NOW IS THE TIME FOR SAFETY INSPECTION FOR VEHICLES

Public Safety reported today that more than 4,250,000 vehicles still remain to be inspected for the 1968 sticker before the April 15 deadline. Col. Homer Garrison, Jr., DPS Director, said that only 1,574,397 cars had been inspected so far this year. The total number of vehicles inspected during 1967 was

5.702.862. Garrison urged motorists to have their cars inspected as soon as possible in order to avoid the long lines which will undoubtedly develop as the inspection period draws to

Garrison reminded car owners that under the new provisions of the law the inspecion will include front seat belts in cars where the anchorages are part of the manufacturer's original equipment, see and visit with everyone steering, and wheels and rims.
