Round Ball Roundup

By SPENCER HAYES

Achieving the shooting touch that had been lacked in the first part of the season, the Clarendon Broncos boosted their record to 10-3, taking their seventh win in a row along with the North Plains Tournament Championship Trophy.

Coming back from the holidays, Clarendon's first opponent was Valley High School, whose Patriots came to Clarendon boasting 6'8" center Rickey Fuston. The Patriots and the Broncos stuck close together throughout the first half, but after starting the second half with a six-point lead, the Broncos yielded twenty-two third-quarter points while scoring only eight. The left them behind 44-36 starting the fourth quarter. But Brad Thompson and Bobby Weatherston brought Clarendon back, each scoring eight last quarter points. Clarendon scored a whopping 24 points in the final quarter to

overcome the Pats, 60-54. Weatherston led Bronco scorers with 19 points while Thompson has 18. Hosea Hearn added eleven. Thompson was the force on the boards for Clarendon, pulling down thirteen rebounds.

Two days later, Thursday, the Broncos traveled to Claude to compete in the North Plains Tournament. Clarendon's first opponent was Silverton. Clarendon jumped on top early and took a commanding 26-6 lead after the first period. From there it was smooth sailing as Clarendon romped, 77-39. The Broncos were paced once again by Thompson, who scored 26 points in only three quarters. Weatherston got hot again to score 15 in only three quarters. The game marked the first time this season that each Bronco scored. John Braxton controlled the boards with 15 rebounds, while Hearn grabbed eleven.

The following afternoon, the Broncos faced the Happy Cowboys, who beat Clarendon in last year's tournament. The game was close throughout the first period, with the score knotted after eight minutes at 13. But a wicked press blew the game open for the Broncos in the second quarter. Clarendon scored 22 points to Happy's 11, while taking a 35-24 intermission lead. The Broncos and Cowboys stayed eleven points apart throughout the entire second half before Clarendon finally put Happy away with only a few minutes remaining in the game. The final was Clarendon 65, Happy 50. Thompson's 25 points were a game high, while Hearn and Braxton each tossed in eight. Braxton dominated the rebounding with 16 boards, including nine in the final period.

Slavin Law Firm purchases The Security Abstract in Claude

The Slavin family is expecting a busy New Year. The Slavin Law Firm has purchased the Security Abstract Co. in Claude, Texas and is opening a Law Office at 107 W. 1st. In Claude the Firm will maintain its offices in Clarendon and McLean. The firms attorneys are Mary Ann Slavin, Patrick Slavin and Clyde Slavin.

Mary Ann Slavin and Patrick Slavin both received the Doctor of Jurisprudence degrees from Texas Tech School of Law. They reside in Clarendon, Texas and have four sons, Mark 11, Jason 10, Wesley 8 and Steven 7.

Mary Ann Slavin has a BA Degree in Government from Angelo State University and was raised in Coleman, Texas.

Patrick Slavin is a life time Clarendon resident and a veteran who received a BS degree in Psychology from the University of Texas at El Paso.

Clyde Slavin the firm's senior partner was born in Alameda, Texas and is a life time area resident. He is a 1939 graduate of The University of Texas and in addition to his law practice Clyde was

a long time area farmer and rancher.

Office manager Madeline Slavin will have the heavy burden of keeping all the offices co-ordinated and operating smoothly, along with her normal duties of keeping the rest of the family

in line.

The Slavin law firm is very pleased to have the opportunity to serve the residents of Armstrong County by offering general legal services.

In addition to the expanded area of legal practice

Patrick Slavin has started a new business, Slavin Satellite Systems. This business offers the rural residents of this area television receivers which receive our fifty different channels. The receiver will be demonstrated by appointment.

JUST A FEW of the many items made at "Saw and Sew" Shop, Lelia Lake.

Saw & Sew new business

Mike and Judy McCully live in a brick house down the road from the Post Office in Lelia Lake. It sits catty-whompus to the corner. Behind the brick house is a little white shed with a sign over the door that reads, "Saw and Sew". There isn't much sewing that goes on in that little shop because it is filled with table saws, band saws, belt sanders, drill presses, and other heavy duty shop equipment necessary to make the prized and beautiful wooden toys, picture frames, plaques, key

chains, knickknacks and novelty gifts.

Mike is a retired Post Master from Clarendon. "At first I gardened and garden-ed and I just got tired of it, so I took this up a few months ago as a hobby, a part time play thing to 'piddle around' but now it is the master!" Mike said. "I love working with wood," he added, "each piece of wood has a personality all of its own. You can just tell what it's gonna be from feeling it."

This infant business has grown mostly by word of mouth and they are months behind in their orders now. If they can just get their Christmas things done, they will be doing great things. "We hope to build a new shop and get all of our equipment in it. We also hope to go to the Dallas market."

Judy is "The Boss" and has learned to handle most of the shop equipment and will take painting lessons in the spring so she can take over from daughter Karen and her son Michael cleans up and is learning how to work the equipment as well. The General Manager is Judy's mother, Nonalie Sibley. "Yes, I have to do generally

all of the housework!" she laughingly complains.

While hardwoods are difficult to find, it is the most fun to work with. They do use patterns, but creating their own ideas and shapes is more rewarding and fun. The Tumbleweed has the franchise for the toys and little childrens items, the Nook will have the new wooden belt buckle franchise as soon as they get that underway. Skinner's will work with them on this new project making stretch belts for the novel wooden buckles.

Picture frames are becoming a specialty as well as beautiful plaques. "Anything you can draw, we can build," Mike boasts with assurance.

Stop by the Saw and Sew Shop in Lelia Lake for the perfect graduation gift; a plaque with the graduation announcement on it. There are hundreds of ideas in the store for you.

CUB PACK 437 netted \$252.50 at their father and son "Cake from scratch auc-

tion". First place winners [r to l] were Chad and Steve Ellis, 2nd place was Michael

and Joe Neal Shaddle. While Buddy and Bo Burns took third place.

Letter to the people

Dear Hospital Board, Billy R. Johnston and Dr. Gilkey,

We wish to thank all of you publicly for the part you played in selecting Dr. Carl Hudson as a new member to the Medical team in our community.

In this choice you gave the town the second doctor we so desperately needed. You also helped to relieve the work load of another fine doctor. Dr. Gilkey could not humanly take care of the health needs of the entire county. You also gave our town another compassionate caring citizen.

In our jobs we work closely with these fine men. We see how they work with the elderly for whom we provide transportation. We see the compassion shown parents with small children. We appreciate both doctors for being so considerate in their work with young and old. We thank you for the confidential way that any problem we take them is handled. We know all other patients feel the same. Its hard to keep any problem quiet in a small town.

Since we have known and respected Dr. Gilkey for years just as you have, let us share something that has endeared Dr. Carl Hudson to us.

His thoughtfulness for his

elderly patients. Not many know this but he calls them on bad days to see if they need anything from the store so that they don't have to be out. He will also call them to check on their health or just to talk because he knows they are lonely.

He works with Planned Parenthood. If a patient comes in for a physical he will send her to Planned Parenthood to help her get the physical needed, even if finances are limited.

He is good to look for ways to help his patients, such as

referring them to Cripple Children, Epileptic Foundation, Texas Rehab just to name a few. He looks for help for patients, then calls the foundations and sets up appointments for those patients who can not afford further treatment without assistance.

He volunteered to help us anyway he could when we lost everything in our fire.

He serves as Executive Cont P 2

Donley County ASCS

New Farm Bill

As of this date, we do not have the particulars of the new farm bill. As soon as we have them, they will be forwarded on to you.

Disaster

Remember, if you are going to have a low yield on cotton or feed grain, you must make a low yield application within 25 days from the completion of harvest on each farm. You don't necessarily have to turn in your production the day you make your application.

County Committee Election

The farmers and ranchers of this county elected Doyle Hall as county committee-man, and R.O. Nelson and Dale Robinson as first and second alternates respectively. The county committee officers are as follows: Don C. Springer, Chairman; Doyle Hall, Vice-Chairman and

Don Thornberry, Regular member.

Change in Interest Rate Policy

Beginning January 1, the interest rate on CCC loans will be set at the rate charged by the U.S. Treasury during the month in which a loan is disbursed. This interest rate for January, 1982, is 12.25%.

The variable interest rate on outstanding balances of 1981 crop loans and storage facility loans disbursed on or after April 1, 1981, will be adjusted to 12.25%.

Personal Note

I have submitted my resignation to be effective January 8, 1982, to accept a teaching position at Clarendon Junior College. I have enjoyed my years working for Donley County farmers and ranchers and hope that I have been of some assistance to you. Jerry Gage.

Feb. 1 last day to file

Mary S. Cooke, Democratic Donley County Chairman reminds those persons who plan to file for political office, the final filing date is February 1 at 6 p.m.

If you need more information, democratic candidates should call Mrs. Cooke at 874-3549.

So far, County Judge Billie Christal will be seeking reelection as will County Clerk P.C. Messer, County Treasurer, Freida Gray and Will Chamberlain as Commissioner Precinct 4.

C.W. (Dude) Cornell has filed for Commissioner Precinct 2, while Justice of Peace, Precinct 2 has two candidates to file, Allie Mae Maxie and W.W. (Bud) Lovelady.

Board member of the Emergency Medical Services Area Board. He gives several hours monthly to this.

He and Dr. Gilkey volunteered and did sports' physicals free this year.

They both have several patients that can not pay and may never be able to but they receive the necessary treatments anyway.

You may not recognize Dr. Hudson on his off time, but if you see a cowboy type wearing a floppy old cowboy hat and a big smile. Look a little closer. This is a doctor on his off time just enjoying being an old West Texas home boy.

Say hello and thanks once in a while.

Again we wish to thank you, the hospital board and Billy R. Johnston for helping us to have and to keep two great doctors, who also are great additions to our town.

And not to slight anyone. A great thanks to our great Paramedics, Phillip and Pat.

Sincerely yours

The Lion's Tale

By GENE ALDERSON

The Clarendon Lions Club held its regular meeting at noon on Tuesday, January 5 at the Lions Hall. There were 19 members, Lion Sweetheart Jessie Adams, and 4 guests present.

David Smith, a student, was the guest of his father Lion Smith. Bill Todd of Clarendon was the guest of Lion McAnear.

Following the regular opening ceremonies, Boss Lion McCombs called on Lion Stavenhagen to introduce our program which was brought by Para-medics Pat Robertson and Phillip Vargas.

Pat gave us a very interesting run down on how the E.M.S. came about when someone got to wondering why many people in rural areas were dying from auto accidents or things such as cardiac arrest which were often times not as serious initially as wounds which service men were recovering from in Vietnam. The reason was found to be in the quality of care which the people were receiving immediately following the injury or illness.

The nation wide E.M.S. program was the end result of these questions. The E.M.S. unit in this area, which is composed of 25 counties is considered the Number One unit in the nation.

Our local service is one of the top within this unit. The second part of the program was brought by Phillip Vargas who showed us a number of items of equipment out of our local ambulance which they use regularly and which have surely saved the lives of

WE'RE THE "FOLLOW-THROUGH CREW"

LOCAL TAX CHANGES

All of Donley County will be under new Tax Law beginning next year, 1982, but no radical change in the amount of tax a person pays is expected. Although the value of property is up, the tax rate will go down. Toward fairness, appraisal is an equalization process. No more tax will be collected than is required to supplement the budgets adopted by our schools, cities, county, college and hospital districts.

Every property owner is required by law to render [give] information as to what property is owned by them. All property should be rendered except household goods; some other property may be exempt by conditional provision.

Both real estate and personal property will be valued at current market value for tax purposes; also, agricultural land can be valued at productive value if the owner applies. Personal property includes all property except land affixed structures. The largest sectors of personal property value include automobiles and store inventory.

Rendition forms will be mailed to most property owners by February 1, 1982, and will be available at the combined Appraisal - Tax office in the Court House Annex in Clarendon prior to that time. Rendition period ends April 30, 1982.

NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble.

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals, call for in depth consultation in Layman's terms.

Safety of kerosene heaters discussed

Dramatic increases in home heating costs have developed a demand for small portable heaters to provide spot heating according to Cheri Brown county Extension Agent with the Texas Agricultural Extension Service. The agent points out, however, that many challenging questions are being asked by consumers about the safety of the kerosene type heating units.

Hazards associated with kerosene heaters include:

1. The lowering of available oxygen and a possible

increase in carbon monoxide.

2. The threat of burns from direct contact with the unit.

3. An increase in the risk of fires. Brown points out that these hazards will vary according to the heater design and the use of good judgement regarding its operation.

The agent explains that users should use kerosene heaters only during waking hours and always have a window open about one inch or keep a door ajar during operation.

Only clear white kerosene

should be used in kerosene heaters. Other fuels including regular yellow kerosene should not be used as these fuels will smoke and interfere with operation.

Brown further cautions that heaters should always be placed away from curtains and other combustibles and the use of smoke detectors in areas where heaters are used is recommended.

Consumers wanting more information about the hazards of kerosene heaters and recommended safe operating procedures can request

the data sheet entitled "Portable Kerosene Heaters" by coming by the Donley County Extension Office or calling 874-2141.

Grass stains can sometimes be removed from clothing with just a few drops of rubbing alcohol.

"He who has begun his task has half done it." Horace

The first white road markings for traffic control, called "center line safety stripes" were painted on the surface of River Road, near Trenton, Michigan in 1911.

La Dona Thomas weds Mark Holman

La Dona Thomas, daughter of Mr. and Mrs. Calvin Thomas of Clarendon was joined in matrimony to Mark Holman, son of Wanda Holman of Clarendon on January 2 at 4 p.m. in the First Baptist Church in Clarendon.

Don Stone, pastor of the Hedley Church of Christ officiated at the double ring ceremony. Donna, a cousin to the bride, sang "If as the candles were lit and the mothers of the couple were ushered down the aisle. "We Have Only Just Begun" was sung just before they were pronounced man and wife.

The bride was given in marriage by her father. The bride was radiant as she came down the aisle on her father's arm in her formal floor length wedding gown of lace, embroidered yoke and long tapering sleeves also a

full skirt with two tiers of ruffles. The back of the gown ended in a train. Her veil was shoulder length with a border of lace.

The bride carried blue daisies in a beautiful Bouquet.

The groom was handsome in his white tuxedo with a red rose boutonniere.

The bride was attended by Kim Robinson, a friend, as Maid of Honor and Vickie Holman, sister of the groom, as Matron of Honor both from Clarendon. They wore floor length blue dresses and carried bouquets of blue daisies attached to a white fan.

Junior Bridesmaid was Karen Hill from Clarendon. She was also attired in a floor length blue dress.

The groom was attended by Billy Holman of Clarendon as his Best Man. Ushers were Keith Day, a friend, and Charles Thomas, uncle to bride, from Lockney. They all wore pale blue tuxedos.

The flower girl was Lisa Hill, friend, from Clarendon. She wore a blue floor length dress and carried a basket of blue daisies. The Junior Ringbearer was Shannon Thomas, brother of the bride, from Clarendon. He wore a blue tuxedo.

The candlelighters were Danny Thomas, Lockney, cousin of the bride, and Darrell Thomas, brother of the bride from Clarendon.

A reception was held in the Fellowship Hall, First Baptist Church, following the ceremony. Brides table was white and blue with blue daisies as the centerpiece.

The cake was 3 tiered with live blue daisies. Punch was

Mr. and Mrs. Mark Holman

also served. The grooms table was beige with a chocolate cake and coffee. Harlans Flowers did the

flower arrangements and Brenda Ward did the cake.

Mr. and Mrs. Mark Holman will reside in Clarendon.

Letter to the editor

Dear Friends:

Each of us at Gristown, U.S.A., in Whiteface, would like to express our appreciation to all the wonderful people in Clarendon who responded so generously in our efforts to make this a memorable Christmas for each of our girls.

The girls were extremely pleased with their gifts and touched to know that there are people who care enough to share with them. We cannot thank you enough for your help in making this Christmas so exciting for all of us. You are fantastic and we are so grateful for your

help.

We would like to take this opportunity to wish each of you a happy and prosperous 1982.

Sincerely,
Waco Reynolds
Superintendent
Gristown, U.S.A.

Martin Quilting Club met

We had a most pleasant time celebrating Christmas in Memphis at Dolores Davis' home. Also hostessing was Leane Thornberry of Memphis. Members attending: Hazel Edens, Flossie Reynolds, Ruth Mandrosky, Melba Risley, Mary Lee Noble, Carmen Wright, Priscilla Greene, Dixie Ward, Jo Hardin, Dona Goss and Jondel Moffett. Guests: Andrea Hardin, Amanda Ward, Seth and Patricia Thornberry of Memphis, and Patty Wolf-cale of Memphis.

We did quilt while we visited and completed a coverlet that we had started at an earlier meeting. The food was marvelous and we also enjoyed our gift exchange.

Our next meeting is on January 21st. with Dona Goss at her home. Our membership is growing so that we are sure to have a good attendance.

Childs-Mason announce engagement

Beverly Jo Childs and Tony L. Finney Mason are planning a February 13 wedding at St. John Baptist Church.

The bride-elect is the granddaughter of Rosie Lee Childs of Clarendon. The prospective bridegroom is the son of Ruby Lee Finney.

Miss Childs received her secretarial degree at Clarendon College and is employed by Medical Center Nursing Home in Clarendon. Her fiancé is employed by Asarco Copper Refinery Inc. and is a student at Amarillo College.

The groom's mother hosted an engagement party in honor of the couple.

Beverly Jo Childs and Tony Mason

Jones-Adams engagement announced

Mr. and Mrs. Jimmie Adams Sr. are very proud to announce the engagement and approaching marriage of their son, Jimmie Charles to Wanda Jones, daughter of Mr. and Mrs. Sammy Don Jones of Spearman, Texas. A February wedding is planned at the First Baptist Church, Spearman.

The couple will reside at Pampa, where Jimmie is employed by Ingersoll-Rand Oilfield Products.

Wanda Jones and Jimmie Charles

ENERGY SAVING WAYS

With DISHWASHERS

Homemakers are taking a new look at home appliances with an eye toward using them more energy-efficiently. Here is a suggestion from Whirlpool home economists to help you get the most for your energy dollar from your dishwasher:

Be sure water is hot enough—water temperature in the dishwasher should be at least 140 degrees to remove greasy soils and properly dissolve detergent and get dishes sparkling clean. If your dishwasher is located quite a distance from the water heater, chances are that the water from the pipes is not 140 degrees when it first enters the dishwasher. The home economists suggest that you run the hot water for a brief time in the kitchen sink before turning on the dishwasher. This helps bring hotter water to the dishwasher, resulting in better washing performance. Some of the newer dishwashers on the market now eliminate this problem by using an internal heating element to get the incoming water up to the proper water temperature.

It's The Law!

The Texas Legislature has enacted a law that requires you and all other Texas motorists to carry automobile liability insurance beginning January 1, 1982. Bodily injury coverage of at least \$10,000 per person and \$20,000 for two or more persons per accident must be in force at all times. Property damage coverage must be at least \$5,000 per accident.

Failure to maintain the coverages required by this law will result in a fine of at least \$75.00 for the first offense and a minimum of at least \$200 for any subsequent offense. If you are convicted you may lose your drivers license and motor vehicle registration as well.

After January 1, 1982 law enforcement officers in Texas will ask to see proof of your insurance coverage when investigating a traffic accident or violation. The Department of Public Safety has advised that the following are acceptable forms of this proof:

—Your automobile insurance policy.
—A photocopy of the declarations page of the policy which contains the policy number, limits of liability, term of the policy, etc.

—A special identification card that some insurance companies may provide. Even though many more Texas motorists will purchase and maintain liability insurance coverage as the law requires, hundreds of thousands of motorists will intentionally violate the law and remain uninsured.

For this reason we urge you to continue to carry uninsured/underinsured motorist coverage on your own policy. This important coverage will give you added protection should you be involved in an accident with an uninsured or underinsured driver.

THE TUMBLEWEED EDDIE FLOYD SHOP

Jean Burchett has new book

Jean Burchett the widely acclaimed and highly entertaining author of the column "Daze of our Lives", has just completed compiling these columns into a book.

Although a story teller all her life, she didn't begin to write until her last chick left the nest in 1975. Her work has appeared in magazines circulated both nationally and internationally. This is her first book.

Mrs. Burchett and her husband, Hugh, live in Childress and have three grown children.

Will The Real Jean Burchett Please stand up

(At 48, Jean was still a beautiful woman. With a minimum of effort she had raised her three children, maintained the stately two-story house on "M" street, and was the envy of every woman on the block.

Her husband, Hugh, adored her and was now standing across the room at the Martin's party watching as people thronged about her chair. She crossed long shapely legs so that the slit in the new Halston party gown showed them to their best advantage, smiled up at the man who handed her a drink...

"and knocked a loaded

ashtry off in the lap of the bank president's wife with her elbow," said Hubby, who had slipped up behind my typewriter while I wrote the above.

"That's no fair sneaking to read over my shoulder," I whirled my chair to face the lone sock that dangled from his hand. "But since you have, what do you think so far?"

"Pure rot," he said. "We strained to raise those kids till our noses bled. The only long shapely leg you ever had was the one you tanned from Lois' Shop's hosiery display for the Halloween carnival. The stately home is a three bedroom paint peeler and the Martins moved from here in 1954. If you're going to tell it, tell it like it is. Do I have a mate to the only clean

sock in my drawer?" My life hasn't turned out the way I planned it. In fact, it has been an uncharted dash through the dazes. Always trying, never quite succeeding.

In my time I have been a wife, mother, grandmother, secretary, public speaker, plumber's friend, a winner, a disaster, and finally I think I have found my true identity. I am a sloppy perfectionist. Within the pages of this book I share with you those times when I started out with utmost confidence to conquer my plight and, well -- I hope you enjoy it."

This is the Foreword page from Mrs. Burchett's book, which is also titled "Daze of our Lives". This book is on sale at the Clarendon Press office for \$7.95.

GIRL SCOUTS worked hard before Christmas to collect used toys and books for the

Day Care Center. Pictured here with Shirley McKinney and some children are just a

few of the things collected by Troop #29, Troop #180, and Troop #120.

Wildfires could be a problem this winter

Wildfires could be a problem in Texas this winter, if Texans and the weather don't cooperate.

Lush vegetative growth -- stimulated by ample summer precipitation -- constitutes a

significant fire hazard this winter, says Pat Ebarb. Ebarb is head of the Texas Forest Service Fire Control Department.

"How hot a winter fire season state firefighters will

have depends greatly on how fire prevention minded Texans are and on how dry a

winter we have," says Ebarb. "The fuel load is there."

According to the TFS fire control chief, many people don't realize how quickly vegetation can dry and become highly flammable during the winter months.

"A few days of dry, windy weather can quickly dry light, flashy fuels such as grass and leaves," he said. "The ground may still be damp, yet grass and leaves will often be dry enough to carry a fire."

The presence of dead and dormant vegetation causes a general rise in fire danger during winter months.

The number of wildfires in Texas can be reduced dramatically if all Texans will simply observe some fire precautions suggested by the TFS spokesman.

Burn trash and other debris in covered trash burners. Stay with fires until they are out. Clear a line down to bare mineral soil around material to be burned. Burn in the morning hours when humidity is highest and winds are generally lowest. Crush all smoking materials completely out before discarding.

By observing these precautions, Texans can ensure themselves a safer winter, even if the weather should turn dry and windy.

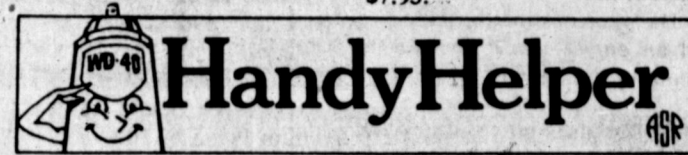

Thomas Russell Barbee

Mr. and Mrs. EWayne Barbee announce the birth of a son, Thomas Russell, born December 18 at Northwest Texas Hospital of Amarillo. Tommy weighed 9 lbs. 3 ozs. and is 21 1/2 inches.

IT WILL SAVE YOU MONEY....

The Heat Pump
the most efficient system for heating and cooling.

A heat pump can actually produce more than 2 units of heat for every unit of electricity used, in a properly insulated home.

Unlike a conventional furnace, the heat pump doesn't make heat. It transfers or "pumps" heat. Even on cold days, there is some warmth in the air. The heat pump transfers this heat into your home to warm you and your family.

THE ELECTRIC HEAT PUMP WILL SAVE YOU MONEY! If you have plans to buy, build or remodel, or need a new heating and cooling system for your home, call a local factory trained HEAT PUMP DEALER or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you.

Cotton Outlook: Plentiful Supplies and Weak Demand

Carl G. Anderson

Economist-Cotton Marketing

A record world cotton crop and weak demand at home and abroad add up to a depressed market. It will take a big drop in 1982 production and an economic recovery in the second half of this year for the cotton market to turn around.

Foreign demand will be a dominant factor in setting the price level for U.S. cotton. The state of the economy will be an important determinant of domestic mill use.

Cotton Stock rise

Global cotton production in 1981 is estimated at a record 71 million bales, about 6 million more than the previous season. In the United States, the crop is expected to total 15.6 million bales, up from 11.1 million. Foreign production is expected to be over 55 million bales. Increased acreage and yields likely will boost China's 1981 production to 13.3 million bales.

Natural Fibers Fashion review planned

The 11th annual Natural Fibers Fashion Review is being planned for the 1982 Southwest Farm Show. The fashion contest and show will be held on March 6 in Fort Worth.

The contest is open to any homemaker from the Southwest Farm Show states of Texas, Oklahoma, and New Mexico who is involved in agricultural production or an agriculture-related business.

The Fashion Review is designed to promote the use of natural fibers produced in the Southwest and to emphasize excellence in garment construction and fashion in home sewing.

Garments entered in the show must be made of a minimum blend of 50% cotton or 50% wool and/or mohair.

The competition will have four divisions: day wear, evening wear, mother and child, and former grand

award winners. The contest provides a showcase for exhibiting designs made from natural fibers.

Prizes will be awarded to first, second, and third place winners in each division. The Grand Award winner will be selected from the winners of the mother and child, day wear, and evening wear divisions.

Sponsors of the event include the Southwest Hardward & Implement Association and "Progressive Farmer". The Texas Agricultural Extension Service is coordinating and managing the contest and review.

Entries must be submitted by February 19, 1982. Contest rules and entry blanks may be obtained from the County Extension Office.

The Natural Fibers Fashion Review will be presented at 4 p.m. on Saturday, March 6, at the Southwest Farm Show in Fort Worth.

compared with 12.4 million a year earlier. The crop in Russia is expected to total 13.9 million bales, slightly less than the 14.3 million in 1980.

World consumption probably will reach 67.0 million bales, compared with 65.6 million in 1980. The growth rate for cotton textiles may slow slightly during the 1980 season. Because of the U.S. recession, domestic use may increase marginally to about 6 million bales. A significant setback in U.S. mill use is associated with a drop in the end-use markets of denim and corduroy. Shipments overseas may rise to 7 million bales, up from 5.9 the season before.

With a 71 million bale crop and 67 million offtake, world carryover stocks are expected to increase about areas in the state that sheep can best utilize. Texas cash receipts from sheep and wool amounted to over \$89 million in 1980. This income should be less in 1981 due to the lower prices received. Cash receipts from sheep and wool for Texas' producers is estimated at \$85.6 million during 1981. Nationally during 1981, sheep producers received less money from more sheep.

Lower slaughter levels, more orderly marketings, and aggressive merchandising could possibly bring some strength to lamb prices early in 1982. Because of excellent spring and summer range conditions, a large proportion of the 1981 lamb crop was marketed early. Slaughter levels should ease down during the first quarter of 1982. It is possible that by the March-April Easter demand period top prices for slaughter lambs could reach the low \$60 per hundredweight range. If production is again increased in 1982, lamb prices will range below 1981 prices. For 1982 Slaughter lamb prices could do well to average in the mid 50's.

The 1981 Farm Bill

Prepared by Dr. Ronald D. Knutson, Economist—Policy and Marketing, and Dr. W.E. Black, Economist—Marketing and Policy, Texas Agricultural Extension Service, Texas A&M University, College Station, Texas, December 18, 1981.

The 1981 Farm bill reflects a continuation of the trend toward less government involvement in agriculture. For most commodities, anticipated increases in cost of production will not be covered by target price increases. This is particularly the case in 1983 through 1985 where target prices generally increase at the rate of 6 percent or less.

Substantial differences, however, exist among commodities in the level of price and income supports. These differences could have a substantial impact on both farm crop selection and the intensity of input applications in the 1982 crop year.

General Provisions

The 1981 farm bill maintains the basic target price-loan rate, farmer held reserve, and production control format for grains and cotton as in previous legislation.

Target Prices Prices And Loan Rates

A comparison of target price and loan levels for the 1981 and 1982 crop years are contained in Table 1. Table 2 indicates that substantial variation exists among the commodities in the percentage increase in target prices for the crop year 1982 over 1981. Corn, wheat and peanuts apparently came out substantially better than the other commodities. Milk came out with the lowest level of farm bill benefits.

For at least two of the commodities of importance to Texas, these percentage increases should be evaluated with some caution. First, while the 1982 cotton target price remained essentially constant, the 1981 target price already was quite high. This reflects the high cost of production in 1980 due to

the drought and the procedures specified in the 1977 farm bill for calculating the 1981 target price. Second, the target price for grain sorghum is not overtly specified in the farm bill. In the past four years the target price has been set on the basis of the cost of production. The House expressed its interest in floor debates that this be continued, in which case the sorghum target price would be about \$5.00 per cwt. However, in this time of austerity, it is entirely possible that the Secretary of Agriculture could establish the sorghum price relative to the corn target price on the basis of feeding value, in which case the target price would be \$4.58. The \$4.58 price is used in Table 1 in the belief that it is best to utilize the more conservative target price in decision making under conditions of uncertainty.

Grain Reserve

The major change in the grain reserve includes the elimination of the call price, provision to charge interest on the loan in the first year of the reserve and increased flexibility for the Secretary of Agriculture in setting reserve regulations. The major area where this discretion will likely be utilized is the setting of the release levels. In the past, release levels have been tied to the loan rate.

Production Control

Set-aside and acreage diversion authority is continued. Efforts to require set-aside under surplus conditions were defeated. An early decision will have to be made by the Secretary of whether to require set-aside on cotton. This will not be an easy decision. Factors favoring a decision to require set-aside include commodity surpluses and a desire to reduce deficiency payments. Factors weighing against set-aside include a desire to maximize exports, the potential danger of a crop failure in 1982 and the free market orientation of the Reagan Administration. A 15 percent wheat set-aside already has been announced. This may or may not be an indication of what to expect in the other commodities. It would be ironic if a free market administration felt compelled to impose production controls across agriculture.

Implications

The 1982 farm bill has important implications for all segments of the food and fiber industry as well as for consumers. For crop farmers, there is less support for farm prices and income than has been typical of the past. As a result, crop farmers face more risk and uncertainty. For Texas the provisions of the 1981 farm bill favor increased cotton production relative to the other crops. For cattlemen the 1981 farm bill means that, if "Mother Nature" cooperates, plenty of feed will be available at low prices. Grain prices will not be a deterrent to feeding livestock and poultry. In this climate, marketing strategy becomes more important to both crop and livestock producers.

Likewise, agribusiness marketing firms can expect incentives for ample production of grain at relatively low prices under the 1981 farm bill. Input suppliers, however, face lower sales because of reduced farm income. Bankers need to be more cautious with low incomes. All-risk crop insurance will provide the alternative to disaster payments as a means of risk reduction.

The 1981 farm bill is not inflationary to food and fiber prices paid by consumers. Exceptions include sugar, tobacco and peanuts where support prices are maintained at a level above what would exist without farm programs. These programs, along with dairy, were the major target of consumer activists.

"A man who has work that suits him and a wife whom he loves has squared his accounts with life." Hegel

I am announcing my candidacy for the Office of County Judge of Donley County. I am truly grateful for your co-operation in the past and will serve that office to the very best of my ability.

Your vote and influence will be appreciated.

W.R. [Billie] Christal

HEATS ON

By KATIE DVORAK

Garlic is popular throughout the world and virtually all cultures depend on it to enhance a myriad of dishes. Early hieroglyphics reveal that garlic was fed in huge

amounts to workers toiling on the great pyramids because it was said to give them super strength. Here is an idea to give you strength.

MARTINI GARLIC DRESSING

1/4 C olive or salad oil
1 TBS wine vinegar

Dr. Stephen Cowan Optometrist
changed his phone number to
874-2765

1 TBS dry vermouth
1 TBS gin
1 clove garlic, squeezed through press
1/4 tsp dry mustard
1/4 tsp sugar
1 tsp salt

Combine all ingredients in a jar with a tight cover. Shake well before using, makes about 1/4 C but boy, oh boy is it strong!

Fifteen pounds of garlic bought a young, healthy slave. But it was considered unhealthy food by the priests so was not buried with them. Israelites complained to Moses about the lack of garlic in the wilderness. It was despised by Roman officers but given in hearty doses to the troops before going into battle. Garlic was praised by the priests of India who felt it helped in mending broken bones. It has been used as an amulet to keep away evil powers. Inca Indians in South America amazed Cortez as they munched on garlic cloves

presented to them by these Europeans. For your health, try one of these ideas.
COUNTRY GARLIC BREAD
1 loaf French bread
1/4 C oleo
1 garlic clove, peeled and crushed

Cut bread into slices almost to the bottom, careful not to sever the slices. Cream the oleo and garlic thoroughly, spread generously over bread and on both sides of loaf. Wrap in foil and place in 400 oven 10 to 15 minutes. Stand back!

1. When peeling a clove, use a knife that has been in the freezer a few minutes or has been held under cold running water. This will eliminate the odor.

2. Saute garlic in wine instead of butter when used with meat recipes as butter gives a totally different flavor.

3. For fast mincing, smash clove with flat side of cleaver. The outer skin will come right off.

4. For salads, rub the side of a bowl with the peeled clove, the oils will cling to the surface till salad is mixed.

5. Freeze cloves in well sealed container for future use.

Obituaries

Ms. Mertie Alice Headrick

Funeral services for Mrs. Mertie Alice Headrick, age 93, a resident of Donley County from 1899 to 1967, were held at 2:00 p.m. on Saturday, January 9, 1982, in Robertson Chapel Of Memories with Rev. Paul Heil, pastor of the First Baptist Church, officiating. Interment was in Citizens Cemetery with the arrangements under the direction of Robertson Funeral Directors.

Mrs. Headrick died at 8:15 p.m. on Wednesday, January 6, 1982, in the Baptist Home of The District Of Columbia. She was born on January 20, 1888 at Ponder,

Texas and moved to the Milo Community near Wayside in 1894 and to Donley County in 1899. She was married to the late James Henry Headrick in 1915 at Colorado Springs, Colorado. She attended the College of Industrial Arts, and Baylor University, and taught in the area schools. She later attended Texas Womens University and received her Bachelors Degree from there. She resumed teaching in 1928 and retired in 1953. She served as Superintendent of the Primary Department of the First Baptist Church for over 20 yrs. She was a member of the Hilldale Baptist Church in Adelphi, Maryland. Survivors include two sons, James M. Headrick of Beltsville, Maryland, William C. Headrick of Greenbelt, Maryland; a granddaughter, Karen Eveland of Schaumburg, Maryland; and three great grandchildren.

Casket bearers were Thad Rodgers, Truett Behrens, Jack Clifford, Emmett Simmons, Clyde I. Price, Jr., and Jiggs Mann.

Nannie D. Johnson

Nannie Davis Johnson, 86, of Wellington died Thursday, January 7, 1982.

Services were at 2 p.m. Saturday, January 9, 1982 in Primitive Baptist Church with Elder Jack Hayes of Wheeler and Elder T.J. Pittman of Perryton officiating. Burial was in Memorial Gardens Cemetery by Kelso Funeral Home.

Mrs. Johnson was born in Gainesville. She moved to Collingsworth County in 1924 from Purcell, Okla. She married Augustus Davis in 1910. He died in 1935. She married Noah Johnson in 1949. He died in 1961. She was a member of the Primitive Baptist Church.

Survivors include three sons, Edward F. Davis of Farmington, N.M., Bill Ross

Davis of Cortez, Colo., and Tom Davis of Nucla, Colo.; six daughters, Mrs. Vera Havens and Mrs. June Price, both of Clarendon, Mrs. Ellen Crow of Farmington, Mrs. Edith Wachter of New York City, N.Y., Mrs. Dorothy Grasso of Montrose, Conn., and Mrs. Margaret Harwell of Childress; three sisters, Mrs. May Lowe of

Marietta, Okla., Mrs. Ida Stuckey of Wellington and Mrs. Lois Barnhart of Garland; a brother, Bill Langley of Derby, Kan.; 30 grandchildren and 38 great-grandchildren.

The hood ornament on a Rolls Royce is known as the Spirit of Ecstasy. A lead poultice was once believed to cure a sea serpent bite.

Chamberlain News

By MRS. HAWLEY HARRISON

The severe cold weather
may cause the Chamberlain
Community Center meeting to
be canceled.

Mrs. Don Taylor of Abi-
lene visited Bud and Carmen
Wright Tuesday.
Mr. and Mrs. D.R. Koontz
daughter Mrs. Glenda
Rogers had surgery, and is
improving. We hope all goes
well for her.

Cliff and Cindy Harrison of
Midland are the proud par-
ents of a baby boy, Cameron
Scott, born January 8, 1982.
Mr. and Mrs. Hawley Harri-
son of Heyburn, Idaho are
the grandparents.

Mrs. Vernice Parsons of
Lubbock visited Mrs. Rich-
ard Cannon Wednesday and
they went to Childress Wed-
nesday afternoon and visited
Mrs. Parson's daughter, Ella
Mae and Joe Seoney.

Dana Nafey of El Paso
spent the weekend with
Anna Harrison.

Nathan Koontz spent Fri-
day with Mr. and Mrs. D.R.
Koontz.

Mrs. Lilac Lowe has been

visited Ruth and Nell Corbin
Sunday afternoon.

Dennis and Loretta Harri-
son visited David and Betty
Lane Sunday night.

Lelia Lake news

By LAURA HARBERT

Old man winter has cer-
tainly arrived! I hope you all
have found your ear muffs
and thermal socks! Everyone
is certainly busy keeping
warm.

When calling a few people
this week I found out most of
us are getting back into post
holiday schedules. Everyone
does need to call me because
I can't call very many on a
party line without making
enemies! Thank you now for
your help.

In talking with Andrew
and Avos Henderson I found
out they enjoyed a pleasant
Saturday afternoon visiting
with Mr. and Mrs. Vincent
Thomas in Amarillo.

Roy Lee and Barbara
Helms are enjoying a visit
from their daughter Paula
and her son Chris. They plan
to spend this week and catch
up in their visiting Phil,
Jeanie, and Shauna Lauder-
dale had a busy Saturday in
Amarillo doing some shop-

ping.
Carol and Jeannette Ken-
nedy and family are planning
to be moving out of Lelia
Lake community to the Girl
Scout camp later this month
to live and work there. They
are looking forward to enjoy-
ing such a pretty place to
live, but; Lelia Lakers will
surely miss such nice neigh-
bors.

There will be volleyball,
roller skating and fellowship
for parents and their children
Saturday night at 7 o'clock at
the Community Center.

All those interested in
joining us bring enough
sandwiches and chips for
your family. Will have a
meeting afterwards to dis-
cuss some of the future
activities being talked about.
Put on your tennies and come
over!

There is a destiny that
makes us brothers;
None goes his way alone;
All that we send into the
lives of others
Comes back into our own.

When sweet tooth hits, try fruit

Placed before you are an
apple and a piece of your
favorite cake, perhaps Ger-
man chocolate. You must
choose.

Your conscience begins its
usual arguments against
selecting the cake. But your
hand, paying no attention,
reaches for a fork. Soon
after, the cake is history.

The Texas Medical Asso-
ciation says it would have
been healthier to satisfy your
sweet tooth with the apple.
Fruits have a higher density
of nutrients, meaning they
have more nutrients per cal-
orie than, say, that piece of
German chocolate cake.

Each time you eat fruit
rather than a dessert, not
only is there greater nutrition
per calorie, but there gener-
ally are fewer calories. For
instance, a half cup of apple-
sauce has 40 calories. An
equivalent slice of cake has
350 calories.

In addition, sugar found

naturally in fruit is in a more
usable form than refined
white sugar, which is too
concentrated for the body to
handle effectively. Fruit also
contains abundant vitamins
and minerals, including trace
minerals that the body needs
in small amounts but com-
monly are not available in
vitamin preparations.

And fruits provide the
body with the bulk necessary
to function properly.

When fresh fruit is not
available, frozen fruit with-
out added sugar provides
nutrients equivalent to that
of fresh produce. Canned
fruit also is a nutritious
dessert, although it loses
some nutrients through the
chemical process to preserve
it.

Finally, most experts
agree that the people would
be healthier if they cut back
on consumption of refined
sugar.

T.B. UPDATE

What happened to tuberculosis...the
feared killer of the not-to-distant past? In
1928, 53% of all 16 year olds had been
exposed to the infective organism which
causes tuberculosis (as demonstrated by skin
testing). By 1968, less than 2% of all 16 year
olds had been so exposed...a tremendous
decline in 40 years. Still, there are new cases
of tuberculosis each year...it is not an extinct
disease. Many of these cases occur in
"pockets" of people who live, for all
practical purposes, as individuals did at the
turn of the century.

Reasons for the decline in tuberculosis are
numerous. Living conditions are less
crowded than in the past. Infections are
rapidly identified and infected persons
quickly isolated. Because there are fewer
infected individuals, there is less chance of
being exposed to the organism causing
tuberculosis.

Modern drugs have played a significant
role in the fight against tuberculosis. In the
past, the major weapons against this
infection were rest and adequate nutrition.
Today we have such powerful infection-
fighters as rifampin, streptomycin, isoniazid,
and ethambutol. If one develops symptoms
of tuberculosis (fever, fatigue, loss of
appetite, weight loss, and night sweats),
there need be no fear in seeking medical
attention.

Lady Broncs basketball

By SCOTT NEWLAND

In a day in which a person can find that simple problems can become very complex due to modern pressures, one appreciates something steady, consistent and down to earth. Anyone that saw one of the four Clarendon Lady Bronco basketball games last week enjoyed just that; consistent, steady basketball.

On Tuesday, the Lady Broncs dueling the highly respected Valley Patriots. In the first quarter, the Lady Broncs started slowly with only 8 points and 6 rebounds. But the second quarter was a totally different story with the Lady Broncs outscored Valley 22 to 9, with Clarendon doubling their 1st quarter rebound output with 12. The game remained to be tight through the second half until Valley put the game into overtime with a last second shot. In the overtime, Vanessa Calloway, the game high scorer with 22, hit for four of Clarendon's five OT points to ice the game at 59 to 58.

On Thursday, the Lady Broncs attended the North Plains Tournament looking for their 1st tournament win of the year. The first two games of the tourney proved to be no problem for the Lady

Broncs. Angelia Gardner combined for 39 points of scoring in the two games. Vanessa Calloway totaled for 28 points and Kelli Hardin added 27. Silverton never got close, and lost 66 to 33. Adrian proved to be a lesser opponent as all of the Lady Broncs scored in posting a 66 to 22 score.

In the championship game, the Lady Broncs were faced with a foe that had somehow always given the girls problems, the Stinnett Rattlers. The Lady Broncs took a commanding 29 to 16 lead at the half, but came out ice cold in the 3rd period, getting outscored 17 to 9. In the 4th quarter Stinnett pulled as close as three points, but clutch shooting by Kelli Hardin who had 14 points and 6 rebounds. Angelia Gardner, the game high scorer had 17 points and 10 boards.

This week, the Lady Broncs will play their last non-district at Tulia Tuesday, and they start their challenge for the district championship Friday at Canadian.

Round Ball Roundup for P1
game, Clarendon met the Stinnett Rattlers, whom they lost to several weeks ago in

double overtime, 78-77. But this time it was not meant to be for Stinnett. The Rattlers did take a 14-12 first period lead, however, before the Broncs reeled off ten unanswered points in the second quarter and eventually took a 34-24 lead at halftime. As it was against Happy, Clarendon stunned the Rattlers with an awesome press attack that produced eight first-half steals, four by Weatherston. The Broncs held a substantial lead the rest of the game but, like Happy, the scrappy Stinnett squad would not be put away until the final minutes. Hearn exploded in the game for 21 points, while Thompson picked up 19 and Weatherston 14. Thompson and Hearn each grabbed eleven rebounds.

The Broncs contested the Tulia Hornets Tuesday after press time in their final non-district contest. The first loop game, in Canadian, will be tomorrow, Friday.

FTA News

By NNETTE WATSON

The Clarendon F.T.A. chapter met on January the 6, 1982. It was the first meeting of the new year. All present were Pat Richie, Melinda Barker, Annette Watson, Carl Watson, Dianne Johnston, and Miss Veach. We talked about our State Convention. We will be leaving February 18th, which is on a Thursday, and will be returning the 21st, which is on Sunday. We will have two delegates on the floor from Clarendon at State, Dianne Havens and Annette Watson.

Our new correspondencing secretary on the District level is Dyanne Johnston. Dyanne will serve for 1982-83. Congratulations Dyanne.

We had our gas drawing on January 5, at the home Varsity basketball game. Our winner was Mrs. Helen

Woody. Congratulations for winning 100 gallons of gas from FTA.

Our giant size coloring books have arrived!! We will be selling them down town on Saturday, January 16. These fun coloring books are priced at \$3.50 each. More information will be sent out. So look for it. We will be looking forward to seeing you on the 16th.

Attention former Girl Scouts!

We need to know who you are! If you were a Girl Scout in the past, we would like to recognize you and compile a list of former members. Please call Jondel Moffett at 874-2804 so that we can start a record of former members in this area.

NEWS FROM TROOP 33

RECEIVING EAGLE Award (center) Allen Sanders, (left) Scoutmaster Andy Anderson, Troop 5, Amarillo and (right) Tommie Say, Troop 33 Clarendon.

A former resident of Clarendon and member of BSA Troop 33 here, Allen Sanders, now of Amarillo, received his Eagle rank Saturday night January 9, 1982. The Court of Honor was held at the San Jacinto Elementary School, under the direction of Andy Anderson, Scoutmaster of Troop 5 of Amarillo.

Tommie Saye, scoutmaster of Clarendon's Troop 33, assisted in the presentation. Allen had received 73 merit badges while a member of Troop 33. He and his family moved to Amarillo before he could complete all requirements for Eagle.

Allen is attending Texas A & M now. He has received four scholarships and is majoring in psychology. In the summer and during Christmas breaks he works at the Veterans Hospital in Amarillo under a federal grant.

News from Troop 433

Next Tuesday, Jan. 19th we will meet at 6:30 at the Church and go to Cliff Goss to work on a Leather craft merit badge. We should be back to the Church by 8 p.m. This is pending weather permitting, if the weather is bad, we will work on Safety Merit Badges in the Church and scouts will be over at 7:30 p.m.

This coming Saturday, January 16th we need to work on our project of taking down the house the Church of Christ has given us. If the weather is bad we will try again, Saturday, January 23rd.

GIRL SCOUTS

Troop 82

Members of Girl Scout Troop 82 are: Tricia Clifford, Rodora Gray, Larina Petit, Denise Richardson, Cassie Stewart, Rachel Torres, and Billie Jo White. The leader is Dona Goss with lots of enthusiastic help from her small daughter, Mandy.

These girls meet weekly (Tues. 3:15-4:15), but they work at home also as they strive to complete various Badge requirements. Some of the fields they are interested in are: Horsemanship, Child Care, Caring for Plants, Musical Appreciation, Yoga, Health Care, Art Appreciation, Religion, Community Service, and Quilting.

At meetings before Christmas, candles were made with help from Larina Petit's grandmother and bells were made with clay flower pots donated by Mrs. Yankie. On December 22nd., Larina Petit, Rodora Gray, Billie Jo White, and Dona Goss with her family and some friends from out of town went on a hay-ride to the Medical Center Nursing Home to join three other troops in Christmas caroling.

Calendar sales are over and the girls thank everyone who bought them. It was not a very profitable success for this beginning troop who have just started this year, but it is good for the girls to work for their troop in salesmanship. The cookie sale should make them a profit and these girls hope they can help their community by becoming better pre-teens and teen-agers themselves.

Thank you from Brownies

Brownie Troop III would like to express their thanks and appreciation to Mrs. Sharon Hoggard for the time and fun she provided for me and my friends this year '81. Hoping we have the same in '82.

Sincerely
Sec. Laura Ann Hicks

4-H meeting Jan. 18

The Donley County 4-H Club will have its monthly meeting Monday, January 18, at 7 p.m. in the Clarendon College cafeteria. The program will be given by Sue Thompson on "Photography".

There will also be some

information on some of the new rule changes for Round-up and the Clothing Project.

The Donley County Extension Agents and the 4-H Club would like to invite interested persons to attend the meeting.

Clarendon School menu

January 18-22
Monday Roast Pork with gravy, candied sweet potatoes, green beans, hot rolls, pineapple tips and milk.

Tuesday Mexican special, tossed salad, ranch style beans, apple sauce and milk.

Wednesday Bar.BQ chicken, potato salad, baked beans, hot rolls, banana pudding and milk.

Thursday Beef stew with veg., cole slaw, cheese wedge, cornbread, chocolate cake and milk.

Friday Chili burger on bun, lettuce and tomato salad, French fries, cobbler and milk.

ATTEND THE CHURCH OF YOUR CHOICE

The Slavin Law Firm announces the purchase of The Security Abstract Company

and the opening of their

Law office at Claude, Texas.

The firm will continue to
operate their offices in

Clarendon and
McLean, Texas.

You get the highest interest rates, a healthy tax deduction, an insured retirement plan, and FREE checking with Vernon Savings' IRA.

Everyone that's a wage earner is eligible for Vernon Savings' Insured Retirement Account effective January 1, 1982.

You can make up to a \$2,000 tax deductible contribution annually — \$4,000 if you file a joint return and both work. Or \$2,250 if one spouse is not a wage earner. You even get a FREE Vernon Savings checking account if you allow us to automatically charge it for your IRA contribution.

All contributions are tax deductible. Even the interest earned is deferred until retirement (when your tax bracket will probably be lower).

Your principal and interest continues to earn the highest interest rates until you withdraw it. You may begin making withdrawals as early as age 59½ but must begin by age 70½. There is a substantial interest penalty and tax consequence for early withdrawal.

All Vernon Savings' Retirement Accounts are insured to \$100,000 by the FSLIC.

To get the highest interest rates, a healthy tax deduction, an insured retirement plan, and FREE checking simply call or come by any Vernon Savings office. Or ask your employer about a payroll deduction plan.

Doing MORE...With LESS!

THE MOTHER EARTH NEWS

FRESH WINTER SALAD GREENS

Watercress is a common wild food that grows abundantly near streams in every state, as well as in southern Canada. This little plant makes for great winter salads, but thrives all year round. Even when the temperature plunges well below zero, you can still count on that cress.

If you decide to cultivate the wildling, it'll probably be the easiest "garden" plant you'll ever attempt to grow... especially if you're lucky enough to have a spring or stream on your property. Once you've planted a few sprigs of wild cress in the water, you'll find that this member of the pepper family will thrive and multiply with great speed. About all you should have to do is harvest some of the foliage from time to time, which seems only to encourage the plant to grow even faster.

MOTHER-reader Wulf Knausenberger reports that, during the winter, watercress leaves stay at or near the surface of the water bubbling from his family's spring in New Jersey... and Wulf harvests them by snipping off the upper part of the plants with a pair of scissors or a knife (carefully, so their roots won't be dislodged).

By late spring, the cress starts growing in earnest and becomes too coarse and too peppery for most folks' taste. That's when it also starts producing hundreds of tiny white flowers. Once the blooms have passed their prime, Wulf does a once-a-year thinning, to create room for new growth.

But what if you don't have a spring of clear, pure water, or you can't find a crop growing at a nearby stream? No problem. You can raise enough watercress for your family right in your home!

Take a fair-sized fish tank, put a small amount of good compost and soil in its bottom, and poke in a few slips of the plant (*Nasturtium officinale*). Then fill the container with water up to about two or three inches above the soil level. The stems should quickly root themselves and be off and running. Other than har-

vesting a few tops from time to time, you should have to do little for the cress but siphon out the tank's old water whenever it becomes cloudy and refill the container with fresh.

You can use the tasty plants in more than just salads or the dainty little watercress sandwiches that are popular at bridge parties. They make good "boiling greens" when served like spinach, and are great as a stir-fried addition to a wok meal.

Before you head for the nearest stretch of running water, though, heed this word of warning about gathering wild cress from just any stream. Nowadays, you have to be aware of the amount of pollution in the water in which the cress is growing. If you suspect that your favorite brook is contaminated, soak your foraged harvest in water containing dissolved Halazone tablets. The tablets can be purchased at almost any drugstore, and should be used according to the label's directions.

CAR CARE

Cold Weather Car Care

When the wind whips up and the temperature drops you should take care to keep your car running as care-free and gas-efficiently as it does in the summer.

When you start your car in cold weather, don't pump the pedal to warm the engine. That wastes gas. Let the engine warm up gradually. Never let your car warm up in a closed garage because carbon monoxide poisoning may accidentally result.

Low temperatures make motor oil thicken, and free-flowing oil is necessary for your car to start easily and run well. Be sure the oil in your engine is the proper grade for your climate.

Manufacturers print "W" numbers on the oil can, 5W, 10W, 15W and 20W, to help you choose the right grade. The lower the number the thinner the oil for low temperature use. 20W flows at freezing, 10W works down to 0° and 5W below that. Special gasoline saving oils like Kendall Superb 100 10W-40 and 5W-30 perform in cold weather and still save you gas.

When you put on snow tires be sure to check your car's manual for the proper air pressure. The wrong air pressure may waste gasoline and reduce tire traction.

Although most of us think of garnets as a deep red, they come in a variety of colors. A brilliant, bright green garnet, of gem quality, is found in Siberia.

Taxpayers:

Due to the passage of House Bill 30 during the First Called Session of the Texas Legislature, effective January 1, 1982, taxes which become delinquent will incur a penalty of up to 12% and interest at a rate of 12% per annum. This change will affect 1981 taxes which become delinquent on February 1, 1982. As a result, 1981 taxes will accrue penalty and interest at the following rates:

	Penalty	Interest	Total
February	6%	1%	7%
March	7%	2%	9%
April	8%	3%	11%
May	9%	4%	13%
June	10%	5%	15%
July	12%	6%	18%

IN AND AROUND HEDLEY

Full page of Hedley News now in Clarendon Press

Since The Hedley Informer stop publishing two or three years ago, Hedley has been without a newspaper of their own. It is just financially impossible to start another paper. The cost of printing an offset publication is too high.

The Clarendon Press is happy to announce, there will be a Hedley page in the Press from now on. This page will be for Hedley ads and news only.

If you have any news items you want on this page, you may drop them off at the Busy Needle or The Country Store. Someone from the Press will be in Hedley each Friday afternoon to pick up the news from these two business places.

Senior citizens you will note we will be printing your calendar of events each week.

We need news from the churches, Sunday School Classes, clubs, weddings, births, engagements, obituaries and out of town visitors.

If you know of someone in the hospital, ill at home, let us know, so we can keep their friends informed.

We will start a classified section on this page, if you want one. Help us to Help Hedley have a news page of their own.

Owls basketball report

The Hedley High School basketball teams played in the North Plains Tournament at Claude last weekend. Both teams played Stinnett on Thursday. The girls lost their game 6 points, 46-52. High point scorer for the Owls was Kim Taylor with 25 points. Twannah Woodward scored 7 for the next highest points.

The boys team lost their game 29-38. Scott Doherty was high point scorer for the Owls with 13 points, Randy Langley counted for 8.

Both teams were eliminated by losses on Friday. The girls fall to Claude by 5 points, 41-46. Kim Taylor was high point scorer with 19 points. The boys' lost to Memphis 73-49, with Scott Doherty again the high point man with 13 points and Randy Langley came close behind with 12 points.

The Hedley Junior High Team hosted Lakeview Thursday, Jan. 7, the girls fought a hard battle but lost 16-12. High point for the girls was Stephanie Holland. The boys came away with a 29-19 victory, with Keith Watt as high scorer, laying in 14 points.

Both junior high and high school teams appreciate the support of local fans.
