Locals Honored

Twenty-eight students enrolled in the Division of Education at West Texas State University have been awarded scholarships totaling \$4,250 for the 1992-93 academic year. The Division of Education Scholarship in the name of the Childre-Mayhew fund was awarded in part to Jay Gage of Clarendon. Jay is a junior kinesiology/English major.

One hundred forty-four West Texas State University undergraduates were named to the President's List and 650 earned mention on the Deans' List for the 1992 spring semester.

Students earning President's List recognition achieved a semester grade point average (GPA) of 3.850 (of a possible 4.000) or better with a minimum class load of 12 undergraduate hours.

Students on the Deans' List achieved GPAs of at least 3.250.

Those from Clarendon making the Dean's List were Jay Gage, a Junior majoring in Kinesiology-PE and Buffie Hancock, a Senior majoring in Reading. Also making the list was Jennifer McAnear Lindsey formerly of Clarendon.

Degrees have officially been conferred on 85 West Texas State University master's candidates and 402 baccalaureate candidates who completed academic requirements during the 1992 spring semester.

Undergraduates with an overall grade point average of 3.50 or better were recognized as honor graduates and were eligible to wear gold honor cords at the May 10 commencement ceremony. The three levels of recognition are Cum Laude (3.50-3.74), Magna Cum Laude (3.75-3.89) and Summa Cum Laude (3.90-4.00).

WTSU's graduating class represented nine states and 71 Texas towns and cities. Taralena Cole, from Clarendon, graduated with a BGS (Bachelor of General Studies) Degree.

Celebrating its 10th Anniversary The Interstate Batteries Great American Race, world's greatest old car race, will make a pit stop Monday, June 29 at 4:25 PM at the Donley County Courthouse in Clarendon, TX. The Clarendon event is part of an internationally recognized 4,475 mile, 2 week, 9 state, and 48 city coast to coast dash paying a \$250,000 purse, antique car racing's largest.

The race starts Sunday afternoon, June 21st on King street in Historic Charleston and finishes Saturday, July 4th at Costa Mesa, CA (in the LA basin) according to Tom McRae, Executive Director of race organizer Greatrace, Ltd., of Dallas, TX.

The Downtown Retailer Association in Clarendon is organizing the event. Up to 100 beautiful antique autos will spend 15 minutes each before hitting the road again bound for an overnight stop in Amarillo. The greatest show on wheels will be enroute from Irving, Decatur and Wichita Falls as it reaches Clarendon.

There is no charge to the public nor are any passes of any kind required to see this colossal congress of classic cars. This History of the Highway collection is valued at more than \$7 million and encourages the public to view it up close and personal.

Up to 100 antique cars-dating from 1910 to 1941-bailing from 29 states and 6 countries will each make a 15 minute stop for refreshments. The field has an estimated \$7 million value with one car more outstanding than the next.

Since competitors race one minute apart it will take them at least an hour and 40 minutes to arrive in Clarendon once the first car reaches town. A definite time for the stop will be published in the near future. When it reaches Clarendon, the colorful old car caravan will be in the ninth day of its 4,475 mile transcontinental journey.

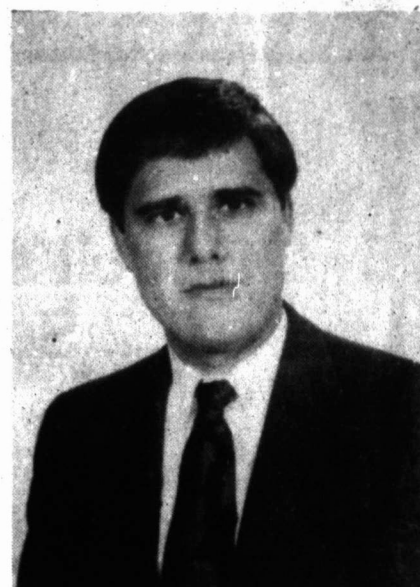

Each day's race stage covers 170 to 480 miles. For example, the stage from Irving to Amarillo is 420 racing miles. The race normally runs on back roads & two lane highways to avoid Interstates. A the fist racer enters Clarendon the last will still be 71 miles distant. The cars compete a minute apart forming a colorful caravan that's greeted by civic celebrations in 48 cities, at roadsides and in small towns where it doesn't stop.

The Greatrace is a gruelling contest of precision driving, controlled speed and endurance. Teams try to match detailed driving instructions timed to within 1/100th of a second. Each second off schedule at secret daily checkpoints is a penalty point. At the end of the day, low score wins.

Simple in concept, the format is difficult enough to master alone, yet entrants must also spend a great deal of time keeping the ancient anachronisms in good repair. The onerous nature of the endurance phase of the Greatrace inspired a motto sooner or later spoken by all-"To Finish Is To Win".

Luckiest Man Alive?

A motorcyclist who was traveling east on Highway 287 Friday, May 29, may well be the luckiest man alive. He is certainly lucky to be alive.

The biker was headed East on 287 about five miles west of Clarendon when a truck ran over his cycle from behind. The motorcycle went under the truck which drug it some 150 yards before the cycle slid into the bar ditch. The cyclist was ejected and rolled into the median.

The motorcyclist was treated at the scene by the Clarendon EMS, but refused transportation to a hospital. Corporal Ray Burch investigated the accident.

There is no question but that the rider was exceptionally fortunate. Sergeant Gribble of the Texas Department of Public Safety said, "He was wearing a helmet with a shield. That probably saved his life, or at least helped avoid a terrible head injury".

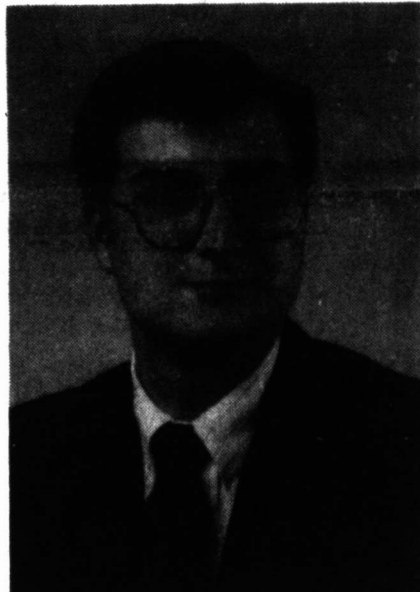

FFA Beautifies Community

The 1991-92 school year is winding down and the FFA members at Clarendon High School are putting the finishing touches on this year's community development project. The project is a part of the FFA's Building Our American Communities (BOAC) program.

Students in the Clarendon FFA Chapter have been working on planting the barrels at the County Courthouse. The FFA Students are planting red, white, and blue petunias in the barrels which should be in full bloom during the 4th of July celebration. This project should enhance the beauty of the courthouse and help people have pride in this historical building says FFA Chapter BOAC Chairperson Amber Dunham. Eighteen members of the Clarendon FFA chapter began volunteering time to work on their project in May.

Since 1971, more than 4,600 FFA chapters across the country have conducted over 22,000 valuable community development projects as a part of the BOAC program. The program is a special project of the National FFA Foundation, Inc. sponsored by the RJR Nabisco Foundation through funds from RJR Nabisco, Inc.

MRS. GLYN DE PIGG

Vows Exchanged

Jenifer Ann Davis and Glyn De Pigg exchanged vows Saturday, May 23, 1992, in the sanctuary of the First Baptist Church in Clarendon.

Rev. W.J. Richey, pastor of Fairmont Baptist Church, Quitaque, officiated the double ring ceremony.

Jenifer, daughter of Cagle Davis and the late Marian Rhoades Davis, of Brice, attended Clarendon College and will graduate from Texas Tech University in Lubbock in August with a degree in English.

Glyn, son of Jack and Johnnie Pigg of Quitaque, attended Clarendon College and Midwestern State University. He is active in farming and ranching in the Quitaque area.

The sanctuary was decorated with an arched candelabrum with entwined greenery centered with a royal blue bow and tapered baskets of white silk carnations and roses. Royal blue bow decorated the pews along the aisles.

Escorted to the altar and given in marriage by her father, the bride wore a formal floor length gown and cathedral length train of white satin with lace inserts accented with seed pearls and sequins. Accenting the shoulders, the bodice had a draped capelet neckline with princess waist and fitted lace sleeves tapered at her wrists. Her chapel length veil of white tulle was attached to a lace covered headpiece.

She carried a nose gay bouquet of white silk roses and stephanotis with white ribbon streamers. She wore a pearl necklace given to her mother by her father for their wedding, her aunt's pearl ear rings and a blue garter. In her shoe, she wore a penny in the year of her birth.

Attending the bride as maid of honor was Stephanie Phillips, of Amarillo. Shelly Worthington of Lubbock and Celeste Sperry, of Burkburnett, niece of the groom, were brides maids. All the ladies wore royal blue dresses with scalloped neckline which continued in a "V" shaped in the back and shore scalloped sleeves tipped with a bow. They carried silk bouquets of white roses and carnations with royal blue and white streamers.

Serving as flower girl was Katherine Pigg, niece of the groom. Ring Bearer was Justin Pigg, Quitaque, nephew of the groom. Tessa Kelley of Burkburnett, niece of the groom, and Ben Pigg of Quitaque, nephew of the groom, lighted the candles. Ushers were Jarrett Pigg of Turkey and Jeremiah Brooks of Silverton, both nephews of the groom.

The groom, wearing a black, full dress tuxedo with black tie, and wing tip collar, was attended by his best man Keith Price of Quitaque, and groomsmen Larry Clay of Quitaque, Criss Morrison of Lubbock, and the bride's brother Steven Davis of Brice. They wore black traditional tuxedos with ties and cummerbunds matching the bridesmaids' dresses.

Patsy Herrington of Turkey was organist and Michelle Chambliss of Clarendon sang, "Save the Best for Last," and "The Vows Remain Unbroken." Megan Williams of Clarendon registered the quests.

Following the ceremony, the wedding guests were received by the couple and their parent at a reception hosted by the bride's aunts and uncles Mr. and Mrs. Lindley Davis of Amarillo, Mr. and Mrs. Harrell Weathered of Plainview, and Mr. and Mrs. Jim Osborne of Panhandle.

Beulah Rhoades of Panhandle and Cozette Davis of Amarillo are the bride's grandmothers.

Pre-nuptial courtesies include a bridal shower in Clarendon hosted by Derlene Graham, Elmonett Bivins, Paula Lowrie, Lynne Williams, Helen Estlack, Mary Hudgins, Ann Luttrell, Judy McCully, Carolyn Myers, Barbara and Tina Alexander, and Stephanie Graham.

IT'S JUST LIKE A DIAMOND.

You know it's an imitation. But what about the many people today who have decided they are just like a banker? From stockbrokers to retailers, from credit unions to insurance men, to savings and loans, they all seem to be saying, "You don't need a banker, we'll do just as well." Oh, no they won't. Because no one else has the banker's hundreds of years of banking experience behind them. Nor do they enjoy the kind of trust that bankers do from the majority of Americans. So why settle for an imitation when you can have a real banker at our Full Service Bank?

HILL-from p.1

In 1975, Robbie was hired as Donley County Coordinator and has worked with all the various programs from the beginning. She was involved with housing, transportation and even a day care program in the early years.

The first Center location found her at 217 Kearney, until a fire destroyed the PCS office, Planned Parenthood, the day care, and the landlords home and work place. New offices were then set up at the old courthouse, where it remains today.

The regional manager is a new concept for the agency. In past year, services have been supervised by the departmental method. Robbie's new duties will include administering and insuring that all department program requirements are being met within her region. She will supervise all regional staff, and be directly responsible to the Executive Director, Johnny Raymond. Counties under her supervision are: Briscoe, Donley, Hall, and Armstrong.

Robbie was born and raised in Clarendon. She married Ross Hill after graduating from High School and has a daughter, son and five grandchildren who live and work in Amarillo.

GALILEE

Talent Contest to be Held

The Childress volunteer fire department, in association with D & D Productions and Broadway Recording Studios of Lubbock, has teamed up to bring you one of the best Gospel Music Concert and Talent Contests to ever come to Childress.

If you sing gospel music you are urged to enter the "Tomorrows Stars" Talent Contest. The entrance fee is \$50.00 but each entrant will receive a certificate worth \$25.00 when applied to a recording session at Broadway Studios in Lubbock.

Four winners will be chosen in the talent contest. The third place prize is \$25.00; second place prize is \$50.00; first place prize is \$100.00 and the Grand Prize winner will receive 50 free tapes of the winning song recorded at Broadway Studios in Lubbock...a \$600.00 value! Contest entrants will be judge not only on talent but appearance and stage presentation. Judges will be members of the featured group for the evening which will be "Galilee" from North Carolina.

"Galilee" is a group of young, Christian, men who have dedicated their lives to seeing souls come to Jesus Christ. The group is composed of three brothers; Nathan, Tim and Mark. They come from a family of singers and their father is also a preacher.

Nathan, the manager and leader of the group has sung with some of the best groups in the country such as "Naomi and the Segos", "The Dixie Melody Boys" and "Chronicle". He's also an excellent songwriter and co-authored the number-one song for 1991; "Heavenly Sunrise".

Tim and Mark both have families but are also very busy in their fathers' church when not on the road with the group.

The brothers are accompanied on the piano by a great young man whose name is Curtis Davis. He not only does a great job with the accompaniment but also arranges much of the "Galilee" music. He, too, is a fine Christian person.

Since "Galilee" is composed of young men their music has a lot of energy and excitement. Their goals are; (1) to see souls saved and (2) to entertain. Their first album, "Reunion", features eight of Nathan's songs and was co-produced by Nathan along with Milton Smith, who worked with Elvis Presley and Tammy Wynette. They have also recorded an album of Favorite Songs that most fans of gospel music will recognize.

The concert is scheduled to begin at 7:30 pm on Saturday night, June 13th in the Childress Junior High School Auditorium. Tickets are priced at \$5.00 advance and \$6.00 at the door. To the "Tomorrows Stars" talent contest, or for information or tickets to the show, please call either 1-800-777-2153 or 817-937-6562.

The Talent Contest will be held in the Childress Junior High School Auditorium between 1 pm and 6 pm, June 13th. Each group will sing one song for the contest.

Tickets to the Talent Contest, for non contestants, may be purchased at the door for \$2.00.

Winners of the Talent Contest will also sing in the concert which begins at 7:30 pm. The second and third place winners will each sing two songs; the first place winner will sing three songs and the Grand Prize winner will have 20 minutes on the concert show. Singers in the winning groups will, of course, be admitted free to the concert.

Make you plans now to be a part of this great contest and concert.

FFA-from p.1

"These young people represent the essence of good leadership," said Burleigh Leonard, staff vice president of federal government relations for RJR Nabisco. Leonard is the RJR Nabisco liaison with the National FFA Organization.

"Their BOAC projects have provided an immediate benefit to their communities and the leadership skills they have developed will serve them well as they go on to become leaders and pursue careers in agribusiness."

Other members of the committee are Jeff Hatley, Bobbie Havens, and Lani Douthit.

FFA is a national organization of 405,000 students in 7,800 local chapters preparing for agricultural careers. FFA activities and award programs complement instruction in agriculture education by giving students practical experience in the application

of agricultural skills and knowledge gained in classes. Developing agricultural leadership, cooperation, and citizenship are FFA's major objectives.

C. During or after the investigation, but subsequent to the mailing of the notice of complaints, the Administrator shall, if it appears that a discriminatory housing practice has occurred or is threatening to occur, attempt by informal endeavors to effect conciliation, including voluntary discontinuance of the discriminatory housing practice and adequate assurance of future voluntary compliance with the provisions of this ordinance. Nothing said or done in the course of such informal endeavors may be made public by the Administrator, by the complainant or by any other party to the proceedings without the written consent of all persons concerned.

D. Upon completion of the investigation and informal endeavors at conciliation by the Administrator, but within thirty (30) days of the filing of the complaint with the Administrator, if the efforts of the Administrator to secure voluntary compliance have been unsuccessful, and if the Administrator has made a determination that a discriminatory housing practice has in fact occurred, the Administrator shall recommend to the City Attorney that such violations be prosecuted in the Municipal Court. With such recommendations, the Administrator shall refer his entire file to the City Attorney. The City Attorney shall, within thirty (30) days after such referral, make a determination as to whether to proceed with prosecution of such complaint in Municipal Court. If the City Attorney determines to prosecute, he shall institute a complaint and prosecute same to conclusion within thirty (30) days after such determination or as soon thereafter as practicable.

An undergraduate student who earns all A's in 15 or more ours during a semester qualifies for the President's Honor Roll. There are 107 students who made the President's Honor Roll. There are 598 students on the Dean's List after completing 15 semester hours of undergraduate work with a grad point average of 3.0 (B) or higher, with no grade lower than a (C). Kayla Dee Hunt of Clarendon was among those making the Deans Honor Roll.

Discover The Summer Reading Club

Help stamp out summer boredom by joining the 1992 Texas Reading Club. In observance of the 500th anniversary of Columbus's discovery of America, the theme of this year's club is Discover The New World Of Reading.

When you register you will receive a time log for recording the time you spend in reading. Pre-readers will lot time spent in listening to someone else read to them. When that reader is an older child, both record the time on their logs.

Once each week bring you log to the "Chief's" desk at the library to receive wampum. The first time you present your log at the "Chief's" desk you will receive a litigo for stringing wampum and other awards. One wampum will be awarded for each half hour recorded on your log.

Five bonus wampum will be awarded to each club member who also enters the bookmark contest.

Three wampum will be awarded for attendance at each special program from 10 to 11:30 each Tuesday morning in July. These programs will feature stories, crafts, videos (and who knows what else?) All children from age five through sixth grade (as well as well-behaved four-year-olds accompanied by a parent or responsible older brother or sister) are welcome at these programs.

Special awards will be given to those who take part in the story book parade on July 28. Don't tell anyone, but that day there will also be a concert and a wiener roast on the courthouse lawn for club members.

AND -- as you begin this happy reading adventure, be on the lookout for messages in bottles. They are worth added wampum for your latigo. Happy Reading!

Field Day Scheduled

A field day and tour will be held at the USDA Soil Conservation Service Plant Materials Center near Knox City on August 6, 1992.

During the noon lunch, a formal program will be held. Jim Donaho, SCS District Conservationist at Clarendon said guided tours are planned through the Center starting at 8:30 a.m. Tours will run continually until lunch, then again until about 3:00 p.m.

Several selections of plants are being grown at the Center that were not being evaluated during the last field day in 1989.

To get to the Center, go north of Knox City on State Highway 6 about 2 miles, then turn left at FM 1292 for 2 1/2 miles. There are signs at both the turn-off and the Center, said Donaho.

Donaho said Knox City has a 3,200 foot all weather runway near the Center for those wanting to fly to the field day in private or chartered planes. Transportation from the airport to the Center will be furnished by the Knox City Chamber of Commerce.

Grass seed dealers, seed growers, conservation district directors, research workers, wildlife enthusiasts, livestock producers, and others interested in the search for better plants are invited to attend. The Center serves both Texas and Oklahoma.

Lunch will be served by the Knox City Chamber of Commerce on a prepaid basis. For more information contact Doris Crownover, Chamber of Commerce, P.O.Box 91, Knox City, Texas 79529, phone 817-658-3442.

The deadline for making lunch reservations is July 24, 1992. Tickets will be held at the registration desk, and no refund will be made.

Loans Available

Ms. Morgan, County Supervisor of the Farmers Home Administration (FmHA) in Donley County announced today that the Agency in Texas is now accepting applications through approved local lenders for rural housing loan guarantees.

This new Guarantee Program offers loan opportunities to families who by themselves are unable to afford a commercial loan, thereby extending the possibilities available to rural residents to obtain decent housing. Guaranteed Single Family Housing Loans may be made for up to 100% of the value of a property, for which Farmers Home Administration guarantees 99% of this amount for the lender. This program offers opportunities not only to low-income families with incomes of approximately \$18,000 to 38,000 but also moderate-income families with incomes of \$23,000 to \$47,000 who are unable to obtain credit elsewhere. FmHA Housing Guarantees furthermore have a loan fee of one (1) percent which is less than similar fee for FHA or VA.

Areas eligible to receive Farmers Home Administration funding include open country, communities with populations of 10,000 or less, and under certain conditions, towns and cities with populations between 10,000 and 20,000.

Applications for guaranteed rural housing loans should be submitted to local approved lenders of

FmHA.

For more information, you are asked to contact Jacqueline E. Morgan, as Ms. Morgan currently serves Armstrong, Donley and Collingsworth Counties. In Donley County she may be reached at 321 S. Sully, 806/874-3552, in Clarendon during the hours of 8:00am to 5:00pm each Monday and in Collingsworth County at 802 East Avenue, 806/477-5124, in Wellington during the hours of 8:00am to 5:00pm each Wednesday.

FmHA as the lending arm of the U.S. Government, has long been a source of credit for farmers, ranchers, and rural homeowners who have been unable to obtain credit through commercial lenders such as banks, savings and loans, Production Credit Associations, and Federal Land Banks. Farmers Home Administration has attempted to aid those borrowers as a Lender of Last Resort.

Monitoring During Bloom

By Tim Trimble

A mid-bloom monitoring can indicate if continued square protection or nitrogen fertilization is justified. Nodes above white bloom (NAWB) is a tool you can use mid-season to decide if fields are too vegetative or plunging into cutout.

But before we get into that, let's review the plant monitoring steps. Each time, the first step will be to look at sample plants that represent average conditions throughout each field.

Mentally divide each field into four blocks, and select five typical plants from each block, avoiding the field edges. You can either pull or cut the plants, or leave them in the ground and make your observations right in the field.

Now more about NAWB. Like the name says, it's based on counting the nodes above white bloom on the plant, and it could be worth a lot to you to learn the basics of this remarkably simple system.

Cotton plants usually will add at least two or three flowers on each fruiting branch. The flowering site closest to the mainstem or stalk of the plant is the first-position flower, and these should develop into your most important bolls. First-position bolls tend to be bigger and have higher quality lint.

In a way, the top of the plant

and the fruiting forms already set at the lower part of the plant are pulling in opposite directions.

There will come a time when you will want your plant to slow its upward growth, and fill out those key bolls to consolidate gains already made.

Early in the season, around first bloom, it will be normal for your first white bloom on the lowest fruiting branch (node) to be a good distance from the top of the plant—as many as 8 to 10 nodes.

But if the first white bloom isn't gaining on the terminal when you check it at mid-bloom, the plant is too vegetative, and a plant growth regulator is needed to curb new growth.

If the bloom is left too far behind, fruiting forms may be shaded by the mass of foliage above, and deprived of sunlight needed for photosynthesis.

A thick canopy creates excessive shading that may cause squares to abort or may attract insects to the fresh vegetative growth. In late-season, it may even cause costly boll rot—a major problem in some areas of the country.

A rule of thumb is that at peak bloom there should be 7 to 8 nodes above the white bloom, for most varieties. That will indicate that the plant is still growing some, but is diverting more of its energy into bolls already set.

On the other hand, if the bloom rises too far, with 5 or fewer nodes between it and the terminal at mid-season, the cotton is in im-

minent danger of cutting out prematurely. Something is wrong. Usually the plants need additional stimulus, such as water and nitrogen.

These are the kinds of problems even shortcut plant mapping techniques such as NAWB can identify in the time for corrective action.

The textbook way to map plants is still to actually chart on a graph what your plants are doing, whether they're growing too fast, whether they're fruiting on schedule, whether they are retaining squares or bolls.

A free kit for this purpose is available through the Extension office, or from the National Cotton Council in Memphis.

In part four of this series, we'll examine how plant mapping can help you keep yield potential at the maximum during season wind down.

Panhandle Swine Futurity To Be Held

By Tim Trimble

A rare opportunity to participate in various educational activities concerning swine during the week of September 24-26, 1992. These activities will be in conjunction with the Tri-State Fair in Amarillo.

The Futurity activities will begin on Thursday, September 24 when animals must be weighed-in by noon. Judging of barrows and gilts will begin at 6:00 p.m. The judge will evaluate the hogs "on-foot" in normal show setting. Live evaluation will be worth 50% of the overall score. On Friday, September 25th the carcasses will be processed and evaluated by officials from Texas A&M and West Texas State University. Fifty percent of the overall score will be

based on % muscle. The carcasses will be available for viewing on Saturday, September 26 at WTSU and the carcass information will be discussed at that time. Premiums will be awarded for overall Champion and Reserve Champion, Champion and Reserve Champion Carcass, Champion and Reserve Champion on foot, Largest Loin eye, and least backfat.

Qualifications to participate in this year's swine futurity are: pigs must be owned, raised and farrowed by the exhibitor, limited to swine producers only, have entry fee in by June 15, 1992. Anyone meeting these guidelines is eligible to participate.

Other activities during the swine futurity will include: a youth and adult judging contest to determine backfat and loin-eye area, two swine producer meetings to discuss basic swine management, record keeping, health, nutrition, genetics, and much more, and a meeting for 4-H and FFA youth and their parents to learn how to properly feed and care for a swine project. These activities are open to anyone and you will be hearing more about them in the future.

For anyone who qualifies and would like to enter the swine futurity show, you will need to send an entry fee of \$100 to Danny Nusser, Box 279, Panhandle, Texas 79068. If you have any further questions, feel free to call the County Extension Office.

Termite Tips

By Tim Trimble

The annual ritual is upon us once again. It is season and Texas Agricultural Extension Service phones are ringing off the hook throughout the state. Following are some of the most often heard questions, with answers that should satisfy the most frantic caller:

Q: Why do termites swarm in the spring?

A: Mature termite colonies produce large numbers of winged kings and queens (called alates, or swarmers) each year. Swarmers have the job of finding mates and starting new colonies. When environmental conditions are just right and swarmers are at the right stage of development, they leave the nest in large numbers and fly in search of mates. In any given locale, termite swarmers may emerge from dozens of termite colonies simultaneously. This amazing feat of synchrony ensures that inter-colony matings will take place, an important way to preserve the genetic diversity of the species. Our most common termite pest, the subterranean termite, swarms primarily in the spring.

Q: How do I know if the flying insects I am finding in my home are termites?

A: Good question. Unfortunately the swarming season for

many ant species commonly coincides with termite swarming season, and people commonly confuse ant and termite swarmers. Termites can be distinguished from ants by their broad waist (ants have pinched waists), equal-length wings (the front pair of wings in ants are slightly longer than the rear pair), and bead-like antennae (ant antennae usually have a distinct "elbow" or bend in the middle). Swarming ants are usually not of great concern to the homeowner unless they are carpenter ants. Carpenter ant swarmers are large (up to 3/4 inch long) and black, or black and red in coloration. Carpenter ants do not feed on wood, but do build nests in wood and can cause damage if allowed to exist in homes for several years.

Q: If I find termites swarming in my house does this mean I have termites, or could they just be coming in from outdoors?

A: Chances are, if you find termite swarmers inside your house, termites are feeding on some part of your home. It is time to invite a reputable pest control company to inspect your home and give you an estimate of how much it will cost to treat.

Q: We have already done that, but every company that comes out tells us they use a different chemical. How do I know which pesticide is best?

A: Seven insecticides (termiticides) are currently registered for control of termites in existing structures. These include Dursban TC and Equity (chlorpyrifos), Pryfon 6 (isofenphos), Dragnet FT and Torpedo (permethrin), Demon TC (cypermethrin), and Tribute (fenvalerate). In tests conducted by the U.S. Department of Agriculture in Mississippi, all products provided 100% control of termites for at least five years and 80-100% control of termites for 6-10 years. We have no reason to believe at this time that any one of these products is better than any other.

The advice I would offer when selecting a pest control company is that the reputation, quality of work, and guarantee offered by the firm is far more important than the chemical used. Texas Agricultural Extension Service Fact Sheet L-1785 provides some excellent suggestions regarding the types of questions to ask, and things to investigate, when selecting a termite control company.

Quilting Club Met

The Friendship Quilting Club met in the home of Mary Lee Noble for their monthly meeting. On May 12th at 1:30 p.m. we started gathering. Then e piled into the cars and made a trip to the Saints

Roost Museum. We were so thankful that Pauline Hardin had agreed to open up so we could have another look at things there and everyone seemed to enjoy it. Seems we each find things that we hadn't noticed before.

Those going through the museum were: Edna Dishman, Florine Bennett, Annie Thomason, Opal Maxey, Jane Stevens, Vada Morrison, and Yvonne Belle McDaniel met us there.

We then returned to Mary Lee's for the business meeting and our refreshments.

Our business meeting was called to order about 2:30 p.m. by Pres. Edna Dishman. Roll call was answered by 8 members. The minutes of April Meeting were read and approved.

Meeting adjourned about 2:45 p.m. Then Opal Maxey told of one time when some girls played a trick on a teacher. It was the teacher's birthday. So three girls made her a birthday cake. It was made at the Hudson home. The cake was made of cornbread and iced with chocolate icing.

Then Mary Lee told us about the time her mother told her to put some plums on to cook for jelly. She was in a hurry because she had a date, so she hurried and put the plums on with sugar. She got ready and went on her date. The next morning she found out she had put salt into the plums instead of sugar.

She also told about the time when she lived at Post, Texas. She said she was a day dreamer. Her mother told her to take a bucket of apples to a neighbor. She went down to the cellar to get them. She started daydreaming and a little later she "came too," she hurried to the neighbors with the apples (she thought), and she knocked on the door, told the neighbor "here is a bucket of apples". Only thing the bucket was empty, so she hurried back home hoping she would be able to slip down to the cellar without anyone knowing. The whole family was in the kitchen as it was noon time and they all saw her.

Refreshments were then served to the ones there. Opal Maxey was the co-hostess.

Three kinds of sandwiches, cookies, brownies, fudge, cup cakes, and M&M's, punch, coffee, coke and tea were served to: Florine Bennett, Vada Morrison, Annie Thomason, Jane Stevens, Yvonne Belle McDaniel, Opal Maxey and Edna Dishman and hostess Mary Lee noble and her great granddaughter, Tiffany Noble.

This was the last meeting of the year. We will let you know for sure where the club will be held in September. Watch the paper for the time and place.
