#### ANTROBUS EXTENDS THANKS FOR MEMORIAL HELP

Barcus Antrobus, who has long been responsible for the placing of Flags on Veterans graves in Citizens Cemetery on Memorial Day, has asked that special thanks be given to the Jaycees, the American Legion, Boy Scouts and all of the individuals who helped mark graves at the Cemetery Monday morning.

Many, many persons visited our Cemetery Monday, local residents as well as out-of-town individuals, and comments were most favorable in regard to the way our Cemetery is kept and the memorials which were placed there.

Our community extends sincere appreciation to Mr. Antrobus for this fine community service project for which he has worked so diligently throughout the years.

#### HOWZE NAMED ON TECH'S ADVISORY COMMITTEE

It has been announced by Texas Tech's Department of Architecture and Allied Arts that James D. Howze has been elected to Tech's Faculty Advisory Committee. It is the function of this twelve-man body to advise the president and Board of Directors concerning faculty opinions on matters of academic policy.

Professor Howze is the son of Mr. and Mrs. J. H. Howze of Clarendon, Texas and received his early education in the Clarendon public school system. His first college art training was under the guidance of Mrs. Lucille Polk Naylor at Clarendon Junior College. Since joining the staff of Tech's Department of Architecture and Allied Arts in 1958, Howze has attained the rank of Associate Professor. He is Art Program Coordinator for that department; and he is listed in Who's Who In American Art for his work as an exhibiting painter, teacher and graphic designer.

#### FISHING GOOD AT BURSON LAKES RESORT

In a report from Dusty Taylor Wednesday morning, he reports fishing excellent at Burson Lakes Resort this past week with a 91/2 lb black bass topping the list of catches. Big strings of bass and channel cat have been a common sight at the lake.

The good fishing at Burson Lakes along with the scenic surroundings, blue clear water with fine swimming area has attracted fishermen and vacationers from all over the West Texas area, parts of New Mexico and Colorado. Burson Lakes is located in the lower spread of Palo Duro canyon about 30 miles south of Clarendon on the highway to Silverton. Dusty always has a warm

LEADER CLASSIFIEDS GET RESULTS

#### Saturday, June 4 will bring to an end what has seemed to be quite a long campaign for several

voters will go to the polls to help race and two on the county level. Voting places will be set up over first primary with voting hours from 8 a.m. to 7 p.m. With a short quite speedy and the final results should be announced just as soon

candidates as county and state

shortly after the polls close. There is only one contested race on the state level and that is between Crawford C. Martin and Franklin Spears for Attorney

The story is somewhat different on the county level. We have one race for County School Superintendent where all county voters will have a chance to vote Kennard and Jennifer of Lake- for their choice. The two candidates are M. L. (Bill) Todd and Maurice Risley. Both have been campaigning hard in an effort to pick up votes that were cast for the other candidates in the race in the first primary and also to encourage every voter to go to the polls and vote Saturday.

The other race on the local level is for Commissioner of Precinct 2. The two candidates, Incumbent John W. Swinney and Roy Blackman, will be listed only on the ballots used in Precinct 2 voting boxes but all ballots on a county basis will show the Attorney General's race and the County School Superintendent.

The general assumption is that voting will be light but voters should take the view point that these officers are just as important again as in the first primary and an even greater effort should be extended to cast your ballot Saturady. Your one vote can be especially important to the candidate of your choice as past history shows that several run-off races have been decided by a difference of from one to five votes.

If absentee votes are any indication, this may be a surprise year for a run-off election in Donley County as a total of 75 had cast absentee ballots before the deadline Tuesday.

Richard Tunnell reported that Tunnell Pharmacy would hold the election party with the blackboard out front again Saturday night so everyone can get the results just as soon as they come

## Light Leads Our People

Each day a new door opens. What it reveals on the other side, for the people who must pass over its threshold, depends upon the conditions under which they lived their

yesterdays. Those in some countries look through the door upon a new day shadowed with oppressions, where there are few freedoms, tyrannies abound and living is hard and cold.

Those of us in America are more fortunate. Opening the door each day, we are met by the light of freedom which has led our dessiny for many years. Protecting that freedom

has been - and always will be - a Press that will not succumb to dictation or overpowering despotism.

For the light that leads to all freedoms is Freedom of the Press: Education . . . information of all kinds . . . news of all that transpires . . . and the open discussion of opinions and ideas that sharpens understanding.

Complete freedom of speech and of the press is the light that builds understanding, helping all mankind to advance onward and upward through the opening door of each

# What You Should Know About RISLEY

In answer to questions that have been asked, here are a few things that you might like to know about Maurice Risley before you vote Saturday.

I am a graduate of

Clarendon High School Clarendon Junior College West Texas State University

I have teaching and administrative experience in schools at:

Clarendon - Hedley - Ashtola and Clarendon Junior College

I am a veteran of World War II

Most, but not all of my civic work has been with the farmers and ranchers of Donley County.

Politically I am a Conservative Democrat

Full time as County Superintendent

I have no business ties and will devote my undivided attention to this office.

It is my belief that the functions of the office of County School Superintendent should be expanded and this office put to work on a full time basis in the study and procurement of State and Federal participation programs for all of the schools in Donley County.

I will appreciate your vote for County School Superintendent and if elected to this office, I have every intenton of earning that vote.

ROLLING PLAINS INSECT SURVEY TEAMS AT WORK

The Rolling Plains Cotton Insect Survey began June 1 and will continue through August 31. The survey is a part of the overall effort of the Rolling Plains Cotton Growers to achieve control and possible eradication, of the boll weevil from the Rolling Palins of Texas. The cost of the survey is estimated at \$30,000.00. Funds are provided on a matching basis by the Rolling Plains Cotton Growers and the Texas Department of Agriculture. The survey is being conducted by the Texas Agricultural Extension Service with Emory Boring, Area Entomologist, as coordinator. County agents in each of the 31 counties involved are responsible for local survey coordination.

Ten 2-man teams are involved The teams are composed of Agriculture students from Texas A&M, Texas Tech and Sul Ross. Each of the twenty boys has had some entomology courses and all have thoroughly trained to conduct the insect counts. Each team will check 34 fields per week, checking the same field at approximately the same time each

The ten members have been instructed not to make insecticide Dozier Wednesday. recommendations. Farmers with questions regarding the advisability of spraying are urged to day. contact their local county agent.

The Insect Survey is a fine example of what can be accomplished when farmers band together and the results will be one long step toward control of the boll weevil in the Rolling Plains.

We are sorry to hear Frank Tyler is in the hospital and under the weather. Genella is back at work and we are so glad she is well again. Irene and Pat are vacationing.

#### IMPROVED BATTING

An improved quality of cotton batting-upgraded through recent chemical treatment-is expected to enter the furniture and bedding fields soon, predicts Mrs. Jane Berry, Texas A&M University Extension specialist in housing and home furnishings. Researchers with he U.S. Department of Agriculture have come up with a method for making better cotton batting, and now the product encourages a thinning of the turf is on the market in the form of and shallow rooting. This lowers padding for automibile seats. This readily immersed in a chemical solution, researchers sprayed
