CLEAN-UP WEEK IN CLARENDON

In Clarendon, as in all sections of Texas, it is Clean-Up Week. Mayor Patrick has offered to have a city truck haul off all trash and debris. All the citizens have to do is to collect and pile the trash in an accessible place on an alley, and phone the city hall to send the truck for it. It's very simple, and affords every citizen an opportunity to help keep Clarendon one of the cleanest, tidiest, most attractive residential cities in the Southwest.

Clean-up, folks, and do it this week while the city affords this fine service.

A FEDERAL REQUIREMENT

Last week The News gave Karl Crowley, federal employee, an avowed candidate for governor of Texas, a free trip. We advised him not to resign his federal post with such a comfortable salary.

It now develops that there is a federal department order requiring any employee becoming a candidate for any office by election, to resign his post with the government.

All the News would like to add is that we double the emphasis on our free tip of last week. Don't resign your federal job, Karl—Texas politics is tricky to a newcomer.

A LESSON OF UNIVERSAL WORTH

When we consider the wonderful victories that come to those who will not be licked—that hold on and fight when it appears that there is no hope of victory, we cannot but recall that classic statement of James J. Corbett, who said: "Fight one more round. When your feet are so tired that you have to shuffle back to the center of the ring, fight one more round. When your arms are so tired that you can hardly lift your hands to come on guard, fight one more round. When your nose is bleeding and your eyes are black and you are so tired that you wish your opponent would crack you one on the jaw and put you to sleep, fight one more round—remembering that the man who always fights one more round is never knocked out."

APPRECIATION OF A CHIEF ASSET

Those who heard Judge Porter's address at the union College Night service at the Baptist Church last Sunday evening, got a renewed view of the very fine opportunity Clarendon has to enjoy school facilities far beyond their cost to this community.

They also got a deserved jolt as to some very present careless lethargy and presumption in community attitude about school affairs, with an urgent appeal for more interest in this, one of the chief assets of our city and community.

Let us properly evaluate our fine facilities in public education here and let us back the school board and staff of teachers in their splendid efforts to maintain the highest order of school service.

Let us openly and substantially appreciate our schools—certainly one of the chief assets of the Clarendon community.

SUBSIDIZED

Although he's a little late in getting 'round to it so far as his personal fortunes are concerned, we think Governor James V. Allred's definition of "subsidized press" should be emphasized right now, what with Karl Crowley and others charging "the press" will be bought in the coming election:

"A subsidized newspaper is any newspaper that's against you,"—State Observer.

WHY I BUY FROM MY HOME TOWN MERCHANT

Because, I have the interest of my hometown at heart and know that if we citizens trade with each other, the future of our town is safe.

Because, I have confidence in him and the articles he sells. He is my friend and he will not misrepresent his merchandise to me. If a mistake occurs, he will make it good. He can not afford to do otherwise.

Because, he must maintain the confidence of his fellow townsmen to succeed. He is not like the "fly-by-night type" who can betray the trust of a community and when discovered, move to new fields with new prospects to deceive. Or, the mail order house with the unfavorable opinion of one community of no great importance.

Because, he knows his particular line of business and I don't. If a hardware dealer, he knows the factories and wholesalers whose product is dependable. If a druggist, he knows the pharmaceutical house whose compounds are pure and safe. If a clothing merchant, he knows the manufacturers who use only good material and guaranteed workmanship.

Because, if I buy from some itinerant peddler, or through the mails, I would be easy prey for the unscrupulous with my limited knowledge of his merchandise. My home town merchant stands behind his product.

Because, I know the product he sells is worth 100 cents on the dollar and he is making only a reasonable profit which I want him to do. He earns this profit and must have it to continue his business from which I receive both a direct and indirect benefit.

Because, it is the wise, profitable, and unquestionably the best thing to do.—Contributed.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—With Karl Crowley of Washington, solicitor of the Postoffice Department, definitely entered as a candidate for Governor, and Bill McCraw and Ernest Thompson at work on platforms which they expect to make public within ten days, the week-end saw the Governors' race in Texas pretty well shaped up. Only the action of Jim Ferguson planned to take remained a doubtful factor. The Ferguson enthusiasts insistently circulated reports here that Mrs. Ferguson will enter the race, and will make her announcement "in a few days," but this is the same story they have been telling in the Austin Hotel lobbies for weeks. Some newspaper speculation that "Farmer Jim" might support Crowley was heavily discounted here, because Crowley's announcement, if it reflects what he believes in, is diametrically opposed to most of the things that Ferguson stands for. Of late years, Ferguson has advocated the sales tax, almost to the exclusion of every other issue. There was nothing in Crowley's announcement to indicate he embraces the Fergusonian school of political thought. As a lone wolf, the experts here do not concede Crowley a place as a leading candidate, unless he surprises the folks and turns out to be a super-campaigner. His slashing attacks upon utilities and natural resource developers are not calculated to enlist the interest which contribute most liberally, as a rule, to campaign funds, and even the candidate himself did not appear to be very hopeful of his success. His talk of \$2,000,000 campaign funds for Thompson and McCraw drew a laugh, and McCraw, talking off the record, remarked: "If he'll show me where there is a \$2,000,000 campaign fund, I'll give him half of it, and get out of the race."

MCCRAW OFF TO FLORIDA

The Attorney General was scheduled to leave the state for several weeks about April 11, to appear in a hearing on the Green estate tax case at Miami, Fla. He was planning to announce his platform before he leaves, and resume active campaigning soon after his return.

Thompson, preparing also to announce a platform, was busy making arrangements for the opening of his campaign at Waco, April 12, where supporters from many Central Texas counties will gather to hear him fire his opening gun. Crowley has returned to Washington, to wind up his affairs and resign from his Federal job, since Federal regulations require such action when employees enter an elective political race.

PHARES IS OUSTED

Capt. L. G. Phares, organizer and chief of the State Highway Patrol, fell victim in the political storm which has broken about

his head several times in recent years this week, and was removed from the Highway Patrol job by the Public Safety Commission. He will be assigned some inferior post in the department, members of the commission said. Capt. Homer Garrison, who has been Phares' aide, was named to succeed him. The Commission reported he was removed for "incompatibility and a lack of cooperation with other units of the Department." The action is an aftermath of the bitter political rivalry that has existed between the Highway Patrol and the Rangers, ever since they were combined under one directing head. Phares was named first director of the department of public safety, but only after a bitter fight made by Rangers and their friends, and he finally succumbed to this pressure and resigned after a short service, returning to the Highway patrol job. Phares, 31 at his home, has asked the Commission for a full explanation of his removal.

COL. HOUSE PASSES

Simple burial rites of the Episcopal Church, with burial at Houston for Col. Edward M. House removed from the Texas political scene one of its most influential figures, following his death in New York. Col. House, a mysterious figure who disliked publicity, was the "maker" of three Texas governors, and rose to be the closest friend and adviser of Woodrow Wilson, in whose cabinet he placed three distinguished Texans. President and Mrs. Franklin Roosevelt, and many high ranking foreign officials, sent floral offerings for the final rites of the soft-spoken Texan who wielded a powerful influence in national and international affairs after graduating from his political apprenticeship in Texas.

NAMES AND NEWS

The Court of Criminal Appeals sidestepped passing upon the eligibility of Judge Harry N. Graves, when it ruled the contest of Graves eligibility brought by Waxahachie attorneys, contending he couldn't sit on the court because he was a member of the Legislature that raised the pay of the judges, was without standing. Lawyers here say the only way "Graves' eligibility could be attacked would be a quo warranto proceeding by the Attorney General, and few believe such an action will be brought. . . . The Federal Bureau of Public Roads has approved highway projects in Texas costing \$15,900,000, on which the U. S. matches the State funds, for the 1939 program starting July 1. The Highway Department is several months ahead of last year in preparing its road plans for the new 1939 program. . . . Rail Commissioner Ernest Thompson, who offered to go to jail in a contempt case brought in a Dallas District court in connection with litigation by the Lone Star Gas Co. to keep the Rail Commission from aiding El Paso and other cities in a gas rate battle, won't have to go to jail, after all. The fifth Court of Appeals held the Dallas court had no jurisdiction, and the

litigation will have to be brought in Travis County courts, upholding the contention of the Railroad Commission. . . . Karl Hoblitzelle, theatre magnate and civic leader of Dallas, has undertaken to head up the movement to raise \$500,000 by public subscription, with which to finance Texas' participation in the San Francisco and New York world fairs. . . . Seizure of foreign oil properties in Mexico will do little to relieve the surplus oil situation in Texas, officials here believe, since only about 9,000,000 barrels of Mexican oil were sent to the U. S. last year—equal to a week's run of Texas oil. The prospect now is that the Sunday shutdown policy will have to be continued at least another month, as surplus production continues to pile up in this country. . . . Seeking to make the unicameral legislature plan an issue in the Lt. Governor's race, Sen. G. H. Nelson of Tahoka opened his campaign this week at Atlanta, in East Texas. The Lieutenant Governor couldn't do much about the unicameral legislature, since it would require a vote by the people on a constitutional amendment to try it in Texas.

OIL PLAYS IMPORTANT PART IN KITCHEN MODERNIZATION

Modern Oil Burning Kitchen

Talking about kitchen modernization—as most housewives are, right now—what about those who live beyond gas and electric lines? This photograph gives the answer. Both the refrigerator and the range are operated with kerosene.

It is a kitchen after the heart of any homemaker who lives beyond the gas mains—as beautiful as one could find in the finest city home, and more economical, for both cooking and refrigeration with kerosene are said to cost less in most communities than with any other modern fuel. Another feature of this modern streamlined kitchen that many householders regard as important is that the equipment can be used and moved anywhere and any time, because there are no outside connections.

Considering the fact that, in spite of all the talk about rural electrification, millions of farm homes probably never will have electricity because of the prohibitive cost of line construction and the range where homes are widely separated, one is impressed by the many applications of petroleum to the problems of rural life. It is the fuel not only for cooking and refrigeration but also for water heaters, space heaters and for motors to supply power for water systems, washing machines, and other machinery.

And so the "inconveniences" of country life seem to be going the way of the horse and buggy, long since replaced by the petroleum-powered motor car which brings even the most isolated home within a few minutes of town or city.

W. M. Patman At Southwestern Life Insurance Meeting

SAN ANTONIO, Texas, April 7.—W. M. Patman and family of Clarendon are in San Antonio attending the thirty-fourth annual convention of the Southwestern Life Insurance Company which he represents.

The Convention got under way this morning when Harvey L. Hays, Abilene agent and president of the Southwestern Life Club, opened the first business session. Arthur E. Beard of San Antonio welcomed the visitors from all parts of Texas and J. S. Bane, Beaumont agent of the company, responded for the visitors.

C. F. O'Donnell, president, stated that more than 500 Texans were attending this meeting as the guest of Southwestern Life Insurance Company, which gives the trips to agents who produce a specified volume of business during the year. Mr. O'Donnell told those present that the total life insurance written by them during 1937 was approximately 12 percent greater than the amount produced by those in attendance at the last convention in Dallas, which reflects the excellent progress made by the Company during the past year.

At noon today Arthur Coburn, vice president of the firm, made his annual address following a luncheon in the ballroom of the Gunter Hotel, which is the convention headquarters. This afternoon the visitors will tour the interesting City of San Antonio which is now preparing for its Fiesta de la San Jacinto. Tonight there will be a get-together dinner on the air roof of the convention hotel after which a floor show

will be presented, with bridge and dancing following.

The highlight of the convention will be Friday night at the annual banquet in the Gunter Hotel Ballroom. During this banquet, President O'Donnell will present the awards to various agents for outstanding accomplishments during the previous year.

The Southwestern Life's main office is in Dallas. It is a Texas company confining its operations entirely to this state.

Before your accident the road sign told you the curve was there.

Texas Progresses In Fire Prevention

Texas experienced the second lowest fire loss year in its history during 1937, Marvin Hall, State fire insurance commissioner, announced recently. An unofficial check of the Commission's records show that only the 1935 total of \$6,008,363 was below the total during the past twelve months of approximately \$6,400,000.

"When contrasted with the losses of former years," Commissioner Hall explained, "the 1937 losses are surprisingly small. The 1931 losses amounted to \$17,565,457, the 1930 losses to \$17,225,417, and the 1929 losses to \$15,664,868. Such a large decrease in so few years definitely reflects great progress in fire prevention and control."

According to Hall, for the first six months of 1937 the losses dipped under any other six-month period on record, but an increase in fires over the State generally from July to December pushed the year's total up to right about that of 1935.

A. H. BAKER GETS IN RACE FOR COUNTY JUDGE

Being solicited by many of my friends to offer myself as a candidate for County Judge of Donley County, I in this formal announcement, want to state without equivocation that I am in favor of the enforcement of all laws. But most important of all, we need a courageous about-face in our real-estate levies, and expenses must be cut so that both valuations and tax rate can be slashed, all of which is now choking home and farm ownership and also causing many good citizens to loose their homes.

With the help of the incoming Commissioners and the knowledge I have gained as Supervisor of the Statewide Tax Survey of Donley County, I will endeavor to equalize the tax in this end.

Having served the voters of this county, as district Clerk I need no introduction to the most of the voters of this county, and it is my desire to see you in person.

I take this method of requesting your consideration, and submit myself to the voters subject to the Democratic Primary. This is my motto: DO NOT RAISE THE TAXES TO BALANCE THE BUDGET, BUT CUT THE BUDGET TO BALANCE THE TAXES.

SENATOR CONNALLY IS FOR BILL TO BOLSTER COTTON

Senator Tom Connally recently announced that he will support an amendment to the pending tax bill to provide processing taxes or tariff equalization taxes on cotton to provide additional funds looking to parity payments for cotton farmers.

"The amount available," Senator Tom Connally said, "under the recently enacted farm bill for cotton payments and soil conservation payments to cotton farmers is just a little over one hundred million dollars. This sum is wholly insufficient to offset the loss of income to cotton farmers by reason of drastic reduction of acreage. A tariff equalization or processing tax on cotton goods is justified on the ground that the consumer of cotton goods would pay a small increase in price which would go directly to the cotton producer. If additional funds are to be obtained they must be secured by such a processing tax since the amount available from the general revenue has been limited, as above indicated. The processing tax would also include rayon, a competitor of or substitute for cotton."

Mr. and Mrs. D. S. Smith, Mr. and Mrs. R. E. Duncan and Mrs. F. E. Caraway were in Abilene Sunday to visit Miss Wilma Dee Smith and Led Jay, students at Abilene Christian College.

Beaux Arts Has Texas Program

The members of the Les Beaux Arts Club met in the home of their president, Mrs. J. D. Swift, last Friday afternoon, April 1, with Mrs. Swift and Miss Anna Moores hostesses to the group. During the first part of the business meeting, fake items of business were read, one of which was a telegram announcing that the first Lady, Mrs. Roosevelt, would be guest of the Club on a certain date, but when questioned as to the whys and wherefores of her visit, the group were told it was only an April Fool prank. Mrs. Millard Word made an interesting report on the "Federated Clubs Meeting at Canyon". Mrs. W. W. Taylor reported eight Burbank persimmon trees and four poplars had been set in the City Park grounds. The club voted to establish a garden center in the Public Library where pamphlets on "Horticulture" may be borrowed and also voted to give the library one hundred pamphlets on the subject "Horticulture".

Miss Temple Harris was leader of "The Texas Program", and gave a splendid talk on "Texas Poets". Mrs. Millard Word talked on "Texas Musicians" and Mrs. J. D. Stocking told interesting facts about "Texas Monuments". The program was concluded with a piano number played by Mrs. Ralph Kerbow.

Tea was poured by Mrs. Frank White Jr. from the dining room table which was centered with a lovely arrangement of white and yellow jonquils and tulips. Guests present were Mrs. J. R. Bartlett, Mrs. Ed Dishman, Mrs. Joe Cluck, Mrs. George McCleskey, and Mrs. L. E. Thompson. Eighteen members attended.

Why Fail With Flowers?

Failure with annual flower seed is likely to be due in most cases to one of two causes—the time they take to germinate and the tininess of the seedling plants. Annuals which germinate quickly, such as zinnias, which come up in a few days, are easy for most garden makers. But larkspurs take fifteen days; petunias, twenty; sweet peas, fifteen, and in general there is a great variation in the time it takes flower seeds to start growing, with many varieties taking much longer than the beginner is likely to expect.

Straight Rows, Careful Planning and Thinning Pay Out in End.

Consequently many a sowing is given up for lost before the seed has had time to grow, and when the seedlings do come they are not discovered.

Tiny flower seedlings are easily destroyed by the wash of rains across the bed. They are subject to other hazards which will usually destroy them unless the gardener has discovered and is taking care of them. A beginner is well advised if he sows his flowers in a seed bed, in rows which can be marked. The bed should be surrounded by a wooden curb 2 inches high, which will keep rain from washing over it.

When the seedlings appear they will be recognized because they are in the row, and can be identified from the label. The gardener can become familiar with the appearance of the different flowers in the seedling stage. He will then be equipped to sow them broadcast in the border another year with the assurance of being able to tell flower seedlings from weeds.

Visitors in the W. D. Shelton home Sunday were Mr. and Mrs. Lloyd Morman and son, Richard, of Amarillo; Mr. and Mrs. Clyde Murry and daughter of Borger; and Mr. and Mrs. C. B. Harp and daughter, Laura Mae.

R. E. Duncan went to Amarillo Tuesday to attend the bedside of a niece, Miss Geleta Pounds, who underwent an operation.

COLLEGE WEEK IS SUCCESS STATE C. J. C. STUDENTS

The programs put on by students of Clarendon Junior College last week were quite successful. The students who participated in the programs gained much benefit as well as those who heard the programs.

The banquet given Friday night at the Baptist church was one of the best the college has had. The college colors of green and white were carried out in the decorations in form of crepe paper streamers hung V-shaped across the rooms and in the programs and menus which were cut of green paper in the form of a bulldog head and printed in white.

The College Queen, Theresa Bain, was crowned by Mr. Burton at the beginning of the banquet. The program given by the students of C. J. C. at the Baptist church Sunday night was enjoyed by a large crowd of town-people including the Senior class of C. H. S. as special guests.

The students and faculty of C. J. C. feel that the effort to acquaint the people of this and other towns with the work offered and being done in C. J. C. was not without result, and that it was more than worth their time and work to put this program on.

"True Confession" Is "Lie-vs.-Truth"

Carole Lombard and Fred MacMurray are joined by John Barrymore in the co-starring leads of Paramount's comedy-drama, "True Confession," which opens Sunday,

April 10, at the Pastime Theatre, and shows for a 3-day run.

In the film, Miss Lombard and MacMurray play the parts of a struggling young lawyer and his wife, constantly at swords' ends because of the conflict between Miss Lombard's inborn habit of lying and MacMurray's love for truth.

Implicated by circumstantial evidence, Miss Lombard finds herself

accused of a murder, of which she is entirely innocent. MacMurray does not believe her story, and forces her to "confess" that she killed in self-defense. On this plea, he gets Miss Lombard an acquittal.

Barrymore steps into the scene, in the role of an eccentric delerict whose brother-in-law actually committed the murder and who tries to blackmail Miss Lombard by threatening to tell MacMurray that she lied to him in her "confession," unless she buys him off.

The film winds up with the most hilarious combination of comedy elements to reach the screen in a long, long while, with Miss Lombard finally realizing that under no conditions is she ever to lie to her husband again. "True Confession" was directed by Wesley Ruggles.

folks who figure on a rainy day, we would not have any savings banks, or life insurance, or railroads, or much of anything.

And you take the railroads, it is different from what it was 100 years ago, when if you wanted to go from Cincinnati to Salt Lake, you could walk, or ride a horse. And it would take you 6 months or 8 months, and at 100 dollars per month, it would cost 600 or 800 dollars, and also use up a good horse, to boot.

And our grand-father, who went west, with a musket on his shoulder, he would not be findin' fault with the railroads, and everything—he would be givin' 3 cheers. Yours, with the low down, JO SERRA

Committee Studies Grasshopper Plan

Grasshopper infestation in Donley county was studied in a survey made in the county Wednesday by R. R. Reppert, state extension entomologist, and his assistant, Arthur Miller, together with County Agent H. M. Breedlove and county grasshopper committee composed of W. J. Lewis, Nolie Simmons, Heckle Stark, Jack Bailey, Edwin Baley, and Chas. Bairfield.

The survey revealed that grasshoppers will infest the county to a great extent unless all farmers and ranchers cooperate in eradication measures similar to those used last summer.

Reppert said that plenty of bran and poison would be available and the first shipment for this county would arrive here about May 1.

Plans were made to locate two mixing plants in the county, one at Clarendon and one at Hedley.

GOVERNMENT WARNS AGAINST JOB PROMISES

WASHINGTON, D. C., March 8, 1938—The United States Civil Service Commission today issued the following statement:

The public should not be misled by promises of Government positions by so-called "civil-service schools," their agents or their advertisements. No school is able to fulfill any such promises. The public is also warned against schools or agents that would lead one to believe that they represent the Government or are connected with the Government in any way, or that give assurance of success in passing civil-service examinations on the completion of their courses.

Extravagant claims of this type are bringing some such schools under Government investigation. Recently the Post Office Department issued fraud orders against a number of these schools denying them further use of the mails after evidence had been submitted that they had used the mails to defraud. In one of these cases prosecuted by the Government, the promoters of the school were later tried in criminal court and given jail sentences. The Federal Trade Commission also investigates complaints.

Caution is particularly made against claims by schools that their courses are required in order to take the examinations of the U. S. Civil Service Commission;
