mrs. Jimmy Sullivan and Mr. and Mrs. Joe Sullivan of Amarillo; and Mr. and Mrs. W. T. Sullivan of Claude.

Great granddaughters, Deborah Kay Sullivan and Brenda Bryant registered the guests. On the registration table were pictures of the honorees taken on their wedding day fifty years ago and recently.

The gold theme was carried out in bouquets throughout the house and in a gold sprayed Money Tree with gold leaves.

Refreshments were served from a table laid with a white linen cloth. The floral arrangement was of yellow carnations and yellow roses with gold leaves and the numerals "50" to the center. The three tiered wedding cake was topped with a miniature archway and bells and was decorated with yellow and white rosebuds and gold leaves. Appointments were crystal. Presiding alternately at the table were Phyllis Mayo, Barbara Sullivan, Elizabeth Sullivan and Marilyn Sullivan.

Sixty-seven guests registered. The couple received many lovely gifts. Their children presented them with a beautiful hand-painted "Family Tree" measuring 24" x 48" and bearing all the

names of the children and their children.

Mr. and Mrs. Sullivan were married at Tuxedo, Texas in Jones County, May 21, 1916 and moved to Clarendon in the fall of 1924. Through the years Mr. Sullivan has been engaged in farming, has worked for the Texas Highway Department and the County. He is presently employed as a salesman for Chamberlain Motor.

All of their children and a number of their grandchildren were present for the occasion.

## Summer Homemaking Program Announced

The Homemaking Department of Clarendon High School features special classes for both adults and high school students to be offered during the month of June. These courses are offered free of charge except for supplies used. If you are interested in any of these classes or in attending any of these classes as a guest please contact Mrs. Bourland, homemaking teacher by calling at 2087 or by coming by the Homemaking Dept.

The following courses are offered during the week of May 30-June 3: Making Paper Mache costume jewelry— May 30-31-9-30-11 a.m.; Home Nursing-June 1-3 and June 9-12th. The Home Nursing Course is sponsored by the local Red Cross chapter and upon satisfactory completion of the course the American Red Cross certificate will be issued. The classes begin at 9 a.m. and run for two hours for seven lessons.

"Nearly every family faces problems of having someone ill or injured at some time. Today, self-help and family help in nursing care take on additional meaning in view of the many demands upon doctors and nurses, an aging population, the early dismissal of hospitalized patients, and the growing emphasis on preparedness for natural or enemy caused disasters." Basic nursing procedures and instruction offer you an opportunity to learn to make the best use of time, energy and material, how to carry out doctors orders, how to comply with public health regulations, and how to apply what you learn to emergency situations.

Mrs. Bourland is a licensed Red Cross Home Nursing instructor and if the time and dates for the classes do not meet your schedules, night classes could be arranged for both morning and evening classes if the enrollment is sufficient.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Next year's legislative session may see state employees battling as hard for a pay raise as school teachers.

Furthermore, help is assured. Gov. John Connally says that "substantial pay raises for state employees" will be among his "strongest recommendations" to lawmakers.

Indications are that the pay boosts could run as high as \$17,500,000 a year.

According to Connally, state government is slipping farther and farther behind in its efforts to keep qualified workers — not only in the lowest pay levels but in the higher brackets of professional personnel.

Connally says that:   
● More than 7,800 of the 45,000 state employees (not including those at colleges and universities) make less than \$3,000 a year, the federal "poverty line."

● Turnover is running 30 per cent per year.

● Lower-bracket hospital aids get as little as \$193 a month.

● There are 313 vacancies in the hospital system, 77 in parks and wildlife operations, 100 in the prison system, 135 in the highway patrol and 148 in the Texas Education Agency.

If we do not reverse the trend," warns Connally, "not only will the stabilization and efficiency of our operations be threatened, but we will also weaken our entire system of local self government and responsibility."

**GINNERS FIRST ON CONTROL LIST?** — Texas' new nine-member State Air Control Board now has held its second meeting since Governor Connally named the group, whose purpose it is to protect the public from air pollution. Indications are that Texas' more than 1,300 cotton gins will be the first area subject to air control rules and regulations.

Conclusions after a year-long study of pollutants caused by cotton gins is that smoke emitted from burr burning contains significant quantities of arsenic and tars. These poisons, along with gin dust, have contributed to the 20 to 30 per cent increases in complaints about respiratory diseases suffered by downwind residents during ginning season. Also, there have been adverse effects on trees and vegetation downwind from arsenic and other evidences of pollutants.

Report states that much of the increased pollutants from the gins are caused from an increase in trash, leaves, limbs, immature bolls, and dust — picked up by mechanical harvesters. Recommendations for curing these problems will be in the report of the Board's staff.

**WATER QUALITY COSTS GOING UP** — Taxpayers, as well as

the men who run the sewage treatment plants in growing cities, must get used to the fact that in the future they are going to have to maintain high standards of operation of their plants. Higher quality water means higher cost of treatment.

This came out in the Texas Water Pollution Board's meeting when the City of Dallas objected to the Board's usual chlorination requirement, arguing that it would cost more than it would be worth.

Dave Smallhorst, the Board's executive secretary, said: "The cities, including Dallas, have to recognize the fact that an increase in water quality requirements is going to mean an increase in cost." Smallhorst said chlorination is necessary to protect public health and the Board's first concern is the health of the public.

**AG OPINIONS** — Even under the new Criminal Code, habitual violators of Texas' traffic laws will not be able to protect their driver's licenses from being revoked by pleading no contest to charges. So ruled Atty. Gen. Waggoner Carr.

In other recent opinions, Carr held that:

● Wilbarger County Hospital District may pay for land acquired to establish a community center for mental health and mental retardation services out of a building bond issue or district tax levy.

● Tax bonds of Texas junior college districts are not eligible to secure deposits of state funds, but revenue bonds are eligible to extent provided by statutes.

● County clerks in misdemeanor cases have authority to issue arrest writs to any peace officer.

● Wilbarger County Hospital District Bonds are not acceptable as security for state deposits.

● No inheritance tax is due the state on a veteran's estate which passed to the U. S. on his death.

● Secretary of State has no authority to accept and file applications for certificate of withdrawal from foreign corporations unless they comply with all requirements of Texas Business Corporation Act.

**HEARING SET** — Railroad Commission has set a hearing for May 27 to investigate purchasing and transporting practices of the Gulf Oil Corporation and Gulf Refining Company in the Pittsburg Field in Camp County.

T. D. Humphrey Jr. and Southern Union Production Company requested the hearing.

In separate action, Sinclair Refining Company asked the Commission a second time for a rule

change to permit operators in the East Texas Field to transfer their allowable to another producing well when the casing of a well springs a leak. Independent oil operator Bryan Payne of Tyler opposed the change. Such a proposal was rejected by the Commission last year.

**COURT SPEAKS** — Texas Supreme Court agreed with lower courts that A&M Consolidated Independent School District (Brazos County) tax assessments are not arbitrary though district does not levy on personal property like bank deposits, autos and furniture.

High court declined to review a damage judgement favoring a Lubbock area farmer who said his hogs were killed by aerial spray.

Third Court of Civil Appeals upheld a 1965 permit allowing a Bexar County concern to discharge 696,000 gallons of treated sewage into Salado Creek near San Antonio.

Court of Criminal Appeals ordered new trial for C. L. McCaleb who has been convicted of selling securities without registering with state securities commissioner.

**SHORT SNORTS** — Grayson County officials received a Highway Department survey recommending a new route for U. S. 75 from Sherman to the Red River.

Texas veterans are paying up well on their farm and ranch loans, with only 4.44 per cent of the 28,199 active accounts, due November 1, late on their payments, reports Land Commissioner Sadler.

State Health Department advised local health units of the new Federal aid policy making birth control information available to all who seek it.

Governor Connally named Frank W. Mayborn, Temple newspaperman, to the Texas State Historical Survey Committee, succeeding the late W. R. Beaumier.

**SEVENTH ANNUAL TEXAS VS CALIFORNIA MEET**

Mr. Earnest Walker, President of Amarillo Dragway today announced completion of arrangements for the seventh annual Texas vs California challenge drag meet. Amarillo Dragway has pulled out all stops in order to bring Texas' finest drag racing greats to face with the top field of challengers from California.

The Sunday, May 29th meet will host such well known Texas' names as "Bearded" Bobby Langley of Ft. Worth, Vance Hunt of Dallas, Jerry Ellis of Dallas, Eddie Hill of Wichita Falls and also Gene Snow of Ft. Worth who will represent Texas in the funny car meet with his big show and go Dodge "Rambunctious." Direct from California for this big meet comes such outstanding racing greats as Tom Jobe, Bob Skinner and Mike Sorokin, known professionally as the "SURFERS"; T. V. Tommy Ivo, the T. V. star who turned dragster driver; Cecil Yother and his "HEMI" powered "HAWAIIAN" which has proven its ability by being the only Double A fuel dragster to win three major NHRA national titles in a row. According to Mr. Walker, the fueller action is to get underway Sunday, the 29th at 2 p.m. with the huns to be the bets 2 out of 3. Peiring looks like this: Langley takes on Ivo, Hunt and Ellis vs. the "SURFERS", Hill vs Leong and Snow against Yother. Regular open competition in all classes will be run as usual with time trials starting at 7 a.m. Sunday morning; all entries to be in by 12 noon and final races will begin at 2 p.m. Mr. Walker says: "That beyond a shadow of a doubt this will be the biggest drag race of the entire year and all racing fans are cordially invited to be on hand for this big seventh annual Texas vs California drag racing event".

**NEW ARRIVAL** — Mr. and Mrs. Alfred McNabb of Amarillo are the parents of a son, Patrick Allen, who arrived Thursday May 12. The young man weighed 7 lbs 4 oz. Grandmothers are Mrs. Eda Wallin of Clarendon and Mrs. Violet McNabb of Albuquerque.

## CARDS OF THANKS

It is with our heart filled with gratitude that we express our sincere thanks for the kindness of friends, neighbors, and the people of Clarendon who helped to replace Sayle's yard and garden tools lost recently in the fire in downtown Clarendon. There are no finer people on earth than

those who live in Clarendon. May God richly bless all of you, in our earnest prayer.  
Mrs. Mary Dozier and Sayle

I would like to take this means of thanking all who remembered me with cards, letters, flowers, and food during my stay in the hospital. Your thoughtfulness was sincerely appreciated.  
Mrs. Ruby Hutton

May God bless each one for the prayers, cards, phone calls, flowers, and gifts sent to me during my stay in the hos-

pital, both here and at Oklahoma City.  
Mrs. Lloyd McCord

I want to take this means of thanking all those who helped put out the fire at my home last week when it caught fire from sparks from the Shamburger Lumber Co. fire. I was away from home which made me doubly thankful for the thoughtfulness and efforts in my behalf.

**ROTATE CLEANING JOBS.**

A good home manager will rotate cleaning jobs each week or each month, and thus avoid having to do a total cleaning job at any one time, says Mrs. Doris Myers, home management specialist at Texas A&M University. In other words, spring house cleaning is old-fashioned, she adds. By alternating the cleaning jobs, you can keep the house looking presentable throughout the year—and you'll have more free time in the spring to devote to other important family activities.

### Young Homemakers Discuss Parade Of Homes

Open the pages of "House Beautiful" and walk into each of the six homes included on the tour of beautiful homes sponsored by the Young Homemakers.

The home of Mrs. Mae Noblett was decorated by John A. Bullard of Oklahoma City. Shades of green and gold are used for the interior; antiques and modern furnishings are used; accessories include imports from Czechoslovakia, Spain Mexico, and England. Stereo music and an intercom system are accessible throughout the house. This home was completed within the last few years.

The Colonial home of Mr. and Mrs. Ray Palmer is located on the corner of Seventh and Sims. The curved driveway leads up to the front entrance and one immediately notices the beautiful picture window, large white columns and the sharp contrast of red brick and white trim. This home was built in 1960 by John Jones. Recessed lighting is used throughout the home; ash is used for the provincial cabinets and many built-ins; paneling, wall paper, and textures are used for wall finishes. The den has a Persian rug on a parquet inlaid floor (which belonged to Mrs. Palmer's mother.) The family hobbies and interests were considered carefully both in planning and decorating.

Mr. and Mrs. Joe McMurry live in a beautiful brick home at 805 West 6th, which sits well back on a beautifully landscaped yard. It boasts ten rooms, 2 baths and 2 sunporches. The furniture for this

They were selected in a campus-wide election.

home is 18th century style, the floors are solid maple, and they are especially proud of a 100 year old picture in the music room which is framed in a gold leaf frame. Two bed room suites are 80 years old and you will note the real worm holes in the wood which modern furniture attempts to copy today.

Mr. and Mrs. Tack Moreland completed their new home in 1965. They used autumn gold brick for the exterior and have

only two windows in the entire home. The antique gold front doors open into an entrance hall that features a mural painted by their nephew Ronnie Rattan of Clarendon. French provincial furnishings are used throughout. Their den boasts a fifteen foot wood burning fireplace.

The home of Mrs. Vera Lewis was redecorated when they purchased it. Neiman Marcus of Dallas decorated the interior and the yard was landscaped by Lamberth of Dallas. The furnishings of this home are traditional. Mrs. Lewis has recently redecorated her recreation room.

Mr. and Mrs. Frank Hommel live at 804 West Third. This home truly reflects the history of our community. It is furnished almost entirely with antiques. Mrs. Hommel is an artist who loves color and the use she makes of it in her home gives it a warm hospitable look. Mrs. Hommel's own pictures add so much to the decor of their home.

Homes are a part of our heritage. These homes will inspire you to look at your own home, enjoy it, and make it your palace. "The Young Homemakers of Texas seek to strengthen the bonds of the family with knowledge, integrity, love and faith in God, in order that our homes may be established in the firm foundations of our community, state and nation—upholding the right of each of us to dream, work and assume the responsibilities of making our home a home."

Stacy of Dallas arrived Saturday to visit her parents, Mr. and Mrs. Elmer Dishman. Mrs. Hunt will remain for a longer visit.

**NEWS FROM CITY HALL**

by R. L. Gilkey, Mayor

The "new" City Hall is now formally opened. If you did not have the opportunity to see the offices last Sunday stop by any time. The planning of the Community Center in the "red brick building" is in the final stages, so rooms will soon be available for organizations. Then with a little hard work this summer, the entire building will be ready by fall. A good community center is a sign of progress, and a tangible asset that visitors can see. No outsider will invest in our town unless we do so first. This is the first in acquiring industry. Here are some facts about industry.

Having a dam nearby will be the largest asset in acquiring Clarendon industry. False—85% of Texas industries used no more water than an average motel in 1965. The dam will be important to provide recreation. An industry would be interested in our town because of available labor, transportation, and low taxes. False—industry is interested in profit first and foremost and we don't have the market on that alone. In fact—anything we can produce at a profit there are at least a dozen communities in the area that can produce the same product just as cheaply as we can produce it. Assuming that a profit can be made industry is next most interested in the "face of a town". True, industry is most interested in good schools, churches, recreation, new housing developments, increasing taxes and downtown appearance. Here are the factors that influence industry in their order of importance. (This is assuming that a product can be made for a profit by the industry.)

1. A Community Betterment Program through the joint effort of city government and the Chamber of Commerce including every facet of city business, recreation and education and involving every property owner, tenant, and visitor.

2. A Research Program—to determine what can be produced in the area for profit, for both the benefit of the industry and the benefit of the community. Clarendon is interested in manufacturing employment. A payroll dollar is worth 2½ times a natural resource dollar.

3. A financing program which will allow a company to acquire the most money under the best terms. A company doesn't want a "give-away" program, but does want financing at the lowest rate of interest possible.

4. An Industrial Site - with water, sewage, highways, railroads, air travel connections and at reasonable cost.

5. Find Industrial Prospects by every available method, by letting the traveling salesman and visitor passing through town know that we are an interested progressive community seeking industry. By using two words "Think Clarendon."

These are the necessary steps to acquire industry to our town. Unless these five steps are implemented to some degree and applied consistently through the years, no company would be interested in our town. It is a safe assumption to say that no industry has gone into a town in the past 20 years where the above five steps have not been taken to some degree.

Our first step is a decision. Do we really want industry here? Knowing that no city has grown as an agricultural center for the past 25 years and knowing that our local natural resources, and natural industries are decreasing, our city is faced with less and less dollars in local circulation. We must turn somewhere for help just to stay where we are, even if it is the Tourist Industry alone which passes through our city on the highways. So our first step is to "think Clarendon". Sell our town to every visitor, friend and salesman we meet. Sell it every day of the week, at work, at play and vacationing. Sell it here, in Amarillo, Lubbock, New Orleans, Las Vegas, and Chicago. Sell it in the newspapers, by word of mouth and on T.V. With increased travel our nation shrinks daily. Let's let others know that we're not only the oldest town in the Panhandle, but the best as well. Think Clarendon.

Mr. and Mrs. Wes O'Neal, Tracy and Tammy of Vernon visited the week end with Mr. and Mrs. Boots O'Neal and John.

**OFFICIAL MINUTES OF CITY COUNCIL**

The City Council, City of Clarendon, met in regular session at 7:30 p.m., May 18, 1966, with the following present: Mayor Richard L. Gilkey, Mayor Pro Tem Basil Smith; Aldermen John H. Jones, J. G. McAnear, O. F. Russell; City Engineer Orville Housden; and City Secretary Brenda Higley. Absent was Alderman Chauncey Hommel.

Motion was made by J. G. McAnear and seconded by Basil Smith that minutes of the previous meeting be accepted as read. Motion carried.

Dr. Charles Deyhle, Chairman

of the planning board, met with the Council advising that it was his opinion before any letting of rooms in the Community Building housing the City offices, certain housing rules and regulations should be established by a committee, approved by the Council, and each individual group agree to such before being given a room to refurbish.

Discussion was held by Council members with Frank Reid, regarding the opening of an alley behind his property. It was the decision of the council that the alley should be opened if proper stakes were made, or else the alley would be closed by the city.

Officers Will Chamberlain, R. E. Drennan, Forrest Sawyer and Mrs. H. T. Burton, from the Donley County Historical Museum met with the Council to discuss the

Museum's responsibilities at the building formerly housing the City offices. Both groups agreed the County Commissioners should be contacted and asked to participate in maintaining the Museum as it is of great benefit to the entire county.

Motion was made by Basil and seconded by O. F. Russell that valuation of Lots 1-3, Block 184A, OT, rendered on the 1965 tax roll to Mrs. Pete Kunz and posted as delinquent for the past tax year be lowered retroactive from \$765 to \$100 valuation. Motion carried.

Open House for the new City offices was definitely scheduled for Sunday, May 22, from 2 to 4 p.m. All City officials were asked to be present for the event.

Upon motion by Basil Smith and seconded by J. G. McAnear, the resignation of City Secretary

Brenda Higley was accepted effective June 15, less vacation time.

After full discussion, motion was made by Basil Smith and seconded by John Jones that Mr. Walter B. Knorrp be employed by the City to serve the capacities of City Secretary, Tax Assessor-Collector, and Corporate Court Judge, and other such duties as the governing bodies deem, at a salary of \$500.00. Such employment is effective June 1.

Motion was made by J. G. McAnear and seconded by John Jones that tax receipts for the coming year be purchased through Mr. Willard Skelton representing Bennetts. Motion carried. Bills for the month of May were ordered stamped approved upon motion by J. G. McAnear and second by Basil Smith. Motion was made by Basil

Smith and seconded by J. G. McAnear that a street light be installed above the restroom adjoining the Little League Park. Motion carried.

There being no further business to come before the Council, the meeting was adjourned upon motion by O. F. Russell and seconded by J. G. McAnear.
