Broncos whip Boys Ranch 30-14

The Clarendon Broncos made a homecoming crowd happy Friday night by beating Boys Ranch 30-14. The Broncos offense controlled the game the last three quarters and the defense played well enough to keep the Roughriders in check.

The Broncos bounced back after a total let down the week before at Fritch. The Fritch game was Head Coach Buddy Sharp's worst defeat in thirteen years as head coach. The previous worst was a 26 point loss. The Broncos looked like the Fritch game was still with them the first quarter, as they failed to score after gaining good field position and two first downs behind the running of James Ariola. Boys Ranch took over on the Bronco 40 and went the distance after a Bronco fumble and kicked the point after to make the score 7-0. The first quarter ended with the same score.

In the second quarter, a Roughrider quick kick was fielded by Robert Youngblood and returned 30 yards to set the Broncos up on the Riders 40 yard line. Behind the running of Ariola, Randy Crump and Leland Howell quickly moved to the 2 yard line where Ariola scored and a trick pass play from Howell to Youngblood gave the Broncos a 8-7 lead. Youngblood appeared to be leaving the field but turned up and took the pass for two points.

The Riders failed to move the ball and punted to Youngblood who got behind the wall and returned the punt 45 yards but fumbled and the Riders recovered. They failed to move the ball and punted again only to see Youngblood return it again 30 yards to put the Broncos in business at the 45 yard line in Rider country. The Broncos led by Crump and Ariola moved to the 20 yard line where Howell hit Clay Sharp with a pass to the five yard line. The next play saw Ariola circle his right end and score standing up with 20 second remaining in the half. Howell hit Brent Hayworth in the end zone for the two points. The Broncos went in at half leading 16-7.

The Broncos fumbled early in the 3rd quarter to give the Ranchers a scoring chance from the Bronco 25 yard line, but on third and one Russell Alexander threw the running back for a big loss to stop the drive. The Broncos moved to the Ranchers 25 yard line and Howell hit

Hayworth with a perfect pass for the TD and Howell ran in the extra point to make the score 24-7.

Crump's punts kept the Ranchers in the hole and Youngblood intercepted a pass to set up the last Bronco score. Marcus Smith scored from the 5 yard line to bring the score to 30-7. The Riders scored late in the game to make the final score Broncos 30 and Boys Ranch 14.

The highlights for the Broncos were the running of Ariola and Crump and the passing of Howell. Ariola had 88 yards on 17 carries and

Crump had 45 yards on 9 carries. Howell completed 4 of 6 passes for 88 yards. Ariola and Mike Hook were named offensive players of the week and Alexander was named defensive player of the week. Hook blocked well at his tackle position. On the dark side, the Broncos lost Dan Nichols to a knee injury. It is unknown how long Nichols will be out of action.

The Broncos are 2-2 for the season and end their non-conference play Friday night at Childress.

The Bobcats will be the fourth AAA team the Broncos have played and the Cats will be the best of the bunch. The Cats have good size and speed and blend a good passing attack with a good running game.

Fire Prevention

Week Oct. 6-12

October 6-12, 1985 has been designated as National Fire Prevention Week. The Clarendon Volunteer Fire Department will be planning a variety of activities in observation of this event. A schedule of these activities will appear in next week's Clarendon Press. In the meantime, local citizens should take the time to learn fire prevention measures and to practice them thus making their property safer and increasing their chances of surviving a fire should one occur.

We are approaching the time, statistically, where fire deaths are the greatest. November, December, January, February, and April are the most deadly months of the year. There are many factors which probably account for this including the fact that more people are home for longer periods of time, homes are being heated by faulty equipment, and people just basically become more careless. The safest months are June, July, and August. There are over 2½ million fires yearly in the United States which result in over 6,000 deaths to citizens and firefighters and amount to over \$6,430,000,000 in property loss. Although some fires are unpreventable such as those caused by lightning, accidents, etc., investigation shows that cigarettes and faulty heating and wiring are the leading causes of structure fires and carelessness and complacency only increase the chances of these types of fires. The Clarendon Firefighters urge local citizens to take a close look at their homes and businesses and work to spot possible fire hazards and correct them before they become the source of a fire. Installing smoke and or heat detectors can definitely save lives. The percentages of multiple death fires which occur during the following hours are listed as follows: 4-8 p.m. 0.9%, 8 p.m.-midnight 15.8%, midnight-4 a.m. 40.5%, 4-8 a.m. 25.1%, 8 a.m.-noon 13.0%, noon-4 p.m. 4.7%. National 4-H Week Oct. 6-12

National 4-H Week, October 6-12, reflects on the role of youth in shaping America.

Some 75 4-H members in Donley County, part of the 180,000 members in Texas and nearly 4.5 million across the country, will be participating in the week long celebration using the theme "4-H For Youth, For America."

"What we do for our youth today, we do for America tomorrow," points out Terry Floyd, county 4-H program leader with the Texas Agricultural Extension Service, the Texas A&M University System. "Through 4-H, young people can acquire knowledge and develop life skills that enable them to become self-directing, productive and contributing members of our society. Specifically, they learn good health habits, develop respect for themselves and others, explore career and leisure time opportunities, share responsibility for preserv-

ing the environment, learn how to use technology, and develop leadership and citizenship skills through participation in 4-H. And, that's something to celebrate.

"But 4-H is not only for youth," says Terry. "It's for adults, who as volunteer leaders can share their skills and expertise with young people. It's for families, who can participate in the fun and learning together. It's for the community, which benefits from the community service carried out by youth. And, it's for America, which benefits as a

new cadre of leaders takes its place in our society."

It is through this network of volunteer leaders, state land grant universities, state and local governments, and the U.S. Department of Agriculture that 4-H has been able to stimulate youth to develop life skills, notes Terry Floyd.

occur during the hours that most people are asleep (8 p.m. to 6 a.m.) and since most fire deaths are due to smoke inhalation and not to the fire itself, it is important that smoke detectors be properly installed and maintained. In Texas, it is a state law that all rental property have smoke detectors installed. This law was instituted approximately a year ago but it is a good idea that everyone have detectors. There have been very few instances reported where deaths have occurred when detectors were in place and functioning. There have been many reports though of people escaping a fire because of the detectors. They are relatively inexpensive and the an-

pearance and capabilities have really improved in recent months. There are even some that look like tree ornaments to place on your Christmas tree when you use live tree and bulbs.

Fire Prevention Week was instituted in 1922 and has been observed every year since then. The Clarendon Volunteer Fire Department urges all citizens to practice fire safety all year round and "Learn Not to Burn" whenever you are. Don't let your fire safety awareness be limited to one week per year. If you need any further information or if you have any questions you would like to have answered contact any Clarendon Firefighter and they will be glad to assist you.

Tyler Topper celebrates 3rd birthday

The weekend of the 21st began the 3rd birthday celebration for Tyler Topper. Tyler is the son of Keith and Teresa Topper of Plainview.

Tyler's grandparents, Mr. and Mrs. Bill C. Hill of Clarendon, arrived on Friday afternoon. The evening family dinner was enjoyed by everyone and plans for the birthday parties were finalized.

A birthday dinner for Tyler and his friends began on Saturday evening at 7:00 p.m. at McDonald's. The dinner assisted the children in games and activities on the McDonald's playground. After dinner was served, Tyler blew out the candles and the cake was out. As the dinner served the cake, Tyler opened his gifts from his many friends. As the party ended, the dinner distributed party favors and helium balloons to everyone.

The traditional family birthday party was held at 2:00 p.m. on Sunday, September 22nd. Tyler chose "Sesame Street" characters for the party theme, with balloons and streamers decorating the home. The Sesame Street theme was carried out with place settings and party favors, and the "Big Bird and Cookie Monster" cake was used as the table centerpiece. Cake, rainbow streamers, and fruit punch was served to each of the guests. After Tyler opened his gifts, the remainder of the afternoon was spent enjoying his new toys. Other family members attending the party were Tyler's aunt and uncle, Marianne and Tony Hill of Amarillo. Tyler then chose to return home with his grandparents for a short visit.

JV loses to Wellington

Last Thursday the Clarendon Bronco junior varsity football team played an outstanding game against Wellington. The fans saw a hard hitting Bronco defense nail many of the Rockets to the ground with aggressiveness that they had not seen this year. Clarendon drove the way more than seventy yards was stopped inside the Wellington ten yard line as time ran out.

Wellington scored in the first quarter but Clarendon crashed through on the extra point as Toby Hatley blocked the kick. Clarendon struck quickly in the second quarter with a forty-five yard scoring pass from Wes Hatley to Jason Kinnert in a third down and five. Toby Hatley kicked the extra point to make the score 7-0. Later in the second quarter the Broncos had a goal line stand stopping Wellington inside the Clarendon 20. Wellington scored in the third quarter with a big play.

Monte Hollar, Walt Thompson and Arthur Harris recovered a fumble each to stop four long Skyrocket drives. Other Bronco's recovering fumbles were Jason Kinnert (2), Michael Moore and Todd Phillips.

Clarendon scored in the fourth quarter on a power run by Brad Shadle from the two yard line. The two point conversion was stopped and the score was 13-14. A halfback pass was intercepted by the Rockets that set up the last score of the game. With less than two minutes left in the game, the Broncos the length of the field only to come up without a score, but the Broncos showed a tremendous amount of confidence, poise, and character in a pressure packed game.

The offensive players were Wes Hatley, Kinnert, Shadle, Chris Ward, Billy Wiggs, Derek Howard, Toby Hatley, Mike Moore, Monte Hollar, Danny Gaines, Todd Phillips, Dale Phillips, Arthur Harris, Shawn Hermesmeier, and Danny McCampbell.

They had a good effort with approximately 200 yards. The specialty teams played hard with extra effort from Chad Hommel, Randy Gaines, Toby Hatley, Donnie Chambers.

The Bronco defense hit hard, especially in the second half with Jason Kinnert getting the pancake award, the best defensive tackle or offensive block of the game. SPOTLIGHT On Today's

By REV. TONY COLEMAN

TRIALS
Why does God allow things to happen in our lives that are difficult to handle? Why does He allow death, sickness, heartache, etc...? He allows these things in order to strengthen our faith in Him. God wants to have us to get down to the nitty gritty of our true belief in Him. It is one thing to say we love Jesus and believe in God. It is another thing to trust Him when we are surrounded by trials. God wants to know that we will trust Him, even when our world may be crumbling down around us (Jam. 1:2-4).

How does a track man build endurance into his body? How does a weight lifter become strong? How does a great mind develop the ability to think? People from all these areas of life endure pressure in order to develop the attributes (qualities) they desire in their lives. God in the same manner, applies the pressure in our lives to develop strong trust in Him. God is looking for faith in you that keeps on keeping on, and keeps believing in Him in spite of what happens.

So what are you as a Christian supposed to do when you are faced

with problems that seem unbearable? You need to commit these problems to God. Remember that He knows what is best for you because He does. Thank Him for the trials and believe that He will work in your life to bring you to a deeper trust in Him. 1 Thess. 5:18 says, "In every thing give thanks: for this is the will of God in Christ Jesus concerning you."

Remember, God always gives us the grace to bear any burden that shall come our way. There is no trial, no tests, and no burden that is too big that our God cannot give us the grace to be able to handle it.

Watt's Happening in Hedley

by Peggy Watt

Almost everyone in Hedley knows by now that I'm no longer working at The Clarendon Press. On September 23, I started helping at the Senior Citizens Center in Hedley. I will continue to write the 'Watt's Happening' column. Helen Woody is probably the best boss in the world, but Hedley is 14 miles closer to Giles than Clarendon. At the risk of having my copy cut, I want to say that Helen is one of my best friends. She was my friend before I started to work for her, and amazingly, she's still my friend.

If you've had an occasion to cross the railroad tracks at Giles lately, you know that it's almost impossible to cross. If your car was very close to the ground, you were apt to get stuck on the rails. Last week, Terry Bailey got tired of worrying about whether JoAnn would get hung up on the tracks as she went to school and went to work, and repaired the crossing. He used the blade on his tractor and pulled the lava rocks up until it's almost smooth to drive across. Terry, the people of Giles appreciate your civic mindedness!

Johnny Linville is home after having eye surgery in Amarillo recently. When I talked to Della, she told me he was doing fine. I don't know about anybody else, but to me the fact that there are doctors that can use their knowledge to make a blind person see is a miracle.

When I wrote about the Cotton Festival, I was either sleeping or looking at the month of September. In last week's paper, I wrote that the dates will be October 13 and 14. That was wrong. It will be October 11 and 12. Blackie will be in charge of the entertainment, and Sue Weatherly will have some beautiful floats in the parade. Those two facts were correct.

Mrs. Eva Canada is reported to be doing well following her surgery in St. Anthony's Hospital in Amarillo last week. Clara Baggett visited her Thursday and told me she would probably get to come home Tuesday of this week.

Fred, Keith and Guy and Bill Mullins got Moon Mullins moved into his new home Saturday. It's handy to town so it will be better for him.

Helen Lamberson went to Amarillo to visit her sister, Betty Hix, last week. They went on up to the Red River ski area for the weekend.

Charlie and Eunice Johnson visited family in Hedley over the weekend. They attended morning worship services at the Church of Christ Sunday morning. Charlie said that when they left White Deer it was snowing a little.

Otis and Esther Owens lunched at the Senior Citizens Friday. I hadn't met Otis' lovely new wife until then. I want to wish them every happiness and know that everyone would add their best wishes to mine.

Etta Mae Cherry went to Amarillo for a check-up with her doctor Thursday. She told me she was doing fine and is home and glad to be there. Royce and Sis Chrisler of Midland, Lynn and Ginie Cherry of Amarillo, Melanie Cherry of El Paso and two friends from Wichita Falls spent the weekend with her.

Pick Cox and Amelia Holly visited his father, Frank Cox, in the nursing home at Paducah Saturday. They also visited with Laqueta's mother, Mrs. Edna Ruker in Childress.

Leroy and Opal Hartwell, James and Nonie Hartwell of Amarillo, Phillip and Arletta Cobb and Randall of Wellington visited their mother, Mrs. Nora Hartwell Sunday. She's one of the luckiest mothers I know. Almost no week passes that her children don't visit her. I happen to know that she's one of the best cooks in this part of the country, and they might be coming to get some of their mother's good home cooking.

D.K. and Beaulah Hall went to Dallas last week with their daughter, J.C. and Vivian Harris of Gruver to visit their son, Emmet and Margaret Hall of Burleson.

Bill Walls of Hereford visited his aunt and uncle D.K. and Beaulah Hall last week.

Speaking of lucky mothers, last week Boots and Eunice Ward's kids came and painted their house and finished the siding. Those helping out were Ronnie and Becki Ward, and T.J. of Hugeton, Kansas, Chris and Jason of Clarendon, Ricky Ward of Lakeview, Lorene McCrary, Dean, Shanna, and Shanna, and Leon Ward and David of Hedley.

Carl Cox, Joe and Lucy Poole, Gary and Jeanet Burns of Amarillo came and insulated and put siding on Laqueta's house and remodeled one of her bathrooms.

J.T. Lamberson was in Pampa two days last week on business. He was tending to business while Helen was playing in Red River with Betty.

Mr. Elmo Kennedy came home from the hospital in Amarillo after having eye surgery there last week. He's catching up on the TV he

HEDLEY FFA OFFICERS, [standing L-R]-Carol Glover, treasurer; Schell Holland, secretary; [sitting]-Kelly Harmon-student advisor; Ricky Springer, president; Keith Watt, reporter; Steve Mullins, vice president. Not shown - Tonya Moore, student advisor.

missed while he couldn't see.

S.J. and Gail Johnson went to Wellington on business last week. She told me it was nice to get away from the kids with just S.J. once in a while. I know the feeling.

Mrs. Cassie Owens is doing well. She's at the Rehabilitation Center in Amarillo where she is having physical therapy. Faye Naylor told me she hoped to be able to come home before too long.

Melissa Beasley and Benjamin of Memphis visited her grandparents, Clyde and Mildred Hoggard, one day last week.

Jerry Frye and Jamie of Amarillo and Matt Naylor of Memphis visited their parents and grandparents, T.E. and Faye Naylor over the weekend.

Candi Hoggard spent the weekend with her grandparents, Clyde and Mildred Hoggard, last weekend. She visited with Jana Hill and Jennifer Reiken while she was here.

Clyde and Mildred Hoggard, Bobby Hoggard, Bill, Audra, and Candi attended a fifth birthday party for Felicity Wigginton at Brice Sunday. The party was hosted by her parents, Tim and Jody Wigginton, and brother, Joe.

T. and I took mother to St. Anthony's Hospital in Amarillo Monday where she will undergo tests for her heart condition. Hopefully she won't have to stay long.

The Juniors at Hedley High School took their TEAMS Tests on Tuesday and Wednesday. This test is required by the State of Texas to every student who will be graduating in 1987. A student must pass this test before they can receive a diploma. They will have four chances to pass it. If they fail the first one, they will have another chance in May 1986, in October 1986, and again in May 1987. I don't know about any other parent of high school juniors, but if mine doesn't pass it the first time, I'm going to make him wish he had!

Approximately 25 people attended the September birthday/anniversary party at the Senior Citizens Center Thursday, September 26. They enjoyed a covered dish supper followed by fun and games. September birthday people were Verda Hinds, Dorotha Crawford, and Augusta Latimer.

If you haven't been by the Center to see the beautiful quilt the senior citizens will be giving away at the Cotton Festival, you really should do so. It is on prominent display in the main room at the Center. You may get tickets on the quilt for \$1.00 donation for one ticket or six tickets for a \$5.00 donation. Almost all the active senior citizens have the tickets. The quilt is almost as pretty on the inside as it is on the outside. The ladies quilted it in an elaborate pattern with swirls and flowers and it is one that I'd certainly like to have. I can quilt but have never taken the time to make an elaborate design as I did so. I always simply quilt around the pieces or in quarter circles.

The Board of Directors will meet October 8th in the Center. They have several items of business to attend to. I suppose these meetings are open to the public. If they aren't I haven't heard about it.

Judd family holds reunion

All of the 12 children of the late I.T. and Dona Judd attended their annual family reunion over the Labor Day weekend at the community recreation building at Clarendon. Some began arriving Friday in RV's. Some visited in the home of John and Willene. The hosts were John and Willene and Preston and Jewell Judd of Clarendon.

The late Mr. and Mrs. Judd were the parents of 17 children, of whom 14 grew to adulthood. The Judds settled in the Roundup community about 20 miles northeast of Wellington in 1924 from Carson County. They lived in the Roundup community until 1940 when they moved 3 miles south of Wellington. Mr. Judd was a farmer. In 1943 they moved into Wellington where they operated a gas station and grocery store for several years.

Thurston Judd, the oldest child, was killed in a car accident December 5, 1950, and another son, Denny Judd, died August 19 of this year.

Traveling the greatest distance to attend the reunion was Monta Judd, widow of Thurston Judd, and their son Paul Judd and his daughter Miss Suzette Judd, all of Portland, Oregon.

One reunion highlight came Sunday when the group presented a birthday cake and sang Happy Birthday to Miss Tonia Duggon of Yukon, Oklahoma on her 16th birthday.

TOO MUCH WAX
Individuals who have an overabundance of ear wax (cerumen) usually have one or more of three problems: [1] overly active wax-producing glands, [2] narrow or curved ear canals, or [3] secretion of wax that is harder or softer than normal. In the elderly, the presence of long hairs in the ear canals contributes to impaction—a common cause of hearing loss. And because wax accumulates slowly, diminished hearing may go undetected.
It is tempting to clean the ears with a cotton-tipped applicator or swab. Doing so may push wax deeper into the ear canal and against the drum; permanent damage may result. A better approach is removal at a physician's office with a special instrument.
Wax accumulation can often be prevented and existing wax removed, with nonprescription products designed for that purpose. Many wax-softening products contain either glycerin or propylene glycol. Olive oil, also known as sweet oil, has also been used. After product use, the ear may be washed with warm water using a soft rubber syringe [not recommended for children under 12 years].

Senior Citizens News

Thanks to Blanche Gray for the beautiful fall flowers. We have enjoyed them.

Sixty-one attended the September birthday/anniversary salad supper on Tuesday, September 24th. Birthday people attending were Jay Gould, Creed Smith, Wallace Sides, Ruby White, Clarence House, Dorothy Hall, Raymond Hinkle and Royce Hall. Anniversary couples attending were D.W. and Lele Swain and Skinnie and Gwen Putman. Frank Reid got the door prize. The mini-cuspidors went to Buddy Derr, Raymond Hinkle and Jack Davidson. We had music entertainment by Creed and Jake Smith, Dee Williams, Hugh Neuhaus, Ray Anderson and Fred Fortenberry. Creed, Dee and Hugh started by practicing for the Tumbleweed Talent Show then the others joined in. We all had a good time.

Arts & Crafts group is really buzzing now, getting little pink donation tickets out and working on items for Christmas in November. Attending Wednesday, September 25th were Nova Neuhaus, Pat McCombs, Thelma Behrens, Lucille Smith, Alma Bingham, Bradis Ballew, Ruby White, Gwenith Goldston, Fannie Wilson, Della Allen and Carol Hill. Chairman, Nova Neuhaus, is encouraging one and all to help with items for the bazaar. Maybe you can't come down on Wednesdays to work with the group at the center, we want you to know items can be made at home for this project. If you need more information call the Center or Nova at home 874-3682. The group

presented the Center a beautiful large punch bowl, plates and cups, a service for sixty, to be used at the Center for various occasions. Director Jean Baten, along with members of the Board of Directors, want to thank this group for this special donation.

Board of Directors election for four places was held September 26th and 27th. Results were for the following: Robert C. Jones, Murle Butts, Lucille Smith and Tennie Smith. Donley County Senior Citizens Association Board of Directors to be effective November 1, 1985 are: Clyde Putman - 2nd year, Billy Ray Johnston - 2nd year, Creed Smith - 2nd year, Robert C. Jones - re-elect, Murle Butts - re-elect, Lucille Smith - new, Tennie Smith - new.

We want to extend a hearty thank you to those going off the board for their service to the Center. Viola Bones and Jay Gould did a fine job and we truly appreciate their services.

DON'T SHOOT
AT POWER
LINES!

NEVER SHOOT AT POWER LINES or the insulators that hold them, because the result could be a dangerous downed electric line. A severed line could cause a serious electrical outage, and the downed line itself could be extremely hazardous.

ADDITIONAL SAFETY TIPS:

• Use Power Tools Wisely
Be sure wiring is in good condition and all circuits are grounded. Never use electric tools in the rain or on wet surfaces. Also, when buying new equipment, look for the "UL" seal of approval from Underwriters Laboratories.

• Keep Children Away from Electrical Outlets

Don't let small children play near electrical outlets. A child could put some object in an outlet when you're looking away. A wise safety precaution would be to put safety caps in all wall outlets.

• Always Disconnect Cords by Pulling on the plug

When disconnecting electrical items, be sure to pull on the plug — not the cord! If you pull on the cord, you'll eventually wear it out and expose hazardous wires. Also, don't overload extension cords or outlets.

Remember **REDDY** Supplies the energy — but only **YOU** can use it safely!

CARD OF THANKS

Dear Friends of William S. (Bill) Greene & Family,

I am humbled by the magnitude of your kindness. Every act of thoughtfulness, your visits, your calls, your notes, your words of encouragement, your generosity in feeding my large family, your memorials, the beautiful plant and flowers, and your prayers have given me and my children a deep appreciation of our loved one's and our many friends. If I have failed to thank anyone personally for your act of kindness, it has been unintentional.

Thank you for your endearing friendship.

Check Closely! Each "No" answer Means Fire Danger.

HOME FIRE INSPECTION CHECK LIST

	Yes	No
1. Do you make sure clothes or curtains or furniture are kept away from stove or heater in your house?	<input type="checkbox"/>	<input type="checkbox"/>
2. If you have an oil stove or oil heater, is it kept level and clean, and does a regular stove man inspect it for leaks and trouble at least once very year?	<input type="checkbox"/>	<input type="checkbox"/>
3. If you have a gas stove or gas heater, and you smell escaping gas, are you ready to call the gas company right away?	<input type="checkbox"/>	<input type="checkbox"/>
4. If you have a fireplace, do you keep a screen in front of fire?	<input type="checkbox"/>	<input type="checkbox"/>
5. Worn out electric cords can start fires. Are all electric cords in your house in safe condition?	<input type="checkbox"/>	<input type="checkbox"/>
6. Have you checked around your house and removed extension cords from under rugs or hanging over nails?	<input type="checkbox"/>	<input type="checkbox"/>
7. Ask dad to go with you and inspect a fuse box. A 15-ampere fuse is right for most lighting circuits. Is the right size fuse in every fuse socket?	<input type="checkbox"/>	<input type="checkbox"/>
8. Are matches and lighters kept out of reach of small children?	<input type="checkbox"/>	<input type="checkbox"/>
9. You know playing with matches is very dangerous. Have you promised your parents never to use matches unless they say so?	<input type="checkbox"/>	<input type="checkbox"/>
10. Are plenty of ashtrays kept where people smoke in your house?	<input type="checkbox"/>	<input type="checkbox"/>
11. Have old papers, boxes, clothes, paint cans and other old things been cleaned out of your basement, attic, closets, and garage?	<input type="checkbox"/>	<input type="checkbox"/>
12. Is rubbish thrown out regularly at your house?	<input type="checkbox"/>	<input type="checkbox"/>
13. Has everyone been warned never to use gasoline or similar flammable liquids for cleaning clothes and other things?	<input type="checkbox"/>	<input type="checkbox"/>
14. Are oily mops hung up, and are oily rags kept in a tightly closed metal can or thrown away safely after use?	<input type="checkbox"/>	<input type="checkbox"/>
15. Be sure to ask your dad and mother what you should do in case of fire. If your home caught fire when you were asleep, do you know what you would do to save yourself?	<input type="checkbox"/>	<input type="checkbox"/>
16. Does your family have fire escape drills from bedrooms, so you will remember two ways to the outside from your room?	<input type="checkbox"/>	<input type="checkbox"/>
17. In case of fire, do you know how to call the fire department?	<input type="checkbox"/>	<input type="checkbox"/>
18. Clothing can catch fire easily. Do you keep a safe distance from bonfires, heaters, stoves, fireplaces, and anything hot enough to start your clothes burning?	<input type="checkbox"/>	<input type="checkbox"/>
19. If your clothes ever catch fire, you must never run. Do you know how to smother a clothes fire by rolling on the floor or ground, or covering fire with a coat or blanket?	<input type="checkbox"/>	<input type="checkbox"/>
20. Have you visited a fire station to learn how firemen protect you and your home?	<input type="checkbox"/>	<input type="checkbox"/>
