Dr. Gilkey moves to new office Monday

### is here in Clarendon

by R.L. GILKEY M.D..

A.B.F.P. The FLU IS HERE. Several types of influenza are now present in Clarendon. The intestinal flu, or gastroenteritis, with vomiting and diarrhea is of short duration, only twenty four hours or so. Type A influenza is characterized by chills, fever, generalized aching, and a severe cough. We have already seen this flu complicated by a few cases or

reading.

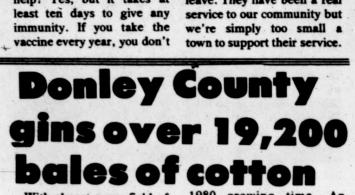

pneumonia and several cases of bronchitis. Another less serious type of flu is characterized by less fever, raw throat, runny nose and headache. In addition there are the usual colds, sore throats and tonsillitis.

What to do? Rest, plenty of fluids, and use cough syrup and aspirin or tylenol. Do not try to work with 102 or 103 fever. You won't accomplish much and you'll expose others. Minimum recovery

days with many cases lasting in excess of five days. When to see the doctor? When your fever keeps going up, when your chest becomes painful to breathe, or when the sputum you cough up is no longer clear but yellow, greenish or rust colored.

Will the influenza vaccine help? Yes, but it takes at least ten days to give any immunity. If you take the need another one now. Lastly, a personal note to all my patients. We will be closed this Thursday and Friday while moving to our new location. Stay Healthy.

NOTE: The Panhandle Rural Health Clinic will use the telephone number 874-3760 for the next two weekends. I'm sorry to see them leave. They have been a real

With almost every field of the 1980 cotton crop harvested, the season is fast drawing to a close with from two more days to another week target dates for the final shutdown on the 1980 cotton crop.

In Clarendon Donley County Farmers Co-op Assn., ginned 8,492 bales in 1980 as against 8,855 bales for the 1979 season. This year most of the cotton had even mike and with a better price than last year the grower profited from less cotton. About a couple more days of ginning, when the last cotton comes in will complete ginning operations for them.

Paymaster Gin at Lelia Lake ginned 6,500 bales with an estimate of about half of a normal crop coming to the gin and the other half a victim of the weather for the

1980 growing time. An estimated 50 bales to be ginned will terminate the ginning at Paymaster. The Donley County area is reported to have had as good or better yield than anywhere in the state for 1980. Unusually hot dry weather took its toll of cotton and other crops all across the state this year.

In Hedley, manager W.B. Wiggins, reported 4,317 bales ginned with an estimated 50 bales remaining to be ginned. This represents about 75% of the usual crop. An unusually good mike and an improved price over last year helped the grower. In some instances the mike was too high----last year it was too low---but most growers came out better in this area than others in the state.

Wiggins anticipates a mid-January date for completing operations at the gin.

### Allsup's to sponsor Cerebral Palsy drive

Miss Robinson is being sponsored by Gibson's, Wal-Allsup's Convenience lace Monument, Chamber-Stores, Inc. will be sponsorlain Motor Company, and ing a neighborhood drive in Robertson's Funeral Home. support of United Cerebral Her hobbies include latch-Palsy. All area youngsters hook, sewing, cooking and are encouraged to visit their local Allsup's store Saturday, January 17 and Sunday. January 18 to pick up a Basketball collection envelope. After collecting donations for schedule Cerebral Palsy and turning it back into the store, Allsup's

drink of their choice. "We hope all the children of the area will help us make this telethon more successful than ever before," said Kurt Verlei, Director of Public Relations for Allsup's Convenience Stores. "Cerebral Palsy is an injury to the brain that can never be cured. We feel that money raised will go along way in helping the Cerebral Palsied lead a more normal life."

### will give them a free fountain Telephone customers will not get a one percent tax reduction in 1981

The nation's telephone customers will not get a one percent federal excise tax reduction on telephone service during 1981 as expected.

President Jimmy Carter signed the Fiscal Year 1981 **Budget Reconciliation Bill** December 5 which contained a provision maintaining the excise tax on telephone and teletypewriter service at the two percent level in effect during 1980.

The tax, originally 10 ercent, was enacted as a temporary" measure during World War II. Congress oted in 1970 to gradually liminate the tax, reducing it ning in 1973 until completely cent per year beginnated in 1982.

The continuation of the 1980 two percent tax level during 1981 delays elimination of the tax, and is the first time the reduction has not been made on an annual basis since 1972.

General Telephone Company of the Southwest estinates continuation of the two percent level means its customers will pay \$4.5 lion more in excise taxes during 1981 than if the one percent reduction had occur-

### Two Students on WTSU bonor roll

More than 700 students at West Texas State University are listed on the honor roll for the 1980 fall semester.

The Dean's List names 651 students. To be eligible for the Dean's List, a student must have been enrolled in at least 12 semester credit hours and ended the semester with a grade point average of 3.25 and higher on a 4.0 scale.

The President's List includes 140 students who have maintained grade point averages between 3,85 and a perfect 4.0 for 12 semester credit hours at WTSU.

WTSU's fall enrollment totaled 6,559 students. Listed on the President's

honor roll from Clarendon is Harvetta S. Shadle. Named to the Dean's honor roll were Sherilyn J. Walker and Sandra P. Wallace.

### Gene's Gifts plan open house Saturday

Although she made some to Texas' games and related sales for the Christmas season Gene Morton, owner of Gene's Gifts on US 287 west, in Clarendon says she was not really open for business due to several unforeseen events:

With lovely new merchandise arriving her Grand Opening is slated for Friday, January 16, and is guaranteed to brighten winter weather or spirits with charming, exotic and downright captivating items in stock

One of the most impressive displays is the collection of antique copper utensils with their touches of brass and the time acquired patina of oxidation by air. Some are inscribed with Arabic characters and others have curious indentions leaving room for conjecture as to their original cooking use.

Baskets of every size shape and in a wide variety of shades will delight the basket lover and add a distinctive note to any room decor. They come from the Philipines, and China for starters.

Frankhoma pottery, a revered name, is represented in several colors with lovely place settings laid out on a serving table. Also stocked are accent pieces, trivits, ashtrays, candle holders and the commemorative plates and vases. Very striking are the terra cotta matte finished pieces in a variety of accessories. Frankhoma, lovely to see and a pleasure to use.

From a choice of colors and sizes of straw and fiber place mats the table decor of any one could be something spectacular.

Cookware with a flair is a speciality of the shop with the popular wet clay type in a variety of shapes and sizes, including wine cooler and butter dishes. It cooks in a microwave or convential.

Am Biance cookware in porceline and copper, is available in double chafing dish, cheese shakers, cruets, brandy warmers, fondue pots and many more pieces. These are just a few of the outstanding cooking utensils

Pieces of wicker furniture to accent any room are in stock also as are brass luggage racks, copied from antiques once used on trains.

Delightful and appropriate gifts for a bride or any, homemaker are the chopping block and cleaver (the cleaver stores in the block), the fancy copper molds and the fanciful wind chimes in fruit, vegetables, boots and hats and other out of the ordinary

Gene's Gifts features 'Go

tures on stainless steel, items such as Texas stationary, coasters, place mats, pencils, memo pads and other personal desk and correspondance materials. Also in stock are boots, hats Gene's Gifts. and state of Texas candles to Many many items have not delight the heart of anyone

Texas. Bell shaped exterior wind chimes of sandstone ware feature De Grazia figures, butterflies, roadrunners, owls and more subjects for decoration and sound pretty too. The shopper is sure to want more than one set for vard and garden.

from deep in the heart of

A selection of etched pic-

mounted on walnut and mahogany and German beer steins by Hoffritzh are representative of the variety of choices which are possible at

been mentioned and seeing the shop is an experience in itself. Visit during regular hours for winter, 10-12 a.m. and 1-5 p.m. and come for the Grand Opening on January 16. During the grand opening there will be three door prizes given away at different times during the day. These will include a basket, pottery and copper pieces. Everyone is invited.

### **News from Bob Bullocks office**

State Comptroller Bob Bullock Friday warned any increase in local sale taxes would lead to an income tax

He said the cities, counties, a few hospital districts and some school boards are now on record wanting the Legislature to give them additional sales tax authori-

Texans have accepted the sales tax in its present form but it would cease to be painless if every level of government tried to get a slice of the sales tax pie.

"We now have a four percent state sales tax and more than a thousand cities have adopted an additional one percent tax and two cities have a mass transit sales tax," he said.

"That adds up to five, five and a-half or six percent depending where you live. If every level of governemnt that wants a sales tax gets one, I wouldn't be surprised to see the sales tax reach 10 percent," Bullock said, "and that would be two percent over New York's -- the nation's highest."

The rate would be so high that state government would lose forever the ability to turn to the sales tax for revenue and would be forced into an income tax just like 45 other states have done.

Bullock said when the Legislature starts next week it should dump legislative proposals for new sales taxes into the trash can where they belong.

He said government was already paying for most of the roads and highways in the state and a lion's share of public education and public health.

"I'm sick and tired of politicians crying for local control and then standing in the shadow of the Capitol asking for a handout. The

state has a pay-as-you-go law that keeps its budget in balance and local governments can do the same."

He said cities and counties should look in their own backyards for the answers before they come running to

"There's nothing stopping these governments from charging user fees or even adopting their own income tax if their citizens sincerely want more services." he

### Calendar of events

Thurs., Jan. 15, 9:15 a.m.-12 noon, Social Security representative at the Donley County courthouse annex.

Fri., Jan. 16, Drivers License man in Clarendon at Hiway Patrol building.

Fri., Jan. 16, Chamberlain Community Center meeting at 7 p.m.

Sat., Jan. 17, 1:30 F.F.A. and 4-H Barrow and Lamb show at show barn.

Tues., Jan. 20, Senior Citizens Dance at Senior Citizen Center 8:00 till 11:00,

live band.

### CORRECTION

In the article "Weekend Clinic to close", on the front page of last week's CLARENDON PRESS. an error appeared. A line in the last paragraph should have read: Patient load has averaged only 7 patients per day opened.

We regret the error and hope no one was inconvenienced.

### Shoriff's report

Results of the Grand Jury session held on January 9, 1981 resulted in the following indictments and action.

Bennie Harris - indicted and charged with aggravated assault. Willie Weatherton - indic-

ted and charged with burgl-Raymond Garcia - indicted

and charged with intentional stabbing of an individual resulting in death.

Louis Garcia - indicted and charged with intentionally stabbing and causing the death of an individual.

Sandra Carlisle - indicted and charged with entering a vehicle without the consent of owner to commit theft.

Edgar Hale - indicted and charged with intent to cause bodily serious injury to Faris Jake Hess Jr. by striking.

Ronald Windell Doherty indicted and charged with felony DWI. Grand Jury passed on a

charge against Walter Guy of assault on Paul McCarty.

### **Barrow** and lamb show

Sat. 17th

F.F.A. and 4-H members in Donley County will have a show featuring lambs and barrows on Saturday, January 17, 1981 at 1:30 p.m. at the show barn. Judge will be Bob Skaggs, Vo-Ag teacher of Pampa.

Interested persons are invited to attend the show and view the results of the work the 4-H and F.F.A. members have done with their

### **Martin Quilters** meet this week

The Martin Quilting Club enjoyed the Christmas party last month at Debbie Sursa's house. Those attending were: our hostess, Hazel Edens, Marie McCracken, Melba Risley, Flossie Reynolds, Raenell and Josey Shadle, Anna Bell Blasingame, Jo and Andrea Hardin, Mary Lee Nobles, Jondel, Brendan, and Lana Dell Moffett.

We meet this Thursday, January 15th, at Jondel Moffett's house. All members should come and bring

55 60 54 61 37 10

8th at 6:30 in city hall. The meeting was pre-sided over by Dianne Cham-berlain, Chairman. The members, Jerry Courtney, Mary Hazel VanZandt, Karen Simmons, and Gene Alderson were all present. Librarian Lawrence Neece, Lay Representative to State Systems, Nancy Shelton, and City representative, Shirley

Jerry Courtney, gave a progress report on grant applications, he is working on with the board.

Clifford were also in atten-

dance.

Librarian, Neece presented the Board with a chart showing an overall increase in Library usage for the last 6 months in 1980 over the preceeding 6 months.

Plans were discussed for

**CLARENDON PRESS** and the Donley County Leader. Published every Thursday at Clarendon, Tex-

as, 79226, Box 1110, at Hiway 287 and Jefferson Street and entered as Second Class Mail at the post office at Clarendon, Texas. Helen Woody, Publisher and Jeanice Weatherly, Editor.

Subscription rates: \$10.00 a year outside Donley County, \$8.00 a year in Donley County.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

the shelving which takes about 3 months to receive about 3 months to receive from the ordering date.

The Bookworm news

The Board also made plans for a giant Flee Market to be held the 7th of February in the new building. A committee will be rounding up goodies to sell during the next few weeks. If anyone in the process of clearing out garages, basements, closets ect. have saleable items they want to donate please give one of these people a call, Diane Chamberlain 2393. Mary Hazel VanZandt 3308, or Shirley Clifford 2049. The committee is especially interested in used furniture, childrens clothings, linens, kitchen items, dishes, small appliances, curtains, drapes, but anything will be appreciated. If you need someone to pick up things you are donating give one of the

committee a call. The following people made book donations to the library during the month of December: Jane Gilkey, Antoune Riggs and Donald Smith. We were most appreciative of these additions to the library since they were titles we did not have.

"The Joy of Photography", "Complete Guide to Gardening", "The Natural Sugarless Dessert Cookbook", and "The Sewing Machine Craft Book" are all new books in your Library. Come by soon and browse through the new selections.

### News from Bob Bullock's office

State Comptroller Bob Bullock Friday said he's got a \$378,247 nest egg for several hundred former Texas college and university students.

To claim the money, Bullock said, all the ex-students need to do it pony up their share of \$1.5 million in defaulted student loans.

The money has built up since August of 1979 when Bullock stopped issuing state checks to anyone owing the state for a delinquent student

State law allows Bullock to hold up payment to an individual or firm who owes the state a debt.

Most of the delinquent loans come from the state's Hinson-Hazlewood student loan program.

"Hundreds of former students have settled up millions in past due loans since our effort to collect delinquent loans got underway," Bullock said. Largest

locomotive The very first steampowered locomotive was invented by Richard Trevithick of England in 1804.

The largest steampowered locomotive ever made was the Union Pacific's "Big Boy." - CNS

At the end of 1980, however, 706 former students still owed the state about \$1.5 million and the state is still holding checks due them that total \$378,247.

### Taxes become delinquent Jan. 31

Persons who have delayed paying taxes to date will no longer receive discounts. where applicable, and after January 31, 1981 there will be a penalty added for delinquent taxes.

Payments are running be hind those of last year in all tax offices with the Clarendon Independent -School collections at 64.26% and Clarendon College collections at 68.18%.

Hospital tax collections are 65.5% for 1980 taxes as against last years collections for 1979 of 68.2. This figure represents taxes collected to December.

Reporting from the City of Clarendon tax office information is about the same, down from collections made for this same period last year.

Donley County tax records bear the same trend with the 1980 taxes collected at 70.37% and the 1979 taxes at 71.16% for the same period last year.

All property owners need to remember to sign up for school and county homestead exemptions.

### Dean's honor

Dr. Bob E. Riley, Dean of Instruction at Clarendon College has announced the names of Area Students who qualified for the Deans Honor Roll for the 1980 Fall Semester. To be eligible for the Deans list, a student must have an average of 3.6 or above and be enrolled in 12 or more semester hours and have an A average in a Vocational Technical program. Dr. Riley stated that "Clarendon College is proud of all its students, but we are especially plesed when our students achieve excellence in their studies."

No injuries occured in a 3:55 p.m. wreck on US 287 in front of Gibsons store Sunday when two vehicles ran

A Ford Thunderbird, with Oregon license plates and a Clarendon Mercury Capri received considerable damage when the Oregan vehicle, east bound, was driving at a speed beyond the speed limit and the Clarendon vehicle failed to yield and turned in front of the ThunderBird.

Both drivers were at fault and received tickets. Damage to the Mercury were estimated at between \$800-\$1000 and to the Thunder Bird as between \$200-\$300.

### You can order IRS publications about farmer's tax questions

Today's modern farmer has many unique tax situations, and a free publication from the Internal Revenue Service can help answer the questions that arise from these situations.

IRS Publication 225, "Farmer's Tax Guide," covers a wide range of subjects, such as soil sales, crop destruction, chicken purchases, casualty losses and share farming. Examples of how to prepare the Form 1040 and related schedules, and listings of important tax dates which affect farmer's throughout the year are also included.

"Farmer's Tax Guide" is written in a clear, understandable style and can be a source of valuable information for today's farmer, according to the IRS. This handy reference can be ordered on the order form in the tax package, or by calling

the IRS Tax Forms/Information number listed in the local telephone directory. Colorsounds aids reading, spelling

AUSTIN, Texas (Spl.) What helps squirmy junior high students improve in reading and spelling? Color-

It uses songs to teach sight words and the 16 common vowel sounds of English. Color-coding the dictionary markings of the sounds is part of the program devised by Mike Bell, University of Texas doctoral student.

Youngsters first learn vowel sounds and their colors. Then, given the words to a song which is played in class, they identify the sounds in the song and color-code them. At home. students reinforce their learning by counting how many times each sound occurs in the song and by writing source words in a notebook.

Double S&H Green Stamps Wednesday With \$250 Purchase

David Rideout will be flown to Washington D.C. in middle March where he and the other three to be honored will receive their plaques. Texas, Louisiana, Kentucky and California are the four states to be represented, there will be one other man and two ladies receiving this new honor for 4-H Wildlife

Rideout says that he doesn't have any of his own children in 4-H and he never was involved with 4-H as a child, but he feels that the opportunity to work with the kids is terrific. He doesn't limit his wildlife activities to only 4-Hers, however, many youth in the Childress area are able to attend his pro-

Although the 4-H does supply some guidelines for the wildlife project, Rideout thought of what his area youth might be able to do, see and learn locally. Among the activities the kids have participated in at Rideout's initative have been field trips to the Matador Wildlife Management Area, a trip to the state fish hatcheries in Dundee, a trip to the Witchita Wildlife Refuge to see buffalo and trips to local fish farms and ranches.

The kids have seen slide presentations, heard local game wardens talk on the laws, they have tried to catch fish, and participated in a quail banding program.

Rideout has had guest speakers, such as Larry rattle snakes to sell. Henry showed the kids some of the do's and don'ts involving rattlesnakes. The kids handled non-poisionous snakes such as garden snakes and bull snakes. One little 4 year old girl really enjoyed handling the snakes. Rideout remarked that about 1/4 of his 22 participants are girls. The kids also had a doctor show them first aid for snakebite.

Liz Rideout works for the County Agent in Childress and her suggestion and encouragement got David involved with the 4-H wildlife projects. While there aren't many wildlife programs in the State, Rideout took the initiative and invented programs for his group. He began working with the kids in 1977 when he divided his interests into three main groups; mammals, reptilesamphibians and birds. That proved to be too much work. so Rideout has limited himself in order to provide quality programs rather than quantity.

At a regional 4-H leadership meeting a few years ago, Rideout presented a talk on the success of his little wildlife project and generated more interest in other cities to try the program. As a result of his enthusiasim, he was appointed to be on the State Wildlife Conservation Board in 1979 where he and many other leaders from all over Texas met in Brownwood and discussed ideas for working with the 4-H in communities for the better education, understanding and benefit of the youth and the communities in wildlife conservation.

Rideout remarked that most kids don't really understand about wildlife control,

they don't understand about management and habitat. His goal is to teach them to understand a little, then when they grow up they will be more responsible and responsive adults when it comes to wildlife management. His programs are geared to give an appreciation and a general over-view of the field of wildlife management to encourage the youth to keep these ideals in mind and be better conservationists. With this in mind. Rideout encourages any youth, any age to attend his programs, regardless of their

4-H affiliation. David Rideout is certainly an outdoorsman and a craftsman par excellence. His hobby is Indian bead and feather working of a museum quality and authenticity. His love of the Indian lore and the skill with which he can create war bonnets, spears and other authentic Indian artifacts is exceeded only by his ability to find Indian artifacts. Rideout stopped to help some men on the highway get out of a ditch. When he returned to his truck, he found a 4" flint spear point! If that isn't superiority, what is? Congratulations to Wildlife Biologist David Rideout.

DAVID RIDEOUT

Mr. and Mrs. James Carroll (Musk) Butler returned to their home in Rodeo, California after a three weeks visit with her mother Mr. and Mrs. Elbon Navlor and other relatives here. The Consumer Alert

by Mark White Attorney General

AUSTIN-With inflation pushing the price of a new car out of the reach of many pocketbooks, consumers are searching for lower-costing transportation. Many, for the first time, are considering buying a used car.

If you are one of the many who decide to purchase a used car, take a few precautions when shopping so you will end up with one you can be satisfied with, one that won't cause any unpleasant surprises when you get it

Why should the purchase of a used car so often lead to misunderstandings? Well, primarily, because the typical consumer doesn't enter the market often enough to know what to look for, and what to avoid. If the consumer does his "homework," he will know - license plate number, and ask

how to shop for an automobile. Our Consumer Protection and Antitrust Division attorneys recommend the following steps when buying a

--Select several established dealers and shop carefully. Reputable dealers will not object to comparisons with competitors:

--Remember that every used car you look at has a history, but it's your job to find out what it is. One step is to copy the Vehicle Identification Number from the engine block or dashboard, the license plate number, the number from the inspection sticker, and the mileage.

-- Then call the Motor Vehicle Division of the Department of Public Safety in Austin (512/475-7611) and give them the V.I.N. and 

for the name and address of the title owner of the car. (Usually the used car dealer won't have the title in his

Call or write the owner and ask for information about the car; the mileage when sold, the selling price, and any problems he might have had with the car. Then compare what he tells you with the information given by the used car dealer.

-- Check the odometer of the car. Examine the tires, the grease and oil stickers, the brake pedal and the interior of the model you choose. A low odometer reading won't mean much if other indicators point to heavier use.

-- While some reconditioned used cars will have a limited warranty, most are sold "as is," so you should be very careful to check for any potential problems. This means thoroughly test driving the car, being on the lookout for odd noises, oil burning, "mushy" brakes, or unusual shakes. Try all equipment, testing heater, air conditioner, windshield wipers and radio. Also check the tires. If anything needs repair or replacement, you can bargain to have the price of the car reduced by the amount you'll have to pay to fix it. -- If you're seriously

interested in the car. take it a trustworthy mechanic for an expert's opinion of its

-Then think over the car and price for at least a day before making up your mind. It's a good idea to check at least three dealers, too, before

making your final decision -- Demand a detailed written receipt describing all of the promises and representations the salesman makes to you.

-Be sure that a warranty is in writing and that it spells out the services that will be offered.

-And when you do decide, shop around for the best financing. Banks, credit unions, savings and loan associations, and finance companies all make car loans. When you shop for financing, remember that you should compare the annual percentage rate you would have to

If you have any questions or complaints about buying a used car, contact our Consumer Protection and Antitrust Division in Austin, Houston, Dallas, San Antonio, Lubbock, El Paso or McAllen or call your district or county

### **SOLAR ENERGY SYSTEMS: ACTIVE AND PASSIVE**

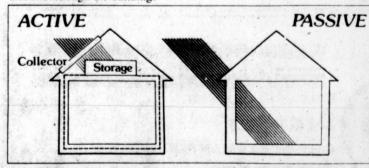

by Robert E. Lewis

While solar energy is understood by most people as the heat that comes from the sun, few Americans are familiar with the systems that have been developed to harness this heat for use in our homes.

Generally speaking, there are two distinct types of solar energy systems—active and passive. At the risk of oversimplification, active systems can be defined as those which use mechanical equipment to collect and transport the sun's heat. Passive systems, by comparison, collect and transport heat by non-mechanical means. Both systems can be installed in existing buildings as well as new ones.

When most people think of a solar home, they envision a house with large solar collectors mounted on the roof. These roof-mounted flatplate collectors are, in fact, an identifying mark of an active solar energy system.

As the roof collectors accumulate heat, water or air is circulated through them to absorb the heat and carry it to storage units. From the storage units, a system of pumps, valves and fans is used to move the heat out of the storage unit and through the building.

While active solar energy systems may be more discernable to the passer-by, passive systems are rapidly growing in popularity. With passive solar energy systems, the building itself is used to store and transfer heat. In most cases, the system is not distinguishable from the building itself.

Generally speaking, passive heating systems require a large south-facing glass area to gain as much of the sun's heat as possible. Within the building. heat-absorbing materials such as masonry are used for the walls and/or floors. As the sun enters the building through the glass, the walls and floors absorb the heat and distribute it into the room. Heat flow is accomplished through such natural means as radiation, convection and conduction. To avoid heat-loss at night or overheating during the day, movable insulation in the form of shutters or insulated curtains is employed as part of the passive

At times, a minimal amount of mechanical equipment may be used to enhance the efficiency of a passive solar energy system. When this is done, the resulting system is termed "hybrid." Because hybrid systems still rely to a great degree on the building itself to collect and distribute heat, they are usually categorized as a type of passive system.

As might be expected, passive and hybrid systems are capturing the attention of consumers because of their simplicity, reliance on common building materials and few, if any, moving parts. In addition, passive systems generally cost less than active ones, and require little in the way of operating and maintence costs.

Regardless of whether a homeowner is considering installation of an active, passive or hybrid system, all of these solar energy designs offer the opportunity to significantly reduce the consumption of fossil fuels and to pare down conventional heating bills. For an illustrated booklet describing, the basic concepts of active and

divorce rate is one in cs and 3% n m drinkers. Ours is the most civilized nation on earth, yet 37 million of our children receive absolutely no religious instruction!"

It takes caring people to make the road and way plain to those who do not know the way to eternal life and I am afraid that our care is sometimes like the experience of the group in "Pulpit Helps" who forgot to hold the rope.

"Through the quiet streets of a fishing village that lay at the mouth of a turbulent river, a cry rang out, 'Boy Overboard!' Quickly a crowd gathered, and anxious eyes looked out over the rushing waters to the figure of the drowning boy. Each anxious mother's heart was asking,

'Is he my boy?' "A rope was brought, and the strongest swimmer in the village volunteered to rescue the drowning lad. Tying one end of the rope to his waist, he threw the other end among the crowd, and plunged in. Eagerly they watched him breast the tide with strong, sure strokes, and a cheer went up when he reached the boy and grasped him safely in his arms. 'Pull in the rope!' he shouted over the swirling waters.

"The villagers looked from one to another, 'Who is holding the rope?' they asked. But no one was holding the rope! In the excitement of watching the rescue. the end of the rope had slipped off into the water. Powerless to help, they watched two precious lives go down because no one had made it his business to hold the shore end of the rope. Must millions be left to perish because there is no one to hold the shore end of the rope?"

Someone has said it would be "better never to have been born at all than never been born again". Jesus must have meant something like this when he said, "Ye

get there from here, becau the trends are all in the direction of Hell.

### **Brownie** Troop 29

Brownie Troop 29 had a very merry Christmas and we wish each and every one of you a Happy New Year!

We went caroling during the holidays to the Clarendon Day Care Center to entertain the children and also to deliver a big box of recycled toys we had collected. The Day Care Center can always use extra toys in good shape. We also went to the Methodist Church "Mothers' Day Out" to sing carols for those tiny people staying that day. The Brownies who went caroling were: Toni Breitling, Michelle Delozier, Kelly Edwards, Renee Erdman, Pattye Floyd, Taylor-Ann Harbert, Suzzette Henson, Kim Hodges, Brandie Mor-

gina Watson. On December 3rd, eleven Brownies took part in their investiture ceremony. Those that received Brownie pins were: Toni Breitling, Michelle Delozier, Renee Erdman, Pattye Floyd, Taylor-Ann Harbert, Suzzette Henson, Kim Hodges, Kim McAfee, Brandie Morrow. Crystal Riley, and Regina Watson.

row, Crystal Riley, and Re-

We still appreciate all our Brownie mothers taking turns bringing refreshments. "Thank You!"

### Order your

trees now

The Donley County Soil and Water Conservation District will once again be taking orders for trees this year. Sales will begin on January 19 at the Soil Conservation Service office located on South Kearney. A large variety of trees will be available this year at very competative

Trees are a great asset to our Rolling Plains country. A well planned planting of adapted species can and will serve a multitude of purposes. As a windbreak, trees prevent wind erosion on cropland, cut down on energy costs in the home and provide wildlife habitat as well as increasing both the aesthetic and monetary value of land and homes.

If you have any questions or wish to place an order, call or come by the Soil Conservation Service on South Kearney, 874-2339.

KATHRYN PERDUE

### Perdue - Scott announce engagement

Mr. and Mrs. Dane Perdue announce the engagement and approaching marriage of their daughter, Kathryn to Steven Scott, son of Mr. and Mrs. Vernon Scott of Hedley, Texas.

The wedding vows will be exchanged on February 1, 1981 at 3:00 p.m. at the First Baptist Church, Clarendon. Friends of the couple are

Hodley, Texas

ear of the person on his right and by the time it had made the round and was repeated aloud there was no resemblance to what was said in the first place.

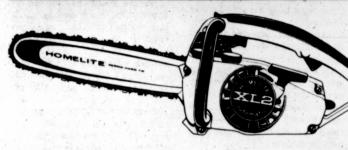

Yesterday, I heard a man in the supermarket who practically played this game by himself. "Looked to the right," he told a woman hovering over the potato bin, 'wasn't authin' coming. Looked to the left -- nuthin'. Put my foot on the gas, took off and bashed right into a woman. Banged up her right lender pretty good." He agged his head back and 'Shore did hate it, she was madder'n hops!"

"Some old women don't half watch where they're going," the woman soothed.
"They just blare out." It was the set up of a new

thought to him. I wheeled my

cart to spices and he had the manager cornered. "Yep." he droned, "wrecked my pickup this morning. Blind corner. Some old bat shot out at an intersection and bammed into me." He drew his lip down at one corner in disgust. "Then, SHE had the nerve to get nasty because her fender had a little dent in it. I should'A told her to watch where she

Department of Commerce

The percentage of women

in the classroom in Germany

is rising faster than that of

men-45 percent more

women as against 24 per-

cent more men in the past

five years. Most of the

women have been enrolling

in teachers' and music and

reports.

art colleges.

hit you from the side ... "

"Blind corner," I handed

lose her license."

Kermit Evans, 70, of 2006 Melissa St., Arlington, Tx., a former resident of the Ashtola Community, Donley County, died January 6, 1981. Services were January 9 in Moore Funeral Home Chapel. The Rev. Dennis Hochgraber, pastor, and the Rev. Cliff Walher assistant pastor of Highland Baptist Church officiated. Burial was in Moore Memorial Ceme-

Mr. Evans was born in Memphis, Tx. June 23, 1910. He was a member of Highland Baptist Church, Arlington, Tx.

Survivors include his wife, Florence Evans of the home; a daughter Carol Gordon of Emory, Tx.; three sons, Gene of Dallas: Kenneth of Wichita, Kan., Carl of Fruitvale; five sisters and two brothers of Los Angeles, Cal., and eight grandchil-

### **Guss Branch**

### Dromgoole

Funeral services for Guss Branch Dromgoole, age 92, of Amarillo, were held at 2:30 p.m. on Wednesday, January 14, 1981, in Llano Mausoleum Chapel in Amarillo with Rev. Gary Ferguson, Assembly Of God minister, from Memphis officiating. Interment was in Llano Cemetery in Amarillo with the arrangements under the direction of Robertson Funeral Directors.

Mr. Dromgoole died at 11:00 a.m. on Monday, January 12, 1981, in Hall County Hospital in Memphis. He was born on July 12, 1888 at Alvord, Texas and married Rosie Mae Tate on April 1, 1915 at Alvord. She died on June 27, 1979. Mr. Dromgoole moved to Amarillo in 1948 from Shamrock and he worked as a Plumber until his retirement. He was a Charter Member of the Fairview Assembly Of God Church in Amarillo.

Survivors include one son. Connie Dromgoole of Clarendon; three grandchildren and two great grandchildren.

### John F. Haning

John Franklin Haning, 92, died Wednesday, January 7, 1981 in Pampa.

Services were at 2 p.m. Saturday, January 10, 1981 in First United Methodist Church, with the Rev. L.V. Grace, pastor, officiating. Burial was in Mobeetie Cemetery by Wright Funeral Home of Wheeler.

Mr. Haning was born in Sherman and had lived in Wheeler County for the past 55 years. He married Ellen Cocoran in 1920 in Mobeetie. He was a retired rancher and farmer.

Survivors include his wife, Ellen, of the home; three sons, John F. Haning Jr., of Pampa, Charles Haning of Mobeetie and Harold Haning of Fritch; a sister, Mrs. Esterbel Clampitt of Clarenion; and five grandchildren and four great-grandchildren.

### William C.

Tooke

William C. Tooke, 67, died Monday, January 12, 1981. Services were at 3 p.m. Tuesday in First Baptist

Church of Matador with the Rev. Gary Hilliyard, pastor, the Rev. B.L. Huggins, pastor of the Travis Baptist Church of Memphis, and the Rev. J.J. Terry, pastor of the First Baptist Church of Bovina, officiating. Burial was in the East Mound Cemetery at Matador by Spicer Funeral Home of Memphis.

Mr. Tooke was born in Mississippi. He was a farmer. He lived in the White Flat Community until 1948, when he moved to Hale Center. He moved to Hedley in 1968. He was a member of the First Baptist Church of Hedley. He married Nana Geneva Dixon in 1932 at Elton.

Survivors include his wife; a daughter, Mrs. Cuma Lorilla "Tiny" Harmon of Borger; a sister, Mrs. Leota Tilley of Mathis; two grandchildren and six great-grandchildren.

### Elizabeth Wilson

Elizabeth Wilson, 91, died Saturday, January 10, 1981. Graveside services were held at 10:30 a.m. Tuesday in

Hillcrest Cemetery with the Rev. Z.A. Myers, pastor f the Assembly of God Church, officiating. Arrangements are by Lambe Funeral Home. Mrs. Wilson was born in

Lonsdale, Ark. She moved to the McLean and Alanreed area from Clarendon in 1937. She married Roy Wilson in Clarendon. She was a member of the Methodist church.

Survivors include two daughters, Mrs. Billie Jo Travin of Pampa and Mrs. Ouida Dennis of Midland; a sister, Ara E. Gibson of Chandler; four grandchildren and nine great-grandchil-

### Temple J.

### Cherry

Temple J. Cherry, 82, died Sunday, January 11, 1981. Services were at 2 p.m. Tuesday, January 13, 1981 in

the First United Methodist Church with the Rev. W.H. Wednesday "Bill" Watson, pastor, and Night Service the Rev. A.B. Cockrell of Memphis, officiating. Burial was in Rowe Cemetery by CHURCH Spicer Funeral Home of

Memphis. Mr. Cherry was born in Hill County. He married Etta Mae Kidd in 1923 at Hedley and operated the Cherry Drugstore until he retired in 1975. He was a member of the First United Church and

the Hedley Lions Club. Survivors include his wife, of the home: three sons. Glyndon Cherry and Lynn Cherry, both of Amarillo, and Aubrey Lee Cherry of El Paso; two daughters, Mrs. Royce Crisler of Midland and Mrs. James Barnett of Vernon; a brother, Noel H. Cherry of Phoenix, Ariz.; three sisters, Mrs. J.T. Stinson of Mount Vernon, Mrs. Marry King of Mount Pleasant and Mrs. Ellie Igleheart of Colorado City; 17 grandchildren; 15 great-grandchildren and a great-greatgrandchild.

### Howardwick partyline

The Howardwick Lions met Saturday night with a delicious lunch with around 30 present. Governor Lion Lynn Cherry gave an interesting talk about his work mostly about Girls Town.

We wish to extend our sympathy to Lynn, and his amily in the loss of his ather, Mr. Cherry who lived it Hedley. May God's blessng be with you.

Trdy and Willie Moore visited in the hospital at Memphis Friday. Velma Collins who had been in the hospital had been dismissed.

Boots O'Neil who has surgery was doing fine at that

Bea Rodgers and Norma Corgill were in Amarillo Saturday on business. The Lakers home makers

met Monday afternoon with twelve members present. It was the last meeting for Lesli, to be with us, as she is getting married and moving to San Antonio. Lola Bartel was elected woman of the year for our club. Our new president Lois McVickers took over her new duties today for the coming year.

### Widows, widowers may qualify for special tax benefit

A taxpayer who became a widow or widower in 1978 or 1979 may be entitled to a special tax benefit. The benefit allows the taxpayer to use the "Married Filing Jointly" Tax Table or a Tax Rate Schedule in computing the tax liability, a tax rate significantly lower than those

in the "Single" category. To qualify for the benefit, the taxpayer (1) must have been entitled to file a joint return with the deceased spouse for the year of death, even if one was not actually filed; (2) must have a child or stepchild who qualified as a dependent; and (3) must have furnished over half of the cost of maintaining a home which was the principal residence for the dependent child or stepchild for the

# babies\*

LITTLE KNOWN FACTS Colicky babies can sometimes be calmed if they are given smaller, more frequent feedings. In any event the colic almost always is gone in three to four months.

A fine assortment of clothes for the mother-to-be can be found in the Mothercare catalogue. Write Mothercare, P.O. Box 3881, N.Y., N.Y. 10163.

By the time the average child is two years old, he is about half of his adult

A good wetting now and then is said to prevent basketware from becoming brittle.

Taxpayers who take advantage of this benefit should file Form 1040, check Block 5 under Filing Status, "Qualifying widow(er) with dependent child," and figure the tax using the "Married

Filing Jointly" tax table or

tax rate schedule. The IRS adds that the last year a taxpayer may file jointly with, or claim an exemption for, a deceased spouse is the year of death. The special tax rate benefit is available only for the two tax years after the spouse's death.

Miss Myrtle Reeves' niece Gyendlyn from Rotan is visiting. They are also visiting in Amarillo and Hereford.

We have received word at this time that Mr. T.J. Cherry passed away in Memphis hospital, also Mr. Frank Jones. Mr. W.C. Tooke memorial services are pending. Sympathy is extended to these families by Hedley friends.

Mrs. Ruby Leech is in Hall County Hospital in Memphis and is reported very ill. Mrs. Mabel Bridges is also

still very ill in Northwest Hospital in Amarillo.

Fred Watt was taken to Hall County Hospital at Memphis Saturday and has been transfered to Veterans Hospital at Amarillo.

### Nutrition And You

Unlike the laws of physics which apply to us equally, nutritional requirements vary from person to person. Many factors interfere when it comes to nutrition's "universal truths." That is why many people misunderstand the U.S. "Recommended Daily Allowances" (USRDA).

The USRDA is a general guideline, established by the government, which focuses on preventing deficiency diseases in the larger population. However, there is no way to recommend a single diet or program of supplementation that could provide each of us with optimum nutritional health.

It is also important to remember that these guidelines are for "satisfactory" health-that is, the absence of illness or disease. While it can't be scientifically de-"optimum health" fined. means much more-stamina, vitality, and a sense of wellbeing conducive to a long, active life. Nutrition is essential to this ideal health

Americans can do much better than to meet the USRDA guidelines, but our

diet has been deteriorating in some important ways since the beginning of this century, according to the Science & Technology De-partment of Shaklee Corporation.

Even with our increased affluence, many people are getting less than the recommended nutrients, and adolescents and the elderly are at greatest risk. Dieting Americans, at any time about half of our population, cut calories at the expense of their nutrient intake. Stress and physical exercise also create additional nutritional demands.

Many scientists believe that the USRDA guidelines do not apply to all of us at all times. Nutrition is always personal matter. We should each pay close attention to our changing personal patterns and nutritional requirements.

### A NEW GOLD

Injections of gold compounds have been used for many years in treatment of persons having rheumatoid arthritis...a potentially crippling disease of the joints and other tissues. Gold injections often relieve pain and stiffness and delay joint deformity.

Up until recently, only gold injections have been available for treatment of this form of arthritis. A form of gold that can be taken by mouth called auranofin is now being investigated. An oral gold compound offers the obvious advantage of freedom from pain on injection. Also, oral gold can be taken at home whereas injections are usually given in the physician's office. Home administration should be more convenient and less expensive.

But auranofin seems to offer still further advantages over its injectable counterparts. The side effects caused by injectable gold compounds do not seem to be as severe with the oral preparation. In addition, patients who have not responded well to gold injections may benefit from the medicine taken by mouth.

Evidence is now accumulating that oral gold is both reasonably safe and quite effective. Although auranofin is not presently available for general use, this new gold holds promise for many persons who have rheumatoid arthritis.

PHARMA

GET OUT OF THE RUT. Think over your shopping patterns and eating habits. Start with a kitchen audit, listing the items you usually buy. Take the list when you shop and carefully compare items by brand. price, size and grade to see whether you've been buying the best for your money. When you feel like buying something not on your list, leave it on the shelf unless you really need it. Put it on next week's list and then, if yo still want it, buy it. Plan your meals well in advance. but stay flexible enough to substitute especially good buys when you spot them. Shop alone and after you have eaten. Statistics indiUSE UNIT-PRICE

3. BE A BRAND SWIT-CHER. Diferent brands of the same product can be roughly equal in quality and nutritional value yet vary widely in price. Try generic brands and store labels.

4. LEARN NUTRITIONAL ALTERNATIVES. Study up on the nutrients essential for health and what foods provide them. Protein, for example comes in many forms. A meal containing beans and rice, wheat, corn or milk can be as rich in protein as one featuring sirloin steak. Products contain information about nutrient content, percentage of minimum daily requirements per serving,

9. GET OUT THE COOK-BOOKS. (or read a good recipe column) They will give you many more ideas on how to use leftovers and how creativity can work savings in the kitchen. Consider making from scratch many of the things you habitually buy in prepared form. But be careful that higher-priced ingredients don't make homemade dishes more expensive than prepared ones often cake mixes are cheaper than

10. INSIST ON FRESH-NESS. The date marked on all perishable foods is the "pull date" the last day on which the product can remain on the shelf in the store. It is not a spoil date, however. I once bought a jar of yeast that was only 1 week from it's "pull date". It didn't last me as long as it should have. I didn't read the label!

11. BUY QUANTITIES YOU CAN USE. Large quantities are often bargains, but only if they will keep safely until you can use them up. Store them properly. Buy fresh fruits and vegetables at their peak season, when prices are usually lowest.

12. CONSIDER GROUP STRATEGIES. A neighborhood group might save by buying in bulk directly from wholesalers and farmers. Or a shopping club could check the adds for specials then send members on shopping trips to different stores to buy for the whole group. This would be effective only in a larger city or if you lived in the country.

13. SAVE ON CEREALS AND BAKED GOODS. There are two benefits in

Great grandparents are Mrs. B.K. Newhouse of Snyder. Tx.; Mr. Cleo Noles; Aransas Pass, Tx.; Mrs. Belle Ragland and Mr. and Mrs. C.V. Laquey of Graham, Tx.; and great great grandmother, Mrs. P.R. Eaton of Aspermont, Tx. on whose 88th birthday. Sara Lynn was born.

### **Kori Page**

Mr. and Mrs. Lonny Brown, of Groom, announce the arrival of a daughter, Kori Page, on January 5, 1981, in Amarillo.

The young lady weighed 8 lbs. 91/2 ozs. and measured 211/2 inches in length.

Mrs. Brown is the former Susan Palmer, of Clarendon. Grandparents are Mr. and mrs. Fred Brown, of Groom.

### Results of stock show held at Odessa

Donley County 4-H'ers exhibited several top placing steers and heifers at the Sand Hills Hereford Show in Odessa last week, according to County Extension Agent Ronald Gooch. In the heavy weight class Susan Mann placed fourth, Matt Mann placed thirteenth and Jack Craft placed fifteenth. Rodney McAnear placed eighth with his medium heavy weight. In the middle weight class Doug Hawkins placed sixth and Jack Craft placed twelfth.

All six of the steers were sold in the auction sale for 91 to 99 cents per pound.

In the heifer show Melody Moreman placed fourth with her junior heifer calf.

At the annual meeting of the Texas Junior Hereford Association Melody Moreman was elected as a director and reporter for the coming year. Phil Moreman was the out going first vice president of the Texas Junior Hereford Association, and is a director in the American Junior Hereford Association.

### Toxas

TERRAIN: In elevation, the surface of the state varies from sea level along the coast of the Gulf of Mexico to 8,749 feet at the summit of Guadalupe Peak in the Guadalupe Mountains. Terrain varies from the subtropic Rio Grande Valley to the Great Plains in the far north, from the lush pine forests of East Texas to the mountainous Trans-Pecos region of West Texas.

### Improper pruning can result in poor growth

As the dormant season for many plants approaches, home gardeners should review proper pruning techniques before manning pruning shears and saws, advises Ronald Gooch Donley County Agent.

Improper pruning can result in poor growth, unnatural plant forms, poor flower and fruit production, and occasionally even death of the plant, Gooch adds.

Following basic guidelines for pruning can transform a tree or shrub into a beautiful plant specimen. To begin, have a reason for

pruning, emplasizes Gooch. Consider technique, season of the year and the need for pruning before taking that first snip. Many times there is no reason at all for pruning if the tree is hale and hearty. The winter season when

plants are dormant may not necessarily be the best time to prune every plant on your landscape. Deciduous trees and shrubs, vines, ground covers, and evergreens probably can be pruned at this time of year, says Gooch. However, exceptions include spring-flowering shrubs such as azaleas, forsythia, bridal wreath and gardenias, which should be pruned after they flower. Do not prune roses

until mid-February. Using proper tools is important for safety and adequate cutting. Use hand shears for small twigs under one-half inch in diameter. Long-handled lopping shears are best for branches onehalf to one inch in size.

Larger branches require a pruning saw. A long-handled pole pruner or saw is necessary for cutting higher branches.

Gooch recommends making cuts flush with the trunk since stubs do not heal properly. As years pass stubs decay and the deterioration spreads down the trunk until the tree falls over.

Seal cuts more than two inches in diameter with a pruning paint sealer. The sealer will dry hard and protect the wound from insect and disease invasion and moisture loss.

As important as seasonal pruning is, it's even more important to prune when needed, says Gooch. Prune and repair damaged plants as soon as possible. And always prune after transplanting, particularly with balled and bare rooted plants. Pruning will compensate for roots that plant lost in the digging.

Pruning is perhaps the least understood and most abused of all the many chores a gardener may tackle. When pruning, have a purpose in mind and do the job right, emplasizes Gooch.

BY RICK HAYES

it was a good week for the Broncos overall as they won three out of four to raise their record to 9-6. The nondistrict season was completed this past week by these

Tuesday the Broncos travelled to Samnorwood to take on the Eagles. Brad Thompson dropped in 15 points during a furious second quarter rally in addition to his 28 total points in a 54-47 win. Drew Thornberry, possibly the hottest shooter on the team last week, added 8 tallies. J.D. Ray of Samnorwood led the hosts with 20 points. Bryan Hill had 5 rebounds, while Thompson added 3 boards in the winning effort. The red-hot Broncs hit an amazing 92% from the field in the second

quarter. The North Plains Tournament in Claude was the next stop for the Broncos as they came away with a bittersweet consolation trophy. Clarendon suffered a slow first quarter and could not overcome Mike Tackitt's 36 points and dropped their first tournament game, 65-59 to the Happy Cowboys. Brad Thompson had 21 points to lead the Broncs while Drew Thornberry hit for 16.

ndon recovered th next game, railied in part by two consecutive technical fouls on Coach Ron Holm to slip by Hedley 51-40.
Again Brad Thompson and Drew Thornberry led the scoring with 15 and 12 points respectively. John Scott had 19 to pace the Owls while Andy Wheatly added 12.

beneficial insects that our can

crops to provide biolo

The host Claude Mustangs were the last victims as the Broncos took the Consolation trophy. The Maroon and White silenced the very vocal Claude partisans with a sound twelve point victory, 62-50. Randy White led the Bronco scorers with 20. Thompson added 15.

The "Pre-Season" is over. The Broncos will now go for the District title by opening District play at home against Canadian tomorrow night. The Wildcats are favored to take the crown this year and the Brones chances are "null and void" according to

Coach Ron Holmes without a loud, vocal crowd tomorrow night. My personal suggestion to all Bronco fans who read this is to get out and support the Broncos with great enthusiasm. It could make a difference. Until next week: Keep on Dribblin'!

### **Artist Studio met**

Artist Studio Club members met in their first 1981 gathering at the Community Action Center at 7 p.m. Monday, January 12, with president Edie Robertson presiding.

Minutes were read and approved, a treasurers report given and preparations made for contacting persons to judge the summer art show.

An invitation is extended to persons who are interested

in visiting the club, in art or becoming a member. Visit with us, you'll like us!

Plans were made for some demonstrations at meetings and for programs with informative material for the members.

Present were; Edie Robertson, Eureda Mays, Steve Smith, Mary Martin. Patsy Hill, Jeanice Weatherly and Robbie Hill.

A layer of paper toweling in the vegetable compart ment of your refrigerator will absorb excess moisture.

## LOVIOW

By MARK NIXON 1981 began on an upbeat for Clarendon College as the "Dogs" trounced a Lubbock Christian College team made up of varsity and junior varsity players 74-59 Monday night in Lubbock.

The victory evened the CC season record at 8-8.

Thursday night both the CC men and women host South Plains College in two important conference games. The women's game begins at 8:00 p.m.

Thinking back to the first semester I personally was not pleased with the play of our team, although the win over Amarillo College was a big one for our program. I did not feel that we played with enough consistency or intensity to be a top notch

At this point I believe that we have improved more and are playing better than we have all season. I have been extremely happy with our attitudes, effort and team play since we returned from the Christmas break.

A positive factor during the first semester was the great enthusiasm and support we received from our student body and other fans. I can honestly say that the enthusiasm and spirit at our games is the best in the conference without a doubt.

We hope that it continues because we want our games to be a place people can go and have fun and they did that the first semester.

If you haven't been to a game yet come on to the 'Doghouse' and help us get a conference win Thursday night. See you there!!!

#### Knock-out punch!

AUSTIN, Texas (Spl.) - An upstart from the world of technology - the calculator - has delivered a knock-out punch to one of the oldest contests in the University Interscholastic League - the slide rule contest.

The 1980 UIL contest was the last in which high school students competed in sliderule mastery. Henceforth, a new calculator applications contest, designed by Dr. John Cogdell, an electrical engineer at The University of Texas at Austin, will substitute for the slide rule which was a staple of UIL judgings for 46 years.

Dr. Cogdell considers calculators "lots more fun" and "more stimulating to the development of mathematical skills.

frozen foods

In 1930, "frosted," foods were first introduced (frozen was considered a negative term).

By 1938, 268 million pounds of frozen foods were being sold each year with fruit accounting for about half of the foods sold and the dollar value was \$68 million for all frozen products. -CNSSteam-powered

eir record to 9-3 on the

Tuesday night the Bron s went to Childre streaked out of the blocks with the first ten points of the game, then held on as the Lady Bobcats used a confus-ing press to score 41 points in the second half to make it a contest at the end, the Bronchettes winning 55-51.

Clarendon, led by Angelia Gardner with 12 rebounds, controlled the boards on both ends of the court, and that advantage spelled victory in the end.

Gardner led the Bronchettes in the scoring category as she connected for 21 points, followed by Vanessa Calloway with 12, and Kelli Hardin and Renee Cosper with 8 apiece.

December 19: The Bronchettes unleased a tenacious full court zone press to put a surprised River Road squad away early and ended up winning impressively, 54-34. It was the first time this

season for the Bronchettes to. use the press and the surprised Wildcats were unable to do anything with it.

The Bronchettes played a superb game on the defensive end of the floor in the first half, not allowing River Road to break into double figures until less than three minutes remained in the

way with an even 20 mark-Angelia Gardner continu-ed to lead Clarendon in rebounding as she pulled down 11 boards on the evening. Hardin finished with 6 re-

bounds. January 2: Led by Angelia Gardner, Vanessa Calloway, and Kelli Hardin, who accounted for 57 of the Bronchettes' 61 points, ran away to a huge, early lead then coasted in the second half to an easy 61-42 romp over

Groom. The trio of Gardner, Calloway, and Hardin totally bewildered the Tigerettes as they scored from almost everywhere on the offensive end of the floor. Gardner led the way with 22, with Calloway right behind with 21. Hardin chipped in 14, mostly on short base-line jumpers.

The one-sided score enabled coach Bob Howell to go to his bench and get his reserves what could be very valuable playing time down the stretch.

January 6: The Bronchettes overcame a rather slow start and used superior offensive rebounding to continually get easy (but hardearned) points to win going away over the Samnorwood Eaglettes 56-37.

Bronchette scoring was led

### JV Roundup

**By SPENCER HAYES** 

Recently, on the weekend of January 8, 9 and 10, the Clarendon Broncos junior varsity boys team competed in the Childress JV basketball tournament, and fared well. They took home the second place trophy after narrowly missing the championship Saturday night.

Thursday afternoon, the Broncs matched talents with the Childress freshmen. The game was dominated by Clarendon who built a 13-1 lead after only one quarter of play. It was never close as John Braxton canned 16 points and dominated the boards. Bobby Weatherton added 8 tallies to help the Broncs. Clarendon shot an amazing 56% from the field to raise their record to 4-3 on the year. The points were well-spread out as Ray Crump hit four, Brett Bryant three, Arlis Thomas, Shawn Heil, Creed Wright, and Fabian Torres each scored one, and Hosea Hearn and David Weatherton canned one point each. The final score: Clarendon 41, Chil-

dress freshmen 15. Friday, the Broncs defeated district rival Wellington 31-23. They were led once again by John Braxton who scored 11 points. He was followed by Bobby Weatherton and Arlis Thomas with 8. Hosea Hearn added four and Ray Crump two to round out the scoring. The Broncs jumped out to a six point lead

that widened only at the end as Coach Roy Rutledge's troops raised their record to

Saturday night, in the Championship game against Vernon, the Broncs played hard, but folded to a tough Vernon team. The Broncs stayed neck and neck with them until the fourth quarter when Vernon pulled ahead by 5 to win 39-34. Rutledge said that John Braxton probably played the best of the troops because of his outstanding defensive rebounds. Braxton brought down about 14 boards per game. In the loss, Hosea Hearn led all scorers with fourteen points, Braxton had nine, B. Weatherton seven, and Doug Walker and Ray Crump had two each.

The Broncs go to the Valley J.V. tourney Thursday for their next game.

Canada in 1980

Canada covers an area of 3,851,809 square miles and as of 1978 had a population of 23.5 million.

Canada's economy parallels that of the United States thus for 1980 predictions are that unemployment will rise from 7.5 percent to 9.3 percent and inflation from 9 percent to 11 percent. -

First flush

The first flush toilet was a product of Minoan civilization, Crete, circa 2,000 B.C.

Superior heighth to get excellent rebound position and used that position as the main difference in the game.

January 8, 9, 10: The Bronchettes ran their winning streak to seven after taking wins over Happy, Hedley, and Adrian to bring home the North Plains Classic championship.

In the first round, only one Bronchette failed to score as Clarendon buried the Happy Cowgirls, 61-38.

Bronnie F. McNabb, Jr. Jice President & Cashier

10 fourth quarter points, put away the Sherrie Hill-led Hedley Owlettes, 52-41. Calloway ended up with 18 points, while Hill led all

scorers with 19 points.

Angelia Gardner was the

only other Bronchette to

reach double figures with 13. The Bronchettes used a steady offensive game plan, as witnessed by their scoring 12 points in each of the first

zzer by Adrian was p vn by Gardner to end an

Calloway led the Bro chettes with 14 points, but the difference in the game was on the boards, where Gardner pulled down 14 rebounds and Hardin added 7

(TAM-MAR and CAMD germplasm) are being resistance to root rot, in comparison with rs, by scientists with the Texas Agricultural tion. Root rot was much more severe in an it had been in recent years. In the uniform MAR ple the trend was for the LEBO, GN, AND er CDPS strains to be less susceptible than the Tamcot CAMD-E standard. It was noted that even under the severe conditions of 1979, Blank-SU had fewer dead plants than did the poorest performing strain of the previous year, ORSC-2. The recently released variety Tamcot SP37H had significantly fewer plants killed than the Blank, MAR-17-30, and Tamcot CAMD-E standards. The trend was for several new 1978 strains to be better than the older standards and Tamcot SP37H. The new Maroon material had few dead plants even to 6 to 8 weeks after plants begin dying in the nurseries. These same strains also show good resistance to Verticillium wilt and to seedling disease pathogens. Results in 1978 and 1979 suggest that within the

m, the trend continues for accum ng genes for a higher and more stable resistance to Phyhum root rot in cotton. The newer strains probably have levels of genes for an intermediate level of resistance. In 1980, even though root rot was not as severe, root rot at Temple was favorable for evaluating resistant material. The LEBO, the TAM-COT SP21S, and TAM-COT 37H coninued to be consistent in having fewer dead plants than TAM-COT CAMD-E, which was earlier found to have partial resistance and is now used as the standard. Source: L. S. Bird, College Station, Tel. 713/845-7311.

6-11-2

ANHYDROUS AMMONIA Research during the past 2 TOXIC TO ROOT ROT

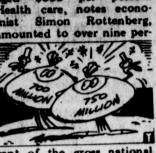

years has shown that deep application of anhydrous

ammonia is beneficial in controlling the severity of root rot of cotton, according to scientists with the Texas Agricultural Experiment Station. The fungus grows through the soil as mycelial strands and forms sclerotia, providing a means of techniques for ammonia such as split level application should be investigated. Source: S. D. Lyda, College Station, Tel. 713/845-7610.

LORSBAN EFFECTIVE The appearance of insec-IN GREENBUG CONTROL ticide-resistant greenbugs LORSBAN EFFECTIVE

new chemicals effective against greenbugs on sorghum. Chemical control is an important part of the management program developed by scientists of the Texas Agricultural Experiment Station, even when greenbug-resistant sorghum hybrids are grown. When evaluating new insecticides, they are interested particularly in chemicals that are easy on natural enemies, either inherently or by use of special application methods. One of the most promising new greenbug insecticides evaluated is lorsban. It was as effective for greenbug control as standard materials on the Texas High Plains, even at low rates (0.1 lb. AVA) which may save

In 1978, health care ex-penditures in the U.S. aver-aged \$863 per person. Health care, notes econo-mist Simon Rottenberg, amounted to over nine per

product; only about eight percent of that was accounted for by medicines and sundries.

a small outlay compared to his tobacco products (\$78.85), alcoholic beverages (\$96.47) and candy (\$26.42).

As James D. Cope, president of The Proprietary Association, pointed out, if only five to ten percent of the people now self-medicating for minor all-ments sought professional help instead, it would add billions of dollars to the nation's health care costs. Consumers, health care economists, government providers and health professionals are looking for ways
