Major Car Manufacturers Show New 1969 Models This Week End

Chrysler started the new car showings last week end to be followed by the General Motors and Ford Motor Co. lines this week end.

Both lines of autos will go on display in local showrooms today.

Chamberlain Motor Co., one of the larger volume dealers in this area, will feature various models of Cadillac, Buick, Oldsmobile and Pontiac. A majority of models in all four lines have been restyled and re-engineered. These styling and engineering advancements as attractive as they are, compete for the customer's attention this year with a wide range of new safety-related product improvements, stated F. E. Chamberlain, owner, Chamberlain Motor Co. will be featuring music and refreshments from 4 to 9 p.m. today at their showroom.

Alderson Chevrolet will be showing another General Motors line, the 1969 Chevrolets. The widest choice of engines and transmissions in automotive history head a parade of exclusive Chevrolet features for 1969, Gene Alderson stated. The industry's top seller, the big Chevrolet, is all new in 1969 and has the largest base V-8 engine in its class, Alderson added. In addition, Chevrolet is featuring free refreshments and inviting the public to enter Chevrolet's Super Sport Sweepstakes.

Palmer Motor Co. will be featuring the Ford line of autos. Our 1969 Ford is an all new car from the completely redesigned body to the interior, stated Ray Palmer, local Ford Dealer. Ford will feature 21 different models, he added.

Make the rounds and see all the new models that will be on display today. It's an exciting time of year as practically everyone is interested in seeing what big changes have been made in all car makes.

Leader Out-of-County Rate \$5.00

Services Held Monday For J. D. Williams

Funeral services for Jimmy D. Williams, age 51, a resident of Donley County for 35 years, were held Monday afternoon, September 23 in Murphy Memorial Chapel with Rev. W. R. Lawrence, pastor of the First Baptist Church, officiating. Interment was in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Williams died Sunday morning in Cousins Home at Memphis where he had been a patient for more than a year. He was born November 10, 1916 in Hunt County, Texas and lived in Hall County from 1929 to 1933 at which time he moved to Donley County.

Survivors include three sisters, Mrs. Lucille Tidwell of New Boston, Texas, Mrs. Mary Machupa of El Sobrante, Calif., Mrs. Louise Fricks of Clarendon; two brothers, H. L. Williams of Dumas and Bill Williams of Andrews, Texas.

Bearers were Everett Wilkerson, Basil Smith, P. C. Messer, Leroy Luttrell, Bill Ray, and Truett Behrens.

BRONCHO BOOSTER CLUB MEMBERSHIP GROWING

Membership in the Broncho Booster Club is growing each week with the total near fifty at the present time. The Club meets every Monday night and attendance has been real good. Film of the previous Broncho game is shown each time. The local Volunteer Fire Department, Chamber of Commerce and Colt Mothers have contributed money for the purchase of a movie projector.

The club meets every Monday night at 8 p.m. in the public school cafeteria. All Broncho fans are invited to join the club and attend the meetings.

Moisture Total Tops 22 Inches For Year

This has been one of those years to brag about in the moisture department with over 22 inches being recorded officially here in Clarendon. The total for the year so far is 22.59 inches. The September total so far is 1.37 inches which is .11 inches under the 1967 total. The 1967 yearly total through September was only 12.44 inches.

Over all, the rain has been quite general with some localities receiving more than others and some damaging hail accompanied the stormy weather Friday afternoon. The hardest hit area was northeast of town where crops were heavily damaged. Jess Finley, county commissioner, who lives near Alanreed, reported heavy hail that broke out window panes.

The row-crop farmer is looking for warm weather and sunshine while the wheat farmer and rancher are enjoying the prolonged wet spell that is giving grass a big boost and bringing up the newly planted wheat.

College Registration Hit New High

According to Dean Beryl Clinton, Clarendon College registration has set another new record with the deadline for signing up still another week away as students may register for either day or night school through October 4th.

Up through Tuesday, over 200 freshmen (new students) and close to 100 sophomores had signed up. The total registration last year was 244.

College instructors report one of the smoothest starts of all time with students already settling down to regular routine study. The same report comes from the new dorms where students are making their home for the current year.

Bids for the construction of curbing, streets and parking lots was awarded to Ramey Construction Co. of Amarillo last week and work is already under way for this project. Ramey is the contractor for the new college units also and work is progressing right along toward their completion within the near future.

CHS HOMECOMING SET FOR OCTOBER 4-5

All Exes of Clarendon High School, students and teachers, are invited to be present when all gather October 4-5 for the annual Homecoming.

A full schedule of activities has been planned beginning with the Clarendon - Canadian football game Friday night and a social following the game.

Registration will be held at the game or from 2 to 6 p.m. Saturday afternoon at the High School. A Barbecue is planned for Saturday evening along with a short business session, election of officers and the crowning of the 1968 Ex-Student Queen. A dance from 9:30 p.m. to 1:30 a.m. will conclude the event.

It is desirable to register in advance. Registration fee is 50c, Advance Tickets for the Barbecue \$1.50, and for the dance \$1.00. You can save \$1 per person by the advance plan. If you cannot be here by noon Saturday send your check for \$3.00 per person and tickets will be ready for you stated Delbert Robertson, president of the association. If you are unable to attend send along 50c registration fee and let us know you are getting mailings being sent out.

Thursday night of this week the Colts will play on home ground. Their opponent will be the Junior High team from White Deer. Game time is 6:30 p.m. Everyone is invited to come out and lend the Colts your support.

R. E. Beard Promoted To Top Railroad Job

Robert E. (Bobby) Beard, former Clarendon resident, has been promoted to general freight agent for Santa Fe Railway at Chicago, Ill., effective Oct. 1.

Beard was born at Wichita Falls and reared in Clarendon and attended Clarendon Schools before entering Santa Fe service in 1950 at Amarillo. He transferred to the traffic department that year and advanced to head quotation clerk in 1956. He was appointed chief clerk to the general agent, New Orleans, La., in 1959 and city freight agent at Dallas a year later. He became chief clerk at Albuquerque, N. M. in 1961; assistant chief clerk Chicago 1962; assistant to the freight traffic manager, Galveston, 1963 and assistant general freight agent at Dallas in 1965.

His wife is the former Juanita Carpenter, daughter of V. M. Carpenter of this city.

UNIVERSITY OF PACIFIC TANGLES WITH WT BUFFS SATURDAY NIGHT

The University of the Pacific Tigers from Stockton, Calif. will be in Canyon Saturday night, September 27, when they will encounter the West Texas State Buffaloes in Buffalo Bowl. Game time is 8 p.m. In series history the Buffs have been victorious in three previous games out of three. The Buffs have won two games thus far this season.

A good crowd was on hand for the Buff-Shoaker game the past Saturday night and despite the rain fans enjoyed an evening of fine football. The final score was 26-0.

Plan to see the West Texas Buffaloes in action this Saturday night and watch the always colorful half-time performance. Tickets may be purchased locally from Joe Lovell at The Farmers State Bank.

YOUTH CENTER DIRECTOR TO SPEAK

A family "covered dish" supper is planned at the First United Methodist Church this Sunday night, 6:30 p.m.

Mr. Juneto Alderete, director of the Amarillo Wesley Youth Center, will be the evening speaker. Adults and youth will find this speaker inspiring as well as challenging. He has bridged the gap of the generations and speaks to all in this new age. The Center works with all ages, using modern and unique techniques. Youth over-run the center in numbers when the center opens its doors.

The public is invited to these services. Mr. Alderete could give you answers to the needs of our community.

Relatives and friends visiting in the O. C. Watson home during the week end were Mr. and Mrs. O. C. Watson, Jr. of Colorado Springs, Colo., Mrs. Dorothea Ledbetter of Amarillo; and Mrs. Kitty Lawler of Canyon.

Current Religious Thinking

The theme for October at the United Methodist Church is one of much interest in our day. If you are looking for a short term study to find out what you really believe, where the Christian Religion is at present and where it is to develop in the future, if you have to see to believe, if you would like to evaluate your beliefs in the light of current trends of thought, then come and study in the morning and evening services in October. These services will not be like the regular services in several ways.

Old fashion home made ice-cream WILL be served on the first Sunday night following the worship service and dialogue.

The themes are: The Orthodox, Liberal, Fundamentalist, Neo-Orthodox, Existentialist, Neo-Liberal Christians. The last service will seek to explain where the United Methodist Church fits in in this panoramic span of Christianity. Other series in the study will be non-denominational. The public is invited.

SOCIAL SECURITY SCHEDULE RELEASED

A representative of the Social Security Administration will be at the Courthouse in Clarendon on Thursdays from 9 a.m. until 12 o'clock noon on the following dates: October 3, 17, 31; November 14, 21; and December 5, 19.

If these dates are not convenient for you, you may visit the Amarillo office at 1006 Adams Street from 8:15 a.m. to 4:30 p.m. Monday through Friday and until 6:30 p.m. on Thursday evenings.

LOCAL SPONSORS ATTEND RC&D MEETING

The sponsors of the North Rolling Plains Resource Conservation and Development Project met at Shamrock on Friday, September 6. Attending from Donley County were Harold White of Hedley, representing the Clarendon County Commissioners Court, and Ernest Barbee, representing the Clarendon Independent School District. Also attending the meeting was Monty Sowers, Work Unit Conservationist with the Soil Conservation Service in Clarendon.

At this meeting, the sponsors learned that the original four county area has been expanded to seven counties. The project area now includes Donley, Hall, Briscoe, Collingsworth, Wheeler, Gray and Hemphill.

At the meeting an executive council was elected from the sponsors. Harold White was elected to represent Donley County on the executive council. The council made plans to prepare the application for a project. There will be a field review of the project area before the application is signed. This review will be held by a team from the Soil Conservation Service State Office.

Bronchos Travel To Paducah Fri. Night To Tangle With Dragons

Broncs Blank Bucks 23-0

By IRVIN MEARS

Led by a tremendous defense and an overpowering offense the Clarendon Bronchos rolled to their second straight victory of the season Friday night by blanking the White Deer Bucks 23-0 in a soggy game at Broncho Stadium.

The first quarter was scoreless as both teams seemed to be having a hard time getting used to the wet field.

The second quarter started off just like the first quarter ended, scoreless, but with 9:41 left in the first half Clarendon took over after a White Deer punt and marched 48 yards in 7 plays to a TD. Halfback Steve Land scored the first 6-pointer on a 2 yard run with 5:12 left. Tackle Phillip Longan kicked the extra point to make the score 7-0 in favor of the home team. The remainder of the first half was scoreless as the teams went into the dressing rooms with Clarendon on top 7-0.

Halfback Walter Reese received the second half kick-off and raced 20 yards before he was brought down. The Bronchos hit paydirt again with 9:56 left in the third quarter on a 34 yard field goal by Longan. During this drive the Bronchos picked up 56 yards in 10 plays.

After a White Deer punt the Broncs picked up 52 yards for another 6-pointer with Land again scoring on a 1 yard plunge. Longan again kicked the extra point to make the score 17-0 in favor of the Broncs.

With White Deer backed up against their own goal, Junior fullback Bennie Reese intercepted a White Deer pass and raced untouched into the end zone with 7:30 left in the game. The extra point by Longan was blocked and the score stood 23-0 in favor of the Maroon and White.

The rest of the game was scoreless as both coaches emptied the benches and let reserves play. The final score 23-0 for Clarendon.

Steve Land led Clarendon backs with 69 yards on 18 carries for a 3.8 average. Donnie Mooring led in the passing department with 2 out of 4 completions for 30 yards. The Bronchos outgained the Bucks 223-75, and out first downed the Bucks 15-6.

The Bronchos travel to Paducah Friday night for a game with the Paducah Dragons.

VISITORS HERE

Visitors the past week in the home of Mr. and Mrs. Sam Spradlin were Mrs. James Gouddy of Hereford; Mr. and Mrs. George E. Bradshaw of Dallas; Mr. and Mrs. Richard Coody of Perryton; Dave Carver of Ft. Worth; Gary Mahaffey of Ft. Lee, Virginia; and Mr. and Mrs. Noble Fish and Cathy of McLean.

The Clarendon Bronchos will travel to Paducah Friday night to take on the Paducah Dragons in the third non-conference game of the season. Game time will be at 8 p.m.

The Bronchos will be going into this game with two important non-conference wins, the first over Memphis and then White Deer last week.

Paducah was blanked by the Childress Wildcats last Friday night but very little can be derived from that game as to the strength of the Dragons as Childress is up this year with one of the best prospective teams in recent years.

We are taking our games one at a time and the Broncs will be ready to put forth their best against Paducah and uphold their victory record, was the comment of head coach Clyde Noonkester. You never know when a team will be on top and we know we must stay at our peak at all times to win, he added.

At the present time the Bronchos are rated the No. 1 Class A team for this region and moved up to 4th place in the state.

The probable starting lineup for the Bronc offense Friday night will be: Larry Kidd and Jim Moore, ends; Phillip Longan and Everett Monroe, tackles; Billy Longan and Doyle Gilbreth, guards; Mitchell Martin center; Don Mooring, quarterback; Walter Reese as wingback; Bennie Reese, fullback and Steve Land as tailback.

Plan now to go along with the Bronchos to Paducah Friday night and help them maintain their victory record. They can always play a better game if they know they have strong team support by local boosters.

PLANS PROGRESS FOR HEDLEY FESTIVAL

The 17th annual Hedley Cotton Festival is set for October 11-12 and residents of Hedley are hoping that you are making your plans to be present for all or part of the many activities planned for your enjoyment. Allen Estlack is Chairman of this year's event. Clifford Johnson is handling publicity.

All phases of the two-days of merry-making are progressing at a rapid pace. Mark the dates on your calendar and join us in Hedley.

GRADUATES AS DENTURAL TECHNICIAN

Lloyd Lynn McCord, Jr., son of Mr. and Mrs. Lloyd McCord, Sr. graduated Saturday night, September 21 from Career Academy Dental Technology School of Houston. He is now a qualified Dental Technician. The Exercises and social were held in the Hotel America. Mr. and Mrs. Lloyd McCord and Sue attended.

Gifted actor Jose Ferrer will be seen in a dual role as the eccentric but lovable would-be knight, Don Quixote, and as his novelist-creator, the Spanish author, Miguel De Cervantes, in "Man Of La Mancha," the State Fair of Texas show at the Dallas Music Hall, Oct. 4-20. This prize-winning, record-breaking musical hit is a masterful and unusual presentation filled with humor, idealism and the triumphant call to courage of its classic song, "The Impossible Dream."

ducts to an increased domestic population. Each farm worker in 1967 supplied 42 domestic and foreign consumers with their needed agricultural products.

The total volume of inputs in 1967 was nearly 2 per cent larger than in 1966, says Parker. Agriculture in the United States, he says, is increasingly dependent on the non-farm sectors of the economy for production inputs. The record high volume of purchased inputs in 1967 was 24 per cent greater than in 1957-59. The volume of non-purchased inputs has decreased 19 per cent since 1957-59. Inputs used in agriculture in 1967, however, were more productive than in 1966. Farm output per unit of input in 1967 was about 2 per cent greater than in 1966 and 8 per cent greater than in 1957-59.

Variety Classification May Mean More To Cotton Farmer

For the first time cotton variety information can be included on the green classing card issued by the U. S. Department of Agriculture. The request for inclusion of the information must come from the farmer, said County Agent Ronald Gooch, in commenting on the recently announced change.

More than 90 per cent of the cotton ginned in Texas is classed by USDA and the green card issued on each bale lists the grade, staple and micronaire reading.

John L. McCollum, southwest manager, Cotton Division USDA's Consumer and Marketing Service, Dallas, said this information describes the quality, length of staple and the strength and other characteristics of the fiber. Such information, he added, helps the farmer to know the quality of the cotton he is selling. It helps the cotton buyer find the cotton best suited to the spinning needs of mills.

Here's how the variety information on the green card will be recorded. This statement: "Producer states variety to be _____" will be filled in from information supplied with the sample.

McCollum said the Cotton Division assumes no responsibility for the variety shown on the green card.

The variety may be identified by three means: placing a special color tag on the sack of samples; entering the variety on a tag placed on the outside or inside of the sample sack or by placing a drop tag showing the variety of each sample. The tagging is to be done at the time the sample is taken.

In commenting upon the importance of this new service, Fred C. Elliott, Extension cotton specialist, told Gooch, "This will be a big help in one-variety areas since variety is the most important single factor determining spinning quality. By knowing the variety, buyers will be better able to associate quality and varieties," concluded Elliott.

DELUXE TRANSIT
Rapid transit and subway cars, newly designed in nickel stainless steel, weigh several tons less than conventional steel cars and permit savings in power costs and maintenance of an estimated \$10,000 per car over a 35-year span.

Texas Crime Rate In 1968 is Up

Colonel Wilson E. (Pat) Speir, acting director of the Texas Department of Public Safety, said today the Texas crime rate for the first six months of 1968 is running about 15 per cent over the rate recorded for the same period in 1967.

Speir said information provided by sheriffs and chiefs of police and compiled by the DPS indicates an increase in each of the seven major crime categories. For example, murders and homicides were up nearly nine per cent; rape, up nearly 14 per cent; robbery, up about 14 per cent; burglary, up nearly 22 per cent; aggravated assault, up nearly 6 per cent; theft, up about 12 per cent; and auto theft, up nearly 24 per cent.

"In the January through June period, major crimes occurred in Texas on the average of one every 1 1/2 minutes," Speir noted. "This generally figures out to be a murder every 7 1/2 hours, a rape every 4 1/2 hours, a robbery every 1 1/2 hours, a burglary every 5 1/2 hours, an aggravated assault every 26 minutes, a theft every 2 1/2 minutes, and an auto theft every 18 1/2 minutes," he added.

The overall crime rate in the state's urban areas and almost 11 per cent in rural areas. It was up about 17 per cent in cities over 100,000 population, up about 7 per cent in cities between 50,000 and 100,000, up almost 9 per cent in cities between 25,000 and 50,000, up almost 15 per cent in cities between 10,000 and 25,000, up 25 per cent in cities between 5,000 and 10,000, but up only about 1 per cent in cities between 2,500 and 5,000 population.

The largest rural increase came in counties with over 60 rural population per square mile, and was tabulated at almost 34 per cent. The overall crime rate decreased by almost 20 per cent in counties with from 20 to 35 rural population per square mile, and decreased about 3 per cent in counties with under five rural population per square mile.

DPS REPORTS 6 DONLEY ACCIDENTS

The Texas Highway Patrol investigated six accidents on rural highways in Donley County during the month of August, according to Sergeant J. L. Dalrymple, Highway Patrol Supervisor of this area.

These crashes resulted in no persons killed, four persons injured and an estimated property damage of \$6,058.00.

The rural traffic accident summary for this county during the first eight months of 1968 shows a total of 39 accidents resulting in three persons killed, 29 persons injured, and an estimated property damage of \$103,331.00.

September first marked the beginning of the 1969 Motor Vehicle Inspection period. Motorists are urged to have their vehicles inspected during routine visits to garages and thereby eliminate the necessity of having to wait in line at a later date for an inspection sticker.

The Sergeant stated, "With the hard summer driving coming to an end, Fall is an excellent time to have vehicles safety checked for the winter months ahead."

QUALITY JOB PRINTING AT THE LEADER

Feeder Calves Need Good Start

Getting newly purchased feeder calves off to a good start can mean increased income for cattle producers, says County Agent Ronald Gooch.

Facilities should be ready when the cattle arrive on the farm. Corral or feedlot fences should be in good repair and the same holds for feeding and watering facilities, he adds. Water tanks should be cleaned and refilled with fresh water since calves are usually dehydrated and will need large quantities of water for the first few days.

Avoid overloading the truck and have it properly bedded for the haul from the point of purchase to the farm. The county agent suggests that the hauling time be held to a minimum and that calves be handled with care during the loading and unloading.

Handle them as little as possible for a few days after they arrive on the farm. Have high quality grass hay and fresh water available and work the calves only enough to treat those which may be sick. Take the temperature of any animal that does not appear alert, or that coughs. Treatment for any animal whose temperature is over 103 degrees F. is suggested. Avoid dehorning, castrating and branding the calves for a few days.

A small amount of grain can be fed after a couple of days since the calves will need some high energy feed to get them started gaining.

Observe the cattle several times daily and treat sick animals early to avoid possible losses, suggests the agent. A

Feeder Calves Need Good Start

'sick-bay' is suggested in order to separate those needing attention from the group and the 'bay' should include shelter.

After the cattle have 'straightened out,' check and treat if necessary for external and internal parasites.

Farmers Continue To Meet Production Challenges

The total volume of farm output in the United States in 1967 was a record 4 per cent above 1966 and 18 per cent above the 1957-59 average. Production increased for cattle, calves and hogs but was lower for sheep and lambs, reports C. A. Parker, Texas A&M University Extension economist.

Poultry and egg production, he adds, was at a new high with record output of eggs, broilers and turkeys. Dairy products remained at about the same level as in 1966.

Cotton production was the smallest since 1895 and only half of 1961-65 average. Record corn and sorghum grain output pushed the feed grain total to a new high. Food grain production increased 14 per cent above 1966. Oil crops continued to increase, primarily because of a rise in soybean output.

It's true! Everything you could want in an electric typewriter — the speed, the ease, that professional touch... are all in this stylish Smith-Corona.

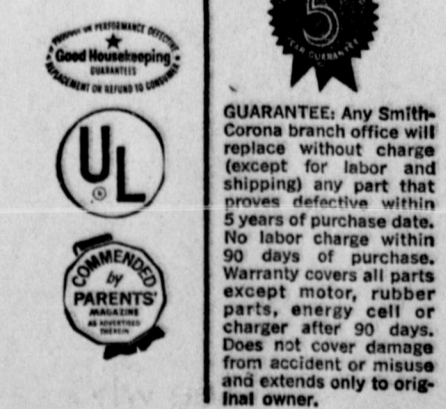

ELECTRA® 120

BROADSHOULDERED ELECTRIC PORTABLE—FOR YOUR OFFICE AT HOME—by SMITH-CORONA®

Here's a perfect example of Smith-Corona's master craftsmanship! A complete electric typewriter built into a handsome portable. So many conveniences: inexpensive Changeable Type™ for languages, science and math, Page Gage™, jeweled main bearing, automatic electric repeat actions... even electric shift and spacing. It has everything... plus a 12" carriage for king-size jobs.

THERE'S SO MUCH MORE TO SEE AND TRY IN A SMITH-CORONA. COME IN TODAY, AND SEE WHY ONLY SMITH-CORONA® OFFERS YOU ALL THESE ASSURANCES.

GUARANTEE: Any Smith-Corona branch office will replace without charge (except for labor and shipping) any part that proves defective within 5 years of purchase date. No labor charge within 90 days of purchase. Warranty covers all parts except motor, rubber parts, energy cell or charger after 90 days. Does not cover damage from accident or misuse and extends only to original owner.

An increase in the windshield's rearward slant adds to XL's new swept back appearance. A grille-like applique over the rear bumper as well as a tunnelled backlite (below) are two new features for 1969.

AUSTIN, Tex. — A new Texas Land Commission Jerry Sadler and in disagreement over the recently-revived \$400 million state

Veterans Land Program.

Mindful of the VLP scandals of the mid '50's, Sadler is adopting cautious, conservative policies to guide future state policies. Program permits qualified veterans to buy land on the low interest, long-term-pay plan.

Developers claim Sadler is tight-fisted and is jeopardizing the program by low-ceiling land value appraisals and limiting sales to 10 per cent of large subdivisions.

Under Sadler's limits, developers with tracts of 1,000 acres can sell only 100 acres through the state bond-financed program. The Commissioner argues that the state should not spend all its constitutionally-authorized bond funds in a few areas.

Central Texas developers counter that land values already are soaring and that veterans held out of the market now eventually will pay higher rates.

Sadler says land already is selling at prices beyond reason in Travis, Kerr, Bastrop and Hidalgo Counties. Realtors say Sadler's 25 appraisers are putting price tags on property \$40 to \$100 an acre too low right now. They claim qualified veterans are lining up to buy land at prevailing prices and the program is a "flop."

"Trying to make a fast buck at state expense," reprimands Sadler, who staunchly maintains he is having none of that kind of business.

One realtor is seeking a legislative investigation.

WATER PLAN — Texas' monumental water program—to move surplus water from the Mississippi River and Northeast Texas to the drier areas of South and West Texas — is not to be released until late October or early November.

But the Texas Water Development Board, which is working up the plan, let some details slip out when it approved its budget request to be submitted to the Legislature for the two-year period beginning September 1, 1969.

Board's budget requests a more than 50 per cent increase in appropriations for the agency so it can get the plan into operation before Texas faces economic disaster from a lack of water.

A time schedule for the project — estimated to cost around \$10 billion — will be presented to the Legislature, outlining what needs to be done in the next six years.

First step is gathering the surplus Northeast Texas water for the Trans-Texas Canal, which will move water west to supply Dallas - Fort Worth, then on through the concrete-lined canal to the South Plains and other areas of West Texas and the Trans-Pecos, all the way to El Paso.

Then by the end of 1971, negotiations must be completed to bring surplus water from the lower Mississippi, below New Orleans, across Southern Louisiana, then into either the Sabine River or up the Red River to the Sulphur and Cypress Rivers.

By the middle of 1974, federal, state and private sources need to agree on the construction of nuclear-energy power-generating plants to produce the electricity necessary to run the hundreds of pumps which will actually move the water.

South Texas will be served by a South Texas Canal, which will run from the lower Sabine River near Orange down the coast to the Lower Rio Grande Valley. This project will need to be approved by Congress by mid-1972.

State will probably have to pay 25-30 per cent of the cost of the project. This means that the \$400 million borrowing power the board now has will have to be expanded to at least \$2.5 billion. Legislature would have to approve this in January, with the people voting on it in 1970.

NEW LIQUOR PROBE — A House committee probing influence of vending machine operators on tavern keepers will hold hearings in Austin, Fort Worth, Houston and probably two smaller cities.

Dallas Attorney David Witts was named chief counsel and investigator of the committee by the five-member panel headed by Rep. R. H. Cory of Victoria, in conference with Texas Liquor Control Board Acting Administrator O. N. Humphreys Jr.

Panel, armed with sworn statements from tavern operators, will look into rumors of Mafia and crime syndicate activity. Only witness heard to date said

he knew of no such outside influence in his area. But he testified vending machine operators should be prohibited from lending money to taverns and drinking clubs.

APPOINTMENTS ANNOUNCED — Donald R. Fishel is new chief of Texas Liquor Control Board enforcement division. Sherman McBeath of Wichita Falls will replace Fishel as assistant enforcement chief, and Leonard J. Lozano of Poteet will be LCB supervisor of investigations.

Gov. John Connally named Bryan Beck Jr. of Beaumont and H. J. (Bubba) Shands Jr. of Lufkin to Lamar State College of Technology board of regents. He re-appointed Pat Peyton Jr. and Otho Plummer of Beaumont to new terms on same board.

William A. Wroe, Austin banker, has been appointed treasurer of the Republican Party of Texas.

Dr. Richard Tozer of Dallas is executive director of the Texas Nixon for President finance committee.

LOUDER SENATE — Newsmen and spectators in the Texas Senate have been complaining for years that they can't hear what the Senators are saying to each other on the floor, making it rather difficult to follow debate.

A San Antonio firm is solving that problem, at the request of a special Senate committee created by the June special session.

Company plans to install a

powerful amplifier and 55 speakers around the Chamber — specially attuned so that deep-throated Senators and high-pitched ones, too, will be heard by all in the chamber.

Each senator will have an individual desk microphone, and a central panel at the president's desk will allow the Senators to be turned off and on by the Senate secretary.

Cost of the system will be from \$20,000 to \$25,000.

ATTORNEY GENERAL SPEAKS — A write-in vote for President and Vice President is valid and must be counted, regardless of whether the political party of the candidates "written in" had qualified to have names printed on the ballot, Atty. Gen. Crawford Martin held. Martin said if the Secretary of State has not been notified as to identity of the slate of presidential electors for write-in candidates, inquiry may be made by him as to the electors' names.

In other recent opinions, Martin concluded that:

A county judge performing duties of county school superintendent (where office of superintendent is abolished) is not entitled to office and travel pay or salary of an assistant in addition to his \$2,650 annual compensation for extra duty.

Palo Duro Canyon State Park revenues collected since last November 28 must be deposited in state parks fund with state treasurer.

Texas State Board of Registration for Professional Engineers can pay temporary employee to help handle its examination papers.

JUVENILE DELINQUENCY — Rep. Vernon Stewart of Wichita Falls, chairman of the House Committee on Juvenile Crime, offers a new approach to juvenile-crime problems.

Stewart wants to pay Texas' 254 counties to "keep their young people out of trouble." This would involve a state program of paying the counties \$2,000 a year for each juvenile they keep out of the state reformatories.

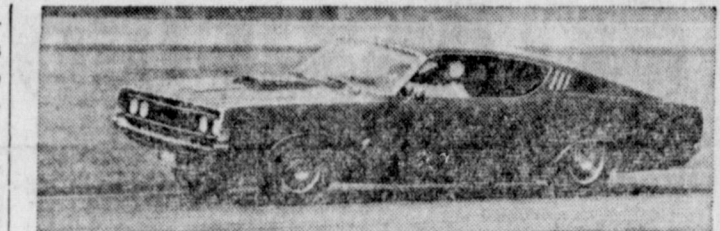

Proposal is based on the fact that not only is the state planning to spend \$10 million in the next three or four years on building new Texas Youth Council facilities, but will also spend \$2,000 per year per "student" to keep them in the "schools."

Stewart said his plan "would save the state taxpayers the cost of the buildings to house them and the county taxpayers the cost of the losses they create by delinquency."

MILK FREIGHT RATES — For the first time, Texas Railroad Commission has established rates, rules and regulations on the shipping of milk in relatively small quantities from dairy farms to milk processors.

Previously, rates were simply agreed on by the dairyman and the transporter.

New rates will be based on a mileage scale from 10 to 200

Cobra is Ford's hot new performance-oriented addition to the Fairlane line for 1969. Whether roaring through a turn at Ford's Dearborn test track (above) or taking a quarter-mile straightaway, Cobra is made for competition handling and power. Available in fastback SportsRoof (above and below) and hardtop design, Cobra models are equipped with a standard 428-cubic-inch V-8. The 428 Cobra Jet Ram-Air engine also is available.

miles and are different for Grade A and ungraded milk and according to the size of the shipments, in four brackets from fewer than 5,000 pounds up to 10,000 pounds and more.

Rate charts — Motor Freight Commodity Tariff No. 30 — are available free from the Railroad Commission, Transportation Rate Section, Austin.

SHORT SHORTS — Dove hunters bagged 20 per cent fewer whitewing doves — 220,692 — in the Lower Rio Grande Valley this year according to the Parks and Wildlife

Commission. Attorney general said his office has obtained an injunction against Chapman Oil Company of Fort Worth for distributing barrels of fake Chevron oil.

Water Development Board will lend \$2 million maximum to the San Jacinto River Authority for Conroe Dam and Reservoir.

State general fund surplus at start of new fiscal year was \$32.9 million says State Comptroller Robert S. Calvert. A \$100,500 federal grant has been approved for Marina Bay Park facilities at Wichita Falls.

1969 Mustang SportsRoof

THE '69 FORDS ARE HERE TODAY!

1969 Torino GT SportsRoof

1969 LTD by Ford, 2-Door Hardtop

1969 Mustang. All new, all over! 5 great models. More engines than ever. They're like no Mustangs you've ever seen before! Longer. Wider. Roomier. Front and back. And far, far sportier. Take the new Mustang Mach 1. Or luxurious Grandé. Choose hardtop, sports-roof or convertible. Then dip into a long list of options and design your Mustang.

1969 Torino. The winner's back for more... with two hot new Cobras to boot! Torino for '69 comes on just as hot or as luxurious as you please. Engines range all the way up to a 428-cu.-in. Cobra Jet Ram-Air V-8. For Torino spirit with extra savings added, choose from eight new '69 Fairlanes. See all 52 of the new '69 Fords today.

1969 Ford. Longer. Wider. Quieter. And alone in its class. For 1969, Ford tracks as wide as Cadillac. Smooths your ride with a longer wheelbase than Chevrolet. Has more front headroom and legroom than a Chrysler Imperial. The '69 Ford LTD is designed to ride even quieter than the LTD that rode quieter than Rolls-Royce.

The place you've got to go to see what's going on—Your Ford Dealer.

NEWS FROM Congressman Bob Price 18th District, Texas

The House of Representatives last week approved the largest single appropriation bill ever to come before Congress. This was the \$72.2 billion Department of Defense Appropriations Act for 1969. This huge outlay was, however, \$4.8 billion less than what the President had requested in his budget proposal. The Appropriations Committee had made the reductions on a selective basis. Rep. George H. Mahon, Chairman of the Committee supported the bill and contended that the cutbacks did not represent any backing down or a posture of appeasement. Rather, he said, "This bill represents firmness, this bill represents power, this bill represents strength, and this bill represents the view, in my opinion, of the great majority of the American people; that Communism remains a serious threat, that we must keep up our guard, and that we will not subscribe to policies of appeasement or weakness." Those were Mahon's words on the House floor.

The ranking minority member of the Armed Services Committee, Rep. William A. Bates, pointed out in the debate that there undoubtedly will be a large supplemental appropriations bill early next year and that some of the savings in the Defense bill had been achieved through a stretch-out-of-various programs and could result in an over-all increase in the unit cost of items such as aircraft and helicopters.

Rep. Glenard P. Lipscomb, ranking Republican on the Appropriations Subcommittee on Armed Services, supported Mahon's position that the cuts would not weaken our defense posture. He also pointed out the "explosive expansion" of Russia as a maritime power. Soviet naval power now includes over 100 destroyers and about 20 cruisers and during 1967, the Soviets added a new class of guided missile cruiser and their first helicopter carrier. They are rapidly expanding their merchant marine of 1400 ships and increasing their capabilities for specialized operations to include oceanographic research and intelligence gathering.

But the main USSR naval threat is their formidable submarine fleet. They are the only country to mass-produce submarines on a wartime basis in times of so-called peace. In terms of numbers of operational submarines, the U.S. has fewer than the Soviet Union. At least 250 of their approximately 370 subs are "attack" versions and about 45 of these are reportedly nuclear powered. Our 41 Polaris missile-carrying subs would be prime targets for the giant Soviet submarine force. And in many other areas, evidence points to Soviet capabilities equal to or superior to ours. In recent years they have increased their research and development efforts by about twice the amounts spent by the U.S. when considered on a gross national product basis.

According to Lipscomb, the list of sophisticated superior Soviet weapons available to oppose our general purpose forces in the field continues to grow. An additional reason for this is that in Vietnam we have uncovered to the Soviets many of our own developments. In addition to the Communist-dominated regimes of Eastern Europe, at least 29 countries in Asia and Africa, and including Cuba, are currently reported to have Soviet-manufactured military equipment.

It is clear that Soviet arms figure heavily in most trouble spots and combat areas throughout the world. All of us want peace, but it is wishful thinking to believe that the Soviet Union has peaceful intentions when Communist Party Chief Brezhnev says, as he did recently, that the Communist Party of the Soviet Union is "waging an active struggle to strengthen the unity of the Socialist community and the world Communist movement." In that speech, Brezhnev among other things, pledged to continue to render to Vietnam the necessary aid and also said: "Our Arab friends can be assured that we will continue to render them all the necessary aid and support." So in the face of these stark realities and the apparently unchanged goal of the Soviet Union to wipe freedom from the face of the earth, we cannot do less than continue U.S. defense efforts at the highest possible level and appropriate the funds necessary to maintain U.S. military superiority.

Rep. Glenard P. Lipscomb, ranking Republican on the Appropriations Subcommittee on Armed Services, supported Mahon's position that the cuts would not weaken our defense posture. He also pointed out the "explosive expansion" of Russia as a maritime power. Soviet naval power now includes over 100 destroyers and about 20 cruisers and during 1967, the Soviets added a new class of guided missile cruiser and their first helicopter carrier. They are rapidly expanding their merchant marine of 1400 ships and increasing their capabilities for specialized operations to include oceanographic research and intelligence gathering.

CUB SCOUT PACK MEET

Cub Scout Pack No. 37 will meet with their parents Monday, Sept. 30, 6:30-7:50 p.m. The meeting will be under the tree beside the United Methodist Church. Several boys will receive their Bear, Wolf, and Webeios awards. All parents and boys (8-10 yrs. old) who are interested in Cubing are invited to attend. New Cubs will be received and new dens will be created according to the parents and boys interest. Watermelon will be served following the program, according to Cub Master Nunn.

MUSHROOM ROOT ROT AFFECTING PEACH YIELD Mushroom root rot on peach trees is causing serious decline in the yield of peaches over the state, according to Jerral D. Johnson, Extension plant pathologist at Texas A&M University. The disease is caused by a fungus organism which lives in the soil and causes a lingering death of peach trees.

Xi Lambda Xi Meets In Garland Home

Xi Lambda Xi, sorority of Beta Sigma Phi, met in the home of Mrs. A. J. Garland Monday evening, September 23. Mrs. Jack Eads, president, called the business meeting to order.

Plans were discussed for the annual Valentine Dance. The Ways and Means Committee reported that a Rummage Sale was being planned for October. An interesting program on "Life and Happiness" was presented by Mrs. Jack Eads.

Refreshments were served to Mesdames John Stepp, Arlis Mooring, Troy Guy, Joe Bownds, Maurice Risley and daughter, and Jack Eads by the hostess, Mrs. A. J. Garland. Rep.

Attend Church This Sunday

FHA-YH Salad Supper Held Monday Night

The theme of the Young Homemaker-FHA Mother-Daughter Salad Supper held Monday evening, September 23, in the Cafeteria was "Fall Into FHA." Approximately 75 members and guests were present.

Special guests included Supt. and Mrs. Cordell, High School Principal Jeff Walker and Mrs. Walker. Women teachers were also given special recognition. Candy Skelton gave a humorous reading, "The Busy Housewife," and Mrs. Charles E. Deyhle was awarded the prize in a contest to determine who could list the most items that could be fitted into a match box.

The patriotic theme was used by Annette Cross when she installed new officers. Each flag assembled around the Texas Flag represented a purpose of FHA. Long stemmed red roses were presented each officer. Valerie Trout played background music for the installation.

Rhonda Goodman, Yearbook Chairman, presented members with yearbooks for the school year.

Freshmen and Seniors tied for attendance honors. Rep.

The Band is working hard in preparation for Marching Contests which will be held October 29 in Buffalo Bowl, Canyon. Rehearsals are held each Tuesday night for two hours in addition to the regular school rehearsals. A Marching Festival will be held October 19 in Broncho Stadium with several area bands attending. Rep.

CHS BAND ELECTS OFFICERS FOR YEAR

The Clarendon High School Band elected the following officers Monday morning, September 23: President Stephen Bell; Vice-President, Linda Vaughan; Secretary, Anna Beth Simmons; Treasurer, Truetta Hall; Reporter, Mike Graham.

H. D. CLUB MEETS IN PAYNE HOME

The Home Demonstration Club met Friday afternoon, September 20, in the home of Mrs. William Payne. Meeting opened with Club Collect read by Mrs. W. L. Jordan. The vice-president presided over the business session and the usual order of business. Roll call was answered with what each did during the summer.

After the Penny Parade, plans were made for programs to be held during the year. The closing prayer was offered by Mrs. Jordan.

Refreshments of Cheese Crackers, Strawberry-Angel Food Cake, Tea and Coffee were served to members: Mesdames W. L. Jordan, Flora Humphries, Virgil Pool, G. L. Green, J. H. Helton, O. C. Watson, and to one guest, Mrs. Roy Brock, by Mrs. Payne. Rep.

Mr. and Mrs. Horace Johnson of Cleveland, Texas and their daughter, Miss Barbara Johnson of Houston visited part of last week with Mrs. Johnson's niece, Mr. and Mrs. Herman Cross and Annette.

EX-KAPPAS PLAN BRUNCH OCT. 5

The Ex-Kappas, a sorority, will have a Brunch at Jake's Steak-Out Saturday morning, October 5, in conjunction with CHS Homecoming and Ex-Student Reunion. Meeting time is 10 a.m. All former members of the Kappas are invited to come.

CHS LIBRARY CLUB

The Library Club met Thursday, September 19. Meeting was called to order by President, Geneva Molder, to discuss the menu for the Library Club Convention. Members also discussed ideas for table decorations. Jewel Gardner made a motion to have road signs with book worms as center pieces. The motion was agreed upon by all members.

The Library Club will meet September 23, Tuesday night, at 7 o'clock to work on decorations for the Library Club Convention. Rep.

Charcoal can be saved and re-used by putting the hot coals into a bucket with a tight fitting lid. Set it aside to cool. Since burned charcoal is hard to light; when reusing it, mix it half-and-half with fresh charcoal.

LEADER CLASSIFIEDS GET RESULTS

NEW ARRIVAL

Mr. and Mrs. Gury Gerdes announce the arrival of their little daughter, September 20. The young lady weighed 6 lbs. 10 3/4 oz. and has been named Cathy Dee Ann.

Eggs are an excellent protein buy. One good way to get extra eggs into the diet is to keep a supply of hard cooked eggs in the refrigerator. These are handy for deviled eggs, sandwiches, salads, casserole dishes and other occasions, says Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist.

When using a rotisserie be sure the spit turns away from the cook. Then fat drops off on the upswing with the fire, toward the back of the firebox.

Undiluted evaporated whole milk can be whipped.

Meat cooked at low to moderate temperatures is generally more tender, juicy and flavorful than that cooked at higher temperatures. In addition, there is less loss through evaporation, shrinkage and drippings.

More than 1,000 Civil War widows still draw pensions.

Leader—Local Rate, \$4.00 A Year

Cook pork long enough to allow heat to penetrate into the center of the meat. Pork heated to 137 degrees is safe to eat but it's more tender and flavorful when cooked to higher temperatures.

The Eddie Floyd family wants to thank everyone for their kindness to us and the Volunteer Fire Department for the wonderful job they did. At the turn of each corner there has been a helping hand with a smile and a kind word. We are humble and grateful to God for the privilege of living and working in this community. May God bless each of you for what you have done.

Eddie, Bobbie, John, Jim, Lynn and Keith Floyd

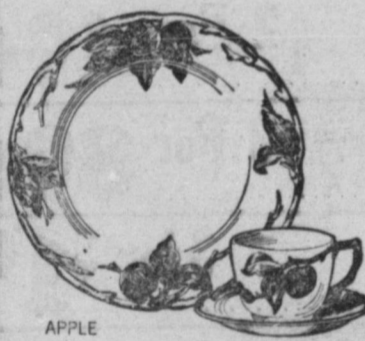

We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.

HENSON'S
YOUR GOODYEAR STORE

Chevrolet introduces 1969.

Caprice. Match this, you other 69's!

There is no joy in the land of our competitors today. But let us ask you this. Should we have made Caprice shorter instead of the longest Chevrolet ever built? Or adorned it with flashy nicknacks to make it look less expensive? Just because competition doesn't, should we not have offered you washers to clean your headlights,

new variable-ratio power steering, liquid tire chain you can apply to your rear wheels at the touch of a button?

Should we have given you less power, instead of the largest standard V8 in its field?

Some people think so. Our competitors.

'69 Caprice Coupe

'69 Camaro SS Sport Coupe, plus RS equipment

Camaro. Who needs to say "announcing" or "new". The Huger. And just look how it all hangs together. No gingerbread anywhere. We've improved the interior, too. Quieted the ride. Made the Astro Ventilation ventilate better. The power range is very impressive.

Standard V8 is 210 hp. SS engines available up to 325 hp. For added SS appeal: sport striping; power disc brakes; wide oval, road-hugging tires.

Your Chevrolet dealer offers this advice: Go on, you other sportsters. Gnash your gears and look tough.

Maybe it will help. Putting you first, keeps us first.

COMMUNITY COMMITTEE ELECTION RESULTS:

Ballots were tabulated last Friday and the following men were elected to serve as community committeemen for the next term:

A Community—David G. Bray, Jr., Chairman; David Brown, vice-chairman; John Fraser III, Regular Member; Phillip E. Hermesmeyer, Billy T. Jones, Alternates.

B Community—Hubert A. Rhoades, Chairman; Warren Hardin, vice-chairman; Claude Spivey, member; Pete Land and C. E. Jackson, alternates.

C Community—Don Robinson, Chairman; L. A. Watson, vice-chairman; W. H. McDonald, member; Orin L. Hill and Steve Reynolds, alternates.

D Community—Marvin R. Jones, Chairman; Edward O. Dishman, vice-chairman; F. A. Floyd, member; H. L. Riley and L. S. Luttrell, alternates.

E Community—Elmer Dishman, Chairman; H. M. Baster, vice-chairman; J. Leo

Smith, member; Jimmy L. Butler and Wm. R. Christal, alternates.

F Community—Jim Kennedy, Chairman; Carroll Kennedy, vice-chairman; Ross H. Oatman, member; W. W. Farris and O. F. Messer, alternates.

G Community—James Potts, Chairman; Don Springer, vice-chairman; W. B. Wiggins, member; Ray Altman and Frank Murray, alternates.

H Community—Joe C. Glass, Chairman; Joe B. Leonard, vice-chairman; Don E. Crockett, member; Rex Long and Granville Simmons, alternates. These men served as delegates to the County Convention which was held last Wednesday. The results of the convention will be in the next news article.

BEEF CONSUMPTION ON INCREASE

The beef cattle industry has enjoyed a tremendous increase in the consumption of beef, due in part to selection programs being used by more and more breeders. Dr. Frank A. Orts, Extension meats specialist at Texas A&M University, says consumers are asking for more muscular beef cuts with more quality.

Charles Floyd Cosper, 29, of Canadian, has been appointed to the 23rd Game Management Officer Training School by the Texas Parks and Wildlife Department. Upon completion of five months of intensive training, he will be commissioned a game management officer by the Department. He was chosen for the 19-man class from more than 400 applicants. He is married to the former Miss Nedra Sue Hodge of Clarendon and they have three children.

Leader Out-of-County Rate \$5.00

Applications Available For Free Public Hunts

Anyone wishing to participate in deer and quail hunts on the wildlife management area operated by the Texas Parks and Wildlife Department should submit their requests for applications, according to Robert G. Mauermann, deputy director of the Department.

Hunters may participate in both the quail and deer drawings but are urged to submit only one application for each since duplicates will be eliminated by computer.

The Department will issue 3,560 hunting permits for deer on eight wildlife management areas Statewide and 880 quail hunting permits on two wildlife management areas in the Texas Panhandle.

Since the number of applicants always exceeds the number of hunting permits available, those permitted to hunt will be chosen by public drawing to be held in Austin Oct. 31. To be eligible for the drawing, applications must be received in the Austin office on or before 5 p.m. Oct. 25. Applications received later than the deadline will not be considered for the drawing.

Mauermann stressed that these hunts are conducted primarily as a part of the Department's wildlife research programs and not to provide public hunting. He also said that these hunts are not indicative of high game population and that the Department could cancel hunts at any time the recommended quotas are met in order to prevent the reduction of game below desired levels.

DONLEY COUNTY RC&D APPLICATION COMPLETE

The Donley County Sponsors and Endorsors of the North Rolling Plains Resource Conservation and Development Project met Wednesday night September 11 at the Soil Conservation Service Office in Clarendon. At this meeting, officers were elected and final plans were made for the application.

Harold White of Hedley was elected chairman of the Donley County Steering Committee. John "Junior" Hill of Hedley was elected vice-chairman and Ernest Barbee of the Chamberlain community was elected Secretary.

During the meeting, the project proposals submitted by the endorsors and sponsors were reviewed along with other potential projects. These proposals made

up the main part of the application. The information submitted by Donley County will be combined with similar information from the other six counties to form the actual application. This application will be printed and circulated to the interested counties for their approval. The application will then be reviewed on the ground by a reviewing team from the State Office of the Soil Conservation Service.

Almost everyone in Donley County who was contacted about the proposed project has shown a good deal of interest in it. The project sponsors are: The Donley County Soil and Water Conservation District, The Donley County Commissioners Court and The Hedley Independent School District. Organizations endorsing the project are: Clarendon Independent School District, Clarendon Chamber of Commerce, Clarendon Jay-ees, Farmers State Bank of Clarendon, Clarendon Junior College, Greenbelt Water Authority, Donley County Ministerial Alliance, Clarendon Lion's Club, Hedley Lion's Club, Beta Sigma Phi Sorority, Donley County FHA Committee, Donley County Technical Action Panel.

MUSICAL ALLOY alloy which stays bright and clean, will not stain or tarnish and resists corrosion. High quality guitar strings are made of a nickel-copper.

Restaurant Ramblings

By Jake Lamberth

China, Japan and India are the largest producers of tea. Tea is a shrub having alternate divided leaves with five-petal flowers and a capsular fruit.

The most generally used teas today are black tea, green tea and Oolong tea. Black tea is made from crushed leaves that have been fermented and dried. It is the most commonly used in America.

Green tea, popular in England and China, comes from leaves that have been steamed, rolled and dried. Oolong tea is partially fermented before being dried.

The quality of tea is dependent upon the climate, condition of the soil where grown and efficiency in processing. This also holds true with blended

teas. Good restaurants take pride in meeting the desires of tea drinking patrons.

New Series—Volume 39 No. 36 CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, SEPTEMBER 26, 1968 A Fine Paper For Fine People

Born with a sporty personality is Camaro RS Convertible for '69

The Camaro, a car with a young personality for '69. Available options do 'magic' in the 'RS' and 'SS' versions. A varied selection of engines, striping, special hood with simulated ports, louver-styled rear fenders and wide oval white-lettered tires are but a few of the personal selections available in the '69 Camaro line. The RS Convertible is shown above. All Chevrolet-built passenger cars will be at Chevrolet dealers on September 26.

Waterways

A waterway is a shaped, flat bottomed channel or natural drainage way used to carry excess water to a safe point of release with a minimum of erosion. Perhaps the most common usage of waterways in Donley County is in connection with diversion terraces, wherein excess water is caught by the terrace, conducted to the waterway, and there flows to a natural drain such as a lake or creek.

Waterways are applicable to both terraced and unterraced fields. The problem of locating

and establishing terrace outlets is associated with planning the terrace system. Waterways simplify the layout of parallel terraces with more terraces in the system being parallel and with fewer terraces having odd areas. Usually the most satisfactory location for a waterway is the natural drainageway. Here the slope of the channel is usually the flattest in the watershed. Sometimes it may be more desirable to locate the waterway along a field boundary. This has the advantage of interfering least with tillage operations. However, this location often means more

expense because some shaping will be required.

All waterways should be protected by some type of vegetative cover. If the velocity of flow in the waterway will be greater than two feet, per second, perennial vegetation should be used for the cover.

Any farmer or rancher interested in a waterway should contact the local Soil Conservation Service office.

Of the total existing State Park acreage, only 31 per cent is suitable for intensive recreational development.

"The Lord God has given me His words of wisdom so that I may know what I should say to all these weary ones. Morning by morning He wakens me and opens my understanding to His will." Isaiah 50:4 . . . (Paraphrased Edition.)

Please read the 4th verse of the 50th chapter of Isaiah in the King James. The above is slightly different wording and comes from the paraphrased translation by Kenneth N. Taylor . . . To me it seemed so beautiful in the translation as well as the regular version . . . As we often express ourselves with voice or pen this wonderful verse would well be our hope and our sincere prayer that God would so bless each of us . . .

Someone expressed the plight of Poor Fido versus his master in the following way:

If we live in a city of say one hundred thousand Fido and his buddies amount to about half that number or roughly fifty thousand. Fido lives in a pretty good house on the average, and he doesn't owe for it. His master with good luck could hope to pay off his home in thirty years.

If Fido looks toward the back door his master jumps up and

opens it for him . . . in many cases he lives with his master. Fido has it made. When his master gets ready for bed who but Fido will he often find in the middle of the bed. He will roll over and put his four paws in the air.

When the master turns on a light, Fido will look up as if to say: "What do you want now, and did you have to turn on the bright lights in order to find it?" . . . Fido and his buddies do have it made. . . .

Part of a Nitecap's Creed:

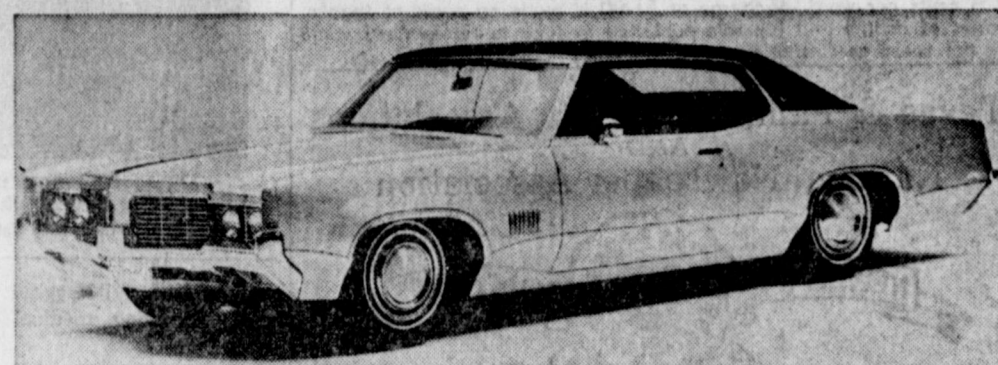

"I will seek to exalt the good I find in all persons and seek to overlook their errors and weaknesses, just as I trust others will accept me with both my strengths and weaknesses. I will do all in my power to help build the NITECAP organization and to carry out all its projects designed to lend friendship, comfort and pleasure to all persons, particularly the ill, the aged and the unfortunate."

The above seemed such a worthwhile creed, well worth repeating. . . .

HIGH QUALITY HAY STILL POSSIBLE

There is still time to get high quality hay cuttings this season but producers should follow some recommended guidelines to get best results. Dr. J. Neal Pratt, Extension agronomist with Texas A&M University, says the proper stage of growth for harvest is the time when the greatest amount of total digestible nutrients per acre may be obtained.

LEADER CLASSIFIEDS GET RESULTS

Oldsmobile, for 1969, has simplified its medium backlight, chromed front fender side louvers, in-price class lineup. All series in the '69 family individual hood ornamentation, a vinyl top as standard will be known as Delta 88's, and will include this and equipment, and several other distinguishing newly-created top-of-the-line Delta 88 Royale. Features including a specific exterior paint stripe. This new hardtop coupe has its own distinctive '69 wheelbases have been increased to 124 inches.

Varieties of Wheat Important to Yield

Wheat producers will soon be selecting varieties to plant this fall and the choice can be very important in obtaining a satisfactory yield.

The choice of variety should depend on the producer's needs, explains Ronald Gooch, County Agricultural Agent. Factors influencing this choice include whether the crop is to be seeded on dryland or irrigated or in low or high fertility conditions or a combination of the two.

Disease and insect reaction, lodging and shattering are also important considerations in selecting a variety, adds Gooch. Finally, quality of the grain is of utmost importance.

Texas has built up an enviable reputation for good quality wheat in recent years. For the High and Rolling Plains, the varieties Tascosa, Caddo, Scout, Warrior, and Sturdy are first choice be-

cause of their yielding ability, high quality and good storm resistance. Kaw is a good quality variety but has weak straw, so it is recommended only for dryland production.

Second choice because of weaker gluten are the Triumph strains, Crockett, Concho and Wichita. Under dryland production, they often have good milling and baking quality but are weaker than desired under irrigation, points out Gooch. Agronomically, they are less desirable because of weak straw or tendency to shatter.

Sturdy is the new short stature wheat especially recommended for growing under irrigation on highly fertile soils where lodging is a problem. It is not recommended for dryland wheat production as it may be too short to cut satisfactorily.

Under dryland conditions, Sturdy sometimes yields less and has a lower test weight than Tascosa, Caddo and Scout.

These varieties are all satis-

factory for winter grazing under most High Plains conditions. However, grazing of the early varieties should be discontinued earlier in the spring than later varieties. This practice avoids yield reduction caused by damage to heads which are beginning to form.

Two new varieties of hard wheat are available from nearby states, points out Gooch. These are satisfactory for growing in Texas, though not any better than our present varieties. Parker (Kansas) is an early maturing variety of good quality. It has resistance to some races of leaf rust but none to stem rust. In Texas tests, it has yielded about the same as Triumph and Crockett.

Guide (Nebraska) also is a new early maturing wheat of good quality. On the High Plains, it matures about with Caddo but at lower elevations is nearly as early as Triumph. It is highly susceptible to leaf rust but resistant to some stem rust races.

HEDLEY NEWS

Mrs. Mabel Bridges

Deepest sympathy is extended the Bill Waddell family in the death of her mother, Mrs. Stock Lamberson of Clarendon.

The Senior Class of Hedley High School gave their Senior Play Friday night. A large crowd attended. The play, "Murdered Alive," was directed by Mrs. Evelyn Messer.

The First Baptist Church is in a revival meeting this week with Rev. D. M. Newton, pastor of the

South Georgia Baptist Church of Amarillo, doing the preaching. Jimmy Boliver and Jon Leggett are directing the music assisted by Mesdames Shirley Reynolds and Linda Payne.

Mr. and Mrs. Bill Mathews and children of Clayton, N. Mex. spent the week end with her parents, the Alfred Spaldings.

Misses Millie and Ellen Faye Land and Mr. and Mrs. Pete Fair of Clarendon are at HemisFair this week. They visited Johnson City, Austin, and Corpus.

Mr. and Mrs. Hobart Moffitt attended the Hardware convention in Amarillo last week end. Ray Morman is a patient in

'69 Chevelle SS 396 Sport Coupe

The sporty set will enjoy the Chevelle SS 396 Sport Coupe shown above. Dynamic-styling of this intermediate class car plus such features as black-accented grille, special twin-domed hood and sport striping classifies this car as a standout. The '69 Chevrolets will be on display September 26.

Groom Memorial Hospital where he is receiving medical attention.

Quite a few Hedley folks went to the Tri-State Fair in Amarillo last week.

Mr. and Mrs. Homer Simmons made a business trip to Ft. Worth the first of last week.

Porter Pierce of Ft. Worth is visiting his mother, Mrs. W. A. Pierce.

Jack Morman and family of Wellington, Dr. David Morman of Washington, D. C. and Mrs. C. S. Whitmore and son, Mark, of Harrison, Ark. are visiting their parents, the Ray Mormans.

They all visited Ray Sunday afternoon in Groom Hospital.

Mrs. Deloris Simpson left Saturday for New York to join her husband who is in the service.

Mrs. Lavern Gibson and son who have been visiting her father, the G. L. Leepers, returned with Mrs. Simpson to her home

in Long Island. They made the trip by car.

Mr. and Mrs. Raymond Mitchell left last week for Washington to help with the apple harvest.

Mr. and Mrs. Carl Reed and Cullen Taylor attended the Wolf hunt in Oklahoma the first of the week.

Mr. and Mrs. Alfred Spalding returned home Friday from Memphis, Tenn. where Mrs. Spalding underwent bone surgery.

Mr. and Mrs. Walter Johnson are on vacation visiting relatives in Pauls Valley and Heldon, Okla.

Mrs. Lilly Meeks was able to come home from Adair Hospital Friday.

Gene Floyd was able to come home Friday from Hall County Hospital after spending several weeks there.

Mrs. Younger spent a few days last week in Lubbock with her

children. She returned home Saturday.

Mrs. Fred Stafford and baby of Silverton are visiting Mr. and Mrs. Jack Stafford.

Mr. and Mrs. Clifford Johnson visited the Charles N. Johnson family at Matador Friday of last week.

Mr. and Mrs. Jack Hoggard and son, Randy, are visiting friends here this week. Their present home is Norman, Okla. but they hope to locate near Hedley.

Mrs. C. L. Johnson has returned home after visiting her sisters in Snyder, Okla. and Vernon, Texas.

NICKEL RESEARCH

The world's largest and most modern laboratory dedicated to research on nickel and its alloys is operated by International Nickel at Sterling Forest, New York.

SUGGESTIONS ON SAFE HUNTING

Safety is the most important factor to remember in the upcoming hunting season, says Wallace Klussman, Extension wildlife conservation specialist at Texas A&M University. Nearly all hunting accidents could be prevented if gun safety rules are followed.

It's the "over-anxious" hunter who endangers the lives of fellow hunters and causes needless damage to wildlife. Approximately two-thirds of all hunting accidents are caused by humans in the line of fire, humans mis-

taken for animals and hunters not using the safety catch on their guns.

Hunting only in season and respecting the bag limits are rules of good hunting sportsmanship, says the specialist. Also never throw away a lighted cigarette or leave a burning campfire, since either can start a destructive grass or forest fire.

Another good rule to remember is to respect the rights of others and to obtain permission before going onto another's property, says Klussman. Treat all property as if it were your own and don't litter the countryside.

One of the most important rules, but one that is often neglected, is to handle every gun as if it were loaded. Never carry a loaded weapon in an automobile and be sure the action and barrel are clear of any restriction.

In conclusion, always be as sure of your target as you would want your fellow hunter to be, says the specialist.

Sediment is a terrible example of a resource out of place. It hurts the land where it comes from and hurts the water where it goes.

C. T. Bates visited Glen Williams Sunday afternoon.

Mr. and Mrs. Morris Crump and boys visited her brother, Mr. and Mrs. Wayne Ivey and boys

in Pampa Sunday.

Mr. and Mrs. Bob Williams entertained their relatives and friends with a luncheon Sunday. Present were Mr. and Mrs. Frank Reid and his father, H. M. Reid, Mrs. Lida Warren and Evelyn Roach of Amarillo, and Kent McElroy of Clarendon.

Mr. and Mrs. A. B. Ivey attended the Amarillo Fair Wednesday and spent the night with their daughter, Mr. and Mrs. Bill Hall and children.

Mr. and Mrs. A. B. Ivey enjoyed an outing at McLean Lake Saturday night with her family, the Wylies.

Mr. and Mrs. A. O. Hott and Mrs. Mae Wilkinson of Memphis enjoyed lunch at the Broncho Cafe Sunday.

WHAT IS THE BEST BUY

COLLEGE STATION — Does "best buy" mean price, prestige, food value or convenience? Nothing is a "best buy" or even a good buy if it is not useful to the buyer, notes Gwendolyne Clyatt, Extension consumer marketing specialist.

No food item is a good buy unless the family will eat it. Family customs, nationality and personal preferences, regional characteristics, family income, employment of the homemaker outside the home and store advertising influence food choices.

Does price indicate a food item's value? No, says the Texas A&M University specialist. This is one of the most misleading concepts in consumer buying. You need to compare similar size and quality products at the same time.

For example, price will have less bearing on the value of meat for a family dinner than the number of servings a cut will yield. The number of servings may vary according to cut, amount of bone, fat or other waste and cooking method, Mrs. Clyatt points out.

What is the best value for you? First consider actual cost, number of servings, food value, convenience, preference — then decide.

You are the only one who can tell if a purchase is a good value for you or not, reminds the specialist.

American people have been inspired by actions of the grasshopper which eats everything in sight until it faces starvation, rather than by the beaver which repairs every break in the dam to protect his food supply.

GOLDSTON NEWS

Mrs. Roy Roberson

Mr. and Mrs. E. V. Bowling of Gilbert, Arizona are visiting their daughter, Mr. and Mrs. Ernie Collie and girls.

Mr. and Mrs. Pierce White of Quitaque visited a while Wednesday morning with Mrs. Roy Roberson.

Nora Helm of Borger brought Minnie Roberson home Thursday afternoon. Minnie and Adgar Williams had spent a few days with her in Borger.

Mr. and Mrs. Charlie Sullivan and children of Adrian spent the week end with Mrs. Roy Roberson and Minnie and Mr. and Mrs. Wes Sullivan.

Mr. and Mrs. Goodwin Bray of Dallas are spending this week with their son, Mr. and Mrs. David Bray.

Mr. and Mrs. Ed Smith of Pampa visited Saturday morning with her sister, Mr. and Mrs. Ed Ledbetter.

Mr. and Mrs. Carl Hulsey and boys of White Deer visited Saturday night with his sister, Mr. and Mrs. Ed Ledbetter.

The Goldston Quilting Club will meet Thursday afternoon, September 26, with Blanche Gray. Everyone try to come. Rep.

PONTIAC ANNOUNCES THE GREAT BREAK AWAY!

This is the year to say good-bye to humdrum driving!
'69 Wide-Track Pontiac Grand Prix.

If you've never driven a car like this before, that's because there's never been a car like this Pontiac Grand Prix before. So new, it's got its own 118" wheelbase. So new, it's got its own aircraft-type interior. A new steering wheel with a "soft" material rim. With a Wide-Track on big tires. With a new hidden radio antenna we're daring everybody to find.

Or maybe you'd like to break away with a brand-new Firebird. With typical Wide-Track handling and a range of available V-8 choices that'll make your head spin (including the fabulous 400 Ram Air option). Brand-new styling, too. Lean, clean, ready looks. Plus 13 exciting new colors... new anti-theft ignition, steering and transmission lock.

There's also The Great One. Our GTO, the one that started it all. Complete with baseball-bat-proof bumper, fully padded instrument panel, distinctive Redline tires, along with specially designed suspension. Plus an assortment of V-8's that'll make your break from dull driving just about as pleasing as any you've ever made.

And don't forget our luxurious Bonneville. With a standard, 360-hp, 428-cubic-inch V-8, a long, long 125" wheelbase, a new upper-level ventilation system, color-keyed energy absorbing bumper at both front and rear, plus the kind of interiors you'd like to install at home. Bonneville. Who needs more?

THE NEW 1969 GRAND PRIX, BONNEVILLES, BROUGHAMS, EXECUTIVES, CATALINAS, GTO's, LE MANS, CUSTOM S, TEMPESTS AND FIREBIRDS ARE AT YOUR AUTHORIZED PONTIAC DEALER'S NOW.

The 1969 Cadillac is dramatically restyled to look lower, wider and longer. The Fleetwood Brougham (top) shows the new dual horizontal head lamps and the combined parking and cornering lights wrapped around the leading edge of the front fender. The familiar cross-hatch grille features horizontal and vertical bars in a "floating fin" effect.

The ultimate in luxury personal cars, the Cadillac Eldorado, (bottom) features styling changes while continuing the strong character lines popularized by two successful years of production and sales. A new finely textured grille bears a family resemblance because of the cross-hatch theme. Elegant new wheel discs add distinction to the side view.

Among the convenience and safety related improvements are: a new seat belt system with automatic adjusters; a new Dual Comfort seat, that allows the driver's seat to be adjusted separately from the passenger's; and a closed cooling system, with a "closed" radiator and translucent reservoir permitting visual checking of the fluid level without exposure to hot coolant.

Educational Building To House SEDL In Austin

An unusual joint federal-private educational building to house the Southwest Educational Development Laboratory in Austin is attracting the attention of educational planners throughout the nation.

A planning grant from the Educational Facilities Laboratory, New York City, sponsored by the Ford Foundation, will make possible effective planning for the unique needs of an educational laboratory.

The project, to be completed in late 1969, will combine a major hotel and a high rise educational office building.

Supported primarily by federal funds, the Austin - headquartered Laboratory is one of 20 regional laboratories in the United States dedicated to improvement of educational practices. The Laboratory develops, tests and refines materials and teaching techniques for use in Texas and Louisiana.

When the Laboratory was established in temporary quarters in Austin two years ago, it was hoped that federal funds for

building permanent facilities would become available. Due to national emergencies, no facilities money was forthcoming. Therefore, the U. S. Office of Education granted permission for the Laboratory to lease facilities with private industry.

The Austin structure will be erected by an investment firm, Discovery Properties, Ltd., whose general partner is Howard E. Brunson of Austin. Officials from the Laboratory and the USOE will take an active part in planning the facilities.

Ralph F. Rowe of Baton Rouge, La., president of the board of directors of the Southwest Educational Development Corporation, and manager of the Baton Rouge Refinery of the Humble Oil and Refining Company, said "We feel that through partnership with private businessmen we have the opportunity to demonstrate a model approach to facilities planning and building for educational laboratories. It is anticipated that this venture will serve as a pilot project for the other 19 Regional Educational Laboratories."

Because this is the first educational building to be designed specifically for a Regional Educational Laboratory, other Laboratories will assist in develop-

ing space needs. Representatives of six other Regional Educational Laboratories will confer in Austin Sept. 20 with architects and planners.

Head of a team of planning consultants to determine specific needs is Dr. James Thrasher, presently executive director of the Rocky Mountain Regional Laboratory. This fall Dr. Thrasher will become Director of the Institute for Educational Management at California Western University in San Diego.

The new educational facility-hotel complex will create a center for continuing education.

"The center will be a multi-purpose complex for living and working and learning," Mr. Howe said. "It will accommodate the needs of the Laboratory as well as other education related institutions and professional associations."

Working in the new facility under Dr. Edwin Hindsman, executive director of the Southwest Laboratory, will be a staff of 105 educational leaders and support personnel.

Staff members will convert the findings of research into workable, tested, classroom-ready products for use with children in selected schools throughout Texas and Louisiana.

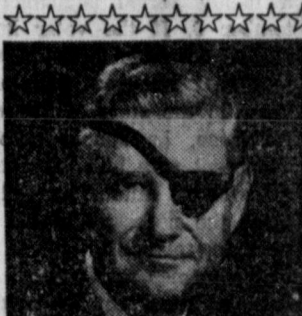

The work will include development of new curriculum materials, teaching methods, and evaluation measures for boys and girls from diverse cultural groups. The Laboratory emphasizes curriculum development in language - bilingual education, mathematics education, social education and childhood education.

Another education oriented tenant of the Austin complex will be the Association of Texas Colleges and Universities, Dr. J. Stewart Allen of Austin, executive director. Leases are also

being negotiated with the Texas State Education Service Center, Region 13.

The hotel will be a major hotel facility containing approximately 200 guest rooms, dining rooms, public meeting rooms, barber and beauty shops, package store and complementary retail shops.

Architects are Brooks, Barr, Graeber and White of Austin, designers of the Lyndon B. Johnson Presidential Library in Austin, the new Labor Department Building in Washington, D. C., the American Embassy in Mexico City and NASA facilities.

JOIN THE TEAM!

For strong law enforcement, call or write or come by our headquarters: 610 Nueces St., Austin, Texas 78767. Telephone: (512) 477-5824.

Pd. Pol. Ad. Crawford Martin for Attorney General, Searcy Bracewell, State Chrmn.

New Cantaloupe From Texas

Small fields of Dulce cantaloupe, a new disease-resistant variety developed by the Texas Agricultural Experiment Station are expected to show up in South Texas this coming spring.

Foundation seed stocks of the variety were released to certified seed growers earlier this year. A limited amount of seed for commercial growers should be available in the spring of 1969.

Dulce is the work of R. T. Correa, horticulturist at the Texas A&M University Agricultural Research and Extension Center at Weslaco.

In growing trials, the cantaloupe has demonstrated good adaptability to late spring and summer growing conditions of South Texas. It has strong seed-

lings, vigorous vines and good fruit appearance and shipping qualities.

Outstanding features are resistance to downy mildew, powdery mildew and fruit rind rot, and tolerance to fruit rind black mold.

The cantaloupe has excellent flesh flavor and sweetness. It is of medium size, has a hard, well netted rind, and is similar in appearance to the well known Perlita variety.

Correa developed Dulce from a cross between a line known as TP 59-17 and the Wescan variety. Wescan came out of the Weslaco center in 1960. Dulce has been self-pollinated, selected and propagated for eight generations.

In 1967 tests, Dulce was compared to Perlita and showed stronger seedlings, larger vines, sweeter and more highly flavored flesh. It was better adapted

to late spring and summer production, apparently because of its vigorous vines. In areas where downy and powdery mildew have been limiting factors, Dulce produced good quality fruits.

The new variety has its limitations. It does not resist Alternaria leafspot or gummy stem blight. Because of the vigorous vine growth, it should not be planted in double rows. For single row planting, the in-row planting spacing should be 16-20 inches between single plants.

March 15 through May 1 is the best planting time in South Texas. If Dulce is planted earlier, it will produce small, coarsely netted fruits.

More information on Dulce is in L-760, available at county agricultural agents' office, or at the Agricultural Information Department, Texas A&M University, College Station, Texas 77843.

Presenting Cadillac for nineteen sixty-nine

A masterpiece from the master craftsmen

Beautifully new, distinctively Cadillac

Even Cadillac has never built one like this!

The craftsmen who engineer and build Cadillacs are accustomed to creating the finest of motor cars, but they take special pride in these brilliant 1969 models.

A single glance at this automotive masterpiece reveals striking poise and beauty, dramatically new, yet unmistakably Cadillac. For 1969, Cadillac's traditional dignity is complemented by youthful styling unique in the luxury field.

New concepts in comfort and convenience.

The 1969 Cadillac is completely new inside, with major innovations in design, convenience and decor. A newly contoured "control center" instrument panel makes controls even more accessible, and virtually surrounds passengers with luxurious protection and convenience.

A smoother, more responsive engine.

Cadillac's great 472 V-8 engine—the largest V-8 ever to power a production passenger car—is smoother, quieter and more responsive. Never before has power been employed so efficiently in the operation of a car and its equipment. And for 1969 front disc brakes are provided.

Your judgment is invited.

There are eleven different models of the 1969 Cadillac, more than is offered by any other luxury car manufacturer. Each is truly a masterpiece from the master craftsmen.

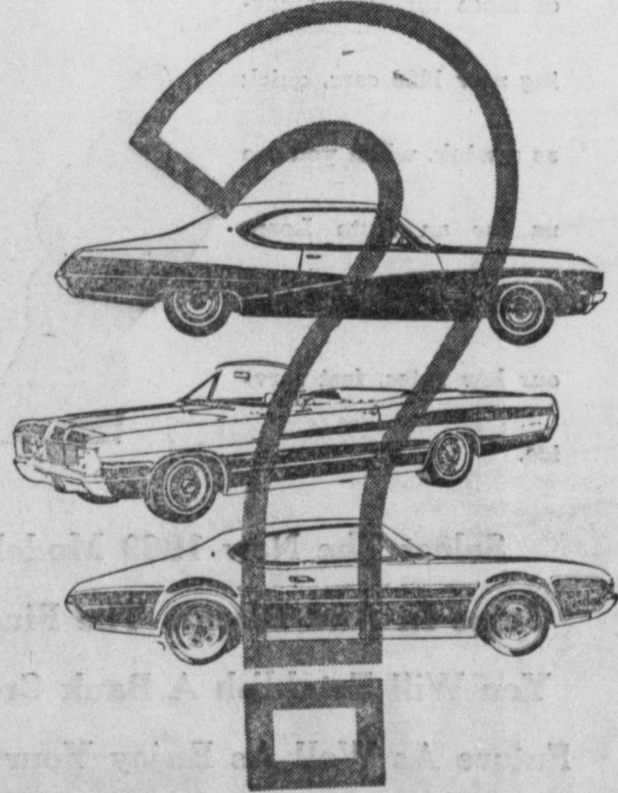

Your authorized Cadillac dealer welcomes your personal inspection of this once-in-a-lifetime motor car. Stop by and drive one at your earliest opportunity. We think you'll agree that this is the greatest Cadillac ever built.

AUSTIN, Tex. — Until this year no one could vote in any election in Texas unless he had lived in the state for a full year. "Not so now", says Secretary of State Roy R. Barrera.

As the result of a statute passed by the Texas Legislature in 1967, following voter approval of a constitutional amendment in 1966, voting rules have been changed.

Barrera, as the state's chief election officer, advises that any citizen of the United States, 21 years of age or older, who has resided in Texas less than one year and for at least 60 days as of the election, who satisfies the conditions of a qualified voter in the state from whence he came to Texas and would have been qualified to vote had he remained there, may vote in the Presidential Election here this fall.

However, Barrera points out,

the voter can not vote on any office except that of president and vice president of the United States.

Furthermore, he must apply for a ballot at the office of the county clerk in the county of his residence . . . sometime during a 15-day period beginning September 6. If the voter has an official document attesting to the fact that he was a registered voter in the state of his former residence, he should take that document with him when he applies for his ballot. This will eliminate the necessity of the clerk verifying eligibility at the place of his former residence.

It is important to note too, says Barrera, that once declared eligible to vote, the newcomer must cast his ballot in the county clerk's office . . . not on November 5, the general election

date . . . but sometime during the 15-day period preceding the general election.

STATE INCOME TAX DISCUSSED — Constitutional Revision Commission finished its first full review of recommendations for a new constitution after a battle royal on the question of state income taxation.

Commission wound up recommending that the current provision allowing an income tax be retained, but there was considerable support for prohibiting income taxes.

Revenue and Taxation Committee, headed by George Wilson of Dallas, president of Lone Star Steel Company, had recommended retention of the clause authorizing such a tax. But Wilson quickly joined forces with Houston Rep. Bill Archer during the full commission meeting in an effort to forbid income taxation.

Wilson said a prohibition on the income tax "would be helpful to our chambers of commerce in recruiting industry." San Antonio Mayor Walter McAllister termed income taxes "socialistic, communistic and Marxistic".

By a vote of 73 (most of the 25-man commission were absent

or failed to vote) the prohibition of the income tax was approved. But Denton Rep. Alonzo Jamison forced reconsideration of the issue when he moved that the sales tax be limited to its current level. "If we are going to bind the hands of the legislature in the matter of one tax,"

Wilson and Archer were strongly opposed to restricting the sales tax level, but Dallas Times Herald Editor Felix McKnight, who had voted with Wilson, changed his mind and said he thought decisions on tax policy should not be made by a constitutional drafting body. He moved for reconsideration.

By a 10-2 vote the income tax prohibition was opened for reconsideration, and the prohibition on income tax was then defeated by a vote of 9-6.

Commission will meet again in late September to look after actual drafting work. The proposed charter will be submitted to the legislature in January.

WALLACE CHAIRMAN IN AUSTIN — Bard Logan, State Chairman of the American Party and the George Wallace presidential campaign, has started a week-day schedule of working in

Austin in American Party headquarters at 506 International Life Building.

"I have made my wife a 'political widow'," Logan said, "I'm staying in Austin during the week and trying to get home to San Antonio weekends until the campaign gets too heavy, and she's running my business for me back home."

Logan denied reports that his party moved its headquarters from Austin to New Braunfels, explaining, "I presided at the official opening of the New Braunfels local headquarters, and some people thought we had moved there. But we have not. We are right here in Austin."

TEXAS STOCK EXCHANGE — A legislative committee and the University of Texas at Austin will begin a study this fall on the feasibility of a Southwest stock exchange centered in Texas.

Advocates of the idea say that Texas and Southwestern stock-market transactions have grown so much in recent years that such an exchange soon will be a necessity and may be desirable now.

Rep. Dave Finney of Fort Worth chairs the committee,

which includes Reps. Don Cavness of Austin and Dick McKisack of Dallas. The UT research will be carried on by Dr. Ernest W. Walker, professor of finance, and a graduate student.

They will report to the 61st Legislature in January.

CORY NAMES GAS-STORAGE COMMITTEE — Rep. Dick Cory of Victoria, chairman of the House State Affairs Committee, appointed a special subcommittee to study Texas laws on the storage of gasoline.

Rep. Charles Jungmichel of La Grange will chair the committee, which will include Reps. Bud Alton of Edinburg, Jack Blanton of Carrollton, Ace Pickens of Odessa and Rayford Price of Palestine.

HIGHWAY PROGRAM — Texas Highway Commission announces a \$60.6 million state Highway Safety and Betterment and Farm-to-Market-Road Improvement Program for 1969, including 1,177 projects in 224 counties.

Bulk of the work will serve to increase safety on the highways, and another large portion is for the reconstruction of highways and RM roads, including widening, improvements to shoulders and construction of improved surfacing.

In 1968, the program included 696 screwworm cases confirmed in Texas in July. Mexico reported 1,983 cases in roughly the same period.

ANTHRAX REPORTED — Texas Animal Health Commission has received a report on an outbreak of deadly anthrax disease in the area around the juncture of Val Verde, Kinney and Edwards Counties.

Nine premises have reported deaths from the disease among cattle, horses and deer. Commission has also reported

696 screwworm cases confirmed in Texas in July. Mexico reported 1,983 cases in roughly the same period.

REHABILITATION STUDY — A report by the Texas Research League on vocational rehabilitation has prompted the State Board of Education to appoint a committee to look into the situation.

William H. Evans of Lubbock is chairman of the committee

composed of Porter M. Bailes Jr. of Tyler, Doyle Corley of New Boston, E. R. Gregg Jr. of Jacksonville, Charles E. Hart of Bryan and James W. Harvey of Archer City.

League was prompted to make its report because of the sudden expansion of the rehabilitation program in the last five years.

ASHTOLA NEWS

Mrs. Hubert Rhoades

Mr. and Mrs. Van Knox visited in Oklahoma City last week end and attended church at the First Baptist Church where their grandson, Ronnie Baugh of the Baptist Seminar in Ft. Worth, preached his first sermon. He filled the pulpit for his father, Frank Baugh.

Mr. and Mrs. H. S. Mahaffey returned Friday from Santa Ana, Calif.

Mr. and Mrs. D. L. Vaughn of Clarendon visited Monday evening with Mr. and Mrs. Hubert Rhoades.

Mr. and Mrs. Jess Nelson came home Tuesday after spending two months in Amarillo. Both were in the hospital part of the time. Mrs. Bessie Holland of Boonville, Ark. and Mr. and Mrs. Everett Kooz of Mangham, La., spent a few days with them.

Mrs. Mary Belle DeBord and Mrs. Hubert Rhoades attended funeral services for Mrs. Cleta Lamberson Friday afternoon.

Mrs. Lance Leggett of Lakeview and Mrs. C. C. Horschler shopped in Amarillo Saturday and attended the Fair.

Mrs. Willie Mills and Cecil Ray spent Wednesday night with Mr. and Mrs. R. R. Partain.

Mr. and Mrs. Lewis McLaughlin of Hedley spent the week end with Mr. and Mrs. Frank Mahaffey. They all visited the Hubert Rhoades Friday night and showed films.

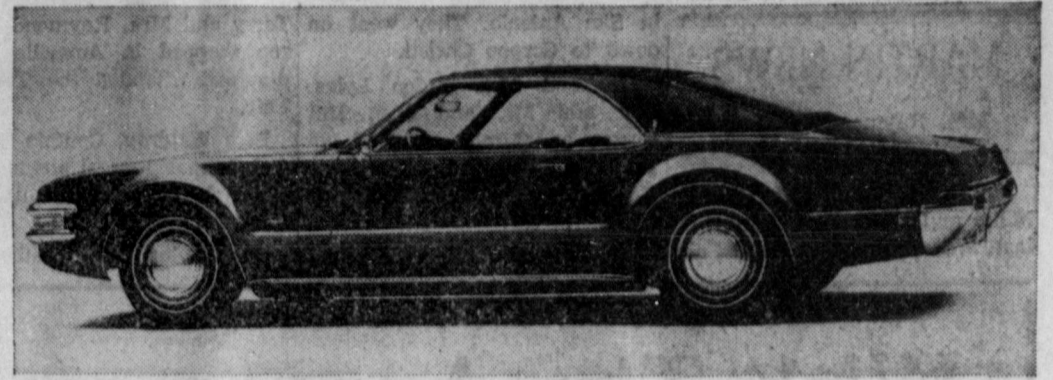

Van Knox attended the football game Friday night in Clarendon.

Mr. and Mrs. Horace Green, Jerry, Beth, and Ellan spent Saturday night in Canyon with the Joe Greens.

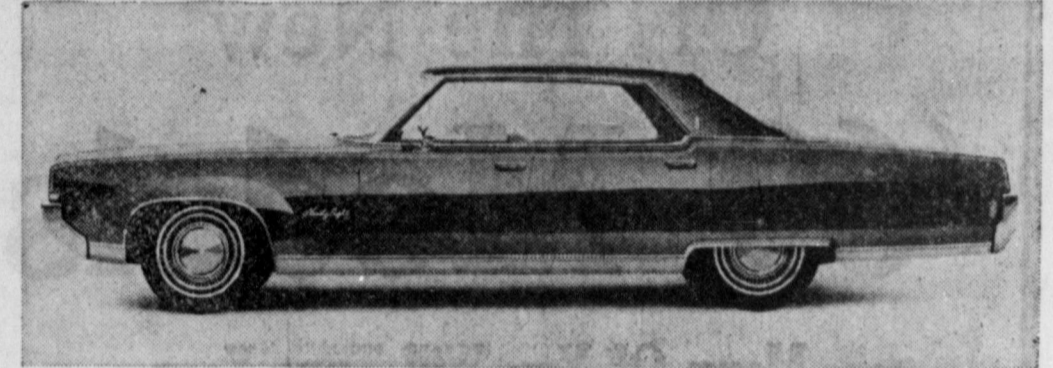

Our sympathy to the family of Mrs. Cleta Lamberson who died Wednesday.

Visitors in the T. A. Nelson home the week end were Mrs. Bessie Holland of Boonville, Ark., Mr. and Mrs. Leslie Caffee and grandchildren of Panhandle, and R. T. Gordon of Memphis.

Mrs. Van Knox attended a

For 1969, Oldsmobile's famed front wheel drive Toronado has been lengthened 3 1/4 inches and displays a dramatically redesigned rear appearance involving a new deck and new rear quarters. Inside, the Toronado is richer looking than ever, and the Toronado's ride has been further improved. A unique option on the new Toronado is an electrically heated rear window defogging system.

The all-new '69' Luxury Hardtop Sedan, companion model to the '69' Luxury Sedan, will incorporate the new 127-inch wheelbase which is standard on all 1969 '69's.' An optional feature is the divided front bench seat with independent controls for driver and passenger positioning.

Sara Coventry party at Loraine Leek's Friday night.

Mr. and Mrs. B. F. DeBord visited Sunday in Pantex with Mr. and Mrs. Claude DeBord.

Mr. and Mrs. Doyle Hall and children of Clarendon had Sunday dinner with Mr. and Mrs. J. B. Lane.

Those having lunch with Mr. and Mrs. Hubert Rhoades Thursday were Mrs. W. A. Poovey, Mrs. C. E. Dewey, Mrs. Mary Dozier, and Mrs. Walter Green of Clarendon.

Mrs. Bernice Womack of Goodnight visited Thursday afternoon with Mrs. C. C. Horschler.

Mr. and Mrs. H. S. Mahaffey attended the dedication services at the new Baptist Church in Memphis Sunday and visited the Bob Ayers family.

Mr. and Mrs. Willard Cook and Dean of Meades, Kansas spent the week end with Mrs. W. A. Poovey and others. Dean is attending college in Liberal, Kansas this semester.

Mr. and Mrs. Van Knox and Mr. and Mrs. Ross Springer of Hedley visited Mr. and Mrs.

G. J. Hinders Sunday in Memphis. The ladies attended the dedication of the new Baptist Church.

Mr. and Mrs. Loren Rhoades, Barry and Rhondalea of Amarillo visited Friday evening with Mr. and Mrs. Hubert Rhoades and Clyde Butler of Clarendon.

Those visiting during the week end with Mr. and Mrs. Jess Nelson were Mrs. Bessie Holland of Boonville, Ark., her son, Dorsie Leffel and son Rodney of Irving; Mr. and Mrs. Everett Kooz of Mangham, La.; Mrs. Ella Biggs of Dallas; Mr. and Mrs. T. B. Nelson and Mrs. Dora Joyner, also Mr. and Mrs. Charlie Leffel, all of Amarillo; Mr. and Mrs. R. T. Gordon of Memphis, and Mrs. Larry Hall and boys of Borger.

Mrs. Holland and Mrs. Ella Biggs went home with Dorsie Leffel.

Mr. and Mrs. Elzie Kidd of Clarendon visited in the Jess Nelson home in the evening.

Mr. and Mrs. Kenneth Turner and Brenda of Lake Tanglewood and Mr. and Mrs. Lowell Hall

and children of Goodnight visited Saturday evening with Mr. and Mrs. J. B. Lane.

Mr. and Mrs. Peden of Goodnight visited Friday afternoon with Mr. and Mrs. Jess Nelson.

Mrs. Butch Brown, Mrs. Buddy Tittle, and Jerry Gray of Amarillo spent the week end with the Vance Grays and Mrs. Irene Gray of Clarendon.

and children of Goodnight visited Saturday evening with Mr. and Mrs. J. B. Lane.

Mr. and Mrs. Peden of Goodnight visited Friday afternoon with Mr. and Mrs. Jess Nelson.

Mrs. Butch Brown, Mrs. Buddy Tittle, and Jerry Gray of Amarillo spent the week end with the Vance Grays and Mrs. Irene Gray of Clarendon.

and children of Goodnight visited Saturday evening with Mr. and Mrs. J. B. Lane.

Mr. and Mrs. Peden of Goodnight visited Friday afternoon with Mr. and Mrs. Jess Nelson.

Mr. and Mrs. Charlie Hearn attended the Tri-State Fair in Amarillo Thursday night.

The average American family is not in financial danger from too much installment buying. But many fail to use credit wisely, says Doris Myers, Extension home management specialist at Texas A&M University.

NEWS FROM

Congressman Bob Price 18th District, Texas

Appropriations for the Foreign Assistance Act of 1969 were substantially reduced in the bill passed by the House of Representatives last Thursday. In my opinion, however, the entire \$1.6 billion approved for Foreign Aid could have been eliminated from appropriations for fiscal 1969 without seriously affecting the program.

Because of the continuing seriousness of the U. S. balance of payments problem abroad and the inflationary spiral at home, I voted against the bill along with 138 other Members. The President had requested \$2.9 billion in his budget. The Foreign Affairs Committees of the House and Senate had reduced the authorization for Foreign Aid to \$1.98 billion and then the Appropriations Committee had cut that figure to \$1.6 billion. But, as Rep. Otto Passman, the Chairman of the subcommittee that handled the appropriations said, the bill has become so fragmented that it is necessary to go through the entire budget to pick-up all the pieces that are not included in the bill.

The Committee report on the bill itemized \$10,847,000 for selected programs involving international activities that the President has requested in the 1969 budget. In addition to the \$2.9 billion for foreign assistance, other programs and requests included both military and economic assistance in the Defense budget, Export-Import Bank, PL 480 (Food for Peace), Inter-American Development Bank, International Development Association, Asian Development Bank, Peace Corps, foreign educational assistance, contributions to international organizations and others that add up to almost \$11 billion. This compares with the 1968 request of \$9.2 billion and 1967 of \$8.2 billion.

Those who decried the cuts and the left-wing Washington Post that ranted editorially of "reckless abandon" and "hatchet-work" on what they termed a "bare bones" request ignored the fact that unexpended balances for these programs now total \$20,762,926,000. And, unless there is a substantial increase in U.S. commercial exports, we can look forward to another substantial deficit in our international balance of payments account in calendar year 1968. The 1967 deficit was \$3,650,000,000 and resulted in this year's gold crisis.

A list of countries that have purchased gold from us during the period 1957 through 1967 shows that each one of the countries was or is now a recipient of U. S. assistance during that period. Their actions have reduced our gold stockpile from \$22,857,000,000 on December 31, 1957 to \$11,981,594,750 on December 31, 1967. In addition, many of the countries were also purchasing newly-mined gold to add

Quiet luxury found in

'69 Chevrolet Impala Custom Coupe

Sparkling with new styling refinements are the 1969 Chevrolets. New grille design, new placement of front lights and rectangular rear taillights are a few of the many changes to be found in the Impala Custom Coupe as shown above. Again Chevrolet offers an array of comfort and convenience options that personalize a car to the individual taste. The new Chevrolet line of passenger cars will be on display September 26.

to their gold reserves. The 72 countries that purchased this more than \$20 billion in U. S. gold, during that 10 year period, received \$22,949,900,000 in U. S. economic and military assistance.

There is no question of U. S. concern and compassion for the hunger, poverty, and distress in many parts of the world. And our help could have been continued with the huge amounts already funded in previous years. But, in the face of a \$25.4 billion deficit this year, a \$30 billion an-

nuual cost of the war in Vietnam, continuing inflation, cost of living increases, gold outflow, skyrocketing costs for medical care, education and everything else, I consider it unfair to ask the U.S. taxpayer to assume the burden of taking care of all of the so-called under-developed countries of the world.
