Jr. High Boys Win District - End Basketball Season

The Clarendon Junior High boys have completed a very successful season in basketball by defeating White Deer in a play-off game at Groom Thursday night, March 7 by a score of 33-31. It was a very close game all the way with Clarendon holding the lead throughout the last quarter. Jim Thomas dribbled out the last 3 minutes to assure the victory. It was a very fine team effort on the part of all of those who participated. This victory would not have been possible without the help of the last boy to be suited for the team.

There was a very good turnout of Clarendon fans for this game. This proved to be a great asset for the team.

Scoring for the game went as follows: For Clarendon—Jim Thomas 16, Mack Tomlinson 11, Larry Longan 3, Ronnie Hill 3. For White Deer—Ricky Haskins 12, Bobby Davis 7, David Urban-czyk 5, Wesley Gardner and Bobby Merchant didn't score in the game, but were valuable on the backboards and on defense.

"This has been by far the best boys' team that I have ever coached. This group of boys has a fine attitude as well as exceptional ability to play ball" stated Bill Thomas.

Statistics for the season: Offensive average, 42 scored total 701 points; Defensive average 16 scored against total 286 points. Individual scoring: Jim Thomas 9.6, Mack Tomlinson 9.0, Larry Longan 6.0, Ronnie Hill 5.8, Wesley Gardner 5.0, Bobby Merchant 3.0, Roy Williams 2.4, Johnny Floyd 2.3, John Moore 1.5, Jeff Howard 1.3, Scotty Lindley 1.3, Steve Vaughan 0.5, Eddy Helms 0.3.

DONLEY RED CROSS DRIVE BEGINS FRIDAY

The Donley County Red Cross Campaign will be kicked off Friday morning, March 15 under the direction of Mrs. Edna Smith, campaign chairman. The Donley County goal for this year is \$1,697. This is a slight increase over last year to help cover a 21 million dollar deficit created by the escalation of the war in Vietnam.

"We have a number of Donley County boys in Vietnam, and this is our opportunity to show them we are behind them. We have already received two checks from two Donley County boys in the amount of \$10 each for the campaign. These two boys are in the thick of the battle, and if they can afford to give that much and fight the war, what can we afford to give? We have 100% stickers for every place of business where employees and management participate 100%. Campaign workers are giving both their time and money to make the drive and it would help them tremendously if someone in each place of business would solicit each of the employees and have contributions assembled when workers come around," stated Mrs. Smith. "If for some reason a worker fails to contact you, make sure your support gets in the pot by leaving it at either of the Banks. Regardless of whether you think the boys should be in Vietnam or whether you think the Administration policy is right or not, failure to give only penalizes the boys. The Red Cross is doing a great job in Vietnam. If they were not, I doubt if the combat soldiers would give \$10 to support them," Mrs. Smith added.

RAIN AND SNOW ADD TO MOISTURE TOTAL

Mostly rain with a little snow mixed in brought our moisture total up some more over the week end while the area above the caprock was receiving blizzard type weather with blowing, drifting snow.

Our official measurement here in town was .36 inch of moisture which brings our monthly total to .71 and the total for the year to 4.14. It has been quite some time since residents of this area could boast such a nice moisture total for such a short portion of the year, only 2 1/4 months.

Some folks are so confused that just talking with them will confuse even the already confused.

I guess we are a poor loser — especially when it comes to taking of weight... The very thought of dieting causes all manner of hunger pains to start working.

We should pick our friends with utmost care — But to pick to pieces we shouldn't dare...

A lot of people had rather want than to work.

When we sing our own praises we should never let our voice get too high. To do so might cause someone to hear us...

Wouldn't it be wonderful if all of the taxing agencies would adopt the slogan "Your money back if you are not satisfied".

I guess we shouldn't ever

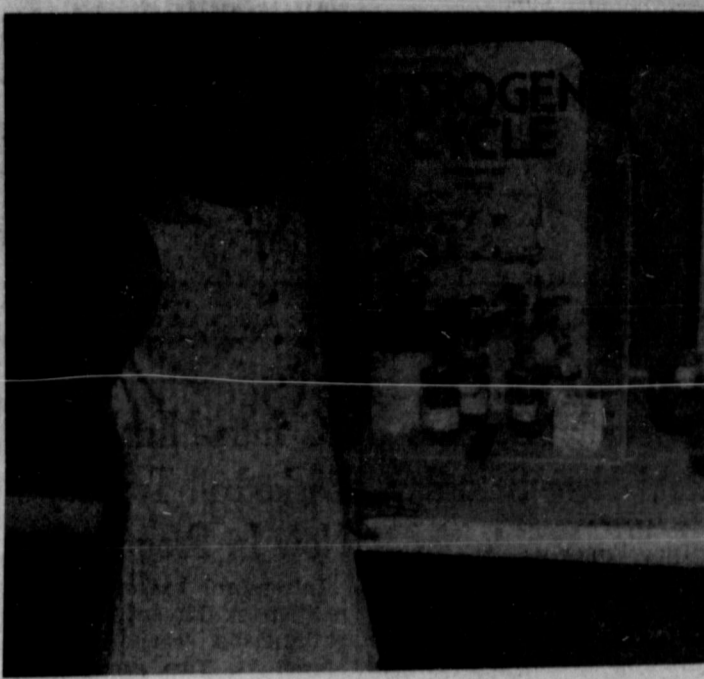

fuss because it is the little ups and downs in life that makes one a better person. If all of life's race consisted of breezing down the final stretch to victory then we would soon be bored to death with even that. It is the fact that we can conquer in the battle of life in spite of hardships and setbacks that makes the final victories so thrilling. And even though all taxes come due in rapid succession at the beginning of each year, there can always be a quiet time after the misery is over. The paying of taxes is not nearly as dangerous to our democratic way of life as the modern day habit so many people have of wanting to find a way to lasting security by getting a share of the public tax till.

Mst of the world's troubles are produced by those who never produce much of anything else.

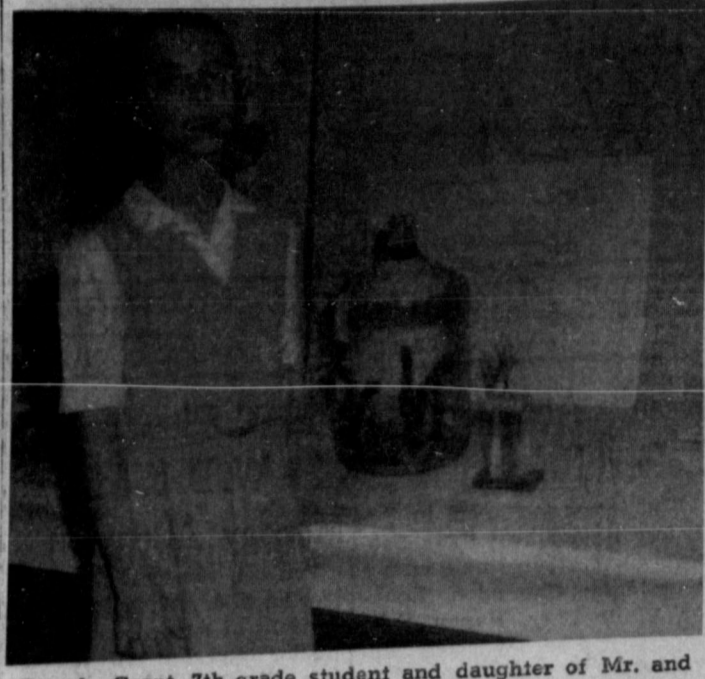

The only thing worse than paying taxes would be not having anything to owe taxes on.

HOLD ON TO SOMETHING STRONGER THAN YOUR BOOT STRAPS...

Our forefathers pulled themselves up by their boot straps, so to speak. If we get out of our situation today, we must grab hold of a power much stronger. And we must act soon or the time

may be running out on our future as a free people...

When our nation was born it came from the love of a people dedicated to God. They were inspired by a desire to be free, and led on by a determination to prove that given a chance to make it on their own there would be no limits to what they could achieve. This they proved with blood, sweat and tears. But they did prove it.

But after the length of two lifetimes something seemed to happen. We became afraid to depend on God and our own boot straps. We began looking to government. We turned again to foreign entanglements and became embroiled again. We began to lose the toughness of the pioneers and the do or die spirit of those who brought us our freedoms. We turned our hopes toward Washington instead of trusting in our own strength. We traded our votes for promises and saw these hopes fall by the way.

In this short time we began to see a nation that had been founded upon Faith in God slowly turn its head on the one God who had blessed our existence. We heard professors say that God was dead and we only winked at their conversations. Soon our courts took up this thinking and it became illegal to have prayer or scripture reading in our schools. Surely God could not bless us in this. Foreign power who would yet destroy both God and our freedom got us embroiled in wars and conflicts around the

world. We looked ever to government to save us. We became deeper and deeper involved in strikes, riots and wars. Enemies were found for us halfway around the world, as we are being encouraged to destroy ourselves.

America must awaken soon or it will be too late. If we will arm ourselves with Bibles and ballots and turn first of all to God in prayer as did our forefathers perhaps God would hear us. Then, if also as our forefathers did we could depend again on pulling ourselves into place by our bootstraps — our own hard work, sweat, and tears.

Then and only then can we hope to receive the blessing that we were created to receive. There is only ONE GOD, and No Santa Clause.

NEWS FROM

Congressman Bob Price

18th District, Texas

A few days ago, the President delivered his farm message to Congress. Main proposals of the program are for permanent extension of the commodity legislation enacted in 1965; a three year extension of the Food for Peace or PL 480 program; and a bill to create a "food bank" of government-held stocks of wheat, feed grains and soybeans. The President also called for Congressional hearings on "farm bargaining" and repeated earlier requests for a variety of more Great Society programs for rural areas.

By and large, the farm message was received without any great enthusiasm on Capitol Hill. Senator Ellender, Chairman of the Senate Agriculture and Forestry Committee was quoted as saying that he did not feel that Congress would or should enact "permanent" commodity programs. The Chairman of the House Agriculture Committee on which I serve, Rep. W. R. Poage, did not introduce the President's proposals.

Many members considered the message rather partisan in tone, but in a "presidential election year" this type of political appeal isn't surprising. Portions of the message were, I felt, quite misleading and I believe it is especially important that farmers understand some of the implications.

In describing the 1965 Act, the President said: "To terminate the 1965 Act would bring catastrophe and ruin to many farmers. Cash prices would fall — and there would be no government payments to cushion the impact. Farm income would drop by as much as one-third — back to 1959 levels". By these words the President leaves the clear implication that the refusal by Congress to extend the Act this year would cause catastrophe and ruin in rural America.

In plain and simple language, this is HOGWASH! The fact is FIRST that the programs covered by the 1965 Act run through 1969. New or modified programs aren't necessary—at least by the calendar—until 1970. So any changes could be made next year—after the elections. In the unlikely event that Congress failed to act before the termination of the 1965 Act, each of the major commodities—feed grains, wheat and cotton — have permanent "back-up" programs on the law books.

For wheat, there would be another farm referendum on a mandatory wheat certificate program with price supports on domestic and export up to 90% of parity; for feed grains, the Secretary could set price supports at anywhere from 50 to 90 percent.

cent of parity; in the case of cotton, there would be a marketing quota program with price supports from 65 to 90 percent of parity.

So it seems to me that the dire prediction of "catastrophe and ruin" to farmers if the 1965 Act is not extended this year is on the outer fringe of the credibility gap. I don't believe that the major commodity programs are doing all they can for farmers and I don't think farmers are satisfied with them.

Better farm prices are certainly needed and as Committee hearings proceed, I plan to do what I can, either in PL 480 Legislation, a grain reserve bill, or more commodity programs to prevent government manipulations which depress farm prices and are responsible, along with continually rising farm operating costs, for the present low level of farm income.

BELL BROTHERS RECEIVE HONORS

Richard Bell, son of Mr. and Mrs. Shelby Bell, has been awarded a trophy as Outstanding Offensive Football Player of the Year at Camp Pendleton, Calif. This is quite an honor considering there are 21 teams in the conference. His team played for the championship and lost only by a field goal kicked in the final 12 seconds. Shelby and Richard entered Naval Service November 23, 1965 and graduated in the Scholastic Honor Society, highest grade group of Hospital Corps School June 16, 1968. After completion of advanced training at the Oakland Naval Hospital they volunteered for Fleet Marine Corps and were sent to Camp Pendleton. Both boys now work in the dispensary and medical records while awaiting their next duty assignment.

Mr. and Mrs. Shelby Bell, accompanied by sons, Robert, Stephen, and Jack recently

visited their older sons, Shelby and Richard at Camp Pendleton, California.

ASTER SEAL PROGRAM AIDS HANDICAPPED

Because of the steady growth in numbers of crippled children and adults in Texas, the Easter Seal Society for Crippled Children and Adults of Texas has stepped up its rehabilitation services.

State-wide Easter Seal services were provided for 17,622 Texans last year, Wesley P. Knorpp, Donley County Easter Seal Representative, pointed out.

Twenty-one treatment centers are in operation in Texas. They include treatment and rehabilitation centers, sheltered workshops, recreation and educational programs and many others.

"Through these programs persons with a wide variety of handicaps receive the help they need to lead normal lives," Mr. Knorpp said. The largest group served

include those with major deformities of bones and joints, severe speech defects, cerebral palsy, arthritis, muscular dystrophy and multiple sclerosis and stroke. The Easter Seal Campaign which provides funds for continuation for these services began March 1 and continues through April 14, Easter Sunday.
