WINDY VALLEY FLOOD DISTRICT IS UNITED TO FIGHT WATER EROSION

Farmers Form Organization At Meeting In Lelia Lake Tuesday Night; Soil Conservation Service to Help

Water erosion in the Windy Valley community which yearly takes heavy toll of approximately 30,000 acres of crops will be corrected in the near future, County Agent H. M. Breedlove said today after farmers of the community met Tuesday night in Lelia Lake to form a water conservation organization.

Water rushing down the valley from two water sheds each year cause heavy land and crop damage, Breedlove stated, which prompted the forming of the organization.

In Co-operation with the Soil Conservation Service and C. C. C. enrollees from Memphis, terracing, contouring, gully wash control, and strip cropping will be immediately begun in the section.

Present at the meeting Tuesday night were over 60 farmers who elected John Howard chairman of the promotion committee, with H. M. Breedlove secretary.

Other committee members are Elmer Kennedy, M. G. Cottingham, Harvey Shaw and Lamar Aten.

Engineers attending the meeting were P. C. Bennett, Manager of the Vega camp area; Mr. Nelson, regional SOS engineer, Amarillo; Mr. Reese, camp superintendent, Memphis CCC and Mr. Knapp, soil specialist of Memphis.

Band Parents to Purchase Three Instruments

An enthusiastic session was held Monday afternoon when the parents of the members of the band got together. It was readily agreed to purchase three instruments, a bass horn, baritone saxophone and alto horn, at an approximate cost of \$250. A committee will secure contributions to the fund Friday.

A special committee was selected to secure transportation for members of the band when necessary to go to other sections. Future meetings will be held the first Monday night of each month in the Junior High school.

DEMOCRATS MEET IN CONVENTION

Administration Endorsed And State Delegates Named

The county convention of democrats held at the courthouse Saturday was enthusiastically if not numerously attended. W. P. Cagle, county chairman, presided.

Delegates selected to attend the state convention to be held in Beaumont were W. P. Cagle, J. T. Patman, H. C. Brumley, S. W. Lowe, Y. O. McAdams, W. A. Davis, J. R. Porter, W. T. Link, C. J. Douglas, A. L. Chase, D. W. Turner, W. M. Pickering, J. B. Masterson, Zeb Mitchell, A. B. Bynum, Frank Hermesmeier, J. A. Johnson.

Resolutions of endorsement included both state and federal administrations.

Cotton Payments Expected Shortly

First Shipment Expected To Be Mailed to College Station Tonight

Applications for cotton subsidy payments are being signed by Donley County producers this week and the first shipment is expected to be mailed to College Station tonight, H. M. Breedlove, County Agent said this morning.

The total payments are expected to reach over \$200,000 in Donley County.

Payments will be made at 3 cents per pound for approximately 60 per cent of the producers base production.

After reaching College Station, the forms must be reviewed by the state board, passed to the general accounting office and sent to the district office in Dallas before the checks are drawn for the producer.

MANN RE-OPENS CAMPAIGN FRIDAY

DALLAS, August 2.—Gerald C. Mann, who without benefit of machine politics polled over 276,000 votes in the primary resumed his campaign for attorney-general Friday night when he talked over a state-wide radio hook-up.

Short 15,000 Votes. In running second to Walter Woodul, present lieutenant-governor and a veteran in Texas politics, Mann lacked only about 15,000 votes of leading the ticket.

A vigorous opponent of political racketeers and professional politicians, Mann's achievement in the primary is a tribute to his friends who constitute his only workers.

Mann's amazing leap from a national gridiron hero (he was All-America at S. M. U.) to the center of politics is one of the country's outstanding achievements by a young man.

Well Qualified. He is well qualified for the position he seeks. He has served as assistant attorney-general, secretary of the state, and was the youngest member of the Texas Planning Board in Washington, D. C.

He is a practicing lawyer in Dallas, having built his practice from nothing a few years ago into a leading firm.

He has a family of two children and has taught a Sunday school class in Dallas ever since his college days at S. M. U.

Alanned Farmers Get Heavy Hail Loss Saturday Night

Several farmers near Alanned fell victims of a hail storm Saturday night about the time that another cloud was passing over the Chamberlain community north of the schoolhouse doing heavy hail damage to crops in that section.

Among those affected near Alanned were Dick Thomas and on the Crisp and Hunt farms. Heavy losses were reported in the Chamberlain, Whitefish and Van Eaton communities.

Evidence to Be Presented To Grand Jury On Auto-Truck Crash Sat. Night

Officers said today that no charges would be filed in the auto-truck accident on west third street Saturday night, but evidence would be presented the grand jury in session this fall.

The accident occurred around 11 o'clock Saturday night when three Clarendon youths, in a light sedan, crashed into the rear of a parked truck owned by Raymond Pharr.

The right front wheel of the car was smashed, fender torn loose and running board damaged. Only minor damage was reported on the truck.

City Employees Attorney To Aid In Tax Collections

With approximately \$45,000 outstanding in delinquent taxes, the City of Clarendon yesterday employed Richard Morris, Claude attorney, to aid in collections, Mrs. T. M. Shaver, city secretary, said this morning.

The delinquent rolls, however, are \$5,000 lower than for the same period a year ago, Mrs. Shaver said, when approximately \$50,000 was showed.

Sale Date Extended To Close Not Later Than 13th

Returning here the first of the week, manager M. Muehlberger of the Bargain store of Wichita Falls, purchasers of the Rieger stock, stated that the sale would close the 13th of the month. He also indicated the possibility that the firm would continue in business here.

W. WALLACE LAYTON - - - former pastor who will begin a revival at the Church of Christ tomorrow.

Dalhart XIT Reunion Will Begin Next Monday

Dalhart is really prepared to strut her stuff in a big way Monday and Tuesday of next week. It will be the third annual reunion of the XIT cowhands and the public in general. In fact few of the old cowhands remain, but the younger generation and the folks from other places are pledged to "carry on" in keeping alive the old western range spirit.

There will be a roldeo, a real one and last year's was a dandy. The Chuck wagon feed, dancing, parading and most anything that was found sticking around on both ranch and a cow town in the old days.

Locally, quite a few from here will go. Lee Landers, Pink Rogers, Homer Mulkey and others will go up Sunday to get all set for the next day. J. C. Stalk will be there if not interfered with by visiting relatives. A number of our Donley county folks who are not of the XIT family are going to see the show.

Mike Stricklin Injured When Car Hits Washout

Mike Stricklin was injured painfully Monday night when the automobile he was driving plunged into a bridge washout in the Rowe ranch pasture.

Stricklin was returning to the ranch, where he is employed, and was nearing headquarters when the accident occurred. His injuries were reported as head and face lacerations and a knee injury.

The car was only slightly damaged.

20 4-H Club Calves Being Fed to Brighten Outlook For Next Spring Shows

With 20 4-H Club calves fattening on feed for the 1939 spring shows and two groups of 5 to be started within the next few days, County Agent H. M. Breedlove yesterday said he believed the exhibit next March would surpass all former shows.

The 4-H calves will be augmented with many F. F. A. animals to make an entry list of at least 35 purebreds for the Donley County event and Amarillo Fat Stock show, Breedlove said.

Will Attend Old Settlers Meet Near Weatherford

Urgent invitations have been received by old settlers of Parker county to attend the reunion at Holland's lake near Weatherford, August 11th, S. B. Kutch has not been back there but once since he left in 1902. He's going; Others to go will be J. A. Kutch and Lewis Wheat of Memphis and John Beverly of Pampa.

Hot Weather Brings Minor Illness To Clarendon

Physicians this week report many minor illnesses due mainly they said, to extreme hot weather in the latter part of July and the first part of August.

On the list are Mrs. S. B. Couch, Dorothy Jean Tatum, Sonny Tatum, David Howard Scott, and Nina Crawford.

Visitors See Many Historical Points On Vacation Trip

Inland Sea, Salt Lake City Among Interesting Points Visited to Coast

Mr. and Mrs. W. H. Price and daughter, Shirley and Mrs. J. T. Patman, returned to Clarendon Sunday after a tour of California and the west coast. The Price family left Monday for their home in Marion, Ill. Mrs. Price is the daughter of Mr. and Mrs. J. T. Patman.

The party began seeing interesting places of ancient vintage across New Mexico, and more in Arizona. The Royal Gorge captures the imagination of all tourists and this natural phenomena required some time to properly see all the beauties.

Salt Lake City and the big inland sea near it captivates all visitors not only because of its beauty but because of the trying experiences of the people who "made the desert to blossom as a rose" while being persecuted by members of their own race. The cathedral and church and monument to the sea gulls are most interesting, all set within the sheltering folds of a mountain range.

Frisco, the bay and bridge and later the capitol city of Sacramento came in for attention. Only a kodak can record the pleasant memories, so vast and numerous are they on a trip of this kind.

Los Angeles, "the City of Angels," is a favorite tourist point and the never-to-be-forgotten favorite trip to Catalina Island by glass-bottom boat. It was a great trip to this point.

On the return, proper tributes in time and admiration called for a halt at the Grand Canyon. On across Arizona, nature has been lavish in the expenditure of her workmanship and paint in preparing a vast scenic beauty spread for miles.

It was a great trip, but like all trips, the end comes too soon since time passes quickly and other plans must have consideration.

Dave McCleskey Killed In Crash

MINERAL WELLS, Aug. 1.—Dave McCleskey, 55, Perrin farmer-rancher, was killed instantly this afternoon when the car he was driving was struck by a truck.

He was entering the highway near Perrin from a side road when his car and the truck collided.

McCleskey was born in Weatherford and came to this county 10 years ago. He was a member of a pioneer family one of the oldest in this part of the State. His mother, Mrs. W. B. McCleskey, is the oldest living resident of Parker county.

He was a member of the Masonic Lodge, the Woodmen of the World and the Baptist Church.

Surviving are his widow; two sons, Pete McCleskey, Mineral Wells, and Ed McCleskey, Dallas; two daughters, Mrs. Travis Mask, Perrin and Mrs. Ned Mabry, Breckenridge; two brothers, Ned McCleskey, Mineral Wells, and George H. McCleskey of Clarendon, and four sisters, Mrs. Ralph Hubbard, Weatherford; Mrs. Elmo Wall, Lubbock; Mrs. John A. Miller, Colton, Cal.; Mrs. G. W. Turpin, Fort Worth, and his mother.

The funeral services were held at Dacey, Parker county, Tuesday afternoon at 4 o'clock, with Rev. Fred Puryear officiating, and burial took place in the Dacey cemetery.

Pallbearers were: Monroe Woods, E. D. Dill, Sam Borden, Everett Shelby, J. H. Doss and Joe Blain of Perrin.

VISIT IN HOWZE HOME

Mr. and Mrs. Herman Clutter and Miss Ruby Lee Landers of Amarillo, and Mrs. Reed Powell and son Bobby of Centerville, Iowa, visited in the W. H. Howze and W. L. Landers homes here Sunday.

Hunting Season And Regulations

Game Wardens With Uniform Will Protect Wild Life

Yes sir, under the new regulations, game wardens are bedecked spick and span in uniforms now. That uniform is worn by the 'big boss' of the range of wild life. The deputy game wardens may not be so spectacular, but they bring in more fine material at times than the game warden himself.

The dove season in this section opens September 1, and closes October 31. The hours for shooting doves during the open season is from 7 a. m. to sunset.

Under the federal migratory waterfowl regulations, duck hunters will have a 45-day open season this year as compared with a 30-day open season in 1937. The open season on ducks and geese is from November 15 to December 29th.

The daily bag of canvas back, redheads or ruddy ducks is three of each species. The possession limit of any of these ducks is six of any single species, or six in the aggregate.

First Christian Church To Observe Mother-in-Law Day Sunday

Mother-in-laws of Clarendon will be honored at the First Christian Church Sunday morning. It was announced by the Rev. R. E. Austin, pastor, today.

Gifts will be presented the oldest and youngest mother-in-law, Austin said.

Austin said observance of the day was prompted by the Sunday School lesson for Sunday, from the book of Ruth, which deals with mother-in-laws.

Everyone is invited.

Measurement of Farm Land Pushed Forward With Three Crews For 24 Hour Day

With three crews working eight hour shifts for a 24 hour day, County Agent H. M. Breedlove estimated today that measurement of Donley County farm land for participation in the 1938 federal farm program, would be completed by August 15.

Thirty supervisors and helpers are in the field scaling acreage on aerial maps while the three crews are computing crops by planimeters.

Breedlove said in event that a producer had more than his allotted acres, he would be notified in time to make changes in order to comply with the program.

Attend Cheyenne Frontier Days Celebration

The national frontier days at Cheyenne, Wyoming attract people from all over the world. It has no second in Pendleton, Oregon or Calgary, Canada we are told by those who have seen them all.

Returning home Monday were Mr. and Mrs. Clyde Gilbert and children, Misses Hazel, Clynel and Billie Lou and son John Howard, all of whom saw the big rodeo at Cheyenne.

They spent some time in the parks and looked at everything between here and that rodeo ground including Pike's Peak.

Highway Commission Grants Survey Immediately On South 18-88 Highway

A large number of citizens from Perryton to Sweetwater on proposed highway 18-88 met with the State Highway Commission in San Antonio Sunday night, and again Monday morning.

Matters affecting Donley county could be boiled down to two requests. G. G. Reeves representing the county commissioners asked for topping on that portion of road already completed, an extension from the Sawyer corner to town and an underpass west of the Denver depot. The request for a permanent survey of the proposed route from here to Turkey was made by Sam Braswell.

All requests were complied with

OLD SETTLERS TO MEET AUGUST 19

Congressman Jones Will Be Principal Speaker On Varied Program

President W. I. Rains announces that the Donley County Old Settlers Association will hold their annual reunion at Tate Grove August 19th. He states further that "this will be the best meeting we have ever had."

Cong. Marvin Jones has been asked to make the principal address. Other speakers are to be secured. Music and games will be a feature of the day's fun and amusement for all ages.

All those residing in Donley county for 20 years or longer are eligible to share in the Old Settlers' picnic affair.

Bring baskets, tubs, buckets and boxes of food. There will be plenty of cool water and trimmings will be supplied at the noon meal.

This gathering of the old-timers is the biggest day old Donley county has to offer her pioneer citizens. It makes possible that form of old-time visiting known only to the first settlers. There is an opportunity to relate interesting history of a day that is gone forever. The invitation goes out to all those who can qualify in point of residence.

City Schools Eligible For Approximately \$15,000 In State Aid Apportionment

With the apportionment rate of \$22 per capita retained by the state board at a recent meeting, the Clarendon schools will be eligible for approximately \$15,000 in state aid for the 1938-39 school year, H. T. Burton, city superintendent said today.

The figures are approximately the same as in 1937-38, Burton said.

199 Receive July Old Age Checks In Donley County

One-hundred and ninety-nine checks totaling \$3,143 were received for old age assistance in Donley county for the month of July, W. G. Word, county clerk, revealed yesterday.

The 199 payments were one above the June total when 198 persons received assistance. The amount, however, was only \$3 above the June figure which was \$3,143.

The average amount for the 199 persons is approximately \$15.78.

CAR REGISTRATIONS

July Outstanding For Rainfall And Low Temperatures

July, 1938, was outstanding in Donley county both for rainfall and cool weather, Joe Goldston, Clarendon meteorologist revealed today.

One and forty-one hundredths of an inch of moisture was received here in five days of precipitation.

Rainfall for the period was July 7, .05; July 17, .05; July 20, .62; July 26, .23; July 29, .53. A trace of moisture was received on July 15th.

The hottest day for the month was recorded on July 28, when 102 degrees was registered. The minimum temperature for the month was 59 degrees on July 24 and 26.

The total moisture for the first six months this year, ending July 31, stands at 16.93 inches, slightly one-half over the average yearly precipitation of approximately 23 inches.

DONLEY OIL TEST DRAWS INTEREST

While the Panhandle field marked time for the first time this year, interest centered in Donley County where Robinson & Jones of Oklahoma City resumed drilling Tuesday after setting surface pipe on its No. 1. Nelle Kuteman, section 88, block 20, H&GN survey. The wildcat is located two and a half miles southwest of Hedley.

The test has drawn the attention of the Texas Company and the Southern Petroleum Exploration Corporation, which took several leases in the vicinity of the test this week. Magnolia Petroleum Company has several sections un-

der lease in the territory and Humble Oil and Refining Company already was the holder of several thousand acres of leases to the south.

Robinson & Jones assembled an original block of 12,000 acres with the understanding that a 3,500-foot test would be made. A change in plans has been made and the test will be drilled to a total depth of 4,500 feet, if necessary. Elevation is 2,702 feet.

Drilling will be resumed at 157 feet and will be with rotary tools until the deep lime has been passed.

Local F.F.A. Boys Leave On Trip To Yellowstone

Twenty-four F.F.A. boys accompanied by Mr. and Mrs. J. R. Gillham, and Mr. and Mrs. Don Matheson left early Sunday morning for Yellowstone National Park for a two weeks trip.

The first day will be spent viewing scenery this side of Colorado Springs, where the group will spend the night.

David Oden, L. B. Hartzog, Geo. Moore, Earl Shannon, J. T. Fincham, Beatty Hillman, Elbert Bain, Homer Hardin, Johnnie Leathers, Jr. and Oby Spier, Jack Rolf, Maschil Cole, Joe Williams, Laverne Johnston, Bailey Estes, Clyde Benton Douglas, Jr., Hartzog, Bobby Skelton, Frank Cannon, Gene Putman, and Vernon Reid made up the group.

Wallace Layton In Revival Here Beginning Friday

Announcement is made that Wallace Layton of Ranger will begin a revival at the local Church of Christ Friday, the 5th, and continue ten days.

Mr. Layton was formerly pastor here and is very popular with his people and the public in general.

MEMBER OF
 PANHANDLE PRESS ASSOCIATION

IT'S ON THE LABEL.

The courteous manner in which governor-elect W. Lee O'Daniel avoided political entanglements in declining any part in the affairs of others in the run-off primary speaks the business judgment of the man if not a keen political acumen.

Having elected a governor, Texas will get down to the business of electing a lieutenant governor, attorney general, land commissioner and a railroad commissioner August 27th, not to mention lesser lights in the run-off.

In view of the big vote given O'Daniel, it is likely that the voters will do their utmost to give him all the assistance possible in the selection of officials with whom he will have to deal as time goes on. It is further possible that those long in public office will not find much favor in the run-off. The governor-elect expects the same voters who selected him to see that he has the proper kind of help.

Because of his unprecedented vote, he will likely have a sympathetic legislature regardless of personal opinions among the members of that body during the campaign.

The new governor will enter upon his duties backed by the abiding faith of over five hundred thousand voters and probably a larger number than that who are not voters for several reasons. His will be a great responsibility. There will loom above the political horizon first, the pension payments. There will be greater need for more money. The next question is, can economy accomplish the result without a tax raise? Many think a business man can get the job done. All of us can agree that he can go a long way toward saving a huge sum providing he gets some help from others in authority.

Lastly, we can be as liberal in thought as we will expect of the new governor. Every fair-minded individual will wish him success, a leadership ability that will mean

a new day to Texans.

OUR ONLY AIM SIMPLY STATED.

The Leader has only one aim. That is to "treat the city fairly; the readers, intelligently; and the advertisers, honestly."

COLLECTING THE SALES TAX.

The following is taken from the Bernice, Louisiana News-Journal, and once more shows what could happen in Texas.
 "If all the cuss words already used by the people of the state over paying and collecting the sales tax, which began last Friday could be collected and coined into pennies, there would probably be enough money to fill the state treasury coffers to overflowing.
 The amount of the tax—one cent on every dollar's worth you buy—would not be so burdensome, but the nuisance of computing it, collecting it, and carrying around a pocketful of pennies and tokens is."

POLITICAL DICTATORSHIP.

Texas has spoken. The nation now knows what they think of political dictators. Carl Crowley with the blessing of Jim Farley, national fountain head of the democratic party in Washington, was able to muster but 17,737 rubber stampers in all Texas. He landed right at the bottom of the list. Down in San Antonio New Dealer Maury Maverick was given orders by the voters to stay at home after his present term in congress. Congressmen Saunders and McFarlane, given the Presidential blessing on his trip through Texas just before the election, as well as Maverick, have a stiff opposition in the run-off August 27th. Nor is this all the shattered political opinions. Texas gave a man who had never supported the administration the most astounding vote in all the history of the state in electing him governor. And Texas' 42 delegate stand-patters put the President in office by cinching his nomination. What a mixup of politics in Texas! Most Texans resent dictation. In fact it seems like they won't stand for it.

TRAILER SUCCEEDS SCHOONER.

California already worried over the surplus job hunters, is now experiencing a boom at Boomtown, a location where the proposed Shasta dam is to be constructed at a cost of \$170,000,000. Trailers have camped over the site of the dam. They are occupied by families. The men ask for work. There is no crime in seeking work, but California has thousands of surplus work seekers. And besides, the trailer owners refuse to budge off the dam site until signed up for a job. Verily the trailer succeeds the prairie schooner.

ANOTHER FAMILY RACKET.

Since wars are no longer "declared," they must be classed as a family racket, lacking any other term for the present. Back in 1869, Russia and China agreed upon certain national boundaries in Manchuria. The Japs took over the Chinese interest by force in 1932. Since that date the Japs and Russians have been spitting at each other and killing a few on each side to keep in practice. At this time, Russia appears to have decided to give the Japs some of her own treatment. They have been helping China all along, and the Japs are pretty well fagged out. It is a mighty good time for the whiskered boys to step in and put the Japs in their place on their own island and give the orientals a long rest.

TEMPLE OF TRUTH
By the Apostle

You can't gauge a woman's charms by the number of times she's been married. It is far harder these fast days for a woman to hold one husband than it is to turn loose a half dozen.

Are You a Taxpayer?
If you are a taxpayer, you may be interested in the new law that is to affect your interests after the first of next January. The new law reads:

Article No. 8, section No. 20, provides that after January 1, 1939, "No property of any kind in this state shall ever be assessed for ad valorem taxes at a greater value than its cash market value nor shall any board of equalization of any governmental or political subdivision or taxing district within this state fix the value of any property for tax purposes at more than its fair cash market value." The writer has always advocated that the property should be rendered at its value, true value, not a fictitious value; hence this information to the taxpayers.

Jumping at conclusions is the lazy man's way of digging for facts.

Getting rattled easily is an indication that there is a loose screw somewhere.

Some chickens get fried on Sunday, and others get stewed on Saturday night.

Devotion Rewarded.
It seems that a boy and girl were madly in love. So great was their love, in fact, that when Fate separated them and sent the boy to a distant city, he telegraphed his devotion and affection each morning. Every day for three years, the

same Western Union messenger boy knocked on the girl's door at exactly the same hour, bearing a message of undying love. At the end of three years they were married—the girl and the messenger boy.

There was a time when the strong men of America had families slept on beds of straw renewed each year at threshing time; men whose homefolks arose before dawn and finished the day's work by milking and other chores by lantern after dark. Hardships? Yes, lots of them. Misery, poverty, sickness, lack of education, beset by parasites and profiteers, and yet they were the strength of America. They were loyal citizens of the greatest nation on the globe. Flags were unfurled the Fourth of July and patriotism was theirs. Today, their children and grandchildren grope in darkness and vote for most anything for a change, and wonder what we are coming to anyhow.

According to a government census, America has more autos than bath tubs. But we never feel like a big shot sitting in a bath tub.

Did you know that when the Rocket, streamlined crack Denver train between Dallas and Houston, needs repairs they have to bring it up to Childress where their best shop equipment is located? It's a fact just the same.

Descriptive.
A little boy's first impression of a court trial was described thusly: "The boss made a short talk and

several men made speeches to twelve dumb men who did not say anything. Then the twelve dumb men were put into a room to be developed."

We've had a siege of halatosis and B. O. for some time. Now comes S. A. Never heard of it? Well it's nothing more than "stocking appeal." The fancy-colored magazine advertiser says "S. Been On Water Wagon.
An artist, painting in a country lane, saw a farmer approach and gaze with interest at his work. "Good day, sir. Perhaps you, too

are a lover of nature." The farmer looked a bit blank and the artist went on.

"Have you seen the golden fingers of the dawn spreading across the Eastern sky, the red-stained sulphurous islets floating in a sea of fire, ragged clouds at mid night—"

"No," said the farmer, in a matter-of-fact tone, "not lately. I been on the water wagon."

Spiritually Ready.
There was to be a christening party in the home of a farmer and the minister had made a long journey to his parishioner's house.

"Sir," said the minister, taking his host aside before the ceremony, "Are you prepared for this solemn event?"

"Oh, yes, indeed," said the farmer. "I've got two hams, pickles, cakes—"

"No, no! I mean spiritually prepared."

"Well, I think so: two gallons of whiskey, a case of gin and three cases of beer."

Sadler Considers Texas' Interests

To the cheers of thousands of Nolan County citizens, who gave him a clear majority in the first primary, Jerry Sadler, militant 30-year old candidate for Railroad Commissioner, opened his run-off campaign at Sweetwater Tuesday.

Promising his audience that he would conserve the bountiful resources of Texas so that citizens of today might profit from them as well as future generations, the young Longview attorney was introduced by his cousin, Harley Sadler, who managed Jerry's West Texas campaign.

"The forces of greed and monopoly are attempting to destroy the honor and safety of your homes", Sadler warned his listeners. "The avarice and deceit of professional politicians have long held an iron grip on Texas and squeezed out hundreds of thousands of dollars for their own ill gain.

"The time has come when we must drive out this gang of money-changers—drive them from beneath our Capitol's dome. We must pay the old age pensions, and we

must halt shameful abuses which have been cast upon the good names of our pioneer mothers and fathers. We must also triumph over monsters of misery to save and preserve this noble land of ours and our honorable heritage for those children of coming generations.

Seventy Million Trees For Southern Landowners

Farmers and landowners in the South will shortly have available approximately 70 million seedlings for planting on eroded or non-productive farm land, according to Regional Forester Joseph C. Kircher of the U. S. Forest Service. These seedlings range from slash pine to black locust and are being produced by the various State Forest Services in state-owned nurseries and will be distributed to the public at cost of production.

TWO DOGS (Pastime Scrapbook)

The dog next door is a stylish dog, His pedigree runs a mile, Our dog is only a pup, who shows His tongue in a cherry smile.

The dog next door has a plummy tail He carries it like a flag. Our dog has only a two-inch stub, But whistle, and see it wag!

The dog next door doesn't like to play He's rather afraid of noise. Our dog is always the friendly sort To romp with a crowd of boys.

Our dog's old collar is frayed and worn His leash is a piece of twine. The stylish dog is the neighbor's dog, But our little dog is mine!

THE ERROR

The typographical error is a slippery thing and sly. You can hunt 'till you are dizzy, but it somehow will get by. 'Till the forms are off the presses it is strange how still it keeps; It shrinks down into a corner and it never stirs or peeps. The typographical error, too small for human eyes, 'Till the ink is on the paper, when it grows to mountain size. The boss stares with horror, then he grabs his hair and groans; The copy reader drops his head upon his hands and moans—The remainder of the issue may be clean as clean can be, But that typographical error is the only thing you see. —Exchange.

Milling Sanatorium

MINERAL WELLS, TEXAS

AN INSTITUTION WITH A NATIONAL REPUTATION FOR THE TREATMENT OF CHRONIC DISEASES

TO WHOM IT MAY CONCERN:

I, E. P. Deahl, do certify that I am the father of Elaine Deahl, who was afflicted with Chorea (St. Vitas Dance) for three years and seven months; confined to her bed, unable to walk at all. In fact, she could not raise her hand, and after three treatments from Dr. Milling and staff she walked across the lobby of the Sanatorium, and after five treatments she was able to walk up a flight of stairs, and after a series of treatments over a period of only a few weeks she has been much improved, and has gone to school ever since, making her grades and doing well in school.

My wife was also afflicted with Leakage of the Heart, and after a few treatments from Dr. Milling and staff she was much improved, and was able to drive a car after one week's treatment.

Myself and my family have received such wonderful results from the treatments we received at the Milling Sanatorium that it is impossible for us to say enough in praise of his fine work and the good he and his staff are doing humanity. It is our earnest belief that they can help anyone they will accept in the Sanatorium.

FENCE INCREASES THE FEED SUPPLY

By T. C. RICHARDSON, Secretary
Texas Breeder-Feeder Association

It is easy to see an extra stack of hay in the barnyard, but many a potential extra stack escapes notice because it is scattered over the farm, in fence corners, along the branch, or grows in crop fields after they are laid by. No farmer would let it burn or blow away if he could see it all in one pile; he would reach for his shotgun if anyone threatened to take it away without paying for it. There is only one way to save such odds and ends of grain or forage, which is to let livestock do the harvesting. Whether it is crab grass in the cornfield, shattered grain in the

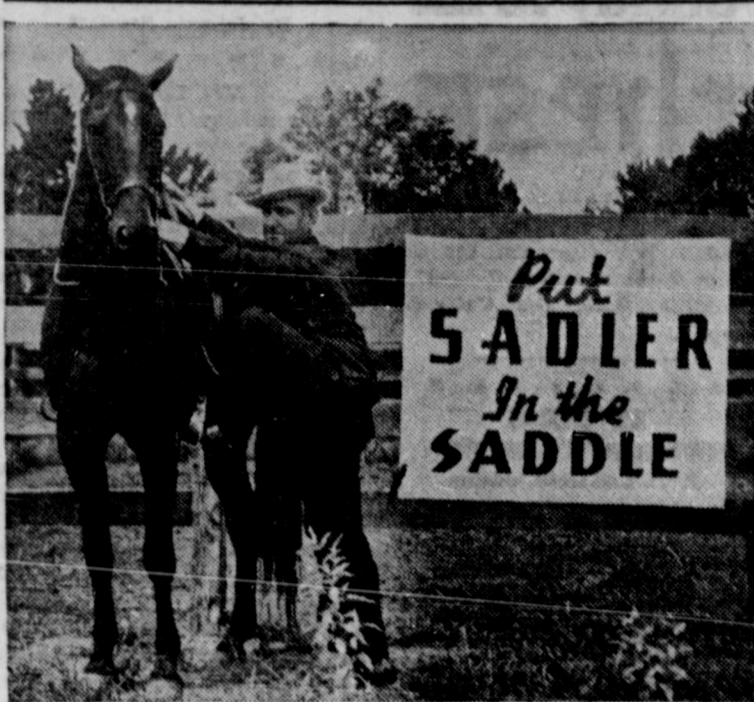

outfield, bermuda or native grass in unplowed nooks and crannies, it is meat, milk or wool in the raw.

A stock-tight fence around a single field so that it can be grazed may easily be worth more than an extra stack of hay in the barnyard. Not only is the feed worth more if grazed when green; not only is the labor of harvesting avoided; not only is feed saved which cannot otherwise be used; the humus is left on the land in the manure; every day that the animals feed themselves is one less day of serving it to them on a pitchfork. The time it takes to build a fence will shorten the chores for many a year.

The division of the farm into three or four sections for systematic rotation of crops is the first essential of good farm management. The present agricultural adjustment act conforms to this principle of management in designating "soil depleting" and "soil conserving" crops, leaving permanent pastures and the remainder of the cultivated land in a different category. But crop rotations cannot be fully utilized to the best advantage without livestock and poultry; livestock cannot be kept most efficiently and economically unless they have access to each part of the farm whenever it supplies feed which they can harvest for themselves; and every field and pasture can be grazed only when it is properly fenced.

It would be highly desirable to fence the entire farm at once, after careful planning for convenience and permanency, but not every farmer can do this. Since we must set up a rotation system, however, to receive the benefits of the national farm act, and good business judgment requires that we make the most of the rotation

READY FOR RUN-OFF

G. A. Jerry Sadler, 30, Longview, is the youngest candidate for State office and is opposing the oldest. Sadler fought through a field of veteran campaigners to run a close second to C. V. Terrell, incumbent in the Railroad Commission, who has been in public office in Texas for more than half a century. Sadler's slogan is "Put Sadler in the Saddle," and he is shown here with one foot in the stirrup. Sadler promised a continuation of his same fast and furious campaign methods that enabled him to win a run-off place.

both in the interest of immediate income and of permanent productivity, we can begin by fencing at least one field a year until the entire farm is subdivided.

A few years ago Jack Shelton added a farm flock of sheep to Luling Foundation farm's productive capacity by the simple expedient of fencing in a creek which wound its way through the cultivated fields. Enough grass grew on its sloping banks and in its sharp bends to keep the sheep, and incidentally, they kept down the weeds which formerly served only to seed the nearby plow land.

Not only the land is benefitted by rotation and livestock grazing, but livestock itself, especially hogs, sheep and poultry, thrive better when they can be "rotated"—shifted from place to place. This calls for hog-tight and sheep-proof fence which may be either full cattle-high woven wire or woven wire 26 to 35 inches high with barbed wire above. There is not much difference in the cost if the barbed wire must be bought new.

Before building permanent fences it is well worth while to sit down and plat the farm on paper. It is important that when the plan is completed every field will have access to water, and that they center as nearly as practicable to the homestead and barnyard in order to save time in cultural and harvesting operations.

Let's fence at least one field this year. Get that extra stack of hay.

Truthful News Applauded

The United States is the only great nation which still has a truthful press, William A. Eddy, President of Hobart College, recently told a gathering of newspaper editors.

Addressing the society's annual convention after the delegates had voted unanimously to ask the American people to help defend the press freedom, Mr. Eddy said: "While we continue to be openly critical of ourselves and of our nation, let us not forget to be grateful that we live in the only great nation on the face of the earth today where a citizen can read the truth about his world."

"This is our most priceless possession."

Mr. Eddy, however, urged the editors to keep out of their papers the "voodoo vocabulary of superstition," which he said, had found its way into some.

"The hypnotic use of words by all political groups to lull the reader into a coma, and screen the issue, appears on all sides," he said. "If this prostitution of thought to vocabulary goes on apace, the time will come when men must stop reading at all if they are to keep their heads on their shoulders and their feet on the ground."

Did you know that employees of a city, state or federal government are not "covered" by the Unemployment Compensation law and are, therefore, ineligible for Unemployment compensation in case of unemployment?

Despite the widespread publicity given to the importance of social security account numbers, some people have not obtained them. There are men and women who have not gone to the trouble of security numbers which would identify them for benefit payments and aid in job seeking.

Did you know that unemployment benefits are wage insurance to be drawn by those who qualify?

RADIO STAR, WILEY WALKER AND HIS FIDDLE

Many in this section will welcome the announcement by Harley Sadler that Wiley "Flash" Walker, will be a member of his company this year. He will be more favorably remembered as a member of the team "Lew and Wiley," the boys from Alabama. Since leaving the Sadler show, some five years ago, he has made quite a name for himself in the radio world. Having his own program, as a sustaining feature over the radio station in Memphis, Tenn. He will appear at each performance of the Sadler Show, in conjunction with Lew Childre, and his vaudeville revue. The Harley Sadler Show will be here for two nights only.

Change in Employment Office Is Announced

Itinerant Service rendered by the Texas State Employment Service, Amarillo Office, to Clarendon, on Friday of each week will be discontinued after Friday, July 29, 1938.

All persons wishing to file claims for Unemployment Compensation and present applications for Employment will report to an Employment Service Representative who will be at the Court House in Memphis, Texas, on Wednesday of each week between the hours of 9:00 a. m. and 3:30 p. m.

M. S. Parsons returned from Mineral Wells after trying the heat only two days. There is nothing like Panhandle climate, he thinks.

Gilts In Project

Approximately fifty registered gilts and sows are now being cared for by their F.F.A. owners. The breeding stock bred to farrow during August and September represent the three leading breeds in this region; Hampshires, Duroc Jerseys, and Poland Chinas. There is approximately half of the number of the Hampshire breed with the others evenly divided between the Duroc Jerseys and Poland Chinas.

The number of registered stock is one of the important features in the State Hog Improvement Program being sponsored by the Texas Swine Breeders Association. The local chapter is entered in the F. F. A. contest and advance reports show that they will rank high in the contest.

Home Treatment of Burns Is Outlined

By Byron Scott (Compiled from the American Red Cross figures).

Accidents in the home are increasing yearly with about 23,000 fatalities and 3,500,000 injuries that are not fatal but involve some disability. Falls predominate, followed by burns and scalds. Cuts and scratches are third. It is notable that burns and scalds lead for children under 14 years of age.

The need for first aid is increasing at an appalling rate due to the automobile accidents and it must be remembered that the first aider's duty ends before the physician's treatments begins; therefore, there is no clash between the interest of the first aider and the doctor.

We shall discuss first some of the injuries that are common in the home, their cause and treatment.

Burns: Burns are caused by either dry or moist heat and are classified according to the depth the tissues are injured, or "degree." First degree - skin reddened; Second degree - skin blistered; Third degree - deeper destruction of the tissues as charring or cooking.

Prevention: Kettles and pans with hot liquids should always be kept away from the edge of the stove and always turn the handle to the inside; never leave the handles protruding over the edge of the stove.

Matches should always be kept out of reach of the children, rubbish should never be left in basement where it might become inflamed by spontaneous combustion such as an oily rag or oil mop.

Never pour water on flaming grease; use salt, flour or soda or cover with a metal lid.

Be cautious with cigarettes, cigars, cleaning fluids and do not let children play too near rubbish fires and bon fires.

Treatment for Burns.

First Degree Burns: Use any clean material that relieves pain such as soda in water, any good burn ointment, vaseline or soda and any kind of grease mixed into a paste, or any oily substance such as olive oil or castor oil. Smear over burned area and cover with sterile cloth or gauze.

Second and Third Degree Burns: CALL A DOCTOR AT ONCE. Remove all clothing possible, but do not remove clothing that is stuck to the burn; cut around that part and do not put any material or oily substance that might carry germs as the danger of infection is very great. Dress the wound with clean cloth soaked in a pint of warm water, boiled if possible to which has been added either one table spoonful of baking soda or two table spoons of epsom salts, keep the burned part moist and warm until the doctor arrives - - - and remember: Never apply iodine to a burn.

Funds collected from Texas employers in unemployment compensation contributions cannot be used for any purpose other than the payment of benefits to the unemployed.

Douglas Corrigan, hero of a transatlantic flight, was discharged as a mechanic several weeks ago by the Northrop Aircraft Company at Santa Monica, California, because he failed to fill out forms to get a social security account number. Corrigan had been asked to do this several times by his company and had neglected it. A former Texan, Corrigan was born at Galveston.

Methodists To Have Vacation School For Children Next Week

According to its pastor, Rev. E. D. Landreth, the First Methodist Church announces the Annual Vacation Church School for next week. Children from the ages of four and fifteen are invited to attend. The sessions will be held from 5 to 7 o'clock each afternoon beginning Sunday and continuing through Friday. As much teaching can be done in this week as in twelve weeks of ordinary Sunday School teaching. Every child will have a big time. Play periods and construction periods will keep these sessions from being dull to any child. Let the parents encourage their children to start Sunday so they won't miss any of the school.

NYA Home Training Project Produces 263 Cans In First Week of Operation

For the first four days of operation in the cannery of the NYA home resident training project, 263 cans of meats, peas and squash were ready for delivery to Donley County producers, Waunita Robinson, supervisor said this morning.

Miss Robinson said more canning would be accomplished as soon as the members of the home became more skilled.

The eighteen girls registered here with the opening of the home Tuesday a week ago, will have consummated their hours next Tuesday. They will return to their homes and the second shift will arrive for two weeks training.

Clarendon Girl Is Visiting In Arizona Country

Some days ago Miss Fannie McGowan, daughter of Mr. and Mrs. R. I. McGowan found opportunity knocking at her door. It filled a girlish wish and the young lady accompanied Mr. and Mrs. Dallas Caldwell on a Pacific coast trip. Only she stopped at Prescott, Arizona where lives Mr. and Mrs. Luther Jackson, nephew and niece of Mrs. McGowan.

Writing back to homefolks, Miss Fannie is drinking in the scenery which she describes as the "most beautiful sight of her life." Great mountains, desert paintings, canyons. Her hosts have informed her that they shall see that nothing is overlooked, to all of which the young lady readily agreed. The vacation trip is a daily feature. Perhaps she will write a story for the Leader upon her return.

Clarendon H. S. Gridmen To Open Training August 22

The 1938 edition of the Clarendon High School football team will begin preparing for this fall's games August 22 when a training camp will be opened for the prospects, Coach Emil Hutto said yesterday.

Hutto said he could not say as to where the camp would be established but it would be somewhere in the county. Over 25 boys are expected to be on hand for the outing which will include two practice tilts daily for about two weeks.

The Ponies will open their fall campaign against the LeFors Pirates here.

Clarendon F.F.A. Boys Buy Registered Boars

Ten local F.F.A. boys have formed a Hampshire Boar Ring and have bought a registered male from Ernest McKnight of Pampa. I'VE QUIT WORRYING ABOUT GROCERY BILLS

Now since I got rid of that monthly nightmare of juggling figures and trying to make my allowance cover my bills, I have been wondering how many other housewives have similar experiences of which they would like to be rid themselves.

My worry on that score are over since I buy my food at PIGGLY WIGGLY, and what's more important, I get more and better food for my money.

NOTE—because I pay for only what I get and get exactly what I want and pay for.

REASON—because systematic buying and quick turnover of stock in PIGGLY WIGGLY stores gives me my choice of the world's best brands of food before they have a chance to get stale and strictly fresh vegetables in season, at surprisingly reasonable prices.

KNOW YOUR CHEVROLET SERVICE MANAGER

VIRGEL BOLLES

--- for no matter who does your work, he makes the final check to see that no faults have been overlooked.

Mr. Bolles, whose photo appears above, is a native of San Angelo. Early in life he chose mechanical work, and for the past 12 years he has made a specialty of the Chevrolet. In the better class of positions, he served three years with Brumley Chevrolet Co., Hereford, as service manager. Special service was his work with the Maurice J. Sopp motor company, Huntington Park, Cal. His work as Service Manager in the plant of the Panhandle Motor Co. of Childress covered a period of 4 years. Mr. Bolles did special work for the Mohr Chevrolet Co. of Dallas.

Letters of highest commendation from each of the above firms are on file at the Clarendon Motor Co. here where Mr. Bolles has held the position of service manager since May 6, of this year.

Five skilled mechanics work under the supervision of Mr. Bolles, assuring patrons of the best skill at the most economical cost made possible in a plant employing both skill and modern machinery.
