Plans And Program Set For Annual Father-Son Banquet Here

Thanksgiving Day

(An Editorial)
By B. P. Brents

As has been the custom for nearly three hundred years, people throughout the nation will observe Thanksgiving Day by attending union Thanksgiving services.

A custom instituted by the Pilgrim Fathers is this day still being observed. They, on bended knees, gave thanks to their Maker. We, give thanks—and only in a small measure compared to the feelings of our forefathers.

The spiritual leaders of our different denominations have no hesitancy in expressing their inward feelings on the day of thanksgiving. We, of less enthusiasm, have not responded to the paramount thought of the occasion in a manner befitting the heritage willed to us.

Let us all join with the different denominations of Clarendon in observing Thanksgiving Day, Thursday, 10:00 a. m., at the First Methodist Church.

Returned Here

REV. E. D. LANDRETH

Rev. E. D. Landreth, who has served as pastor of the First Methodist Church for the past three years, was returned to his Clarendon charge by the Northwest Texas Conference in session last week at Quanah.

Banquet Speaker

WILLIAM McCRAW

Attorney General William McCraw, who is prominently mentioned in the race for governor, will be principal speaker at the annual Father and Son banquet to be held Tuesday evening at the First Christian Church.

Thanksgiving Talk At Lion's Meeting

Thanksgiving Day was the theme of a talk delivered by Rev. Newton C. Smith at the regular weekly meeting of the Clarendon Lions Club, Tuesday.

Lions Lowe and Caraway emphasized the importance of a large offering at the Union Thanksgiving Service, Thursday morning at the Methodist Church. The offering, it was explained, will be turned over to the Adair Hospital.

Rep. George Moffett, Chillicothe, made brief comments on the work of the recent legislative session.

Introduction of guests, besides Rev. Smith and Rep. Moffett, included Lion L. C. Edwards of Lubbock.

Elery Watson, student at the University of Texas, arrived Tuesday night to spend the Thanksgiving holidays with friends and relatives.

Kiddies! Write Your Letters To Old Santa Now

Kiddies! Will Dear Old Santa Claus visit in this neighborhood this year? Sure, he will! All you have to do is sit right down and write Santa Claus a letter, telling him what you want him to bring you for Christmas. He will then harness his reindeer and start out on the long, long trip from his home at the North Pole.

After you have written the letter, let your parents read it to correct spelling, etc., then address your letter to Santa Claus in care of The Clarendon News.

The News will see that Santa Claus gets your letter, then everyone will be happy.

Do it today, kiddies, for it takes a long time for mail to go to the North Pole.

Audit Underway On Gas Company Books

T. M. Pyle, city commissioner, said this week that the city had received information from Ernest O. Thompson, Texas Railroad Commissioner, that the request of the city for engineers and auditors to check the property and audit the company books of the City Gas Company would be promptly complied with and that just as soon as it was possible to make the appraisal and audit, it would be done.

Thompson said in the message that it would take some time to make up all the details going into a proper investigation of a rate case, but this would be completed without delay as he had directed that the audit be the first order of the day.

Auditors are now working on the books, D. R. Davis, local manager, said.

The audit of the books of the gas company is the result of a public hearing conducted here about three weeks ago by the railroad commissioner following the refusal of the gas company to reduce the gas rate to consumers after ten years service at the original franchise rate of 70 cents per thousand cubic feet. The franchise expired in May.

Low Temperature Of 14 Is Recorded

Cold weather continues as a large portion of the Panhandle and Northwest Texas was blanketed in snow the earlier part of the week.

Snow flurries were noticed here early Monday morning, as parts of the Panhandle received from one to four inches of snow.

Points south on the Ft. Worth and Denver reported snow Sunday night.

Unusual low temperatures for this part of the state this early in the winter have been recorded. Weather reporter, Joe Goldston, said that 14 was registered last Friday with a maximum of 35 being recorded.

TWO INJURED BY TRUCK YESTERDAY

ORVAL SCOTT SUFFERING FROM POSSIBLE SKULL FRACTURE

Two youths are in a serious condition, one with a possible skull fracture, as the result of a large truck crashing into a cotton trailer behind O. A. Scott's car, in which the youths, Orval and James Scott, were riding in the turtle back. The accident occurred shortly after dark, Tuesday.

The large truck was driven by P. J. Lewis, a trucker from a Houston firm, who said the accident occurred four miles west of the city as he started to overtake the Scott car. Just as he started around the trailer he was blinded by lights from an approaching car. Brakes were applied but did not take hold, the truck crashing through the trailer and hitting the rear of the couple driven by Scott.

Orval Scott, 16, is thought to have a fractured skull. James Scott, 13, was also injured in the crash.

Lewis was charged in justice court with assault with a motor vehicle, and was released Tuesday night under \$500 bond.

On invitation of the publicity director of the organization at Fort Worth, Sam M. Masonic Ceremony Thursday Night Honors First Member Local Lodge

MEETING IS HELD ON TWENTY-NINTH ANNIVERSARY OF MOVE FROM CITY

One hundred and two Masons, representing memberships in 20 lodges throughout the Panhandle, gathered in Clarendon last Thursday night to pay tribute to Geo. F. Morgan, first Mason initiated into the Clarendon lodge, mother lodge of the Panhandle. The meeting was held on the twenty-ninth anniversary of Mr. Morgan's moving from Clarendon.

Preceding the main event of the evening those present enjoyed a bountiful turkey dinner.

W. H. Patrick, pioneer banker and president of the Panhandle Certificate Mason's Association, was master of ceremonies and introduced the honor guest.

Tom F. Connally welcomed the visiting masons and by giving Mr. Morgan's Masonic history paid beautiful tribute to the past Grand Master of Texas Masons.

He said that Mr. Morgan took his Masonic vows December 13, 1890, later holding various offices in the lodge and served as worshipful master from 1896 to 1899, and was again chosen for the post in 1906, serving until 1908. He was at one time district deputy grand master and assisted in organizing nineteen lodges in the Panhandle. At the Grand Lodge meeting in Waco, 1919, Morgan was elevated to Grand Master of Texas Masons.

Mr. Morgan was at one time a Clarendon business man and served the county in several county offices including county judge.

The honor guest responded by recounting the trials and tribulations of early day masonry, but expressed the pleasure he received in serving the Clarendon lodge. Many long trips were made to other cities under adverse weather conditions to assist in organizing lodges, and continued his visitations for many years following. He said that many trips

were made horseback, and in balky old model cars that would get stuck during winter rains. Masonry in the Panhandle was not an easy task in establishing but those who were the founders of the many orders throughout this section of the state derived great pleasure in their work.

Mr. Morgan recalled the names of several old time masons whom he had worked with in the order who have been dead several years, and the degree team that initiated him of whom P. A. Buntin is the only living member. Mr. Buntin's age and the condition of his health prevented him from attending the meeting.

Following the talk by Mr. Morgan, tribute was paid him by several visitors including C. A. Jones, Amarillo, member of the committee on work; J. O. Guleke, Amarillo, district deputy grand master of district 99; J. N. Browning, Amarillo, son of the late J. N. Browning, who served the Clarendon lodge as worshipful master and the state as lieutenant-governor; M. D. Goodpasture, county judge of Hall county, Rev. R. S. McKee, Bill Walters, J. H. Hurn, Joe Horn, S. B. Kutch, 80-year old member of the Clarendon lodge, R. C. Weatherly, secretary of the Clarendon lodge; Arch D. Ward, retired engineer of the Ft. Worth and Denver; E. O. Feireabend, secretary of Amarillo Lodge No. 731; A. G. Powell, secretary of the Memphis lodge; William Hardin, youngest member of the Clarendon lodge, and several others.

Lodges at Decatur, Henrietta, Haskell, Amarillo, Hedley, Childress, Lubbock, Goodnight, Memphis, Whitewright, Turkey, Spearman, Chillicothe, Alameda, Wheeler, Claude, McLean, El Paso, Groom, and one in Colorado, were represented at the gathering. On Friday night Mr. Morgan was similarly honored by a joint meeting of the two Amarillo lodges.

McCRAW WILL MAKE ADDRESS

TICKET COMMITTEE URGES EARLY RESERVATIONS TO COMPLETE PROGRAM

Final arrangements for the annual Father and Son Banquet to be held Tuesday evening have been completed, according to Allen Patman, president of the group.

The banquet will be held in the basement dining room of the First Christian Church at 7:30 p. m., Tuesday, Nov. 30.

The principal address at the banquet this year will be given by William McCraw, attorney general of Texas, prominent in state politics and frequently mentioned as a leading contender in the governor's race next year.

The ladies of the church will be in charge of the dinner arrangements and a special menu of turkey and dressing, and appropriate trimmings, will be prepared.

Preparations are underway for a record crowd. An even larger attendance than that last year is expected by the arrangement committee, composed of Allen Patman, president, and U. J. Boston and C. J. Douglas, vice-presidents.

Tickets will probably go on sale Friday afternoon and may be obtained from Allen Patman, U. J. Boston, or C. J. Douglas or Stocking's Drug Store, Norwood Pharmacy and Douglas and Goldston Drug Co., for fifty cents. The tickets will definitely be withdrawn from sale Monday night, so that the ladies of the dinner committee will know how many plates to prepare. All who plan to attend are requested by the committee to buy their tickets early.

The committee has requested that fathers, besides bringing their sons, bring some unaccompanied boy as their guest.

Allen Patman will be toastmaster, and has announced the following program:

Music to be furnished throughout the dinner hour by Ray Robbins' orchestra, invocation, Rev. Robt. E. Austin; dinner, special music; address to fathers, J. D. Swift, Jr.; Response, Rev. J. Perry King; tap dance, Jackie Heath and Clyde Benton Douglas; introduction of the principal speaker, J. R. Porter; address of the evening, Attorney General William McCraw; election of officers; benediction, Rev. E. D. Landreth.

Injunction Hearing Continued To March

The hearing in district court set for last Saturday morning on the temporary injunction against R. Y. King, G. F. Lane and Justice of the Peace W. A. Davis was continued until the next term of court by District Judge A. S. Moss. The next term will convene March 21.

The continuance was by agreement of the defendants and the plaintiff, The City Gas Co.

The gas company asked the temporary restraining order to prevent hearings in justice court on suits filed by King and Lane seeking to recover damages involving the controversy on gas rates between the city and the gas company.

A THANKSGIVING QUERRY

"Looking about me at this Thanksgiving time, 1937, am I as sincerely thankful for all my personal and collective blessings as I should be?" Seems to us that this should be the self-imposed querry this week as we face a peaceful Thanksgiving in America, in Texas, in Donley County, while so many millions of the world's population are helplessly caught in the ruck of war in all its modern implements of destruction.

So many of us have health, shelter, food, freedom and the blessings of a land where human rights and the "pursuit of happiness," abound that sound thinking cannot justify our right to wail and complain because we have not the prosperity we once had.

May we reverently join in the public and private expressions of our gratitude to an All-Wise and Beneficent God, for all His benefits to usward. May we honestly ask ourselves the question which opens this train of thought, and may we just as honestly answer it in humility and deep thankfulness.

After all, ours is a happy and gracious condition. May we keep it more clearly in mind as the days come and go.

YOUTH—THE TIMELESS TREASURE

Youth is not a time of life—it is a state of mind. It is not a matter of ripe cheeks, red lips, and supple knees it is a temper of the will, a quality of the imagination, a vigor of the emotions; it is a freshness of the deep springs of life. Youth means a temperamental predominance of courage over timidity, of the appetite of courage over love of ease. This often exists in a man of 50 more than a boy of 20. Nobody grows old by merely living a number of years; people grow old only by deserting their ideals. Years wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry, doubt, self-distrust, fear and despair—these are the long, long years that bow the head and turn the growing spirit back to dust.

You are as young as your faith, as old as your doubt; as young as your self-confidence, as old as your fear; as young as your hope, as old as your despair. In the central place of your heart there is a wireless station; so long as it receives messages of beauty, hope, cheer, courage, grandeur, and power from the earth, from men, and from the Infinite, so long are you young. When the wires are all down and all the central place of your heart is covered with the snows of pessimism and the ice of cynicism, then are you grown old indeed—Pastime Scrapbook.

THE PUBLIC FORGOT

For business men who appear to think the public does not need to be constantly reminded of who they are, where they are, and what they have to sell, the well-known story of what happened to a product called Pyle's Pearl-line will bear repeating.

In the early years of this century, Pearl-line, a cleaning material, was used by most of the housewives of the country. In 1904 the company spent \$500,000 in advertising. Then the advertising was greatly curtailed, and about 1907 it was discontinued altogether, as the company thought the product was so well known that no further advertising was necessary.

Sales fell off rapidly, but the company's owners persisted in their non-advertising policy until 1915 when

Oath of Office

What oath does the President take?

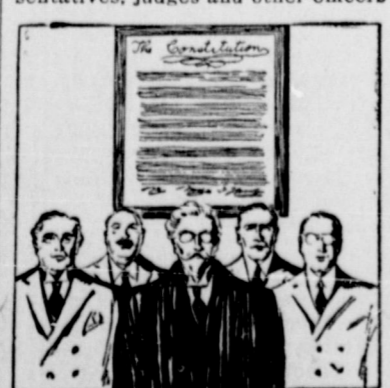

In our Constitution (Article II) "we the people" specify that our Presidents shall take the following oath:

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will to the best of my ability, preserve, protect and defend the Constitution of the United States."

In regard to this President Lincoln wrote: "I could not take office without taking the oath. Nor was it my view that I might take an oath to get power, and break the oath in using the power."

In addition to requiring our Presidents to take an oath "we the people," in our Constitution (Article

VI), specify that senators, representatives, judges and other officers

of the United States and of the states also shall be bound by oath to support our Constitution.

A THANKSGIVING SUGGESTION

the whole concern was sold for \$12,000. Pearline was dead.

Many other products whose names were household words a few years ago are no longer sold, because the manufacturers failed to keep up their advertising, and consequently the public forgot them.

Business men should remember that new generations of potential customers are coming along all the time, and that these new buyers must be sold on a product or a store as their fathers and mothers were before them.

The only time it is safe to stop advertising is when one is ready to go out of business.

A LITTLE MORE FORGIVENESS

"In the marriage ceremony of most churches there is the admonition to 'help each other,' but there is nothing about standing rigidly on one's rights. It takes a lot of forgiveness to run a home. Duties often take the place of rights. Almost any home can quickly become a living hell if either or both parties begin the Satanic pettiness of always 'demanding their rights.' People should not get married to boss each other, but to forgive and help.

"How active is your forgiver? If you can't forgive you will grow into a hater, and haters fill their hearts with murder germs. Hate is living death. Never a day passes but each of us needs a larger love and sympathy, even with our own immediate loved ones. The best forgivers on earth are mothers.

"Did you ever itch to 'get even' with someone? Everybody gets that disease occasionally. When you feel like getting even, remember that we always get behind in that performance. Many a nation gets a grouch, puts a chip on its shoulder, and goes out to kill in order to even up some offense which can be settled only by forgiveness. This matter of trying to get one's rights can easily be pushed to the point of insanity. No one can be in his right mind who wants to hurt or harm another.

"The greatest fact about our souls is their capacity to love. Love's greatest attribute is forgiveness. Do you not see the reason why Jesus, when teaching His disciples to pray, capped it with the line, 'As ye pray, forgive?'"—Dr. J. W. Holland in The Progressive Farmer.

Come on! Let's do the town!

Across the street from that filling station (selling a national brand of gas) is a big food market. Shelf after shelf of national brands — cereals, canned goods, specialties, biscuits, coffee, tea, California oranges, Texas grapefruit — everything!

Next door an auto sales-room displays a popular make of car. Up the block, across from a movie, a hardware merchant shows a window of radios and refrigerators—all national makes. A tobacco shop sells nationally advertised cigarettes, drug stores sell national drugs, beauty shops recommend nation-known cosmetics.

A thriving, busy, nationally-minded community of people who are well dressed, prosperous—eager to buy. They know values—products. Why? They read their local community newspaper and heed the advertisements listed in its columns.

If your product is sold nationally it can be sold in this community. And the best way to sell it is to advertise it in this local community newspaper reaching a majority of the substantial families, reaching them consistently, week-after-week, in their homes.

The Rest of the Record

BY JAMES V. ALLRED Governor of Texas

AUSTIN—In issuing the annual Thanksgiving Day proclamation, I did so this year with the feeling that a little white-haired old lady of some seventy years had really written it.

Out of the heavy mail on my desk, I found last week a penciled letter with the writing shaken by the palsied hand of age. Its message typified the real spirit of the Pilgrim Mother of 1621 when the first day of Thanksgiving in America was observed. I felt humble in the presence of that letter for in it I could see the reason why this State of Texas has become so great. Back of it, I could see the pioneer moth-

ers whose love and faith gave the steel to the courage of their men that enabled them to overcome hardships and build the mighty empire of Texas.

The dear old lady wrote that she only wanted to express appreciation for her monthly pension check. She added "while some people might think my room too bare and poorly furnished for comfort still to me it is home and for the pension check which makes this possible, I am thankful. My children are all gone and I would be lonely except for the memories of a long life which God has blessed with many friends and much happiness. To Him I shall give thanks on this Thanksgiving Day."

What a lesson to those of us more fortunate! From that letter I gained a feeling of humility, grateful that she should write me at this time.

I don't know how other governors feel about the penciled, often poorly written letters which we receive, but to me these are just as important if not more so, than the neatly typed, embossed letters from lawyers and bankers. These letters are from poor people who travel on a three-cent postage stamp to ask the governor of their state for help or advice. The least a governor can do is to read them and help in every way possible.

In many instances the letters are written in Czech or Spanish, or German and often illegible. These I have translated and returned to me promptly.

Yes, we have much for which to be thankful on this Thanksgiving Day. In contrast to war-torn and war-fearing countries, America will observe its day of Thanksgiving in security and peace confident that our ideals of democracy, the industry of our people, and the vast resources of our nation will enable these United States to meet crises under which other nations might crumble.

As Governor I feel grateful to the kind Providence that has guided this state and nation out of the depths of depression into an era of comparative prosperity. True there are many families whose tables will be pitifully bare on this Thanksgiving Day unless charitable organizations and kindly neighbors help them. But the bread lines which have threaded the nation in past years will not be as long nor will the suffering

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN — Politics and the problems of state were given a vacation this week in Texas, as State officials welcomed the opening of the deer hunting season by departing en masse for the deer country. Headed by Gov. Allred, who "jumped the gun" a week by going to Mexico, and then returned for a few days hunting in Texas as when the State season opened, with the Governor of Colorado as his guest, virtually everybody in Austin who owns or could borrow or rent a rifle, was afield. With 25 percent more hunting licenses issued this year than ever before, and plentiful supply of bucks reported throughout the deer country, a most successful season was assured. Many lucky hunters were returning by the week-end, with huge buck proudly draped over the motor-car fenders, having gotten their Thanksgiving trophy within 24 hours.

POLITICS ON THEIR MARK

The holiday interlude, ending January 2, however, will find the politicians all set and ready for the six-month dash that will bring them up to the July primaries. The "unofficial" campaigns which have been under way for months, will come out into the open. Developments of the last few weeks indicate that reform and economy in State government will be one of the leading issues in both the Governor's and the legislative races. Another special session, despite denials by Governor Allred, may be staged in March, in the opinion of the best informed observers here, to raise some additional money for old age pensions, the teachers' retirement fund, needy blind and dependent children.

Issues are in the making now for the 150 legislative places in the House, and 15 Senatorial posts to be filled at next July's primaries. In the Senate, especially, there is great interest, since the terms of some of the upper House's outstanding members expire, including T. J. Holbrook, who may not stand for re-election; Grady Woodruff of Decatur, dry leader; Weaver Moore of Houston, wet leader; Frank Rawlings, of Fort Worth, the Senate's best parliamentary expert; Ben O'Neal of Wichita Falls, administration floor leader and former law partner of Gov. Allred; G. H. Nelson, of Tahoka, who may run for Lieutenant Governor on a unicameral legislative platform; Clay Cotten, of Palestine; Olan Van Zandt of Tioga; Claude Isbell of Rockwall; Jim Neal of Mirador City, the man who broke the long reign of Archie Parr in the Valley; Allan Shivers, the youthful Port Arthur friend of labor; L. J. Sulak of LaGrange; R. A. Weinert of Seguin; Claude Westfield, the radical leader from Dallas; and E. M. Davis of Brownwood, farm bloc spokesman.

In our state there are still too many unfortunates for whom aid has been denied or for whom the aid given has not been sufficient to relieve their pain and need. Many aged needy, destitute children, helpless blind, and unemployed on the relief rolls will face a cheerless Thanksgiving Day.

As we who are more fortunate share the bounties of Thanksgiving dinner, let us remember that the obligation to our unfortunate neighbors has not been filled by partial payment. Let us remember the happiness and comfort brought to the old lady by the pension check and whose brave attitude so typifies the real Thanksgiving Day spirit. Let us resolve that ethics like her but who are not being aided shall receive help.

There can be no turning back or any detour made from the humanitarian highway that we have traveled as an aftermath of the depression.

stead of the \$15,000,000 demanded by the Governor in the last fruitless session.

Legal developments which have occurred since the special session ended however, may make considerable difference in the state's financial setup. Upholding by the higher federal courts of the State's intangible tax on pipelines apparently has put an end to this 5-year old litigation, and, if the pipeline companies pay off, as several have indicated, it is estimated the general fund will receive \$2,000,000 immediately, and several hundred thousand additional annually hereafter. Countries in which the pipelines are located will profit by substantial sums, also.

The possibility that the Supreme Court may rule finally upon the litigation involving the inheritance taxes on the E. H. R. Green estate within the next few months, may, if the decision is favorable to Texas, bring in another estimated \$5,000,000 to the state treasury.

A third factor affecting revenue is the court decision ending the practice of oil companies of paying for only 99 percent of oil in tanks and pipelines, deducting 1 percent for "shrinkage." The Texas Railroad Commission ordered this practice halted, and the courts upheld the order. The additional 1 percent will substantially increase the State's tax revenue on crude oil production.

15 SENATORS FACE TEST

Issues are in the making now for the 150 legislative places in the House, and 15 Senatorial posts to be filled at next July's primaries. In the Senate, especially, there is great interest, since the terms of some of the upper House's outstanding members expire, including T. J. Holbrook, who may not stand for re-election; Grady Woodruff of Decatur, dry leader; Weaver Moore of Houston, wet leader; Frank Rawlings, of Fort Worth, the Senate's best parliamentary expert; Ben O'Neal of Wichita Falls, administration floor leader and former law partner of Gov. Allred; G. H. Nelson, of Tahoka, who may run for Lieutenant Governor on a unicameral legislative platform; Clay Cotten, of Palestine; Olan Van Zandt of Tioga; Claude Isbell of Rockwall; Jim Neal of Mirador City, the man who broke the long reign of Archie Parr in the Valley; Allan Shivers, the youthful Port Arthur friend of labor; L. J. Sulak of LaGrange; R. A. Weinert of Seguin; Claude Westfield, the radical leader from Dallas; and E. M. Davis of Brownwood, farm bloc spokesman.

Part of the speculation as to who will be opponents of Lt. Gov. Walter Woodul for Attorney General was set at rest this week, when Gerald C. Mann, former secretary of State and now a Dallas lawyer, wrote members of the Dallas bar association, declaring he will run, making his formal announcement later, and seeking support of lawyers of his home town. Judge Ralph Yarborough of Austin is regarded as a certain candidate. He like Mann, has never made a Statewide race. Woodul is conceded easy leadership in the race at this early stage, and additional candidates may develop after January 1, including Speaker Bob Calvert of Hillsboro, and Everett S. Looney of Austin.

Sen. Morris Sheppard, senior Texas representative in the national upper house, has recovered completely from his recent surgical operation, and is back on the job, in the thick of the special session. Sheppard is sponsoring a Federal constitutional amendment exempting all homesteads up to \$5,000 value from all taxation. Social Security Question Box

(Editor's Note: This is one of a series of questions and answers being published by this newspaper for the benefit of employers, working and others affected by the Social Security Act.)

How soon are benefits payable under the old-age insurance provisions of the Social Security Act?

Lump-sum benefits are payable now to an employee if he has reached the age of 65 since December 31, 1936, and has worked in a covered occupation since that date. In case an employee has died since December 31, 1936, and has worked in a covered occupation after that date, the estate of such an individual is eligible to file claim for a lump-sum payment. In either case, the lump sum will amount to 3 1/2 percent of wages paid to the worker in covered occupations since December 31, 1936.

Monthly benefits will be paid after January 1, 1942, to qualified individuals. Qualified individuals are those who have attained age 65 and who, since December 31, 1936, and before attaining age 65, have worked in covered occupations one day in each of five different calendar years, and have received during such period at least a total of \$2,000. A person who reaches age 65 but does not become a "qualified" individual will receive a lump-sum payment

equal to 3 1/2 percent of wages paid to him in covered occupations after December 31, 1936, and before he attains age 65.

(Further inquiries should be directed to the office of the Social Security Board, 1012 Oliver-Eakle Building, Amarillo, Texas.)

NW Texas 4-H Club Boys Feed Pigs And Calves For Profit

In Northwest Texas 4-H club boys are feeding beef calves and pigs for profit as well as for demonstration purposes, reports from county agricultural agents in that area show.

Billie, D. C. and Weldon Reynolds, Fisher county 4-H club boys of the Swedonia community, are feeding three hereford calves as their project. During the last 30 days Billie's calf gained 115 pounds; D. C.'s gained 75 pounds; and Weldon's gained 70 pounds. The calves consumed 1,100 pounds of feed which consisted of oats, maize, barley, wheat bran, cottonseed meal and blackstrap molasses, in the last 30 days. The average daily consumption of each calf was 9.35 pounds, and the average cost of feed to produce one pound of beef was \$0.364.

Early in September three Mitchell county 4-H boys, Elden Adrain of Colorado, and Douglas Brown and Billy Joe Hale of Louisiana, each received a hereford calf for their winter feeding demonstrations from the Peter L. Pasture pens of the Spade Ranch. The boys will feed their calves to show in the dry lot classes in the 1938 spring shows, and will carry on their work under the supervision of the county agricultural agent.

Clarence Bertrand, 4-H club boy in the Masterson community of Potter county, has made a net profit of \$114.95 on his pig demonstration. He purchased a purebred sow early in the year for which he gave a note for \$50.00. He raised 5 pigs which cost him \$70.45 for feed. This, with the \$50.00 for the sow, \$1.70 interest, and \$2.50 breeding fees, made a total expense of \$124.65. He sold the pigs, which weighed 1,205 pounds, for \$144.60. By the time the pigs were sold there was another litter of 9 pigs, which were valued at \$95, together with the sow, making his income for the year \$239.60 less \$124.65 for expenses, leaving a net profit of \$114.95.

400 laughs To One Weep Says Prof.

Who said this was a vale of tears?

A definitely dissenting opinion was delivered by Prof Paul Thomas Young of the University of Illinois psychology department. His campus studies showed laughter was 400 times more prevalent than weeping. The research was conducted among students but it was indicated the 400 to 1 ratio might prevail among other folk as well.

His conclusions: Collegians take down their hair and cry less than once in every 20 days but laugh more than 20 times every day.

Women wept three times as often as men but their risibilities were not tickled as often. Weeping was caused 80 to 90 per cent of the time by environment.

Laughter was caused 98 per cent of the time by social contacts.

A WOMAN'S BROOM

And now here is a new thing to consider in choosing a wife. I find it in an exchange:

"Show me a woman's broom, and I will tell something about her character," writes Flint Hills Peggy in the Cottonwood Falls Leader. If the straws all bend to one side as though perpetually doubled up in a roaring gale, the woman is probably easy-going, nonchalant, indifferent. But if the straws are worn equally across, showing that the broom has been carefully reversed to preserve it, the woman who used it is almost sure to be methodical, painstaking and economical.

One trouble about this broom question would be if the prospective young man should be able to get a look at the broom in his sweetheart's home, would be to determine how much of the worn straws were made by the girl's mother.—Homer Price in Marshall News Messenger.

Diphtheria Hazard Now Unnecessary

AUSTIN—State Health Officer Geo. W. Cox urges all parents of children between the ages of six months and ten years who have not been immunized against diphtheria, to take them to their family physician and have this done at once.

The first ten months of 1937 saw 1,635 cases of diphtheria reported to the Texas State Department of Health. This is an increase over 1936's figures, and shows the need of immunization of children in this age group.

It was not many years ago that parents dreaded diphtheria because of inability of the medical profession to either prevent or cure the disease. But today when we know both the cause and the cure there is no obstacle but negligence which will prevent the complete elimination of disease in Texas.

Diphtheria is most dangerous to the very young children, and it is especially important that immunization against it be given early in a child's life. In young children there is practically no reaction to the injection. Immunization has been proven to give absolute protection.

"It is in the power of the parents of Texas, co-operating with their physician and the health department, to eliminate the disease," Dr. Cox stated. "In about six months after immunization the child should be given a Schick test to determine whether further treatment is necessary. Early immunization against diphtheria is a routine procedure with up-to-date physicians. Cooperate with your family physician and your community and make early immunization a regular practice in Texas.

Paleontology Report of Tiny Horse Found In Donley Beds Is Published

CANYON—Copies of a new paper on Panhandle paleontology have been received here by Prof C. Stuart Johnston of West Texas State College, who wrote the article for the American Midland Naturalist magazine to report findings on a tiny ancient horse which once lived in this area.

The American ancestor of the horse in some manner became extinct and the herds of mustangs which once thrived on the plains were descended from horses imported by the Spaniards.

The horse described from skeletal remains is the Calippus Regulus, smallest member of the family Equidae to be found in the Clarendon beds. The site has the appearance of being an old river bed. The quarry is located on the Grant property two miles west of Goldston in Donley County. These Lower Pliocene beds were explored through the co-operation of the Progress Administration and under the direction of Mrs. Margaret Johnston, wife of the College professor.

Rather well preserved teeth of the animal—which was no larger than a dog—show extreme simplicity of the enamel pattern.

The small horse is not abundant but is well represented in the Clarendon beds. The valuable findings have been placed in the museum of the Panhandle-Plains Historical Society, as are other specimens taken from numerous sites in the Panhandle by the project personnel.

Cheerful Kitchen Makes Home Work Pleasant On Farm

According to reports of county home demonstration agents in Northwest Texas, the farm women in that section are convinced that a bright, cheerful kitchen makes a more pleasant place in which to prepare their daily meals.

"Remodelling my kitchen was hard work, but the pleasure of having a new kitchen made it worthwhile," said Mrs. Charley Harris, kitchen demonstrator in the Ruby home demonstration club in Sherman county. The room was made smaller by removing a four-foot wall, making it possible to have a combined living and dining room instead of a combined kitchen and dining room. A rebuilt china closet was placed in a corner near the breakfast unit, and some shelves were replaced by a built-in pantry. The walls were papered with building paper and then painted. The breakfast table and chairs were repainted, and other improvements were made.

Many steps saved every day is one result of the improved kitchen in the home of Mrs. C. L. Adkins, demonstrator for the Riverside home demonstration club in Foard county. The cabinet was moved and a sink was installed adjacent to it with a small table on the opposite side of the sink. The stove was placed near the table, and the storage cabinet was placed as near the preparation center as possible, thus eliminating unnecessary steps. For additional work surface a table was made with rollers on the legs, and Mrs. Adkins says that this is the greatest step saver of them all. A bracket lamp with a reflector provides light near the stove.

Mrs. E. V. Halbert, demonstrator for the Foard City home demonstration club in Foard county, has recent added attractive curtains of ratine to her kitchen. They were made at home and placed on the rollers of the old shades.

SCHOOL OR GANG?

If you ask a boy which he would rather have, a schoolbook or an automobile, he would probably choose the automobile. After he grows up and feels handicapped by ignorance, he may wish he had chosen the book.

When the schoolhouse opened its doors in September, a similar choice was placed before each child. The school offered him the world's wisdom and experience. Meanwhile the street crowd would entice him away to the unruly pleasure of the kid world.

The schools of Texas do not ask him to spend his entire time in study. He needs plenty for sport. Bookworms are a lowly tribe who do not conquer the earth. But the pupil has to choose whether or not study is to be his main aim.

The boy or girl is pretty young for a choice on which the future depends. Teachers and parents help make that choice right. But the student has to make his own decision. Which is it, Kid, high jinks now, or success and prosperity for a life time?—Exchange.

J. G. Glass, manager of the Goldston Gin, was in the city on business Wednesday.

R. W. Crawford, Mrs. Frank Stitt, Fleda Crawford, Rufus, Jack, and Joe Crawford of Amarillo spent Monday in the home of their daughter and sister, Mrs. Lucian Bones.

Editor's Corner

The Clarendon schools will have two holidays this week, Thursday and Friday. Although all students are glad, no doubt, for the holidays, we should stop to give thanks for other things too. We should be glad that our country is at piece and has some degree of prosperity.

The proposed Parent-Teacher's Council for the high school and junior college seems to us to be a very good idea. It is well-known fact that there is less contact between parents and teachers in these schools than in any other.

JUNIOR HIGH AND SOUTH WARD NEWS

The Junior High School library sponsored a book-collecting contest last week, the grade gathering the largest number of books being given a half-holiday. The seventh grade won with 260 books. 554 books and magazines were added to the library by means of this contest.
The P. T. A. met Thursday afternoon, November 18, Mrs. Hart's room won the dollar for having the most mothers present. Mrs. Lane's room presented a Thanksgiving pageant and Mrs. Penick's room sang Thanksgiving songs.
The two fourth grade rooms held a multiplication contest which Mrs. Penick's room won Thursday.
Miss Hendrick's room entertained Miss Devault's room Wednesday with a Thanksgiving program and party at which games were played and refreshments served.
Miss Stevens' room has made a Thanksgiving poster representing the First Thanksgiving; Bert Barnes and Delene Blair made an old time fireplace for it. The coldest day this month Miss Stevens' room was 100 percent in attendance.

F. F. A. Begins Work On Judging Teams

Members of the vocational agriculture classes are starting their work of poultry and dairy judging teams. The livestock team will begin work at an early date. Prospects for dairy and livestock teams are dull as Jack Robinson, Warren Hardin, Donald Harlan, Jack Reeves, Jr. Swift, and Rayburn Smith regular members of last year's judging teams have graduated or finished their agriculture work.
Ray Palmer Jelly McGowen, and Homer Speed are the only F. F. A. members who have had experience in judging before this year. Joe Williams, Gene Putman, and Beatty Hillman represented the chapter in the Amarillo Poultry contest, ranking second. A large number of boys are working out for the teams in an effort to be the lucky ones who get to make the trips to the various fairs, contests, and possibly the state contest at A. & M. next spring.

AGRICULTURE STUDENTS TO HOLD INTRA-MURAL POULTRY JUDGING CONTEST HERE

Each member of the local vocational agriculture classes will compete in an intra-mural poultry judging contest to be held on December 10th. Members of the first and third year classes will not compete against each other, but will compete against class members.
A gold medal will be presented to the winner of high point honors in each class. The boys are training hard in an effort to win the medals.
Local F. F. A. members are making plans to help make this year's Green Belt Poultry Show a success by working with prospective exhibitors and aiding them in getting their birds to and from the show. Members have been assigned to the task of visiting prospective exhibitors and asking them to show their bird.
The F. F. A. boys in addition to seeing prospective members will also set up the coops and help in taking care of the birds.

GOSSIPOLGY

Is It True - That it was snowing Thursday evening or was it grey hairs falling from English 4 pupils' heads?
That Francis Hott really has to stay home on Saturday nights and visit with her brother?
That Ray Palmer is an out-cast in Civics?
That there are really boys in those macinaws we see on the high school campus?
That Rayburn Smith is in the dumps about something? (Has he lost his girl or is he in the same boat that Mary C. Word is in?)
That Jimmy Watters was running from some strange car Saturday night?
That the school was really disturbed by the noise that Kat, Ryan and Jessie Cornell were making in the typing room Friday afternoon?
That Charlie Murphy and Eugene Noland have gone back to life? (At least in the play 'Coast to Coast.')
That Christine Knox and Johnnie Rhodes have got the 'Trim-bles'?
That Yvonne Smith and Katrina Carlile were freezing on the outside of a Chevrolet car Friday afternoon? (Says them.)
That Thanksgiving comes but once a year? WE HOPE NOT!

Our Book Shelf

Mr. Sidney Dark's 'Paris' is a fascinating book about a great city. As in his 'London,' this book is a series of personal impressions. As in London, Mr. Dark tells about the 'past of 'ghosts' of the places which interest him. As is London, this book is vividly illustrated. Mr. Henry Rushbury is the talented artist who drew the pictures for 'Paris.'
The book 'Paris' is as interesting as the old city itself. Mr. Dark tells us about a few of the places that have been made interesting by people and events of the past. We see Paris through Mr. Dark's eyes, and as we read, we seem to be following him as he walks in the ages past. Among the scenes of interest is the place where the guillotine, Versailles, built for Louis XIV, is an interesting old place that has played an important part in history.
Mr. Dark takes us to Notre Dame, a cathedral dearly loved by Victor Hugo. Many emperors and kings have been crowned at this cathedral.
We visit the Arc De Triumphe, erected by Napoleon as a monument to his glory and under which now lies the body of the Unknown Soldier of France. Each is a war memorial, and each represents a disaster of a century. Mr. Dark takes us to Faubourg St. Antoine, the scene of the D'Argues' wine shop in the Tale of Two Cities. He takes us down the street where the Three Musketeers once strolled. We visit

Band News

The band is sponsoring a benefit program Friday. Cal Farley's Dutchman Circus will be presented at eight o'clock at the College Auditorium. The admission is ten and twenty-five cents. The proceeds of this will go toward paying on the uniforms bought last year. This circus was presented here last year and was very popular.
The Clarendon band played at the Memphis-Wellington game Friday night, November 19, at Memphis.
Each of the twelve chapters of 'Paris' deals with a different section of Paris. The places mentioned in the preceding paragraphs are only a few of the interesting places described.
CLARENDON GIRL A WINNER LETTER WRITING CONTEST!
Miss Carrie Davis, cashier of the West Texas Utilities Co., has been advised that she was given honorable mention, bringing a cash award of \$1.00, in a letter contest on 'Why I Bought Land In The Medina Valley.'
The first prize of \$25.00 was awarded to R. R. Johnson of Burk Burnett and a smaller prize was won by Monte Ray Wolford of Lela Lake.
Julius Slade pushed a wheelbarrow from Lumberton, Miss., to Chicago to win a bet of \$200.

Last Week To Sign Retirement Papers

This is the last week for those rural teachers who do not wish to enter the state teacher's retirement plan, to sign waivers, County Superintendent Geo. W. Kavanaugh announced Monday. He said that waivers must be

filed in Austin by Nov. 30, otherwise he would be forced to withhold five per cent of the teacher's salary to be placed in the teacher's retirement fund. If teachers do not sign the waivers they automatically become members of the retirement plan, Kavanaugh added. Bristol Boards at The News.

FOLLOWING A GREAT SUNDAY-SCHOOL LEADER

Mr. Moody and His Famous Sunday School Pony

CHICAGO—The middle years of 1896, has promoted Centenary Celebrations during the year in many of the world's outstanding churches and Sunday-school work. The year 1937 has marked the one hundredth anniversary of his birth. It is an appalling revelation that in America thirty-six million youth and adolescents are outside the church and Sunday-school, with no Christian influences or instruction shaping their lives.

Mr. Moody's life was a constant evangelist's life. He was giving more and more time and effort to Y.M.C.A. mission, and Sunday-school work. The year 1937 has marked the one hundredth anniversary of his birth. It is an appalling revelation that in America thirty-six million youth and adolescents are outside the church and Sunday-school, with no Christian influences or instruction shaping their lives.

Bobby Breen Stars In "Make a Wish"

All the elements of a thoroughly entertaining motion picture are combined in Bobby Breen's new musical starring vehicle, "Make a Wish," the Principal Production for RKO Radio release.

Foremost among its attractions is the sweetly tender voice of young Bobby himself, who sings several numbers written especially for the picture by Oscar Straus, noted Viennese composer. Another Straus song is sung by the lovely Marion Claire, radio vocal star, who makes her screen debut in this production.

A new Basil Rathbone, essaying his first completely romantic screen role, shares the love interest with Miss Claire, though their romance is complicated by the fact that the young lady is engaged to Ralph Forbes. The strong comedy element in much of the story is in the capable hands of a large group of popular comedians, the explosive Henry Armetta, Leon Errol, Donald Meek and Leonid Kinskey.

"Make a Wish" was directed by Kurt Neumann, who has been in charge of the filming of all Breen pictures. The original story was written by Gertrude Berg, author, director, and leading player in "The Rise of the Goldbergs" and "House of Glass," two of radio's most popular serials.

ATTEND MASONIC MEETING

Bill Walters and Marshall Morris attended a meeting of the two Amarillo Masonic lodges Friday night to honor George F. Morgan, El Paso, former Clarendon resident and past grand master of Texas masons.

R. Y. King left Tuesday for Tia-ban, N. M., where he visited several days with his sister, Mrs. Ben Hall.

market, "Tomorrow Is Ours." Mrs. Peattie is said to be "a connoisseur in the small pleasures of daily living," and this story is full of that charm.

Mary Roberts Rinehart has a new "Fish" book, "Fish Marches On." The redoubtable "Fish" and her friends have been laughed over through the years since the appearance of the first one. The others are on our shelves.

Sylvia Thompson whose "Breakfast in Bed" was mentioned as one of our recent acquisitions and whose "Chariot Wheels" and some others are on our shelves, has just arrived in this country. She is scheduled to appear at the New York Times Book Fair and to visit Boston for the Harvard-Yale game.

L. M. Montgomery whose name brings before us, "Anne of Green Gables" and the other charming stories of the series, has a new book, "Jane of Lantern Hill." Mrs. Montgomery was reared on Prince Edward Island, and her girls' stories with this island for their locale are a source of joy to her readers.

Thanksgiving is now a Woman's Holiday too!

If our service to you during this last year has been instrumental in providing more leisure, more pleasure, and greater happiness, then this Thanksgiving Day is occasion for us to give sincere thanks. Like many of you, we have "grown up" right here in West Texas. This is our twenty-sixth Thanksgiving. So we can remember when the turkey season meant a holiday for every one except Mother. The Thanksgiving dinner was a long, tedious task for her . . . many hours in the kitchen before a hot, odorous stove. And there were scads of dishes to wash when it was over. This burden on her is no longer necessary, we're happy to recall. The trend toward the all-electric kitchen means complete emancipation for women. Out of this freedom is born the Neocleotress—a modern home maker alert to this new electric age. The vista of a more glamorous future than pots and pans has become a reality, whether it be Thanksgiving or just another day. If you have not yet electrified your kitchen, we suggest that you investigate the economy of Electric Servants ere another holiday rolls around. They have made Thanksgiving a vastly happier day for many of your neighbors . . . and we are glad!

It had been left by Clifford Davis of Amarillo, who had been on a deer hunt in southwest Texas with Mrs. Chase's son-in-law, Keith Stegall, of Pyote.
