Centennial Countdown - Donley County - First 100 years

Thursday, Dec. 16, 1926

A special issue of the Clarendon News would hardly be complete without a mention of some member of the Beville family, because of the prominence of that family in the life of the city since its earliest days as a town. Above is a picture of R. Harwood Beville, oldest son of one of Clarendon's first newspaper editors. Mr. Beville is now District Attorney

of the One Hundredth Judicial District, in this office he has enjoyed extraordinary success. In the three years that he has been in office, some noted criminal cases have been tried with a very high percent resulting in convictions. His record as District Attorney, compared with that of other district attorneys, would be, perhaps, the best in the State as to number of convictions out of the number of cases tried, in the last few years.

claim Harwood Beville as a native son, as he has lived here since his earliest boyhood. He attended the public schools of the city and was the first student to matriculate in Clarendon College on its opening day in September, 1889. For a time after

Clarendon wins first district game 26-0

at halftime.

BOB AND DANNYE KAYE LaRue new operators of Peanuts Drive in [Photo by J.

LaRue's new to Clarendon not to business

While the LaRue family may be new to Clarendon, they are certainly not new to the food business. Dannye Kaye has worked in restraunts in one capcity or another for over 15 years. The LaRue's owned and operated the Western Restraunt in Amarillo for many years, with a seating capacity of 100. Their daughter Deborah has been working in the kitchen or dining area for many years as well.

Bob, however, never kept his feet on the ground long enough to become as profecient as his better half. He was the chief pilot for Hutcherson Air Service in Plainview and had flown thousands of hours prior to moving here to Clarendon.

Bob and Dannye Kaye moved here in order that Bob could be a pilot for Southland Properties. He is a real estate salesman there as well. The primary job, however is the running and improvement of Peanut's Drive-Inn.

"We now serve a breakfast special from 7 until 8 for a 99c breakfast. Our regular breakfast is served from 7-10. Dannye Kave said. Her helper friend and fellow worker, Joann Copelin helped her get the breakfast started. Together they get there early and begin fixing homemade hash browns, sausage, eggs, omlets, and pancakes.

"We are really proud of our help. We could never have gotten this place cleaned up without the help of Nancy Dodd, she has spent many hours down here just helping us get going," said Dannye Kaye.

Since the restaurant opened September 14, they have improved their service, improved their food and improved their menu. All of the food is prepared fresh each day. "I fix fresh taco meat each morning with meat from the market that day," Dannye said. "I also make homemade chili. Mexican food was our specialty in Amarillo."

The newest feature to Clarendon palates is the baked potato. The potatoes are baked fresh each day. A meat concoction is prepared to stuff the potato with. It is topped with melted cheese, bell peppers, onions and tomatoes and served with a salad. A full meal and a well balanced one at that!

"Our prices are guaranteed to be lower than anywhere else in town. If not, we will lower them. We want to stay competitive and keep our food quality up.' Bob said. To help keep that quality up, several new items have been purchased for the kitchen such as a combinaton steam table, grill, and fry ladle. They also purchased a new stove and oven.

Bob has a quiet ambition of wanting to get a small plane and maybe teach flight instruction. His feet have been on the ground long enough now and that taste of the wild blue yonder is tickling his landing gear again.

'We really like Clarendon. It is so different from Plainview because we are made to feel welcome by everyone. We really feel at home here," the LaRue's said with great enthusiasim.

Besides Deborah, the LaRue's have a son Bradley who attends the Amarillo Christian School and a married daughter Theresa who

now lives in Oklahoma. Welcome to Clarendon!!

Fund Raising

Kick-Off

Ihursday, Oct. 22 at 7:30 p.m. Jerry Outlaw, Council executive of the Adobe Walls Council of the Boy Scouts of America will be meeting with the Volunteer Fire Department to kick off a fund raising drive. The fire department has undertaken this as a project, they will be asking for funds for the council with the money going to the Adobe Walls Council

of the boy Scouts of America.

The Clarendon Broncos, with Hearn going the final

led by a swarming defense that allowed only 99 yards total offense, took their sixth straight victory and first district win by drilling the Shamrock Irish at El Paso Field 26-0.

The Bronco defense recorded its first shut-out of the season while giving up only seven first downs and causing four turnovers. Meanwhile, the Bronco offensive machine churned out 23 first downs and 383 yards, including 303 by land. Hosea Hearn was the main workhorse for the victors, rushing 17 times for 127 yards and a touchdown.

Clarendon jumped on top early when, after kicking off, they forced Shamrock to punt. In only four plays, the Broncs took the ball 54 yards

The Clarendon defense continued to swarm the ball as they did the entire first half (Shamrock had possession in Bronco territory only once in the first half-on a Clarendon fumbel), forcing the ball back to Clarendon. But the Broncs failed to mount another score until early in the second quarter when Bobby Weatherton scored on a four-yard run. Arlis Thomas, who kicked the first PAT, shanked this one to leave the score at 13-0. Weatherton had 83 yards on 16 carries.

The Broncs and Irish traded possessions before Clarendon recovered an Irish fumble inside the Shamrock 20 with less than one minute left in the half. After several

plays, Brad Thompson hit Hearn with a screen pass that he took 11 yards to pay dirt with only 2 seconds remaining in the half. The extra point pass attempt failed and the Broncs took a 19-0 lead in the locker room

Clarendon totally dominated the first half, and the

second half was not much different. Shamrock had but one threatening drive in the game, and that ended in a lost fumble at the Clarendon 20. Four of Shamrock's seven first downs were on that drive.

The Broncs could not muster up a scoring drive in the third quarter as the fog thickened to an amazing density. But penalties were at fault for the Broncs more than weather. Clarendon was flagged a whopping 13 times for 135 penalty yards, which probably kept the score from being any more lopsided. Shamrock made its mistakes, as well, losing 75 yards on Con't page 15

Broncos meet Mustangs

As the Broncos attempt to kick the mud off and dry out, they are going to prepare for the second victory of District competition. The Wheeler Mustangs are full of tradition

size, experience and physical

The Broncos are fresh from a good game against the Shamrock Irish, considering the field conditions. The mistakes were at a low, the aggressiveness was at a good

tone, the excitement of a district game was a good feeling, and above all, the character of our athlets came through.

Father J. A. Carlson moves to Clarendon

The Clarendon Catholic Church is the oldest Catholic Church in the Panhandle area. At one time, Clarendon housed a Catholic school, and convent in the area near the present day church building. Nuns and devout Catholics from Amarillo would make the long journey to Clarendon to attend mass in those early days. Now, however, Clarendon parish is very small. So small, in fact that it cannot afford to support a priest.

Father J.A. Carlson has been coming from Groom on Sunday's to serve Mass to the souls of the parish for seven years. When he entered semi-retirement this vear, he moved to Clarendon "because I liked the town and the people," Father Carlson said "and so now the people can have a priest."

Dvorak selected Sailor of Year

Each year, the Amarillo Naval Reserve Center drill-

He will serve a daily mass he will also have the Sunday mass said on Saturday at 7:30 p.m. as well as a Sunday Mass on Sunday at 9

Father Carlson entered the priesthood in 1948 and came to Amarillo. He served in Amarillo and Canyon until 1953 when he was called to go to Panhandle and begin the construction and building of the Catholic Children's Home. "When I got there in those days, there was a two story house and alot of farm land. Now there is a big complex with a convent and the Children's home as well as St. Ann's Home for the Aged," Carlson said.

In 1959 he moved to Groom where he served for 22 years. In his semi-retired state, he does alot of reading and studying, plays golf, bowls and endulges in other retired activities.

ing reservists nominate one individual for consideration by the Commanding Officer to be selected as Outstanding Sailor of the Year.

The criteria is set by the Navy for consideration of each candidate. The individual must have a 100% drill attendance. This means that the sailor must attend one weekend each month to qualify. The individual must also go for two weeks active duty to some Navy base to meet the terms for a good year.

In addition to these obvious requirements, the sailor must also show outstanding leadership qualities, be neat in the uniform, respect the navy regulations and have been of some influence on shipmates during the past year.

Katie Dvorak was selected by her shipmates as the nomination for this year.

EDDY EADS joins Osburn Furniture and Appliance staff [Photo by J. C. Woody]

Eddy Eads joins Osburns

We at Osburn Furniture would like to welcome Eddy Eads, who has joined our

Eddy is a life long resident of Clarendon and the son of Jack and Genella Eads. He graduated from Clarendon High School in 1976. After graduation he worked in Lubbock as a machainist, then worked for Pantex for two years. He also worked for Clarendon Manufacturing as a machanist. He has been helping Rabbit in the store for the past several months on a part time basis.

Eddy and his wife, Sandra have one daughter, Lindsey, age 17 months. Sandra has been employed by Osburn Furniture and Appliance since 1979 as a bookkeeper.

Rabbit stated, "Our business has grown, to the point in the past several years, that it is no longer a one man operation. We feel this is the best way we can give our

customers faster service." "Actually, the reason we

are so busy," Shirley Osburn said with that usual twinkle in her eye, "is because the store has two beautiful bookkeepers."

Eddy will be working both in sales and service, as well as helping Rabbit deliver and lay linoleum. Rabbit and Shirley would like to invite you to come shop with them and visit with Eddy.

Nominees needed for **ASC County Committee**

A slate of at least four nominees will be developed for the county, says Jerry Gage, County Executive Director for the ASC County Committee. Elections this year will be held on December 7, 1981. Ballots will be mailed to voters about 10 days before the election. The voted ballots must be mailed or returned in person not later than December 7.

Each petition submitted to the ASCS office must be limited to one nominee; signed by at least three eligible voters in the county: include a certification that the nominee is willing to serve if elected and received at the ASCS office not later than November 2, 1981.

If four or more eligible candidates are nominated by proper petition, no further nominations will be made. If less than four are nominated by petition, the present County Committee will add the number of nominees needed to complete the slate of four. If a person who is nominated by petition is found ineligible, he/she will be so notified and given 7 days in which to appeal.

Persons nominated should be currently engaged in the operation of a farm or ranch and be well qualified for committee work. In general, a farmer is eligible to be a County Committee member if he/she lives in the county and is eligible to vote. The duties of the committee include:

Informing farmers of the purpose and provisions of the ASCS program. Keeping the state committee informed of loval conditions, recommending needed changes in farm programs, participating in

county meetings as necessary and performing other duties as assigned by the State Committee.

ASCS elections are open to all eligible voters without regard to race, color, re-

Prairie Chickens hunted

The annual Lesser Prairie Chicken season opened and closed this past weekend in Hemphill, Wheeler, Lipscomb, Donley, Cochran, Collingsworth, Gray, Hockly, Ochiltree, Roberts, Terry and Yoakum counties.

Texas Parks and Wildlife Biologists, Dave Dvorak said that the hunt seems to be declining because "at best the two day season with a two bird bag limit per day is costly". In the beginning, the hunt was a novelty, a sort of "trophy bird hunt." The Lesser Prairie Chicken had not been hunted for many many years until in the mid 1960's it was determined that there had been a build up of

the birds to warrant a hunt. Today, however, the cost of driving up to the Panhandle of Texas, the only place in the State where the Lesser Prairie Chicken can be legally hunted, the cost of food and lodging has risen so high

that it is not feasible for all to participate in the hunt.

The Prairie Chickens themselves are not very tasty to eat. They are tough and of a markedly wild flavor. Old Timers have remarked that the chicken is much better when they used to be able to hunt them in the spring time when they were more tender.

The chickens have increased so much in numbers that an experimental relocation tion project is being considered in which a hen and her brood will be trapped and moved to another suitable

While several counties are indeed listed as being in the Prairie Chicken areas, there are no chickens in several of these counties. If this relocation project is successful, more counties may host these beautiful and interesting birds. This project has not been tried since 1931 and that was not a successful

Sarpalius to be in Clarendon Oct. 22

It's no secret that the 31st every two months. Senatorial District is Texassized. It covers an area larger than 13 states! Many times in the past we in this district have felt cut off from the rest of the state. Before this session, we promised to do something about that, and we did. We set up a mobile office to bring state government to each and every one of you. We have always believed that to be an effective State Senator, one must go to the people and listen to their needs and concerns, and be available at takes to get up here. the local level.

Henry Honea, our District Office Manager, travelled some 25,000 miles during the regular session alone, asking Community and answering questions, trying to explain state government to the people of the Panhandle and the South Plains and solving problems. This mobile office visited every major community in the district at least monthly, and visited every community in the entire district at least

The mobile office will be at the court house from 3:30-4:30 on Thursday, October 22. Take this opportunity to visit with Henry Honea about any questions you might have concerning the upcoming elections, or about any proposed or passed bills. Let your senator know how you feel. Make his efforts to contact us worth the effort he

Lelia Lake

Center

Lelia Lake Community Center will meet at 7:30 on Saturday, October 24. Marcie Helms is home again and doing just fine.

Reserve Center selected Sailors of the Year, to be nominated for Sailor of the

Year for the region.
"The Navy Reserve is a fine opportunity to serve your country and to learn at the same time," Dvorak said. "I love it because of the opportunities I have and because if I stay in another 10 years, I'll be elegible for retirement benefits."

Dvorak plans on staying in as long as the Navy will let her or as long as she can salute the flag. "I love putting on that uniform and I really enjoy going on those two weeks. Two weeks is just enough time to remind me how the 'real navy' is and to make me glad that I can come home again."

Dvorak has been a member of the Navy Reserve since 1970. Prior to that time, she served two years in the active Navy, doing her tour in Parris Island, South Carolina, Bainbridge, MD and San Diego, CA. She is a dental technician rated E-6 or Petty Officer First Class.

Thanks to the combined efforts of her shipmates, Dvorak has a dental unit at the center where she can do preventive dentistry on the drilling reservists.

This past weekend, she and the hospital corpsman at the center sponsored a dental

Rain Report

Windy Valley reported a 14" rainfall from the last part of last week when we had the drizzle and the rain and the misty weather. "The wheat appreciates the moisture, but the cotton can wait for any more rain," marked Jan Noble.

Lelia Lake got about 1 1/8" said J.C. Woody. Goodwin Bray reported a hearty 21/2" rain out at Goldston from all of that moisture. Brice and Ashtola were not reached to find out their rain report. If you live in either of those communities, please contact the paper to give us your name and number and we will call you for your rain report each time we have moisture fall from these old blue skies. We would like to give a concise report from the total

Worth. He had thirteen grandchildren and 18 great grandchildren.

Tentative Wheat program provisions for 1982

The Secretary has outlined details of the 1982 wheat reduced acreage program, pending enactment of new farm legislation. Participation will be voluntary. The proposed details are:

A. To be eligible for wheat program benefits, such as target price protection, price support loans, and the farmer-owned reserve pro-

B. Individual farm wheat acreage bases will be estab-lished crop rotation for

C. To participate, pro-ducers shall reduce the farm's 1982 wheat agreage planted for harvest by at least 15 percent from the farms established wheat acr-

D. An acreage of eligible cropland equal to 17.65 percent of the 1982 wheat acreage planted for harvest must be devoted to a conservation use sufficient to protect the acreage from wind and water

E. The acreage devoted to a conservation use may not be mechanically harvested. Grazing will be permitted, however, except during the 6 principal growing months as set by the County Committee. A continuous 6-month nongrazing period between February 28 and November 1 shall be established.

F. Offsetting compliance will apply. To qualify for wheat program benefits, owners or operators participating in the reduced acreage program on a farm must assure that the wheat acreage base is not exceeded on any other farms they own or operate.

G. Cross compliance will not apply. Participation in the wheat program is not required to qualify for program benefits on other crops grown on the farm.

H. No payment will be made to participants for the acreage devoted to a conservation use.

I. The following example illustrates computations for determining acreage required to devoted to a conservation use.

The farm has a 1982 wheat acreage base of 178.0 acreas. To participate in the program, the maximum permitted wheat acreage that the producer may plant is 151.3 acres (178.0 acres times .85).

1. If the producer plants the entire 151.3 acres, an acreage equal to 15 percent of the acreage base (26.7 acres) must be devoted to a conservation use.

2. If the producer plants conservation use acreage is equal to the number of acres planted times .1765. If the producer plants 50.0 acres, the conservation use acreage equals 8.8 acres (50.0 times

PRICE SUPPORT LOANS

All commodity loans may be obtained at the county ASCS Office. The interest is 14.5% subject to adjustment April 1 and October 1. Donlev County loan rates: Wheat - \$3.21 bushel; Grain Sorghum - \$4.10 cwt.; Corn -\$2.52 bushel; Soybeans -\$4.91 bushel; and Cotton (SLM 1 1/16) 52.70 lb.

1981 crop wheat, corn and grain sorghum are eligible for immediate entry into the Grain Reserve Program with an increase in loan rates.

According to available estimates - 1980 Census data is still tied up in the courts there are nearly 680,000 women veterans in the U.S., about 2 percent of the veteran population. They are entitled to the same benefits as other veterans.

At last count two years ago, more than 152,000 women veterans had availed themselves of the post-Korean GI Bill, nearly 80 percent of them to attend college.

At that time, there were 23,760 women vets receiving compensation payments from the Veterans Administration for service-connected disabilities and 11,782 receiving VA pensions (based on total disability and financial need).

Since VA hospitals may not be able to furnish the care or services required by women veterans, they may be entitled in certain cases for treatment at VA expense in private hospitals. The exception is normal pregnancy, which is not covered by VA

CLARENDON COLLEGE had many joggers out Monday afternoon, but Tex Selvidge, Dean of Studens and Kenneth Vaughn, president of the Collegee did not seen to be in much of a hurry. [Photo by J. C. Woody]

The Lions

BY GENE ALDERSON

The Clarendon Lions Club held its regular meeting at noon Tuesday at the Lions Hall. There were 24 members, two guests and sweetheart Jessie Adams present.

Lion Mark Kinsey of the Pampa Noon Club, who is District Executive of the Boy Scouts, was the guest of Lion Allen Estlack. Larry D. Maybry, manager of Bylow grocery, was the guest of Lion Homer Estlack. The

The club voted to donate \$25.00 to the Boy Scouts Fund Raising Drive.

Our annual Ladies Night Banquet will be Tuesday, October 27th at 7:30 p.m. at the Lions Hall. Meeting adjourned.

A Message from the Staff and Residents of

You can affect the quality and cost of nursing home care.

Did you know that nursing homes are among America's most regulated services? All are subject in numerous ways to federal, state and local government rules and regulations.

Nursing home administrators must be licensed by the state. Federal authorities regulate patient care, fire safety and Medicare financing. State governments check on Medicaid funding and approve the construction and operation of nursing homes. Our community fire, health and other authorities are involved as well.

That's a lot of government involvement. Government action affects the quality and the cost of nursing home care. The government's goal and ours is the same: to assure quality care in safe surroundings at fair payment for services.

The key to reaching this goal is an informed public. If you want to know what you can do about quality nursing home care, take an hour or so to visit us. Ask us about rules, regulations and costs of nursing home care.

It's a good way to learn how your government works and how you can influence its effect on an important aspect of American life.

Gin trash research could give farmers new energy source

COLLEGE STATION -The waste products of cotton ginning — called gin trash could someday be the source of energy used to power gins, says a Texas A&M University re-

Texas harvests and produces more cotton than any other state with the crop often exceeding 5 million bales. For about 90 percent of the cotton crop, every bale harvested results in between 700 to 1,200 pounds of gin trash.

The implication of gin trash research would allow farmers to be more energy independent, said Dr. Ronald Lacewell, an agricultural economist.

Much of the research being

conducted cooperatively by Texas A&M's Center for Energy and Mineral Resources and the Texas Agricultural Experiment Station, part of the Texas

A&M University System, involves developing synthetic fuels derived from plants or plant residues.

Five major crops in Texas sorghum, cotton, corn, wheat and rice — produce more than 20 million tons of residue each

Take the low sale price on this new gas range, add the quality workmanship and ultra-modern features, and you know you're getting a great value. You're also getting a range with pilotless ignition, lots of oven insulation and other conservation features designed to help you hold down utility bills. And gas cooking gives you infinite temperature control for best results. See our selection right away!

Gas of Jerry's, strong golds, is his few throw shooting. Last year he led the conference in free throw percentage with 85%. Jerry was also named The Most Athletic.

Jerry is an excellent student of the game, as well as in th classroom. "Even though he's the smallest player on the team, he has the biggest heart," commented Coach Adams. "Jerry's the type of player any coach would love to have."

Sharon Jackson, called "Shay", is a 5'5" sophomore from Selma, Alabama. Shay attended Selma High and started for them three years, averageing 25.2 points, 4.1 steals and 5.8 assists her senior year. Shay

"Shares Jackson is what we call instant everything," commented coach Mondragon. "She can come up with a steal when needed, sneak in on the big girls and grab a rebound, she can

sneak in on the big girls and grab a rebound, she can drive inside do a double pump scoop shot, and put it in the basket."

Shay expressed feeling wise about the decision to come back to Clarendon College as for the team this

year, "They're all fantastic" she said.

Sharon Jackson is the spark plug of the team, because of her capabilities. "Her good head, and coolness," said coach Mondragon, "could make Sharon one of the best point guards

City Ordinances

In the interest of public knowledge and to assure that all of the citizens of Clarendon are made aware of their City Ordinances, the Clarendon Press will print city ordinances. Some of these ordinances are obviously out dated, but the Clarendon Press feels that each and every citizen should be aware of their local laws and ordinances. The Press is not making any statement for or against these ardinances.

Page 304 and 305 is an ordinance prohibiting the terection, construction or placing of any sign or placard within 10x10 feet of the curb line of US Highway 287 within the city limits. The exception to this is if the sign is at a minimum of 7 feet above the ground and declared an emergency. Failure to comply with this ordinance may result in a fine not to exceed \$100.

Speed limits on highway 287 was set at 45 mph with a fine of \$200 for speeding on the highway.

Fourth St. (formerly 3rd) was closed.

An ordinance closing and abandoning the most easterly 16 feet of Leroy (formerly Tobin St) and various other parts of that street was done in 1962.

New houses moved into town are required to have all electrical and plumbing materials inspected to comply with the city standards as outlined on page 309 in 1962.

The reward for reports leading to arrest and conviction of arsonists was raised to \$200 in 1963.

The attachment of all electrical service drops to a building shall be not less than ten cet above finished grade with further limitations for sidewalks and driveways and alleys outlined in the ordinance or page 310.

All of the most easterly 32' of Bugbee Ave. (formerly Scott Ave) was closed in 1963.

The most westerly 24' of the most easterly 36' of Patrick St. (formerly Scott St) was closed in 1964.

The municipal Civil Defense and Disaster Relief Committee

The municipal Civil Defense and Disaster Relief Committee of the City of Clarendon and its associated offices was created in 1964 on pages 312 - 315.

Speed limits on HWSH 70 and FM 2362 was outlined with this sentence "and it shall be unlawful for any person to drive a vehicle at a speed in excess of any speed so declared in this ordinance when signs are in place giving notice thereof" giving leeway and flexibility to the changing times. Violation of this ordinance may result in a fine of up to \$200 for HWSH 70 and up to \$100 on FM 2362.

An ordinance creating the office of Administrator for the City of Clarendon and prescribing his powers and duties thereof was outlined on pages 318 and 319 in 1964.

Some of his duties include: seeing that all laws and ordinances are enforced. He can remove or oppoint, with the advise of the governing body of the city, all department heads. He can exercise supervision and control over all departments created, he shall attend all meetings of the city board and see that all terms are in favor of the city and its inhabitants in any public utility franchise. He is to act as budget officer and act as purchasing agent.

Animal Warden, a position not currently filled, was established in 1965. This ordinance declares it a public nusiance to allow a cat or dog to go about the city. They must be tagged, have current rabies tags and city tags. They must also wear collars.

If a person is bit or scratched or otherwise attacked, the Corporation Court of the City of Clarendon shall have the authority to hold a hearing and, if the court so decides that the dog or cat is vicious or dangerous, it shall be ordered to keep it muzzled or restrained in a pen or cage or destroyed.

Barking dogs can be declared a nuisance.

If violation of an unlawful, or an offense is declared or it it is termed a misdemeanor for not following those laws, the violation of any such provisions of this ordinance shall be punishable by a fine not exceeding \$200 for each seperate offense. See pages 320 -325 all dog and cat owners.

Building permits are to be issued only upon approvat of the

Building permits are to be issued only upon approval of the city planning board.

The city judges office was appointed in 1965 on page 326.

The planning and zoning commission was established in 1965 on page 327.

All of the most easterly 5' of Allen St. (formerly Winne St) was closed in 1966.

Lakers Homemakers

Club met

Lakers Homemakers
Club met Monday October
12, 1981. There were six
members and two guests
present. Cherri Brown, Extension Agent met with our
club for the first time and we
welcome Eleanor Crossland
as a new member.

as a new member.

Meeting was brought to order by vice-president, Aileen Moorse in the absence of President Lois Mc-Vicker. All answered roll call with something recalled that our mother did which is outmoded.

Suggestions were made about something our club might buy for City Hall.

Cherri gave a short report on last Council meeting as no one from our Club was present. She also gave an "making your own mixes."
She gave us some recipes for hot chocolate mix, etc. and she will have some cook books for sale with other ideas on mixes. She served a delicious brownie with caramel and chocolate chips baked between layers of brownie mix. She will give our November program on Christmas ideas, after an enjoyable visit with her,

Cook eggs at low to moderate temperatures. Over-cooking and high heat toughen eggs. To hardcook, place eggs in cold water, bring to boil, cover and turn off heat. Let stand 25 minutes, then plume in cold

HOW SWEET IT IS

The way a medicine tastes is important. Children often refuse to take medicines that do not taste "good". Some adults, on the other hand, may think that a medicine has "exceptional qualities" if its taste is disagreeable. Most of us, however, prefer pleasant tasting medicines.

"Sweetness" is necessary in order that the full impact of most flavoring agents might be produced. In the past, almost all liquid medicines were sweetened with sugar. Many pharmaceutical companies are now using sugar substitutes in their liquid medicines.

Sugar substitutes consist of one of the slowly metabolized carbohydrate compounds or saccharin. These are not thought to promote tooth decay. Saccharin adds no calories to the diet and may be preferred by diabetics and those on weight reduction diets. Individuals concerned about the effects of refined sugars on the body may also prefer medicines containing no sugar.

Many prescription and nonprescription medicines are available that contain no sugar or very little sugar. For specific information, ask your pharmacist.

"Keep back thy servant also from presumptuous Psa. 19:13

The thought of presumptuous sins is interesting. Exactly what could they be and how do they differ from other sins? Several possibilities came to mind as I thought on this Bible verse. Failure to ask God for blessings certainly could be presumptuous, for we would be assuming God would bless whether we asked or not. James deals with this in a blunt statement "You have not because you ask not. (4:2). There is a suggestion here that we deprive ourselves of many things God would give if we only took the time to request them. Mere presumption, undoubtedly.

Then there is a presum-

NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebras in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensa-tions, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forefunners of more serious conditions. Any one of these usually spells back

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiff-

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored. you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will be come. Don't wait! Should you experience any of these danger signals . . . call for in depth consultation in Lay-

[Safety Belts]

Motor vehicle accidents now claim 50,000 lives annually and seriously injure another 2 million people. They are the leading cause of death for people 44 years of age and younger. In this century, approximately two million persons have died and nearly 100 million have been injured-more than three times the combat losses suffered by the US in ALL wars!

Chances of being killed in a car cash if not wearing your seat belts are 7 times greater than if you are involved in a car cash wearing seat belts.

The design of the lap belt is to hold the individual down. The first result of impact is for the body to rise up out of the seat in a direct upward motion to the top of

the car. The lap belt was designed to hold the individual down in the seat so that the upward motion wouldn't bring the body over the dashboard level for the next dynamic motion: the forward motion.

The shoulder strap is designed to prevent the forward motion that comes as a result of the impact of the car. Without a lap or shoulder strap belt, the body would rise up out of the seat then be thrown forward through the windshield.

If you do not wear your safety belt, you will be thrown through the windshield, out of the car, through the roof, into the steering wheel, or bounced around inside of the car. The

reason for injuries to people who are involved in a crash without wearing their belts is that the car injures them. They are thrown from the car and it rolls onto them, drags them or spins over them.

About half of the spinal cord injuries, perhaps the most traumatic injury that a person can sustain and still live, are caused by car crashes. This means about 5,300 Americans disabled in this way each year.

The reason race car drivers can walk away from horribly mutilated car crashes is because their shoulder harness straps both shoulders down, they are held snugly against the seat which is designed to wrap around them and cushion their head

car sales during 1980, the fatality rates from accidents

Although 95% of the fatalities could be prevented through the use of seat belts, only about 10% buckle up However, accidental death is preventable by the use of car safety devices such as inflatable bags and safety belts.

town? YES! If a car is going only 30 mph and, collides with something, and if the driver is not wearing safety belts, he will be thrown up and forward with a force 30 times his weight. If he weighed 150 pounds, that would be a force of 4,500 pounds!

If mother holds Jr. and Jr. weighs 20 pounds, that child would be moving forward with a force of 600 pounds coupled with that 30 times the weight of his mother squashing him from behind. This is called the "child crusher syndrome."

Buckle up those safety belts. They are designed for a purpose and that purpose is to reduce the extent of injury suffered in a crash by restraining the individual to prevent trauma by being thrown up or forward or out of the vehicle. USE them, even when going to the Post Office. Accidents in town are as frequent as on the highway. Statistics show that MORE accidents happen within 5 miles of your home than further away. BUCKLE UP FOR SAFETY, buckle up and SURVIVE.

A MESSAGE FROM YOUR EMT'S.

Some women may be veterans without knowing it. About 25 percent of the Women's Army Auxiliary Corps chose to remain civilians when the Women's Army Corps was set up in 1943. However, a few years ago-Congress gave the former WAACs veteran status, just like WACs. To establish their eligibility, they must first apply to the Army for an honorable discharge.

Veterans can get more in-formation and assistance from any American Legion Post or Veterans Administration Office. — Michael J. Kogutek, National Commander.

Water for Texas

Amendment 4

on Ballot

bearing fromations or aquifers. Decline of these squifers or the water table causes one or more of the following: increased pumping costs; increased saltiness of the water; land subsidence; and ultimately, the exhaustion of the aquifer as a water supply.

The long range water supply of Texas High Plains must come largely from outof-state sources. Alternative water import projects and their costs are currently being assessed under a congressionally authorized and funded study. The study. which involves Texas and five other states, is scheduled for completion in mid-

It is critical that these problems and providing priority funding for those needs in the foreseeable future. Amendment 4 represents a solution to what could be the most potentially devestating array of problems facing all Texans.

On the Ballot in November

Several constitutional amendments will be on the ballot for you, the voters, to decide in November. Here is a list of those amendments, along with a short explanation of the advantages and disadvantages of each:

1. Gives cities, towns and other taxing unites the authority to issue bonds and notes to encourage development in unproductive, underdeveloped, or blighted areas. These areas also would receive tax exemp-

Supporters say this amendment could bring prosperity and new development to blighted areas. Opponents say it also could shift more of the tax burden to "healthy" areas. (Passed during the Special Session.)

2. Permits property owners who have defective titles, but have occupied land and paid taxes on it for 50 years or more, to have their titles corrected. There is no apparent opposition to this amendment.

3. Creates committee to oversee the state's budget. The committee would consist of the Governor, the Lieutenant Governor, the Speaker of the House, plus the chairs of the Senate Finance Committee and Senate State Affairs Committee, and the chairs of the House Appropriations Committee and the House Ways and Means Committee. Supporters say the proposal could result in better, more efficient management of state money. Opponents say it would give too much power to the al-

ready-powerful Governor. Lieutenant Governor and Speaker.

4. Dedicates half the state's surplus revenue to water research and development. Supporters say this

proposal would help ensure that Texas has enough water for the future. Opponents say passage of this proposal would use up the state's surplus revenues. (Passed during the Special Session).

5. Exempts livestock, poultry and some other farm products from property taxation. Supporters say the amendment would put livestock on a par with other agricultural products, which are already exempt. Opponents say the amendment probably would shift the tax burden to other areas, such as homesteads, farms, and ranches.

6. Permits local option exemption of 40% of the appraised values of homesteads. Supporters say homesteads have been unduly burdened by recent reappraisals, and they now deserve a break. Opponents say both homesteads and businesses have been underappraised in the past, so

homesteads should not get a break now.

7. Authorizes the state to issue additional bonds to fund the Veteran's Land Fund. Also would raise the maximum interest rates allowed on these bonds from six to ten percent. The Veterans' Land Fund issues bonds and loans money to veterans to buy at least ten acres of land. It charges the veterans an interest rate one percent higher than the interest rate on the bond issue.

Supporters say this proposal would help veterans buy land. It is selfsupporting and costs the taxpayers nothing. Opponents say the Fund is large enough already. (Passed during the Special Session).

Make your voice heard! Vote on November 3!!

STOCK AND TAXES

AUSTIN-Irrigation, the source of high crop yields in the Panhandle and Trans-Pecos, has become so expen-LIVESTOCK AND TAXES

AUSTIN - Because we produce such a large percentage of the livestock in the state of Texas in our part of the state, an amendment to exempt livestock and poultry from property taxes is certain to be controversial, and controversial

The terms of the amendment are simple enough. If passed, the amendment would exempt livestock and poultry from property tax.

Those who favor the amendment say it is only fair that livestock be included in the list of farm products that are already exempt. For example, soybeans, wheat, cotton and rice are exempt, so livestock also should be exempt, they say.

Because 22 percent of the cattle slaughtered in U.S. are finished in Texas Panhandle area feedlots, feedlot owners and the cattle industry are at a disadvantage in this state, supporters say. Besides, feedlots pay only about one percent of the property taxes in Texas, so their loss would hardly be felt, supporters argue.

Also, livestock is sometimes hard to locate and count for tax purposes. Many times, it is expensive for the taxing units to assess the tax on livestock, which means the taxing unit

Assemble a group of princesses, pirates and assorted monsters on Halloween eve; turn the lights down low, and set out the ingredients for some "make your own" treats. Children of any age love to make things, particularly if both the fixings and the final creations are good to eat. Just a few delicious ingredients from the supermarket—Kraft miniature marshmallows, marshmallows, marshmallows, and decorative conding are the basis of allow creme, and decorative candies - are the basis of host of fun cupcake creations.

Each child can make an individual Goblin Cupcake Witch, Indian or Ghost with just a few easy ingredients. The Kraft Kitchens have created some exciting Halloween treats that are surprisingly simple to make. Start with large home-baked or store-bought cupcakes; turn them upside down, and frost all over with Angel Mallow Frosting, which an adult can make ahead of time. Then, take a package of Kraft miniature marsh-mallows, and place them in even rows all over the frosted cupcakes. Distinctive facial features and decorations are added with candy corn, gumdrops, chocolate shot and other candies.

To create goblins, invert and frost cupcakes. Cover with marshmallows. For eyes, cut marshmallow in half horizon-tally, dip cut side in colored sugar. Use candy corn for nose.

Variations:

Wicked Witch: Create face features with decorative candies and miniature marshmallows. Create hat from colored paper; decorate with miniature marshmallow halves.

Injun Man: Create face features with decorative candies. For feathers, arrange gumdrops and miniature marshmallows on toothpicks; insert in cupcake.

Ghost: Create face features with black jelly beans.

ANGEL MALLOW FROSTING

¼ cup sugar 1 egg white 1 tablespoon water

1 cup (one-half 7-oz. jar) Kraft marshmallow creme

Combine sugar, egg white and water in double boiler; beat with electric or rotary beater over boiling water until soft peaks form. Add marshmallow creme; beat to stiff peaks. Remove from heat; beat in vanilla. Tint frosting with food coloring, if desired.

Reading a letter aloud to a group, broadcasting it on the air, showing it on a television

FTA attends District Workshop

On October 14, 1981, the Clarendon F.T.A. officers and members traveled to Panhandle to attend a District XVI F.T.A. officers workshop.

Dianne Havens, Dist. XVI Historian for 1981 and Miss Betty Veach, District Advisor attended a District officers meeting at 9:00 at Panhandle H.S. with Tod Mayfield, District XVI FTA President presiding. The general session followed at 9:30. The different district officers presented a discussion on the duties of "heir" particular office and ideas on how to make a better FTA Chapter. The program was as fol-

The pledge of Allegiance was led by Jan Dennis, Canyon, District XVI Parliamentarian; the FTA pledge was led by Ruth Roark.

Panhandle, District XVI Cor-

responding Secretary; Tod Mayfield, Panhandle, District XVI FTA President, welcomed the assembly and introduced guests; a brief. report of State activities was brought by a Miss Travis, Tulia, State Corresponding Secretary; a discussion of membership and programs was led by Melinda Stevens, Tulia, District XVI FTA Vice President; a discussion of service projects and outstanding features of chapters was led by Sandra McKee, Childress. District XVI FTA Recording Secretary; the Ways and Means discussion was led by Kim Tye, Kress, Secretary; Dianne Havens, Clarendon, District XVI FTA Historian, led the scrapbook, yearbook, and convention discussion; the session ended with Tod Mayfield, president, making announcements about the District FTA Convention on November 10 at Canyon and the State FTA in Houston in February.

Attending from Clarendon FTA were Dianne Havens, Pat Ritchie, Rosie Arias, Muzzy Hays, Kay Bell, Annette Watson, and Miss Betty Veach, advisor.

Reporters: Annette WATSON & **MUZZY HAYES**

Presidents James Madison and Zachary Taylor were second cousins. Their great-grandfather in comwas James Taylor.

Get the most for your money when you select an Evans-Black carpet with the **Antron Advantage**

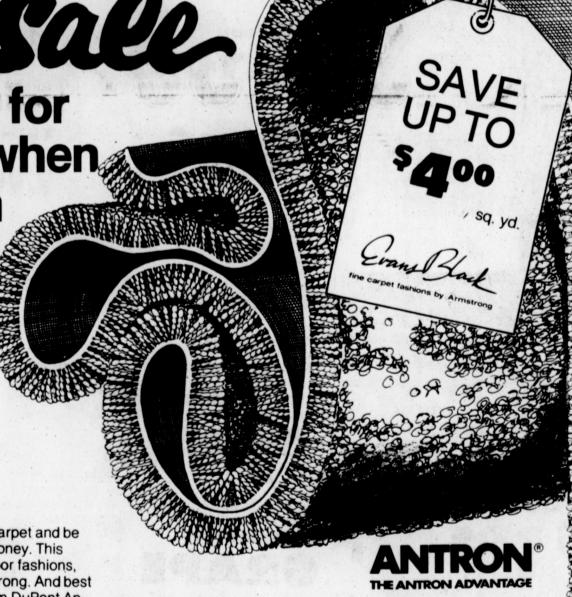

Now you can choose a luxurious new carpet and be sure you're getting the most for your money. This week, we're featuring the ultimate in floor fashions, luxurious Evans-Black Carpet by Armstrong. And best of all, they're all constructed of premium DuPont Antron nylon!

Check these Antron Advantages:

...

- · A special shape that traps less dirt so your carpet cleans easier
- Durability so it wears well even in critical, heavy use areas
- Outstanding mat resistance and crush recovery so it bounces back
- Easy spot cleaning for those little accidents that are bound to happen
- Built-in static protection so electricity build-up is virtually eliminated

For an added Antron Advantage, look to Antron Plus for total stain protection from top to bottom. It actually resists soil and stains!

Bronchos Win Con't fm pl

seven penalties.

Clarendon shut off all hopes of a Shamrock comeback in the final period, marching down the field in a time-consuming drive. Thompson capped it with a five-yard jaunt with five minutes remaining.

The defeat was only Shamrocks second of the season. They now stand at 4-2 and 0-1 in loopplay.

Meanwhile, the Broncos look forward to traveling to Wheeler, who the Broncs trounced last year as they made a big step in earning the District Championship. Last year the Broncs broke a 20-game win streak by the Mustangs and as head coach Ted Allen out it "broke their tradtion-single handedly". Allen insists that the Mustangs will be more ready than ever to upset the top-ranked AA team in the Panhandle

Bronchs Play Wheeler Con't fm p 1

Looking at Wheeler, they are 3-2 for the year, after losing to Wellington 14-0, the only other loss was to Boys Ranch, 13-6. As you look at Wheeler, they are a ball-controll offense, with a small amount of passing. They will attack a defense from the basic I wing offense taking advantage of an offen-

sive line that has an aver-

1st downs 23 net yds. rush. 303 net yds. pass. 83 total yds. gained 386 passes att. 18 passes com. 8 Int. by 0 No. punts 2 Punt avg. 35.5 Opp. Fum. Rec. 4 No. of Pen. 13 Yds. pen. 135 Rushing Hearn - 17 for 127, 1TD B. Weatherton - 16 for 83,

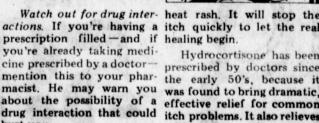

Thompson - 12 for 78, 1TD G. Weatherton - 1 for 2 Woodman - 1 for -2 D. Weatherton - 3 for 3 Passing

age of about 190 per man and to go along with that a 200 pound fullback and a 185 pound tackle that is just a super athlete.

On any given night the Mustangs will be hard to handle and they are going to be in that position this Firday because another loss will eliminate them from playoffs, something they are not accustomed to.

Tips On Your Teeth

Each year, hundreds of people contact The Dental Society of the State of New York to find out what kind of dental specialist they

should go to for care.

According to Dr. Edward Whalen, Dental Society president, there are eight areas of dental specialization

besides the general practi-tioner. He offers the following "dictionary of dental specialties":

Orthodontics is the sci-

Oral pathology is con-cerned with the nature of cerned with the nature of diseases of the mouth, a study of their causes, processes and effects. The oral pathologist may not necessarily treat the diseases directly but may provide counsel and guidance to the other specialists who do provide treatment.

Endodontics deals with the causes, diagnoses, pre-vention and treatment of diseases of the pulp and other dental tissues which affect the vitality of teeth.

Pedodontics is limited to the treatment of children, adolescents and young adults whose dental development is not complete.

Periodontics is the science of diseases which affect the oral mucous mem-

Good oral hygiene is important to the prevention of tooth decay and an attractive set of teeth.

branes, as well as other structures which surround and support the teeth.

Prosthodontics deals with

replacing missing natural teeth and associated structure with fixed or removable

Dental Public Health is the control and prevention of dental disease and the promotion of oral health through organized community efforts. It is a form of dentistry which treats the community as a patient, rather than as individuals.

Good daily oral hygiene, proper diet and regular checkups are the best ways to prevent problems before they start, says Dr. Whalen. They'll save you time and money in the long run.
