It's getting time to 'think' lawn again! Extension specialists at Texas A&M University say early spring is the time to fertilize blue grass, fescues, and other cool-season grasses. Organic, or urea-form, nitrogen fertilizer may be used in the spring to prevent burning. It will also reduce over-stimulation of the grass and provide for a more continuous supply of nitrogen. Do not apply fertilizer, particularly an inorganic fertilizer, when the grass leaves are wet. Water the lawn immediately after applying fertilizer to prevent burning of the grass plants.

To protect your floors, chemically treated throw rugs, such as those used by many businesses, can be purchased. Once they are washed they will need to be retreated, but the chemical is available at some stores.

## Neece-Bobo Nuptials Solemnized In Church Ceremony Sat., June 22

The wedding of Miss Emily-Meredith Neece, Clarendon, Texas, and Mr. Freddie L. Bobo, 315 North Main, Hollis, Oklahoma was solemnized the evening of Saturday, June 22, 1968 at 8:30 p.m. in St. John the Baptist Episcopal Church, Clarendon, Texas. The Reverend Alan Conley, Curate of St. Andrew's Episcopal Church, Amarillo, Texas, was officiant at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Lawrence C. Neece, Clarendon, Texas. Parents of the groom are Mr. and Mrs. Fred E. Bobo, 315 North Main, Hollis, Oklahoma.

White rose altar flowers, tiered rose votive lights, and small window bouquets decorated the church.

The bride, given in marriage by her father, wore a family heirloom dress of ivory satin. The dress, worn first by a great-grand aunt 101 years ago and also worn by the bride's mother, was fashioned with a basque waist, long flowing sleeves, and a full hoop skirt ending in a train. Her veil of silk Brussels lace was held in place by a tiara of pearls. She carried a bouquet of Gardenias attached to a mother-of-pearl fan that was carried by the first wearer of the dress. The 140-year-old veil has been worn by many generations of brides.

Bridal attendants were Miss Judith Anne Greene, Clarendon, Texas, and Miss Brenda Jo Bobo, sister of the groom, Hollis, Oklahoma.

Attending the groom as best man was George Leathers of Dodson, Texas. Groomsmen were Lawrence G. Neece, brother of the bride, Oak Harbor, Washington, and Larry Henard, Wellington, Texas.

Ushers were Charles Milligan, Quanah, Texas and Wayne Milligan, Denton, Texas. Patrick Lee Slavin, Clarendon, Texas served as acolyte and Robert Leathers, Clarendon, Texas, was organist.

Following the ceremony a reception was held in the home of the bride's maternal grandmother, Mrs. George A. Ryan, Clarendon, Texas.

The couple will be at home at 1009 1/2 Third Avenue, Canyon, Texas.

The bride graduated from Clarendon Junior College where she was a member of Phi Theta Kappa. She is a junior student at West Texas State University, Canyon, Texas. The groom attended Clarendon Junior College and was a member of Phi Beta Lambda. He, also, is a junior at West Texas State University, Canyon.

## Hill-Ham Vows Read At Hedley Church Friday Evening

Miss Loretta Jo Hill, daughter of Mr. and Mrs. John Hill, Jr., of Hedley, Texas and Pete Ham, son of Mr. and Mrs. C. M. Ham of Groom, Texas were united in marriage Friday evening, June 21, in the First Baptist Church of Hedley.

Rev. Dave L. Sellars, pastor, performed the double ring ceremony before an altar decorated with a fifteen tiered canelabrum covered with greenery and flanked by seven tiered candelabra and baskets of white pom poms and orange carnations. Pews were marked with ivy and white bows with streamers.

Given in marriage by her father, the bride wore a formal gown of white brocaded satin featuring an empire waistline, full length pointed sleeves, and a chapel train. Her fingertip veil of illusion fell from a pearl and lace taria. She carried a bouquet of white pom mums and orange carnations trimmed with ivy. She observed all of the traditions of something old, new, borrowed and blue.

Carole Hill, sister of the bride, served as maid of honor. Mrs. Jenne Smith of Clarendon was bridesmatron and Miss Nita Bailey of Hedley and Miss Pam Stephens of Roswell, New Mexico, cousin of the bride, was bridesmaid. Attendants wore identically fashioned street-length, empire A-line dresses of apricot accented by white gloves and white shoes, and carried nosegays of pompons centered with an orange carnation.

Sandy Ham of Groom attended his brother as best man. Groomsmen were Brad Major of Groom, Michael Smith of Clarendon, and Gary Graham of Memphis.

Jeff Hill, brother of the bride, served as ringbearer and Sherie Hill, sister of the bride, was flower girl. Acting as ushers and candlelighters were John Howell of Dimmitt and Bobby Brooks of Clarendon. Sue Alexander, soloist, sang "One Hand, One Heart" and "Always," accompanied by Letha Springer, organist.

The bride's mother wore a dress of green bonded jersey with beige accessories and a white orchid. The groom's mother wore a three piece yellow dress of linen with brown patina and gold accessories. She also wore a white orchid.

Following the ceremony a reception was held in Fellowship Hall of the church. The entire wedding party formed the receiving line. Miss Pat Floyd presided at the register.

Miss Neva Hill served the wedding cake and Miss Cheryl Woodridge served orange sherbet punch from a table laid with ecru lace over apricot, and featuring the four tiered wedding cake topped with a bride and groom in miniature. Appointments were silver. Napkins carried the names of the bride and groom.

As a traveling costume, the bride chose a bonded off-white knit with orange accessories and the corsage of orange carnations lifted from the center of her bridal bouquet. The couple left for Pasco, Washington to make their home.

The bride is a graduate of Hedley High School and the groom is a graduate of Groom High School. Both have attended Clarendon College and both plan to enroll in Pasco Junior College. Among those attending the wedding were Joe Morrow, grandfather of the groom; Mrs. A. G. King of Van Buren, Arkansas, grandmother of the bride; and J. F. Hill of Hedley, grandfather of the bride.

After rehearsal Thursday night a dinner was held in Fellowship Hall. A delicious meal of ham, potato salad, cole slaw, green beans, bread, tea and pineapple dessert was served. The table was decorated with a beautiful arrangement in white with apricot streamers lettered with "Pete and Loretta" attached to two doves and two wedding bells.

Here are some do's of tire care from the Extension home management specialists:

Have periodic check of tires, brakes, wheel balance, and wheel alignment.

Rotate the tires approximately every 5000 miles, keeping a record of the rotations,ivot rotating causes tires to wear unevenly, resulting in rough riding, vibration and shimmy.

Maintain an even driving pace, making gradual stops and starts. Store tires in a cool, clean, dry, sunless spot away from air currents.

## SOCIAL SECURITY

Although the district office for this area is located in Amarillo, social security service is available on a regular basis in most counties the Amarillo office serves, Travis C. Briggs, district manager, said today.

"Ordinarily, folks do not have to wait very long to be interviewed if they call at our office in Amarillo," according to Briggs, "but we realize that it is not convenient for some to come to Amarillo."

"That's the reason our field representatives set up schedules so the people in a community will know when they will be available for assistance in filling out claims for benefits or in answer questions about social security or Medicare."

Those of you living in Donley county may wish to contact Mr. Millard in Clarendon at the Courthouse on July 11, 18.

## Leftover rice? You can restore it, covered, in the refrigerator for a week or freeze it for up to six months, say Extension foods and nutrition specialists at Texas A&M University. Wrap the container of rice with freezer paper or foil. Thaw it, unwrapped, at room temperature. This takes about 4 hours. To reheat cooked rice, cover the bottom of a saucepan with water, add the rice and simmer over low heat about 10 minutes.

## IT'S FUN TO BE CREATIVE—

so EASY with Old Masters

Anything that can be painted can be changed to take on the appearance of rich wood grain, of age-old antique or beautiful marble. The process is so simple a child could do it. Yet the realism you can achieve with Old Masters will amaze and delight you. The grand part about achieving these effects is that you don't have to remove the old finish.

### LOST & FOUND

**LOST** — Gray tackle box. Call 2185. John Judd. Reward. (23-c)

From a little magazine called Hobby News, edited by Mrs. Marjorie Scott of 4117 Airline Hwy. in Metairie, La., we take the following wise thoughts: "If we try to keep up with the neighbors, we'll also have to hide from the bill collectors like they do." "It's a good thing that our minds cannot be opened and read like a book — results would be no friend, love or money!"

The other day my wife and myself were reading our daily readings together . . . Sometimes we include a bit of this and that . . . This time we were reading about the little old lady happily rocking back and forth in her rocking chair with all the peace and contentment in the world. When asked about it she replied "The

same God who watches over me rocking back and forth here on my small porch is able to just as carefully rock this whole big world."

If we would just always remember to have this faith of this little old lady as we worry and fret about what this old world is coming to . . . A blueprint has already been written in the pages of the Bible . . . The only faults and questions come from our inability to understand it . . . Things are not supposed to get better because of anything which we may do, but only when in due time there will be a better day . . . We can make our days better by doing as the little old lady and trusting the outcome into the hands of one that is able to rock this great world as she would rock her little chair . . . The trouble is, we just can't always remember.

Most of the time we are so busy counting up the other fellow's shortcomings, that we never find time to carefully ad up our own.

Courage is something we all need a lot of . . . Sometimes our supply is low and it almost sticks in our throat . . . But if

we can keep from losing it, sooner or later it will reach up to ourselves and on out to others who need that extra boost together.

Arrival at the mid-way mark in the 30-day special legislative session touched off an explosion of activity in key areas of spending, taxation and liquor-by-the-drink.

Both House and Senate passed versions of the 1969 budget and went to conference committee to work out differences.

House passed by a narrow margin (78 votes to 67) Gov. John Connally's bill to permit liquor by the drink sales in minibottles under taxation and strict regulation.

House Revenue and Tax Committee sent out for debate and full House action Connally's \$119 million tax package. This controversial measure hopefully will land in conference committee this week after amendments in both houses.

Representatives voted overwhelmingly for a \$474 million general revenue budget, senators for a \$479.7 million general fund appropriations measure. House version would require \$132.6 million in new revenue. Senate bill \$137.9 million. All phases of Connally's tax liquor-by-the-drink legislation were designed to raise \$127.2 million, so additional revenue must be found.

House fought a bitter battle over the mini-bottles bill which was combined with proposals of a sub-committee for strengthening liquor laws. Tax on little bottles and increased fees will produce over \$8 million. An additional \$6.5 million would come from a gross receipts tax on private clubs, as called for in Connally's tax bill.

Margin on mini-bottles in the Senate is said to be even closer than in the House. Poll takers said 14 to 15 senators would be counted as sure supporters.

A sales tax increase to three per cent is certain to figure in the final tax package. This whether the legislature votes a straight rate hike or goes along with Connally's plan to raise the rate and rebate 75 per cent of the take to cities (in lieu of their present local option sales tax levy). Connally also proposes to put sales tax on many services and cigarettes.

Mini-bottles bill would make one-drink-sized containers available in licensed hotels, clubs, restaurants, planes and trains. Sellers would have to do at least a third as much business in food sales as on liquor. Mini-bottles probably will be expensive, since they would carry a tax of about 10 and one-half cents each. Sellers will have to pay the state permit fees ranging from \$50 in the smallest towns to \$1250 in cities over 250,000. Furthermore, cities and counties can match the charge.

Bill also sets specifications for private clubs and raises fees, although it will allow managers and most other employees to issue guest cards to the drop-in trade and authorizes credit card sales.

Legislation would further permit 16-year-olds to sack beer in groceries and serve as bus-boys where mini-bottles are handled. It would outlaw gambling, increase punishment for permitting minors to buy or consume alcoholic beverages, raise beer dealers' license fees from \$30 to \$150, provide for faster sale of confiscated liquor by the state and make most of the Texas Liquor Control Board records available to public inspection.

Barring logjams the legislature has a fair chance of beating its deadline and winding up must business in a single special session.

Gin Dust  
One of the differences between the Senate and House is whether Texas Air Control Board is going to be allowed to require cotton gins to put in dust-removal devices.

Senate voted to strike out a "rider" which would prohibit the board from spending any money on activities connected with cotton gins. But the House voted to keep it in, by a vote of 95-47.

This prohibition was put into the present appropriations law in 1967. It led to a blast at the Legislature by some members of the Air Control Board. But a provision put into the air pollu-

tion control law in 1967 cannot be changed by this session of the Legislature... so it operates effectively to keep the Air Control Board out of the cotton business.

However, the ginning industry has been working with the Board and has been doing research aimed at reducing the air pollution problem caused by gin operations.

Drunk Tests Advanced  
A bill to require those suspected of driving while intoxicated to submit to breath or blood tests on penalty of having their licenses suspended has been approved by the House State Affairs Committee.

Legislation provides that a driver gives implied consent to undergo chemical testing to determine if he is drunk when charged with the offense.

Most other states have similar laws as required by the 1966 federal highway safety act.

Tests showing a blood content of one-tenth per cent alcohol by weight would be prima facie evidence of being under the influence of alcohol. Arresting officers would have to appear in court. Those with religious objections to blood drawing could take a breath test.

Rural Roads  
That long - quite farm-to-market roads fuss has come back to life.

Some city legislators are pushing a bill to do away with the \$15 million a year of general tax money which is being spent on rural roads. They want it spent on city streets. But their efforts have failed so far.

Tavern "Monopoly"  
Fort Worth Dist. Atty Frank Coffey, testifying before a House committee on a bill to regulate vending machine companies under the Liquor Control Board, claimed a single coin machine concern controls hundreds of Texas taverns.

Coffey says 85 per cent of taverns in Fort Worth owe money to the concern which operates under many names. He said the same conditions exist in most other cities. Vending machine chain, the district attorney testified, started with B & B Music Company in El Paso. Former LCB Administrator Coke

Stevenson, Jr. recommended regulation of the vending machine operators and that they be barred from the tavern business.

Draft Quota Cut  
Texas draft quota for next month has been reduced by 266 men from June order to total of only 695.

However, State Selective Service headquarters reports that more than 5,300 will be called in for pre-induction physical and mental exams in July.

May call was 528 above the July figure, since additional manpower was needed for the Marine Corps. All July inductees will be for the Army.

Courts Speak  
U. S. Supreme Court has granted a stay of mandate in a lawsuit testing the constitutionality of Texas disturbing the peace law.

Three-judge Federal Court last April declared the law "impermissibly and unconstitutionally broad." Top Court said it would allow the law to remain in effect until it passes on the question.

Texas Supreme Court ordered a Harris County district court to have a new trial on the lawsuit by R. L. Foree and other operators in Haskell County seeking damages from Crown Central Petroleum Corp.

Unusual in that the provision has never been used before in this suit for \$89,000 in damages from a pipeline company. Plaintiffs contend that they had to pay 11 cents a barrel to truck their oil to the pipeline over a period of five years. Law requires a common carrier - common purchaser pipeline to connect to leases of all operators in an area. Foree's case started in 1962, with a contention that Crown Central had discriminated against the group of independent operators in Haskell Coun-

ty. Lower courts turned the independents down without a trial. But Chief Justice Robert W. Calvert held that they were in error, and the high court ordered a full new trial on the merits. Plaintiffs' wells were connected up in 1964 after the cases were started, but the operators still are trying to get back their hauling money in the form of damages.

Appointments  
Governor Connally named Louis Henna of Round Rock to a new term on Texas Youth Council. He has served 15 years.

Connally also reappointed C. T. Parker, A. J. Farfel and Mrs. Gus Wortham of Houston to the University of Houston board of regents.

M. M. Jackson of Mexia was selected as president of Texas' branch of the National Association of Postal Supervisors.

Dr. Charles D. Barnett, deputy state commissioner for mental retardation, has been named vice president of the National Association of Coordinators of State programs for the Mentally Retarded.

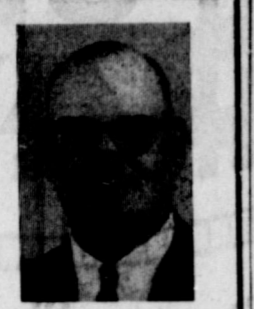

Mrs. Betty White and Gary visited the Don Rampy family of Irving in the Jim Rampy home Sunday evening.

### Price Support Loans

The price - support loan rate for 1968 crop wheat is \$1.26 per bushel less applicable storage deductions. Official grade and protein determinations will not be required on 1968 wheat; however, if producers obtain grade and protein determinations at their own expense they will be used to compute the loan rate.

The price - support loan rate for 1968 crop grain sorghum in Donley County will be \$1.64 per hundredweight less applicable storage deductions. This compares with the county loan rate of \$1.59 for the 1967 crop.

### Lost Crop Acreages

If you lose your wheat acreage by natural causes and do not wish to replant to cotton, you must come by the office and file a written request for acreage credit prior to using the land for any other purpose.

If you lose your wheat acreage by natural causes prior to harvest, you may have the acreage taken out of wheat classification. To do this, you must file

a written request with the county committee and pay the cost for a field inspection.

### Diverted Acres

Farm operators are reminded that diverted acres are to be maintained in an acceptable manner. Due to recent rains, additional plowing may be necessary to control weeds on the land.

### Producer Certification

As soon as you are sure of your final acreages, please come in and certify. The sooner you file your final acreage reports, the earlier the data sheets can be submitted to New Orleans for final payment computations.

Let us urge you once again to be extremely careful with your measurements. Any substantial understatement will be considered a scheme or device to defeat the purpose of the program, making the producers ineligible for program benefits. Any erroneous report deliberately made could subject the producer to criminal prosecution for filing a false report.

Sheriff Bill Cornell and Police Chief Gary Gerdes issued a joint warning this week in regard to the shooting of fireworks within the City limits of Clarendon.

During the celebration ahead and the presentation of "Saint's Rost Saga" this week end, the shooting of fireworks can be especially dangerous where there are persons on horseback or riding horse - drawn wagons. This should be considered along with the danger to older people and those who are ill.
