## BAPTIST MEETING OPPOSES HORSE RACE GAMBLING; SOCIAL SECURITY FAVORED

Amarillo Convention Closed By Voting Borger Host City in 1940; Rev. J. Perry King of Clarendon Is Elected President

AMARILLO, March 15.—Resolutions opposing the return of horse race gambling in Texas and a proposed amendment to the Social Security Act which would require churches and ministers to pay a tax upon ministers' salaries were voted in the closing session of the Baptist district convention here last week.

The convention unanimously adopted the report of the resolutions committee without discussion. Included in the resolutions: "We pledge our support to the missionary and benevolent work of our district, states and Southern Baptist conventions."

"Be it further resolved that we go on record as opposing gambling in all forms and that we are utterly opposed to the return of race track gambling."

"That we reaffirm our age old position for the absolute separation of church and state, and that we deplore the growing tendency to encroach upon our national constitution which guarantees religious liberty and that we speak our opposition to the proposed amendment to the Social Security Act which would demand the churches and pastors pay into a government fund three per cent of all salaries."

The convention voted to hold its 1940 meeting in Borger on March 13 and 14 at the First Baptist Church.

## DONLEY CLUB CALVES SHOW NICE PROFITS IN AMARILLO AUCTION

\*\*\*\*\*

Donley County club calves showed nice profits for their youthful owners when they brought above market prices in the Thursday auction sale of the Amarillo Fat Stock show. Johnny Leather's first place junior Hereford led the local sellers when he was bought by the Amarillo Hotel for \$25 per hundred pounds.

Leather's Panhandle champion of 1938-39, who also won for his owner the C. E. Weymouth Panhandle Livestock Association's watch, was the third calf sold. He was behind the Mason county grand champion which went to the Phillips Company for 66 cents per pound and the Martin county reserve champion that sold for \$30 per hundred.

The Farmers State Bank of Clarendon and C. T. McMurtry purchased two of the Donley County calves. The bank bought another Leather's calf, weighing 685 pounds, for \$13.50

S. E. Bell, automobile salesman for the Clarendon Motor Company, has sworn off picking up hitch-hikers, he told Sheriff Guy Pierce this week.

Bell lodged a complaint against an unknown transient he picked up while enroute to Lella Lake Monday morning.

As a matter of hospitality, Bell accepted a cigarette from the passenger and the next thing he knew it was six o'clock in the evening and he was in Panhandle, some 45 miles in the wrong direction.

Bell believes the cigarette contained dope.

## POKER-BOOZE PARTIES HOLD SWAY AS AGED GO HUNGRY AND RAGGED

\*\*\*\*\*

By Nugent E. Brown

AUSTIN—(Special)—A bloc is rapidly taking shape in the House of Representatives for the avowed purpose of effecting a change in the personnel of the Old Age Assistance Commission in Austin. Albert Darden of Marlin is outspoken in his denunciation of methods employed by the present acting director, W. A. Little, and his first lieutenant, Claudius Hodges, so-called personnel director. Three women, so-called "social experts," also are in the line of fire as these "experts" are alleged to be cold-blooded in their method of handling justifiable complaints registered from old folks all over Texas.

In this connection, Representative Darden strongly condemns lobbying methods being employed by Hodges, Little and another assistant, Fred Varner. Varner was an assistant attorney general attached to the Old Age Assistance Commission until January 1, when Attorney General Gerald C. Maan failed to reappoint him to the \$4,000 salary which he drew out of pension funds. Little then made Varner an "assistant director" and he stays on the job of lobbying with legislators. In an attempt to influence legislators, a series of stag parties have been held during the last 60 days at Hodges' lakeshore home on the Colorado River. When Representative John Roach of Forney and his good wife visited this home recently along

with some 15 other legislators, Rev. Roach, a retired Methodist minister, says he was shocked to find a bar installed in the home where beer and whiskies were being served freely. Rev. Roach reports he found one of the high officials of the Old Age set-up in a "visibly intoxicated condition" that evening and that he remonstrated at such conduct.

Other members report poker parties have been the habit of some of these officials, rather than the exception. These same members hastened to explain they didn't know the purpose of these lakeshore home parties until they were on the scene and that they shall not accept such invitation again.

In the meantime, as Representative Darden points out, nothing has been done by the legislature or the governor to "clean up" the methods employed by the officials in charge of the pensions set-up here. "The people back home elected us as well as the governor last summer on the specific promise that we would clean up that bureau," he says. "And if we fail, we had better not ask for re-election in 1940."

In the meantime, also, thousands of letters from old folks and others interested in this all-important problem, addressed to the governor, have been sent on to the desk of Acting Director Little. The old folks themselves will verify this statement. Little then sorts these same letters and forwards them back to

investigators in the field, who are told to answer them. This is not right, as in many instances, these letters contain complaints against methods employed by these same investigators. So where does it get the old folks? Is it any wonder that thousands of old folks all over Texas today are plainly disgusted with the whole thing, O'Daniel and all the others, Representative Darden and many other legislators see this angle and are determined to do something about it, and the bloc is forming. Other legislators who are working for the old folks include: W. J. Bailey of Wood County, E. J. Cleveland of Hays County, Maurice Dowell of Caldwell, R. L. Brown of Nacogdoches, Otis Lock of Angelina, Bryan Brandbury of Taylor, Harrell of Lamar, Ross Hardin of Limestone, Westbrook of Sabine, Cockrell of Lampasas, Fielden of Titus, Faulkner of Ellis, Bundy of Wichita, Roach of Kaufman, Baker of Grayson, Bond of Freestone, Pace of Cooke, Kerr of Fayette and scores of others too numerous to mention. These men are actively at work.

But the stag parties are still going on and some members are visibly affected by the glamour of a \$20,000 home of native rock and Bastrop cedar together with fitting refreshments and chances to get friends and relatives a job in Austin. If you folks back home want action down here, write or wire your legislator about this matter of saving the lives of our pioneers.

## FAMED 18 CENTS GAS TEST CASES SET FOR NEXT SAT.

R. Y. King Goes To Bat In Justice Court Over Clarendon Gas Rate

Whether the City Gas Company owes R. Y. King and G. F. Lane a total of approximately 18 cents for ever charge on gas bills will be decided in justice court here Saturday.

King said he had advised W. H. Pexin, attorney for the company, to be ready for trial at 2 o'clock Saturday afternoon following the docketing by Judge W. A. Davis who will preside at the hearing.

Instigating the test case was the failure of the City Gas company to comply with a franchise clause in June, 1937, setting out a 10 cent rate reduction for the city of Clarendon.

The franchise, issued in June, 1927, called for the rate to be reduced from 70 cents to 60 cents per thousand cubic feet, after a ten year period.

King filed the suits for himself and Lane, after paying bills on the old rate.

Trial of the suits have been pending the outcome of the Texas Railroad Commission's recent hearings.

## THAT GAS BILL IS HERE AGAIN!

City Gas Co. Issues Ultimatum On Delinquent Payments

With things either apparently moving their way or looking rather gloomy, the City Gas Company in letters this week demanded the board must be wiped clean of delinquencies caused by customers paying (or trying to pay) bills below a 70 cents per thousand cubic feet rate.

The letters, signed only with a typewriter and mailed from their Clarendon office, were brief and pointed. To the many residents who have been tendering checks on 60 cent and 61 cent rates for the past several months, the messages said in substance that unless the account be paid in full within five days, the company would deem its services unwanted and would disconnect the meter.

In usual cases the deadline would be Saturday.

One local physician, repeatedly unsuccessful in having the company accept his check, said yesterday the amount due set forth in his letter totaled approximately \$117.

Also included in the letter writing was the City Hall, fire station, etc.

## MORE GAS

Company Successful In Fight To Enter Court With Case

The City Gas Company won a legal skirmish last week when they were successful in re-entering court with an injunction against the Texas Railroad Commission, restraining the enforcement of the recent rate cut order for Clarendon.

The next hearing will be April 24, in the 98th District Court of Travis County, Austin, when the merits of the injunction will be argued.

## APPENDECTOMY

Robert Nichols, student of the University of Texas, was operated on for appendicitis in Austin recently. Last report of his condition was favorable.

## Made \$1,050

Johnnie Leathers, Lella Lake 4-H Club boy and member of the Clarendon F.F.A. Chapter whose determination wrote the final chapter of a success story when his feeder animals grossed over \$1,000 in recent stock shows.

Entering competition in 1937, Leathers exhibited animals in the Donley County and Amarillo Fat Stock shows which failed to place in either calf or pig divisions.

Returning in 1938, the youth placed the reserve champion calf here and had a 6th and 30th place calf in Amarillo. He also won two prizes locally with his pigs.

Determined to show better animals, Leathers concentrated on his projects for almost twelve months and this year produced the Donley County grand champion calf, the Panhandle Champion pig, local grand champion pig, local first grand pig and many other prize winners here and at Amarillo.

His latest achievement was this week when he placed the best Panhandle pig in the Fort Worth show. The barrow was third in the entire exhibit. Two other Leathers' entrants finished fourth and seventh respectively.

## LOCAL VA BOYS WIN STATE MILK JUDGING EVENT

Team Will Represent Texas In Royal Livestock Show

FORT WORTH, March 15.—Future Farmer teams from Clarendon and Denison carried off top honors, respectively, in the milk and meat judging contest which featured "Future Farmers of America Day" at the Southwestern Exposition and Fat Stock Show here Saturday.

By virtue of their victory the two teams will represent Texas at the American Royal Livestock Show in Kansas City in October. Team winners were selected by the combined scores of the three members.

Members of the Clarendon team are Maschil Cole, Johnnie Leathers, and Joe Williams. J. R. Gillham, Clarendon High School vocational agriculture instructor, is the team coach.

Clarendon won over a field of 63 teams in the milk judging event, while Denison was top among 64 competing teams in the meat judging contest.

## Victory Is Surprise

The win came as a complete surprise to the Clarendon group, who just returned Thursday from the Amarillo Stock show.

"The entire team, including myself, contracted colds while attending the Amarillo show, and I was afraid we would not be at our best," Gillham said. "The three members exhibited cattle in Amarillo and were worn out."

The Clarendon team has won the Area milk judging contest for the past two years. All three members of the group placed among the first 11 high men in the contest. Cole placed 4th, Williams 5th and Leathers 9th.

Team winners in order named by judges were Clarendon, Floydada, Kaufman, Whiteharrel, Bonham, Anton, Oglesby, Savory and Mt. Vernon.

## CAR TAGS SALE SLOW AS ONLY 185 REGISTERED

With only slightly over two weeks left in which to purchase 1939 license tags, sale of plates remained unusually slow today indicating one of the largest last minute rushes in the county's history the last of this month.

Only 153 passenger plates, 12 commercial and 20 farm tags had been issued by last night, it was learned at the tax assessor-collector's office.

Compared with the total sales of 1,388 by the deadline, April 1, last year some 1,203 must be bought within the next fifteen days.

Last year for the same date in March, 279 passenger plates had been issued.

Two cars were damaged, one heavily, in a traffic accident west of Clarendon Friday night.

According to deputy sheriff, Guy Wright, an automobile belonging to W. J. Lincoln of Bowie collided with one being driven by Gerald Noble. Wright said Lincoln stated that he was cut off from passing Noble by an approaching car. Lincoln's right wheel struck the left rear part of Noble's auto.

DALLAS, March 15.—Oscar Johnston, president of the National Cotton Council and cotton's most colorful modern figure, will be the featured speaker at the annual convention of the Texas Cotton Ginners' Association here April 13, John C. Thompson, Secretary of the association, announced today.

Work on malking windows and painting and repairing the roof of the Donley County court house got underway this week after the commissioner's court awarded the job to the Commercial company of Houston.

The cash outlay for the job was listed in the court's minutes at \$550. Included in the contract is the replacing of nine shingles or more on the roof; re-tightening of loose shingles; repainting shingles on roof (color specified to be grey), re-caulking of 77 windows, more or less; replacing with new woodwork on windows where necessary. (to be charged extra)

The motion was made by J. H. Hermsmeyster and seconded by G. G. Reeves. Hermsmeyster, Reeves and Marvin Hall voted yes to the measure with Claude Nash voting no.

The awarding of the new job was in line with the renovation of the archway okayed by the court Monday. The job went to the same company for \$25 for work and \$5 for material used.

The commissioners also voted to authorize County Judge R. Y. King to ask bids from J. H. Waters and Speed Brothers of Clarendon relative to caulking windows and making repairs on the county jail.

**NATIONAL COTTON PROBLEM**

With cotton planting time practically here Congress is in the midst of cotton legislation intended in part to keep the South's lint crop from remaining frozen in government loan pools. But to get this pent up cotton into world channels of trade some one will have to take a heavy loss. Secretary Wallace is greatly disturbed over the cotton problem, which instead of lessening has steadily grown worse. The 11,200,000 bales of cotton now held under government loans to farmers may increase to 14,000,000 bales by next fall.

Prompt action certainly is needed in the face of shrinking foreign markets for Texas' most important staple. It looks as if the South's entire cotton exports this season will shrivel to perhaps 3,500,000 bales, as compared with a normal of, say, 7,000,000 bales. But what is to be done to correct this situation? Secretary Wallace wants processing taxes to pay the cost of remunerating farmers who will reduce acreage in 1939. But if American textile mills are to pay, say 6c a pound above the world price for their lint, will that not give emphatic encouragement to the substitution of synthetic fibers and thus further cripple the domestic cotton industry in the long run?

Senator Smith of South Carolina favors giving 3,000,000 bales of loan cotton to farmers to be sold in the world market in return for another one-third cut in cotton acreage, but if the latter be done what will become

of the 1,000,000 cotton farmers and part-time laborers of the South now on relief rolls? Reduction of cotton acreage has brought on a train of troubles which it is difficult to correct at this late day. As repeatedly stated by The News crop control either invites substitution or competition from new regions. In the end it calls for adjustment as farmers grope their way through the maze of restrictions trying to find one profitable source of income.—Dallas News.

**JINX BESETS WEST TEXAS PUBLISHING FRATERNITY DURING PAST TWO WEEKS**

There was a time when Thos. T. Waggoner of the Claude News used to take a club to knock his printed sheets off the wall as they came from the news press. Static caused the sheets to fly against the wall and cling there. Static bothers a lot of folks in this respect, and the Claude publisher was not alone in his grief.

Last week the Leader was handicapped. The editor had been down with the flu for several days. Then on Wednesday, the entire family of the junior member of the firm, Geo. Wayne Estlack, took to their beds. That left one mechanic to set straight matter and ads. A call to Vernon brought Homer Estlack, shop-reared operator-printer-pressman, to the job within less than two hours. That's the first line of defense. The second would have been Austin where two more sons would have come by plane should their services be required.

And as Homer Estlack was coming through Quanah, that bunch was having a peck of trouble, though Homer could have done nothing more than to have offered sympathy. We quote the following from the Harry Koch family sheet of last issue:

"A jinx seems to be campaigning on the trail of the Tribune-Chief force. Everybody from the devil to the Editor has been laid up with some accident or illness lately, and we wonder what will happen next."

And from the Lynn County News the same week:

"This week's Lynn County News is printed on the press of the O'Donnell Press, thanks to W. G. Forgy, editor of that newspaper."

The reason? Well, here's how it happened: The editor got sick Sat-

urday and has been out of commission ever since. Then, several of our good customers brought in some rush jobs (which was all right). Then our display advertising increased a little above average for this time of year (which was all right, too.) Copy piled up, the force began to get behind, and just as we started up the press on the first "run" of the paper late Wednesday afternoon, kerbam! ker-bluey! went something underneath that old blankety blank paper smear—and to cap it all off our pastor walked in just as we discovered the mule-of-a-printing press had kicked a hole in the proverbial dash board.

Mr. Forgy arrived on the scene just as we were about to drink the carbonic, asked us why couldn't we take our type down to his printing emporium, and because of his presence of mind, kind heart, and generosity, we are able to present you this week's issue of The Lynn County News.

As an aid to keeping your colored wash goods from fading, turn them inside out before hanging them up to dry in the sun.

**DON'T TRY TO TREAT COUGHS WITH HOME-MADE REMEDIES**

Coughs Are Danger Signs, Treat Them Accordingly

If you are suffering with a cough of long-standing, and do not know its cause, go to see your doctor immediately. You might have a serious ailment. Even coughs due to cold or exposure often lead to serious complications by breaking down your resistance. For the latter type cough there

is a medicine, compounded by a great scientist, fortified with both Vitamins "A" and "D," given to the world by a great laboratory and sold by leading druggists under the name of Mentho-Mulsion, at an all-time low price of 75c.

Although home remedies are sometimes effective, many of them have been proven merely superstition, so why take chances when Mentho-Mulsion is sold under an iron-clad guarantee of satisfaction or your money back by good druggists everywhere.—adv.

**DONLEY LEADS AGAIN.**

The ramrod of this column has had the flu three times since the first of the year, and this week wound up serving a smallpox quarantine in which he did not own a vaccination at the time, and refused to "take" the disease.

It all came about by talking too much. The last part I mean. Some two weeks ago, after a bunch of us had gotten "on" the local health officers for not enforcing the state laws designed to stamp out smallpox epidemics, the City and County health doctors came to my office and we agreed to "stand for law enforcement if it took the bark off." One of the laws requires that any suspect "shall" be restrained. If it appears that one tiny symptom of smallpox shows up, the victim shall remain under tentative quarantine for a certain number of days to be prescribed by the health officer.

Holy Horrors! Two days later his writer who had been so strong for that big idea, was lying on his back with fever at 103 and sticking out his

tongue and saying "ah" for the health officer. Eight days later the victim was assured that he could go down town, but should be vaccinated. He was. If the health officers had enforced the law from the very start, the number having the smallpox would have been about a third of what it has been. Both doctors frankly tell me this. The situation is rapidly clearing up since the rigid enforcement of the law has been put into effect. May we all help our health officers to help us by reporting to them suspected cases, and any violations of quarantines.

**TOO MUCH GARBAGE.**

Sheriff Earl Booth out at Farwell says the public is kicking against the practice of the public in dumping garbage along the highway. Just think! A few years ago, the folks over the drouth-ridden southwest were canning garbage, before it was garbage. And there just wasn't any garbage left.

**PERSONAL LIBERTY.**

The more selfishness a man has the more he is likely to be making a clamor for personal liberty by asking that his competitor be handicapped by some new law.

**PLEASANT HISTORY.**

WPA history collectors in the piney section of east Texas dug this one up last month when the history of a cemetery was being written: "A tombstone in Anderson county reads: 'Erected to the memory of Jim Pace, accidentally shot as a mark of affection by his brothers.'"

Hastoon Yazzie, who has had six wives, says he never did whip any of them more than one, and that was for votin' the republican ticket.

**MOTHER'S SPHERE.**

There is no further question about

it. A woman should be in the home working out a slogan for a soap, soup or washing powder to win her entry into a radio car contest. (Enclose a quarter for handling, mailing, etc.)

It has about gotten to the point that the only time a horse gets scared, is when he meets another horse.

**AN APPRECIATION.**

Being housed up is robbed of the annoyance when I think of those kindly souls, mamas and grandmamas, old and young, who kindly sent me the better things to eat. These foods were made all the better, and appreciated all the more because they were prepared by earnest hands that don't know the first beginning of hypocrisy. Thanks a lot, neighbors, thanks a lot.

### SAGA OF DAUNTLESS HEROES DRAMATIZED ON SCREEN IN WANGER'S FILM, "STAGECOACH"

With Claire Trevor and John Wayne playing the top roles, Walter Wanger's new frontier drama, "Stagecoach," which will have its premiere showing at the Pastime Theatre on Saturday night at the Prevue, unfolds a gripping story of pioneer courage—the brilliant heritage that has descended to young Americans from men who fought and heaved a nation out of a wilderness. It is a saga of brave women who went with them to bring comfort and love to lonely outposts. It was filmed before a backdrop that took sun, wind and rain thousands of years to build and color—Monument Valley, 180 miles from the nearest Arizona railroad.

Louise Platt, George Bancroft, John Carradine, Andy Devine, Thomas Mitchell, Tim Holt, Donald Meek and Berton Churchill, featured in support of the stars, portray the strange group of passengers thrown together with the coach as it proceeds from Tonto, Arizona, to Lordsburg, New Mexico. John Wayne portrays the role of Kid Ringo, who has been driven to outlawry by perjurers and is determined to kill them. Claire Trevor impersonates Dallas, a woman of easy virtue who has been forced out of town by the self-righteous citizenry. Among the others a Virginia-born expectant mother, a mysterious gambler, a dipsomaniac-

doctor, a blustering bank absconder, a timid whisky drummer.

While the pounding hoofs carry them closer and closer to shrieking war cries and blood-hungry tomahawks, these incongruous individuals are absorbed with the purposes and hates that have propelled them into the hazardous journey. Each knew that Geronimo was on the war path. Each knew this meant torture or death if the coach was attacked—yet they went. They travel across a vast panorama of primitive splendor in a solitary stagecoach which caresses and rocks behind six galloping horses, with each mile bringing them closer to a waiting band of murderous Apaches.

"Stagecoach" was directed by John Ford for United Artists release.

Walker Lane and mother, Mrs. Cap Lane and Mrs. A. C. Donnell were in Wichita Falls, the past week end.

#### EXPENSIVE FLOWERS ARE NOT RAISED FOR CHICKENS MAYOR BELIEVES

Clarendon is proud of the statewide reputation enjoyed by Donley County's blue ribbon chickens, but a healthy fowl does not necessarily need delicate rose petals, garden seeds or grubs from flower beds, Mayor Tom F. Connally said today in rapping sarcastically the practice of many local chicken producers who permit their birds to run free.

Civic minded and flower loving citizens do not go to the expense and labor to raise green feed for neighbor's chickens and a rose petal in the craw does not greatly benefit the flavor of the meat, Connally said.

However, if it is a neighbor's chicken and you have to dissect the bird to recover your seeds, you may as well go on and eat it as it probably wouldn't be of much good to the owner anyway.

BUCKLEY'S MIXTURE certainly makes short work of relieving those stubborn old hang-on coughs and colds that other cough remedies fail to badge, according to Mr. H. A. Allen.  
Mr. Allen says: "For years I suffered every winter with a terrible cough. I have had many sleepless nights and coughed until tears ran, and my stomach ached. I started again with the same old cough this year—but after a few doses of BUCKLEY'S MIXTURE my cough was gone."

## METHODIST CIRCUIT NOTES

J. G. Walker, P. C.

I know my readers are anxious to know the outcome last Sunday at Mc Knight and Bray. The weather was fine and we had the greatest number we have ever had to speak to at Mc Knight. Seems that we had a real profitable service. A goodly number complimented our effort. Looks like we should have had more present. In visiting after services, we learned several reasons or excuses for absence. The sandstorm Saturday tore down one man's windmill and he had to fix it, and we had to excuse him. Another had bought some small chicks and he must stay at home and care for them, saying that he must raise some chickens for the preachers to eat during the coming revival season. Of course, we had to excuse him. Some were doubtless sick and they are excused by the law of the Lord whether the preacher sets his approval or not.

I know we have in many ways a fine people to serve, and we are learning to appreciate them more and more, but they are spiritually weak. We do not mean to say that they are spiritually weaker than other folks, for spiritual weakness seems to be almost the universal condition of church people to day. We are looking for a remedy. We would like to find it, and be able to prescribe

This dramatic scene from Walter Wanger's frontier drama, "Stagecoach," coming at the Saturday night Prevue and Sunday and Monday at the Pastime Theatre thru United Artists release, is played by George Bancroft, John Carradine, Donald Meek, Louise Platt, Claire Trevor and John Wayne.

it to our people in a way that will cause them to accept. We would like to see a sweeping revival begin in the Clarendon Circuit.

In Ezekiel 37 chapter, you will find where the prophet in a vision was carried and set down in the midst of the valley which was full of bones. In taking a survey of his work, he found that there were many, and they were very dry. God said to him: "Son of man, can these bones live?" He said "God thou knowest." The Lord said unto him, "Prophecy upon these bones." How hard it must have been for him to preach to dry bones. Every direction he looked were bones—dry bones. Where the horri-

zon of his vision was enlarged there were more bones—dry bones. Just how he introduced himself I do not know. I wish I did. The Lord must have endowed him with a double portion of His power. He began with a message of hope, not I am sure without demand for repentance. As a result of his message, there was a shaking of bones; flesh began to grow on these bones. The wind blew and life came into these bones and they stood up, a very great number. In his vision he must have felt that he was in Ghost-land.

We do not intimate that the Clarendon Circuit is a continuous spread of dry bones, but as we go in and

out we discover bunches of bones—dry bones. Some of them look like Methodist bones to me. One thing to encourage Ezekiel was his members were all present. They were just dry bones, to be sure, but he did not have to go out and beg them to attend his services. We have to go out after our bones. Well, I'm afraid if we do not have more encouragement that the pastor is going to get bony, too.

We are anxiously looking forward

to our meeting at Goldston next Sun. Quarterly meeting as previously announced next Sat. (18th) at McKnight.

More than "making the motions" when you change to OIL-PLATING

...the oil-change *plus*

Dump Winter-fouled oil. Whatever you do, drain and refill now with something. But drain and refill with Conoco Germ Processed oil and then your engine's OIL-PLATED. Then it's got more than swell fresh oil down in the crankcase—it's got another big plus all the way up... It's got fresh surfacing... OIL-PLATING. That comes from the actual union of this patented oil direct with inner engine surfaces. Conoco Germ Processing gives this oil so much "power of attraction" that it cannot drain down and leave engine parts bare, though

your car stands by the hour or speeds by the hour.

Never all Spring and Summer, with Germ Processed oil, can your engine suffer rasping "dry starts"... not with every square inch always oiled in advance by drain-proof OIL-PLATING. Nor will four to five thousand revolutions per minute whirl away this implanted OIL-PLATING. It stays on. It helps the oil-level to stay up. Your OIL-PLATED engine and Germ Processed oil will both be giving you plus mileage. Change today to Your Mileage Merchant. Continental Oil Company

### JOHN BUGBEE IS INJURED IN AIDING STEER

John S. Bugbee received medical attention for a two-inch head cut Monday afternoon when a steer resented Bugbee's efforts to extract a bone lodged in the animal's throat.

The animal had been put in a chute and Bugbee was working for the bone when his assistant, whose job it was to hold the steer's head down, relaxed. Bugbee was injured when the animal suddenly reared his head.
