LONG TIME RESIDENTS [l to r] Beulah Hall, Red Doherty, Sats DeBord, Ethel Kinslow, Ruby Bromley [lives in Clarendon] Myrtle Reeves, Holbert Moffitt and Dannie Bernardin.

30th Annual Cotton Festival

If you are hungry for breakfast, go to Hedley from 7-9 to the Lions Den, where the Junior Class will kick off the annual Cotton Festival with a breakfast.

At 8 a.m. Queen Kim Taylor and the Queen Contestants and the sponsors will be on hand for all to visit with.

At 10:00 a.m. the registration begins for the old settlers in the Lions Den.

At noon, the different classes will offer tempting food selections for sale as a means to earn money for their class.

From 2 until 4 p.m. the old settlers program will be in the Lions Den. There will be a program, election of officers and prizes.

From 4 until 6 p.m. the Festival Proper Opens at the Speakers Stand. The Tom Pounds Family will entertain.

The Memphis Off Beats will entertain from 6 until 8. After all of that fun, there will be a Hootnanny for everyone in the Lions Den beginning at 8 p.m.

Saturday morning, events kick off at 7-9 when the Senior Class will feed those

hungry souls a breakfast. From 9-11 the Tom Pounds Family will keep the air filled with music. At 11 until 2 the Calvary Cross Singers and the Greeborn from the stand for joyous gospel music.

During the noon hour, from 11:30 until 2, the Lions Den will be the site for that world famous Hedley Barbeque and, of course, the other food booths will still be in operation.

KGNC will be broadcasting live from city hall on main street.

At 1:15 until 1:30 p.m. the kiddies will show off their floats and bicycles and pets and costumes in their special parade.

At 2 p.m. sharp, the 30th Annual Festival Grand Parade will begin to pass in review.

From 3 until 4, the Tom Pounds Family will again entertain, from 4 until 5 the

Calvary Cross Singers and The Froobers will take the stand again. At 5:00 p.m. the Awarding of the Miss of Cotton and other door prizes will be announced from the stand.

From 5 until 7 the Memphis Offbeats will keep the air filled with music. At 7 p.m. the Old Fiddlers Contest at the Speakers Stand will keep toes tapping and hands clapping. At 8 p.m. the Coronation ceremonies at the Hedley Gym will thin the crowds on the streets. Lions District Governor Willie McAlpin will crown the New Cotton Festival Queen. The Future Cotton Festival queen will also be crowned. Kim Taylor is the retiring Queen and Dana Monroe is the retiring little queen.

From 8:30 until ???, there will be square dancers with Nicky Boone on the street. Come bring the family to this exciting event in Hedley.

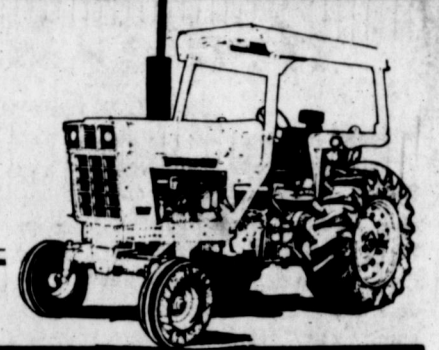

If a red check appears by your name your paper has expired. Subscription rates for Donley County \$8.00 outside of County \$10.00. Mail Box 1110, Clarendon, Texas 79226.

Broncos pulled tails off Bobcats

By SPENCER HAYES

The Clarendon Broncos traveled to Childress and gave the Bobcats all they could handle in the form of Hosea Hearn and Bobby Weatherston, as the Broncos took a 30-14 victory over their rival.

Hearn rushed for 172 yards and Weatherston added 132 as the Broncos beat Childress for the first time since 1971, raising their perfect record to 5-0.

Clarendon struck first when, on their second possession, set up by a John Braxton interception, the Broncos took the ball in on three plays from 40 yards out. Brad Thompson scored on an 11 yard run and Arlis Thomas booted the extra point to put Clarendon on top 7-0 with 7:09 remaining in the first quarter.

The Bronco defense forced Childress to punt immediately on the bobcats next possession, giving the Broncos the ball at mid-field. Hearn took a pitch wide on the Bronco's first play and raced to the 8-yardline. But the Broncos choked the ball up three plays later.

Childress then proceeded to jump back into the ballgame, turning to the pass to score on a 68-yard TD reception by Alonzo Jeter. The extra point was good, and what could have been a 14-0 Clarendon advantage had turned into a 7-7 tie with 3:00

remaining in the opening period.

With their homecoming momentum, the Bobcats then stopped Clarendon four straight downs and scored three plays later on a 16-yard pass from Kevin Moore at the beginning of the 2nd period. That strike put Childress ahead 14-7.

Then the Bronco offense uncorked its explosives. A quick TD drive set up by Hearn and capped off by his two yard dive brought the Broncos to within one when Thompson hit Braxton on a fake kick that put the Broncos ahead to stay, 15-14.

Childress started a drive and got to the Clarendon 21 yard line before the Bronco defense stiffened and got the ball on downs. Then, on the Bronco's second play, Bobby Weatherston broke loose on an electrifying 79 yard run to put the Broncos ahead 21-14 at halftime.

That threat by the Bobcats was really the last one of the game. The Broncos dominated the remaining time, although they scored only 9 more points. The defense allowed Childress only 196 total yards and only 109 on the ground. The Broncos, on the other hand, rolled up 422 yards (377 rushing, 45 passing).

The Broncos seemed well in control as Brad Thompson scampered in from 11 yards out midway into the third quarter. That touchdown was also set upon a long run by

Hearn. The Broncos had at least three legitimate scoring opportunities in the fourth quarter, but were hampered by questionable penalties. An 11 yard scoring run by Weatherston was called back and four of the Bronco's seven penalties came in the last part of the fourth quarter inside the Childress 30. Clarendon did score in the 4th quarter on a 33-yard field

For the Broncos, it was a big feather in their hat. The victory gives them a big boost into district play, which opens next week in Shamrock. The Irish are 4-1 on the season and are looking to upend the Broncos as they did two years ago, the last time Clarendon visited Shamrock. The Broncos were heavy favorites in that game, which the Irish won.

Con't P 10

Broncos fans

support team

The excitement of having been the first Clarendon team to beat Childress in 10 years is still in the air. This is a good opportunity to have a town and a group of young men to pull together for a common goal. The Pride of having a good athletic team always shows in the way the team performs week to week and how the fans follow that team.

The Clarendon Broncos are a school organization that needs the support of the people and students in our town. We have had a tremendous group of fans that are following the Broncos to all games. The District games are going to begin Oct. 16 at Shamrock and hopefully continue for more weeks after the District race is over.

Every team in Conference AA dreams of the District

Fire Prevention Week

In the wake of the disastrous October fire in 1871 in Chicago, Fire Prevention Week was first officially proclaimed in the United States and Canada in 1922. For 61 years we have observed this as a yearly reminder to be more cautious about fire prevention in our homes, at work and at play.

Every hour and twenty minutes, one person--most frequently a child or elderly person dies in a dwelling fire. Every hour fire damages 67 American homes.

The cause of most fires in the homes of Clarendon are overloaded and underfused circuits, carelessly discarded cigarettes, improper storage of flammable liquids and uncleared rubbish.

The worst effect of fire is lack of prevention. Families need to take the time to prepare a fire drill to plan

their escape routes in case of fire.

Ignorance and panic most often kill occupants of a burning house. Plan on at least two escape routes from each room. The best protection today is fire and smoke alarms in correctly spaced areas in the home.

In Clarendon, the fire insurance premium is very low, the lowest in Texas for a city of its size, in fact. The key rate, figured in cents, is based on the equipment, water lines, water storage tanks, location of fire plugs, fire fighting equipment, fire drills, departmental training schools and city fire ordinances. The rate could be as high as \$1 but our rate is only 28c.

The Fire Record is a percentage figure based on the amount of premiums taken in and the amount paid

out. Clarendon is, again, very low because this is based on a five year period for a major fire.

The thanks to this goes largely to our fire department. We could do better if all of us were more careful about fire prevention.

The Clarendon Fire Chief is Delbert Robertson, the Fire Marshall is Clyde Price. The secretary is Paul Loeff-

ler. The fire department in Clarendon's phone number is 874-3755, in Hedley it is 856-2241. In Howardwick it is 874-2345.

Members of the Clarendon Fire Department are: Donald Bland, Jim Cockerham, Robert Erdmann, Jerry Gage, Dwane Garmon, Mutt Graham, Jerry Hawkins, Bobby Hoggard, Owen John-

Square dance club to start

For those interested in reviving the square dance club, there will be a meeting and work shop at the Lions Club building Monday, October 12th at 7:30 p.m.

Please plan on attending whether or not you have ever

danced. This is the most exciting way to exercise, get together, laugh, have fun and dance all at the same time. Remember, meet at 7:30 p.m. October 12th in the Lions Club in Clarendon.

Bus accident injures two Clarendon youth

Monday morning, Dan Hall was making his trip out to the JA Ranch to pick up the third of the children on route #15. As he began to make the big curve on the road, the front wheel of the bus ran off of the pavement

causing him to lose control of the bus. The bus rolled once injuring Hall in the face. Hall then walked to Dale Barber, Mike McMann, and Brent and Bill Layman's trailer home to call for help

Chrystal Green received a broken arm in the accident. Her arm was set and she was then released. Brad Shadle received slight concussion and minor facial lacerations. He is being kept overnight in The Hall County Hospital for observations.

All three injured were very lucky to receive such light injuries in this unfortunate accident. That curve has been a deadly menace to drivers every since it was built.

QUEEN CONTESTANTS reigning queen Kim Taylor [l to r] back row Lor, Brenda Baker, Kelley Woodward, front row [l to r] Debbie Clubb, Tonya Moore and not shown is Lisa Malins.

Hedley News

By WILLIE JOHNSON

This is the last news from Willie Johnson. Some one else should write our Hedley News now. We need the Hedley News in our Clarendon Press. We sure hope some one else will now gather the news and keep Hedley on the map—we believe people of Hedley enjoy reading the local news. The O.F. Messers of Hedley welcomed eighty-seven guests at their 60th anniversary reception held in their home in Hedley Sunday, Oct 4 from 2-5 p.m.

The refreshment table was laid with white lace and crystal and silver. The centerpiece of variegated colors of silk flowers was flanked by white candles in crystal sticks. The white cake was decorated in yellow roses and green leaves. It said "Pete and Lillie-1921-1981" The mints, in the shape of bells and roses, carried out the color scheme. Miss Kristi Hudson served the yellow punch from a crystal bowl. Mrs. Angela Hines served the cake. These are the only granddaughters and both live in Amarillo. In addition to those who came, several friends and

relatives called during the day. The first telephone call was from Stuart Messer, the youngest grandson, in Austin and the last of the day was from a niece, Olivia Skelton of Corsicana. Mrs. Jim Hudson of Amarillo and Doyle Messer of Hedley, the daughter and son of the couple, hosted the event. All the family wants to thank all those who came or sent good wishes. At noon Mr. and Mrs. Messer, Mr. and Mrs. Jim Hudson, Mr. and Mrs. Hines and Ashton, Krista Hudson, Brian Bidwell, all of Amarillo and Lyndon Messer of Hedley had dinner in the Doyle Messer home. Pauline Skelton, niece of Mrs. Ollie Tyler and a friend of hers visited. Ollie Wed-

nesday. We are so glad to see Birdie Brinson home again. Mrs. Hoffman is home from her sons for awhile but will soon go back for the winter. Mr. and Mrs. Roy Browns daughter and one grandchild both had surgery very recently but are reported to be doing well. Mrs. Merlene Sargent is in the hospital again and very ill. Many of her friends visited her there this week. How many of you readers love good piano music with really good singing? We feel the group who go to Medical Center Nursing home on certain Wednesday afternoons to sing to our precious old and ill folks in the home deserve a word of praise and gratitude for their work. They certainly help the folks there to pass a good hour or so. I know! For I've been there and heard them often and I love to hear them. Jack Reid spent Monday afternoon in Memphis Convalescent Home visiting several of her friends from Hedley. Dot Messers mother came to Dot and Doodles home for the week and then they went to Dot's Aunts at Clarendon for a big "get together" and a good dinner Sunday. Lois Beach reports seeing a big parade in Florence, CO for pioneer day and she said "not one float even came up to Hedley's poorest float ever seen at Hedley Cotton Festival. Our little town is very proud of the work and hours spent on the lovely floats shown every year." Mr. and Mrs. Diane Friend visited Lois Beach Sunday on their way back home from a reunion of Mrs. Friends brothers and sisters and nieces and nephews at Muleshoe. We notice quite a number of homes in Hedley have recently been painted, you should just drive around awhile and look. It might surprise you. Mrs. Othell Bolin has sold her cafe on 287. Many people will miss her good cooking, especially her chicken dumplings and pies. We understand Ray Smith has been quite ill and we sincerely hope he is much better at this time. Mom's Cafe in Hedley has changed management. The Jennings' girls have taken Othell's place. We will try to continue to serve the people as Othell has done in the past. We welcome everyone. Our hours will be from 6 a.m. until 10 p.m. Tues thru Sat. We will close after lunch on Sunday and be closed on Monday. Please come and see us. Mildred and Wanda. Hobart Moffit and Burt Stone visited Tuesday with Owens family at St. Anthony's Hospital where Otis Owens had undergone surgery. Myrtle Kirkpatrick, Elsie Shaw and Dick Moore visited Merylene Sargent in Hall Co. Hospital Tuesday. Also Willie Johnson at the Convalescent home in Memphis. Hobart Moffit and his sister Ruby spent the week end in Mexico visiting. Good to see Ray Smith back from the hospital. He was able to deliver the

papers again. Mr. and Mrs. Tode Hill and Edith Bain left Sunday to attend a funeral for Mrs. Vera Brison Drunese at Portales, N. M. Burt and Kate Stone visited Sunday afternoon with Merylene Sargent in the hospital at Memphis. Also with Willie Johnson. They both saw some improvement. Elsie Shaw, Myrtle Kirkpatrick, Dick Moore and Jack Reid made business trip to Clarendon Monday. Mr. and Mrs. L.D. Moore from Memphis visited her mother Sunday. She brought some nice tomatoes from her granddaughters garden. Mrs. Sue Weatherly visited Willie Johnson Saturday evening. Miss Myrtle Reeves of Winfred Doherty visited Bessie Yandell, Fanny Mullins and Willie Johnson at the Hall Co. Convalescent Home at Memphis. Other visitors there to see Willie were Eloise Spalding, she and Alfred visited Mrs. Spalding, Dottie Bogue and Alice Johnson. Please turn your news into Mrs. Kate Stone and Lois Beach for awhile as I am staying in the Nursing home.

Phi Beta Lambda sponsors Town Hall program

The Clarendon College Chapter of Phi Beta Lambda will sponsor a Town Hall Program on Wednesday, October 21, 1981, at 1:00 p.m. Location for the meeting will be the Fine Arts Auditorium at Clarendon College. The Town Hall Program is presented by the Texas Association of Business. It is designed for a group of students or business persons to discuss the role of business in today's society with a panel of business executives to better understand business and private enterprise. Panelists include: Phil Staggs, Industrial Relations Manager, Celanese Chemical Co., Inc.; Louise Fletcher, Publisher, Pampa News; Charles Cooley, CPA; John Charles Cooley, CPA; and Jerry Wilson, President Wilmart, Inc. The moderator for this discussion will be Luther Robinson, Senior Vice-President, First National Bank of Pampa. Curious students and businesspersons with a variety of backgrounds, interests, and desires are encouraged to bring their business-related questions to ask panelists who are experts in banking, oil and gas, small business, industrial relat-

ions and communications. Everyone is welcome to attend, and we encourage you not to miss this unique opportunity. If you have

questions concerning Town Hall, please contact Karen Trivitt, Phi Beta Lambda Sponsor, at 874-3571 or 874-2388 after 5 p.m.

THE COUNTRY STORE Welcome Visitors: We will be serving Chili Friday and Saturday. We also will have chili dogs and a drawing for a pot plant. Come by to see us Mr. and Mrs. E. L. Ball

birthday. Mrs. Ava Naylor celebrated her 93rd birthday Saturday at 3 p.m. with Mr. and Mrs. Dean Simons of Amarillo as the host and hostess. The table was beautifully and artfully decorated with a scrumptuous angel food cake as the center of attraction. Mr. and Mrs. Edwin Eams, Mr. and Mrs. Tisdale and the host and hostess wished Ava a very happy birthday. Her nephew, Tommy Naylor, born on the same day but not the same year, celebrated a joint birthday party with Ava Sunday, in the home of his parents Mr. and Mrs. T.E. Naylor. Mrs. Neva Mikaphee and her son, Mr. and Mrs. Tex Naylor of Clarendon attended the noon day meal and celebration. Mr. and Mrs. Evin Sitters of McLean also visited Ava Naylor to recall old times.

Ava Naylor has 93rd birthday

Clarendon Chamber of Commerce news. We welcome Mr. and Mrs. Bob LaRue of Peanut's Restaurant as the Chamber's newest members. It won't be long before everyone will be getting the Christmas spirit. Keep in mind that Clarendon merchants will be glad to serve you. If they do not have the item you want in stock, they will certainly get it for you. The Beta Sigma Phi Sorority are ready to start work on Christmas decorations in cooperation with the Chamber. Clarendon Manufacturing will manufacture the frames. They will supply the labor at no cost. Ballots for electing next year's directors will be mailed soon.

We would like to extend to you, Hedley Cotton

Cattlemen supports inspection standards

Identical inspection standards should be required of foreign meat as those required of domestic meats says the president of the Independent Cattlemen's Association.

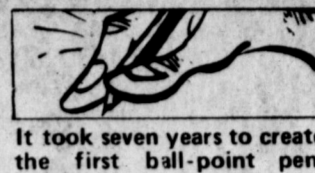

Roy Wheeler of Pleasanton says his groups strongly supports an amendment to the 1981 Farm Bill requiring all meat products imported into the United States to be "subject to the inspection, sanitary, quality, species verification and residue standards applied to products produced in the United

States." of Montana and co-sponsored by Senator Lloyd Bentsen of Texas, was passed unopposed in the Senate version of the farm bill.

Wheeler pointed out American consumers can't protect themselves from foreign beef because it is commingled with domestic beef. Adequate meat inspections must be made of both domestic and foreign products before they reach the American public.

The proposed legislation could relieve an inequity

American cattlemen have been...
"The...
our own beef must meet the same stringent and costly to American packing houses," Wheeler says. "Some small slaughter houses have been forced to close their doors rather than make the expensive changes required to process meat. If this is the price we must pay for the high quality meat Americans demand, then these standards must be imposed equally."

It took seven years to create the first ball-point pen.

The amendment, sponsored by Senator John Melcher

J. B. MASTERSON receiving his 50-year service pin on Aug. 25, 1955.

J. B. Masterson received 50-year pin - 1955

Masons from the 98th Masonic District gathered at Shamrock on August 25, 1955, to witness ceremonies in which Grand Master George Moffett presented a 50-Year Service Award to Brother J. B. Masterson who was made a Mason at Lone Grove, Oklahoma, in 1904, and was a Charter Member of Hedley Lodge No. 991 when it was formed in 1909. Twenty five Year Awards were received by the following: T. W. Bain, P. T. Boston, J. K. Hunt, Roy C. Jewell, R. N. Huckabee, I. H. Rains, A. T. Simmons, J. M. Tidwell, W. W. Wiggins, W. H. Jones, H. P. Wilson, Leon Reeves, and five other not present: S. G. Adamson, U. J. Boston, C. E. Johnson, R. A. Moreman and J. B. Pickett.

After a barbecue, Grand Master Moffett spoke on "You say what you are by the things you do," and pointed out that Texas Masons have always supported our churches and public schools. He then urged that this support not only be continued but intensified.

More than 300 Masons, representing twenty-one Lodges, were present, including Paul Starr, D.D.G.M. of the 98th Masonic District, C. B. Aynes, Grand Tiler, and George Moffett, Grand Master of the Grand Lodge of Texas, Allen O'Brian, Grand King, and W. W. Simmons, Grand Conductor of the Grand Council, R. & R. M. of Texas.

Final Signup for All-Risk Crop Insurance for winter wheat and barley ends Oct. 26 for Donley County

Final signup for the U.S. Department of Agriculture's All-risk Crop Insurance for winter wheat and barley ends October 26, 1981, in Donley County. Secretary of Agriculture, John R. Block, has set this date so that you will have ample time to learn about and consider the benefits of federal crop insurance. He also asked that farmers be reminded of this deadline date.

USDA statistics show that every year one of every 14 planted acres never make it to harvest. Secretary Block said, "Most farmers cannot afford to take such a risk on their own without insurance protection. Our new crop insurance program is a major policy change from federal disaster programs that pay too little, to too few farmers. All Risk Crop Insurance is a

self-help assistance program that is fair to all." This All-risk Crop Insurance is available through local insurance agents. If your agent does not handle it, you may obtain a list of crop insurance agents by calling this office, 806-874-3561, or you may call the Federal Crop Insurance Corporation's toll free number, 1-800-447-4700.

4-H Horse Project

Seventeen 4-H members participated in four playday events Saturday night. The overall winners will be announced later.

Plans were made for the club to ride in the Hedley parade. We will meet at the Clarendon rodeo arena at 12:15 Saturday.

There will be extra trailer space available in case someone needs a ride for their horse. We will assemble at the Hedley City Park, by the school, to dress the horses.

Please wear levis, white shirt and your 4-H caps. Since this is a Donley County

activity, we are hoping for one hundred percent participation. Any parents who show up to help dress the horses will receive a very warm welcome!

The Romans are not known to have used soap. They used sand and skin scrapers to cleanse themselves.

W.E. Reeves Family

W. E. (Col.) and Margarete Reeves came from Bisbee, Arizona in 1891. Mr.

Reeves was a cattleman and a miner. He owned ranchland and operated a silver mine.

Col. Reeves had moved to Arizona from Georgia. The couple was married in 1891 at Bisbee.

Soon after they were married, they sold their holdings in Arizona and moved to Memphis where they bought a farm. The couple moved from Memphis to Clarendon where they also purchased a farm outside of town but they lived in the town itself.

Sometime later, they sold their Clarendon property and moved to Rowe where Mr. Reeves and Bond W. Johnson bought a mercantile store. Col. Reeves was also president of the First State Bank in Rowe.

Due to the sand and gyp water, they decided to move again. Col. Reeves, Bond Johnson, and Bob Jones bought a section of land where they raised cotton. Then they began to buy and move everything they could from Rowe to the site of Hedley.

These folks were the first families to move from Rowe to the future town of Hedley. Together, they bought ten houses and moved them to Hedley to be used as rent houses. They moved the bank, a grocery and mercantile store, other businesses also moved from Rowe to Hedley, such as the depot, and the S. L. Adamson Hotel. Thus, Hedley was born, on land purchased from Mr. King.

Mr. Hedley, a cotton buyer from Oklahoma, spent a lot of time in the area buying cotton. After much discussion on what to name the new town, it was decided to call it Hedley, after the cotton buyer.

The first baby born in Hedley was the granddaughter of Mr. and Mrs. S.L. Adamson and she was named Anita Colwell. The second baby was the grandson of the Adamson's, Wanda Jones. The third child born was a son, Leon, to Mr. and Mrs. W.E. Reeves.

Col. Reeves started the First State Bank at Rowe, which he was president. He later purchased three farms and continued to manage the farms until his death in 1940. Mr. and Mrs. W.E. Reeves had five children, Earl, Atlee, Ina, Myrtle, and Leon. Mrs. W. E. Reeves passed away in 1966.

Earl Jr. was born in Memphis. He later married and moved to Truth or Consequences N.M. where he was in the Real Estate Business until his death in 1959.

Atlee was born in Memphis also. She married and moved to Oakland, California. They have one daughter, Pauline. Atlee passed away in Oakland in 1961.

Ina was also born in Memphis. She married Ed Harris and had five children, Gwendolyn, Edward, Margarete, Leon, and Joe. The Harris family lived in Rotan, Tex. where they were engaged in the mercantile business until his death in 1941. Mrs. Ina Harries died in 1980.

Myrtle was born in Clarendon. She moved to Rowe with her family at an early age then to Hedley, though she has lived other places, she has always maintained her Hedley residence.

Myrtle taught school in Tulsa for two years, Big Spring and Rotan a year

MYRTLE REEVES

each. She lived 9 years in Calif. She returned to Hedley worked for the West Texas Utility Company for 16 years.

Leon was born in the new town of Hedley. He and his wife and baby son died in a tragic car accident in Clarendon in 1956. Their surviving children are Tippy, Don and Bill.

EMS Activity Report

9-29-81-Dalyn Croslin, 16 of Clarendon from residence to Amarillo Emergency Receiving Center. Medical.

MR. AND MRS. WALTER DeBORD

MR. AND MRS. SLATS DeBORD

M. C. DeBord family

M.C. (Slat) DeBord, was born in 1905 at Birds Mills, Indian Territory. His father Walter DeBord came to McKnight with a herd of horses and a covered wagon first. His mother, Hester (Johnston) DeBord and the three children came to Rowe on the train a few weeks later.

Walter bought some land at the McKnight community where he raised cotton and cattle. His grandson, Connie, still owns this property today.

Some of the old time families who lived in McKnight when the DeBord family lived there were the Dohertys, Crawfords, Coopers, Hardys, H. Moremans, B. Davis, Calloways, Ackers, and Dinky White.

Walter and Hester DeBord had four children, M.C., Ola, Vera, and Edith. Ola married Cordell Dougans and they lived in the McKnight community. Ola passed away in 1929. Vera married Elvin Hickey and they moved to Anthony. Edith married G.O. Willingham and they make their home in Amarillo.

Slat attended school at the age of 7 at the McKnight school. His teacher at this time was Cloe Ratcliff. Slat went to Windy Valley in 1916-17. The DeBord family lived two miles from school. He and the girls either walked, rode horses, or rode to school in a buggy. Slat said that in warm weather, the girls walked to school because they did not like to ride in the old buggy, but he was too lazy to walk, so he took the buggy anyway.

A few years back Slat attended a McKnight school reunion in Amarillo and learned that the Hardy and Crawford boys were students the first day that McKnight School opened its doors. DeBord still owns the land where the McKnights school was located, but all that

remains is the foundation. Slat remembers that the mail came out from Clarendon to the old Tacket place twice a week, and all of the residents looked forward to getting their mail. Mail was the only way most of the early settlers had of communications with the families and friends in distant places. Probably the oldest school house in Donley County was located in the Tacket home ten miles northeast of Hedley on the Hessie E. Roan Creek.

Slat and Ola Rogers were married in 1928. The couple bought some land and settled down to raising stock and farming. To this union was born three boys and one girl. Connie, their first son, attended McKnight school and graduated from Quail High School and Texas Tech. He

has taught school for 26 years, he and his wife reside in Hedley today. They have two daughters.

Patricia, Dewey, and Jerry have all moved from Hedley, to make their homes elsewhere.

DeBord spent many happy hours when he was six years old, watching the houses and buildings move from Rowe to Hedley. The Shelton brothers, Daton and Tom along with Bill Jones moved most of the buildings out. The buildings were moved by wagon and teams using cross ties tied on behind a wagon filled with sand. It took two days to move the buildings the mile from Rowe to Hedley. A complicated process using boom and chain and

more moved the buildings along the way.

Slat and Ola moved from their farm home in 1970 to a house in Hedley, but Slat still goes out to the farm about five days a week to feed his cattle and ride his horse. When asked what his hobby was, Slat laughingly said, "humoring my wife."

Slat said that he had "Lived in and around Hedley continuously since arriving there in 1907 except one year when we lived in Wheeler."

It has been said that Red Doherty and Slat DeBord lived in Hedley when "the Red River was dug." Slat has attended all 29 of the Hedley Cotton Festivals and is looking forward to the 30th Annual Festival.

BERT STONE & HIS MOTHER, Bert was born in Rowe

John Summers and boys Saturday.

Mrs. Glays Blackburn and Mrs. Bertie Spud went to Amarillo Friday and picked up Teresa and Miles Risley and brought them home with them for the weekend Glays took them home Sunday and visited her sister, Mr. and Mrs. J.T. Sykes.

Jiggs and Evelyn Mann visited Mr. and Mrs. Richard Dingler awhile Saturday night. Dennis, Loretta and Anna Harrison were dinner guests of Billie and Olace Hicks and then Olace and Dennis visited in Amarillo with Louie Griffin.

Mrs. Mayfield and Bonnie De Jarret of Dalhart and Quata Philips visited Mrs. Florence Harp Sunday afternoon.

Mrs. Willie Putman visited Mrs. Clara Mae Carter Sunday afternoon. Mr. and Mrs. Tom Barbee of Quitaque and Ernest and Roxie Barbee were dinner guest of Ewayne, Janice and little Beth Monday.

Carlene Hollar visited Mrs. Richard Cannon Monday afternoon.

Mr. Hawley Harrison's nephew Bob and Winnie Johnson of Sylmar, CA are having a wonderful time in Washington, D.C. Sat. in on a session of Congress and Senate, went to Mt. Vernon and now are in Amish and Mennonite Country, horses and buggies and funny black hats. Will be spending several days before returning home. The Jefferson Memorial Monument is so beautiful. It is located on the Tidal Basin, in West Potomac Park. They plan to visit June and David Chase of Odessa in route home.

Creamy Vegetable Ideas

FROM NEW COOKBOOK

Harvest time means a plentiful supply of fresh vegetables. So take advantage of the opportunity to try new ways of preparing them. The mild flavor of cream cheese, for instance, can complement many types of vegetables. These two interesting side dish recipes, created by the Kraft Kitchens, are good examples. They come from the new Philadelphia Brand Cream Cheese Cookbook, released to celebrate the 100th Anniversary of Philly Brand cream cheese.

Stuffed Squash is a hearty vegetable mélange, perfect for chilly autumn days. It's also a recipe special enough to serve to guests. Slivered almonds, green beans, water chestnuts and seasonings are folded into a smooth cream cheese sauce. This filling is then spooned into hot baked squash halves, for a mouth-watering combination of flavors and textures.

Vegetable Stir-Fry is an easy skillet dish to make in minutes. To stir-fry, cook vegetables, sliced to uniform thickness, in a small amount of hot, melted margarine. Use either a wok or skillet, stirring constantly until crisp and tender. This method of cooking retains the bright colors and crisp texture of fresh vegetables. The unique addition to this recipe is sesame-coated cream cheese cubes, providing eye and taste-appeal.

STUFFED SQUASH

- | | |
|---|------------------------------------|
| 1/4 cup slivered almonds | 1/2 cup water chestnuts, sliced |
| 1 tablespoon Parkay margarine | 1/2 teaspoon lemon juice |
| 1 8-oz. pkg. Philadelphia Brand cream cheese, cubed | 1/2 teaspoon ginger |
| 3/4 cup milk | 1/2 teaspoon dry mustard |
| 1 10-oz. pkg. frozen cut green beans, cooked, drained | 1/2 teaspoon salt |
| | 2 acorn squash, cut in half, baked |

In saucepan, sauté nuts in margarine until lightly browned. Add cream cheese and milk; stir over low heat until cream cheese is melted. Stir in remaining ingredients except squash; heat thoroughly. Spoon vegetable mixture into hot baked squash.

4 servings

VEGETABLE STIR-FRY

- | | |
|-------------------------------------|---|
| 2 cups diagonally cut carrot slices | Dash of pepper |
| 2 cups diagonally cut celery slices | 1 8-oz. pkg. Philadelphia Brand cream cheese, cubed |
| 3/4 cup thin green pepper strips | 1/4 cup sesame seeds, toasted |
| 2 tablespoons Parkay margarine | 1/4 teaspoon salt |

Stir-fry vegetables in margarine until crisp-tender. Add seasonings; mix lightly. Remove from heat. Coat cream cheese cubes with sesame seeds. Add to vegetables; mix lightly.

6 to 8 servings

These are only two of the more than 275 recipes offered in The Philadelphia Brand Cream Cheese Cookbook. It contains both time-honored "classics" and completely new recipe ideas for today's cook.

The cookbook is available to cream cheese fans, by sending \$3.95 in check or money order (no stamps or cash) and two proofs-of-purchase (two UPC symbols cut from the back panels of 8-oz. Philadelphia Brand cream cheese packages) to: 100th Anniversary Philly Cookbook Offer, P.O. Box 851, Dept. P South Holland, Illinois 60473. Enclose name, address and zip code, and allow 4 to 6 weeks for delivery. This offer is good in U.S.A., its territories, and APO/FPO addresses only. Offer expires September 30, 1982.

FISH TALES

The top bass tournament lake during the first half of 1981 was Toledo Bend Reservoir on the Louisiana border. Statistics gathered from bass clubs across the state showed Toledo Bend was followed in order by Lakes Amistad, Bob Sandlin, Caddo Sam Rayburn, Fayette, Cedary Creek, Bastrop, Houston County and Falcon.

Our bass future is looking good. The little nursery pond has gotten so crowded with the growing fingerlings that the Inland Fisheries Project Leader, Joe Kraai, removed about 2000 of them

and put them into the lake a bit early. They were about 5-6" long. There were some pretty good sized ones in the nursery pond, and they stayed in there to have a better survival chance to get bigger. There were plenty of minnows in the nursery pond, so they aren't going hungry, but they were just too crowded to allow themselves room to get bigger.

Flip Breedlove called into report his fishing activities this past week. He caught a big old 7 1/2 lb. Northern Pike

and 5 black bass. The walleye are still biting too because he got two nice eating sized walleye. Phil Watson who was fishing with him caught two walleye as well.

The Moorings have gone to Lake Texoma to stripper fish. We nope their luck is better there than it has been here lately.

As fall comes into the air and as the fishing season winds down to a stand still, this column will find fewer and fewer fishy stories to write about. This tired old hip booter will close off this column for the winter. Unless someone has a really nice stringer or a good sized catch, this is it for the winter. Fish Tales Column in Hibernation.....

FRUIT 'N CORN MUFFINS for an Autumn Breakfast

What sounds better on a frosty fall morning than warm muffins, fresh from the oven?

While muffins began as an old English tea-cake, today in the U.S. they're a popular breakfast item. This recipe for Fruit 'N Corn Muffins, from the Kraft Kitchens, combines a number of breakfast-related ingredients like eggs, orange marmalade and applesauce into a flour and cornmeal dough. The result—a flavorful, quick-to-eat morning snack.

If there's no time to bake in the morning, make the muffins the night before or over the weekend and freeze. Reheat them in the oven just before serving.

When serving, remember muffins should never be cut, but pulled apart and spread with margarine or marmalade if desired. What isn't finished at breakfast can be eaten as a mid-morning snack.

FRUIT 'N CORN MUFFINS

- | | |
|---------------------------|----------------------------------|
| 2 cups flour | 1 cup milk |
| 2 tablespoons sugar | 2 eggs, beaten |
| 4 teaspoons baking powder | 1/2 cup applesauce |
| 1 teaspoon salt | 1/4 cup Parkay margarine, melted |
| 1/2 cup cornmeal | Kraft orange marmalade |

Combine dry ingredients. Add combined milk, eggs, applesauce and margarine; mix just until moistened. Spoon into well greased medium size muffin pan, filling each cup 2/3 full. Slightly indent center of each muffin. Top each muffin with 1 teaspoon marmalade. Bake at 425° 20 to 25 minutes or until golden brown.

12 muffins

Meet the Bull Dogs

BY BOBBI DEMBOWSKI

Clarendon—every week we will be introducing a male and female Bulldog basketball player to the public. This weeks player's are George Milhouse and Cassandra Crompton.

George Milhouse is a 6'4 1/2" sophomore from Selma, Alabama. George attended Southside high school, where he was a three year starter.

George averaged 10.7 points and had 12.0 rebounds per game. He recieved the most valuable player award for Southside his senior year and was in the high school All-American Athlete magazine.

This will be George's second year at Clarendon College. Last year he aver-

For a sweeter smelling closet, hang an old nylon stocking filled with cedar chips. This also serves as a moth repellent

George is an excellent athlete," commented Coach Adams, "his jumping ability and over-all quickness will make him a real treat inside this year."

George is a very hy-type person and displays cool leadership on and off the courts. If he continues to work hard he will be one of the better players in the conference this year.

Cassandra Crompton is a 5'11" sophomore from Orrville, Alabama. Cassandra, called "CC" by her teammates and friends, played for Kieth High School and was also a three year starter.

CC averaged 23.1 points and 14.8 rebounds her senior year. She helped lead her team to finish second place in the state tournament her senior year. CC was named to the first All State Team and a parade All-American.

This will be Cassandra's second year at Clarendon College. Her reason's for coming back this year are simply, "I think that Clarendon College is the ideal place for a student to come and get two years of quality education, the friendly atmosphere here plays an important part, especially good for students that are far away from home."

Cassandra averaged 15.8 points, 11.1 rebounds and shoot 81.4 percent from the foul line, leading the conference. "We feel that Cassandra's going to give us good outside strength because of her great perimeter shooting," said Women's Basketball Coach Joe Mondragon. "With her superior jumping ability and because of our added strength and size, this will enable CC to crash the boards from the outside."

As of George Milhouse, Cassandra's greatest assets are her leadership qualities both on and off the court.

Craft Decorates Library

Chris Craft, a former kindergarten and first grade teacher, has had the distinction of being Clarendon's library decorator since the grand opening. She decorated the dark walls with her clever characters and slogans in time for the opening celebrations.

Now that Halloween and Autumn are upon us, Chris has brought her new seasonal decorations down and is doing the place up in pumpkins, cats, roosters, scarecrows, and other spooky type decorations for the walls.

Chris is now living at home with her parents, Patty and Bill Craft until her forthcoming wedding. Thanks to Chris for the effort and concern. Bring those kids down and take a look!!

On November 24 the 1982 Study Club at Memphis will be sponsoring an Arts, Crafts and Foods Fair at the Community Center in Memphis.

They would like to invite clubs and individuals from the surrounding cities to come and participate. This will also be an excellent opportunity to catch up on your holiday shopping.

The 1580 Auto-Cook makes you a microwave expert on the first try! Just touch a button. The display panel asks you a few simple questions. What you're cooking. How much you're cooking. And how you'd like it done. Then Auto-Cook calculates time and temperature. So you get great results without a great fuss. Only Litton's amazing Auto-Cook makes it that simple.

Get a \$50 rebate direct from Litton on the new Litton-Aire™.

The Litton-Aire saves you counterspace because it fits above your range. It has an exhaust vent and stove-top light. Plus Litton's exclusive

Nobody knows more about microwave cooking than Litton.

Meal-In-One® cooking system. With two sources of microwave distribution. So it cooks evenly whether you're cooking a roast or custard, several dishes or just one. Now you can save space without settling for less than a Litton.

News from Troop 33

The Atomic Energy Merit Badge will start this Saturday, October 10th. The boys taking the course will meet at the First Christian Church at 6:15 a.m. and go by car to Amarillo. The course will run for four Saturdays.

Saturday, October 17th will be work day for men of Troop 433 to try to finish tearing down the house across from the Church of Christ. This material will be used to build our new Scout

House.
Saturday, October 24 will be the Annual Order of the Arrow Banquet. Please contact Donny Garman if you plan on attending.

New Scout of the Week is Nugget Bland, Troop 33 is still going to the lake for a cook out, the new scouts are to work on their cooking skill award. Jeffery Henson and Jay Gage have completed their Cooking Skill Award.

Bronc Buster

BY DIANE HAVENS AND SALA LEFFEW

Hello out in Bronco Land! The Broncos are 5-0 now with a 30-14 win over Childress. Keep up the good work Broncos!!

Annuals are on sale from now until October 15. Salesmen Dianne Havens, Shalane Chamberlain, Tammy White and Kay Bell

J.V. plays Memphis here at 7:30, Thursday night. Friday night is open, so the Mighty Broncos get to rest.

The Maranathas organization is selling candy. Candy bars are \$1 and chocolate covered almonds is \$1.25.

September teacher of the

Month is Coach Rutledge.

The Jr. class is selling magazines, tapes and records in order to raise money for the Jr.-Sr. Prom. Please give them your support.

F.T.A-er of the Month will be elected next week.

And now for some gossip. Karen K-Dale Evans Sulynn A-make like a tree-leaf!

Kay B-did that "hit-and-run" bass drum break your elbow?

Tami S-you were SO embarrassed?

Pat R. did he buy one just because YOU asked?

Karen K-Potty mouth!

Troop III News

Phillip Andrew

BY CRYSTAL HAVENS

Oct. 1, Troop 111 met, Audra Hoggard called the roll, all fifteen girls were present. Jill Kidd collected the dues. We did not get to go to the Wild life Reserve this week, so will go on some Saturday.

We had cupcakes and punch for refreshments. The cupcakes we got to frost and decorate by ourselves.

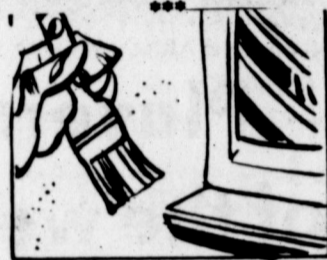

After cleaning up the Scout room, we played games and sang outside.

Sheriff's Report

9-28-Assault-forced entry. 9-28 Minor in possession. 9-28-DWI. 9-29 DWI. 9-29-theft by check. 10-1-2 drunks. 10-5-1 Drunk. 10-5-5 DWI. 10-5-1 DWI and DWLS

ARRESTS

OFFENSES
3 Indictments, returned by Grand Jury. 1 for theft. 1 for theft. 1 for theft over \$10,000 2 tried and convicted. Dave Johnson -8 years probation, \$4,208 restitution of court costs. Shane White-2 years probation, \$600 fine.

Before painting windows, remove hard-to-get dirt from corners with an old paint brush and soapy water.

PUBLIC NOTICE

Pursuant to TEX. REV. CIV. STAT. ANN. art. 1446c §43(1975), Lone Star Gas Company hereby gives NOTICE of the Company's intent to implement a new schedule of rates effective on the latter of October 23, 1981

or such other date as new rates become effective in the City of Clarendon

to be charged for natural gas service to residential and commercial customers in the environs areas (outside incorporated limits of Clarendon, Texas)

The rate schedule is expected to furnish a 10.92 % increase in the Company's gross revenues in the environs of Clarendon, Texas

A Statement of Intent has been filed with the Railroad Commission of Texas and is available for inspection at the Company's business office located at 315-A S. Kearney, Clarendon, Texas

Any affected person desiring to contest such changes in rates can file a complaint with the Director of the Gas Utilities Division, Railroad Commission of Texas, P. O. Drawer 12967, Capitol Station, Austin, Texas, 78711.

MEDICAL CENTER STAFF MEMBERS: (l to r) Vera Johnson, Sue Leeper, Billy Kay Johnston and MR. AND MRS. BERT STONE. Bert was born in Rowe.

Medical Center retains superior status

Dr. Cesar M. Elizondo, M.D., Chief, Bureau of Long Term Care Division of the Texas Department of Health has recently notified Billy Ray Johnston, Administrator of Medical Center Nursing Home, that for the third year in succession the facility had retained the rating of "Superior Facility". Dr. Elizondo was very complimentary and expressed his congratulations to the administrator, and staff for a very remarkable achievement. Johnston, expressed his appreciation to the staff of Medical Center for a job well done as is evident of the superior rating.

Department heads of Medical Center are: Sue Leeper, director of nursing, Lee Welch, food service supervisor, Larry White, director of sanitation and environmental quality control and Vera

Johnson, activity director.

The office staff consist of Opal James and Connie Robinson are also to be commended by the excellent job they do in records department and running the office, Johnston said.

Each employee can feel justly proud of the job that is being done at Medical Center.

Medical Center is known all over the panhandle and northern part of Texas for the type facility that it is. This is evident by the calls received by Johnston from families calling to put their family members on the waiting list.

Donley County residents can be proud to have this facility in the county for the use of county residents. Johnston extends a welcome to each interested individual who would like to come and visit or tour the facility at any time.

Hedley Lioness Club met

On last Thursday evening, ten members of the Hedley Lioness Club met in the Hedley Lion's Den for their monthly meeting. There were also two visitors, Pauline Kaufman and Dorthea Crawford.

President Patty Springer called the meeting to order, a pledge of allegiance to the flag was given and a benediction was offered over the food.

Members enjoyed a tuna and noodle casserole, tossed salad, sliced tomatoes, stuffed zucchini, apple crisp, with cheese and tea.

When the Lioness Club float participated in the Hall County parade last weekend, it sustained some damage. The "L" fell off and the rear wheel assembly was rendered useless. The float barely made it through the parade with this wheel damage. On the way home, at a meager 5 mph, the "L" vibrated loose. Some of the cotton will also need to be replaced. Since the chassis was rather old, a new 1968 chassis was donated by Ogren Garage for their generous offer of aid to the Hedley Lioness Club.

Events for the upcoming Cotton Festival were reviewed. The Lioness Club will sell pie slices at 75c a slice or \$4.50 a whole pie. The Club's fund is in excellent shape for this time of the year.

Those members attending were: Mahdeene DeBord, Katie Dvorak, Betty Gilchrist, Mildred Clendennen, Zora Stephens, Louise Stewart, Patty Springer, Evelyn Messer, Sue Weatherly, and Betty Williams.

There will be a program presented by Mrs. Molita Greer on Girlsstown, USA next meeting. Visitors are encouraged to attend this informative program.

Les Beaux Arts Club met

The Les Beaux Arts Club met October 2 at 3 p.m. in the Patching Memorial Club House. The president Bobbie Thornberry opened the meeting with the club-collect. The role was called and the secretary and treasurer reports heard. Helen Phelps who is Chairman of the fund-raising committee reported plans for a sale of trinkets and treasures to be held next spring.

Plans for the Dec. 5 meeting which will be a joint affair with the Book Club and Pathfinder Club. This will be a fund-raising event with Lee Nowlin of Plainview doing a program on hats. Linda Kay Bell was elected to membership in the club.

Mr. Branigan of Memphis was unable to do his program on antique clocks at that time but he will present it at the November meeting.

Refreshments were served from a beautifully decorated table that featured a fall theme. Hostesses were: Elmonette Bivens, Vera Lewis and Bobbie Thornberry.

Those present were: Betty Boston, Mary Bray, Thelma Clements, Maxine Henson, Vera Lewis, Helen Phelps, Cennet Rhode, Ruth Robinson, Polly Sarich, Gladys Sawyer, Lucy Saye, Bobbie Thornberry, Mary Thornberry, Ruth Hancock, Virginia Browder and Elmonette Bivens.

NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble.

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals, call for in depth consultation in Layman's terms.

Championship. This is a pull-together by players, coaches, students and a town to be in the group 32 team in our conference to win the district and then strive to always win the State Championship!

Our district is rated exceptionally strong and so far it has proven just that. It has a record of 21-6 against season foes. It is going to be a tight race every week. Any of the 6 can beat each other because of the fine coaching staff in our District.

Players of the week

Offensive players

This week, because of the exceptional game against Childress, we have the entire offensive line featured. Those players are: Brian Hill, Mark McAnear, Ken Dorris, Jeff Helms, Brad McGuire. They opened holes in the Childress defense so as to average 8.7 yards per play.

BILLY PERRY

Defense Player

Billy Perry, Center in uniform #50, weighing 177, Sr. is the featured defense player. He had 8 unassisted and 7 assisted and caused a fumble. In general, he had his best game against a good center.

Success

Pro News, channel 7 was on hand to film the field inspection. County Agent Gooch had a difficult time trying to locate two brave farmers to speak before the camera. These men will battle the elements, fight overwhelming odds against nature, handle dangerous equipment, but will quell before a little microphone.

Carl Patrick, the entomologist from the Extension Center in Amarillo remarked that the aphids did hit us rather early this year and stayed. This posed a problem for the area farmers for an unusual battle. The aphids are not that frequently a major problem. Then the Boll Worm infestation really cut into profits of the cotton farmer this year.

The buses headed west and kept going until they reached the David McAnear farm west of Ashtola. David used a circular irrigation system. He watered four circles, two passes each time for a 6" watering of 1 1/2" water each time around.

Patrick did remark that it is imperative to get enough chemical mix per gallon to effectively spray for boll worms so that the spray will hit the bottom of the plants as well. If the spray isn't the optimum amount, the result is that all of the beneficial insects are killed while the damaging insects remains alive.

David had 2 & 1 skip row, in 12 row plots, the field had a nitrogen fertilizer carry over and sprayed for boll worms on August 28, the Friday after they hit. He had a 100% infestation. The following Monday they checked for worms and discovered that only the boll worms in the top 1/4 of the plants had been killed, the bottom still had a 25% infestation of worms that caused some damage to the lower bolls.

Pyrethroid insecticides are the recommended type, according to Patrick. It is more expensive, however, than other types of spray. Gooch has guide lines at his office to help you check your own cotton for insect infestations and he will be able to advise on the procedures to take.

James Supak, the Cotton Agronomist spoke at this point to discuss some of the varieties planted. TAMCOT SP37H is a more disease and insect resistant variety that compares to SP21, the hairless type which is better suited for the Lubbock areas than up here. SP 37 is an early variety, SP21 has more late blooms. SP37H has both the better tolerance and is an early variety.

Patrick mentioned that the boll worms had hit up north of us before we had them here, a rather unusual circumstance. They had made three applications on their cotton before we had to hit them once.

CASCOT B-2 is the fastest cotton in the test. It comes out of the SP material so has many of their characteristics. It is a shorter plant with a weak center stalk so it tends to lay down. Planted in dry land, it will cut out. It is designed for irrigation and is a late planting variety. This cotton had already made a boll load. It is not very disease resistant, just fast.

Using oil instead of water to boll worm spraying will get better coverage and use less chemical. The applicator, however, must be experienced in doing this. Cotton seed oil derivatives are used to mix with the insecticide.

CASCOT L-7 is related to the SP21 and 37 varieties. The only difference as explained by Supak is that it doesn't tend to have the same degree of redding of the leaves as the other varieties.

The tour returned to Clarendon to the Donley County COOP Gin for coffee, cokes and donuts. A special thanks to the Paymaster Gin in Lelia Lake and to the Donley County CO-OP Gin in Clarendon for always furnishing these tours with refreshments and support.

Paymaster 404 is a replacement for the 303 line because the 303 tended to cut out in dry years. This is a looser boll, more top blooms and a later variety. It does promise more yield potential.

The J.G. McAnear farm was next viewed. He had two row plantings and this is only the second year to plant this particular plot. J.G. sprayed August 28 for boll worms with pretty good success. He pre-watered the plot and watered again in mid July. Gooch pointed to some ranker cotton on the north end of the field and remarked, "There are some spots where the sun hasn't hit the ground since the early part of August."

TAMSCOT SP37 is not much different from the SP-37H. It is more insect tolerant than SP37.

GSA 78 was a variety found in this McAnear plot not found in the David McAnear plot. It is a better wilt resistant variety and a good type for around here.

COKER 5110 is really a Delta type cotton that is later maturing and is indeterminate. It does have superior fiber, a loose boll and works well in dry land. It should be planted further south because it could get caught with an early frost.

Paymaster 145 and Paymaster 792 were also planted. 792 is a very fast cotton. It was pretty well opened and starting re-growth already.

The agronomist remarked that this field of cotton was too green for this time of the year, probably due to a high nitrogen content. This is one aspect that could be controlled with the fertility program at the first of the year.

The Ronnie McAnear farm was next. His cotton was planted early and had already begun to mature to the red coloring. He irrigated two times and sprayed August 27 for worms. He had a 50% kill so resprayed Sept. 3. His cotton was open so much that Supak recommended that he kill early to get it out to prevent stringing of the fiber and stain to the cotton. A rain now could bring the quality of the cotton down.

COKER 312 is an early maturity with more open bolls than the 5110. It is similar to the Paymaster 404 in maturity. It is loose balled and that presents a risk in that it is more susceptible to storm damage.

When to kill the cotton is determined on the percentage of bolls open. If 85% of them are open, it is a good idea to begin to kill at that point. If the terminal is gone and the bolls hard and firm, go ahead with a 75% open bolls to kill.

GSA 71 is a good variety for the high and rolling plains. It is a later variety than either the SP or Paymaster varieties, and it is not very disease resistant. This variety, however, is doomed for further production.

The desiccants used to kill are Paraquat or Arsenic Acid. They are virtually "goof proof" and is easier to work with. Because it causes some defoliation, it helps prevent leaves in the cotton which will improve the quality taken to the gin.

LOCKETT 77 is from the SP stock. It is loose balled, good for the rolling plains. Pioneer has taken this strain and reworked it. It is a tight boll and will have good fiber. The 77 will probably be phased out, however.

However, acid production is tight this year. It won't be clear so the farmer that uses a row sprayer will have to strain the acid before application to prevent clogging of the nozzle tips. It was recommended to start with 1 to 1 1/2 quarts of acid or 1 to 1 1/2 pints Paraquat, then if that works, to graduate down instead of starting low and working up.

D & PL SR-4 is a very early variety of Delta stock. It competes well with the SP types and is a very good yielder. Wilt was discovered in some of the varieties not known for wilt resistance. The other plants didn't evidence this problem. To discover if the damage is in fact, wilt, cut down into the woody portion of the stalk and look for a darkening of the fiber. Rotation in variety will help "cure" the wilt problem. SR-4 has little wilt tolerance.

Bernie Green was the last plot visited. He planted in May but hail and sand removed the seed, so he had to replant in June. Green has a bad blowing problem, so he has taken excellent conservation measures against blowing by planting rye in with the cotton, when the cotton comes off, there will be rye to hold the soil down, also the rye will give the soil much

SP-21 is a top yielding variety, more growth and not as determinate. It is more sensitive to its environmental changes and will show red coloring quicker.

needed nitrogen return. Green irrigated two times and sprayed for worms with a good result. There were some areas in the field where water stood for awhile, giving some of the cotton a yellow look.

Mr. and Mrs. Bert Stone

Gooch remarked, "The McAnears don't have a monopoly on this experimental plot program, you know. We would like to scatter these plots around and get some in dry land cotton. If you would be interested in cooperating in this kind of program, contact me at my office."

Since much valuable information comes from these test types, and because it is of great benefit to you individually, it would be a good idea to get in touch with the County Agent for next year's cotton tour.

Cotton farmers need to see how different varieties of seed work in their soil, their area, their type of irrigation or dry land farming. It is too costly to have it experimented in their fields, so these experimental plots are a good way to find that new seed variety that will suit the individual farmers needs.

The best type of cotton for most farmers around here is a storm, insect, disease resistant variety with tight bolls. It is a good idea to plant two or three varieties as insurance. However, with the high cost of seed, it helps to see and hear how a variety works before using it.

Contact Ronald Gooch and offer part of your field for these

Hints For Homeowners

Fiber Glass Shingles Are Fire Resistant

If your home needs a new roof, shingles made with fiber glass instead of a felt-base offer you some interesting advantages.

Fiber glass shingles are relatively new in the roofing market, having been introduced commercially only seven years ago. Since then, they have gained a 13 percent share of the market, and by 1984 some industry experts expect that share to grow to around 40 percent.

Fiber glass shingles carry Class A fire ratings and warranties averaging 20 years, according to experts at PPG Industries, a major manufacturer of fiber glass. In comparison, conventional felt-based shingles are fire-rated as Class C and carry lesser warranties averaging 15 years.

Fiber glass shingles were first introduced on the West Coast in response to homeowners' need for a fire-resistant shingle in areas where large brush fires are commonplace. The fiber glass mat that makes up the internal composition of the shingle also prevents moisture saturation, warping, curling, shrinking and stretching.

Fiber glass shingles are made with 30 percent less asphalt—an expensive oil derivative. In addition a time-consuming presaturation step is bypassed in the manufacturing process, which also saves on production costs.

The proportions of some homes are enhanced by a roof of contrasting color. For example, a two-story home with light siding can be set off with a dark roof, as well as dark shutters. When the time comes to put a new roof over your head, PPG experts say shingles made of fiber glass give the best performance at the best price.

JERRY MORRIS shows off his dad's shotgun won in Lions Club contest. His mother bought only ten tickets so her husband could have something he really wanted for Christmas. Congratulations to both Morris boys for a nice prize!

WE ARE ENJOYING A WHOLE LOT OF A GOOD THING

For many years now, most of us have taken a plentiful supply of electricity for granted. We've found more and more uses for electricity, because, as Reddy Kilowatt kept telling us:

- Electricity is Reliable
- Electricity is Clean
- Electricity is Efficient
- Electricity is Quiet
- Electricity is Flexible and
- Electricity is Low in Price

Electricity is still all of these things... even low in price compared to other goods and services. But there's no escaping the fact that costs of supplying it are constantly going up... and so is usage.

People in WTU territory are using more electricity than ever before (9,020 kilowatt-hours per residential customer in 1980, compared to 5,856 in 1970).

With the demand for its product steadily increasing, WTU can't stand still. It must grow, too.

The growth is carefully planned, with the customer's welfare foremost in mind. WTU is considering only the necessities. But to keep giving the kind of service you're used to, we're going to be involved in some costly updating of production, transmission and distribution facilities. And, of course, we must maintain a staff of people qualified to keep the system operating. You can depend on WTU to continue providing a reliable supply of electricity. But let's all realize what it takes to produce it, and use it wisely. It's too good to take for granted.

Reddy Supplies the Energy... But Only You Can Use It Wisely.

OSBURN FURNITURE & APPLIANCES

BUELAH & REDELL SANDERS 1920

B. H. Wall family

B.H. and Mary Wall brought their huge family of seven in a covered wagon from Marlow, Oklahoma to Rowe in 1908. The youngsters were Edgar, Amos, Jewel, Leonard, Beulah, Jake, and Bob. They traveled with friends of the family, the Couch family who had two children. The Couch's moved down the road to Clarendon where they started the Couch Cafe.

After arriving in Rowe, Mr. Wall worked for Uncle Nat Smith running his farming operations. Wall decided that Rowe was not going to grow, because it was too close to the bigger town of Clarendon. After five years in Rowe, they moved down the road about a mile to the new town of Hedley, a new upstart in the area.

By this time, all that remained of Rowe was a Post Office, a few stores, a Baptist Church and a few houses.

Some of the remaining residents of Rowe at that time were the Prestiks, Scaffs, Mosleys, and the Rains.

Mary Wall died in 1912 and was buried in the Rowe Cemetery.

Beulah recalls that Uncle Nate Smith lived with the family for awhile when he sold his store and he kept some of the merchandise in the Wall's cellar. Beulah and one of her brothers, Hobart Moffitt and his sister Ruby and some of the other children in the neighborhood would love to go down into the cellar and steal canned peaches and the likes. Beulah said, "One of the fun things we did was the boys would get cinnamon sticks and play like they were cigars and they were smoking them, while us girls mixed sugar with powdered cinnamon and played like we were dipping snuff."

Beulah Wall moved to Paducah after her mother died, to live with her brother Bob. While there she attended Paducah schools in 1913 and 1914. Afterwards, she returned to Hedley to live with her sister Jewel and her husband. While living with Jewel's family Beulah met Albert Sanders. She and Albert were married when Beulah was 18 years old.

Albert and Beulah were married in Hedley and then Albert went to work for the Rowe Ranch and stayed with them for 25 years. He worked at the home range at Rowe headquarters. They

moved in 1929 to Spur, Texas. The Rowe Ranch had leased the Swenson Ranch and moved part of their ranch operations to Spur, so Sanders was part of that move.

The Sanders had three sons. Redell Sanders was the oldest and attended school in Alandeed and Spur.

He married Elizabeth Zigler who lived in the Goldston Community. They now live in Tulia, where Redell works for the Tulia Auto Parts. The Redell Sanders have three children, Jimmy, Mary Dell, and Jack.

The next son was Bill Sanders. He attended school in Spur, Alanreed and finally graduated from Quail High School. He married Rosalie Norman and they now live in Borger where he is a civil engineer for Phillips Petroleum Co. They have two children, Shila who is married and has two sons, Danny and Gene. Sean Sanders goes to college at WTSU in Canyon. The third son, Gene, married Malba Edwards and they live in Dimmitt and have three daughters, Lisa, Renee, and Melody. Lisa and Renee both live in Childress, where Lisa works at the Childress Hospital and Renee attends Childress High School. Melody lives with her parents in Dimmitt.

Albert Sanders died in 1970 and was buried in the Rowe Cemetery. Mrs. Sanders remarried D.K. Hall in 1975. The Halls are still residents of Hedley.

Brown 'n serve rolls owe their beginnings to a volunteer fireman. Answering a fire call, he pulled his half-baked rolls out of the oven. After later baking they proved to be delicious. The rest is history.

RIP-OFF DRUGS

There is increasing concern by consumers, physicians, pharmacists, and legislators about the sale and use of the so-called legal stimulants...also referred to as "Rip-off drugs". The "rip-off drugs" usually contain a combination of three ingredients: caffeine - as in tea, coffee, and colas; phenylpropanolamine - a decongestant found in nonprescription cold products; and ephedrine - an asthma medicine available without prescription.

The three-in-one products, however, are often manufactured to look very similar to the amphetamines and other controlled substances that...as street drugs...demand a high price. An individual may purchase one of the "rip-off drugs" believing that a controlled substance is being obtained.

Although several states are taking actions to control the distribution of the look-alikes, the products are still widely available. Mail order advertisements in magazines and newspapers promote the products as being legal, effective, and safe. But are these products really safe? A recent program aired on NBC television indicated that there have been at least 11 recent deaths believed to be related to use of the legal stimulants. Deaths may have been due to heart attack, stroke, or aneurysm.

Jerry Hodge

PHARMACISTS!

"More things than you than anything," my friend, Jane giggled after my narration of having a flat tire on the freeway and the hippie hitchhiker I had passed a mile back coming up to change my tire.

"Nope," I shrugged. "I'm fool enough to tell it, that's the only difference."

I knew better than to leave home looking like a reject from the Red Cross barrel, but my time was running short and I needed milk. Besides, who would see me at the little corner store? And I was feeling heady over my accomplishment for the day. The garage looked great for a change. I had carried enough

Good, there aren't many cars in front of the store, I thought as I drove up. I'll just zap in and out. A quick check in the rearview mirror revealed a few stray wads of hair which I tucked back under the scarf tied gypsy fashion around my head.

The store was full... must have been ten people per car. Well, I would retreat to the dairy case until they thinned out.

Fill-it. Fill-it. I jerked to attention as The Thing fluttered and crawled up my thigh. (Of course, inside my

CATRINA BURROW, daughter of Mr. and Mrs. Calvin Burrow, among their sweet potato patch. One potato weighed 8 lbs.

The milk splashed in the... "And Bob, if you tell this I'll tie a knot in your tongue, ground Tracy for a week and burn our telephone."

"Your hair looks so funny," he chuckled when I stuffed the scarf in my pocket.

I stumbled like a thief through a dark storage room, crashed over boxes and finally found the door. The moth flew out when I did, and I hiked hurriedly through the alley and around to the front.

The preacher leaned casually against my car fender. He and Bonnie were having a friendly chit-chat with Jane. "You've met Jean, haven't you Bonnie?" Jane gave my a curious once over. "What happened to you, pal? You look like the canoe tipped over."

"Well," I said, "you're not going to believe this, but..."

Whoever said Jaws was a shark?

W. P. (Red) Doherty and grandson Scott.

Red Doherty - the fruit king of Donley County

C.F. Doherty, his two sons Coyte and Orvilla came to Rowe, Texas in September, 1905 in an immigrant car, (a box car, hooked onto the train,) with all their household furnishings, chickens, pigs, livestock along with the people all riding in one box car. Mrs. Minnie Doherty and the other children, Agnes, Ruth, and Jack, and Ray, arrived at Rowe,

Thanksgiving day, 1905. The Methodist women were having a Thanksgiving dinner at the church and invited the Doherty family to have dinner with them. Mrs. Doherty, tired from her long trip found this to be a friendly place to live.

Blaine and W.P. (Red) Doherty were born after the family arrived in Rowe. C.F. Doherty purchased some

land about 5 miles Northeast of Hedley in the spring of 1905 and moved his family.

Orvilla, farmed a little, but he liked to travel so he joined a circus and worked here and there, where ever his travels took him. He joined the army in WW I and went to France. He never married, died in 1952, and is buried in Rowe Cemetery.

Coyte was in the army also in WW I, while serving in France he was gassed. He later married Ethel Stotts, they operated a cafe and grocery store in Hedley for

CLARENDON PRESS and The Donley County Leader, published every Thursday at Clarendon, Texas, 79226, Box 1110, at Highway 287 and Jefferson Street and entered as Second Class Mail at the post office at Clarendon, Texas.

J.C. and Helen Woody publishers and Katie Dvorak, Editor.

Subscription rates: \$10.00 a year outside Donley County \$8.00 a year in Donley County.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

land was located in Rowe Cemetery.

Agnes passed away at the age of 18, she was buried in Rowe Cemetery.

Ray served in the Navy in WW I. He married Lellia Beall, they had two daughters, Peggy and Camilla. Peggy has one son Mark, both families live in Amarillo, Texas. Ray passed away in 1945.

Ruth married Paul Kirkpatrick, after they married, they farmed for just a little while, then moved to Borger where he is a pipefitter.

Jack served in the Navy in WW II. He married and has one daughter, Patsy Ruth. He now lives in Odessa where he is a retired oil driller.

Blaine served in the Navy in WW II, he married and has one daughter, Sandra. Blaine passed away in 1964.

W.P. (Red) Doherty was born in Rowe two years before Hedley was organized. After his father drilled a well and improved their farm, the family lived 5 miles south of Hedley for many years.

Red married Della Durham in 1929 in Vernon, Texas. They married Thanksgiving day, in the basement of the Vernon Courthouse by a blind justice of the peace with 2 sheriffs deputies as witnesses. Red said, "I didn't kiss my bride, after the ceremony, but waited until we got out into the hall, before I kissed her, then I saw both deputies looking around the corner watching us."

The next year, 1931, was the beginning of the depression. The dust was so bad, you could hardly breathe. There was no money to be had, they raised all their food. They planted a garden, grew and canned their own vegetables, Red said "The pressure cooker was the greatest invention ever invented." They grew their own corn to make cornbread, raised their own hogs for ham. "The ham you get these days, don't even come close to tasting like ham did in those days." Red said They raised their own

fruit stands for the night, and had plenty of milk and eggs, while they had their pigs sold to the town. After their first year, the Doherty family began to gain on the depression, and each year, they gained over the last year.

One day the Doherty's conceived the idea that the land around Hedley would make an excellent orchard, (1936). The first orchard they planted was on raw land, which had no water on 1/4 section of land he inherited. They planted about 30 trees. The best way to plant peach trees is when they are about 2-3 feet high, they not only cost less, but it is easier to get them to grow. It takes the trees about three years before you can have peaches from them. Each year, they began to plant a little more trees, of all kinds. In 1944 they planted 2300 trees, which made them about 2500-3000 trees.

They sold fruit to the public, but they lived too far out, for many individuals to come by. But they hauled their fruit to Amarillo, where they sold it to big producer outlets, chain stores, such as Ideals, Safeways, and many other of the large supermarkets in the Panhandle area. They did this for 15 years. Later they purchased about 25 acres on Highway 287 just outside the east end of Hedley, and planted about half of it in the fruit trees. They then built a small fruit stand, which stops multitudes of people traveling up and down Highway 287, which is considered the second busiest interstate highway in the state of Texas. They had to build onto this stand twice.

Several years ago, Red bought some land half way between Hedley and Lelia Lake, and planted 35 acres of orchard. He planted his orchard and built another fruit stand which also did a booming business. Three years ago he sold that orchard to Neil Scott of Amarillo.

Red now lives in Hedley with his grandson Scott, 17, a senior at Hedley High School and his granddaughter and

While working at the fruit stand one afternoon, a van stopped, and a couple from Houston entered. After a long conversation, a few letters and telephone calls, the couple invited Red to come visit them in Holland as their guest.

He finally made the trip and spent 8 days with them, and they entertained him royally, taking him on many sight-seeing trips all over Europe. They have also made one trip back to Hedley to visit with Red. He has made many friends with customers thru the years who have stopped to purchase his fruit grown in the orchard close to the fruit stands he has owned.

The Mosley Family Come to Hedley 1905

In 1905 the Alia and Milton Mosley families moved to Rowe. They farmed there until Rowe moved to Hedley, then they migrated that mile down the road as well.

They had four children, Vestal who had two daughters and a son and lived in Pampa until he passed away. Ruby who later married Bill Bromley and had two children; Winfield who stayed in Hedley, he also had a son

and a daughter; and Raymond Mosley who had two sons and a daughter and lived in Amarillo.

Ruby married Bill Bromley in 1925 and had two children, Billy Milton (Pete) and Mary Ann (Rawley). "I grieved so because I didn't have a sister and had wanted two sons and two daughters, but get this

for balance, I have two children, a boy and a girl, three grandsons and three granddaughters; two great grandsons and two great-granddaughters," Ruby said with delight in her voice.

Ruby (Mosley) Bromley

Wild Wild West 1924 Style - man holding shot gun is Holbert Moffitt.

Moffit Hardware & Furniture - A Hedley tradition

W.L. (Bill) and Mary Moffit brought their family to Rowe in 1903. Little Hobart recalls riding a "coffee pot train" on that family exodus. Hobart was born in Angus, a

little town located 16 miles from Corsicana on November 28, 1897. But in 1905, the wanderlust struck again and the Moffitts, sister Ruby, brothers Tom and Robert,

and Hobart packed up and moved to Elida, New Mexico. They had sold their farm for \$12.00 an acre, a goodly sum in those days. Covered wagon bought the Moffit

But Hobart was the new kid shining star in that year of 1910. After three years in Rowe, the Moffit family moved again to Hollis, Oklahoma for a year then to Van Zandt, then to Corsicana in 1915. But in October of 1917, they made their way back to Hedley where they stayed for good.

Tom Moffit began to farm and stayed with that occupation until his death in 1963, in Hedley. Robert L. Moffit headed for Pampa, Borger, and Skelleytown in 1930 or so and spent his lifetime wandering between these areas. Sister Ruby married and moved to Atlanta Georgia. She did return to Hedley in her later years to help out with the Moffit Hardware store in 1977.

Hobart, however, married his little bride Pauline on December 23, 1923 and settled contentedly into the hardware business.

In 1918, Hobart began

Brother Hobart's store. At that time, he purchased the Morrison Hardware Co. and 1948 purchased the Thompson Brothers to combine the two stores into the current location of the Moffit Hardware and Furniture Store.

The building is essentially the same now as it was then, Hobart said. He gets to work at 8 a.m. and stays until 7 p.m. six days a week. When asked what he attributed his good humor, excellent memory and high level of efficiency to, Hobart chuckled his famous laugh and said, "Working and Geritol. How's that?"

Besides a drastic change in the type of hardware sold, "We used to carry buggy whips and wagons," Hobart recalls, "now we sell furniture and appliances," the method of making a profit on goods sold has changed. It used to be that goods were

manufacturers' suggested list price and the business man can't make as good a profit."

Changes in the business have not always agreed with Hobart. "I'm against nearly all of the changes that have come in this business," he chuckled. It is doubtful if Hobart every says anything without that elfin chuckle and twinkle in his eye.

With his beloved sister Ruby Beckler, Hobart will continue to provide excellent customer service to those in his area. If you don't see it, ask for it and if he doesn't have it, he'll get it. It is very difficult to find a harder working 84 year youngster.

The first jukebox was installed at the Palais Royale Saloon, San Francisco, on November 23, 1889. It consisted of an electrically operated Edison phonograph with four listening tubes, each controlled by a separate nickel-in-the-slot device.

The Facts

ANSWERS TO YOUR
QUESTIONS ABOUT THE

TAX FREE

ALL SAVERS CERTIFICATE

What is the purpose of the All Savers Certificate?

The All Savers Certificate has been created by Congress as an incentive to save. All the interest on this certificate within prescribed limits — is tax-excluded from your Federal Income Tax. Also, the All Savers legislation was enacted to help housing. It requires that the major portion of the new savings created by this certificate be used for residential and agricultural financing.

How much interest may I earn tax-free?

As the Law now reads, this is a once-in-a-lifetime opportunity to earn as much as \$2,000 in tax-free interest if you file jointly (\$1,000 for single returns). Any interest earned in excess of these sums is taxable.

What amount may I deposit?

The Tax Act of 1981 stipulates that All Savers Certificates must be made available for a deposit of \$500. However, regulations permit deposits in other amounts. Ask us for complete information.

May I add to my certificate?

No, you are not allowed to add to any existing certificate. Each certificate is issued for one year. You may, however, purchase additional certificates.

What will my annual effective yield be?

Your certificate will have an annual investment yield to maturity equal to 70% of the average investment yield on 52-week Treasury Bills as of the most recent auction date. Thus, when the 52-week treasury rate is 18% your annual effective yield is 12.6% tax free! Treasury bills are auctioned every four weeks, so, check with us for the current rate. Also, discuss with us the maximum deposit that will still be completely free of taxes.

Is my interest rate fixed?

Yes. The rate in effect when you open your All Savers Certificate remains in effect for one year. You know exactly how much income you will receive. Your interest rate will not fluctuate.

May I convert from a 6-Month Certificate to an All Savers Certificate without penalty?

Yes. Regulations permit such a conversion provided the interest rate on the 6-Month Certificate is higher than that of the All Savers Certificate. The transfer must be initiated by the customer.

Is my certificate insured?

Yes. Ask us for specific insurance information.

May corporations or institutions take advantage of the tax-exempt feature?

No. Interest can be excluded from taxation only by individuals, partners or estates that receive certificates due to the buyer's death.

Are there any other reasons to invest in an All Savers Certificate?

Yes! Housing! The Tax Act requires that except for credit unions, 75% of the funds received from these certificates (or 75% of the net increase in new savings, whichever is less) be invested in residential or agricultural loans. Substantial deposits in these certificates could result in more money for those purposes — and lower loan charges. Everyone would benefit.

When may I open an account?

Any time from October 1, 1981 through December 31, 1982, inclusive. Your account will be in effect for one year from date of issue.

Will All Savers Certificates be issued after December 31, 1982?

Presently this is a one-time, lifetime tax exemption. However, the Tax Act instructs the Secretary of the Treasury to advise Congress before June 1, 1982 as to the effectiveness of these certificates in "generating additional savings". It is possible that this tax-free incentive to save will be extended.

How does the All Savers Certificate help me?

It means you, too, can now earn tax-free interest. This privilege, previously available only to those in a high tax bracket, is now offered to anyone who can set aside funds for one year. What is best, the new savings method reduces your taxes where it counts the most — at the top bracket of your income.

Can any interest earned on an All Savers Certificate in 1981 be included in the general interest and dividend exclusion of \$200 for single taxpayers and \$400 for joint returns?

No. The Tax Act specifies that no interest earned on an All Savers Certificate can be included in the \$200/\$400 exclusion, even if the interest is not tax exempt due to a premature redemption or disposition.

Will the All Savers Certificate help me if I own 6-Month Certificates?

More than likely, but it will depend on your income bracket and the current rates for both types

of certificates.

If you are in one of the higher tax brackets, you will usually get a much better net yield from an All Savers Certificate, but only up to the maximum interest limitation of \$2,000.

If your income falls into one of the lower brackets, you may be better off staying with 6-month certificates. The chart below provides a useful guide in helping you to a decision. Please come in to talk with us, and get all the facts. (It will be important to first look up the net taxable income you reported on last year's Federal income tax form.)

Will the All Savers Certificate help me if I own Money Market Mutual Fund Shares?

Again, more than likely. But, as in the previous comparison, it is necessary to check current rates for both forms of investment. After learning these rates, the decision will hinge on your top tax bracket. The higher your bracket, the more advantageous is the All Savers Certificate.

This comparison chart shows taxable interest yield required to match the All Savers Certificate tax-free rates.

Your Joint Taxable Income*	Your Maximum Tax Rate*	All-Savers Tax-Free Rates**								
		10.00%	10.50%	11.00%	11.50%	12.00%	12.50%	13.00%	13.50%	14.00%

*Joint Taxable Income is the net amount subject to Federal Income Tax after deductions and exemptions. Figures per 1982 Federal tax regulations.
**Annual Effective Yield.

If any portion of a certificate is redeemed, disposed of or used as collateral or security for a loan before maturity, the interest earned on that certificate is not tax-exempt. Also, the penalty for early withdrawal on a one-year certificate is loss of 3 months interest on the amount withdrawn.
