Registered Bull Sale Next Wed.

60 Head of Registered Bulls To Go Through Local Sales Arena Wed.

November 20th at 12:30 noon will be the big Rolling Plains Registered Beef Cattle Association bull sale in Clarendon at the Fair Grounds. Cow men from all over the country will have a good selection from 60 registered bulls to improve their beef cattle program.

There will be 29 Galloway, 29 Herefords and 3 Angus bulls in the offering.

Flip Breedlove, secretary and manager of the Association reports that Walter Britten will start the sale exactly on time and that all bulls will be classified for sales order at 9 a.m. on the sale day and everyone is urged to come early and see the bulls being judged.

A TV show advertising the sale will be taped Saturday morning and presented on Royce Bodford's Farm & Home show Saturday noon. Breedlove added.

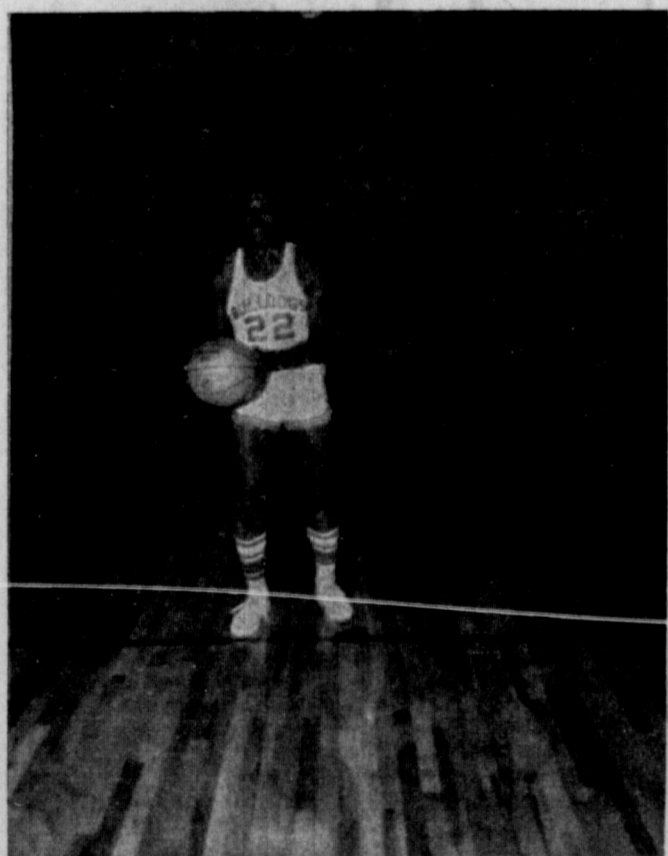

PRESENTATION OF CHS BAND KING AND QUEEN FRIDAY NIGHT

A special feature of halftime activities Friday night, November 15, will be the presentation of the 1968-1969 Band King and Queen. The nominees are: King, Clyde Helton, Mike Graham, Terry Ashcraft; Queen, Truetta Hall, Suzanne Moore, Linda Vaughan, Anna Beth Simmons, Vikki James.

This will be the final home game of the 1968 season and the band is preparing a very special halftime routine. Special attractions of the halftime show will be a trombone solo, presentation of the king and queen, and a grand finale featuring music from the 1812 Overture by Tschaiikovsky.

You are invited to come to the game and also see the halftime show Friday night, November 15, at 7:30 p.m. Many hours of preparation have gone into the plans and music for this show. "This is the best show yet, performed by the best students in the state", stated Mr. Kingsley. "I hope you will enjoy watching it as much as the students and I have enjoyed preparing it."

College Buildings Are Accepted; Moving Date In Near Future

This past week was another eventful date for Clarendon College as Regents inspected and accepted the new buildings November 6th and the U. S. District Engineer inspected and accepted for the Federal Government November 7th.

College President K. D. Vaughan has already moved the business office of the College to the new Administration Building and the tentative date for moving all other units of the college has been set for around Thanksgiving.

Vaughan reported that the curb and gutters for the streets are scheduled for completion today and that paving should be finished within the next two weeks.

Open House of the new buildings will be announced at a later date, Vaughan concluded.

Last Rites Today For John C. Drennan

Funeral services for John C. Drennan have been set for 2 p.m. today in the First United Methodist Church with Rev. Carl Nunn, pastor, officiating. Burial will be in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

Mr. Drennan, 86, died Tuesday in an Electra hospital. He had been a resident of Donley County 40 years and was a retired retail grocery merchant. He was a member of the First Methodist Church. His wife preceded him in death here in 1934.

Survivors include two daughters, Mrs. Homer Estlack of Clarendon and Mrs. Ted Price of Electra; a son, W. T. Drennan of Vernon; a brother, L. M. of Elmora City, Okla., nine grandchildren and 12 great grandchildren.

Grandsons will serve as pallbearers.

S. W. Lowe Services Set For Thursday

Funeral services for Samuel William Lowe, 77, will be held at 10:30 this morning, Thursday, November 14, in the First Baptist Church with Rev. W. R. Lawrence, pastor, officiating. Interment will be in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Lowe suffered a heart attack Tuesday afternoon in front of Junior's Food Market and was dead on arrival at Adair Hospital. He had been in ill health for some time.

Samuel William Lowe was born near Murfreesboro, Arkansas November 17, 1890 and moved to Erath County in Texas in early childhood. He later moved to Stephenville and was married to Lilac Aiken of Lipan, Texas August 26, 1915. He moved to Clarendon to accept the position of Principal of Clarendon High School where he served in that position until he entered the retail grocery business in Clarendon. He had previously served as Dean of Goodnight College and had taught in the Old Clarendon Methodist College.

Mr. Lowe served three terms as Donley County Judge and was in the Wholesale Oil & Gas business for some 20 years. He was a member of the First Baptist Church where he was an active worker and a Deacon.

Survivors include his wife of the home; one son, William J. (Bill) Lowe of Clarendon; three sisters, Mrs. J. D. Farrar of Clovis, New Mexico, Mrs. W. O. Bower of Port Arthur, Texas, Mrs. Roy Broadway of Wichita Falls, Texas; two brothers, Fred H. Lowe of Dallas, and Jesse H. Lowe of Lubbock; also three grandchildren.

Bearers will be Phil Couch, Rhea Couch, James Bain, O. C. Watson, Lee Smith, R. A. Hay, J. E. Birch, and Carl Naylor. Deacons of the First Baptist Church will serve as honorary bearers.

Penny has served as Vice-President of the association the past year and is active in many school activities. She is a sophomore student at Clarendon High School.

COTTON CLASSING OFFICE REPORTS HARVEST SLOW

The USDA Cotton Classing Office at Memphis reported harvest slow in the opening week of its tenth year of operation. Two classers are presently on duty at Memphis and others will be added as the seasonal harvest increases.

Quality of the crop harvested thus far has been good in both grade and staple. Of the past week's crop harvested 63 per cent was in the white grades with the largest grade in Middling with 43 per cent. Prevailing staples were 31/32 with 29 per cent. Mike readings showed 87 per cent in the 3. to 4.9 range.

Market is quiet due to the light demand on the part of buyers and to farmers not having harvested sizable lots.

Broncs Tangle With McLean Tigers Friday Night For Piece Of Title

Funeral Services For Lee Herron Held Tuesday

Funeral services for Lee Herron, 83, a resident of Clarendon for over 25 years, were held at 2 p.m. Tuesday, November 12 in the First Methodist Church with Rev. Carl Nunn, pastor, officiating. Interment was in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Herron died Sunday morning, November 10 in North Plains Hospital at Borger after an illness of almost two weeks. He was born August 15, 1885 at Tina, Texas and married Anna Walker on April 17, 1910 at Coffeyville, Texas. Mr. Herron was a farmer and worked as a ginner at the Smith Cotton Gin in Clarendon until his retirement. He was a member of the First Methodist Church.

Survivors include two daughters, Mrs. B. D. Cherry of Borger, Mrs. A. J. Cherry of Amarillo; three sons, Olen Herron of Phillips, Hollie Herron of Borger, Joe Herron of Amarillo; three sisters, Mrs. Jessie Stewart of Pittsburg, Texas, Mrs. Altie Smith of Whittier, Calif., Mrs. Lizzie Thomas of Sulphur Bluff, Texas; two brothers, Hephner Herron of Dallas, Nez Herron of Paris, Texas; eight grandchildren, and seven great grandchildren.

Bearers were Basil Smith, Bill Todd, Billy Goodman, Bob Kidd, J. E. Kidd, Jr., and Mack Butler.

MEMORIAL STARTED FOR VIRGIL SIDDLE

A memorial fund has been started in memory of Virgil Siddle. Those wishing to contribute may leave or mail your check at the Calvary Baptist Church, Carol Hall at the Donley County State Bank or with Mike West.

It's down to the wire for the Broncs when they tangle with the McLean Tigers here in Broncho Stadium Friday night. The Tigers will be fighting for an outright ownership of District 2-A honors while Clarendon will be doing their best to knock them off in order to share a three-way tie for the district title with McLean and Wheeler.

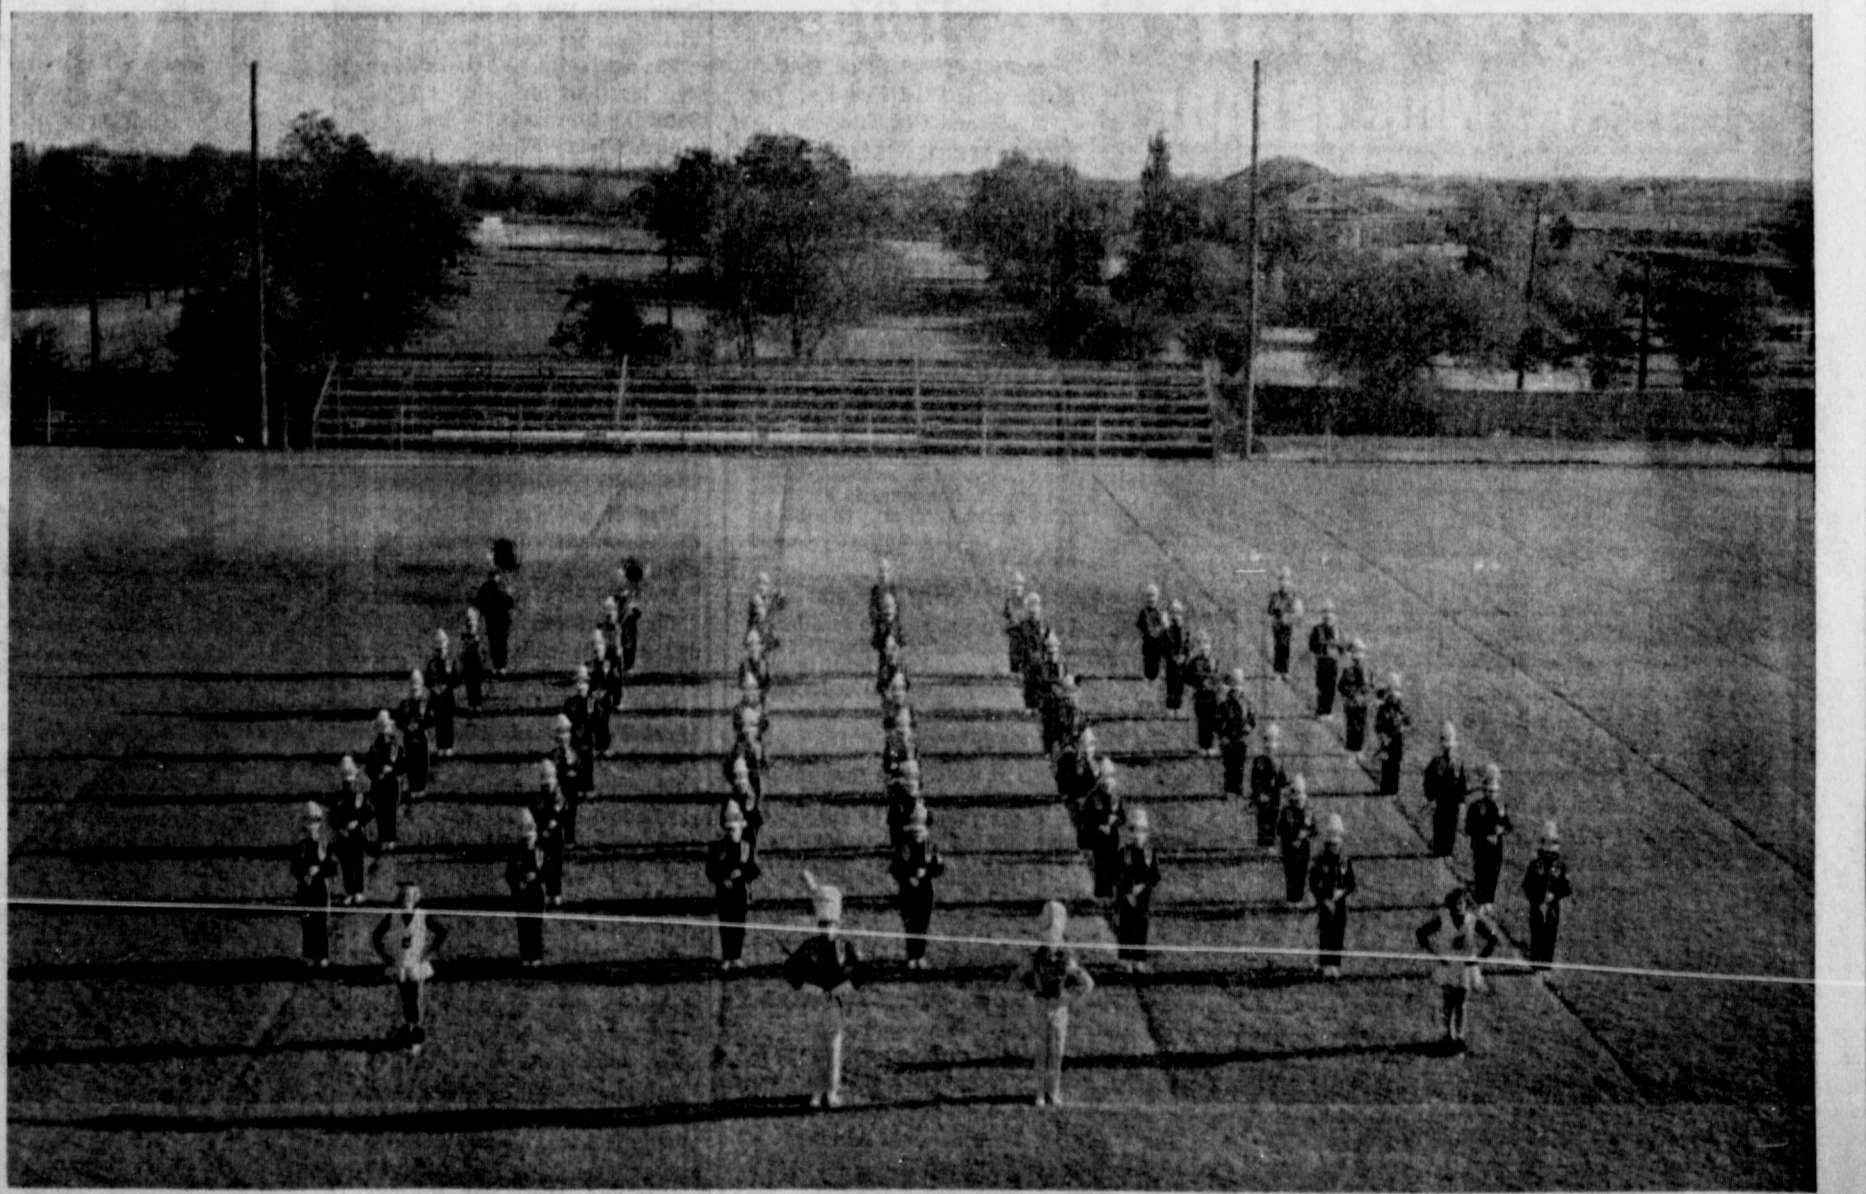

If Clarendon takes McLean, each of the three teams will have lost one conference game and a coin flip will be necessary to see which team will represent 2-A for the bi-district game.

The Broncs went up against a high keyed Wheeler team Friday night that was determined from the first whistle to knock the Broncs from the unbeaten ranks... which they did 15 to 7. With this loss, the Broncs slipped to third place ranking in the Panhandle and completely disappeared from the state Associated Press Prep pole which had them ranged third in the state.

Coach Clyde Noonkester reported yesterday that all the Broncs were ready for the Friday night battle. We just hope they will be back in true form to topple the visitors so we will have a chance at the coin toss, he added. McLean has a well balanced ball club with power in the line and an explosive backfield and the Broncs will have to play heads-up football with very few mistakes in order to take the win, he concluded.

The probable starting line up for the Broncs for the offense will be: Larry Kidd and Jim Moore, ends; Phillip Longan and Everett Monroe, tackles; Billy Longan and Doyle Gilbreth, guards; Mitchell Martin, center; Don Mooring, quarterback; Walter Reese, wingback; Bennie Reese, fullback and Steve Land as tailback.

Be sure and be out at 7:30 Friday night and help boost the Broncs to victory.

The "Broncho" Marching Band was one of nine area high school bands invited to participate in the W.T.S.U. Homecoming Parade and Ballgame. After marching in the parade at 10:30, the band received a free barbecue meal on campus at W. T. and then went to BUFFALO BOWL where the students were guests of the W.T.S.U. Band for an exciting football game. "We felt honored to be invited to the Homecoming festivities and were proud to represent our school and community," related Larry D. Kingsley, director.

COTTON ROOT ROT DAMAGE NOT LIMITED TO COTTON

Cotton is not the only plant affected by the well known "killer," cotton root rot. Dr. Wendell Horne, Extension plant pathologist at Texas A&M University, says about 2,000 plant species are susceptible to the disease, and many are ornamentals used in home landscape plans.

The disease, caused by a fungus, has been more severe this year because conditions were favorable for its development, explains Horne. Death to a plant can be very sudden. A plant can show wilting one day and be completely dead the next, he says.

Nothing can be done once the symptoms appear, adds the pathologist, except remove the plant and replace it with one more tolerant to the disease. Fruit trees and ornamental shrubs such as privet or photinia are highly susceptible. Elm trees are also highly susceptible while oaks are much more tolerant, he adds.

Much research has been done on devising methods of control. Some fungicides prevent disease development in the treated zone but persist for only a short period of time. For this reason, fungicide applications do not offer a satisfactory means of control, says Horne.

Plants belonging to the grass or lily families are immune to attack by the organism and may be grown in certain parts of the landscape where the disease is severe.

county Extension agents have been supplied with a list which rates the resistance and susceptibility of most plants commonly grown in Texas to the disease. The plant pathologist suggests a visit with the local county agent for information on the more resistant plants for your area.

THE LAST WORD ON UNORDERED GOODS

The Federal Trade Commission (FTC) is taking a tougher stand on mailers who try to collect for or recover merchandise sent to persons who did not request it, reports Extension Specialist Wanda Meyer.

Reacting to growing consumer annoyance with the practice, the FTC has issued a ruling which can set a pattern for future cases. Bills, invoices, reminders, letters or notice must state "clearly and conspicuously" that:

- 1. Merchandise is being sent unsolicited.
2. Recipient is under no obligation to return merchandise or even to preserve it.
3. Recipient is required to pay for merchandise only if he decides to purchase it.

Mrs. Meyer, with Texas A&M University, says the FTC had found that the company's communications had been designed to create the impression, "in varying degrees of bluntness" and that the recipients must pay for it, return it or "suffer legal consequences."

Two belts of Fiberglass Cord Holds the tread firm on the road... resists squirm... reduces rub-off wear... improves mileage. Found for pound, fiberglass is stronger than steel - extra protection against bruise damage in the crown area.

Low Profile Design Utilizes the same type low, broad characteristics of racing tires to produce greater stability and better steering control in the turns and on curves.

Wider Tread Up to 2" wider than conventional tires - puts more rubber on the road for sure-footed stops and starts on wet or dry pavements.

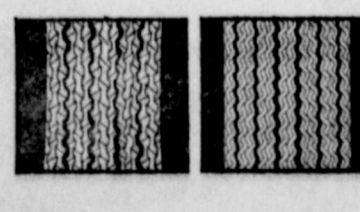

Improved "Tusyn" Rubber A new, improved, long-wearing Tusyn rubber, toughest rubber Goodyear ever used in tires, adds stamina for mileage and muscular body strength.

Conventional tire parts flex under load. Tread squirms... rubs off like an eraser on paper.

The Polyglas tire sidewalls flex... but the belt piles hold the tread firm... less squirm - more mileage.

The tread of conventional tires tends to squeeze and close up under load. The gripping action of the tread loses its effectiveness.

The tread grooves of the Polyglas tire are more open... enabling the tread to grip better on wet or dry roads.

Penny Maxey Named President Of District I Teen-Age Librarians

Over 300 teen-age librarians and their sponsors met at the new Clarendon College campus for the District I TALA Convention. Sponsored by Clarendon High School Library Club and their sponsor, Mrs. Dema Justice, registration began at 8:40 and lasted until 10:00 a.m. Miss Sarah Cline's library staff of Clarendon College registered and served refreshments to the guests. Music during registration was provided by Joyce Richburg and by Willie Clark of Clarendon College.

The general assembly was called to order by Princess Roberts, District I TALA President, of Tullia who introduced the platform guests.

Mr. Arling Cordell, Superintendent of Clarendon Schools, gave the invocation. Mr. Leonard Selvidge gave the welcome address with a response by Kelly

Ewen of Tullia. Clarendon FHA Chapter presented a flag ceremony and the play, "A Different America," sponsored by Mrs. Velma Bourland. Betty Stewart, accompanied by Joyce Richburg, directed a session of group singing. Bobbie Stewart, accompanied by Betty Stewart, presented an appropriate musical selection. Mrs. Pinkney Palmer, a guest speaker, gave a talk entitled: "Read On - You're On the Right Road." The introduction of candidates for district offices and their campaign speeches were given.

Lunch was served in the College cafeteria. During the lunch hour, Elvis Sain of Clarendon College, directed get-acquainted music. Clarendon College Choir, directed by Mr. Steve Carter and accompanied by Mrs. Raleigh Adams, presented musical

numbers. Paul Hancock, a guest speaker, spoke on the "Problems of Teen-age Living."

The second general session was called to order by District Vice-President, Penny Maxey of Clarendon. Discussion of old and new business was held and 1968-69 district officers were elected.

The money Scholarships were given to the Scholarship Fund. The Convention was adjourned by the newly elected District I TALA President, Penny Maxey of Clarendon. The next annual TALA Convention will be held at Monterey High in Lubbock.

Mustangs Upset Broncs, 15-7

By IRVIN MEARS

The Clarendon Bronchos, ranked No. 3 in the state, went down to defeat at the hands of the Wheeler Mustangs at Wheeler Friday night. On their way to upsetting the Broncs, Wheeler held Clarendon to 111 yards and 5 first downs, while gaining 140 yards and 11 first downs.

For almost a half the two teams fought to a scoreless tie, but on the final play Wheeler lined up for a field goal. Tom Cole's kick was no good, but Clarendon was offside and Cole got another try and it was good as the two teams retired to the dressing rooms with Wheeler on top 3-0.

The third quarter saw both teams score one touchdown each. After intercepting a Don Moor-ing pass, the Mustangs drove for their score. Don Rives took off on a 31 yard TD run that put the Mustangs on top 9-0.

On the Wheeler kickoff, Jim Moore picked the ball up and outraced everyone for a 78 yard TD run. Phillip Longan's kick was good for the Broncs only score.

Charles Louis ran for 46 yards and it looked like the Bronchos might go ahead but the Bronchos clipped on the play and it

was called back. After the Mustangs took over, they marched to the clinching score on a 12 yard pass from Rives to Cole. The extra point was no good and the final score read 15-7 in favor of the Mustangs.

This Friday night the Bronchos play host to the McLean Tigers in a crucial game. If Clarendon beats McLean and Wheeler beats Claude the race would be thrown into a three way tie and a coin flip would be necessary to decide a winner. Everyone come out and back the Bronchos.

Few Americans stop to realize that the USDA administers conservation programs covering nearly 81 per cent of the country's land... all the cropland, the grassland pasture and range, and the National Forests.

Highlights and Sidelights From Your State Capitol

By Vern Stanford

COLLEGE ENROLLMENT UP — Enrollment in Texas' senior colleges and universities has grown by more than 88,000 students — 47 per cent — since 1963, the Coordinating Board, Texas College and University System, reports.

Almost 274,000 students enrolled this fall, compared to about 135,000 in 1963. An increase of 58 per cent was recorded by the 22 public senior institutions, and private schools numbering 37 grew by 20 per cent.

No public senior institution has declined in enrollment.

APPOINTMENTS — Liquor Control Board unanimously named O. N. (Newt) Humphreys Jr. its full-fledged administrator. Humphreys, ex-Department of Public Safety investigations chief, has been serving as acting administrator since last March following the resignation of Coke Stevenson Jr.

Governor Connally appointed R. B. McGowen Jr. of Pecos to the Pecos River Compact Commission, succeeding the late J. C. Wilson of Pecos.

HIGHWAY DELAY POSSIBLE — Texas highway projects may be stalled and their prices advanced by federal policies just invoked, according to a state highway commissioner.

Garrett Morris of Fort Worth said the Commission is concerned that the federal policies may further force the state to take over right-of-way buying now done by counties.

Morris said the state will be required to get appraisals and make money offers to land owners before any property is acquired for road building.

ATTORNEY GENERAL RULES — Harris County auditor cannot take over county clerk's duties of issuing paychecks to his own employees, Atty. Gen. Crawford C. Martin has held.

In another recent opinion, Martin concluded that expenses of a district judge (including such incidentals as laundry) while attending a National College of State Trial Judges can be paid out of appropriations of the legislature for the general purpose of reimbursing those who enrolled.

WATER RESEARCH — The University of Texas at Austin has set aside \$375,000 for a 35,000-square-foot building to house facilities for its Center for Research in Water Resources.

Pointing to Texas' gigantic water problems, Dr. Earnest Gloyna, director of the center, said the facility will be dedicated to solving those problems. "In establishing this research capability," he said, "we expect to attract top-flight students and researchers from all over the U.S. and other parts of the world."

Unit will include such sophisticated equipment as special environmental control chambers, hydraulic model facilities, tanks for study of wave actions, flumes to evaluate selected stream flows, models for measuring mixing and dispersion patterns, pilot plants for water and waste water treatment studies and a materials test capability.

I envision the income of farm operators as commensurate with their contribution to American society — income fully comparable with that earned by other business owners, executives, and managers. —Secretary of Agriculture Orville L. Freeman.

RURAL ACCIDENTS IN DONLEY COUNTY

The Texas Highway Patrol investigated four accidents on rural highways in Donley County during the month of October, according to Sergeant J. L. Dalrymple, Highway Patrol Supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$1,045.00.

The rural traffic accident summary for this county during the first ten months of 1968 shows a total of 50 accidents resulting in three persons killed, 35 persons injured, and an estimated property damage of \$108,286.00.

Fall and Winter Suggestions For Home Gardeners

The fall and winter season is the time to check and decide whether replacement plants are needed in the home landscape.

Maybe a rose bush has died or failed to live up to expectations or there is a gap in the shrub border where a new plant is needed and was shade adequate in the outdoor living area, asks Everett Janne, Extension landscape horticulturist.

Make a list, suggests the Texas A&M University specialist, of your landscape needs and be ready to take advantage of the selections offered early buyers by garden and nursery centers.

The natural inclination, he says, is to put off garden work until late spring when everything is greenening up and the spring flowers are in bloom. Then suddenly comes the urge to plant trees and shrubs and a rush for plants only to find that only picked-over stock remains.

Janne says that balled and burlapped plants and those grown in containers can be planted any time of the year. Many of the deciduous plants, those that lose their leaves each fall, can be more easily handled or transplanted in a bare root condition.

For best results, however, bare root plants should be set out in the late fall and winter from mid-November through February in most areas of Texas, the horticulturist says. Planting during this period gives ample time for good root development before spring growth begins, points out Janne.

With proper care, he says, bare root plants can be set out as late as March and April. Their success, however, is dependent upon condition of the nursery stock used and the care they receive for six months after planting.

For ease of maintenance and to reduce the amount of disease and insect damage, the horticulturist suggests that landscape plants which are native or adapted to the area be selected.

NEW LAW PROTECTS AGING IN EMPLOYMENT

Job discrimination against older persons (40 to 65 years) is outlawed. The Federal Age Discrimination in Employment Act went into effect June 12.

The law forbids employers in industry affecting interstate commerce to "fail or refuse to hire or to discharge or to otherwise discriminate against any individual with respect to his compensation, terms, conditions or privileges of employment because of such individual's age," says Minnie Bell, Extension family life specialist.

It also forbids employers to "limit, segregate or classify" workers because of age or "to reduce the wage rate of any employee in order to comply" with the law, according to the Texas A&M University specialist.

The few exceptions include a bona fide "occupational qualification required for normal business operations"; or in existing or new seniority systems; in benefit programs and for discipline or discharge for a good reason.

In asking for the legislation, President Johnson said that \$750 million a year went into unemployment insurance payments annually to workers 45 years and older. Thousands have found "themselves jobless because of arbitrary age discrimination."

Over 800,000 persons between the ages of 40 and 64 were unemployed at some time during 1967, reports Miss Bell.

AUSTIN — Lawyers and newsmen of Texas have jointly formed a special committee to establish guidelines to protect the right of the press in covering arrests and trials while at the same time guaranteeing fair treatment of accused persons.

This combination state-bar and news-media panel includes representatives of the State Bar of Texas, Texas Press Association, Texas Daily Newspaper Association, Texas Association of Broadcasters, AP and UPI Managing Editors Associations and Sigma Delta Chi professional journalism fraternity.

Committee is the outgrowth of controversial recommendations made by the Reardon Advisory Committee on Fair Trial and Free Press (American Bar Association). Committee suggested tight restrictions by courts and law enforcement agencies on information to news media concerning arrests and pending criminal cases. American Bar adopted the restrictions, then urged state and local groups to

make them effective. Purpose of state committee, said Texas Bar President Ralph W. Britte of San Antonio, is "to promote a better understanding between the Bar and news media, particularly in their efforts to support the constitutional guarantees of freedom of the press and the right of a fair, impartial and public trial."

Britte said guidelines will be established for both lawyers and newsmen in release of information related to criminal proceedings.

Bar representatives will include a prosecutor, a defense attorney, a general practitioner and one of the bar's judicial section which is made up of trial and appellate judges.

ABA already has formed a national committee on "guidelines for arrest and trial coverage."

Bar directors also okayed a 13-point legislative program for 1968. One important item is an act to reform the bail bond system. Others high on the list call for revision in statutes govern-

ing marriage, annulment and divorce, the Marital Property Act of 1967, and an amendment to the State Bar Act to suspend an attorney convicted of a felony. Conviction would disbar the attorney. The bill reform is to do away with the present system which generally forces a person charged with a crime to pay a bondsman a fee.

ATTORNEY GENERAL SPEAKS — Contractors and repairmen learned with relief that they will not have to absorb the sales tax on materials they use in their work.

Comptroller Robert S. Calvert had held that changes in the sales tax law required them to absorb the tax. But Atty. Gen. Crawford Martin held that the Legislature did not mean to do that, so the repairmen will continue to collect sales taxes from their customers on parts they use for repairs, or the materials they use.

In a variety of other recent opinions, Martin ruled that: Comptroller may issue warrants from appropriated funds without regard to invalid restrictions in an appropriations bill. Initial terms of members of the Judicial Qualifications Commission terminate November 19, 1967, 1969 and 1971, respectively.

Special temporary agricultural permit for truck movement of farm commodities does not per-

mit transportation of equipment such as combines. Drive-a-way in-transit license plates are authorized only for transportation of new vehicles moving under own power — not truck trailers and mobile homes. Holder does not have to be a state resident.

State Securities Commissioner is authorized to see copies of franchise tax reports made to the comptroller by corporations.

Parks and Wildlife Commission can amend a bond resolution to substitute another co-paying agent for park development bonds without re-advertising or new bids. Whether pipeline rental is subject to the sales tax is a fact issue for the comptroller to determine.

A county attorney could serve as a professor for a college class, but could not accept pay for both jobs.

ANTI-TEEN DRINKING PROGRAM PUSHED — Liquor Control Board has launched an educational program to curb drinking by teenagers. Acting Administrator O. N. Humphreys Jr. said the main objective is to show youngsters problems a single violation of liquor laws can cause them. LCB statistics show 10,672 violations involving minors and 10,184 convictions in the first eight months of the year.

LCB proposes distribution of literature explaining liquor laws to parents and teenagers; lectures in churches, schools and clubs; distribution of informational films and a new reporting system to keep tabs on liquor law violations involving minors (as a guide to areas where education needs to be concentrated).

A single violation, Humphreys warned, can mar the record of a youth for life.

PARKS & WILDLIFE — Expenditure this year of \$1.9 million under the \$75 million park development program has the approval of the Parks and Wildlife Commission. Bulk of initial expenditure will go to purchasing and development Dinosaur Tracks State Park near Glen Rose in Somervell County and other parks within two hours driving time of Houston.

Commission adopted a policy requiring its own formal approval of any land purchased by P-W department for state use. Commission also amended the Tropical Fish or Fish Eggs Importation Proclamation to include the Asian "walking catfish". Fish has been noticed in some pet stores, but isn't popular because it leaves the tank and kills other fish. Amendments for a permit to sell or import the aggressive fish to prevent its spread to Texas waterways because of its menace to other fish.

COURT SPEAKS — Supreme Court has scheduled arguments for December 4 in a suit challenging the Fort Worth school district's authority to curb high school fraternity and sorority membership. Lower courts have upheld the school districts.

High court refused a motion for rehearing by the Houston Legal Foundation in a suit brought by four lawyers who claim it is economically harmful to attorneys. Foundation was set up under Economic Opportunity Act. High court has held lawyers should be permitted to maintain suit.

Motion to reconsider holding that cities are immune from most damage suits was rejected by court.

Court of Criminal Appeals ordered Clifford Darrell Carroll released from death row for retrial (in view of a U. S. Supreme Court finding) in the scalding death of a two-year-old girl.

APPOINTMENTS — Gov. John Connally named nine state agency members and 12 representatives of local governments to a new state council to plan and coordinate law enforcement activities to implement provisions of the federal omnibus crime control and safe streets act of 1968.

Local representatives include Secretary of State Roy Barrera and Sheriff W. B. Hauck of San Antonio, Dallas Police Chief Charles Patchelor Jr., Eagle Pass Mayor Art Flores, McAllen District Judge Fidencio Guerra, Edward W. Guinn, Al Henry of the Houston Mayor's staff, Nueces County Judge Noah Kennedy Jr. of Corpus Christi, La-

redo Mayor J. C. Martin, Gatesville District Judge Truman Roberts, Amarillo City Councilman O'Brien Thompson and Houston District Attorney Carol Vance.

State representatives include Attorney General Martin, Wallace Beasley of the Commission on Law Enforcement Officer Standards and Education, Prison System head Dr. George Beto, Adjutant General Thomas S. Bishop, Mental Health Commissioner Dr. John Kinross-Wright, Department of Public Safety Director Col. Wilson E. Spicer, Sam Houston State College President Dr. Arleigh Templeton and Texas Youth Council Director Dr. James Truman.

State Rep. Bill Clayton of Springlake has been named to the executive committee of the Interstate Conference on Water Problems.

VOCATIONAL EDUCATION REVAMPED — Vocational education, a critical area of learning, will get a new direction before 1973, according to the Texas Education Agency.

Changes will begin next year with new state plan designed to coordinate efforts of schools and industry. Federal funds will be available in eight different areas, for improving home environments and family life in depressed areas, for expanding vocational homemaking programs to work with those with physical handicaps and to aid cooperative industry - school training plans.

AUSTIN — Texas' first bilingual education plan designed to curb the school dropout rate and provide better teaching for 500,000 children has been cleared for action.

Fifteen-member advisory committee approved a plan as drawn by the Texas Education Agency task force.

Dr. Severo Gomez, director of TEA International and Bilingual programs, said the high dropout rate among Spanish-surnamed pupils is largely due to traditional instruction methods.

New statewide plan would enable young pupils to learn their lessons in Spanish until they get thorough grounding in English.

At the same time, it seeks to teach English-speaking children to be fluent in Spanish as well.

Federal government has allocated \$7.5 million for bilingual education programs, and Texas is due to get a substantial share early next year.

REGIONAL PLANNING — U. S. Department of Housing and Urban Development has given Gov. John Connally's office its National Award for Outstanding Contributions to Inter-governmental Relations.

HUD Secretary Robert C. Weaver commended Connally, saying his regional-planning programs are "indicative of how initiative, cooperation and sound program execution can improve the living environment of our citizens and meet the challenge of urban growth."

Connally released a directory of councils of governments and regional-planning commissions, revealing that assistance by the

War on crime efforts is proceeding on many fronts. Many center around improvement of police training.

Sam Houston State College at Huntsville is pushing for recognition as the site of a statewide police academy.

Unless a statewide academy is created, says Sam Houston College President A. B. Templeton, 30 to 40 local academies soon will be started with federal funds. He proposes to build facilities between Sam Houston and the penitentiary at Huntsville with convict labor and materials produced at the prison at a cost of about \$2 million. Federal government would be expected to pay half that cost.

RAIL BOND REFORM — State Bar of Texas and the State Junior Bar will ask the Legislature in January to change the state's system of making bonds for release while persons accused of crimes are awaiting trial.

Idea behind the new plan is to let judges release people, when possible, without making bond at all. But when the judge feels a bond necessary, the prisoner could deposit up to 10 per cent of the bond himself.

As it is now, the accused generally has to pay the 10 per cent to a professional bondsman, and the money is a fee for services rendered and is not returned in the proposed system, the man would get his deposit back when he showed up in court.

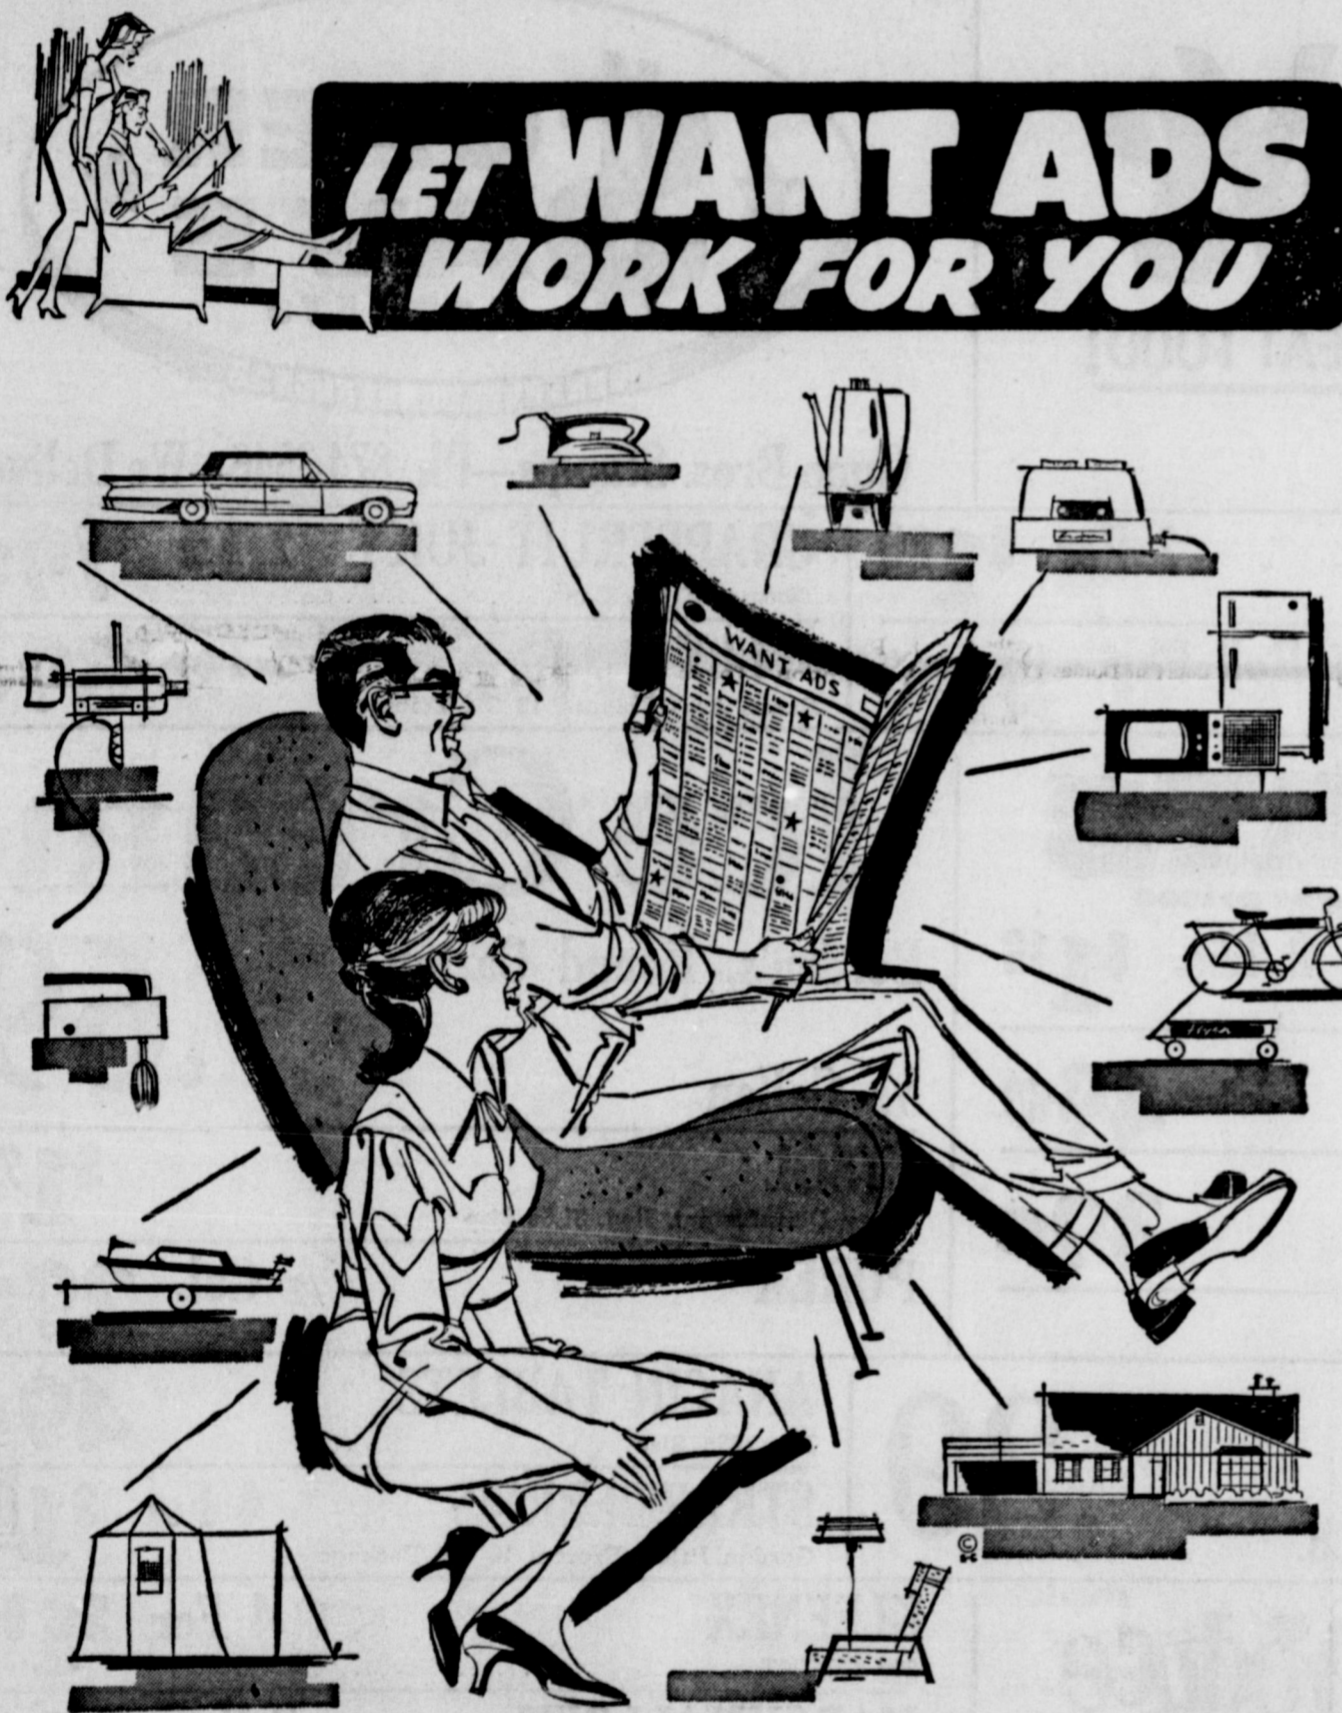

PENAL CODE REVISION AIDED — State penal code revision has been aided by a \$5,000 grant to the State Bar of Texas committee on revision.

Committee, assisted by the Texas Legislature Council, expects to have the proposed code ready for submission to the 62nd Legislature in 1971. A law enforcement advisory committee, headed by Dean W. Page Keeton of the University of Texas Law School, is comprised of metropolitan chiefs of police, representatives of the Texas Sheriffs' Association and the Department of Public Safety.

SHORT SNOOTS — Governor Connally proclaimed November 17 "Safety Sunday" . . . Texas traffic accident toll is 2,577 this year compared with 2,566 for same time in 1967, Department of Public Safety reports . . . State Building Commission will open bids on November 14 on construction of the new veterinary medical diagnostic laboratory authorized by the Legislature in 1967 . . . Texas construction activity declined six per cent from August to September, but index remained 35 per cent higher than September a year ago.

The Donley County Leader

In Appreciation

It is with a great sense of humility that I extend my appreciation to the voters of the 75th Legislative District of Texas for the trust you have placed in me. I am also deeply grateful to the various committees and individuals who gave their time, money and in many other ways, helped my campaign for the office. Without your trust and dedication my election would have been impossible.

I would also like to extend an invitation to everyone in the district to contact me on the various issues that will confront us as we enter the new season of legislative work. Your opinions and insight into the problems and needs of the district will weigh heavily on any decision I will be called on to make in the legislature.

Again thanking each of you. TOM CHRISTIAN Route 2 Claude, Texas 79019

state grant of \$21,207.00, the resulting cost to the city would be \$32,397.00. An additional \$3,000.00 might be received with the federal grant so that the final cost to us would be about \$30,000.00.

Do we need an airport? Yes, but the average citizen doesn't know it, the local pilots don't need it, but our visiting businessmen do. They need it now, and they'll need it more in the future. The average businessman doesn't take the train or bus, he must drive his auto or fly. Our visiting businessmen generally drive, a few fly, and a few fly to Amarillo then rent a car to drive here. Even more important is the value of an airport for industrial purposes. Industry must

be competitive and move fast, hence an airport is very important. One of the first questions an industry asks of a prospective town is, "Do you have an airport?"

Can we afford it? Yes, we must afford it. Six months ago we had a \$20,000.00 surplus which could have been applied toward the cost. Of course the Greenbelt changed, and we were obligated to pay that surplus to them. This surplus could have financed an airport, paved streets, better parks and many expanded public services, all with no increase in taxes or water bills. If our present budget is accurate as in the past, and the Greenbelt costs do not increase, we can afford it. A slight decrease in cost of the water from Greenbelt and we can build up a surplus again.

What must be done? We must accept or reject the state Grant by Dec. 1, and the Federal grant within this fiscal year. There is no second chance. If we do not accept these grants they will not be offered again. Therefore the Aldermen request you vote — whether to accept or reject their grants. A referendum FOR or AGAINST the construction of an airport has been called for November 23. An airport is not personally beneficial to anyone

in our community but it is important to our city as a whole. A referendum is all that's required. We do not need a bond issue since it would add to our present tax burden. We won't spend the money without a vote of confidence from the city.

VOTE NOV. 23 — IT'S OUR CITY — IT'S OUR FUTURE.

CHAMBERLAIN CENTER THANKSGIVING SUPPER

The Chamberlain Community Center will have its annual Thanksgiving Supper Thursday, November 14, at 6:30 p.m. Everyone is invited to attend.

All members bring chicken, turkey, or ham and dressing with all the trimmings and desserts. This is a festive occasion. Let's have a good crowd and enjoy fun and fellowship together. All who invite guests bring food for your families and guests.

Following our supper we will have a short Thanksgiving program. The Iveys and the Blackmans will furnish the drinks but all the ladies of the membership will serve as hostesses.

Hearn Hodges of Lubbock visited his cousin, Mr. and Mrs. G. W. Estlack Wednesday afternoon.

TRANSFER OF 1969 COTTON ALLOTMENTS

The final date to file an application for the transfer of 1969 cotton allotments is December 31, 1968. A cotton producer may transfer his allotment by sale or lease within the county. Transfer by sale or lease may be made from farms in other counties to Donley County, or transferred by a farm owner to another farm owned or controlled by him within the State. Transfers by sale or lease may not be made out of Donley County.

1969 COTTON MARKETING QUOTA REFERENDUM

The referendum will be held during the period December 2 through December 6. Voting will be by mail and ballots and instructions will be mailed to each known eligible voter prior to December 2. Notices of allotments and yields will also be mailed to all producers prior to the referendum.

If quotas are approved by at least two-thirds of the upland cotton growers voting, the program under which payments are

made to cooperators will be in effect for 1969.

All the program details of the upland cotton program will not be announced until sometime after the November 8 crop report of the Agriculture Department.

TB AND EMPHYSEMA FUND CAMPAIGN OPENS

Dr. James P. Cornette, President of West Texas State University and Chairman of the Christmas Seal campaign for funds for 1968 for the Top of Texas Tuberculosis Association has begun. Money from the campaign will be used to provide programs in TB case findings and health education throughout the 26 counties in the Panhandle area. Some 3,209 new cases were reported last year plus 499 relapses. Dr. Cornette stated that money is desperately needed. Contributions may be sent to the Top of Texas TB Association, 514 E. 9th St., Amarillo, Texas.

The good life is more than money in the bank, food on the table, and a roof over the head. The good life is also a place for all children to play, and breathing space to live in and grow strong in body, mind and spirit. —Walter P. Reuther

Bulldogs Take Opener 82-80 In Overtime

The Clarendon College Bulldogs won their season opener over Midwestern University of Wichita Falls Saturday night 82-80 in an exciting overtime game.

Rene Ornes tipped the ball in with 2 seconds to play to tie the game and push it into an overtime affair. Jackie Baker made a courageous drive and lay up with seconds to play in the overtime and made a free pitch to cinch the win.

Baker was high point man with 22 points and Rick Robinson was close behind with 20. Oran Watson led rebounders with 11. The Bulldogs were plagued with first game jitters and flu and only hit 30 per cent of their shots from the field while Midwestern hit 55 per cent of their shots.

The Bulldogs left Wednesday for the Hill County Tourney at Hillsboro and will play Temple in their first game this afternoon. Their next home game in the new gym will be with Garden City, Kansas November 21st.

Prices in stores of the same chain located in low and high income areas are about the same, shows a recent U. S. Department of Agriculture survey.

Plentiful foods which will be pork roasts, apples, potatoes, featured in food stores include rice, dry beans and cheese.

Restaurant Ramblings

By Jake Lamberth

There are nine basic methods of cooking meat. First comes roasting. The meat is placed, fat side up on a rack in a pan and cooked uncovered in the oven. No liquid is added.

In broiling, cooking is done by direct heat in the broiling unit of the stove or over coals in a barbecue.

Also there is pan broiling. Here the meat is grilled in a thick, ungreased skillet. With pan frying, the meat is placed in a skillet with fat. To saute means to cook meat over a lively fire in a little fat, while constantly moving the pan to prevent sticking.

Braising means to cook by searing in fat, then simmering

in a covered dish with little moisture.
