## Explorers' Canoe Brazos

An intrepid group of Explorers from Clarendon's Post 2437 braved the Brazos River a few days ago. The first leg of our journey was from Possum Kingdom Dam to the Worth Scout Ranch about 15 miles downstream. This part of the trip usually takes about eight hours under normal conditions; but because the river was some three feet above normal, it took us only 4 hours. The river was swift but not treacherous. In fact, the weather couldn't have been nicer or the canoeing more perfect. That stretch of the river is pretty much pristine with little evidence of development, so there was a real sense of the primitive. Saturday night, at the end of the first leg, we made camp at Worth ranch. A few of our "crew" tried their hand at fishing, but because of the recent flood waters more fish were caught

## Cancer Screening Clinic

A clinic will be held in Clarendon on Monday, June 25, 1990 from 1:30 to 3:30 p.m. at the Clarendon Medical Center Clinic. Exams are done by appointment only. For more information about the clinic or to make an appointment, please call the Harrington Cancer Clinic at our toll free number, 1-800-274-4673. Locally, for more information, contact the Medical Center Clinic at 874-3760.

The Breast Cancer Screening Program of the Don and Sybil Harrington Cancer Center and High Plains Baptist Hospital of Amarillo will continue community outreach clinics for early detection of breast cancer.

Funding is available through the Texas Cancer Council for screening mammography for Texas residents qualifying for financial assistance.

Early detection of breast cancer is the major goal of cancer control for each woman seen in the clinic. The clinic provides low cost screening which includes a breast exam by a Registered Nurse trained in breast cancer detection, teaching of breast self examination, and a mammogram.

Currently, the most effective method known to win the battle against breast cancer is early detection. Early detection is best done by following the guidelines recommended by the American Cancer Society for breast cancer screening for women who have no signs or symptoms of breast cancer. The guidelines are:

1. Learn and perform breast self examination every month.
2. Have a physical examination of the breasts every year.
3. Have a mammogram according to the recommendations by age.

Age: 35-40 - One baseline mammogram; 40 to 50 - a mammogram every 1 to 2 years; over 50 - yearly mammograms.

## DPS Warns Drivers

It's the beginning of summer and with it brings an end of another school year. Children will soon be filling the streets to play and parents will be planning for that summer vacation.

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety, reminds parents and motorist that safety should continue to be part of their daily routine.

Parents should instruct their children in the safe operation of all recreational equipment, such as; all terrain vehicles, bicycles, scooters, motorbikes and skate boards. Instruction on proper use, care of and laws applying to all such equipment should be reinforced. Safety equipment, such as pads and helmets, should be worn to minimize injuries. Smaller children should be instructed to never ride such equipment as ATV's and scooters without appropriate supervision.

If you are going to be around water this summer, remember; never let anyone swim alone. Establish pool rules. Keep electrical appliances away from the water. Prohibit horseplay. Never leave a child alone and never consider young children water-safe despite

their swimming skills.

Motorists should use extra caution when driving in residential areas, remembering that we have longer hours of daylight. Always be looking out for children darting in and out from behind parked cars. Never assume that a child will see you. Slow down and honk your horn to get their attention, if needed.

And remember, when travelling, please buckle up and drive friendly, the Texas way.

Major v.J. Cawthon, Regional Commander of the Texas Department of Public Safety reminds us that Memorial Day signals the beginning of summer vacation. He states, "During this holiday period there will be more vehicles on the roadways of Texas, because of school being out and many families are starting their summer vacations. With the increase of traffic, the danger of more accidents, more injuries, and more deaths naturally increase."

"This holiday period, all available Department of Public Safety

JIM AND JULIE LONDO landed at Lelia Lake when weather conditions deteriorated last week. The couple appeared to enjoy their stay in Donley County.

## Helicopter "Drops In" on Lelia Lake

Jim and Julie Londo landed their Hughes 300 C at the Lelia Lake Gin on Tuesday, May 29th. They ran into adverse weather as they reached the Panhandle. The young couple were ferrying the aircraft from Miami to Seattle.

They parked the aircraft in the shelter of the Lelia Lake Gin. Junior Putman provided them a ride to the restaurant and a lively conversation at lunch.

The three-seat helicopter cruises at an indicated air speed of 80 mph, but the actual ground speed seems to inevitably be somewhat slower.

The Londos took delivery of the helicopter a Kendall, just south of Miami. They are ferrying the craft for a friend in Marysville, Washington. Due to delays in the transaction, they did not get to leave the airport until late in the afternoon on Friday, May 25th. They only made about 75 miles the first evening, stopping at Ft. Meyers. The second day they reached Mobile, Alabama, and the third day arrived in Beaumont, Texas. They arrived in Wichita Falls on Monday, June 28th, and started West again the next morning. But the weather did not cooperate.

Julie is one of only about 715 women in the world who have a helicopter license.

Jim and Julie were married in a helicopter in Washington State. They have a Hughes 269A that they tow behind their motor home.

Troopers will be on the road and will be especially watchful for individuals committing hazardous

Even though you were so young, and I'm almost the age you were, I held nothing against you, Mother. You did what you preferred.

I know you did the right thing, and I would have done the same. But now it is so great to have a big brother, and it was well worth the wait.

SUSIE SHIELDS

**Founders Day Held**

by Londa Crump

On April 28th, we had our annual Founders Day Banquet. A time when the Clarendon Chapters of Beta Sigma Phi can get together for an evening of sharing past events and accomplishments of the past year.

The evening started out with dinner served by the Clarendon Country Club, followed by past year histories and awards. This year's Alpha Upsilon Epsilon Pledge of the year went to Angie Thomas and

girl of the year went to Sandra Shields.

We also elected a Woman of the Year. This award goes to a Woman in our community who is devoted to serving others. This year's Woman of the Year Award went to Susie Shields, a woman who manages to take care of the needs of her family and still makes enough time for serving others. She is very active in her church involved with little dribblers, serves on the school board, takes cancer patients to Amarillo for treatment and as you all know makes wonderful cakes for any occasion. It's people like this that make our community what it is. It's such an honor to be able to recognize these special ladies.

We're also proud to announce the founding of a new Chapter to Beta Sigma Phi in Clarendon, a lot of hard work went into the making of the Preceptor Mu Lambda Chapter.

**IT'S JUST LIKE A DIAMOND.**

You know it's an imitation. But what about the many people today who have decided they are just like a banker? From stockbrokers to retailers, from credit unions to insurance men, from savings and loans, they all seem to be saying, "You don't need a banker, we'll do just as well." Oh, no they won't. Because no one else has the banker's hundreds of years of banking experience behind them. Nor do they enjoy the kind of trust that bankers do from the majority of Americans. So why settle for an imitation when you can have a real banker at our Full Service Bank? THE ONLY PLACE YOU'LL FIND A BANKER IS THE BANK.

CLARENDON HIGH SCHOOL GRADUATING CLASS OF 1990

## Project Graduation Is A Fantasy Come True

Their fantasies came true! May 24, 1990, was the night, Fantasy Island was the site. The graduating Senior Class of 1990 were guests of Mr. Roark and Tattoo and a host of Senior Class Parents at Project Graduation 1990. Beginning at 11:00 p.m. on graduation night, 31 of 36 graduating seniors and their dates arrived at Clarendon Country Club for an evening they will never forget. They were greeted at the door and presented with leis by Mr. Roark and Tattoo. (Thank you, Roy Monroe and Larry Presley!) The Senior girls also received silk flowers for their hair. Items were collected from the seniors to be placed in a time capsule. The Class of 1990 voted to open the capsule at their 10 year reunion.

The Country Club dining room came alive with grass huts, palm trees, parrots, fishing net, tropical fish, an octopus, a mermaid, and endless shells and plants. After grilled hamburgers and table after table of fresh fruit, vegetables, dips, chips, fondue, etc. (Thank you Katherine Williams, and Thank you, Family Cafe- your names were inadvertently omitted from our Thank You list), entertainment was provided by two comedians from Jolly's Comedy Club in Amarillo. Both of these comedians have performed all over the nation (including the Improv). (The parents would like to extend a special "Thank You" to Ann and Chauncey Hommel for picking up the comedians at Jolly's and bringing them to Clarendon). After the comedians, Joe Davis of KLSR radio disc jockeyed a dance. One of the

highlights of the evening followed the dance. Seven of the Senior Fathers competed in a very close Hula Contest (grass skirts and all!). Judging was determined by an applause meter. The Big winner was Terry Tamplen with Ike O'Neal coming in a close second. Other competitors were Jim Sharrar, Jim Shadle, Johnny Hill, Gary Mays, and Phil Vargas. After the applause finally died down, the action was moved downstairs to the Casino. Dealers were our "Hula Dads" donned with vests and garters. After the casino event, our students were taken back upstairs where their fantasies were realized. Each student previously had been asked what they would do, where they would go, or who they would like to meet if they could have their fantasies come true. Well, those fantasies came true--but maybe not in quite the way the seniors had in mind. (Thank you, Carol Hinton, for all your help with this!) At 6:00 the action was moved to the new Country Club beach where the students enjoyed a breakfast luau. (Thank you, Ferol Shelton & your chuck wagon!) While the food was being prepared, Eddy Eads and Roy Monroe provided pontoon rides on Greenbelt Lake. (Thanks Eddy & Roy).

Throughout the night, door prizes were given away to every senior, the highlight coming at 7:00 a.m., when the drawings were held for several large prizes, including a compact disc player, a VCR, and a color T.V. These door prizes were donations, or were purchased with the money from contributions, from all of our community businesses. Thank you, Clarendon. Without you, there would have been no Project Graduation!

## Genealogical Society Met

The Donley County Genealogical Society Club met May 14, 1990 at the Burton Memorial Library with four members present.

Each one discussed what they had been working on and what they had found out. Billie brought old pictures that she was matching to names that she had.

The Club had received four queries during the month and some of the members are working on them. We are glad to receive the queries and hope others can help us when we write for information.

Members present were Kathy Campbell, Walter Warner, Billie Taylor and Thelma Rudder.

Our next meeting will be June 11,

## PROTECT YOUR HOME FROM SUMMER HEAT!

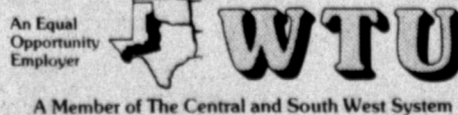

### HERE'S HOW:

- Check your home for adequate insulation — R-30 is recommended in the attic.
- Help your cooling system's efficiency by caulking and weatherstripping. Infiltration of outside air is your air conditioner's greatest enemy.
- Help keep the cost of cooled air down by setting your thermostat at 78° or higher and clean your air conditioner's filter regularly.
- If your present air conditioner needs replacing, consider an all season electric heat pump — it cools in the summer and heats in the winter.

## Local To Attend A & M

Wil Burlin has been selected as one of the participants in the 1990 Career Horizons program at Texas A & M University. Wil is one of a group of 25 high schoolers from across the United States who will participate in the eighth annual program.

Career horizons is an intensive one-week program for college-bound high school students who are curious about the interrelated fields of art, urban planning, architecture, landscape architecture and construction science.

Career counseling from professionals in each of the five disciplines represented in the College will be given. Wil will participate in a series of workshops, seminars, and studies that will challenge him to develop his creative and analytic capabilities. He will learn to view his physical environment from the basis of the artist, planner, designer, and contractor, to be able to understand how they can influence and change what they see around them. A trip to Houston Architecture firm, Museums and Innova is included. In addition, there will be a final review and critique of projects with students and faculty.

Leta Olson recommended Wil for the program as well as for a scholarship to attend it. Will received a scholarship for the June 10 through June 16 program from the College of Architecture, Texas A & M University.

Wil, son of Judith Burlin, will be a senior during the 1990-1991 school term. He is a member of National Honor Society Student Council, Spanish Club, and Vice-president of the Junior Class. He served as football manager. He recently won first place in Headline writing at State U.I.L.

NOT-SO-BENIGN NEGLECT is beginning to show up on this Clarendon landmark, once the pride of the community. The circular window on the left has been broken for more than a year, allowing pigeons into the interior. The porch roof leaks, so that the plaster is beginning to fall on the sidewalk. Recently the enameled metal fascia came off and hole appeared in the white background on the sign.

**EMS Meeting Held**

The Clarendon EMS held their monthly meeting on May 22 at 7:30 p.m. in the Clarendon Fire Hall. The meeting was called to order by Benny Osburn. The members present were: Kyle Hill, Vikki Laxson, Connie McAnear, Benny Osburn, Delbert Robertson, Larry Taylor, Faylon Watson, and Diana Wiggs.

In May 1854 Gainsville was barely a town. When W. B. Parker visited the community a few weeks later, he described it as being a "collection of five or six log cabins, dignified with the name of a town." On the evening of May 28, 1854, the sky darkened and the winds began to rise as a typical late springtime convectional storm brewed toward the west. W.W. Howeth, then a boy, later recalled, "A tornado was forming, and in a few minutes... reached from the earth to the cloud above, with all its blackness, whirling and roaring."

Having nowhere else to seek shelter, the two families all huddled in the William Howeth's cabin. Little did they imagine the force that the cyclone was about to exert. The entire house was blown down upon its inmates, killing all of the children but one. The two wives were so severely injured that their lives were threatened.

Other frontier families in the Gainsville area suffered as well. Mrs. William C. Twitty and her stepsister, Mrs. Olivo, had spent the Sunday visiting in the home of Mrs. Twitty's father, Daniel Montague. Late that afternoon, as the two ladies headed for their respective homes, the clouds darkened and the thunder began to rumble.

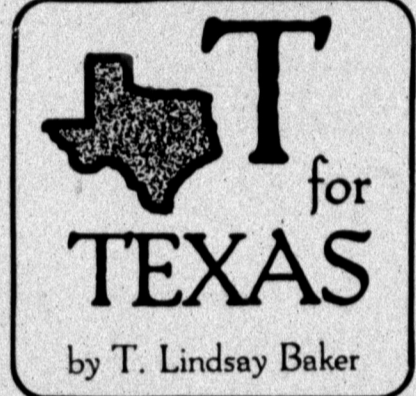

The Standard in Clarksville, farther down the Red River Valley, reported that the homes of both the Twitty and the Montague families were

... even the bed clothes torn to shreds by the force of the winds." The storm struck after Mrs. Olivo had returned home, and she saved her children from its fury only by "placing them in a small cellar under the floor," although she herself was seriously hurt.

In the same neighborhood, James Rutledge suffered damage to crops and home. "The roof of his house was blown clear away and has not yet been found, reported the paper."

Some of the damage was incredibly gruesome. When he passed through Gainsville shortly after the storm, W.B. Parker noted "a horse was blown into a tree, where it happened to catch by its fore-leg and shoulder; these were torn from the body and were still hanging there, the balance of the carcass lying in a field a full quarter of a mile off."

Summarizing the devastation at Gainsville, the standard described the cyclone as having been "a gale unparalleled save by the hurricanes of the tropics."... and that it was.

Eight-year-old Tommy and 9-year-old Louise Howeth, brother and sister, lie side-by-side in the Fairview Cemetery at Gainsville in the Red River Valley. Their graves are in what today is Division D in the burial ground in front and south of the chapel. The thing that sets them apart from the other people there is that they started the cemetery.

The story of Tommy and Louise goes back to the evening of Sunday, May 28, 1854. They were in the home of their parents, Mr. and Mrs. William Howeths, together with an aunt and uncle and their two children. The Howeths lived on the fringe of settlement, their home being one of the handful that had been built west of Gainsville.

Letters To The Editor

Dear Editor,

What will happen on June 1 if the Master appointed by the Court decides how the schools in Texas will be financed?

William Kilgarland, who is the Master, is a former Justice of the Texas Supreme Court. He was asked to resign by Governor Clements because while he was on the Court, Kilgarland took two weekend trips to Las Vegas with a law firm which had cases pending before his court at the time!

What are the Master's options? The court cannot levee a local property tax or a sales tax, and I doubt that he would even bother trying to raise fees.

He really has two options. He can divide the existing money differently, cutting sums like \$50 million from Dallas and \$70 million from Houston. But Kilgarland lives in Houston, and I don't think he's going to make a decision like that.

Another option is that he could consolidate school districts so every student would have equal access to property value, so similar tax efforts would raise similar amount of local funds. That way he would have state funds available to allocate. He could say that inner city districts needs more because they have to pay a higher teacher salary or because land is more expensive (that's usually called the Price Differential Index or PDI). He might say that rural districts should get additional money because of long bus routes.

The problem with that option is that rural Texas always gives up more than we get.

We cannot allow the Master to combine our districts. In the Panhandle, we would probably have one district and the school board might be elected by people from Amarillo or Lubbock, or maybe even Odessa!

The proper place to decide this issue is in the legislature, not in the court. The only fair way to provide the money, in my opinion, is the sales tax combined with budget cuts. Let's not let the courts make this situation worse, or ask the ad valorem tax payers to pick up the

tab again, since they pay 53% already.

The bottle neck to the passage of a fair and equitable bill is in the governor's office. The legislature needs your help and your voice in convincing Governor Clements that another expensive and time-wasting legislative session is futile, when he has the solution in his hands.

Sincerely, Warren Chisum State Representative 84th District

arrive in chronological order. The only way I can keep the record straight is by keeping a written record. This became necessary due to the haphazard delivery. It has been so confusing it was impossible to know which issues have been received and which has not. The mail you have sent came in two or three days. What a pleasant surprise when the May 9th issue arrived May 12. Why can't all service be that prompt? May 24th issue has not arrived yet. Hopefully this problem can be resolved soon.

Public Notice

TO ALL FORMER AND CURRENT INTRASTATE WIDE AREA TELECOMMUNICATIONS SERVICE (WATS/800) SUBSCRIBERS:

Southwestern Bell Telephone Company has instituted a Class Action Lawsuit seeking judicial approval of a settlement reached in Docket No. 7297, an inquiry of General Counsel of the Public Utility Commission of Texas into possible overcharges which occurred between September, 1976, and February, 1987, due to rounding practices, on bills of intrastate WATS/800 customers sent by Southwestern Bell and other telephone companies which concur in Southwestern Bell's tariff. The suit is styled "Southwestern Bell Telephone Company, Plaintiff, vs. MCI Telecommunications Corporation, A Member of the Class of Texas Intrastate WATS and 800 Service Customers Who Paid Overtime Charges From September 1976 Through February 1987, Defendant," and identified as Cause No. 471,460 in the 126th Judicial District Court of Travis County, Texas.

Pursuant to the settlement, while not admitting liability, Southwestern Bell, the other local exchange telephone companies in Texas, and AT&T Communications of the Southwest, Inc. have agreed to pay refunds to those WATS/800 customers who paid overtime charges attributable to the rounding practices for intrastate WATS/800 services at any time between September, 1976, and February, 1987. The refunds will be based upon either the actual or estimated amount of overtime charges attributable to such rounding practices. An exact refund will be determined for customers able to produce copies of their WATS/800 service bills. For customers who do not have copies of their WATS/800 service bills to establish actual overtime charges paid, an average refund of \$4.53 to \$5.95 per WATS/800 service line per month will be applied. All claims will be subject to verification. The refunds will also include interest at the rate of 7.80% per annum.

Claim Forms And Additional Information

Those customers who think they may be entitled to a refund or who desire more information must call 1-800-782-3026, 8:30 a.m. - 4:30 p.m., Monday through Friday, or write to WATS Refund Pool Administrator, One Bell Plaza, Room 670, P. The WATS Refund Information Package will contain further information regarding the lawsuit and eligibility for a refund, a description of documentation required to support a customer's claim for refund, and a refund claim form to be filled out and submitted requesting a refund. REQUESTING A WATS REFUND INFORMATION PACKAGE DOES NOT OBLIGATE YOU IN ANY WAY.

All claims for a refund must be received by the Refund Pool Administrator by Friday, October 5, 1990, and all rejections of the settlement (that is, requests for exclusion from the class action lawsuit) must be received by the Court by Wednesday, September 5, 1990. ### Thank You

We would like to thank you for your donation to Project Graduation here at Hedley CISD. The all night activities were a great success, and everyone enjoyed themselves. There were approximately 80 people still present for the breakfast served at 4:30 a.m. Saturday morning.

A dance was held throughout the night, badminton, egg tossing contest, horse racing, barrel racing, toilet paper racing, and many other activities were done. The younger kids (K-4) had their special activities until 11 p.m. and then most of them went home but a few remained with their parents to dance the night away. Every student present took home some type of prize.

There was a tremendous amount of work put into the program by the people in the community. Hedley CISD appreciates the work and donations made by the community and the businesses. Once again thank you for your patronage.

Surely receiving such a report would help us to see where we perform well, and where we need extra work. Well, wouldn't it? Why doesn't God issue report cards?!

Did you ever hear two students comparing their cards like this:

"I beat you in English."  
"Yeah, but I beat you in Math, nyah, nyah!"

"Of course you did. Old Lady Smith likes you. She hates me!"

Could Christians find themselves in that sort of competition? It's pretty easy to get into an "I'm-a-super-Christian-and-you're-not" mentality, even without report cards, isn't it?

Would receiving a low mark in, say, Church Visitation, cause us to focus on quantity instead of quality? ("I'll sign up ten more people in Sunday School this year. Surely that'll get me an 'A'." Aren't we pretty number-conscious as it is?)

Would receiving a report card make us too success-oriented? We're already too inclined to believe that the results of our witnessing depends upon us, instead of upon the wooing of His Spirit.

Actually, the whole question is amiss. God DOES keep us posted, and He does it in a way that avoids the pitfalls just mentioned.

How does He let us know where we stand?

First and most importantly, He speaks through His Spirit. "The Spirit itself beareth witness with our spirit, that we are the children of God" (Romans 8:16).

Secondly, we are rated by the Word. "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness" (II Timothy 3:16).

Thirdly, any good teacher, any good parent, knows long before report card time when a student strays from the right path. Sometimes strong corrective measures are required. "As many as I love, I rebuke and chasten," the Lord says in Revelation 3:19.

In the fourth place, the Lord

speaks through blessing. It is true that the rain falls on the just and the unjust, but any Christian can tell you he didn't really know anything about blessing until he began walking with the Lord.

Finally, we receive an indication of the Lord's pleasure in our work by receiving more responsibility in the Kingdom's work. "Well done, good and faithful servant; thou hast been faithful over a few things, I will make thee ruler over many things: enter thou into the joy of thy lord" (Matthew 25:23).

No, God doesn't leave His children floundering in the darkness, having no earthly idea whether they're on track. His signs, His Word, His Spirit are everywhere.

Do you see no report at all? Read Hebrews 12:6-8. Perhaps God isn't speaking. Get worried!

## Midyear Crop And Livestock Reports

Beginning June 1, representatives from the Texas Agricultural Statistics Service will begin contacting farmers and ranchers across the state to help set the 1990 planted acreage estimates and midyear livestock inventories.

State Statistician Dennis Findley emphasized that information from these surveys will help producers adjust their production and marketing plans for 1990. "Good marketing requires good information and advanced planning. Information from these surveys will provide Texas producers with solid facts and figures they can use when making their marketing plans."

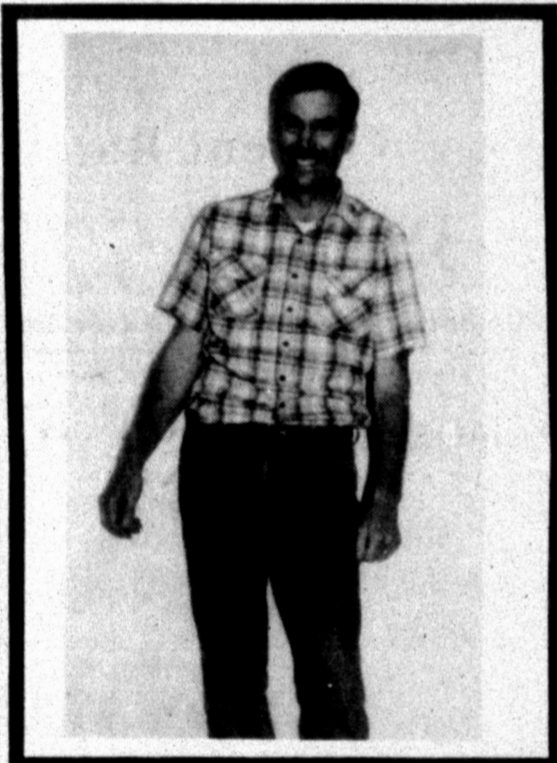

"There are many uncertainties facing agriculture," Findley added, "and accurate, reliable figures will give producers a chance to make sound production and marketing decisions during the coming year."

Results of the confidential interviews, conducted by tele phone or in person by field enumerators, will be published later this summer. The 1990 planted acreage report will be released June 28 and the U. S. cattle inventory will be released July 27.

To reduce survey costs, Findley is urging farmers and ranchers to return the mailed questionnaires as soon as possible. Individual reports will be combined with other reports to state estimates.

"Remember, these are sample surveys, so if you are contacted it is important to provide the requested information, since your one report represents similar operations of the same size and type. Our estimates can be no better than the numbers producers provide," Findley added.

What? No Report Card?!

by Jon Leggett

Another school year is just about over, and report cards will soon be issued for the final time this year. Report cards--that dreaded little piece of paper which can determine whether the student will be praised for his effort or grounded until he's twenty-one. Remember? Remember the confident members of your class? The fearful, anxious ones?

Several years ago it became fad-dish in certain educational circles not to have grades or report cards. The grades don't really mean anything, proponents of the fad argued. But most educators and parents disagreed. True, they countered, any grade system is imperfect, but the report is a needed
