Control Cotton Diseases

By Tim Trimble

With temperatures already above normal for this time of year many farmers are making plans to get cotton planted early. When planting early seedling disease problems can be more prevalent particularly if a cool, wet spell comes through.

Seedling disease is caused by a complex of soil fungi which may occur separately or in combinations. These fungi are Pythium, Fusarium, Rhizoctonia, and Thielaviopsis. Symptoms include decay of the seed before germination, decay of the seedling before emergence, girdling of the emerged seedling at or near the soil

KIRSTEN BERTRAND, class president of Mrs. Nelson's fifth grade, accepts a flag from Wanda Dromgoole, member of VFW Ladies Auxiliary. This is one of several things that has been done by the Auxiliary for the public schools.

Former Resident Receives Award

In a special ceremony at Arlington Baptist College on Monday, April 27, Mack Garrison received the Johnny Kostecki Award, which is given to the four students of the college, excluding the Valedictorian and Salutatorian, having the highest grade point average.

Mack and his wife Judy, former residents of Clarendon and Hedley, are completing their first year at Arlington Baptist College. Both have been on the Dean's list all year, and both have been nominated to the national Dean's List, which honors high ranking students from colleges and universities nationwide.

Mack has a double major, Bible and Foreign Missions and has maintained a 4.0 grade point average for the year. Judy, who has a double major in Bible and Elementary Education, also has a high year long grade point average of 3.88.

surface, and rotting of root tips. Any one of these fungi or several working together can produce these symptoms.

When disease incidence stands enough to cause a replant, several losses are incurred. These include the cost of replanting, heat units (degrees days), soil moisture and the precision planned to integrate all production procedures. Even if stands are not damaged enough to cause replanting there may be some unnoticed losses. When seedling disease fungi girdle a taproot it is seldom regenerated. The plant develops a shallow root system that may not be adequate when midsummer heat dries the upper soils and deeper water can not be utilized.

Several practices reduce losses to seedling disease. These include using rotation, quality seed, timely planting and the use of fungicides. Producers can expect increased disease control as they increase the number of control practices used.

Rotation is the first line of defense against seedling disease, but not always possible because of farm program restraints. In some fields where seedling disease has become a real problem, rotation maybe the only alternative.

Monday Night dance practice had another record attendance last week. They welcome anyone to come and join in on the exercise, fun and visit, too. Next Tuesday evening, May 12th will be the regular monthly dance at the community building from 8 til 11 p.m. with Paul and the Country Boys of Pampa furnishing the music.

The birthday anniversary supper enjoyed a crowd of fifty-nine guests for a fun evening. The birthday song was sung to: Mary Lee Nobles, Lela Norton, Pud Bain, John McCrary and Agnes Brumfield. Creed Smith opened the evening with prayer. Door prize went to Shirley Pitts and the fun prize went to Gertrude Reid, Pauline Jones and guest, Benny Brown of Quitaque. After enjoying a most bountiful meal, we were royally entertained with great music brought to us by John and Maybell Francis of Silverton. John played the keyboard and wife Maybelle sang some beautiful country and western songs. Benny Brown of Quitaque did a super job on lead guitar along with Creed Smith on guitar to accompany them. We thoroughly enjoyed the group and appreciated Creed Smith for contacting these folks and their willingness to travel the distance they did to make our evening so enjoyable.

I want to thank Tennie Smith for bringing a nice selection of items for us to use for Bingo prizes or as drawing prizes. Thanks to Mrs. Ben Burrow who brought in 2 big bags of quilt scrap for the arts and crafts to use. Eda Wallin brought us a lovely arrangement of iris flowers from her yard last Tuesday. We enjoyed them all week. Thanks Eda for sharing.

Edna called the meeting to order. The roll was called and answered by eleven members. Minutes were read and approved.

She also showed some of her paintings and other things she had painted such as dishes and vases.

Refreshments of Angel food cake, ice cream, strawberries, coffee and tea were served to Yvonne Belle McDaniel, Edna Dishman, Opal Maxey, Jane Stevens, Grace Leathers, Sadie Shields, Irene Jones, Florine Bennett, Mary Lee Noble, Helena Catoe, Bradis Shaller, and Louise Aten. Medical Center News

A lot has happened at the Medical Center in the past several weeks. Residents and staff were saddened at the loss of a dear friend and fellow co-worker, Freddie Reese. Freddie had been employed at the Medical Center since 1981 and had brought so much joy to the lives of those he touched everyday. There was a memorial service held in his honor Monday, May 4th at which time a memorial plaque was presented to Freddie's mother, Lois Reese, then was hung in the lobby of the Medical Center where his memory will always live on. Freddie will be missed by everybody at Medical Center - but never forgotten.

The residents had a most enjoyable Easter Sunday as they got to watch the children hunt eggs in the yard and the field in front of the Medical Center. The Easter Egg hunt was a big success and a special thanks to those who came out and joined in and to those who helped prepare for the event.

Medical Center was filled with sounds of little children, Sunday, April 26th, and smiles came over the residents faces as they enjoyed the Baby Pageant. There was standing room only as the children paraded around the room. Our panel of judges were Opal Paschal, Mollie Dickson, Lorine Sharp, Sybil Rattan, Roy Blackman, and Andy Robertson. Thank you to the ladies who so graciously volunteered their time to assist our judges. We appreciate your willingness very much. We hope to have another Baby Pageant next year and learn from this years event.

Thanks to those of you who shared your children with the residents and for your donations to our activity fund. Winners were as follows: 0-1 year olds - Emory Weatherton, Winner - 1st Runner-Up was Hayden Russell Hook, 2nd Runner-Up was Colton Earl Farris; 1-2 year olds - Trisha Beth Hewett, Winner - 1st Runner-Up was Cheyenne Renee Woody, 2nd Runner-Up was Madison Shields; 2-3 year olds - Deston Hugh Chambless, Winner - 1st Runner-Up was Nathan Robert Gribble, 2nd Runner-Up was Desirae Danielle Row. Over all winner went to Deston Chambless and he gladly rode away with his Mickey Mouse riding toy.

There will soon be a noticeable difference around the outside of the Medical Center building with all the new trees planted by Jason Lee and his fellow Boy Scouts. Jason did an excellent job and he can be proud of what he has done for this community.

Last but not least, a special thanks goes to Harlan's Flowers for the contributions made towards the Baby Pageant, to Debbie Shields for her donations and concern and to everyone else who has volunteered their time and efforts to help make possible the many things going on at the Medical Center. The residents and staff greatly appreciate all of you.

DO YOU KNOW ANY OF THESE SENIORS?

A Salute to Our Seniors

The beginning again is May 1992,
But there are many who remember
The first grade beginning,
It seems like just yesterday ...

Your laughter rang so clear and pure,
Your enthusiasm and energy
bounced off the walls and back onto us
who saw your visions,
We saw the future in you,
Impish shiny faces growing up proud,
We see you looking ahead today:
"What visions now?"

Your honesty, your beauty,
your talents are boundless.
We know this to be true.
Keep your small town integrity
to build your sophistication upon,
Keep your eyes up and straight ahead,
But always remember those who
have loved, admired, and had faith
in all of you since that other beginning
through all the big first in your lives....
We salute you!

What's an Energy Saving Plan Home? It's a home that gives you extra comfort plus lower energy bills. So check out the features an ESP home can offer.

Attic Ventilation
Proper ventilation controls summer heat build up and moisture accumulation in winter. This adds life to the building and its components.

Air Distribution System
Correctly sized air ducts and proper placement of supply and return air are important considerations for an ESP home.

Insulation
Insulation in the ceiling and walls in the amount appropriate for this area and climate keeps ESP homes cooler in summer and warmer in winter.

Heating and Cooling Equipment
Equipment is properly sized to the structure for highest efficiency. WTU recommends the all-season electric heat pump that heats in the winter and cools in the summer for year-round savings. Call WTU for details.

Air Infiltration Control
Air infiltration control helps stop uncomfortable drafts with weatherstripping, caulking, and insulation.

Windows and Doors
Insulated or storm doors and windows greatly improve both efficiency and comfort by reducing heat gain and loss in both summer and winter.
