Centennial Countdown - Donley County - First 100 Years

By WILLIE JOHNSON

In the early 1900 just two miles west of Hedley there was a little town by the name of Rowe and in 1911 it began to move to where Hedley is now.

Mr. Bob Jones and Mr. W. E. Reeves bought up the land where Hedley is now. Water wells were dug for people to get water from. There was a wind mill in the main street just about near the new post office is now.

A tank for the horses and

people could go there to get water to carry home. The bank was one of the first things moved. It was called First State Bank then the other bank was formed it was called Guaranty State Bank. Mr. McDougal was president, Mr. J. W. Noll, vice president and acting as president. Clifford Johnson, cashier and Lola Baker book-keeper.

Then the little church was moved it was a Presbyterian Church. All church services were held there.

It is still there and it is the

Church of Christ now, which has been rebuilt and is sure a pretty little church, with a good number of members. There are two other churches. The first Baptist and it is a new church almost. They had a fire and the original church burned. The building is a beautiful church inside and out. In 1911 the Methodist church was organized by Mr. J. B. Wood at Rowe. Then they made the move to Hedley and had their services at the Presbyterian Church until 1915-16 after Mr. Wood there was C. H. Bryant. Then

is when the church was built at cost of \$12,000.

In 1922 a parsonage was built it was at a cost of \$6,000 this building was done while Sam H. Young was pastor. Four ministers have come out of this church John Crow, Rex Kendall, Ansil Lynn and Larry Altman. Rex is in Abilene, John Crow is dead and I don't know about Ansil Lynn. There have been many pastors I could name several but I would leave out some. Some are dead, some retired and some still holding churches. The church have 138 members on the roll, a few are still very active.

Some on the register are not in Hedley any more and that makes a very small attendance. The church has to share the pastor of the

Clarendon church on Sunday, so the meeting starts at 9:30 and Sunday School is held at 10:30 with Mrs. Sharon Wheatly as the organist.

Mrs. Cal Wright and Mary Boston standing at the basement door of the First United Methodist Church

First meeting were held in the basement at the First United Methodist Church, Hedley in 1911.

Texas Heritage Flag Day

MARCH 2 FLAG DAY

Over 10,000 flags are expected to be flying for the official Texas Heritage Day, March 2.

Around Texas, organizations and individuals are taking this opportunity to pay tribute to their state and its flag by flying the "Lone Star" on their homes and public buildings. Local activities will include flag raisings, proclamations by mayors and county judges, speeches and special programs by service clubs, historic organizations and patriotic groups.

The Texas flag was adopted in 1839 as the official standard of the Republic. It became the state flag after the Treaty of Annexation was signed in 1845.

There were several designs for a national flag prior to 1839, but each of them incorporated a single star. The star signifies that Texas was alone in the Mexican Confederation and that the star of liberty was rising.

This gave Texas its nickname - "The Lone Star State".

Texas Flag Day is a Texas Heritage Project of the Texas Historical Foundation. For more information about this and other programs, contact the Texas Historical Foundation, POB 12243, Austin, TX 78711 or call (512) 472-6784.

ceeding the Lady Broncos' bi-district clash with Phillips. The Broncos meet Valley tonight for their final warm-

Amarillo Civic Center, pre-up game before their bid-district clash with the District 1-AA champs on Tuesday.

The Clarendon Broncos already clinched the undisputed District 2-AA basketball crown with a win over Shamrock, but a wild 71-63 loss to arch-rival Memphis still had to smart.

The Broncos, who lost their first home game of the season as well as their first district game, were hampered by illness, as eight of the ten Bronco team members were hampered to various extents by the flu. It turned out to hurt, too, as the Broncos ended the game with only three players.

Clarendon, however, had already won district, as John Braxton sparked a second half as he scored 13 points and pulled down 20 rebounds. Brad Thompson scored 19 points and had 10 boards for the Broncos, who upped their record to 19-14 with the win. Junior Crump poured in 12 points and Bob Weatherston added 9 for the winners.

Against Memphis, however Thompson was stopped the coldest he had been all year, while Braxton got only one rebound in the second half. Thompson, who had been scoring 20 points per game, got only eight, although he did have nine boards. Meanwhile, Braxton had six of his nine rebounds in the first quarter, but then he got into deep foul trouble. The Broncos had four players foul out, and Doug Walker was ejected, while reaching for the ball, inadvertently knocked a Memphis player's glasses off. That left Ron Holmes with only three players with 1:30 remaining and Memphis ahead by ten. Braxton led the team in points with 16, while Hosea Hearn, who led the team in boards with 10, added 12 points. Junior Crump added eleven, while Brad Woodman had 10.

The Clarendon Bronchettes are ready for the playoffs. The only question is, are the play-offs ready for the Bronchettes? The Bronchettes played two games last week; one against a very weak ball team and another against a consistent, experienced competitor.

Memphis Cyclonettes got nothing but poor treatment from the Bronchettes in the last regular season game of the year Tuesday. The trio of Kelli Hardin, Vanessa Calloway, and Angelia Gardner pulled off something that they had never pulled off before. All three of Clarendon's stars scored at least 20 points in the lopsided 77 to 39 tromping of Memphis. Hardin totaled 25 points and 13 rebounds on the evening, while Gardner and Calloway added 22 and 20 respectively.

On Thursday, the Bronchettes played a practice game against a Nazareth team that has won 5 consecutive state Championships. Nazareth brought tradition into the game, but the Bronchettes brought talent. Vanessa Calloway poured in 16 1st half points as the Bronchettes pulled ahead 29-24. The second half proved to be a different story, however, as a good defense team Nazareth held the Bronchettes to only 14 points.

Know the document you just signed wasn't a lease at all in the normal sense of the word. What you did was sell your mineral estate with a legal fee simple determinable title, says Dr. Wayne Hayenga, Economist and Attorney with the Texas Agricultural Extension Service.

If you are a landowner this may be a subject which has real value to you. An educational meeting on "Mineral Rights Leasing" will be held Thursday, February 25, 1982. Program will begin at 7:30 p.m. in Room 102 of the Classroom Building at Clarendon College.

"Sand Castles" tells the dramatic story of Larry and Meg Morgan and their two children. They are achievers of the American dream when owning things seems far better than owning a positive communicating relationship with each other. They have listened all too closely to the influences of a materialistic society and the result is a slow crumbling of their relationship. Part of the Morgan's tragedy exists in their children, though young and innocent, they are all too aware of their parents' problems.

"Sand Castles" is also the story of Cathy and Bob, their Christian neighbors. They too, have deep struggles to face. The difference? Jesus Christ, integrated into their lives to offer hope and peace during such times of despair. "Sand Castles" is also about the four of them together, struggling to be honest in their relationship as friends, and struggling to be honest in how their faith,

Clarendon has been waiting for. A class AA Championship would be just the topping for a super Bronchette basketball season.

First Baptist Church shows "Sand Castles"

or lack of it, affects their marriages. "Sand Castles" is also about truth, in the sense of who Jesus is and how he wants our lives to be built on solid foundations.

Last Chance on trees from SWCD

The Donley County Soil and Water Conservation District will soon be closing out their orders for trees this year.

Trees are a valuable and inexpensive form of energy conservation. Wind-breaks cut down on home heating in the winter and cooling in the summer. These trees are not only good for energy conservation, but they also add a very attractive variety to ones home.

A large variety of trees will be available this year at very competitive prices. The small wildlife animals in our area are running out of homes and protection. The few shelterbelts left in this area need replenishing. These trees act as a sanctuary for birds such as quail and dove.

A belt of trees planted around a field is one of the best controllers of wind erosion. It is becoming quite common to see a farmer's field surrounded on at least two sides by trees for protection against the notorious West Texas winds. A few trees planted in a rancher's open pasture could provide an oasis for his cattle. These trees provide shade and escape from the hot sun in the summer and a place to huddle and hide from the freezing rain in the winter.

If you have a question or wish to place an order, call or come by the Soil Conservation Service on South Kearney, 874-2339.

Volunteer Firemen go to school

Local Volunteer Firemen are entering into a training program that will require a total of 160 hours training for basic skills; 88 additional hours for intermediate levels and 164 additional hours for advanced certification. The training will be instructed from International Fire Service Training Manuals and after completion of the training, the local Volunteers will have received basically the same training as a professional firefighter. The training certification officer will be Jerry Gage, past chief, and the coordinators for the course will be Mutt Graham, former chief, and Clyde Price. It will take about two years to complete the basic course.

The local fire department has a force of some 30

Xi Lambda Xi met

Xi Lambda Xi chapter of Beta Sigma Phi met in the home of Beth Walker Monday, February 22, 1982 for their regularly scheduled meeting. After the business had been taken care of, the time was turned over to Beth Walker who presented a brief program on "A Woman Speaks". She gave each member two tests to evaluate their self-worth and self-appraisal. Everyone had a grand time expressing good thoughts about themselves.

Jana Beth Blackerby Walker gave the second portion of the program entitled "Women Who Have

Made a Difference". She outlined some of the women in history and of today who have contributed something noteworthy to their nation, or local areas in any of several callings. The program encouraged women to look at themselves as individuals with some value rather than "just women". Hostesses Beth Walker

and Betty Veach served finger sandwiches and beverages to the following members: Pat McCombs, Donna Edwards, Donna Mann, Gloria Gage, Peggy Anderson, Genella Eads, Maurine Butts, Janie Finch, Beth Johnston, Charlene Mays and Katie Dvorak. The next meeting will be in the home of Beth Johnston.

FOOD CO-OPS SAVE YOU MONEY!

More than likely there's at least one food co-op operating in your hometown. These democratic, consumer-owned businesses had a heyday in the 70's... and by 1980 it was estimated that there were over 3,000 separate groups of people in the U.S. getting together to buy their food. Folks may form "victual fellowships" to obtain groceries inexpensively (co-op members often save from 15 to 50% on food items)... to secure healthful, wholesically grown eats... to practice participatory democracy as a first step in taking political control of their own lives... to share and experience cooperation... or for some combination of such goals. Food co-ops can be as small as the four-family Morgan City Buying Club in Louisiana or as large as California's 96,000-member Consumer Co-op of Berkeley.

The reason for this diversity is simply that food co-ops are consumer owned. Their guiding purpose is "food for people, not for profit". And that motto also describes the basic advantage of participating in a food co-op: The members themselves create, shape, and regulate their organization. As a result of this membership control, each individual co-op becomes a unique food-buying institution.

In Atlanta, Georgia, for example, there's a co-op named Sevenanda, and it's perhaps the largest food buying cooperative in the southeastern United States. The store provides over 4,000 weekly shoppers with an amazing array of victuals.

Sevenanda (the unusual name is the Sanskrit term meaning "Service is Blessedness") was founded on the ideals of nutritional and spiritual service. On the other hand, Weaver's Way, a prosperous middle-class food co-op in Philadelphia, was established solely to provide bargains. Jules Timmerman, Weaver's founder, created the moneysaving members-only food store through a lot of dedication... an ability to corral new membership fees to cover ongoing debts... and a remarkable talent for finding suppliers of inexpensive food.

Most food co-ops are not such prosperous, large-scale institutions as Sevenanda and Weaver's Way. Many serve smaller groups of people out of part-time storefronts. For example, Tahlequah Foods Co-op, an Oklahoma operation, is made up of a self-described "scratching to get by" membership... in a town so rural that bears occasionally stroll down Main Street.

The simplest, most economical, and perhaps most truly "cooperative" manifestation of the food co-op movement is the small buying club. Such organizations are almost "invisible co-ops"... because they don't operate a storefront at all. Instead, the clubs consist of groups of people (sometimes as small as four families) who pool funds so that they can buy food in quantity.

If you're not already a member of a food co-op, look into the possibilities offered in your neighborhood. And if there isn't such an organization in operation, you may want to think about starting one. It's not always simple, but anytime people can get together to save themselves money, and have more control over their lives, it's usually worth the effort!

For FREE additional information on food co-ops or on THE MOTHER EARTH NEWS magazine, send your name and address and ask for Reprint No. 913, "Cash in on Co-ops". Mail to Doing MORE...With LESS!, P.O. Box 70, Hendersonville, N.C. 28791. Copyright 1982 THE MOTHER EARTH NEWS, Inc.

Once Upon a Playground

Jean Stevenhagen's Drama Class presented a one-act play entitled "Once Upon a Playground" for the high school and elementary classes last week.

Scott Newland announced the show and read off the list

of characters and cast members. The singularly obnoxious and realistically portrayed children on the playground were: Kelli Hardin, Vanessa Calloway, Tammy White, Karen Alderson, Angella Gardner, Lana

Davis, Angela Klennert and Sulyan Ariola.

A girl with a "funny nose, nose funny" wanted to participate in the play of the other kids but they all made fun of her difference and were cruel as only children can be cruel to each other. Each character had the opportunity for a monologue in which they told some tale about their own singularity, letting us know that each one of them was different in their own way and yet had been accepted into the group.

Spencer Hayes was probably type-cast as a rather self-assured fellow that all of the girls idolized. He played Georgie Porgy and indeed

did kiss a girl and make her cry. The girls chased him away, calling him names. Ah! Fickle femininity!

Brad Thompson...dashing hero...had a funny nose too. The boys wouldn't accept him, so funny nose and "nose funny" became friends and discovered that their noses were cute after all.

The messages were quite clear and even the smaller children in the audience seemed to understand the moral question presented by this play. The cast did a fine job and seemed to enjoy themselves.

A BITTER PILL

For many years, the taste of a medicine was considered by many to be a reflection of its relative value to the body...unpleasant tasting medicines seemed to provide the most benefit. This misconception caused many of us to grow up thinking medicines must have a disagreeable taste if they are to do us any good. We may have believed that, when sick, the bitter must be taken with the sweet...the bitter medicine in exchange for the sweetness of getting well.

Manufacturers of medicines have gone to lengths to disguise or otherwise improve the palatability of liquid medicines as well as tablets, capsules, and other dosage forms. Some individuals still have difficulty accepting the sometimes unpleasant taste of contemporary products.

Swallowing medicines with large amounts of water will wash the medicine away from the tongue and diminish unpleasant taste. Avoiding the back of the tongue (where our taste buds for bitter substances lie) will improve the taste of otherwise bitter medicines. Also, placing medicines in foods such as apple sauce or peanut butter will help decrease any unpleasant taste (especially in children). The breaking or crushing of tablets may actually increase any unpleasant taste.

All IRA's are not the same.

You've probably heard a lot about the new Individual Retirement Accounts. Every kind of financial institution is getting into the act.

Well, an IRA from First Bank and Trust can provide you with everything theirs can. A tax break now, tax-deferred interest, a fund that builds for retirement. Plus the security of FDIC insurance. You may even choose between a fixed-rate IRA, or a variable-rate IRA. Both pay high money market rates.

But your First Bank and Trust IRA includes some very important things they can't offer: people who know you, who know your needs.

Come in and let us work out an IRA plan just for you. For now, and for later.

FIRST BANK & TRUST

It's The Law!

The Texas Legislature has enacted a law that requires you and all other Texas motorists to carry automobile liability insurance beginning January 1, 1982. Bodily injury coverage of at least \$10,000 per person and \$20,000 for two or more persons per accident must be in force at all times. Property damage coverage must be at least \$5,000 per accident.

Failure to maintain the coverages required by this law will result in a fine of at least \$75.00 for the first offense and a minimum of at least \$200 for any subsequent offense. If you are convicted you may lose your drivers license and motor vehicle registration as well.

After January 1, 1982 law enforcement officers in Texas will ask to see proof of your insurance coverage when investigating a traffic accident or violation. The Department of Public Safety has advised that the following are acceptable forms of this proof:

- Your automobile insurance policy.
- A photocopy of the declarations page of the policy which contains the policy number, limits of liability, term of the policy, etc.
- A special identification card that some insurance companies may provide.

Even though many more Texas motorists will purchase and maintain liability insurance coverage as the law requires, hundreds of thousands of motorists will intentionally violate the law and remain uninsured.

For this reason we urge you to continue to carry uninsured/underinsured motorist coverage on your own policy. This important coverage will give you added protection should you be involved in an accident with an uninsured or underinsured driver.

At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Clarendon

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Clarendon this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utilities Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

Following the film Lion Price told us that six local volunteer firemen were making plans to attend a firemen school at A&M. Boss Lion McCombs then emphasized several items in the pamphlet and mentioned preliminary plans for a free fire inspection for people requesting it to be made at some future date by members of the fire department.

NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, lightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble.

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals... call for in depth consultation in Layman's terms.

Rebekah Lodge met

Clarendon Rebekah Lodge met in a called meeting for the purpose of conferring the Rebekah Degree for Inez Johnson.

Action Photo

Action photographs of the Colt football boys are collected in a super photo album at Phil's Cleaners.

Go by and look up your favorite player. You can then place an order for that picture in any size you desire. The price list will be in the album so you can find the size and price that suits you best.

The album is exciting and having some of those prize photos on your wall would be better than a new coat of paint!

For other Football or basketball action shots call 874-2829

Bea Rodgers and staff carried out the Degree. Inez is now a member of the Rebekah Lodge #149 of Clarendon.

Other members present and those who helped in conferring the Degree were: Lee Welch, Inez Skinner, Lucille Swinney, Vera Johnson, Eadith Spivey, Norma Corgill, Lola Bartell, Lucille Boren, Peggy Watt and Betty Veach.

We have conferred the Degree in the past for Peggy Watt and Norma Cargill; and we have had three new members by transfer, Lucille Boren, Bea Rodgers and Lola Bartell. We are very happy to have the new members join our Lodge and most happy for Betty Veach as she helps so much with her music.

We missed our Noble Grand as she was working, Irene Winson and Affie Warner absent due to sickness.

Refreshments of coffee and cake were served to all present.

Lelia Lake news

Have you all enjoyed our spring weather? I'm sure that the families with children were searching for cut offs etc. for the warm

sunshine. I saw many around. Remind everyone we still have March to go. We understand Ronnie, Peggy, Tracy and Lance

Baker have moved to Clarendon. We'll miss them. Roxanne Shields and Samara went to Hobbs, New Mexico to visit with Rox-

anne's parents. They left on the bus, the first bus ride for Samara, and visited all week with friends and family. Bruce, Karl, and J.W. drove down on the weekend to visit and then they all drove home Sunday night. While there, they celebrated J.W. and Samara's birthdays. Everyone had a lovely visit. The Martin Quilting Club met at Dixie Ward's home.

Eighteen attended for a lovely time of quilting, a quilt made from handkerchiefs that had belonged to Ronnie's grandmother. Since I visited with Dixie on the

phone, I am going to have to personally see this quilt. It sounds very beautiful.

Do call me and let me know how you all are.
