Interest Increasing In Monthly Auctions Sponsored By Merchants

SECOND SALE TO BE HELD MARCH 8

MOTHLY AUCTION SALES PROVIDING MARKET FOR FARM PRODUCTS

From all reports given to participating merchants and representatives of The Clarendon News, an increase will be noted in the crowd to attend the second Monthly Auction Sale to be held Tuesday, March 8, at the Fontayne Elmore trading lots at the rear of the Gulf Service Station two blocks east of the business district of Clarendon.

The first sale held Feb. 8 netted farmers and traders of livestock and other farm items over \$800. Sales at the second monthly auction are expected to be materially increased.

All traders and farmers present at the first sale expressed satisfaction in the method which the sales are conducted, and provide a market to farmers and traders for livestock, implements, feed, or other items.

M. L. Putman, well-known auctioneer of Donley county, conducts the auctioning FREE to owners of anything listed for sale. Auctioneer fees have been eliminated, providing the people of the Clarendon trade area with a free market for items they want to sell.

The sales are made possible through the participation of 26 merchants of Clarendon who solicit the patronage of people of the area. Special bargains are offered on Sales Days to everyone.

The plan of operation of the auction is simple: All the farmer or trader has to do is bring anything he wishes to sell to the trade lots where they are auctioned off to the highest bidder free of charge. There are no strings attached and usual auction rules govern the procedure.

The participating merchants are as follows: Clarendon Motor Co., Clarendon Hatchery, Watson & Antrobus, Gulf Service Station, Regan Bain, Parsons Bros., Farmers Exchange, Ben Franklin Store, Wm. Cameron & Co., Inc., First National Bank, O. K. Cafe, Rieger Dry Goods Co., Norwood Pharmacy, Bartlett Food Store and Market, C. D. Shamburger Lumber Co., Mellinger & Rosenwasser, Douglas & Goldstein, Clarendon Grain Co., McElvany Tire Co., Clifford & Ray, Panhandle Service Station, Fontayne Elmore, Castleberry Market, Clarendon Radio & Electric Shop, Geo. B. Bagby, and Clarendon Furniture Store.

LOWE'S STORE TO BE DISCONTINUED

COUCH BROTHERS PURCHASE PART OF FIXTURES; TO OPERATE VERNON STORE

S. W. Lowe, owner of Lowe's Grocery & Market, announced to the public this week that the store would be discontinued here following a food sale which will begin Friday morning. The sale will continue until the stock is diminished.

The Lowe's store was opened in Clarendon March 1, 1918, and for the twenty years of operation has been an integral unit in Clarendon's business area. The loss of this business will be felt by the many people who have traded with the store continuously for several years.

Rhea Couch, who has managed a large grocery store in McAllen for the past two years, was manager of the Lowe store for 12 years. He was succeeded by his brother Phillip (Phil) Couch, who has been employed by the store for 12 years.

Mr. Lowe said the Messrs. Couch had purchased certain fixtures of the store and will move them to Vernon where the franchise has been secured for operation of a Piggly Wiggly store.

In an advertisement in this issue Mr. Lowe, who is also county judge, has an open letter to his customers and friends, thanking them for their friendship and patronage of many years standing.

Judge Lowe and his family will continue to make their home in Clarendon. "No other place could be home to us," he said.

T. H. Stewart visited Mrs. T. H. Stewart in Quitaque over the week-end.

FIRST 1938 SNOW IS RECEIVED HERE

TOTAL MOISTURE SINCE FEB. 14 RECORDED AT 1.13 IN.; BENEFITS FARMS, RANGE

First snowfall of the year was received here Friday, when the entire Panhandle was blanketed in white.

About two inches fell during last Thursday night. Approximately one and one-half inches fell Friday.

Prior to the snow and since St. Valentine Day Donley county had received .67 inch of rain. The

snow has been falling almost uninterrupted the entire morning. Because of the warm temperature the snow has melted as rapidly as it fell. If it remained on the ground it would probably have measured two inches or more at noon. Recorded moisture was .15 inch.

Farmers and ranchers of the county are in good spirits over the moisture received the past ten days.

Deep penetration of the snow Friday added .25 inch of moisture and additional snowfall Monday added .06 inch to boost the total moisture since Feb. 14 to .93 inch.

Deep penetration of the snow rains received here last week and slow melting of the snows were of great benefit to winter season farmers and ranchers say.

Tuesday was clear but slight rain flurries were noted Wednesday afternoon.

Damaged Airplane Repaired Monday

The Aeronca airplane forced down near Goldston Thursday by ice formed on the wings, took off for Prescott, Ariz., at noon Monday, after installation of a new propeller and right landing gear.

The plane, owned by Carl Hickerson, county superintendent, and Floyd Murphy, mechanic, both of Prescott, had been purchased at a Cincinnati, Ohio factory and was being ferried to its home port.

The two pilots said they left Cincinnati on Sunday, Feb. 18, but only got to fly an average of two hours each day because of bad weather and low visibility.

Former Pastor Dies At Canyon

Former Pastor

Last rites for Rev. Franklin Trigg Charlton, 82-year-old pioneer Presbyterian minister of the Panhandle, and former pastor of the Clarendon Presbyterian Church were held Wednesday morning at Canyon at 10 o'clock from the Canyon Presbyterian Church. Rev. Al Dorsett, pastor of the church, officiated, with Dr. R. Thomson, pastor of the Amarillo Central Presbyterian Church, and Rev. E. B. Fincher, pastor of the Elwood Park Presbyterian Church in Amarillo, assisting.

Those from Clarendon to attend the last rites Wednesday were Rev. Robt. S. McKee, pastor of the First Presbyterian Church, and Mrs. McKee and Mrs. A. L. Chase.

The well known Panhandle minister, who left as monuments to his faith many churches in this area, died at his home in Canyon late Monday night.

Rev. Charlton was born in Tennessee, Dec. 7, 1856, in Laverge. He was ordained a Presbyterian minister at Petersburg, Tex., April 10, 1880. He went to Denton in 1898, and in 1902 he became a Presbyterian evangelist for the Dallas Presbytery and was sent to Amarillo.

During the time he was a general missionary in the Panhandle territory, he established many churches, which today stand as a tribute to his long work. In the early days the minister covered the Panhandle by mail hack. During his life he preached in the pulpits of churches in Clarendon, Dalhart and Quanah. He had resided in Canyon for the past 10 years after leaving Clarendon. His wife died several years ago in Canyon.

Survivors include a son, Gordon T. Charlton of San Antonio; two daughters, Mrs. James M. Wise, Amarillo, and Miss Agnes Charlton, instructor at West Texas State College, and his three sisters, Mrs. Jennie Foster and Mrs. May Merrett of Lebanon, Tenn., and Miss Juliet Charlton of Nashville, Tenn.

SCHOOL BOARD TO START TAX DRIVE

\$15,000 NEEDED BY BOARD TO MEET EXPENSES OF BALANCE OF YEAR

The Clarendon Independent School Board, because of burdening financial circumstances, will begin a drive Saturday night, Feb. 26, to raise \$15,000, needed to meet expenses for the remainder of the school term, school officials said this week.

"This amount of money will be collected from delinquent taxpayers," board members said. The board's plan is to meet every Saturday night until school is out, if necessary, and contact every delinquent taxpayer and obtain an agreement for a definite amount each taxpayer will pay within the time specified.

The school board, in adopting this plan, feels sure every delinquent taxpayer will co-operate and save a lot of tax suits and added court costs the announcement.

Aerial Photos Of County Received

A group of aerial photographs of Donley county were received by County Agent H. M. Breedlove last week.

The photographs, taken last March from a height of several thousand feet, will be used in measuring land in the government farm program.

The new method will supplant chain measurements of land cultivated and that rented to the government.

Clearly showing the county in detail, an accurate measuring device will be used to determine the number of acres in a given plot.

THE MODERN JUGGERNAUT OF AMERICA

Suppose that, on a given day, we rounded up nearly forty thousand American men, women and children, herded them into a field, and there proceeded to slaughter them. Suppose that, at the same time, we wounded, blinded, crippled and otherwise harmed several hundred thousand more.

Horrible? Impossible? More barbaric than the barbarians? Of course it is—but, in effect, that is what happens on American highways every year. The slaughter doesn't occur on a single day, but over 365 days. And instead of killing the victims with shell and rifle fire, and gas and grenades, we use that well known servant of mankind which can also be a monster of destruction—the automobile.

If an airplane falls and kills ten people the fact is headlined throughout the country and millions feel a sense of horror. If a ship sinks and 50 men die, the entire world knows it in a few minutes, and world-wide sympathy is extended to the victims and their survivors. But when automobiles crash and people die horribly as a result, we note the fact absently, and turn the page to the comic strips.

Our people are criminally negligent in driving automobiles. And America is criminally complacent in its attitude of more or less bored indifference toward the accident toll.

Juggernaut is no more—but the automobiles more than fulfill its gory role.

HOTTEST CONTESTS IN YEARS FACES TEXAS

It doesn't require particular astuteness to see looming for 1938 the hottest political contests for state offices in many years.

What with Governor Allred feverishly pot-shooting at the Attorney General, the Land Commissioner, et cetera, all candidates for re-election or for higher honors; with the Attorney-General reciprocating in kind and to spare; with the Chairman of the Railroad Commission getting in some powerful licks on his own account, the big show for 1938 is off to the hottest start Texas voters have witnessed in a decade or more. Old Jim Ferguson is occupying a wind-break and cleaning up his artillery and training his sights on anybody and everybody—not that it will net Jim anything—and promises to contribute a little low music to the races as the groundhog grows restless in anticipation of his emergence from hibernation.

A few facts seem fairly certain, Bill McCraw and Ernest Thompson are far and away the main contenders for the nomination for Governor.

Walter Woodul and Judge Yarborough seem slated definitely for the run-off, with Gerald Mann a close third in the race for attorney-general.

Vernon Terrell still seems to wear the blue ribbon in the rail commissioner's sprint.

So far, Land Commissioner McDonald hasn't picked up any threatening opposition to his return to that job. Mack seems to have been the goat of a system he inherited in that office, and while there are some objectionable features to the present land-leasing routine, yet most voters figure that correction can be had without some other politician feathering his nest at the expense of the present Land Commissioner, who, after all has returned a record-breaking sum of money to the state, in his handling of public lands.

Texas candidates didn't wait this year until Old Sol waxes strong and the perspiration starts trickling. They jumped the gun in the mud and snow, and 1938 will go down in history as Texas' most gripping, streamlined, political year in many.

IS THIS TRUE?

Even secular writers can see the drift of the times, and can realize the spirit of humbuggery and deceit among the professed followers of the Lord. The American Guardian believes that if Jesus were to come again in the manner of His first advent. He would again follow His former life: heal the sick, halt and blind, and get jailed for practicing medicine without a license. He would visit the prisons and talk to the inmates and be held on suspicion. He would speak a good word for Mary Magdalene and the woman taken in adultery, and have the vice squad upon His back. He would drive the money changers out of the temples, and be thrown into prison for endeavoring to overthrow the government by force. He would rile up the people and get beaten up by the Red squad. He would preach peace and good will on earth to men, and be denounced as a yellow pacifist by the American Legion, have his naturalization papers denounced by the Supreme Court, and deported by the Department of Labor as an alien enemy. And, how sad, but many professed followers who need their eyes anointed with eye salve would be among the rabble who would mistrust His good intentions.—The Faith.

SIDELIGHTS

By MARVIN JONES

The new farm bill will be of much benefit to the great Southwest. That a farm program is desirable is manifest to every thinking person. Anyone with even a short memory can recall the days of five cent cotton and twenty cent wheat, ten cent corn and three cent cattle. These prices wrecked business and industry everywhere by destroying the purchasing power of the farm and ranch, thus causing millions of blameless people to walk the streets in idleness.

One of the features that is especially desirable for the South and Southwest is the one which makes the payments to the farmers who conserve their soil regardless of whether there is actual production. Representatives from many sections wanted payments to be made only on actual production. Of course, such a program would have reduced the payments in drought years to almost nothing just at the time when they are most needed.

Fortunately that payments should be earned by the acreage planted and the soil treatment, regardless of whether the land actually produced a crop during the year. This provision will mean millions in added benefits to the Panhandle and Southwestern area.

In addition, the allotments will be on the basis of seeded acres rather than on the production.

Another feature that means much to our section is the provision for a range program. This has been so adjusted that it can apply to the non-crop lands and pasture lands on the small farms.

Another matter of prime importance is the provision for an effort to secure a better freight rate structure for farm products. There has been entirely too much discrimination against agricultural products in the freight rate schedules that have been approved by the Interstate Commerce Commission. Heretofore there has been no one whose business it was to see that these discriminations were removed and that proper adjustments were made so that a larger percentage of the ultimate price paid by the consumer would go to the producer.

Our section of the country has been peculiarly fortunate in that we have been able to secure in the farm bill a provision which takes care of droughts and crop failures

and that we have also been able to secure provisions that protect in every practicable way the live stock producer as well as the farmer.

The question of the success of the measure will depend largely on the co-operation of the farmers and live stock producers in whose interest the legislation has been passed. They can do much to help make it a success and of course no measure can succeed without their support.

Amendments may be necessary from time to time but the movement for a square deal for the producers of farm and ranch products must go on.

TO OUR CUSTOMERS AND FRIENDS OF CLARENDON TRADE TERRITORY—

First of March, 1918 a deal was closed which resulted in the operation of the place of business known through the years as Lowe's Store. Contact during these twenty years has so developed that we have hesitated long in coming to the decision finally reached. This decision is after considering many conditions that this business should come to a close.

Personally I have no other thought except to continue to make Clarendon and Donley County the home for myself and family. So far as our feeling is concerned no other place could be home.

Rhea and Phillip Couch have made a trade with me for certain fixtures of the store, and they have decided to move them to Vernon where the franchise has been secured for the operation of a Piggly-Wiggly Store.

I am unable to choose words that express, in the way that I want to express it, the deep feeling of love and appreciation that I have for our many customers. Permit me to mention that there are at least six and, perhaps, more who have been so loyal as to pay the store a check or its equivalent, each month for twenty years.

Please accept my sincere and heartfelt thanks for every consideration of the past and also let me express the hope that the future will deal gently and kindly with you and yours.

Most Respectfully and Sincerely Yours,
 S. W. LOWE

PLEDGE: I shall attempt only those things which I think worthwhile. To those things I shall give all that I possess of knowledge, ability and courage. If after giving all of these, I fail to accomplish my purpose, I shall stop and acquire more knowledge, more ability and return undaunted to the task at hand.

Monday February 21—We wonder on mornings like this, why there is no law compelling everyone to drop their work and go rabbit hunting.

It seems that if the weather doesn't clear up a little bit it will be rather disagreeable for our county meet next month.

The people of this community have been very lucky so far this winter, there hasn't been much sickness or bad colds, but that is no sign that we won't have any sickness, but we are hoping that there won't be any illness.

We don't know whether it's moisture, spring approaching, or their wives chasing them out of the way, but we do know that you had better hit a livelier step when "Dad" starts giving the mules an extra feed a day, howling bloody murder over the disappearance of all his wrenches

and punching a stick all over the place to see if the moisture is going any deeper.

Both of our society news and sports news are snow bound this week.

CLASS REPORTS

Primary grades: The primary room is working on a health program for chapel Friday evening.

The children in the second grade are making Washington booklets for study in activity work this week.

Mary Ruth Shannon was a pleasant visitor in the primary room Monday.

We are very sorry that Jimmie Nell Parker is absent because of illness.

Intermediate Incidents: The Fifth grade students are studying fractions and are so thrilled over them they can hardly wait for each day's recitation.

Due to the bad weather many of the intermediate pupils were absent Friday, and Monday morning every one was busy asking every one else what his or her lessons were.

The third grade has made a wheel-chart that is used in one column addition. It is hard to tell whether Duke, Charlie, or Luther, can add the fastest when they play "Spin the wheel."

High School: The 8th and 9th grades have taken up a new study. It is Prose and Poetry and it is liked by all the students.

THE CHOICEST ARE USED

As I walked out one morning for pleasure,
I spied a cow-puncher all riding alone;
His hat was thrown back and his spurs was a jingling,
And as he approached me he warbled this song,

Whoopee ti yi yo, git along little dogies,
It's your misfortune and none of my own,
Whoopee ti yi yo, git along little dogies,
For you know Wyoming will be your new home,

Your mother she was raised way down in Texas,
Where the jimson weed and sand-burrs grow;
Now we'll fill you up on prickly pear and cholla
Till you are ready for the trail to Idaho.

Whoopee ti yi yo, etc.

Early in the spring we round up the dogies,
Mark and brand and hob off their tails;
Round up our horses, load up the chuck-wagon,
Then throw the dogies upon the trail.

Whoopee ti yi yo, etc.

—From WHOOPTEE TI YI YO

When the yearly round-up comes, the choicest animals are cut out of the herd to be fattened for market. From them comes the nation's best beef. The poorer specimens—the luckless dogies—must hit the long trail to graze and seek their own food . . . Out of all the coffees the world market affords, Duncan selects the choicest beans, to be blended and roasted and packed under the name of **Admiration Coffee**. Today, **Admiration** outsells any other coffee in Texas. There is just something about its aroma that makes you want to buy it and something about its flavor that makes you keep on using it.

AT THE FIRST BAPTIST CHURCH

There Is Always Worship Fellowship—Service

The day has dawned when duty demands that people practice what they preach. That has always been true, but it blazes abroad in big headlines now as never before. Insincerity has caused many a rebellion. Sincerity is one of the supreme virtues of the soul and if given a chance to express itself will rectify the wrongs in human life and amongst nations. We are exhorted to fight the good fight of faith, and profess the good profession of Christ, thereby laying hold of the hope eternal. All fights are not good fights, nor are all professions good professions, but the fight of faith and the profession of Christ are both good and should be primary in every life. Faithfulness to your church will help you to fight the good fight of faith. Attendance of the preaching services in your church will greatly encourage the profession of faith in Christ as your Savior. Churches are always happy to have people present in all of their services. Do not neglect church attendance.

Regular services Sunday at the Baptist Church. Objects that equal each other equal the same thing. We believe that you will be happy in the coming and we know that your presence will be a delight to the church.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—The decision of the United States Supreme Court in the celebrated Laredo gas rate case, together with another decision expected during March in the equally long-drawn out Lone Star gate rate case, is expected by members of the Texas Railroad Commission to affect directly the gas rates paid by hundreds of thousands of gas consumers in several hundred Texas towns, cities and villages throughout the State. The Laredo decision was a complete victory for the State, upholding, according to Rail Commissioner Ernest Thompson, the method and procedure utilized by the Railroad Commission in determining valuation of gas properties and fixing rates. The Lone Star case, affecting 300 towns, Thompson says, followed the pattern laid down in the Laredo case, although there are different legal questions involved. The battle to lower gas rates, instituted by Thompson shortly after he took his place on the Railroad Commission, has been bitter and lengthy, and that it must be fought out to the bitter end was indicated at the week-end, when subsidiaries of the Lone Star Companies obtained from Judge W. L. Thornton in District Court at Dallas, a temporary injunction restraining the commission from assuming concurrent jurisdiction with incorporated towns and cities in rate matters. The Commission contends it has under the State law, concurrent jurisdiction, while the gas company asserts only the cities and towns may regulate rates.

The Laredo case furnished political ammunition for both Thompson and Attorney General Bill McCraw, both gubernatorial candidates, as Thompson wrote the Laredo order, while McCraw defended it in the supreme court.

HONOR ENOUGH FOR WOODUL
"Never again, I hope," remarked Lt. Gov. Walter Woodul as he ended his sixteenth term as Acting Governor of Texas, breaking all records in the history of the State. The return of Gov. Allred from President Roosevelt's luncheon in Washington enabled Woodul to return to his campaigning for Attorney General. During his 16 terms as Acting Governor, the Houston spon had opportunities to name many colonels, cut a few ribbons and make other public appearances which ought to prove helpful in his campaign for Attorney General.

POLITICAL SCENE MUDDLED
Awaiting further action by the principles in the Governor's race, Austin seethed with rumors this week, as Gov. Allred and Attorney General McCraw, back from Washington, exchanged further verbal barrages. The Senate investigating committee moved on to Dallas to resume its probe of the Land Office, the issue that has furnished most of the political fireworks for several weeks. Allred appeared winner of the preliminary rounds, as Land Commissioner Bill McDonald has cancelled two of the disputed oil leases on State lands, while McCraw filed suits to cancel nine others—as demanded by Allred.

The hotel lobbies buzzed with rumors that Allred was preparing to announce for a third term, and the Governor declined to comment. He took a final shot at McCraw, as he made reference to McCraw's reputed former Klan activities.

JUST HUMANS

"I Thought You Were All for Peace, Then You Throw a Brick at Casey?"
"That's Why I Threw th' Brick!"

activities, when he told correspondents asking about his plans: "I'll wait until Bill McCraw comes out from under his bedsheets."

The Governor gave further evidence that the Federal judgeship issue is not entirely out of his mind at his press conference, when he remarked, commenting upon his advice to the San Antonio pean strikers to seek a court injunction against police interference with their pockets:

"The Rangers couldn't do anything to help them. What they need is judicial authority—and that is something I haven't got yet," the Governor said.

PENSION METHODS QUESTIONED

Of particular significance to Texas politicians who are urging "pensions for everybody" was the announcement from Washington this week that State officials of Oklahoma have been summoned by the Federal Social Security Board—which puts up half the pension money in all States—to show cause why they shouldn't be deprived of Federal pension funds because of failure to obey the Federal regulations. The Security Board charges that Oklahoma's administration of its pension law has been lax and discriminatory, newly aged being denied, and persons not needy drawing pensions. Oklahoma has the highest percentage of aged persons receiving pensions of any State in the Union, with Texas ranking a close second. Any relaxation of the Texas regulations, State officials claim, will result in cutting off of the Federal pension aid, amounting in Texas to about \$9,000,000 a year. The Texas pension roll numbers around 113,000 persons at present.

TEXAS OFFICIALS PROTEST

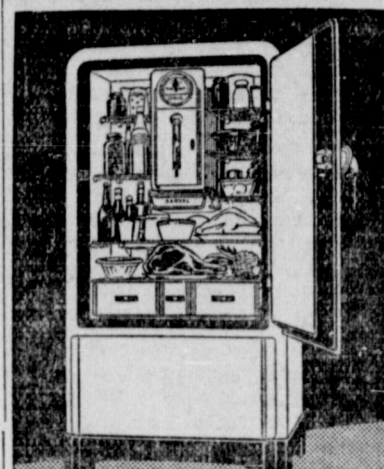

Protesting against a resolution by Senator Nye in Congress, which would transfer control of all coastal water to the Navy Department, several Texas officials were in Washington this week. With potential oil production owned by the State worth many millions of dollars under submerged coastal lands off the Gulf coast, Texas has an enormous stake. Lawyers here say the Federal congressional resolution, which has already passed the Senate, would be unconstitutional so far as Texas is concerned, since coastal waters were specifically reserved under the treaty of annexation when the Republic became a State, but they are sure a long, costly court fight would be necessary if Congress passes the resolution. The protesters included Land Commissioner McDonald, Attorney General McCraw, Ghent Sandford of the State school board, and numerous representatives of oil companies.

Rev. and Mrs. J. Perry King and son, John Burton, visited in Amarillo Monday with Mrs. King's sister, Mrs. H. B. Fain.

Mr. and Mrs. B. P. Thigpen of Childress visited their daughter, Mrs. Lee Bell Tuesday.

WHAT NEXT?

This isn't a new permanent wave machine—quite the contrary. It's a frying pan, with a new angle—or rather curve. Bacon cooked over that trick half-cylinder and restrained by the wire rack which clamps it, comes out in crisp, uniformly flat ribbons. Instead of in cork-screw curls. Ham is restrained from its concave tendencies when broiled on the device.

Mrs. Patman Hostess To Needle Club

The home of Mrs. J. T. Patman was the scene of a delightful occasion when she was hostess to the members of the 1912 Needle Club Thursday afternoon.

Beautiful pot plants were used to decorate the reception rooms and added a festive note to the afternoon.

Visiting and needle worked furnished diversions during the afternoon after which the hostess served a delicious two-course luncheon to Mrs. George Ryan, Mrs. Ruth Kennedy, Mrs. Carol Knorpp, Mrs. C. B. McCanne, and Mrs. Harry Brumley, guests; and Mrs. L. S. Bagby, Mrs. A. L. Chase, Mrs. Dishman, Mrs. Minnie Dyer, Mrs. J. W. Evans, Mrs. Homer Glascoe, Mrs. B. L. Jenkins, Mrs. A. R. Letts, Mrs. A. A. Mayes, and Mrs. J. T. Sims, members.

Jimmie Chilton spent Sunday in Vernon.

Celebrates Fourth Birthday

Mrs. W. O. Hommel honored her little daughter, Patsy Jean on her fourth birthday with a party at her home last Friday, Feb. 18. Misses Alice Price and Misses Lois Heatherly assisted Mrs. Hommel in entertaining.

George Washington decorations prevailed throughout the party. Stories of George Washington were read to the children. Games were played, one being to find the lucky cherry contest. The winner was Mae Morris.

George Washington baskets filled with candy and miniature hatchets were given to the little guests as favors. A lovely three-tier angel food cake decorated with red, white, and blue was cut and served with ice cream topped with cherries to Leota Laverne Carlie, Sammy Joe Lowe, Buster Bain, Mae Morris, Biffy Dee Blair, Chauncey Hommel, Betty Ann Speed, Vendell Hommel and the little honoree, Patsy Jean Hommel. Several who were unable to attend sent gifts.

Mr. and Mrs. Heath Host To 42 Club

The members of the Forty-Two club were delightfully entertained at the home of Mr. and Mrs. Frank Heath, Tuesday evening, February 22.

Commemorating George Washington's birthday a red, white, and blue color scheme was noted in the decorations arranged for the affair.

After a period devoted to games of forty-two a delicious refreshment course was served to Mr. and Mrs. Ralph Keys, Mr. and Mr. Marvin Warren, Mr. and Mrs. Ralph Andis, Mr. and Mrs. Van Kennedy, Mr. and Mrs. Beveridge Brents, Jimmy Frank Heath, and the host and hostess.

Needle Club Enjoys Lovely Party

The members of the Friendship Club met Tuesday afternoon at the beautiful country home of Mr. and Mrs. J. A. Meaders with Miss Katie Meaders hostess to the group during the afternoon.

Lovely winter flowers were used to decorate the rooms throughout the house.

Mrs. C. R. Skinner, president of the club, opened the meeting with the club prayer after which Mrs. M. E. Thornton read the scripture lesson. Members answered the roll call by repeating Bible quotations.

A most enjoyable afternoon was spent with the ladies engaging in sewing, fancy work, and visiting. During the social hour the hostess served dainty refreshments to Mrs. Elba Ballew and little daughter, Elba Jean, guests; and to Mesdames L. Ballew, Eva Womack, M. Tyree, J. A. Meaders, Glenn Williams, M. E. Thornton, G. J. Teel, C. R. Skinner, members.

That Neel Thompson tops the "Boy Friend Wanted" list? That Joe Frank adopted Marjorie Beverly as his lil' sister? How Billy Patman can be so girl-shy? Why Margaret Higgins and Winston Nippert think they have found a secluded place in C. H. S? What has happened to Jack Reeves and Louise Russell? What kept Mable Johnson and Clyde from having a good time Saturday night? That Weldon Warren and Joyce McCrary seem to get no where with the girls? Why "Cactus Kate" Carlisle sang such beautiful songs Sunday night?

THE SPECTATOR: Has Dorothy Jean decided to quit driving for a while or did someone decide it for her? We make a motion that fire drills come more often and last longer. Hadn't Waldron Melton rather talk football than play it? Oscar Butler wishes that the periods would last longer or else have all the classes in one room as going to the different classes disturbs his sleeping. For a while sled riding was Colie Huffman's favorite sport.

JUST WONDERING: We would have a better Broncho page if everybody would contribute half as much as Rayburn Smith, Jr. Why doesn't Mr. Larimer get his name in the paper any more? Bob Austin still talks in English. Some boys still misbehave and have to be whipped by Mr. Stewart. Miss M. Taylor has been conducting an experiment in Electricity. Just ask the chemistry laboratory boys if you don't believe it. Will Theresa Bain allow herself to be kissed by R. W. Bingham (in the play)?

PARDON ME PLEASE: The snow has helped a lot, even if it only got our mind on snow balling. We are just begin-

ning to have our winter now. Well Seniors, it will soon be time to start on your memory work. It is a good task. Never tell yourself that you can't do it. It has been done. JUNIOR-SENIOR BANQUET DATE SET FOR MARCH 2

The annual Junior-Senior banquet will be held Wednesday, March 2, in the Home Ec department. Tickets will be sixty cents each. Phebe Ann Buntin president of the senior class will preside at the banquet. A committee is now at work on plans for the program.

Had you ever stopped to think how many people in C. J. C. and C. H. S. are related to each other? There are some rather surprising relationships. For instance, Billie Headrick is the nephew of Miss Headrick and Peggy Jo and Al Word are nieces and nephew, respectfully of Miss Howren, not to mention that Mary Charlotte Word is a cousin of the Words. Madlyn Taylor and Allen Patman are cousins, as are Theresa Bain and Claudine Pearson, and Pat and Carl Morris, and Jane and Dorothy Kerbow, and Mildred Atteberry and Phebe Ann Buntin, Nell Cook and Jessie J. Tomlinson, Skeeter and Emily Davis.

DEBATORS WORKING FOR COUNTY MEET

Jane Kerbow, Wanda Nell Smith, Jimmy Thompson, and Jack Reeves are the debators to represent Clarendon High School this year at the County Meet. These teams are now engaged in doing class work. Last Monday they had a practice debate, all of the speeches being given extemporaneously. Plans are now being made to debate Memphis about the middle of March and to attend the Eighth Annual Speech Tournament in Amarillo on March 26.

SCIENCE CLUB MEETS

The Sigma Delta Chi Science Club held its regular bi-monthly meeting Wednesday, February 16. A brief business meeting was held, and then the group played forty-two. Refreshments of crickets and cocoa were served to the following members: Randall Acord, Raymond Wood, Howard Strawn, Allen Patman, Marian McCormack, Christine Knox, Nell Cook, Jeanne McDonald, Mr. Stewart, and a guest, Muri Lamb.

The personalities described last week were: Earl Porter, Pauline Betts, and Billie Cooke.

The College student described this week is a sophomore boy. He has brown hair and brown eyes. He is a prominent science and math student, and is noted for being energetic in whatever he undertakes. He seems to prefer brunette high school girls, as he has gone with two steadily the last two years. He lives in the country but has always gone to school in town.

The last person is a short, blond senior girl. She is noted chiefly for her wit, which is somewhat on Gracie Allen's style, only not quite so dumb. She always has a bright remark to suit any occasion and person.

TWO CONTESTANTS ARE SELECTED FOR LEAGUE

Two of the contestants have been selected for the Interscholastic League contest. Maxine Ellis was chosen to represent the school in the essay writing contest in an elimination held Thursday, February 17. Christine Knox being the only entrant in the extemporaneous speech contest will be the representative.

LIBRARY NOTES

(By Mrs. C. A. Burton)

"A home without books is like a house without windows."

Mrs. M. M. Noble brought us quite a number of books, largely books of reference, but containing some most welcome standard fiction and some religious books, all of which we appreciate.

Interest has grown in our used magazines. We invite your inspection and patronage, as well as your contributions of late numbers. Many new readers have come to us with the new year, and increasingly, the library is being used for more serious work as well as for general reading. Lin Yutang in "The Importance of Living" says, "There are two kinds of reading, reading out of business necessity, and reading as a luxury. The latter is like a walk in the woods—one brings home a brightened face and lungs filled with good clean air. While reading is not cosmetics, it creates more charm than a beauty shop."

Again a few new books for you to enjoy: "The Years," Virginia Woolf; "And So — Victoria," Vaughn Wilkins; "The Return to Religion," Link; "The Voice of Bugle Ann," MacKinlay Cantor; "Mrs. Meigs and Mr. Cunningham," Elizabeth Corbett; "Sam Bass," Gord; "Of Lena Geyer," Marcia Davenport; "White Oak Harvest," Mazo De La Roche; "The Sound of Running Feet," Josephine Lawrence; "Speeches and Recitations for all Occasions," Emily Rose Burt; "Early in the Saddle—Frontier Stories of the Great Southwest;" "The New Select Speaker for Little Folks;" "Trail Drivers of Texas;" "Selections from Walt Whitman;" "Thrilling Tales of American Pioneers;" "Among the Fur Traders," James Otis; "Young Continentals at Bunker Hill," John McIntyre; "The Citadel," A. J. Cronin;

"Family Style," Karle Wilson Baker.

"The Citadel" continues to lead all lists of best sellers everywhere. It has already been translated for publication in eleven other languages. Frank Swinnerton's prediction when he reviewed it for the London Observer, that it would take the town, the country, the English-speaking world, has come true. Dr. Hugh Cabot of the Mayo clinic says, "There is no important situation which he draws, the counterpart of which can not be found in this country." Time Magazine says, "A brilliantly bitter attack by a man in dead earnest," while United Press says, "As powerful as adrenaline, as dramatic as an emergency operation, and as penetrating as a lancet."

It is the story of a young English physician who begins his work with the exaltation of high endeavor but who almost loses his ideals through contact with those of his profession without ideals. Christine, the young wife, understanding, helpful, is a rarely fine type. The story is a scathing indictment of certain aspects of the medical profession, a story with a purpose, which cannot leave the reader unmoved—written by a doctor who knows and loves medicine—and people.

Richard Haliburton, author of "The Royal Road to Romance," "The Seven League Boo's," and "This Glorious Adventure," is making a coast to coast lecture tour in which he appeared Saturday night, February 12, at N. M. M. I. at Roswell. The first two books mentioned are on our shelves.

Bertita Harding, author of "Phantom Crown" and "Golden Fleece," both historical novels about the crowned heads of Europe written the last century, has written another which will be published in March. It is to be entitled "Farewell, Poinette," dealing with an episode in the early life of Marie Antoinette. Josephine Lawrence rather startled the reading world with

the keenness of her analysis of human motives in "Years Are So Long," a story of family relationships which touches every home. She followed it with "If I have four apples," a story of an American family which tried to make 2 plus 2 equal 8, a story wonderfully human in its characters. Then came "The Sound of Running Feet," a story with a more ambitious theme, our subtly interlocking private and business lives and our personal hopes and ambitions. These three are on our shelves. And now Josephine Lawrence comes with another of her intensely human interest stories, "Bow Down to Wood and Stone." To this story the critics are not so kind. It is a story against the very human sin of self-sacrifice which is only a form of self-righteousness on the part of those who take joy in carrying burdens. It is the story of three sisters and covers a period of twenty years, and in it she collects an amazing group of portraits from life. Here she exhibits to an unusual degree her ability to catch the essence of a character in a few sentences. John Grulle, cartoonist and author, died at his home in Miami Springs, Florida in January, aged 57. He endeared himself to childhood everywhere with his "Rag-gedy Ann" stories. There's a right and wrong way TO SHOVE WITH YOUR CAR! YOUR MILEAGE MERCHANT ADVISES... Try to have the two cars slightly "staggered"—not exactly in line with each other. This often helps if bumpers lock, especially when the car with its bumper below can reach a drain or similar depression. Another way is for the car with its bumper on top to get up on a curb or "hump." All of that is "just in case." Now ask the poor fellow who wants your help to get into HIGH. Tell him to keep his clutch pedal down, letting it come back gradually only after you get his car under way. Do your pushing with your LOW gear. That's easiest on your car...for half a block. Then if the other fellow's car hasn't started, have him get into neutral and push him up to a nearby Mileage Merchant for Special Winter Blend Conoco Bronze like yours. That can't help but get him started... (the Mileage Merchant will know what to do if the battery has entirely given up the ghost). And then the rightest way to dodge further battery trouble, dangerous oil dilution—and embarrassment—is to make a point of getting sure-starting Conoco Bronze all winter! Continental Oil Co. W stands for
The Waffle-when eaten

Company in the evening? For breakfast? For lunch? It doesn't matter when! The waffle is America's "all-hour" meal, equally tempting morning, noon or night. And it is the tasty delight that can be prepared on an instant's notice from things always on the kitchen shelf.

That is—if you take care to keep a bottle of rich, golden maple syrup on hand at all times. Without that clear glass container right there on the table, inviting your guest to eat more . . . and then more . . . even the brownest, crispest waffles are sometimes not tempting. Let them see the syrup.

Here are a few waffle recipes for your "hurry-up" file. Swimming in luscious syrup . . . mmm! You'll say "W" stands for Wonderful, as well as Waffle!

Golden Waffles
1 1/2 cups flour
1/2 teaspoon salt
3 teaspoons baking powder
1 cup fresh milk
2 eggs
1 tablespoon butter

Mix flour, salt and baking powder, add milk gradually, then eggs which have been beaten very lightly, and melted butter. Be sure both sides of waffle-iron are very hot, and well greased. After bak-

ing each waffle, heat iron a minute before pouring in batter.

Rice Waffles
1 cup rice
1/2 teaspoon salt
1 1/2 tablespoons butter
4 cups flour
3 cups fresh milk
2 eggs

2 teaspoons baking powder
Cook rice, drain, and add salt, melted butter, milk and beaten eggs. Mix well. Sift baking powder and flour together and add to first mixture. Bake in hot waffle iron.

Cheese Waffles
2 cups sifted cake flour
2 teaspoons double-acting baking powder
1/2 teaspoon salt
3 egg yolks, well beaten
1 cup fresh milk
4 tablespoons melted butter
3 egg whites, stiffly beaten
1 cup grated cheese

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg yolks, milk and butter. Add to flour, beating until smooth. Fold in egg whites and cheese. Bake in hot waffle iron. Place a slice of grilled tomato on each section. Diced uncooked bacon may be sprinkled over batter before closing iron. Makes 4 four-section waffles.

DO YOU KNOW—

That dodging the splash is a new motorcycle sport in Scotland. A bucket of water (holding about 2 gallons) is mounted on a board in the air and the rider-passing beneath tips the bucket over. On the speed of the machine depends the degree of ducking the rider receives.

MEMBER how crude the old family bus of a decade or so ago seems today? Cost three or four times as much to operate as the present efficient machine. Well, Sir, the same is true of electric refrigerators. They blazed the trail, bringing the greatest domestic improvement of all time into every other West Texas home by 1937. So now, in 1938, there is no comparison with those pioneer models. Electric refrigeration of today gives absolute food protection with temperatures around 40 to 45 degrees—the only safe temperature. No other form of mechanical refrigeration can offer this guarantee at any price. But Electric Refrigeration gives that guarantee at a cost which drops to less than 3 cents a day!

ARE YOU ONLY A 3/4 WIFE?

MEN because they are men can never understand a three-quarter wife—a wife who is all love and kindness for three weeks of the month—but a hell-cat the fourth.

And make up your mind men never will understand. There are certain things a woman has to put up with and be a good sport. No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood into womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife. Take Lydia E. Pinkham's Vegetable Compound and go "smiling through." Over a million women have written in reporting benefit. Why not give this world-famous medicine a chance to help YOU?
