Volume 1, Number 42

DON JONES, Director of Field Operations, presents Special Award for outstanding performance to Post Master Bob McCombs.

McCombs Receives Award

The Aggressive Eagle Winner of A/P-12 is Postmaster Bob McCombs of Clarendon, Texas. Bob's office was 5.2% under Plan on Customer Service clerk budget and 2.1% under Plan on the bottom line. No overtime and no sick leave was used.

Clarendon, Texas Post office is as challenging Level 15 Post office as we have in our MSC. It has a Junior College and a very large box section. We never hear from Bob or his customers. He takes care of business in a very quiet and professional manner. We know how difficult this job is, and the extra hours he spends to make this office pass it's Goals every year.

As quiet as he is and the fact we never hear from him --we still recognize an outstanding performance. Congratulations, Bob!

Note: Postmaster McCombs contributes receiving this award to Francis Stevens, Arlis Mooring and the rest of his employees.

Broncos Bitten By Panthers

The Clarendon Broncos football team traveled to Panhandle, Friday, October 12, 1990, to start their district play. The Broncos could not muster any offense as Panhandle allowed them only one first down, 20 yds rushing, and 40 yds passing, while out scoring them 39 - 0.

The defense had their good moments as they stopped Panhandle on several occasions. Michael Shadle intercepted a Panhandle pass early in the first quarter, and Lee Gage intercepted a pass late in the second quarter. The score at halftime was Panhandle 19, Clarendon 0. Final score Panhandle 39, Clarendon 0.

Spencer Smith made 16 tackles in a gallant effort and was selected *The Clarendon News* Defensive player of the week.

Jonathan Stewart completed 8 of 20 passes and punted 8 times with a 35 yd. average. Randy Allen and Dusty Allen had 31 tackles.

The Broncos play Canadian this Friday, Oct. 19 in the Bronco stadium. Game time is 7:30 p.m. Make plans to attend as the Broncos need your support! There will be a street dance following the game.

Local Doctor Retains Membership in AAFP

Dr. Richard Lee Gilkey of Clarendon, Texas has completed continuing medical education requirements to retain active membership in the American Academy of Family Physicians (AAFP), the national association of family doctors.

The requirements call for members to complete a minimum of 150 hours of accredited continuing medical study every three years. The Academy, the country's largest medical specialty association with more than 69,000 members to keep up with medical progress through continuing education.

Dr. Gilkey has been an AAFP Active member since 1974. As a family physician, Dr. Gilkey is qualified to work in all major medical areas and trained to treat up to 90% of all patients. Family physicians care for all family members -- all ages and both sexes.

The Academy, headquartered in Kansas City, Mo, was instrumental in establishing the medical specialty of family practice in 1960. The Academy is the advocate for patients and endeavors to educate the public in all health-related matters. The organization works to preserve and promote quality, cost-effective health care. It promotes the science and art of family medicine and works to ensure an optimum supply of well-trained family physicians. The academy also provides advocacy, representation and leadership for the specialty of family practice.

Commodities To Be Given

Commodities will be given at the old Court House in Clarendon, Thursday, October 18, 1990, from 9 a.m. to 5 p.m. Commodities will be given in Hedley, Friday, October 19, 1990 from 1 - 3 p.m. at the Senior Citizens Center.

If you have some extra grocery sacks please bring them.

CHERYL PICKARD, Donley County Extension Agent, presents Judge W.R. Christal a plaque in appreciation for support of the Texas Extension Homemakers Association.

Lelia Lake Reunion Held

The Lelia Lake Ex-Student and Community reunion was held Saturday, October 13, 1990. It was a beautiful day and a total of 207 registered.

Everyone enjoyed visiting and renewing friendships. If anyone has an address for someone who would want to be put the mailing list, please contact Bobbie Floyd, P.O. Box 598, Clarendon, TX 79226, or call (806) 874-3374.

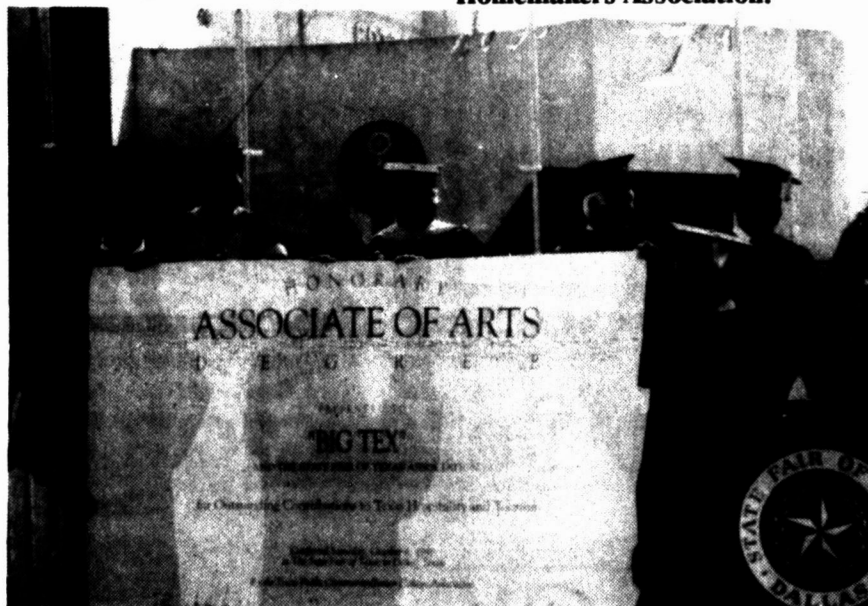

Turn Over New Leaf "Don't Bag It"

The Texas Agricultural Extension Service has developed the "Don't Bag It" Lawn Care Plan which reduces the volume of grass clippings, leaves, and other landscape waste that enter the solid waste stream. The "Don't Bag It" program, a system of proper mowing, fertilizing and watering, has been adopted by numerous communities across Texas and the nation and has proven highly effective in reducing landscape waste. One of the best things about the program is that it gives an individual a chance to do his/her part in helping improve the environment and cutting the cost of solid waste disposal.

During the year, at least 20% of the solid waste generated by Texans comes from grass clippings, tree leaves and other landscape wastes. When bagged and placed into city dumpsters, there is an increased volume of waste, an increased tonnage, and an increased number of trips made to the landfill, which cost the city and taxpayers more in increased taxes and service cost. Also, the bags use valuable landfill space, decompose very slowly, and remove nutrients from the environment.

With Fall at hand, our attention turns from grass clippings to leaves. Tree leaves like grass clippings, contain valuable nutrients, providing a good source of organic matter which should be returned to the soil. A light covering of fallen leaves can be mowed, leaving the shredded leaves in place on the lawn. This technique is most effective if a mulching mower is used. For most newer type mowers just leaving the trap door shut works much the same as a mulching type mower. The key is frequent mowing, not letting the leaves or grass get ahead of you. However, mowing the lawn is not :

DR. LASSITER AND DR. SHIRLEY are shown holding the Texas sized Associate's Degree awarded to "Big Tex".

Associate Degree Earned At State Fair

Officials declared last Saturday, October 6th, as Community College Day at the State Fair of Texas in Dallas. To emphasize the work that Texas community colleges do for the citizens of Texas, an honorary Associate's Degree was granted to the mascot of the State Fair, "Big Tex". "Big Tex" is a fiberglass Texas cowboy that stands 60 feet tall and is the symbol of the western culture that is so often associated with Texas. The Levi Strauss company provided "Big Tex" with new jeans this year at a cost of \$30,000.

Dr. Raymond Hawkins, President of Tyler Community College gave the commencement address. He pointed out that Texas community colleges educate 42% of all Texans seeking higher education. Community colleges across the state are the only post-secondary public institutions that offer courses on four levels: academic, vocational-technical, adult-vocational, and community service. Dr. Hawkins said that "Big Tex" had earned his degree through 39 years of service to the State Fair.

Dr. Phil Shirley, Instructional Dean of Clarendon College, was selected to represent the smaller community colleges of Texas.

Halloween Fun Scheduled

The Bronco mothers are sponsoring a "Fun Fest Carnival", Saturday, October 27, 1990, at the Old Gym from 6 to 10 p.m.

There will be all kinds of games and activities for all ages, so bring your ghosts and goblins out for some good ole fashion fun and help to support our school.

There will also be a drawing for a 20" Sonyo Remote Control Color T.V. Tickets are being sold by the Bronco Mothers for \$1.00 each. You do not need to be present to win. Contact Betty Phillips, Derrlene Graham, Connie Havens or any Bronco mother to get your chances on this 20" Color T.V.

Cards and Letters Wanted

Mrs. Peggy Percival has recently moved to the Golden Plains Nursing Care Center in Canyon, Texas. She would like to hear from her friends and relatives in Clarendon. Her address is #15 Hospital Drive, Golden Plains Care Center, Canyon, Texas 79015.

Colts Play Thursday

The Clarendon Junior High Colts 7th and 8th grade teams will host Canadian, Thursday, Oct. 18, 1990. Game time 5 p.m.

JV Broncos Travel

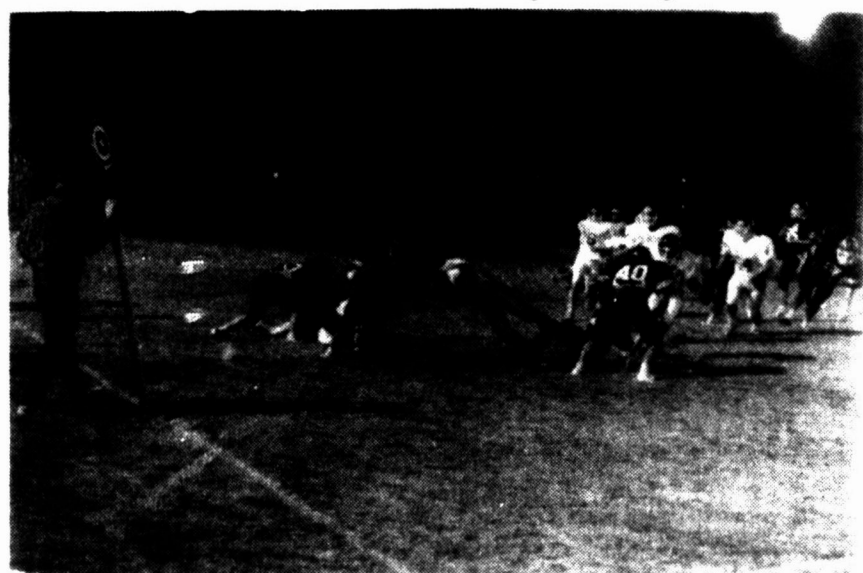

The Clarendon JV Broncos will travel to Canadian, Thursday, Oct. 18, 1990. Game time will be at 6 p.m.

Broncos Play At Home

The Clarendon Broncos will play Canadian, Friday, Oct. 19, 1990 in the Bronco stadium. Game time is 7:30 p.m. Come out and support the Broncos.

Attention Band Boosters

Sunday afternoon, October 21, at 2 p.m. All High School Band parents are encouraged to come and help decorate the band hall for contest on October 27th.

News Shorts

History Books Available

The Donley County History Books may be purchased at The Print Shoppe in Clarendon. The cost for this book is \$57.50, plus \$4.50 if shipped.

These books are selling fast, so if you have a deposit on the book, please pick them up as soon as possible so you won't have to wait for them to be shipped from Dallas.

Club To Meet

The Howardwick Friendship Club will hold its monthly covered dish dinner, Friday the 19th, at 6:30 p.m. in the City Hall building.

Clothes Closet Open

The Martin Baptist Church Clothes Closet will be open October 20, Saturday from 9 a.m. to 5 p.m.

Street Dance Scheduled

There will be a street dance following the Canadian game, Friday, October 19, 1990. Plan to attend.

Talent Show Planned

The Clarendon Band Boosters and High School Student Council are encouraging all teachers, groups and individuals K-12 to participate in an all school talent show.

Sign up can be done through Jr. High and High School offices or any student council member by Nov. 1, 1990.

Entry Fee is \$1.00 per person or \$10.00 for a group of 5 or more! The entry fee must be in on the day of screening, Nov. 4, 1990.

This is to be all in Fun and No U.I.L. material is to be used! Prizes will be awarded.

Buttons Available

The Print Shoppe has buttons available for the 7th & 8th Grade, Junior Varsity and Varsity Football teams. They also have the band, and cheerleaders buttons. The cost is \$3.00 per button, of which \$1.00 is donated to the annual staff.

The Print Shoppe can also print your child's picture on sweat-shirt and tee shirts at a very reasonable cost.

Dear Editor:

A woman stood up in Defensive Driving class and told how she had left the house to drive two blocks. She did not buckle up her two-year old. At 20 miles per hour she braked for a dog that ran in front of the car. The child was thrown forward and killed.

Nearly every day I see a small child riding in a parent's lap or loose in the car or pickup.

A fragile baby would be crushed by the driver's weight in an accident. A child could be thrown through the windshield at even a modest speed.

Parents: love them enough to buckle them in --even if they fuss. Imagine living with yourself if a tragedy occurred.

Lynne Williams

KARA BARKER pins her mother at the God and Me Award ceremony held at the First Baptist Church in Clarendon, October 7, 1990. Kara is a member of Brownie Troop 4. The award was presented to Kara by Rev. Truman Ledbetter.

Veterans Day Ball Set

The Panhandle Ball Committee and area veteran groups are proud to announce the Annual Veterans Day Ball for this year will be held in the Grand Plaza Ballroom of the Amarillo Civic

Archaeological Society Met

by Sammie Doering

The Clarendon Archaeological Society met at Clarendon College on October 6 for a tour of a prehistoric Indian village at Greenbelt Lake. Dr. Jack Hughes pointed out various bones, boiling stones, mano stones, flint chips arrow heads, pottery sherds and similar artifacts used by the Indians.

In addition to Dr. Hughes, Beryl Roper, Walter Warner, Dr. Jack Baldwin, Mary Neal Risley, Sammie Doering, Wayne Doering, Pat Thornberry, Casey Thornberry, Dennis Harrison and Ronnie Ward all attended.

Those who participated had a great time learning and exploring the site where the ancient inhabitants lived, but by afternoon, all were ready for a picnic in the shade of the big cottonwoods by the lake.

On October 9, the Clarendon Archaeology Society met again at Clarendon College. Professor Gerald Schultz, a paleontologist from West Texas State University presented the program. Schultz has worked intensively in the Clarendon area. He displayed many bones from the Tertiary Period--bones from Donley County. These bones came from animals such as three-toed horses, rhinoceros, bear-dogs, mastodons, camels, saber-toothed cats, pathetic antelope ("slingshot" horns), camels and giant turtles. Donley County at that time was obviously a savannah with frost-free winters. About 80% of the mammals were horses of a variety of sizes.

Tickets are available at: Amarillo Civic Center, Phone 378-3096; American Legion, Amarillo, 373-8348; Veterans of Foreign Wars, Amarillo, 373-8552; Write for tickets to: P.O. Box 50366, Amarillo, Texas 79159.

TA MEMBER 1990
TEXAS PRESS ASSOCIATION

Thursday, October 18, 1990

Billie Neal Shaefer, Pat Thornberry, Samie Doering, Beryl Roper, Walter Warner, Mary Neal Risley and Maurice Risley were all present.

The next meeting will be November 13 at 8:00 p.m. The featured speakers will be Jim and Beverly Couzzart of Panhandle Archaeological Society. They will explain how to locate a site, prepare for excavation, and proper recording of the findings.

The charter of the society will be held open through November for those who wish to become members. Everyone who is interested is encouraged to attend.

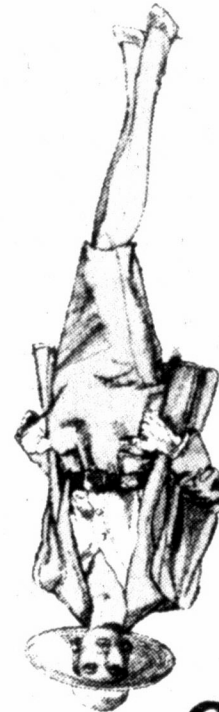

Red Ribbons Coming

The Texas Red Ribbon Campaign is underway in communities large and small throughout the great state of Texas. Volunteers are actively mobilizing the communities through Red Ribbon Campaign for "no use of any illegal drug and no illegal use of any legal drug". Red Ribbon 1990 is a project that links, via red ribbons, millions of Texas who are convinced that the war on drugs is winnable. Changing attitudes is what Red Ribbon is all about.

The campaign, sponsored by Texans' War of Drugs, was created when Federal Agent Enrique Camarena was murdered by drug traffickers in 1985. The red ribbon became a symbol to reduce the demand for drugs. The community is strongly encouraged to buy red ribbons for themselves and

Analgesic Rubs for Muscle Aches & Pain

Muscle aches and pains can be caused by excessive physical activity, viral infections, stress, poor posture, and other factors. Muscle pain may show up in any area of the body that is near muscle -- in the head and neck, low back area, legs, arms, and shoulders.

Cold therapy (e.g., ice packs) is recommended initially for many sports-related muscle injuries. Heat therapy (e.g., hot water bottle and heating pads) often is recommended for aches and pain that occur one to two days following muscle injury.

Analgesic rubs are applied to the skin to help relieve muscle pain. These are nonprescription products that produce "warmth" and a sensation of slight "itching" in the skin. These sensations serve to distract the individual from deeper muscle pain. Ingredients that produce this effect in the skin are called counterirritants. Counterirritant product ingredients include methyl salicylate, camphor, eucalyptus oil, and volatile oil of mustard.

Vasodilators such as histamine dihydrochloride and methyl nicotinate are included in some rub products for their ability to increase blood flow to the affected area and produce a feeling of warmth and comfort. Analgesic rubs are available as creams, gels, ointments, and lotions.

Senior Citizens News

by Nova Neuhaus

My apologies for not getting our news to the paper last week. I made a quick week-end trip to Western Kansas to attend my family reunion. I had not attended in 30 years and I enjoyed it very much and drove in snow for an hour on return trip.

The past two weeks have been busy ones for us here at the Center closing out fiscal year 1990 and starting new year 1991.

Even though Tuesday, Oct. 2nd, was a very rainy day Carmen Wright checked 38 Blood pressures. We truly appreciate her efforts.

On Saturday evening, Oct. 6th, Bill Meadows drove the Van and took 13 people to the Silverton Caprock Jamboree. They really had an enjoyable time. On Tuesday night, Oct. 9th the ladies were invited to take their unique style show to entertain for a group in Claude.

Thanks to Tina Powell for the lovely materials and craft items donated to the Center. Attendance for the Monday Dance Practice is increasing. They invite anyone to drop in and join in the fun and exercises.

This Thursday, October 18th will be the Hearing Aid Clinic held here at Center from 10 a.m. to 12 noon. This is for anyone needing the services.

Thanks to Newell Rice for the fresh flowers she is bringing and sharing with us still. Hope old Jack Frost delays his 1st touch of the season as the flower are so pretty this time of year.

On Wednesday, October 10th, I took the staff to a food show in Amarillo at the Civic Center sponsored by one of our distributors, Affiliated Foods. It was educational and lots of fun. Mary Lee, Karen and Trina were lucky winners of some lovely items during the house drawing.

NAOMI'S NEWS

by Naomi Green

My apologies, missed the dead-line due to entering H.A. in hospital. I am sure that he will be out and working by the time this news goes to press.

The week that Martin Baptist Church had dinner and singing, Frank Mahaffey not only enjoyed the day at church, but had Hazel Phillips of Orkel Colo visit with him, Hugh and Veda at the nursing home. Gene Brandlow of Herford and the Claytons from New Mexico visited the Mahaffeys that same weekend.

The weekend of September 29 Skeet and Eileen Brown were in Dallas for their grandson's wedding. They visited with Wayne and Tena Brown and with Don and Betty Gresham while they were there.

The following weekend Carrie Sue and Krisanne Davis went the weekend with their grandparents, Skeet and Eileen Brown.

Robert and Aline Partain were in Amarillo last week to see his Uncle, Doyle Brazile. The following Sunday evening they visited Bill and Florine Bennett after church and had refreshments.

Melba Risley and Connie Longan and son of Canyon visited Ted and Jo Shaller at Prairie Lea, Texas. They met Miles in Austin where he is attending Law School.

Lloyd and Melba Risley went to Ardmore Okla for Lloyd to see his doctor.

September 26th J.R. and Hazel Brandon attended the funeral of a cousin, Ruby Browning, of Snyder at Fluvanna, Texas.

The first weekend in October J.R. and Hazel were in Odessa to see Hazel's brother and his wife, Mason and Maurine Cole. They also visited with Donna, Kenneth, Kale and Kasi Kirkpatrick.

Friday October 4th Hazel and J.R. Brandon and Don and Jimmy Lee Matherson of Claude visited with Myrl Brown in Amrillo.

Seems that I was overly optimistic regarding H.A.'s recovery. He is still in the hospital not at all comfortable, however tests are progressing.

This past week Ruby Jewel and Warren Hardin had Glenna and Robert Cash visit them enroute from their home in Topeka Kansas for a visit with Richard Dingler Jr., still at hospital in Amarillo.

Clifford and Stella Jewett were in Umbarger for a belated anniversary visit with Clifford and Doris Osburn. While there they enjoyed meeting Frankie Green and her sister who are the Osburn's neighbors.

Wednesday Clifford and Stella were in Memphis to visit her sister, Beatrice and her husband Floyd Edwards. Beatrice is recovering from eye surgery.

Carrie Sue and Krisanne Davis were guests Friday and Saturday with their grandparents, Skeet and Eileen Brown. They all went to Groom Saturday and got Marcia and went to Pampa to meet Kay and Harold Green of Stinnett for lunch.

Charline, Roxine and Rhaleene Brown of Floydada, Jeanine Tittle of Amarillo and Buster Gray were guests at the Vance Gray home Saturday. They all went to Hedley to see the Jr. High Band march in the parade.

Joyce Johnson of Lubbock spent Saturday night with Vance and Ismanell after attending the Lelia Lake Reunion. Over 200 registered for the reunion.

Cousins Reunion Held

Charlie Bairfield and Mr. and Mrs. G.W. Estlack hosted a Cousins Reunion in the Estlack home Tuesday, October 2, 1990. There cousins are descendants of

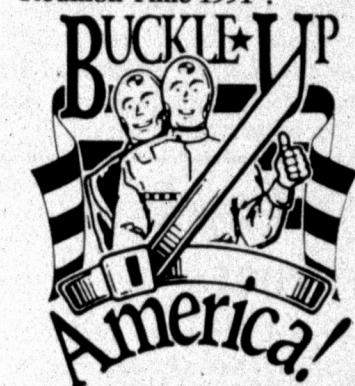

the John Cooper Scoggins, a pioneer family of this area.

A delicious fried chicken dinner was hosted at Mary's Country Kitchen by Mr. Bairfield. After a bountiful meal, the group returned to the Estlack home for visiting, reminiscing, and picture taking. All eight cousins were present.

Attending were: the one surviving parent, Faye Scoggins Bigelow of Amarillo; and Charles E. Bairfield, Dr. M.S. and Lois Bairfield Miller of Ft. Worth, and their daughter - Patsy Hall of San Antonio, descendants of Wint and Lena Scoggins Bairfield; Lola Wheeler Brooks of Guymon, Oklahoma, her son and daughter-in-law, R.T. and Elizabeth Brooks of Goodwell, Oklahoma; Irene Wheeler Stamper Glenn and daughter Ramona of Salinas, Kansas and Ramona's daughter-in-law, Margaret and baby of Borger; Naoma Wheeler Calvert and daughter, Nadine Goff of Guymon, Okla.; J.H. and Venita Wheeler of Galveston - all descendants of Henry and Lula Scoggins Wheeler.

Also present were Dorothy Faye Scoggins Whitlock of Amarillo, and George Wayne and Ruby Dell Scoggins Estlack, descendants of Oma Allen Scoggins and Faye Tyree Scoggins Bigelow.

Though there was rain throughout the day, it didn't dampen the spirits of the group. Everybody had a wonderful time and are looking forward to "Reunion Time 1991".

McDaniels Ride in Parade

J.B. & Yvonne Belle McDaniel of Lelia Lake rode their Palomino Horses in the Hedley Cotton Festival Grand Parade, Saturday, Oct. 13 at 2 p.m. They feel it a privilege and honor to be asked to participate and lead the Gala Parade for which they have led for several years now. They have never missed a Festival since it started. They thank the people of Hedley for letting them be a part of their celebration and this year was one of the best for the parade and good entertainment.

If you want to have a good time, good food, and a lot of visiting with your friends and relatives, just attend the Cotton Festival. All the people in Hedley who help to keep this fun loving celebration going need to be commended for their time and effort they put forth for making it a big success every year.

JV Cats Claw JV Broncos

The Clarendon Junior Varsity Broncos hosted the Panther Panthers in the Bronco Stadium last Thursday night. The Panthers proved to be too much for the Broncos as they walked away with a 25 to 8 victory.

Clarendon's only points came on a 10 yard touchdown run by Ricky Smith with Wesley Smith running for the 2 point conversion. The Broncos travel to Canadian Thursday, Oct. 18th, to tangle with the Canadian Wildcats. We Want A Victory, Men!

Club Meeting Held

The 1926 Book Club held a meeting, October 2, 1990. Hostesses Rachael Butler, Mary Hazel Van Zandt and Renee' Duncan served delicious sandwiches, cookies, tea and coffee to the members who braved the big rainstorm and blowing wind to attend the meeting.

Mrs. Thelma Shields, Acting President, opened the meeting with a request that the Club Collect be repeated in unison.

The last few meetings were discussed and remembered with pleasure, as all of them are.

The Club accepted the resignation of Nita Foust with regrets. The Treasurer's report was given by Viola Bones, after which Polly Sarich gave an interesting program on "Travel-Around the World in Ten Minutes."

We are looking forward to having our new member, Mrs. Pauline Lowrie with us at our next meeting. The next meeting will be on November 12th, because of the election.

4-H Banquet To Be Held

Donley County 4-H will hold their annual Achievement Banquet on Saturday, October 20, 1990, in the Clarendon School Cafeteria. 4-H families will provide a covered dish meal.

The Achievement Banquet is the time when 4-H members and leaders are honored for outstanding work throughout the past year.

Brad Williams, 4-H council member, will serve as emcee for the evening. The welcome will be given by Buddy Howard. Leader recognition certificates will be presented by Amanda Ward, President of the Hedley 4-H Club, and Elizabeth Mc Anear. 4-H Achievement

Awards and participation certificates will be presented by Cheryl Pickard, County Extension Agent - Home Economics, and Tim Trimble, County Extension Agent - Agriculture.

The highlight of the evening will be the presentation of the 4-H Gold Star Award, and the William Danforth "I Dare You" Award. The Gold Star is the highest county achievement award given. County winners will be honored at the District Gold Star Banquet in Amarillo, on November 3, 1990. The American Youth Foundation sponsors the William H. Danforth "I Dare You" Award. The award is offered as recognition of excellence in character and well balanced personal development, as well as demonstrated leadership.

Everyone interested in the 4-H program is invited to attend this banquet.

The Lions Tale

by Gene Alderson

The Clarendon Lions Club held its regular meeting at noon on Tuesday, October 16, 1990 at the Lions Hall with 23 present. Following a delicious chicken fried steak dinner, Lion Tamplen gave the prayer.

Liontamer Henson introduced our guests. Vice-president Robertson led the Pledge of Allegiance. Program chairman Smith introduced Coach Zehr who gave our program on the Clarendon College girls basketball program. This is membership month. Lions, get busy! Meeting adjourned.

4-H Foods Project

The 4-H Food and Nutrition Project has already begun, but it is not too late to join a group. In Clarendon, contact Vicki Tamplen and in Hedley, contact Kathy Turner.

You may also call the County Extension Office at 874-2141.

George Whitefield and the Great Awakening: Part 2

Historians today recognize George Whitefield as a major force behind The Great Awakening. Most rate him as the outstanding religious leader of his century.

Yet few churches supported George Whitefield in his day. Many denied him the use of their buildings. Preachers and church leaders of his day often mocked him or denounced him from the pulpit. To them, Whitefield was a scoundrel or a fool. After all, Whitefield was not interested in debating the doctrinal issues that preoccupied them. He did not restrict himself to associating only with one sect or denomination. He was not interested in debating the "issues" of the moment (which would be forgotten within a generation anyway).

In fact, Whitefield was disgusted by the party spirit that dominated his day. In a sermon in "the Colonies" he rhetorically addressed the patriarch Abraham:

"Father Abraham, are there any Presbyterians there in heaven?"

"Well, no ..."

"Father Abraham, are there any Methodists in Heaven?"

"No ..."

"Baptists?"

"No ..."

"Well, Abraham, who is up there?"

"Son, all we have up here are Christians ..."

Today Clarendon or Hedley could add several newer religious fellowships to Whitefield's list: Assembly of God, Church of Christ, Church of the Nazarene, First Christian Church and on and on.

But no one can prove that Abraham's answer would have changed.

First Christian Church
Clarendon, Texas

Flu Season Nears

This year's influenza season may mark the U.S. debut of B-Yamagata, the strain that appeared last year in Asia.

But, according to Dr. W. Paul Glezen of the national influenza Research Center at Baylor College of Medicine in Houston, that prediction is tentative. Information from the southern hemisphere, which has already undergone its flu season, has not painted a clear picture of what kind of flu to expect.

"The southern hemisphere was hit by a mixture of flu viruses this year," Glezen said. "But, we think influenza B is most likely to be the main player in this year's flu season."

That prediction is also based in part on the cyclic appearance of flu strains. "It's about time for B to hit again," Glezen said.

If B-Yamagata does appear, it is covered by this year's flu vaccine, which also covers other strains including A-Taiwan and A-Shanghai. And, Glezen said, it is not too early

Publications Available

The Donley County Extension

Service, in cooperation with the First Bank and Trust in Clarendon, will be displaying a "Publication of the Week" each week at the bank. This is an effort to help Donley County residents know more about the many publications available through the Extension Service. Some of the publications topics include: Lawn Care, Lawn Establishment, Recycling Trash, Stain Removal Chart, Water Conservation, Weed and Brush Control, Fleas, Spiders, Bagworms, Horse and Horsemanship, Long Calving Seasons, Calving Problems, Microwave Oven Basics, Nutrient Needs At A Glance, Food Safety Chart, Drinking Water Standards, Peaches, Tomatoes, Peppers, Vegetable Varieties for the Panhandle, Lawn Watering, and a Parliamentary Procedure Guide. This is just a few of the hundreds of informative publications that can be obtained through the Extension Service.

If one of the publications at First Bank and Trust interests you, you can call or come by the Extension Office. Of course, you can come by any time to look at the available publications.

Stop Here, Now!

People who are traveling stop about every 200 miles (about every 7th town). If Clarendon looks good and has something unique to offer we can stop many of the 10,000 vehicles per day that go passed the Kearney Street intersection. Each car that stops adds money to the local economy and that benefits every resident.

-A public service message from the Chamber of Commerce.

to begin getting flu shots, particularly for those in one of four high-risk groups:

*People 65 and older
*People with heart and lung disease, including asthma and chronic bronchitis.

*People with diabetes, chronic kidney disease and chronic anemia, including sickle cell anemia.

*People likely to come into contact with those in the other three high-risk groups.

People in high-risk groups are more prone to life-threatening infections, such as pneumonia, after contracting influenza.

Health-care workers should be vaccinated, Glezen said, because "the vaccine will help prevent their contracting the flu and spreading the virus to their patients."

The flu vaccine is available from most physicians and at community health centers.

"Those in the high-risk groups should be vaccinated soon and certainly before Thanksgiving," Glezen said, to lessen the risk of contracting the virus during the two weeks required for the shot to provide protection.

Flu cases usually begin appearing by early or mid-December and peak in January or February.

Glezen said those in a high-risk group who have never had a one-time pneumonia shot should consider getting one with the flu vaccine. It prevents pneumococcal pneumonia, frequently associated with influenza in the high-risk groups.

The U.S. Centers for Disease Control in Atlanta and the Food and Drug Administration in Washington, D.C., decide on the composition of each season's influenza vaccine based on viruses circulating worldwide.

Influenza usually strikes suddenly. Symptoms include fever, generalized muscle pain, weakness and a dry, hacking cough.

Victims of the flu should get plenty of rest and drink lots of liquids.

Adults may take aspirin or an aspirin substitute to reduce fever and pain, but people younger than 21 should use only aspirin-free pain relievers. Aspirin has been associated with Reye's syndrome, a complication of flu and chicken pox that can cause vomiting, convulsions, brain damage and death in children.

Influenza is caused by variants of types A and B influenza viruses. Variants are classified according to where they were first identified.

College Close-Ups

By Judith Oman

Marisa Sayago is currently a freshman at Clarendon College. She lives in Memphis and commutes back and forth to school. Marisa was born in Texas but lived for eight and a half years in Argentina. Marisa is the daughter of Argentine parents, and they wanted to

travel back to Argentina to practice medicine in their homeland.

At age thirteen she left Texas and the United States to take up a new life. Two months after her family's arrival, war broke out between Great Britain and Argentina, and a military government took over. In 1983, a democratic government took over Argentina for the first time in the country's history. She said after living in South America, she now has a new appreciation for the United States. She realized how powerful the influence of the U.S. is because the Argentines imitate American music, clothing, and foods. Also, more patriotism exists here because U.S. citizens respect and support the government, unlike the Argentines.

Marisa lived in Cordoba, Argentina where there are two million residents. Cordoba is second only to Buenos Aires in population in

Argentina. She attended a bilingual private school where both the French and the Spanish languages were used. She also attended an Argentine university for two years. However, she actually only completed one semester of study as the teachers were on strike for the other three. In 1986, Marisa went as an exchange student to Ostringen, Germany for four months, and in 1988, she studied in France for two months.

Marisa reported that the Argentine economy is very poor with inflation rising two digits each month. Though it is not bad for foreigners, citizens in Argentina do suffer from the 2000% inflation.

Marisa has not decided on her major, but she plans on finishing her basic courses at Clarendon. She then will transfer to a major university in the United States. Marisa will return to Argentina for Christmas, but she does not want to reside there permanently despite the beautiful landscape and absence of speed limits.

many cow-calf producers," Dr. Randall Grooms of the Texas A & M University Agricultural Research and Extension Center at Overton. "Inferior calves have inferior parents."

"Mothers of non-profitable calves are inferior because they calve late in the season or fail to give adequate milk for the calf's growth. In either case, it is highly probable that she will repeat her inferior production next year."

Generally, the bottom 5 to 20 percent of the cows in a herd produce calves that are significantly below the herd average. Producers determine their culling level by the availability of replacements or the desire for profit. Grooms says a simple procedure for culling cows is to separate the cows and calves at weaning time. Sort the smaller, inferior calves from the others. The following morning, put the inferior calves with the cows. Cows claiming these inferior calves can be identified and culled.

"After weaning calves, many producers prefer to keep cull cows until frost," Grooms said. "This allows the cow to regain body condition and weight. With current cow prices, now is an excellent time to shape up a cow herd and put it in a more profitable mode."

KINDERGARTEN presents "Nursery Rhyme Dress-Up Day" Friday, October 12, 1990. The beloved nursery rhymes came to life as Mrs. Jamie Deyhle (The Old Woman Who Lived in the Shoe) and Mrs. Judy Zehr (The Queen of Hearts) and their classes appeared as nursery rhyme characters.

Hedley News

The Thirty-Eighth Annual Hedley Cotton Festival dominated the community's activities this past week. The crowds were a bit thinner than last year's, but the weather was beautiful, and the celebration can be termed a success.

A highlight of the Festival is always the Grand Parade, and this year's edition was typically colorful. Parade entries are judged on the following basis: usage of cotton, 50%; overall beauty, 30%; and originality, 20%.

The Hall County American Legion won first place in the Out-of-Town Floats category, with the Hi-Plains Eye Bank placing second.

Among Hedley commercial floats, Community Bank won first, Ellen's Classic Cuts/Hedley Cafe won second, and Mike's Boot Shop placed third.

In the "Hedley Organizations" category, the Baptist-Methodist float placed first, the Eastern Star second, and Brownie Troop #91 third.

In the category entitled "All Other Decorated Vehicles," The Hedley Senior Citizens car, a Cadillac convertible supplied by Chamberlain Motor Company, won first place. Harold White's spit-and-polish 1949 A-Model John Deere tractor won second. Junior Gilchrist's Model A Ford placed third.

The Grand Prize, selected from all categories, went to the float entered by Ellen's Classic Cuts and the Hedley Cafe.

Kiddie Parade winners were: Sarah and Stephanie Blankenship, clowns on bicycles, first place; Bradley Conatser, tractor and bale of cotton, second place; and Dustin Knowles and John Mark and Jared Patterson, decorated wagon and costumes, third place.

Another highlight of the Festival is the giving away of numerous prizes, some quite valuable. There were far too many prizes to mention all of them, but some of the prizes and winners were: a vase given by the Senior Citizens, won by Jean Taylor of Hedley; a pair of hand-made boots given to James Hoggatt of Hedley by Mike's Boot Shop; a money tree "grown" by the Lioness Club, awarded to Archie Flowers from Borger; the fifty-dollar Cow Pattie Bingo, sponsored by the Lions Club, won by Mike Evans of Pampa; and the five-hundred-dollar Cow Pattie Bingo prize, also from the Lions, given to John Miller of Amarillo. The traditional big prize at the festival is, of course, the first bale of cotton, given by the Lions Club. This year's winner was Kenneth Havins of Childress.

The climax of the celebration is the Saturday-evening coronation of

the Cotton Festival Queen. This year's queen is Amanda Ward, daughter of Leon and Carole Ward of Hedley. Amanda is a sophomore at Hedley High School. Queen Amanda expressed appreciation to everyone who helped her sell tickets on the bale of cotton, and to those who bought tickets from her and her helpers.

Ashley Lamberson, daughter of Mr. and Mrs. Mike Lamberson of Hedley, was crowned Miss Future Queen of the Festival.

In other news, Tony Monroe was injured in an automobile accident Friday night. Tony was treated and released at the Wellington hospital, and is reported doing well. His pickup suffered extensive damage.

Dorothy Crawford and Pauline Kaufman enjoyed the company over festival weekend of their sister and brother-in-law, Naomi and Bud Kemp of Amarillo; and their aunts, Geneva Dennis and Jauvada Curtis, from Dimmitt. On Sunday morning, they went to Amarillo to visit their children.

Sherrie McDougal and Jordan visited in Hedley over the weekend. On Sunday, Sherrie and Jordan, Junior and Martha Hill, and Jason Ham went to Whitharral to visit the new granddaughter, Courtney Ann. Mom and daddy-Jeff and Lori Hill—are doing fine.

The American Association of Retired Persons (AARP) will meet this Friday, the nineteenth, at the Seniors Citizens Center in Hedley.

Betty Williams was injured in a fall on Tuesday, October 9. Pins were inserted in her broken knee at Northwest Texas Hospital in Amarillo the following day. She is reported doing well.

Cassie Owens has been quite ill in an Amarillo hospital. She had an especially difficult day on the ninth, which was also her birthday.

Blunk Studios will be at Hedley School this Monday, October 22, for photo retakes and group pictures.

Hedley School Menu

October 22-26

Monday Breakfast: Oatmeal, toast, juice, milk
Lunch: Steak fingers, gravy, cream peas, deviled eggs, hot rolls, honey and butter

Tuesday Breakfast: Sausage and gravy, biscuits, juice, milk
Lunch: Spaghetti with meat sauce, spinach, salad, hot rolls, fruit, milk

Wednesday Breakfast: Breakfast burritos, juice, milk
Lunch: Chicken nuggets, gravy, mashed potatoes, green beans, hot rolls, doughnuts

Thursday Breakfast: Doughnuts, juice, milk
Lunch: Tacos, pinto beans, lettuce and tomatoes, peanut butter brownies

Friday Breakfast: Pancakes, juice, milk
Lunch: Chili dogs, fried squash, pork and beans, chocolate cake, milk

DOORPOSTS

Dirty Double Standard

by Perry Mack Garrison

Israel is a tiny nation; only 8,302 square miles in area, including inland waters. About the size of New Jersey. In 1982, their population was 4,063,600 and growing fast. That's about 490 people per square mile;...in 1982! Jerusalem has a resident population per square mile of 747, with Tel Aviv-Jaffa topping the list at 15,369 people per

square mile. That's sardine city! The population of Israel is made up of over 85% Jews.

Despite all these factors, it's the most noticed, criticized, and broadcasted nation on the face of our globe. Surprisingly, the crime rate involving death in New York city alone is nearly triple that of all Israel in a year; every day! But sometimes what is good for the Red, White, and Blue goose is not always good for the "Kosher" gander. Or is it?

What would you hope our police would do if a horde of angry people were throwing--big--stones down on the heads of twenty-thousand Christian worshipers at a church pick-nick, from a high, unattainable, place? That's what I thought...save our necks. What's the difference between a curse and a condemnation in today's terms? Listen to this, very real, very alive, passage and promise from the book of Genesis 12:2-3 where God is speaking to Abraham: "And I will make of thee a great nation, and I will bless thee, and make thy (Israel) name great; and thou shalt be a blessing: And I will bless them that bless thee (Israel), and curse him that curseth thee: and in thee shall all families of the earth be blessed."

I don't know about you, but my family has been greatly blessed by the presence of the Lord Jesus Christ in our hearts. Who: was born a Jew, lived in a Jewish state, shed the cleansing blood of a

Jewish man for my sins (which are many) and is coming back to set up a Jewish kingdom in Israel as a Jewish King. The second person in the Trinity; the Lord of lords and the King of kings.

I can understand the world and even the better part of our nation coming down hard on Israel; that's old hat. But where is the support and prayer of the Christians of today?

With all our national sins and in the midst of all our good deeds--have we gone too far? Are we about to call down a curse from God to join His perfect judgement of the U.S.A. by condemning Israel?

I say these things because I'm concerned about my country; I say them out of love. And if I should have to go to help defend our interests in the Middle-East, then I shall. But I will never lift one finger or word against Israel! "For Zion's sake will I not hold my peace, and for Jerusalem's sake I will not rest, until the righteousness thereof go forth as brightness, and the salvation thereof as a lamp that burneth." (ISA 62:1)

I'm not saying everything Israel does is right and upstanding. I just think that It's our duty as Christians to know the facts and support those facts.

Will you pray with me and King David as spoken in Psalms 122:6 "Pray for the peace of Jerusalem: THEY SHALL PROSPER THAT OVE THEE."

Minding Your Own Business

by Don Taylor

Voicing Your Views

In America, May 5th is an important date. By that day, the average taxpayer has earned the annual equivalent of his or her federal income tax contribution. In addition to the growing tax burden, the federal government creates 50 pages of regulations every day. Many of these new rules directly affect small businesses.

As a result, entrepreneurs often feel unable to slow the rising tide of taxes and regulations. Individually, this may be true. Collectively, small businesses can have clout.

There are more than 19 million small businesses in the United States. They employ 56 percent of the workforce and generate more than one-half of the gross national product. These independent firms have the potential to be one of our

nation's strongest lobbies. The only requirements are the willingness to work together and an understanding of the political environment.

However, business owners frequently ignore political issues. Most small firms are busy taking care of business and are willing to let the politicians handle political matters. Since there are few true entrepreneurs in the legislative branch of the government, business interests may not be represented effectively.

Understanding the political process can help small business owners influence legislation that affects the business environment. Issues such as workers' compensation insurance, rising taxes, labor laws and health care are important to all small businesses.

Send a Message

One effective way to convey your views to legislators is to write a personal letter. Following a few simple guidelines will help you receive a positive response.

First, use your business letterhead and sign the letter personally. Include your return address on both the envelope and letter. Form letters and preprinted post cards have little impact. Second, get right to the point. If your letter is about pending legislation, use the correct House or Senate bill number. Do your homework. Make certain you know the facts.

Explain how the bill or action will impact your business. Emphasize the number of area businesses that will be affected in the same way. If the legislation will injure or benefit a large number of businesses, your letter will carry more importance.

Don't hesitate to ask where your legislator stands on the issue. As a constituent, you have a right to know. Finally, be sure to express appreciation for any previous assistance.

Personal phone calls and telegrams are also effective ways to voice your views. However, many people feel that communicating by telephone is a frustrating process. Your legislator may be out of the office or may simply have no effective call screener. If you don't receive a response in a reasonable period of time, try another means of communication.

Use Your Lobbyist

Many business organizations have their own lobbyists. Local, state and national chambers of commerce, the National Federation of Independent Business and state business associations are interested in legislation that affects their members. If you belong to a business organization, rely on its lobbyists for the information you need.

If you aren't a member of a pro-business group, I recommend that you join one immediately. The services of the governmental affairs department alone may be worth the annual dues. Local chambers of commerce often survey their members and relay valuable information to legislators.

The rules that apply in making your wishes known to your legislators also apply to your business representatives. Be direct and try to stay informed. Make sure that your contact person understands the impact of the legislation on your business.

Will Rogers said, "Americans should be grateful that we don't get all the government we pay for!" When a greater number of entrepreneurs become involved in politics, the government will be run in a more business-like manner.

Support Group Assists Patients

Harrington Cancer Center's volunteer support group has a major mission and they do it well. The support group? The Circle of Friends. Their mission? To provide financial assistance to cancer patients and their families in times of crisis and to support education and research programs directed toward improving the patient's quality of life.

Paula Gibson of Dumas, completing her term as Circle of Friends President, announced that the Circle of Friends will make a \$10,000 restricted contribution to Harrington Cancer Center on September 18 at Harrington's Annual Board of Trustees meeting. The funds are restricted for use for the Bone Marrow Transplantation program (\$3,000), \$1,500 designated for use by the Pediatrics Department, \$1,500 for Supportive Care, \$3,000 for Operations including administrative, communications and development and \$1,000 earmarked for Research. These funds are in addition to the \$12,000 patient care fund the group already provided in 1989 for patients at

Harrington Cancer Center.

The Circle of Friends is a non-profit volunteer organization made up of interesting supporters from across the Panhandle area who raise support funds through membership parties, special events and the annual Christmas Card sales of the "Caring Touch" collection.

These funds are available to cancer patients receiving treatment in Harrington Cancer Center's service area. The funds are used to assist with services not covered by insurance or available through other agencies. Limited funds are available for out-of-pocket expenses such as travel, lodging, prescribed nutritional supplements and other special needs. The assistance is provided on a short-term basis for crisis situations.

Diana Heifenbein of Perryton brought daughter Amanda, 11, to Harrington Cancer Center for chemotherapy treatments. "When you're faced with cancer of a family member, chemotherapy treatments, and frequent trips to Amarillo, it's nice to have someone to depend on when you need them," Heifenbein said about the support Circle of Friends gave her family to help offset the mounting gasoline bills for Amanda's trips to Amarillo.

This year nearly 1600 interested people joined the Circle of Friends through membership parties in nine cities throughout the Panhandle including Amarillo, Canadian, Clarendon, Dalhart, Dumas, Hereford, Pampa, Pan-

Feds Seize State License Regulations

The Commercial Motor Vehicle Safety Act of 1986 (CMVSA) (Title XII, P.L. 99-579), enacted by Congress on October 18, 1986, makes it illegal for an operator of a commercial motor vehicle (truck or bus) to have more than one driver's license. It also requires the U.S. Secretary of Transportation to develop uniform standards for testing and licensing of operators of vehicles 26,001 pounds and above GVWR (gross vehicle weight rating). The Federal law provides that if a state fails to meet the deadline of April 1, 1992, certain federal highway funds allocated to the state will be reduced by five percent for the first year and ten percent for each year thereafter. The potential noncompliance loss for the state of Texas is conservatively estimated to be \$28 million in the first year and \$56 million for each additional year. The Act makes provisions for the Secretary-in cooperation with the states-to develop a clearinghouse to aid the states in implementing the one-license requirement and to record the issuance of a commercial driver's license. New York is the contractor. EDS of Plano, Texas, has designed and built the clearinghouse.

Texas has approximately 1.4 million Class A and B driver's license holders; however, a survey we conducted in January of 1988 indicates that 17 percent of those holding Class A and B licenses are not commercial drivers. Another 12 percent of these license holders routinely do not renew. Also, the Federal Highway Administration (FHWA) has, by rule, provided that states may grant waivers from the commercial driver's license (CDL) requirements to farmers, military (includes National Guard), recreational vehicle operators, emergency vehicle, and fire fighters. (House Bill 1935 exempts this group of Texas drivers from CDL requirements.) Farmers are generally exempt from operating within 150 miles of their farm. Fire fighters are exempt when operating firefighting vehicles or equipment.

We are making preparations to license 962,000 CDL drivers in Texas; however, we believe the actual number will be fewer than that.

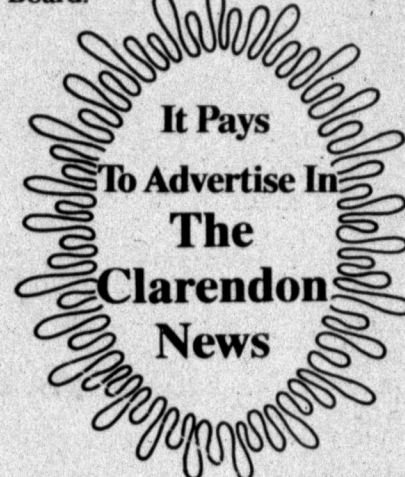

Texas participation in the program is authorized by House Bill 1935, the Texas Commercial Motor Vehicle Safety Act, introduced by State Representative Bill Carter and signed on June 2, 1989 by Governor Clements. This law parallels the Federal mandate. The CDL is required:

1. If a truck has a gross vehicle weight rating of 26,001 pounds or more,
2. If a bus is designed to transport 16 or more people including the driver (church and Boy Scouts buses are not exempt);
3. For any size vehicle used to carry hazardous material that must display warning placards.

handle, and Perryton.

The 1989-90 Board of Directors include: Paula Gibson, President, Dumas; Joyce Courson, President-elect, Perryton; Cathy Dixon, Vice President, Amarillo; Kathy Lyons, Treasurer, Amarillo; Anna Beth McNabb, Secretary, Clarendon.

Other Board Members are: Toni Banks, Janet Barrett, Myra Ann Bunkley, Janette Caviness, Earnestene Gary, Brenda Goforth, Nancy Kritser, Sharon Oeschger, Charlotte Rhodes, Marilyn Van Petten, and Elizabeth Ann Vermilion of Amarillo. From Dumas, Helen Beauchamp and Lisa Profett. Genevieve Caldwell serves from Clarendon, Tria Godwin from Canadian, Mary Jane Keast from Dalhart, Jean Murtisaw from Pampa, Ruth Newsom from Hereford and Ginger Pittman from Spearman. Mary Lou Simms from Panhandle completes the Board.

The CDL costs \$40.00 for four years; however, \$4.00 credit for each full year of validity on unexpired Texas licenses will be given when the CDL is obtained.

The CDL law requires that all commercial drivers pass required tests and obtain a CDL when their present license expires or April 1, 1992, whichever date comes first. Testing began in June, 1990. All applicants will be required to take written knowledge tests. Skills tests will not be required for those who can certify meeting all of the following criteria:

1. Currently licensed;
 2. Currently employed as a commercial driver;
 3. Has not held more than one license in the past two years;
 4. Has a good driving record;
 5. Has previously passed a state administered road test in a commercial motor vehicle or Has; operated a commercial motor vehicle for at least the two previous years before application.
- The classes of commercial driver's licenses to be issued and endorsements are:

1. Class A - Any combination of vehicles with a gross combination weight rating of 26,001 pounds or more, provided the gross vehicle weight rating of the vehicle or vehicles being towed exceeds 10,000 pounds.
2. Class B - Any single vehicle with a gross vehicle weight rating of 26,001 pounds or more and any one of those vehicles towing a vehicle that does not exceed 10,000 pounds gross vehicle weight rating, and any vehicle designed to transport 24 passengers or more, including the driver. A Class B license holder will be restricted to operating buses under 26,001 pounds GVWR if the road test is taken in a bus with a GVWR less than 26,001 pounds.
3. Class C - Any single vehicle with a gross vehicle weight rating of less than 26,001 pounds and any one of those vehicles towing another vehicle with a gross vehicle weight rating that does not exceed 10,000 pounds if either vehicles is:
 - a. Designed to transport 16 or more passengers, including the driver; or
 - b. Used in the transportation of hazardous materials that require the vehicle to be placarded under 49 CFR, Part 172, Subpart F.

Tougher sanctions for commercial drivers found guilty of using alcohol or drugs and other serious traffic violations will be imposed April 1, 1992 when all commercial drivers have obtained a CDL. For example, after April 1, 1992, a commercial driver who refuses a breath test or has a blood alcohol concentration of .04 or above will have his CDL suspended for one year and if he is transporting hazardous materials, the suspension period will be three years.

Questions about the CDL program? Please direct them to a DPS Driver License supervisor in your area. Call Sgt. Doug Triplett at 806-747-4491 or contact your local DPS office.

The Texas Department of Public Safety is currently issuing commercial driver's licenses. Limited issuance began September 17, 1990 and full issuance on September 19, 1990.

What's an Energy Saving Plan Home?

It's a home that gives you extra comfort plus lower energy bills. So check out the features an ESP home can offer.

Attic Ventilation

Proper ventilation controls summer heat build up and moisture accumulation in winter. This adds life to the building and its components.

Insulation

Insulation in the ceiling and walls in the amount appropriate for this area and climate keeps ESP homes cooler in summer and warmer in winter.

Air Distribution System

Correctly sized air ducts and proper placement of supply and return air are important considerations for an ESP home.

Heating and Cooling Equipment

Equipment is properly sized to the structure for highest efficiency. WTU recommends the all-season electric heat pump that heats in the winter and cools in the summer for year-round savings. Call WTU for details.

Air Infiltration Control

Air infiltration control helps stop uncomfortable drafts with weatherstripping, caulking, and insulation.

Windows and Doors

Insulated or storm doors and windows greatly improve both efficiency and comfort by reducing heat gain and loss in both summer and winter.

WEST TEXAS UTILITIES COMPANY

Remember REDDY Supplies the energy - but only YOU can use it wisely!

T for TEXAS

by T. Lindsay Baker

John W. Bartlett's First 'Wild' Indian

On October 24, 1850, John W. Bartlett met his first Texas Indian. He was on the road from Fredericksburg to El Paso, Texas.

A native of Rhode Island, Bartlett was the American commissioner for the U.S.-Mexican Boundary Commission from 1850-1853. He had been assigned to determine the official boundary between the two countries. Earlier in life, Bartlett had helped to found the American Ethnological Society and had written several books dealing with the cultures of Native Americans, but he had known only "civilized" Indians.

When Bartlett encountered Chipota, a Lipan Apache chief, he met his first "wild" Indian, and the encounter was one long remembered by both men.

"Just as we were leaving camp," the commissioner wrote in his Personal Narrative published in 1854, "an Indian mounted on a mule suddenly appeared from behind a clump of bushes."

Introducing himself in Spanish, the 60-odd-year-old Chipota presented documents from a leather pouch that identified him and showed that he had recently signed a treaty of peace with American authorities.

The heavy-set chief, according to Bartlett, "had a pleasant, benevolent countenance, and ... was well dressed in a suit of deerskin, with his bow and arrows slung across his back." The quiver for his arrows, the commissioner noted, was made from "the skin of the American leopard," the jaguar.

Chipota related that he and his band had been following the Americans for the past two days. Bartlett suspected that some of the old man's warriors might have been the cause for the loss of several mules which had disappeared, but he said nothing. He did, however, need replacements for the missing animals.

The Lipan chief knew enough of the white men's ways to realize that when they met it often was customary for them to share drinks. "Finding no proffer of such civilities, he gave me to understand that he would not object to a glass of whiskey," Bartlett wrote. The straight-laced New Englander replied that he didn't have any alcohol, but that if the chief would accompany the party to its next camping place, he could offer him a shirt and something to eat.

"I asked him to take a seat in my carriage," a fine Rockaway coach with luxurious appointments. "He accepted with a delight that showed itself in spite of his endeavors to maintain his gravity," Bartlett related. "He manifested much curiosity respecting all he saw, for the carriage was well filled with a variety of knick-knacks which were new to him."

Among the items that Chipota spotted was a hand-held telescope. Bartlett wrote: "The instrument was adjusted, and a distant tree pointed out, which he was told to look at with the glass. His credulity had been overtasked, and it was hard to convince him that it was the same far-off tree."

Finding that Chipota's band had excess mules, Bartlett asked him to bring them in so that the Americans might buy some to replace the ones which had been lost. "I offered them ten dollars each, or good to that amount," but the chief seemed uninterested.

In the afternoon Chipota departed for his own camp, only to return in the evening with a handful of his tribesmen. "As they showed no inclination to leave, we were obliged to give them a supper, after which they asked permission to remain all night with us."

The commissioner reluctantly consented to the request, on the condition that the Lipans slept by their own fire outside the white men's camp.

"The night was rather cool," Bartlett remembered, "and day had scarcely dawned, when I was aroused by a tap at the window of my carriage." Outside he saw old Chipota, shivering from a cold night on the ground.

When the commissioner opened the door to his coach, the chief chattered through his teeth, "Mucho frio-poco de viskey," or "Very cold-a little whiskey."

"I was compelled again to deny the old man, but compromised the matter soon after by giving him a bowl of hot coffee," Bartlett said.

For Chipota the coffee must have been a poor substitute for what he wanted, because that morning he departed camp, still refusing to sell Bartlett the mules that he needed.

BABIES

Breastfeeding Has Benefits For Both Mother and Baby

(NU) - The times a new mom spends nestling and breastfeeding her baby can be the most precious moments shared together.

According to the experts at Gerber Products Co., there are several reasons to consider breastfeeding.

Breast milk is the very best food for babies because it's especially suited for an infant's nutritional needs and provides immune protection against some bacteria and viruses.

Breast-fed babies have lower risks for colds and ear infections, and less colic and diarrhea. While cow's milk and some formulas can trigger allergic reactions, breast milk seems to protect against some food allergies as the baby grows and develops.

Additionally, mother's milk is usually clean, safe and easy for the baby to digest. Most women are able to produce milk and successfully nurse their infants. In some cases, however, there are mothers who may be unable to breastfeed or may have very strong feeling against it. Supplements are often needed, especially by working mothers.

It is advisable for mothers to consult their health care professional to discuss alternatives such as baby formulas.

For more information on breastfeeding and for the free brochure, "Breastfeeding Basics, A Guide for Nursing Mothers," call 1-800-421-4221. For more information on bottlefeeding and infant care, call 1-800-4-GERBER.

The Lions Tale

by Gene Alderson

The Clarendon Lions Club held its regular meeting at noon on Tuesday, October 9th, at the Lions Hall with 26 present. After a delicious meal, Vice-president, Delbert Robertson called the meeting to order and Lion Christal gave the prayer. Liontamer Henson introduced our guest including the following member of the Clarendon Volunteer Fire Department, Bill and Mike Spier, Mike Williams, Pat Robertson, Phillip Vargas and Duane Garman. Delbert Robertson was serving in two capacities today. He was presiding over our meeting in the absence of our Boss Lion and he brought our program in connection with Fire Prevention Week. The program was an excellent VCR presentation on facts about fires and how to survive them. The film was called "Plan To Get Out Alive" and was extremely informative. It is available for viewing by organizations, groups, etc. and I would highly recommend it. Just contact any member of the Fire Department to get it.

LEAF- cont'd f. pg.1

effective method of leaf management when heavy leaf cover is present. Removing the leaves is then required. These leaves and other yard wastes, such as grass clippings, small twigs, pruning debris or dead plants, can be a valuable landscape resource when used as a mulch or when composted.

A mulch is any material applied to the soil surface for protection or improvement of the area covered. A layer of partially or undecomposed leaves applied to the surface of the soil as a mulch around trees, shrubs, in flower beds and in vegetable gardens will: conserve soil moisture, control weeds and grasses, protect against extreme heat and cold, reduce soil erosion and prevent soil crusting. Passing yard waste through a shredder creates a more uniform mulch material.

Compost is a dark, crumbly, and earth-smelling form of organic matter that has gone through a natural decomposition process. Decomposition and recycling of organic wastes are an essential part of soil building and healthy plant growth in forests and pastures, as well as our lawns and gardens. The process of decomposition or "composting" can be carried out in simple compost piles, bins or more elaborate homemade or purchased devices.

Composted leaves and other landscape wastes can be used to: enrich soil, loosen tight, heavy clay soils, help sandy soils retain moisture and nutrients, and add to potting soil for container grown plants.

Help reduce the strain on our communities' waste disposal system and protect our environment. For more information on composting or the "Don't Bag It" Lawn Care Plan, Leaf Management Plan, contact the Donley County Extension Office at (806)874- 2141.

RIBBONS- cont f. pg. 2

employees. The campaign has slated areas of interest for various community groups to help reduce drugs use. Businesses: display red ribbons, banners and posters in its[ic] buildings; initiate drug education programs for employees year round; place a red ribbon message in advertisements and monthly statements.

Religious institutions: distribute red ribbons at services the weekend before Red Ribbon Week which is October 20-21; address the drug problems in sermons; support the formation of drug-free youth groups; sponsor in-service educational programs for priests, ministers, rabbis, teachers, secretaries and the congregation.

Wear Red Day is October 24th and not only will people be asked to wear their symbolic red ribbon, but will also be asked to dress in red. Pledge day, October 25th, the students in area schools will be pledging to remain drug-free as a lifestyle that is embodied by both them and also their[ic] family. Recognition Day is October 26th for those communities who have outstanding programs and activities throughout this campaign.

The public is urged to take their step now to wear their red ribbons in a concerted effort to prevent drug abuse.

Local Events: Red Ribbon Week

- Monday-Decorate School
- Tuesday-Distribute Ribbons to Students.
- Wednesday-Pledge for "Drug Free"
- Thursday-Wear Red Day
- Friday-Balloon Day

Public Notice

Southwestern Bell Telephone Company has filed an application with the Texas Public Utility Commission to introduce two experimental services called Call Forwarding - Busy Line and Call Forwarding - Don't Answer.

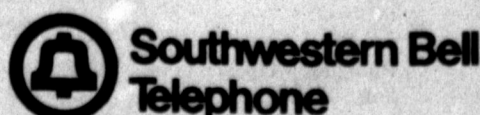

Call Forwarding - Busy Line and Call Forwarding - Don't Answer are optional call management services that will automatically forward a customer's incoming calls to a pre-designated number whenever that incoming call encounters a busy or don't answer condition. These services are for both business and residence customers. The company proposes that the services be available beginning November 19, 1990.

The monthly rates for Call Forwarding - Busy Line and Call Forwarding - Don't Answer are \$1.00 for residence customers and \$3.00 for business customers. The monthly rate for subscribing to both services is \$1.75 for residence customers and \$4.00 for business customers. During this experimental offering period the installation charges will be waived.

Call Forwarding - Busy Line and Call Forwarding - Don't Answer are expected to generate first-year revenues of approximately \$752,000.

Call Forwarding - Busy Line and Call Forwarding - Don't Answer will be offered on an experimental basis in selected areas throughout the state for 12 months. The availability of these services after that time will depend on Southwestern Bell's decision of whether to offer the services on a permanent basis.

Persons wishing to comment on these services should notify the commission by November 9, 1990. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the Public Utility Commission Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf.

THANK YOU

Each of us join Marian Davis in thanking you for your many prayers, cards, flower, gifts, contributions, and other very special kindnesses during her long illness. Marian is progressing well and is anxious to get back home and do all these things she has enjoyed doing with you.

All these prayers and concerns for her recovery are working. Marian, Cagle, Jennifer, and Steven

Beulah Rhoades, the Harold Weatherred, the Larry Becks, the Carlos Rhoades and the Jim Osbornes.

We would like to thank all the people of Clarendon and Donley County for their prayers, cards, and concern during Wallace's surgery and stay in the hospital. Especially Kimberly Care, the paramedics, Medical Center Nursing Home and Martin Baptist Church.

You are all fine people. We are proud to be a part of the community.

May God Bless you and keep you in his care always.

Thanks,
The Sides families and George family

Thank you

To Jerry Carmichael, Gary English, Doug and Nancy Kidd and Carl Klinnert for your help in the St. Jude Bike-A-Thon. It was greatly appreciated. All the people who rode can feel very pleased with your efforts.

A special thank you to The Grocery Store, Thriftway, The Coca Cola Company, Taylor's Food Mart, Stavenhagen Video, Perry's, Greenes, & Bivens Pharmacy, and The Clarendon News. Missy Kidd

DON'T WAIT!
Save Hundreds of Dollars Today!
All of these windshield breaks can be REPAIRED with the Glas-weld System.
Windshield Repair Costs Far Less Than Replacement
• You Don't Have To Replace Your Windshield
• You Don't Have To Remove Your Windshield
• You Don't Have To Go Anywhere!
• You Don't Have To Pay!
But you must act now before that small break grows into a large crack. Call now - before the break spreads, and you face an expensive replacement! In MOST cases it's free! Your insurance company will waive your deductible and pay in full. With NO COST to you.
