

Centennial Countdown - Donley County - First 100 years

Reprinted from The Clarendon News, Jan 2, 1963

What Can Be Done Stock Raising in Donley County.
Noting your request for statements of actual experience for your special edition, it occurs to me that I may be able to give you a short history of my Donley County experience that may prove interesting to some of your many readers and prospective citizens.
I moved to Donley County in 1888 and located at Giles, took up a school section of land and made my home on it. As soon as I could I started a stock farm on a small scale and this

venture proved to be the best paying business I have ever engaged in. In a few years my stock of cattle had increased in numbers until I was compelled to buy an additional section of land making my stock farm run up to an acreage of 1280. But four years after purchasing this second section the herd of cattle increased to such an extent that I had to make arrangements for more land or reduce the size of my herd of cattle. After seriously deliberating on the matter, I decided to sell the entire herd of cattle and invest in nothing but full-blood Herefords, and I soon made the change. I put the

proceeds received from 140 head of common cattle into 25 Hereford calves in 1899 and now my Hereford herd, known as "Giles Herefords," now number 52.
During my 14 years residence in Donley County, there have been 14 years of farming done on my ranch. Have never missed a crop. We raise Indian corn, millet, sorghum, and kaffir corn. I have a small orchard that produces as fine fruit as I have ever seen any where, and is not excelled by California fruits.

Larry Mabry New Bylow Manager

Larry Mabry hails from Dimmitt where he worked four years in the retail grocery business and 6½ years in the wholesale business. He is now manager of Bylow Grocery.

"There is smaller volume here, as it is a smaller store, of course," Mabry said, "but I can offer a more personalized service to the customer here than I could before." The grocery market Larry worked in at Dimmitt was a lot larger than Bylows.

Mabry plans to upgrade the equipment, particularly the produce equipment so that the produce will look and be fresher, last longer and maintain a higher quality of produce. "We get our produce from the warehouse, but if the local farmer has good prices, high quality produce in season, we will use it," Mabry said.

"If people shop Bylows, they can get a better bargain than anywhere else," Mabry said. "We will do the best job possible to help each person want to come in here and spend their dollars with us." "I'm not going to please everyone, but I'm going to do my best." Mabry said that this is to be his home from now on and that it is important to do the best job possible so that he will become a part of both the business world and community.

His wife, Kay, worked at a bank in Dimmitt. She is excited about living in Clarendon and feels that she and her family will settle down comfortably in this community. "Before we even got settled, the Church of Christ made us feel a part of things right away."

"My family was really behind me in making this change. They gave me real support and the whole change was a harmonious agreement," Larry remarked. His home is located across the street from the school and son Robert, age 9

can walk to classes. Robert was active in 4-H in Dimmitt and looks forward to getting settled in enough to join up here.

Little Rhonda, age 5, is in kindergarten and beginning to make new friends.

Clarendon welcomes the Mabry family into its business world and into the community. We are eager to watch the progress to be made at our neighborhood Bylow's Market.

Adobe Walls Council Drive kicks off

The Adobe Walls Council Boy Scout Fund Drive will be kicked off this month, Clyde Price the drive chairman said.

Price will be contacting businesses and individuals who support the Adobe Walls Council to ask for their contribution. Funds collected for this endeavor will go for the entire over-all Scouting program.

The money will be pooled to support all basic progresses in ranks awarded for Cub Scouts and Boy Scouts from Bobcat to Eagle, leader training and training equipment, providing for a full-time college trained staff member, and for transportation, recruiting Scouts, counseling, organizing and motivating the boys from their Cub years through Explorer programs.

This money also goes to support Camp MK Brown and other overnight camping activities sponsored by the Scouts.

Support for this drive helps the over-all council activities for both our Cub and Scouting groups.

The Volunteer Fire Department will also be helping collect funds for this drive.

BYLWS NEW MANAGER: Larry Mabry and wife Kay. Son Robert and daughter Rhonda.

Little Miss & Master Pageant

The "Happy Halloween" Little Miss & Master Donley County Pageant is all planned for October 24, 1981 at 7:30 p.m. in the Harned Sisters Fine Arts Center. There is going to be a lot of fun for the contestants and a lot of entertainment for the audience.

So if you haven't entered your child (4-6) in the

pageant, detailed entry forms can be picked up at Hensons, The Tumbleweed, Osburns, The Nook and Judy's Hair Design. Deadline for entry is October 17, 1981.

Everyone enter your child and plan to attend the pageant and have a "Happy Halloween" time.

RACHAEL CHAPMAN

DEBBIE CLUBB

New Hedley Cotton Queens

The new reigning Cotton Queen for 1981-82 is Debbie Clubb, daughter of Mr. and Mrs. Billy Clubb of Hedley and the new Little Miss Cotton is Rachael Chapman, daughter of Donna Chapman of Hedley.

SECURITY STATE BANK float won grand prize for outstanding float.

Parade Entrants Awarded

The Hedley Cotton Festival was another giant success this year. It had several out of town floats, not as many from Shamrock, and Memphis as usual because of the drizzle, but Clarendon showed a good turn out. The out of town floats that did place were Shields Fertilizer float sporting the cotton candy and little girls won first and the flower float from Leslie's Flowers from Memphis placed second.

Hedley Commercial floats that won first were the Security State Bank, always a good looking prize winner. Second place was the Bob Bell Insurance float.

Hedley Organizations that won first was the Quail Booster Club and second was the Baptist and Methodist Churches combined float.

Another category was decorated vehicles. The Clarendon College Drama Club won a first place with their active participation as the cast for "Deadwood Dick" paraded down the street in full costume. Second place was the Senior Citizens Club and a third place went to the 4-County Implement Co. from Memphis with their big old tractors and cute little wagon with the hobby horse pulling it.

Usually, there are two bands that compete in the parade. This year, Memphis didn't come so the Clarendon Junior High Band will receive either a trophy or cash for their excellent participation. Folks along the streets were glad of the sounds of drum cadences and of the march music the band provided for the parade. Hedley wished to express thanks to the Clarendon students who spent part of their Saturday to march in the parade.

There was not a horse entry prize given this year, but the Clarendon 4-H Horse Club looked like polished silver and did an outstanding performance for the crowd.

The judges chose as Grand Prize Float the Security State Bank "Money Tree That Cotton Grew."

The judges for this year's 30th Annual Hedley Cotton Festival Parade were Freddie Jo Moreman, Susie Kidd and

Lynn Cherry, the Lion's representative. Their's was not an easy job since so many of the entrees were so beautiful and colorful. The toughest job was the kiddie parade.

First place went to the

green go-cart, the cotton pickin' kids belonging to Jim & Judy Kidd. Second place went to the covered wagon belonging to Jeff & Dusty Wilkerson. Third place went to little Joshua Talley, a

loveable clown. The judges did an excellent job and should be commended and thanked for their work.

Shamrock first Conference game this season

All teams are undefeated, perfect records in this the "second season" of the year. District games are a new season. Pre-district games are preparation for the exciting part of the year. Play-off games, District champions, State Bound, all are a part of this time of the season. Every district team is expecting to be the champion of 2-AA.

The Broncos are different. They ARE the defending champions. Everyone else will be on the field to knock off the champion. It is only natural to try to beat #1.

Shamrock will be the first to try it. They are big and aggressive in the lines. They can put speed in both backfields (offensive and defensive). The confidence they have gained from a fine 4-1 non-district schedule will go a long way into the game against the Broncos. At the same time, the Broncos are anxious to begin district.

With the exception of Rod McAnear and Jeff Helms, the Broncos are full strength. District 2-AA is the most competitive one in the state. Every team is in a position to win the title. There will not be a team in the district that

can beat the other by more than a slim margin. The defenses are sound, the offenses are aggressive. The excitement of the athletes to play their best and the fact that not a team is clear cut to win every week will provide a champion that

can be called seasoned and extremely well tested. The Broncos are going to be tested even more every week. Shamrock is excited to be playing the Broncos, they feel they were better than Clarendon last season, (losing 13-7).

Two Youth injured in Friday wreck

Friday morning, Jeff Helms, aged 18 and his sister, Marcy Helms, aged 11, were involved in a near-head on wreck on Farm Market road 1260, 1 mile north of Highway 287 with Mrs. Gene Denney and children.

Mrs. Denney and her family wore seat belts and were not injured, Mrs. Denney suffered bruises to her knees.

Neither of the Helms youth were wearing seat belts and both were thrown from their vehicle upon impact. Jeff suffered whiplash and pave-

ment burns and cuts to his hands. He was released from the Hall County Hospital.

Marcy Helms, however, suffered a severe concussion. She was taken to The Amarillo Emergency Receiving Center where she is currently in the Pediatric ICU in severe condition. She was in critical condition earlier. Marcy is still in a semi-conscious state with a high fever now adding more problems.

Jeff is staying with the Roddy Klinner's while his parents spend much of their time at the hospital with his sister.

Caldwell attends Cancer Society Meeting

Genevieve Caldwell attended the 36th annual meeting of the American Cancer Society, Texas Division in Houston September 29-October 1. Genevieve represented the Donley unit as a voting delegate.

Donald J. Fernback, M.D., of Houston was elected president of the Texas Division at the meeting of the board of directors. Mrs. Alton Zamzow of Three Rivers was re-elected chairman of the board.

National ACS President Edward F. Scanlon, M.D. of Illinois gave the keynote address at the three-day meeting, citing the many new programs originating in Texas which have been adopted nationwide.

The theme of the meeting attended by more than 250 delegates from local ACS units throughout Texas was, "Thirty-five Years of Progress in Cancer Control." The theme traced the incre- Con't Page 3

SHIELDS FERTILIZER won first place in out of town floats

HEDLEY ORGANIZATION first place was Quail Booster Club.

Hedley has biggest little parade in State

What makes a good parade? Floats? Horses? Bands? Antique cars? Clowns? Free gum and candy? Pretty girls? The Hedley Cotton Festival parade had them all except some antique cars, but they had new tractors instead!

For a town smaller than the combined enrollment of our town schools, Hedley puts on one fine parade. It even had Senator Bill Sarpaulus riding in it and available for hand shakes afterwards. What a parade!

It would be terrific if those beautiful, stunning, gorgeous, wonderful floats could be in the Donley County Centennial Parade this coming July 4th. It would be even better if we could invite other floats, bands, cars, horse groups, politicians, pretty girls, and of course the beloved Khiva Clowns to participate.

Perhaps we can take a lesson from Hedley and see how they get such a nice participation in their little city. It begins with community involvement. Hedley is a town formed in its early days because of cotton and it owes its existence to cotton. That gives every citizen in the town a common bond. This common bond gives them a common goal and that goal is evidenced in their community spirit as they pull together and pull off the best, biggest parade in their county.

Perhaps Clarendon has a diversity of goals, but certainly our common bond of Donley County's heritage could pull us together for a unity of purpose this July 4th for our County's birthday celebration. All of you clubs, from High School groups to Senior Citizens groups, from social groups to service groups, make a float! Why not have the game warden and biologist rig a truck for a float? Why not have each business represented with a car and a

pretty girl or a cute little kid or even a cuddly dog? Why not get together and put banners on a bicycle and a sign for your club or business represented with a car and a sign for your club or business for the parade? And of course, lacking Sue Weatherly to spur our float building with her expertise, why can't Clarendon clubs or organizations get together and build a beautiful float or two?

Cotton Festival Winners

In spite of the misty, chilly weather that wrapped around the Hedley Cotton Festival visitors like a damp cloth all day Saturday, all of the scheduled events took place and everyone who braved the wet weather had a wonderful time.

Vione Wynn won the painting of blue birds from the Rowe Cemetery fund raiser drawing.

Wilson Stevens won a ceramic owl. Tom Clendenen won the beautiful handmade quilt the Senior Citizens put together.

Tony Clendenen won a pot of flowers from The Country Store.

Lura Helms won two free dinners at Big Mon's Cafe. The painting Lura did for the Cheerleaders was won by Mary Farris.

Moffitt's Hardware gave two gifts, one for a child and one for an adult. The lucky youngster was Tony Aaron from Brownwood. The adult winner was Myrtle Reeves. Both won a radio.

Jim L. Huson won 20 gallons of gas from the Hill's Texaco. Since Jim is from Amarillo, that will be an expensive prize!

H & M Dry Goods gave a dainty sweets dish to the drawing and it was won by Loretta Reese from Bakersfield, Calif.

The big winner of the day, however, was Laura Helms. she not only won two free meals but also the biggie, the bale of cotton!

Congratulations to the winners and a hearty thank you to the businessmen and women who have been so generous for our Cotton Festival's success!

GTE charging higher rates

General Telephone Company of the Southwest will begin charging new rates for installing, changing or adding telephones Oct. 12. The change is the result of a mandated Federal Communication Commission accounting change for all telephone companies, and has been approved by the Public Utility Commission of Texas.

The FCC order requires costs incurred for installing or changing telephone service to be collected from customers receiving the service as the services are rendered.

In addition to the changes in rates, residential customers now have the option of providing their own house wiring (wiring from the protector or fuse box of the house to the telephones) and save the associated fees charged by the telephone company. In addition, a \$5

wiring maintenance charge will be assessed whenever the company sends service personnel to do repair work on the wiring.

"Previously, costs for installing, changing, adding telephones or to do wiring work were partially paid by all customers, not just the customer receiving the service," said Oscar C. Gomez, rates and tariffs manager for General Telephone in San Angelo. This charge is the first of four annual steps which will result in full revenue recovery from the customers receiving the service."

The new fees are structured similar to previous charges with some existing charges increasing and other decreasing. Charges will vary from customer to customer, depending upon the functions required to make the installation, change or addition to service.

If your cakes tend to fall a lot it could be because the eggs you use are too big. Medium to large eggs are best. Extra large may be too much for your baked goods.

THE CLARENDON F.T.A. HAD

The Clarendon F.T.A. had a meeting on Wednesday, October 7. We discussed money making projects and haven't come up with anything new.

The F.T.A. will travel to Panhandle for a workshop on local, district, and state offices.

Each month, F.T.A. chooses a "Teacher of the Month." This teacher is chosen according to the help he or she contributes to the students.

Colts Corral

BY KANDY FLOYD

Hi Colt Fans! Well we're starting our second six weeks of the 1981-82 school year. And we've completed all our six weeks tests for this six weeks.

We hope to see Marcy Helms back at school soon, so everybody say a prayer for her.

We are happy to tell you that Brad Shadle is fine and back at school. The Colts play Shamrock this week. The game is here so we hope to see everybody there to help support the Colt. Now

carried by any furbearer, especially skunks, foxes, racoons, and occasionally ring-tailed cats, badgers, and possums.

"One trapper in West Texas died last year after skinning a plague-infected bobcat," said Brownlee. "He apparently had a cut on his hand while skinning the cat." He added that another plague-infected bobcat was found near Alpine.

Brownlee said animals which appear sick or act strangely should be avoided. Rubber gloves should be used while skinning furbearers and contact with fleas or ticks on the pelts also should be avoided, Brownlee said.

There has never been a reported case of squirrels, ground squirrels or porcupines having rabies.

THE FACTS
ANSWERS TO YOUR QUESTIONS ABOUT THE
TAX FREE
ALL SAVERS CERTIFICATE

FARMERS STATE BANK & TRUST COMPANY

What is the purpose of the All Savers Certificate?
The All Savers Certificate has been created by Congress as an incentive to save. All the interest on this certificate within prescribed limits — is tax-excluded from your Federal Income Tax. Also, the All Savers legislation was enacted to help housing. It requires that the major portion of the new savings created by this certificate be used for residential and agricultural financing.

How much interest may I earn tax-free?
As the Law now reads, this is a once-in-a-lifetime opportunity to earn as much as \$2,000 in tax-free interest if you file jointly (\$1,000 for single returns). Any interest earned in excess of these sums is taxable.

What amount may I deposit?
The Tax Act of 1981 stipulates that All Savers Certificates must be made available for a deposit of \$500. However, regulations permit deposits in other amounts. Ask us for complete information.

May I add to my certificate?
No, you are not allowed to add to any existing certificate. Each certificate is issued for one year. You may, however, purchase additional certificates.

What will my annual effective yield be?
Your certificate will have an annual investment yield to maturity equal to 70% of the average investment yield on 52-week Treasury Bills as of the most recent auction date. Thus, when the 52-week treasury rate is 18% your annual effective yield is 12.6% tax free! Treasury bills are auctioned every four weeks, so, check with us for the current rate. Also, discuss with us the maximum deposit that will still be completely free of taxes.

Is my interest rate fixed?
Yes. The rate in effect when you open your All Savers Certificate remains in effect for one year. You know exactly how much income you will receive. Your interest rate will not fluctuate.

May I convert from a 6-Month Certificate to an All Savers Certificate without penalty?
Yes. Regulations permit such a conversion provided the interest rate on the 6-Month Certificate is higher than that of the All Savers Certificate. The transfer must be initiated by the customer.

Is my certificate insured?
Yes. Ask us for specific insurance information.

May corporations or institutions take advantage of the tax-exempt feature?
No. Interest can be excluded from taxation only by individuals, partners or estates that receive certificates due to the buyer's death.

Are there any other reasons to invest in an All Savers Certificate?
Yes! Housing! The Tax Act requires that except for credit unions, 75% of the funds received from these certificates (or 75% of the net increase in new savings, whichever is less) be invested in residential or agricultural loans. Substantial deposits in these certificates could result in more money for those purposes — and lower loan charges. Everyone would benefit.

When may I open an account?
Any time from October 1, 1981 through December 31, 1982, inclusive. Your account will be in effect for one year from date of issue.

Will All Savers Certificates be issued after December 31, 1982?
Presently this is a one-time, lifetime tax exemption. However, the Tax Act instructs the Secretary of the Treasury to advise Congress before June 1, 1982 as to the effectiveness of these certificates in "generating additional savings". It is possible that this tax-free incentive to save will be extended.

How does the All Savers Certificate help me?
It means you, too, can now earn tax-free interest. This privilege, previously available only to those in a high tax bracket, is now offered to anyone who can set aside funds for one year. What is best, the new savings method reduces your taxes where it counts the most — at the top bracket of your income.

Can any interest earned on an All Savers Certificate in 1981 be included in the general interest and dividend exclusion of \$200 for single taxpayers and \$400 for joint returns?
No. The Tax Act specifies that no interest earned on an All Savers Certificate can be included in the \$200/\$400 exclusion, even if the interest is not tax exempt due to a premature redemption or disposition.

Will the All Savers Certificate help me if I own 6-Month Certificates?
More than likely, but it will depend on your income bracket and the current rates for both types

of certificates.

If you are in one of the higher tax brackets, you will usually get a much better net yield from an All Savers Certificate, but only up to the maximum interest limitation of \$2,000.

If your income falls into one of the lower brackets, you may be better off staying with 6-month certificates. The chart below provides a useful guide in helping you to a decision. Please come in to talk with us, and get all the facts. (It will be important to first look up the net taxable income you reported on last year's Federal income tax form.)

Will the All Savers Certificate help me if I own Money Market Mutual Fund Shares?
Again, more than likely. But, as in the previous comparison, it is necessary to check current rates for both forms of investment. After learning these rates, the decision will hinge on your top tax bracket. The higher your bracket, the more advantageous is the All Savers Certificate.

This comparison chart shows taxable interest yield required to match the All Savers Certificate tax-free rates.

Your Joint Taxable Income*	Your Maximum Tax Rate*	All-Savers Tax-Free Rates**								
		10.00%	10.50%	11.00%	11.50%	12.00%	12.50%	13.00%	13.50%	14.00%

*Joint Taxable Income is the net amount subject to Federal Income Tax after deductions and exemptions. Figures per 1982 Federal tax regulations.
**Annual Effective Yield.

If any portion of a certificate is redeemed, disposed of or used as collateral or security for a loan before maturity, the interest earned on that certificate is not tax-exempt. Also, the penalty for early withdrawal on a one-year certificate is loss of 3 months interest on the amount withdrawn.

Blas Away 1st and 2nd Place

Texas have always had a reputation of being straight shooters, quick on the draw and tall in the saddle. The first and second teams from the Clarendon College Trap Shoot Club entered the Mid-Western Grand American Trap Shoot at El Reno, Okla and proved that this isn't merely a legend, but fact.

Carl Hancock is the capable instructor of a course entitled, "American Trap Shooters Instruction". All of the members on both teams had completed the ATA Trap Shooting Course before they were allowed to enter the Mid-Western Grand American Trap Shoot. Completion in the course is mandatory for entry in this event.

This course may be offered this coming semester.

The first team, consisting of members Carl Hancock from Memphis; Scott Mazurek from Hereford; Carr Vincent from Boise City, Ok.; Brad Brooks from Paducah and Doug Lockhart from Dalhart swept the skies clean of any clay birds to capture the first place trophy.

There were over more than 350 competitors at the event.

Team 2, not to be outdone by anyone from another state, decided that Clarendon College needed both first and second place, so this team blasted their way into that position. Team members are: Scott Rusk from Panhandle; Dean Hawkins from Clarendon; Barry Everett from Vega; Walter Scott from Quannah; Lynn Holland from Panhandle and Jimmy Burns from Hereford.

Each member carried away a burning shotgun barrel, an empty box of shells and a big, shiny, beautiful medal. The school Medal will be on display at the college, but the team members will cherish theirs in their display cases at home.

Congratulations to Clarendon College Trap Club for a job well done and for bringing fame and glory both

to the school and to the name of their club!

Hancock is a sophomore in pre-pharmacy at Clarendon College. "Clarendon College has good instructors that go into depth and detail", Hancock said.

KIM KELLY daughter of Mr. and Mrs. Bob Kelly of Clarendon has been named Copy Editor for the Clarendon College annual. Kim is a member of choir, drama club and sportsman club. Kim will also be the mascot for the upcoming year. Kim plans to major in psychology and plans to continue her education at Texas A&M.

Clarendon

Oct. 19 thru Oct. 23
Monday Teachers Inservice Day. Student Holiday
Tuesday: oven fried steak with gravy, mashed potatoes fried okra.
Wednesday hot dogs with chili, blackeyed peas, mashed potatoes, jello, milk.
Thursday: ravioli casserole, green beans, hot rolls, peaches, milk.
Friday: Sloppy Joe on bun, lettuce and tomatoes, french fries, pudding, milk.

WINNING TRAP SHOOTERS: top row L-R: Carl Hancock, Scott Mazurek, Dean Hawkins, Doug Lockhart. Middle row, L-R: Walter Scott, Brad Brooks, Carr Vincent. Bottom row, L-R: Lynn Holland, Jimmy Burns, Scott Rusk, Barry Everett.

Meet the Bull Dogs

BY BOBBI DEMBOWSKI

Clarendon: this week, Clarendon College basketball players are Kenneth Moring and Lisa Freeman.

Kenneth Moring, known as "Mo", is a 6'2" sophomore from Houston. Mo attended Phillis Wheatley High School, where he was a two year starter.

During Mo's senior year, he averaged 16.5 points, 5.2 rebounds, 5.2 assists and 5.3 steals a game. He was selected to the All District and the All tournament team. Mo was also a candidate for an All American.

Keeping his standards high as he played for the Bull Dogs last year, Mo averaged 10 points, 3.7 rebounds, 3 steals and 3 assists for the team.

"I came back to Clarendon College because of our team" Mo said. "We will have one of the best teams in the league, because we don't have just one person to stand out, we have a solid team of fifteen guys that can go at anytime."

"Ken is the best perimeter shooter on the team," commented Coach Adams.

Mo is especially happy in the way the very supportive community responds. "The nice people at church," he said, "they give us the feeling of home."

Lisa Freeman is a 5'9" Sophomore from Austin. She was a 3 year starter at Reagan High School averaging 25.2 points, and 13.5 rebounds a game.

Last year Lisa helped the Bulldogs out averaging 12.3 points and 9.3 rebounds. "Freeman is the most aggressive ball player I've ever coached," said Coach Mondragon. "Most of the coaches in the league feel she's the best rebounder in the conference."

Coach also added, "Freeman also has the great speed and quickness to play the guard position, and the good outside shot to go along with it."

Lisa expressed, "I love the facilities and I enjoy being

around the girls in the dorm, but most of all the education you can get and Coach Mondragon has one of the best basketball programs around."

It's easy to see why Lisa came back to Clarendon College this year, besides the disciplin, both Coach and players re family.

"We are expecting great things out of Lisa this year," Coach Mondragon finished, "and that's what she strives on, pressure."

Douglas Neal

Bannister

Mr. and Mrs. Kelsey Bannister of Amarillo announce the birth of their new baby son, Douglas Neal who was born Sept. 29.

Douglas weighed 8 lbs and 2 ozs at birth. His big sister Traci Dawn awaits baby Douglas at home.

The maternal grandparents are Mrs. Aubrey Huff of Pampa. The paternal grandparents are Mr. and Mrs. H. M. Bannister.

Jessica Whitney Shields

Mr. and Mrs. David Shields and Joshua have welcomed a new baby girl, Jessica Whitney, to their home. She was born October 5th at Northwest Texas Hospital and weighed 7 lbs. 8 oz.

Proud grandparents are Mr. and Mrs. Herbert Shields of Lelia Lake and Mr. and Mrs. Roy Ritchie of Clarendon. Richard Lewis of Lelia Lake is Jessica's great-grandfather.

CARL HANCOCK PRESENTS Dr. Ken Martin with School medal for Trap Shoot.

Howardwick City Council meeting

The Howardwick City Council met in regular session at the City Hall on Saturday, October 10, 1981 at 8:30 a.m. Members present were Mayor Waldon Moore; Aldermen Carol Cole, Neal Mann, Leon May, Charlie Prickett and Lawrence Whitehead. Others present were City Secretary Connie Milam and six (6) guests.

*Meeting called to order and guests welcomed.

*Invocation led by Whitehead.

*Minutes of September regular monthly meeting approved.

*Moore reported that City is trying to set up meeting with board of directors of Greenbelt Water Authority in November to discuss accessibility to water's edge along Carrol Creek.

*September financial report and financial statement for fiscal year October 1, 1980 through September 30, 1981 approved.

*Public hearing on budget for fiscal year October 1,

1981 through September 30, 1982 opened with statement that budget would include estimated income from Revenue Sharing funds of \$800.00. Public was invited to make comments on entire budget and to ask questions about relationship of Revenue Sharing funds to rest of budget. After presentation and discussion of proposed budget, the proposed budget as budget for fiscal year was adopted.

*After discussion of fire hazard caused by weeds that have been allowed to grow up on privately owned lots within City, motion to now vacant lots that can be gotten to easily, excluding Carrol Creek Acres and Nocona Hills, and to bill owners for expense of mowing made, carried - 3(Whitehead, Cole and Mann; voting yes and 2 (May and Rickett) voting no.

Motion to notify owner of lot #22 Country Club that he is to either finish building on lot or to remove it approved.

*Meeting adjourned. The business was as follows.

1926 Book Club met

The 1926 Book Club met in regular session on the afternoon of Tuesday, October 6, 1981 for Guest Day at the Patching Club H.Ouse.

The president, Betty Veach, brought the meeting to order. A short business session was held and the program then turned over to the program committee. The program consisted of four talented musical parts. Pauline Heath introduced each and they in turn gave the selections to be given.

Jessie Adams played "Hand of Time" on the piano. Betty Veach sang "You Light Up My Life" accompanied by Jessie Adams. Viola Graham played "Could I have This Dance" and a melody of popular songs on the piano. Kathrine Green sang "Because He Lives" accompanied by

Jessie Adams. The final number was sang by Betty Veach. "If We Learn to Lean on Jesus", accompanied by record background music. This was a very nice and enjoyable program.

The hostess, Mrs. Oressa Delaney and Mrs. Evelyn Mann served ice box cake and tea and coffee to the following: Pauline Heath, Janice Johnston, Rachael Butler, Billie Clinton, Pauline Morris, Freida Tucker, Gladys Blackburn, Hazel Brandon, and Carolyn Hamilton.

Guests were Jessie Adams, Dedrelle Stark, Margarette Alderson, Edgar Mae Mongol, Mable Mongole, Betty Landers, Gladys Sayer, Viola Graham, Ruth Mandrosky, Pearl Hermesmyer and Tookie Thornberry.

Senator Bill Sarpalius Reports

AN ALTERNATIVE TO TAXES?

AUSTIN -- In November, you will have a chance to vote on seven amendments to the Texas Constitution. The first one on the ballot is a plan that may help blighted urban areas without throwing tax money into them.

If passed, the amendment would allow the creation of "reinvestment zones." The city and other taxing entities would "freeze" the taxable value of the zone at the time the zone was created. Then the city would issue bonds to revitalize the area within the zone.

The city would use this bond money for such things as new sidewalks, more parking, better lighting and improved streets and drainage in the zone. These improvements should attract new business to the zone. The taxes in the zone would increase as businesses moved in and made improvements. The money from the increased taxes would go into a special fund to pay for the bonds that financed the better streets and other improvements. When the bonds are paid, if all goes well, the zone will have improved substantially. Then the taxes in the zone revert to the normal taxing schedule.

So if the zone works the way it is supposed to work, the blighted area will be improved without raising city taxes.

Supporters of this proposal say it would give cities a powerful tool to improve blighted areas, without raising taxes for the rest of the city. They say it would encourage the free market to finance development, and save money on expensive social programs.

Opponents of the amendment say if taxes are lower in the zone, the rest of the city will have to take up the slack. They claim that increased development causes a need for increased city services which must be paid by the other taxpayers in the cities. They also feel that the areas most likely to become reinvestment zones are areas that probably would be developed anyway, even without the breaks the area gets as a reinvestment zone.

It is up to you to decide, at the polls, whether you think reinvestment zones are a good thing. But we still would like to hear your ideas on how we can improve our cities at a low

cost to the taxpayers. AUSTIN -- Another important amendment on the November ballot for you, the voters, to decide, is one that will allow local taxing entities to grant tax exemptions to homeowners.

HJR 81 would permit school districts, counties, and similar bodies to cut taxes for homeowners by as much as 40 percent until 1984. Then the exemption tapers down to 30 percent from 1985 until 1987, and 20 percent thereafter. Each home would receive an exemption of at least \$5,000, whatever its value.

Support for this amendment came because of the effects of the Peveto (tax reform) bill.

The Peveto bill requires that each county create a tax appraisal district which will appraise all the property in a county. This system will replace the old method under which each county, city, school district, etc., had its own appraisers. The duplication of effort in the old system meant that many pieces of property have not been appraised in many years. This, of course, will change when the new boards take over.

What all this will mean is that property will be reappraised soon, and will be appraised at present values, which are high.

Supporters of the amendment say the high tax rates for homesteads caused by the reappraisals are unfair because inflation has pushed up the values of homes faster than the values of other property. The new reappraisals will cause taxes to rise dramatically, forcing some people to sell their homes. The amendment merely cushions the blow of the new rates and allows homeowners to budget for the higher rates that return shortly.

Opponents say the amendment provides no relief for renters, who pay property taxes in the form of rents. Also, the amendment provides the most relief for the most expensive homes.

Once again, it is up to you, the voters, to decide whether you think homeowners need tax relief. Always, we are interested in hearing from you about what you think the Legislature should do about property taxes. Please write to Senator Bill Sarpalius, P. O. Box 12068, Austin, Texas 78711.

Lucky Shamrock Blooms

George and Ruby Dell Estlack have some little luck of the Irish blooming in their shop window of the Clarendon Office Supply. The very delicate and very rare plant called the Shamrock Plant is beginning to bloom for the two green thumbs.

The Shamrock was given by a friend in exchange for some aloe vera. It has been said that this plant is so rare even in Ireland that it is forbidden to allow it to be exported from the Emerald Isles.

The plant started life in Clarendon as a small tuber. It will eventually grow more

tubers similar to any other bulb plant. It had only two leaves on it and they fell off soon after transplanting. But new leaves appeared and since spring, the plant now has a nice bunch of long stems with the squared tri-lobes as seen in the photo.

The bloom is a small, white, delicate bell shaped flower. The bloom doesn't last long at all. The leaves will close down toward the stem at night. It is indeed a rare and exotic plant. Take a break and go see the Estlack Shamrock.

"Virtue is not left to stand alone. He who practices it will have neighbors." Confucius

We congratulate Edie Robertson on the opening of

Edie's Music Box

Rabbit & Shirley Osburn

According to the National Society to Prevent Blindness, an estimated 46 percent of the nearly one million Americans who today have vision impairments caused by eye injury, suffered the damage at home. This adds up to 420,000 Americans.

The National Society offers these precautionary measures to prevent potentially serious eye injuries in the home:

- Read package label.
- When using spray-type chemicals or cleansers, make sure the arrow on the nozzle is pointing away from you.
- Store harmful products away from children.
- Protect your eyes with safety goggles whenever possible, particularly when you're using chemicals or power drills, lawn mow-

ers, edgers or chain saws. If household chemicals or battery acids come in contact with the eyes, immediately flush them with water continuously for at least 15 minutes, holding the eyelids open. Then seek medical attention without delay.

For a free pamphlet on eye safety, send a stamped, self-addressed envelope to your state Society to Prevent Blindness or the National Society to Prevent Blindness, 79 Madison Avenue, New York, N.Y. 10016.

PUBLIC NOTICE

Pursuant to TEX. REV. CIV. STAT. ANN. art. 1446c §43(1975), Lone Star Gas Company hereby gives NOTICE of the Company's intent to implement a new schedule of rates effective on the latter of October 23, 1981

or such other date as new rates become effective in the City of Clarendon

to be charged for natural gas service to residential and commercial customers in the environs areas (outside incorporated limits of Clarendon, Texas)

The rate schedule is expected to furnish a 10.92 % increase in the Company's gross revenues in the environs of Clarendon, Texas

A Statement of Intent has been filed with the Railroad Commission of Texas and is available for inspection at the Company's business office located at 315-A S. Kearney, Clarendon, Texas

Any affected person desiring to contest such changes in rates can file a complaint with the Director of the Gas Utilities Division, Railroad Commission of Texas, P. O. Drawer 12967, Capitol Station, Austin, Texas, 78711.

Volunteers

Thursday, Maxine Harden prepared delicious sandwiches, chips, and cookies to those present.

Volunteers

The new drugs undergoing clinical testing at Baylor's National Heart and Blood Vessel Research and Demon-

stration Center offer hope of better blood pressure control with fewer side effects than drugs now in use.

"Hypertension affects 50-60 million Americans and is the leading preventable cause of death and disease," said James Pool, M.D., assistant professor of medicine at Baylor.

Although there is no known cure for hypertension, a major risk factor in heart disease, stroke, and kidney

failure, it can be controlled with diet and drugs.

The new drugs are important because they present hypertension drug side effects other medical conditions or have side effects ranging from headache and sleepiness to impotence.

Pool is seeking 500 volunteers to help test the new drugs that he thinks patients will more easily tolerate.

"Before these studies, doctors wondered if border-

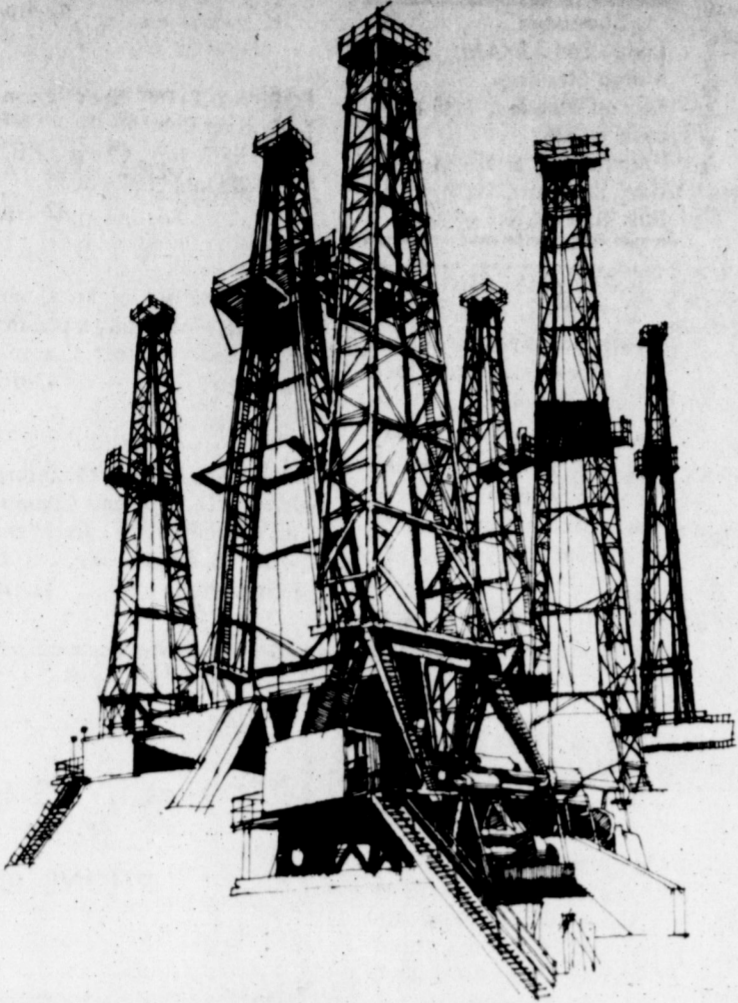

line hypertension could be controlled with diet and drugs. Pool said.

Pool said that he is seeking 500 volunteers to help test the new drugs that he thinks patients will more easily tolerate. "Before these studies, doctors wondered if border-

Rangeland Stocking Wildlife

It will pay landowners to always include wildlife when establishing the stocking rate of animal units per acre, according to Experiment Station scientists concerned with management of wildlife.

This is true whether a landowner seeks to encourage or discourage wildlife. To ignore the existence of deer or jack-rabbits is not only unrealistic, it can also be costly, according to Dr. Lytle Blankenship, whose specialization is wildlife management with the Texas Agricultural Experiment Station.

It may result in overstocking rangeland and it could be that the landowner is overlooking a good source of income.

Some, who managed land to encourage deer and other desirable game, found that at times their income from hunting leases rivaled income from domestic livestock.

Probably the most common policy is to give attention to both wildlife and livestock. This provides for a more versatile management scheme and usually a more efficient and economical land-use program, according to Blankenship.

Less is known about the nutritional needs of deer than domestic ruminants, according to Dr. Larry Varner.

Varner says, "Since this is a growing area, the availability of nutrients from rangeland... Forbs are good sources of protein, energy and phosphorus... that are available in CP any time during the year... The key... that deer have... to select a diet... quality to make them grow."

Xi Lambda Xi met

Members of the Xi Lambda Xi chapter of the Beta Sigma Phi sorority met in the home of Donna Edwards Monday, October 12 at 7:30 p.m. After a brief meeting, guest Bill Taylor, history professor at Clarendon College presented a delightful program.

The Shaker faith was discussed, tracing its history from England in the middle 18th Century until its arrival

to these shores in 1774. Bill Taylor presented the story with an approach to the powers a woman can have over others, such as converting people into such a unique faith as that of the Shaker's.

After the program, many many questions were asked concerning aspects of the history and background of this faith.

A table loaded with cookies, cheese balls, pastries

and crackers and served on pretty individual glass trays with hot spice tea was served by Donna Edwards and Charlene Mays to those members present and our special guest, Bill Taylor.

Martin Quilting Club Met

We meet this Thursday, October 14 for Leane Thornberry's quilting at Melba Risley's house!

In September we met for Raenell Shadle's quilting. We completed one quilt. Members present were: Janan Koontz, Flossie Reynolds, Mary Lee Noble, Melba Risley, Hazel Edens, Dixie Ward, Marie McCracken, Joe Hardin, Donna Goss, Ruth Mandrosky, and Jondel Moffett.

Guests included: Louise Shadle, Seth Thornberry of Memphis, Amanda Ward, Josey Shadle, and Andrea Hardin.

Welcome to all who want to learn to quilt. Please come join us!

Get thin.

Slim down to a Styleline® phone. Or change your shape altogether. We've got a lot of different ones for you to choose from. Discover the phone that's you by calling your General Telephone business office.
