Absentee Balloting Extended

The extended absentee balloting period is under way for those registered to vote in the March 13 primaries, Texas Secretary of State George Bayoud said. Registered voters will have until Friday, March 9 to appear in person at county courthouses and polling places across Texas to cast absentee ballots in next month's Democratic and Republican party primary elections, said Bayoud, the state's chief elections officer. The deadline to register to vote in the March 13 primaries was Feb. 11.

Under a 1987 state law that relaxed absentee balloting requirements, registered voters need not give a specific reason for casting in-person, absentee ballots during the extended period.

A separate period still exists for those who cast absentee ballots by mail. That period began Jan. 27. Those who vote absentee by mail must give a reason for not being able to cast their ballot on Election Day.

"This 'no excuse' voting period literally leaves Texans no excuse to stand on the sidelines and watch others decide who to nominate for governor and the many other statewide and local offices that are on the ballot," Bayoud said. "Those old excuses about being turned off by having to stand in long lines, or taking time off from work on a weekday are no longer valid."

On March 13, Texans will head to the polls to nominate candidates for the U.S. senate, governor, lieutenant governor and hundreds of other statewide and local offices.

JERRY MORRIS presented Doug Kidd the "Director's Citation Award" during a ceremony on Thursday, Feb. 22, 1990.

Local Man Receives Award

Doug Kidd was presented the "Director's Citation Award", February 22, 1990, by Trooper Jerry Morris of the Texas Highway of Public Safety. The award was presented to Doug, in the Fire Station, as area D.P.S. officers watched.

The Director's Citation Award is the only award that is given to a civilian outside of the Department of Public Safety for heroic deeds.

Trooper Jerry Morris nominated Doug Kidd for this award, because of his bravery in rescuing and keeping a child from drowning in Lake Greenbelt. Trooper Morris sent the nomination through regular channels and when the director reviewed it, he found that the recommendation was worthy and authorized the award. This is a very high honor for Doug, as these awards are very hard to receive.

Bass Club To Hold Meeting

Annual Explorer's After-Church Bar-b-que Lunch

For the second time the Clarendon Explorer Post is sponsoring its After Church Bar-b-que lunch. We will begin serving on March 4th at 11:30 a.m. in the Clarendon Lions Club Hall.

You may purchase tickets from any of the following Explorers: Stephen Bivens, Toni Breiting, Lee Gage, Christie Helms, Cindy Hermesmeier, Buddy Howard, Robert Lee, Nathan Lowrie, Megan Williams. Tickets may also be purchased at the door. Adults are \$5.00 and children under 12 \$3.00.

All the proceeds from this and other fund raisers go toward the post's educational program. Last year activities included tours of the Broadcast Journalism Depart at Amarillo College, watching a live TV newscast in Amarillo, touring the Museum in Canyon, and at flight to Houston to visit NASA. Each Explorer also got an introduction to flight training thanks to the efforts of a couple of local business men.

In addition to getting a good meal, you will be helping 15 Clarendon teenagers stay busy and learn a little something in the process.

Scout Leaders would like to express their thanks to the Clarendon Lions Club for the use of their building and to the First State Bank and Trust and Donley County Bank for providing the food.

1990 Count To Begin

It's census time again. Some people may downplay the importance of the population survey conducted every 10 years, but an accurate count may be crucial to the future of this area.

Seats in the U.S. House of Representatives are distributed on the basis of the census. The more representatives the area has, the louder its voice on the House floor, and that frequently translates into positive action for the region.

An undercount could cost Texans \$300 million in federal aid in the 1990's, according to the Texas Comptroller's Office. Federal funds for communities also are distributed according to the population count. Those most in need are often the ones shortchanged when there's an undercount.

Area officials are determined to conduct an accurate tally to ensure that this area won't be penalized in

Breast Clinic Coming

The Breast Cancer Screening Project of the Don and Sybil Harrington Cancer Center and the High Plains Baptist Hospital of Amarillo will continue community outreach clinics for early detection of breast cancer. The clinic provides low cost screening; which includes a breast exam, professional breast examination, and mammography. The clinic is staffed by professionals including a Registered Nurse specially trained in breast cancer detection.

The clinic is scheduled in Clarendon for Friday, March 23, 1990, from 9:30 a.m. to 12:30 p.m. at Clarendon Medical Center Clinic. For information about the clinic or to make an appointment, please call the Harrington Cancer Center

(806)359-4673, or our toll free number 1-800-274-4673. Locally, for more information, contact the Medical Center Clinic at 874-3750.

Because of the increasing incidence of breast cancer in the United States, women over the age of 40 should make it a routine habit to have annual breast exams and screening mammograms every 1 or 2 years until the age of 50 when mammography should be done every year without fail. Women should also do breast self examination monthly to aid in the detection of any changes in the breasts. Early detection of breast cancer is the major goal of cancer control for each woman seen in the clinic.

Museum Has New Hours

At its regular meeting, the museum board voted to open the museum Saturday and Sunday afternoons until further notice. The Saints Roost Museum will be open every Saturday and Sunday from 1:00 p.m. to 5:00 p.m. This action was made possible by the gracious support of Carmen and Bud Wright, who have agreed to keep the museum open each Saturday afternoon. Volunteers are needed for Sunday afternoons and if you can help on this, please contact any board member.

The meeting was held Wednesday, Feb. 21st with Doug Lowe presiding in the absence of Betty Boston. Other members present were Ruth Hancock, Mutt Graham, Wes Henson, Earl Ford, James Owens and Phebe Ann Buntin; associate representative Thelma Rudder and Chamber president, San Thompson was a guest.

San brought us up to date on the objectives and accomplishments of the Chamber. The board voted to donate \$50.00 to aid in the effort to promote tourism.

Mutt Graham reported that the city was unable to pave the circular drive at this time. James Owens said he would donate the caliche when the city was ready to pave. James said the county agreed to shape up the grade on the west side of the museum so it can be maintained.

Doug Lowe had talked to the highway department about the placement of signs directing visitors to the museum. There are three signs at the present and that is the maximum to be supplied by them.

Thanks to the generosity of Frank Derrick, the small brick building directly behind the museum has been completely renovated, with new cedar shingles, wood trim, and windows. With a new door, plaster and paint, it will soon be ready for an appropriate exhibit.

Also, a word of appreciation is due for the many hours of volunteer labor given by Alton Gaines and Danny McCampbell. These young men with the able direction and assistance of James Owens and Mutt Graham have accomplished minor miracles in all phases of work, both inside and out. Many areas have been cleaned out and gutted, and will soon be prepared for exhibit sites. Underbrush and trash has been cleared off around building and buggy shed.

The Les Beaux Art Club will hold its meeting at the museum this week and a quilting club will meet there in the near future. Consider having your next club meeting there - you would be most welcome.

During the past ten years the EMS Association has grown. The Ambulances are presently located at the Fire Station. We have two Ambulances that are fully equipped with life support equipment. We have approximately twenty-two members.

SUBJECT TO ACTION OF THE DEMOCRATIC PRIMARY

Why?

Some folks have the idea that God is a mean old man who thunders "Thou shalt not" just to keep people from enjoying themselves. That idea may be popular, but is perverse and just plain wrong.

The State of Texas does not set a reduced speed limit in school zones to be mean or contrary. They enforce lower speeds in front of school grounds to try to keep kids from being run over. God's commandments stem from the same motive: He wants to keep people from being hurt.

Many things that appear so good at first turn out just the opposite. Drugs promise a quick high. But then there is a crash. The final outcome is addiction and death to the user and pain and suffering for his community. Promiscuity sounds like fun, but results in greater alienation and loneliness than before. Lying seems like a quick way out of a bind, but the liar then must dread facing the deceived. Human attempts at self-gratification inevitably end in frustration.

But God has done more than just prohibit. He has offered a way of escape from the downward spiral of frustration and guilt. By accepting his sacrifice we can be delivered from guilt. And by serving others there is a sense of satisfaction that cannot be found in any other way.

That is the reason the old hymn states "solid joys and lasting pleasures none but Zions children know."

The dance practice group reported another good turnout for Monday night, February 19th. The brief winter storm caused cancellation of the 3rd Tuesday Nite dance at the Community Building, Feb. 20th. Hopefully weather will cooperate for the upcoming 1st Tuesday Night Dance at the Community Bldg. on March 6th. Please note, the start time has been changed back to start at 8 p.m. till 11 p.m. with Melvin Srygley and the Off-Beats furnishing the music.

On Tuesday, Feb. 20th, Carmen Wright was busy with Blood Pressure Clinic checking 29 people. She will be back the 1st Tuesday on March 6th.

The regular meeting of the Board of Directors was held Wednesday, Feb. 21st here at the Center. After a careful review of the rapid rise in food and operating costs, the Board felt it necessary to increase the suggested meal donations for GUESTS - UNDER 60 YEARS OF AGE to \$3.50 per meal effective March 1, 1990. Please note that this pertains only to those persons who are 59 years old and under. We regret that this action is necessary. Please understand that we operate on a yearly budget which isn't flexible such unanticipated increases in costs. If there are questions, please feel free to stop in and visit with us.

The Golden Spread Professional Hearing Aid Care Center (formerly Beltona) from Amarillo held a Clinic here on Tuesday, Feb. 22nd. They had a very good response for their service and will be back the 3rd Thursday, March 15th from 10 to 12 noon for the next Clinic.

Friday evening we were honored to have Area Agency on Aging Director, Mike McQueen and Pat Kaiser, Resource development director of the PAAA as guest speakers to acquaint us with the proposed development of a Western Heritage Theme Park by the newly formed organization called "Yesterday's Children", which is a non-profit corporation devoted to serving the interests of the Panhandle Senior Citizens. The plan centers around a development of an authentic turn-of-the-century Western town, borrowing on the concepts of Silver Dollar City in Branson, Mo. Due to the increasing evidence of the tourism potential of

the Panhandle's Western Heritage, it should make this park a tremendous drawing card for visitors and a future funding source for Senior Citizens Programs through-out the Panhandle.

Don't forget the Fun-After-Fifty Club, which will meet this Saturday, March 3rd from 10 a.m. till ?? Bring a dish and join in the fun and fellowship.

Looking To The Future

by Larry White

As many people are realizing, there is a growing percentage of the American population in the 65 and over age group. As a nursing home administrator and resident of Donley County, I was interested in seeing how our area compared with national statistics. In order to do this, I requested some statistical information from the Panhandle Regional Planning Commission in Amarillo. From the year 1990 until the year 2000 the population of persons in the 70 and over age bracket will increase in the following percentages:

Armstrong County-16.9%
Briscoe County-13.2%
Donley County-7.5%
Hall County-6.9%
Collingsworth County-4.5%

As someone who has an interest in the elderly and in long term care, I am forced to ask myself the following question: "Is the Medical Center Nursing Home doing an adequate job of meeting the needs of the people of Donley County and the surrounding area?" The answer is no. It is my opinion that we need to begin serious and aggressive planning in order to expand the facilities at the Medical Center. In the following weeks, I will be sharing my thoughts and ideas as to how we can accomplish this needed expansion. I also hope to hear from persons in Clarendon and Donley County as to their thoughts and opinions. Please feel free to call me or come by and let me know what you're thinking.

On Wednesday afternoon, February 14, 1990, the festivities began with Residents family members gathering in the Medical Center Dining area, beautifully decorated according to holiday decor.

Mrs. Laquilla Cox of Hedley played for the afternoon coronation presenting a selection of love songs as each Honoree was presented she played "The King Is Coming". Jeannie Formway presented and escorted Honoree, King Charles Bairfield, Queen Lois Percival, Prince Ernest Kent and Princess Joy Roberson. Each was placed in the seat of Honor and presented to all the guests by Vera Johnson. Vera crowned and robed the King & Queen, presented the Queen with a spray of flowers, then in turn the Prince & Princess were crowned. The Princess was also presented with a spray of flowers. Vera, then presented each with their leadership charge.

Each Honoree was presented to Residents, family members, and guest. Jeannie Formway led all present in the song, "Let Me Call You Sweetheart" and "He Touched Me"

NOTICE OF TARIFF CHANGE TO CENTRANET® SERVICE

GTE Southwest Incorporated gives notice of its proposed tariff changes to CentraNet® service, which is a Central Office-based service that provides PBX-type features to multi-line business customers and is currently being offered in all company wire centers where such facilities exist to provide the service.

The Public Utility Commission of Texas approved a generic tariff for CentraNet® service up to 100 lines in Docket No. 7652. The proposed tariff revision would establish specific rates for CentraNet® service involving 101 to 400 lines. Other proposed revisions involve the rate applicable to changes, additions, or deletions to the data bases and a new rate is proposed for additional trunks.

The names of the three CentraNet® packages have changed from Standard, Premium, and Deluxe to CentraNet® 1000, CentraNet® 2000, and CentraNet® 3000, respectively. Direct Call Pickup has been added to the three CentraNet® packages while Multiple Call Park and Shared Speed Call 30 have been added to CentraNet® 2000, and Speed Call 30 and Call Forward Busy/No Answer Split have been added to CentraNet® 3000. Flexible Night Answer and Automatic Route Selection also have been added as new optional features.

The proposed changes and new service offerings have been assigned Docket No. 9251, and pursuant to Section 43(a) of the Public Utility Regulatory Act will become effective June 23, 1990. Rates for service will be applicable to customers who subscribe to the service as well as existing customers. Therefore, there will be no effect on any other rates of the company. The company's gross annual revenues will increase by approximately \$399,600, or less than one percent annually.

The proposed rates are on file with the Public Utility Commission of Texas, and are available for public inspection at the offices of GTE Southwest Incorporated. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission. The deadline to intervene in this docket is 3:00 p.m., March 19, 1990.

A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas, 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

Help Children Take Medicines Correctly

According to a recent report from the National Council on Patient Information and Education, almost half of all children take prescribed medicines incorrectly. Their report, which occurred in a recent issue of *American Pharmacy*, indicated that children or parents often stop medicines too soon, administer too much medication, do not give or take enough medication, or do not give or take prescribed medicines at all.

Children should receive adequate and correct information. Children should be encouraged to ask parents questions about medicines they take. Parents often do not get all the information they need or want from physicians and pharmacists.

The medicine-taking behavior of children should be monitored. This involves observing children for correct medicine dosing and potential side effects.

Medicines should be stored properly. Most prescription medicines should be stored at room temperature and out of direct sunlight. Discard medicines no longer in use. Outdated medicines or medicines that belong to other family members can be hazardous to children.

Would-be bankers are multiplying like rabbits.

Everybody is hopping to include the word "bank" in their names, but that doesn't mean that they're actually bankers.

"Savings banks," "thrift banks," stockbroker "bank" accounts, and credit unions, etc., all try to pose as real bankers. But they don't always offer you the experience or, in some cases, the security of bankers.

In fact, the only place you'll find a banker is The Bank, where your deposits are Federally insured up to \$100,000.

Now, that's the best financial security there is! And a Full Service Bank offers the newest ideas to help your money reproduce.

The Semi-Optimist

by James Ivey Edwards

I love the title of this article. The most interesting earthly endeavors are always those that smack of paradox and the unexpected. Having been raised in the Panhandle of Texas I could never claim to be a true optimist--something about the wide open spaces precludes the possibility of allowing true optimism. But maturing into a somewhat liberal attitude after a strict conservative "upbringin'" allows for a little paradoxical thinking.

While digging in a flowerbed at the City Park, deep into rethinking events of the morning's Chamber of Commerce meeting, I became aware of a flock of sandhill cranes flying overhead. Now that you are wondering what sandhill cranes have to do with being optimistic, I have you right in the middle of the paradox. As I gazed into the brilliance of the afternoon sun and watched the sandhills wheel higher on thermals created by heat rising from Clarendon, I felt a sudden lifting of my spirits.

Things are happening in Clarendon that give me reason to believe that life "in these parts" may be lifting on a small thermal of its own. I decided then and there to pursue the possibility that a column on the positive aspects of living in Clarendon could be rewarding.

There had been a similar feeling in the Saturday morning breakfast meeting of the Chamber of Commerce at Salads and Such. Members reported exciting things being planned, and more importantly, things actually being accomplished. These should give even the most pessimistic Clarendonian a chance to take a breather. During coming months, I hope--along with others--to give you a reason to be at least "semi-optimistic" about the future of Clarendon and Donley County. Maybe we can even bring the vestige of smile to the face of a few "old sore heads" and "doomsayers".

In my design classes at Clarendon College, I try to teach my students to first identify the strengths of any concern for which they will create a design. The first and most basic thing that Clarendon has going for it is its name: Clarendon. The name has a ring to it--a very marketable ring.

If we as Clarendonians don't capitalize on the town's strengths, then we alone will suffer directly. The key word is alone. We alone can and will accomplish things without outside help, by working together collectively--as a town and as a people. No one will come in here and do it for us. (Anyone that strong would own us, not save us.) Together we can succeed--and in doing it, become proud of being Clarendonians.

I like the sound of that: Clarendonians.
I hope the sandhill cranes fly forever.

Make Clarendon pretty! Plant flowers along the highway. If you need help call 874-2772.

College Offers Mathematic Courses

Clarendon College is offering many courses for the transfer student and the developmental student through its mathematics department.

For transfer credit, College Algebra, Trigonometry, Analytic Geometry, Math for Business and

Economics I and II and Calculus I, II, III are available. The department tries to offer these courses at least once during an academic year, but often our class offerings are based on student demand.

For students needing reinforcement or refurbishing of their mathematical ability and skill, two developmental studies and a math lab are on schedule. These classes are to review basic mathematical concepts and introduce the students to algebra and its fundamental operations.

The Mathematics Department of Clarendon College urges you to pick up a class schedule and enroll in the course that will best fit your needs. We are not rigid in course offerings and would be willing to flex our scheduling conflicts.

Summer and Fall schedules for 1990 are available upon request in the Business Office.

Notes From The Hill

The Texas Department of Corrections will build a 1,000 bed medium-minimum security prison at Childress. Construction will begin in November 1990 with completion scheduled for July or August of 1991. At about the same time, a private 500 bed prison facility will be constructed at Memphis to house minimum security federal prisoners. Both facilities

will create new jobs for people in this area as well as provide new dollars that will turn over several times to benefit the people and towns in this part of the Panhandle.

Community colleges such as Clarendon are funded on a contact hour basis. The more students that we have enrolled for college credit, the more dollars we receive from the state to fund our college. Clarendon College will benefit directly as we will serve the educational needs of both prisons. The additional dollars generated by teaching prisoners would allow Clarendon College to hire more full-time positions needed as our enrollment grows. We project the new prison systems will add 150 to 250 new students over the first two years they are in operation.

Although prisoners will be taught inside the prison facility, we will also be serving the education needs of the new people brought into the communities to run the prison, students from Childress and the support area. In order to do this, we will need facilities in Childress. We have been meeting with a citizen's committee in Childress, and the members of that committee are very interested in trying to build facilities that will serve our needs as well as their community needs. If they can acquire facilities and vote a maintenance tax for Childress residents, they would become affiliated as a Branch Campus with Clarendon College upon approval of the Clarendon College Board of Regents. It is important to note that

dollars generated in Childress County, bond funds or maintenance funds, must be utilized there, and we cannot use dollars generated in Donley County to fund Childress County.

As further developments occur, we will inform our constituents of our progress. If we can answer questions regarding the article or any other aspect of Clarendon College, please feel free to contact us.

The fall intramural rodeo is limited to the students currently enrolled at Clarendon College. It has eleven events with prizes to the winners of each event.

The spring intramural rodeo has the same eleven events, but alumni students are invited to participate and test their abilities against the present rodeo club members.

Each rodeo is followed by a rodeo dance with music provided by the Clarendon College Cowboy Bands.

Locals Attend Democratic Meeting

Dean Hill and Jean Taylor attended a Democratic meeting in Amarillo on Saturday, February 17, for the purpose of electing a new national committeeman from this district. We elected Mack Sasing from Canadian. We also had a visit from Bill Sarpaulius, our U. S. Representative. Bill informed us about his exciting trip to Lithuania for their elections, the first ever held in the Soviet Union. He was one of four representatives chosen to go. Bill talked about his appointment to a trade committee to oversee fair trade practices with Japan. He also

presented a copy of the 1991 budget with parts underlined that would directly affect our district. The budget cuts all funding for R. E. A., rural telephone co-ops, rural health care, and Federal Crop Insurance. It cut 92% of Small Business and 40% of farm subsidies. There were cuts in veterans benefits. He said there was a lot of hard work ahead.

Particular emphasis is being placed on accurately assessing the area's homeless. Preparations have been taken for an estimate of the homeless population in March.

Assistance centers will be operating to help people fill out the census. These centers are scheduled to open one week before Census Day, April 1, and stay open for three weeks.

Clella Lewis, Manager of the Amarillo District Census Office which serves 33 counties, encourages people all over the region to take part in the census.

There should be no concern about the confidentiality of your responses to the census. Census Bureau employees take an oath to keep people's answers confidential. Violation of the oath can result in a fine and imprisonment. Federal agencies are prohibited by law from getting specific information on people. Questionnaire responses are used strictly for statistical purposes.

Households will begin receiving census questionnaires on March 23. Watch for yours, and plan to participate fully in the population count. It's important for the future of this entire program.

The Lions Tale

by Gene Alderson

The Clarendon Lions Club held its regular meeting at noon on Tuesday, Feb. 27th at the Lions Hall with 34 present. Song Leader Bentley gave us some instructions to follow during the singing and to everyone's amazement we did pretty well. Following the rest of the opening ceremony, Lontamer Henson introduced our guests including Rev. Bob Lawrence from Dumas who was the guest of Lion Smith and Debra Sanderson, Donley County FHA Supervisor who was the guest of Lion Garland.

Boss Lion Knorpp made some announcements and Program Chairman Smith introduced Cheryl Pickard, Donley County Extension Agent for Home Economics, who brought our program on something but I don't remember what it was. Oh yes! It was on improving your memory. Cheryl mentioned several ways of doing this. One was the C.A.R. method (nice name of a method!) which emphasized Concentration, Association and Repetition.

tion. She also presented each of us with a 2 page list of "Practical Ideas for Remembering" which will be very helpful if we can just remember where we put it. Meeting adjourned.

DO YOU KNOW THE LAW?

Not only is wearing safety restraints a smart idea, it's the law! Read the following to make sure you understand the law and your responsibilities:

Texas Child Passenger Safety Law.

A child younger than two years of age riding (front or back seat) in a passenger car or light truck must be secured in a federally-approved child safety seat system.

A child two years or older and under four years of age riding (front or back seat) in a passenger car or light truck must be secured in a federally-approved child safety seat system or by a safety belt.

Texas Safety Belt Law

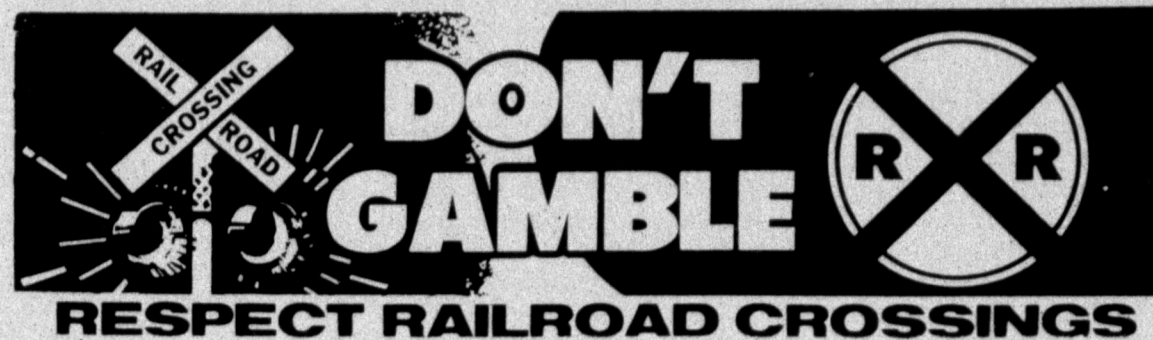

All drivers and front seat passengers are required to use safety belts whenever they ride in safety belt equipped cars or trucks of 3/4 ton capacity or below.

Violating the Law.

If an unbelted person is under 15 years of age, the driver of the vehicle will receive the ticket. If an unbelted person is 15 or older, the unbelted individual will receive the ticket. Failure to comply with either the child seat or safety belt law can result in a \$25-\$50 fine.

DOORPOSTS

SHOUT!

by Perry Mack Garrison

The morning sun had already begun to beat down heavy upon the dusty rock. The wind whistled its dry heaves through the seams of the great wall. Noises of civilization could be heard echoing from the multitude who dwelled safely within.

"Captain! The children of Jacob return!" the watchman on the wall sounded.

The captain quickly made his way to the guarded catwalk just below the top of the main gate.

"Look at those helpless nomads," he said sarcastically. "Why do they embarrass themselves and their God so, coming against a city as mighty as we!"

"Fools!" another wrenched. "Their God must love fools. He must be a God of fools! Look at them!"

They all had a good belly laugh. Sweat poured from each soldier, and as hard as they tried to appear calm, each bore a deep anxiety on their brow.

In the distance, along a high ridge of solid sandstone, a ring of drab color began to appear.

Silent.

The wind conjured up a mourn-

ful eerie cry, moving the dunes on their endless journey.

The warriors atop the massive stone structure eyed the populace of the tiny nation with apprehension and smug arrogance as thousands more joined the entourage of God's people from over the horizon.

A messenger was sent scurrying around the edge of the wall to try to best guess how many had come this morning.

"It's a multitude, sir. Uncountable. But still they bring no large weapons of war. No catapults or battering rams to offend the wall of our great city," the messenger said.

"Then they will make a show and leave us again this morning in silence as before. Cowards!" the captain returned.

"But sir," another warrior began, "something is somehow different. Their priests lead the way before this chest of theirs this day. And they carry trumpets."

"Man your stations and bend the bow against this people just to keep them at arrows reach!" the captain ordered.

"Yes sir!" the men answered.

The priests carried the ark of God just behind the trumpeters. The people of Israel followed close behind. In single file they compassed the city seven times in silence. Silence before their God.

Then, as the angel had commanded Joshua, the trumpets sounded with one long blast and the children of Jehovah God did "SHOUT!"

"...And it came to pass, when the people heard the sound of the trumpet, and the people shouted with a great shout, that the wall fell down flat, so that the people went up into the city, every man straight before him, and they took the city. Joshua 6:20b"

Do you feel somewhat foolish at times when you try to serve God and it seems as though the enemy has closed you in with a wall of unsurmountable proportions? Just remember this: "But God hath chosen the foolish things of the world to confound the wise; and God hath chosen the weak things of the world to confound the things which are mighty. I Cor.1:27"

What shall we then say to these things? If God be for us, who can be against us? (Romans 8:31)

Walk in silence. Shout in victory!

New Tax For Agriculture

Employers are required to withhold income tax, regardless of the number of employees, beginning in January, 1990. In prior years, agricultural producers with 10 or less employees did not have to withhold federal income taxes when paying employees. Farmers were required to withhold Social Security contributions, but many were not required to with-

hold any income taxes under the old rules.

This change will require many producers to ask their employees to complete a W-4 form, "Employee's Withholding Allowance Certificate". Next January, these same employees must be provided with a W-2 form, "Wage and Tax Statement 1990", by their employer.

Income taxes and Social Security payments withheld must be submitted to the IRS on a regular basis. If the accumulated liability at the end of each month (employee and

employer contributions) is \$500 or more, the amount withheld must be submitted on a monthly basis by the 15th of the following month. These payments are made into an authorized bank using a pre-registered Federal Tax Deposit Coupon Form 8109-B.

If the total undeposited taxes for the quarters are less than \$500, the payment is due on a quarterly basis by the last day of the month following the quarter.

Form 943, "Employers' Annual Tax Return for Agricultural Employees", is used to report a summary of contributions. This form is filed annually, but producers must remember that the payment of the tax liability is made monthly or quarterly.

In summary, here are the steps for the employer:

(1) Get an IRS employer number. Request an employer number on Form SS-4. Call 1-800-424-3676 to request the form.

(2) Have the employee complete a Form W-4. These forms are available from the IRS at the same phone number as in item 1. This completed form must be kept on file until the employee elects to change his withholding, at which time he completes a new form. Get the W-4 on file as quickly as possible, but in the absence of a completed form withhold tax as if the employee were single, with no withholding allowances.

(3) Next, withhold the tax from the employee's paycheck. The amount of withholding is determined by using the tax tables in

Circular E, "Employer's Tax Guide".

(4) Make timely deposits of the taxes at the financial institution, normally a local national bank, designated as a depository of federal taxes. Make the deposit using Form 8109, "Federal Tax Deposit Coupon", which you will receive from the IRS when you receive your employer number. Time requirements for deposits differ according to the amount of the deposit, but are normally made monthly or quarterly. Details on Depositing Taxes can be found on page 8, paragraph 13, of Circular E.

(5) Annually report income tax withheld on the employer's Form W-2. The employer then submits to the Social Security Administration a Form W-3, which is a cumulative report of all W-2 forms given.

(6) Report income tax withheld annually on Form 943.

IRS Publication 583, "Taxpayers Starting A Business", contains instructions on what to do while waiting for the employer identification number (EIN). During this interim, make deposits that fall due to the IRS Service Center. The check payable to the IRS should include an attachment showing employer name as shown on Form SS-4, address, kind of tax, period covered, and date applied for EIN.

IRS forms and publications, including Circular A, "Agricultural Employer's Tax Guide", can be ordered by calling the IRS at 1-800-424-3676.

State Corn Referendum Is Meeting Topic

Texas corn producers will vote in March and early April to decide if they want to expand the check-off territory from the existing seven High Plains counties. The current regional program is under the jurisdiction of the Texas Corn Producers Board.

To learn more about the upcoming corn referendum, producers in Donley and surrounding counties will want to attend an informational meeting sponsored by the Texas Agricultural Extension Service, in cooperation with the Texas Corn Producers Board, on February 20,

1990, at Dumas, Texas, says Tim Trimble, county Extension agent. The meeting will be at the Moore County Annex, and will start at 7:30 p.m.

Producers will hear from an Extension economist regarding the current feed grain situation and outlook and the changing corn production trends in the state. Also, the mechanics and timing of the referendum voting process will be presented.

Following these discussions, Texas Corn Producers Board representatives will present information on the existing corn check-off program and the potential outcome of a total statewide effort, says Trimble. There will be ample time for questions from producers regarding the program.

For additional information, please contact your county Extension office.

Clinic Scheduled

The Texas Department of Health will be having an immunization clinics offering vaccines that give protection against several childhood diseases. Protection is against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella, and mumps. The clinic will be on the 2nd floor of the old Court House, March 13th from 9 - 12 & 1-3 p.m.

The Texas Department of Health is charging money to help with the cost of keeping the clinic open. The amount of money charged will be based on family income and size, and the ability to pay.
