

Plans For News' Cooking School June 13-14-15 Maturing Rapidly

"Star In My Kitchen" Will Glorify Art Of Home-Making

MOTION PICTURE COOKING SCHOOL OFFERS HELPFUL SUGGESTIONS

Going to school in a theatre! It sounds a bit strange, doesn't it? But that is what women of the community will be doing when The Clarendon News' Motion Picture Cooking School comes to town on June 13.

There will be real lessons, too, lessons in measuring, mixing, and blending the ingredients for many recipes; in the preparation of such triumphs as a lattice-top fruit pie; in making delicious frozen desserts and salads; in laundering fine fabrics; and in planning healthful meals for growing children.

The camera has assembled all the expert information of trained home economists—not a routine lecture, not a formal "high-brow" demonstration, but as a real romance of home-making, full of suspense and charm, and informal chats from one-good-cook to another.

There will be remarkable close-ups of each process in a series of model conveniently-equipped kitchens, (not the synthetic, false-front variety), where trained home-makers will plan and complete several meals so the entire audience can see the process, step by step.

The class won't be all work, for there is the constant play of sparkling humor, the appeal of tender romance, the suspense of a coherent, intelligently-directed story, which dramatizes everyday happenings—the human sort of things that really do happen.

Binding the attractive story together is the romance of home-making, a subject that holds the interest of every woman young or old. Even The Clarendon News knows that all women—brides, business types, and experienced housekeepers—respond to the fascination of looking in on another woman when she is at work in the kitchen.

Particularly do they like it when they are allowed to sit quietly and watch closely, while she measures and mixes and completes the entire cooking operation, this close-up personal study will be more helpful than hours of ready recipes or blind experiments.

The motion picture camera was leisurely, completely unhurried and painstakingly accurate in recording "Star in My Kitchen." There is no trickery in the cooking, baking and preparation of appetizing ice-box wonders. Competent cooks who have drifted into bad habits will be able to check their own mistakes by studying the systematic routine revealed in those closeups.

"They make cooking and housework seem so easy," the audience will say after watching the experienced home-makers in "Star in My Kitchen" instruct the eager young Dedee Abot. And cooking will become easy for every woman who attends the Motion Picture Cooking School, where the lessons will be simple yet remarkably effective.

It sounds like a real re-union for women of the community, even to The Clarendon News, which is getting a steady stream of congratulations on booking this profitable cooking school.

In addition to the daily recipe sheets, a generous store of gifts are destined to be carried back to many a home from the Pastime Theatre. Nationally-known companies who are joining with this newspaper in making the school possible are:

Lever Brothers Co., Spry shortening, Lux Toilet soap, Lux Flakes, Lifebuoy Health Soap and Rinso.

Pillsbury Flour Mills Co., Pillsbury's Best Flour and Sno-Sheen Cake Flour.

Fruit Dispatch Co., bananas.

Thomas J. Lipton, Inc., Lipton's Tea.

Frigidaire Corporation, Frigidaire Refrigerators.

Quaker Oats Co., Aunt Jemima Pancake Mix and Quaker Oats.

Kraft Phoenix Cheese Corp., Kraft Dinner, Kraft Velveta and Miracle Whip Salad Dressing.

Don't miss the 1938-model school, June 13, 14, 15 at the Pastime Theatre.

W. M. Montgomery of Lakeview and formerly of Clarendon, was in town Tuesday.

COUNTY BOARD OF EQUALIZATION SITS HERE JUNE 16 AND 17

FIRST PATHFINDER STORY TELLING HOUR TUESDAY

The first of the annual summer series of the story-hour sponsored by the Pathfinder Club will be held Tuesday, June 7, on the court house lawn from seven until eight o'clock. The story teller will be Mrs. R. E. Drennan, and Mesdames Eva Draffin and H. T. Burton will sponsor it. The Campfire girls will assist in the games for the children.

All children up to twelve years of age are urged to come to the story hour.

PATRICK EXTOLLS AGE OF CHEMISTRY

SPEAKER SAYS BALANCED AGRICULTURE MAY COME THROUGH LABORATORY

Vacations and visiting members of the Clarendon Lions Club had the attendance Tuesday at the regular weekly luncheon of the local organization, but a most interesting program was enjoyed, when Lion W. H. Patrick brought to the club an address on recent achievements of chemistry in the field of agricultural research.

Lion Patrick's address dealt with the newly discovered process whereby grain sorghums and corn could be reduced to a fluid which when combined with gasoline, would produce "agrol" an inexpensive motor fuel. This blended fuel can absorb, it is calculated, 2,000,000 acres of grain sorghums and corn in Texas alone, and the resultant fuel would be a guard against the day when crude oil supplies are exhausted or greatly curtailed in America.

Lion Patrick ventured the assumption that the science of chemistry was yet in its infancy insofar as the utilization of agricultural products are concerned, and expressed the firm belief that through its discoveries will come the necessary balancing of the supply and demand for farm products in the Southwest.

W. H. Patrick was proposed as president of the Club for the ensuing year when the nominating committee made its report Tuesday.

Other officers on the report is as follows:

First Vice president, R. E. Drennan; second vice president, P. B. Gentry; third vice president, O. L. Jenkins; treasurer, A. A. Mayes; secretary, Robt. S. McKee; taitwister, H. M. Breedlive and lion tamer, Allen Bryan.

Directors, 1937-1939, Walker Lane; 1938-1940, J. Frank Heath; 1939-1940, L. E. Thompson. Carry-over directors are McHenry Lane and the retiring president, H. T. Burton.

Rex Reeves and P. B. Gentry, Jr., were introduced as guests of the day.

Orchestra Member Will Tour Europe

P. B. Gentry, Jr., student of Kemper Military School at Booneville, Mo., arrived Sunday to spend a part of his summer vacation with his parents, Mr. and Mrs. P. B. Gentry.

He will sail for Europe on the S. S. Columbia June 30 with other members of a Kemper School Orchestra for a tour of nine countries. The orchestra will return on the S. S. Europa Aug. 30. Young Gentry is pianist for the musical unit.

Mr. S. M. Pinkston of Wellington recently acquired a 450-pound, 8-foot prehistoric tusk which was located on the Salt Fork. The tusk was in almost perfect condition, the spirally curved end still being polished. This is one of the best which has been found in this country.

INJURIES FATAL TO GEORGE KNIGHTON

RESIDENT OF COUNTY FOR 19 YEARS SUCCUMBS SUNDAY MORNING

Funeral services were conducted Sunday afternoon at 4:00 o'clock at the Church of Christ for George Knighton, 54, who was fatally injured when struck by an automobile at the intersection of Highway 370 and Kearney St., Saturday night at 11:25.

Services were conducted by H. P. Cooper, minister of the Church of Christ of Shamrock, in the absence of H. V. Crumley, minister of the local church.

Knighton, who had been employed by L. L. Wood for the past eight or nine years until recently was crossing Highway 370 when he was hit by an automobile driven by James C. Parker, 16, of Quail. Aubrey Speer and W. H. Ellis were also occupants of the car. Parker was traveling east with a green light, according to testimony brought out before Justice of the Peace W. A. Davis Monday morning, and did not see Mr. Knighton until a moment before the impact, he said. The car was traveling between 15 and 20 miles per hour. The accident was declared to have been unavoidable.

The injured man was rushed to the Adair Hospital in F. M. Stovall's car. He died from a fractured skull and severe chest injuries about 4:30 Sunday morning.

Knighton was born Dec. 17, 1883 in Tennessee, was a member of the Church of Christ for several years, and had been a resident of Donley county for 19 years.

There are no survivors.

City Park Improved For Picnic Ground

The city park north of the grade schools is now in suitable condition for picnic parties. Under the sponsorship of the Les Beaux Arts Club, the park has been cleaned of weeds and trash, and all flower beds set out in flowers and shrubs.

One oven and two tables have been placed in the park for the convenience of those who wish to picnic in the park. The park is being improved for the people of the town, and it is hoped that they will take advantage of it during the summer months.

The Art Club wishes to thank the city of Clarendon and others for labor and materials donated in building the tables and oven.

Woodul Opens His Regional Drive Here In Clarendon

Lieutenant Governor Walter Woodul of Harris County, making the first campaign speech of a West Texas tour in the race for attorney general, was cordially received in Clarendon Monday afternoon by a group of farmers and townspeople.

The popular and genial Houstonian was introduced to the crowd by Tom Connolly, who in turn was introduced by Sam Braswell, publisher of The Clarendon News.

Lieutenant Governor Woodul reviewed his early struggles to secure an education despite the handicap of poverty, telling how

Lieut.-Gov. WALTER WOODUL. Candidate for the office of Attorney General, who opened his West Texas campaign in Clarendon Monday afternoon.

he washed dishes in a restaurant, ran a night telephone exchange and did odd jobs to work his way through high school and the University of Texas.

He mentioned his service as a private and a sergeant in the army, on the Mexican border, and his later service as a soldier in the world war.

He reviewed his work in behalf of a unified state highway system better school facilities, measures needed by farmers and stockmen, and other highlights of his career in the Texas Legislature, as a senator from Harris County.

The friendship which the people of West Texas have felt for him during his public career was shown four years ago when he was a candidate for lieutenant governor running against a field of five other candidates. He swept West Texas, and during his present tour he has received many assurances that he will run an even stronger race this year.

In his Clarendon speech, Lieutenant Governor Woodul declared that retail merchandisers of Texas must be protected against foreign monopolies.

On this point he stated: "The federal congress has passed two salutary laws which have for their purpose the keeping of the field of retail merchandising open to all local distributors and merchants. They are the Robinson-Patman Act and the Federal Fair Trade Act.

"Greedy competition by foreign monopolies which seek to control retail distribution must be curbed, because it is not only injurious to the small business man but also injurious to the farmers, manufacturers, wage earners and consumers.

"The independent business men of this country are the men who pioneered Texas when it was necessary to cut roads through the piny woods and establish settlements on the prairies. They built the churches and schools. They are the leaders of all civic matters, and anything that injures them injures the entire economic set-up.

"I favor a reasonable fair trade act and similar acts in many other states.

"It will be my duty as attorney general to enforce such an act when passed, as well as the tax on chain stores, and I will fulfill this duty."

Tom Bugbee of Goodnight came to Clarendon Tuesday.

Mr. and Mrs. Willard Hudson of Vernon were in the city Tuesday.

MEMORIAL FUND IS AT HALFWAY MARK

COMMITTEE HOPES TO RAISE BALANCE WITH SMALL CONTRIBUTIONS

Their work half done, members of the Goodnight Memorial Fund committee are doubling their efforts toward a speedy realization of their \$1,000 goal. W. H. Patrick, chairman of the committee said Wednesday.

The money is being raised to erect a monument at the grave of Col. Charles Goodnight, "Father of the Panhandle cattle business." The Goodnight grave, in the little cemetery at Goodnight, has been unmarked since his death in 1929.

Members of the committee plan to erect a monument identical with that of Mrs. Mary Ann Goodnight, who is buried beside her husband. Then, a bronze plaque will be placed between the two graves and the burial plot will be enclosed with an iron fence.

Mr. Patrick urged those who have contributions to make to the fund to send them soon either to himself or to Mrs. Harold D. Bugbee, treasurer of the fund.

"Contributions in any amount will be appreciated," he said. "The most popular amounts have been \$1 and \$2. As a matter of fact, the committee would be greatly pleased if the balance of the fund could be raised entirely by small donations, in order that more Panhandle people might feel they played a part in paying honor to this great plainsman."

"Broncho Range" Wins In Contest

The Broncho Range, school paper of the Clarendon High School and Junior College which is printed in The Clarendon News was judged third in the contest sponsored by the department of Journalism of Texas Technological College in Lubbock. The papers of Canyon and Wheeler won first and second places. These papers were judged by members of the faculty and senior journalism students at Tech.

This contest is sponsored annually for schools of the Panhandle. As this was the first year the Broncho Range had been entered and as the editors made no special effort to win, and as most of the papers of the schools are entered, it is quite an achievement.

The Clarendon News congratulates Dr. and Mrs. H. F. Harter as the proud parents of William Murphy Harter, who arrived this morning at 5:30 o'clock to make his home with them. The lad weighed six pounds.

HOPPER FIGHT IN COUNTY INCREASES

CLARENDON AND HEDLEY MIXING PLANTS WORKING TWO SHIFTS

War on the severe grasshopper infestation in the county is taking on new life this week as another car of 800 sacks of bran was received Tuesday by County Agent H. M. Breedlove.

This makes a total of approximately 3,200 sacks of bran now stored in the Clarendon warehouse. The mixing plants at Clarendon and Hedley have a sufficient supply of bran for several days. Both plants are working two shifts of men in order to supply the demand.

Breedlove, after making a county-wide survey of the infestation reported that the hopper plague was worse than it was a week ago, and that they are much larger.

All farmers in the county are urged by the county agent to get a plentiful supply of poison and scatter it thoroughly as a measure against the continued spread of the hoppers. Farmers who have already scattered large quantities of the poison mixture report wonderful results. Breedlove said. A few farmers have put mechanical spreaders into use obtaining appreciable results.

The highway department has started spreading poison on the right-of-ways in the area south and west of Amarillo and will continue the work until the right-of-way on all highways in the Panhandle have been covered. W. J. VanLondon, division engineer at Amarillo, has advised local officials. He requests that range owners contact the local county section foreman as the highway department wishes to spread the poison along the highways the same time the rancher does on adjacent land. Highways along cultivated areas are being worked first, he said.

There is a large fish hatchery there at the head of the San Marcos River. The climate, Mrs. Parks states, is quite cool. However she said, she likes McAllen better as a place to live.

COUNTY IS BLASTED BY HAIL AND RAIN

HEAVIEST HAIL FALLS IN GOLDSTON COMMUNITY; RAIN NEAR HEDLEY

A heavy rain and hail storm swept across the northern edge of Donley county late Monday afternoon accompanied by powerful winds of brief duration, inflicting minor damage in the area.

Spots in the Goldston community received a heavy hail that, according to reports, filled plowed furrows, completely damaging young cotton. A heavy hail was also reported north of Jericho.

Wind of high velocity blew down a windmill on the J. R. Dale farm two miles south of Goldston. Thirty acres of cotton, three and four inches high on the same farm was wiped out by the heavy hail, and will have to be replanted.

The Martin community also had a hard rain during the afternoon. Shortly after midnight the section west of Hedley had one of the hardest rainfalls in some time.

Precipitation was estimated to be from three to five or more inches, creeks were running out of the banks in a few minutes, farmers said.

Rain and hail fell in Clarendon for a few minutes, but soon passed away. Heavy black clouds hung in the north and northwest for some time after the rain here.

GOVERNOR'S RACE IN STATIC CONDITION

Reports coming from all sections of Texas bear out the opinion that there is no change in the relative positions held by the leaders in the race for governor of Texas, even though there have been several new entries.

From the very start it has been apparent that the race was between Attorney-General Bill McCraw, and Railroad Commissioner Ernest Thompson, with a dozen aspirants trailing far behind. June 1st finds no change in that situation.

One entry in the race is W. Lee O'Daniel, radio entertainer of Fort Worth, who is adding color and interest to the race among those straggling behind the two leaders. There are many observers who are saying that O'Daniel will run ahead of Tom Hunter and Karl Crowley, and the News is inclined to believe that they are right. Tom Hunter has definitely established himself as a loser in Texas primaries, while Karl Crowley is such a new-comer he has little hopes of making any substantial showing. He also has the handicap of a general suspicion that he is riding a former federal connection, which in the present temper of Texas voters reduces what appeal his ability and sincerity might otherwise hold.

No. the governor's race in Texas is "static"—it's still Bill or Ernest by tremendous odds.

THERE ARE MANY WHO WILL NOT BOW THE KNEE

The News is happy that there are so many conscientious newspapers in the Texas Panhandle who refused several weeks ago, as we did, to accept a juicy beer advertising schedule.

The newspaper which stands for sobriety, good morals, and a citizenship of highest ideals, cannot afford to carry advertising calculated to further reduce public sentiment against intoxicants, and increase the demand for social drinking of beer and stronger liquors, which always goes along with it.

Like almost every other newspaper in the land, The News needs more revenue, but it will never bow the knee to the worst influence America has to cope with in this modern day—the beer and liquor interests.

Good citizenship cannot tolerate any other policy now or ever.

FACTS ABOUT FUNDS

In the past five years the Federal government has paid out exactly \$14,218,773,000 in emergency relief funds! How much is that? More than \$110 for every man, woman and child in America, enough dollars to six times bridge the distance from earth to moon, enough \$1 bills for 57 earth-girdling dollar chains!

Where has it gone? It takes a quarter of a billion dollars to circle the earth. Twelve belts for the earth's middle went for direct relief, nineteen more for work relief. Fifteen world-girdles of dollars went for PWA projects, seven for CCC camps, and four for odds and ends.

Where did it come from? Out of your pocket, Mr. and Mrs. Tax payer, and out of the pockets of your children. And out of those pockets must come billions of dollars in local and State relief as well.

What can we do about it? Take more interest in our local, State and National government! Watch the nation's dollars as we do our own pennies! And remember the dollars, 14,218,773,000, now, that are gone!—Alice Echo.

THE NEW SCRUB WOMAN

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—The campaign for State offices, dominated, as usual by the Governor's race, entered its second and final phase this week, with the advent of June warm weather, and a noticeable quickening of public interest in political matters.

Austin always gets pretty prompt and pretty accurate reports of the sentiment of the voters in every section of the State, because there are so many folks there to whom this information is important. It is especially true this year, with most of the leading candidates incumbents in some office, and chief headquarters in most races being maintained here.

These reports this week were in unusual and impressive agreement regarding the Governor's race. Information was sought by this correspondent from known partisans of each candidate, and from neutral observers (including the lobbyists, who can't afford to let their personal prejudices interfere with genuine information they get.) Casting up these opinions from all sources, the major races seem to shape up about as out-purport to reflect anything except the situation as of this week-end and does not imply that wholesale upsets cannot occur during the most important period of the campaign, just starting. This report is gathered purely for the information of those who follow this column, and is not intended to influence or change anybody's vote.

GOVERNOR'S RACE

Attorney General Bill McCraw is unanimously conceded first place, with Ernest Thompson in second place, and a runoff certain between these two. Most observers think Tom Hunter will place third, and the remainder of the field will train in various positions. Crowley and O'Daniel, unknowns politically, are subjects of considerable speculation, with many observers believing either may surprise the experts.

McCraw's race has visibly slowed up during the past few weeks, and the Sunday quarter-backs think it is a natural reaction from the tremendous buildup put forth in behalf of the McCraw opening at Arlington. They seem to think his campaign has been poorly timed, and it will be difficult to maintain the high velocity that was built up. Thompson, on the other hand, is getting the benefits of the widespread and careful organization work which his campaign managers are doing, and the best informed sources here agreed that the gap between the two top candidates is narrowing slowly but surely. Thompson has surprised friends and foes alike with the speeches he has made, which were better than even his close friends believed he could do. McCraw is living up to his

established reputation as a speaker and personal campaigner. Probably it will be the last ten days of the runoff campaign before any accurate guess as to who will be the next governor of Texas can be made.

ATTORNEY GENERAL

Walter Woodul, campaigning this week in West Texas, is obviously out ahead of the field, and most experts here believe Jerry Mann would be in the runoff with him if the election were held now. Yarbrough partisans, however, were claiming heavy gains in Mann territory, while Woodul supporters still insisted there may be no runoff at all.

Railroad Commissioner C. V. Terrell, with half a dozen opponents, was believed by most observers to face a runoff, with John Woods and Bob Stuart apparently the best bets to oppose him in the second heat.

Coke Stevenson's quiet personal campaign for Lt. Governor was reported bearing fruit, and with the impression general that George Purl of Dallas will not enter, after all, there appeared some doubt as to the possibility of a runoff. Most observers did not concede Pierce Brooks, the Dallas candidate, enough strength to affect the result.

OTHER OFFICES

Enjoying the benefits of being the "ins", Comptroller George Sheppard, Treasurer Charley Lockhart, Agriculture Commissioner McDonald, and School Superintendent L. A. Woods were conceded to be on top in their respective races, with everybody agreeing that their opponents had an uphill climb. In the Land Office race, however, Commissioner Bill McDonald was in no such happy position, and his two active opponents were regarded as a real threat to his re-election, with a runoff considered fairly sure.

CROWLEY FRANKS LITERATURE

All the other candidates for governor were buying stamps to mail out their literature—and having a tough time raising money to do it with, they claimed—but Karl Crowley, lately of Washington was mailing to voters from Dallas hundreds of copies of laudatory speeches made at a Washington dinner given for Crowley, and printed in the Congressional Record. The envelopes bear the "frank" of Sen. McKellar of Tennessee, and require no postage.

CALVERT QUICK THINKER

Bob Calvert, speaker of the House, attended the Old Fiddlers' Reunion in East Texas, and distributed literature urging his candidacy for Attorney General. As the shades of night fell, Calvert threaded his way through the hundreds of motor cars parked on the picnic grounds. He opened the door of each car and left a Calvert card. In one car, he surprised a man and his girl friend "petting" enthusiastically. Quick as a flash, Calvert pocketed his card and said: "My name is . . . (naming one of his opponents)

There Is Always Worship Fellowship—Service

Next Sunday will be the beginning of our fifth year in Clarendon, as pastor of the Baptist Church. These years have been brief and fast passing. Were it not for the endearing friendships formed in hours of happiness and in times of sorrow it would seem but yesterday that we came to live in your midst. Your attitude toward Mrs. King, John Burton and me has been excellent beyond compare. We feel under renewed and everlasting obligation to every one of you. There is nothing good that we would withhold from any citizen of this town and surrounding community. We feel that you are entitled to all that you have and a great deal more. It would be our great joy to see every one of you supremely happy. Therefore, we shall renew our efforts at helpfulness in the beginning of our new year as pastor of the church, and as builders of a community in which we are all vitally related.

The gift and tender expressions of appreciation in last Sunday's service shall be a halo of delight throughout the coming days of our lives.

We are to spend this week in a State wide conference at Sem-

inary Hill, Fort Worth, with some twelve or fifteen hundred other pastors looking forward to and praying for a great revival season in our state.

Regular services next Sunday at the Baptist Church. The time will be 7:30 for the Training Service and 8:15 for the evening preaching service. The morning services as usual. Your presence will be helpful to the service.

Edward Blair Ozier and Tom Hickman of Alexandria, La., arrived Sunday morning to visit Mr. and Mrs. E. M. Ozier.

Garden Glances Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners"

The Garden Glancer discovered so many beauty spots this week while on a pilgrimage that it is difficult to summarize them.

It the northeast part of town, the Nat Woods lawn with its thick bermuda grass, running spray and numerous trees was very restful, but near there was the McCreary sodded lawn with the most gorgeous rose garden in town just back of the green grass. And further back, just over the fence is a well-kept vegetable garden. The entire lawn was surrounded by lovely, young trees. Mrs. Jefferies' lawn has very colorful flower beds, and numerous shrubs and trees. Mrs. Rufus Chamberlain has many clumps of spider work in her back yard that is a mass of blue in the mornings. There is also a wild flower treat on every vacant lot, and street side in that part of town. In fact the vast fields of them remind one of the color plates in the National Geographical.

Have you ever seen such beautiful clumps of hollyhocks as are growing here? New Mexico may rival ours in height, but not in variety and color. Notice those growing in the lot between the Shelton and Burton homes.

Someone has been very careful and patient in training the English Ivy at the Light plant as the north walls are beautifully overgrown. The green grass, rustling trees, and the general upkeep of the grounds reminds one of a park.

It is astonishing how many lovely places one can discover in Clarendon when looking for them. Most of these beauty spots have been created by those who enjoy doing their own lawn work, too.

Needle-Craft Club With Mrs. Holtzclaw

Mrs. J. D. Holtzclaw was hostess to the Goodnight Needle-Craft Club at her home on last Wednesday.

Maxwell also of Leonard, took place Sunday morning, May 29, at 9:30 in the home of the bride's parents. Her only attendant was her sister, Mrs. B. P. Brents of Clarendon. Arthur Maxwell of Lawton, Oklahoma, brother of the groom, was best man.

After a wedding trip to Colorado and California, the couple will reside at Alvin, Texas where Mr. Maxwell is athletic director and football coach.

The Low Down FROM HICKORY GROVE

Things are better. It is as plain as the nose on your face, as my father used to say. Or if you want to go back a lot farther, it is as plain as the handwriting on the wall.

And the handwriting on the wall, everybody maybe does not remember just when it happened, so I will tell you. It was in Belshazzar's time. Belshazzar was a king in Babylon.

And they were having a feast, and in the middle of it, a hand appeared, and wrote. And the writing was not in their tongue and the wise men could not interpret it.

But the queen showed up and she said a person called Daniel could read anything. So they sent for Daniel—and sure enough, the Queen was right. And the writing said that the days of the kingdom were numbered, and it had been weighed and found wanting.

And anybody who can forget a cross-word puzzle for 3 minutes, they can read all of the fifth chapter of Daniel and get the whole story, first hand. And Congress, I reckon, it has already been doing so.

Yours, with the low down,
JO SERRA

Memphis Plans For Methodist Meet In Fall

MEMPHIS—Rev. Orion W. Carter, pastor of the First Methodist Church who has returned from the Birmingham meeting of the Methodist Episcopal church, states that the new bishop for the Dallas district, Ivan Lee Holt, will preside over the sessions of the annual Northwest Texas Conference to be held here beginning Nov. 6.

Already plans are being made to entertain the conference. Modernization plans have been completed in the local church, including the installation of a new lighting system.

Rev. Carter, a graduate of S. M. U. is serving his third year as pastor of the local church. He is teacher of the Men's Bible class composed of 100 men.

There has been accelerated interest and attendance both in Sunday school and church, under Carter's leadership.

FARM ANIMALS INJURE, WILDLIFE SAVES, SOIL

One great difference between domestic and wild birds and animals is the effect they have on the land, particularly on soil erosion. It is common for farmers to pasture fields already injured by erosion—gullied land too rough for machine tillage or patches where running water has taken most of the topsoil.

On such land pasturage is likely to be scanty. If cattle, sheep, or hogs are turned in, they usually devour or trample such vegetation as may be left, says Dr. Ira N. Gabrielson of the Bureau of Biological Survey. This increases the erosion damage.

Wildlife, in contrast, lives in and with the natural vegetation that develops in these rough areas not suitable for cropping. Rarely do creatures of the wild contribute to erosion. Rather they allow vegetation to develop and hold the soil. Farmers can help, too, says Dr. Gabrielson, by seeding or planting quick growing plants and trees that are soil binders and also provide cover and food for game. Catering slightly to the feeding, wintering and nesting habits of the game will attract birds and animals and increase the game crop which sportsmen will be glad to harvest—and pay for the privilege.

Domestic animals are likely to further destroy land that has been injured by cultivation. The same

land devoted to wildlife will be preserved and even improved. This contrast often points out the difference between good management and poor management of the rougher and less fertile parts of a farm.

WHY NEWSPAPERS ARE CALLED FOURTH ESTATE

The press is called the fourth estate because of its great influence upon public affairs. Formerly in England and France the church, the nobility and the commons were known as the three estates of the realm.

There has been much discussion as to who first called the press the fourth estate. Authorship of the phrase is variously attributed to Burke, Carlyle and Macaulay. In 1840 Thomas Carlyle published his "Heroes and Hero Worship." In lecture V of that work, he says:

"Burke said there were but three estates in parliament; but, in the reporter's gallery yonder, there sat a fourth estate more important far than they all. It is not a witty saying; it is a literal fact—very momentous to us in these times."

Carlyle's style of writing is such that it is not clear whether or not he intended to give Burke's exact phraseology. The phrase fourth estate does not appear in any of Burke's published writings and it is not known where Carlyle obtained his information. Some authorities have suggested that he may have coined the phrase himself. Three years earlier he published the "French Revolution." One chapter in that work is entitled "The Fourth Estate." It contains the following sentence: "A Fourth Estate, of able editors springs up." But Macaulay wrote in the Edinburgh Review:

"The gallery in which the reporters sit has become a fourth estate of the realm." A correspondent of London "Notes and Queries" stated that he heard Lord Brougham use the phrase in the house of commons about 1823 or 1824.

ENGINES WILL BE WORN LESS THIS SUMMER

But you want to know exactly why. You're leery of general statements that won't save you one piston ring or one quart of oil. So you want what the doctors call a *specific*. And that's what you get—a definite, substantial, physical protector that actually exists right in your engine as soon as you get it *OIL-PLATED*. Only patented Conoco Germ Processed oil from Your Mileage Merchant's station can give you engine *OIL-PLATING*. Other oils can't. No matter how much refining is claimed for them, they cannot surpass the correct refining of Conoco Germ Processed oil, but refining only takes things *out*. Going much farther, Germ Processing *adds in* the patented man-made substance that gives your engine *OIL-PLATING*. Only this *addition* by the Germ Process makes oil "join up" with the working parts, to keep them *OIL-PLATED*. All the while Germ Processed oil is used, *OIL-PLATING* is permanent. Like other plating, *OIL-PLATING* keeps wear from getting through. And like other plating, *OIL-PLATING* can't drain down at any time. Actually united to each surface, *OIL-PLATING* gives your engine lubrication that needn't wait for the oil pump... Before other oils could even begin to circulate, *OIL-PLATING* is ready to lubricate! Thus you know why the much-advertised harm of "dry starting" doesn't mean a thing with your engine *OIL-PLATED*. And you wouldn't expect any good plating to go flying off at Summer speeds, or to frizzle away in the Summer heat. Then expect the heat indicator to stay on the safe side, while the gauge-stick keeps saying, "Still full of Conoco Germ Processed oil!" That's why it's smart and thrifty today to have Your Mileage Merchant *OIL PLATE YOUR ENGINE* Continental Oil Co.
