LOCAL F. F. A. GETS SECOND CUP WITH JUDGING WIN AT WHITE DEER

The Clarendon F.F.A. club poultry judging team maintained its high standard by capturing first place in the White Deer F.F.A. contest over nine other schools in this section. The victory earned the second consecutive loving cup for the Clarendon team. It recently won the Memphis district F.F.A. club contest.

With 1,561 points, the local club led Friona with 1,534, Miami with 1,503, McLean with 1,469 and Pampa with 1,442. Estelline, Perryton, Panhandle, White Deer and Claude finished down the list.

Cecil White of Friona led the 60 boys in individual scoring with 571. Beatty Hillman, Clarendon, was next with 562. Junior Spier, Clarendon, led the alternates with 529

OUR CHINESE INVESTMENTS.

Now that war clouds are gathering in the Orient, propaganda is being spread to show our nation the alleged importance of protecting our investments in China. Comparable investments of the leading nations in China as summed up by C. Remer's "Foreign Investments in China," are most

He divides the investments as follows: Great Britain, 36.7 percent; Japan, 35.1; Russia 8.4; United States, principally oil companies, 6.1; France, 5.9. This does not include the sale of the Russian railroad through Manchuria which the Japs bought for \$210,500,000 when the Japs took over that section. The Russians saw that they would lose it anyway, and sold it all on a credit. The Japs haven't got around to paying anything on the deal just yet.

Neither does the above include some forty million dollars invested in American churches and schools in China which is being destroyed by the Japs and paid for in apolo-

TWO CITY ELECTIONS IN APRIL.

While other candidates are getting warmed up for the county election in July, Clarendon will have two city elec-

tions, both of much importance to the taxpayers. Candidates for the school board undergo a conscription process because no salaries are attached with the work of the school board.

Places on the city commission carry a salary of thirtyfive dollars a month now which beats nothing as compared with a job on the school board where the grief reaches monumental capacity at times.

Now is a good time to do some constructive thinking in the selection of candidates for these city offices that effect

JAPAN ADOPTS INDIAN TACTICS.

Comes now Japan complaining that she would like to they are spending their money for war material in a process of teaching the Chinese "how to like them." In other words, we are expected to accept Jap made trinkets of little or no value that were a dud in peace times and are much sorrier in quality and value now than ever.

There was a time when the American Indian accepted from the white man trinkets in exchange for valuable products which they controlled, but will the American turn back the calendar and accept the trinkets of Japan in 1938?

Germany and Italy, each busily engaged in fostering a war machine second to none on the Globe, are also wanting to barter with Uncle Sam's children.

In other words, if we are to permit a few to profit from a barter with these nations, the tariff barrier must be broken down and American factories and employees be made to pay the biggest price of any class. Next in line would be our producers of raw materials now consumed in our factories.

royalties retained by him for the state would ultimately make a hundred million dollars for Texas. Of course, he admits this is a gamble; but even if it should turn out to be true then what he gave to a little circle of bidders for one dollar an acre will yield them anywhere from two hundred million dollars to a billion dollars.

In other words, before the Land Commissioner made these leases the state already had all that he retained and more! For a few hundred dollars he has given this small circle of bidders a gamble with hardly any obligation on their part -a gamble from two to thirteen

times as much as that of the state! It is a gamble which cost these bidders only a few hundred dollars, but at a cost to the state of over a million dollars in cash which the state was offered by other bidders!

If the state were going to gamble on oil being under our land, I would perfer to gamble the whole thing and not fritter away threefourths of it for one dollar an acre,

Evidence before the Senate committee further shows that some of the men who were mixed up in the old highway contracts which were broken up by Dan Moody have moved back to Austin and are asking for favors in the land office.

Testimony before the Senate investigating committee this week shows without dispute that Land Commissioner McDonald has issued hundreds of leases on submerged coast lands for which he refused big cash offers bearing the usual 1-16 royalty. Instead he accepted small cash offers, usually one dollar per acre, with an agreement for an overriding, or sliding, royalty if and when oil is produced. In some instances the evidence shows Mr. McDonald has turned down over one thousand dollars per acre cash while accepting one dollar per acre with an overriding

Sales Tax Without Representation

This story has to do with a Muleshoe family that moved recently to Portales where they enjoy a sales tax. The husband went to a drygoods store to buy some undie stuff for the new baby. "Here you are," said the clerk, "one dollar for the birdeye material and three cents for tax." That old Texas boy looked dazed, then insulted, but he looked the young sales lady right in the eye and said: "Maybe you are makin' fun of me but in case you ain't, we don't use tacks on our kids. Just plain old safety

Freedom of the City

A lady in Alabama who expects to move her family to Texas wrote a letter asking about the advantages here. Among the questions, she wanted to know if she could keep a family cow in town. It so happened that she had written a lady who had once owned a flower garden, but not any more. Here is what she wrote to the Alabama lady: "Dear Mrs. Vance, this is a liberal town and you may keep a family cow in town, in fact a whole herd of them if you like. You can also keep mules, horses, burros, dogs, cats and most anything else except a hog. Hogs were voted out when a ditch was prepared down a back alley through town to supply the odor through summer that the hoggens had formerly supplied. For fear of offending our dumb animals, they are encouraged to run at large and visit the neighbor's flowers, gardens and shrubbery. The grazing on the streets and alleys is exceptionally good because the stock runs out both day and night all through the growing season.'

Ways To Hike Cotton Price Are Outlined

Dr. E. R. Alexander, Department of Agricultural Education, Texas A&M College, who addressed the annual meeting of Texas Agricultural Workers association, at Houston, closed this address on ways to increase the price of cotton to the growers, as follows:

How can the per cotton farm

person income from cotton be increased? By increasing the sum paid by the government to producers of cotton, and by continuing paying this sum until the prices of goods that farmers buy are reduced by as much in total dollar value as the amount of the government payment, or by producing teams and besides being satisfied an increasing amount of longer staple cotton, which presumably would not reduce the ratios of "points on" usually allowed for grades about seven-eighths-inch staple middling basis. A third method would completely eliminate "hog-round" buying of cotton. Fourth, railroad freight rates would be lowered so that cotton MAKE THIS QUICK TEST. Lost 10e On Mail

Recently, a local party ordered a bucket from a mail order house for which he sent them only 23 cents, but included il cents for postage. The bucket cost him 34 cents delivered here after a period of waiting.

Order Bucket

Comparing that bucket with one in stock of a local merchant, he found that he could have bought the same bucket here for 24 cents.

That is a fair sample of the 'wonderful" bargains you are offered in the big catalog. The only difference, perhaps, was that the mail order house made an appeal to the purchaser through an advertisement, while the local merchant did not. At any rate, one is often surprised at the saving to be made by buying at home. The price scale above would apply to most any purchase.

There is Always Worship Fellowship :: Service

Good friends, good fellowship, good influence, and God are to be found in ones church service. In fact the church stands for all that is good and high and holy. Whether he is good or bad, ones presence in a church service sets his approval upon the things that are really worthwhile in life. Things of eternal value emanate from the church. Eternal life is offered by the message of the church, which is the Word of God, to all who will accept it. Whether one is good or bad his indifference and absence from church service casts his vote for the influence which would tear down and destroy the church, How can one who claims to be a follower of Christ identify himself with the enemies of the church? On the Lord's day Christ always made his way to the place of worship. Let us be his followers indeed, and we will be found in one of the church services next Sunday making a contribution for the betterment of humanity. Surely we could do no better than invest our lives as Christ invested his. He went about

Regular services at the Baptist also were greatly pleased with his Church Sunday morning and evening. We are happy to believe that don Church, E. D. Landreth, will you will be blessed by coming.

EXOTIC RITUALS

By H. V. Crumley

Matrimony is one of the oldest nstitutions in existence. It, in the beginning, was established by God nd set aside by Him as holy and good. The climax of the whole affair takes place on the wedding night. With all the attendance, the family of both parties, and the Priest who performed the ceremony, housewife notified the sheriff after gathered about, the bridegroom walks over to the bride and gives her an uncourteous kick (to what part of her anatomy it is not known by this writer) and in no uncertain terms, commands her to remove her shoes, as a token of submission and obedience. I feel sure that there are several men and no women, who would be willing to submit to this part of the marriage ceremony of the Nestorians. The ladies will take theirs in saying, to the question of love, honor and obey, "I do."

Let it be remembered, that, although this and other ceremonies, may be strange to us, that ours is just as strange to them.
