# Record Rain Booms 1939 Prospects In Texas Panhandle-Plains

# Bank Statements Show Big Deposit Increase In Last 9 Months

# **BENEFIT TO TEXAS PANHANDLE AREA**

FARMERS, BUSINESS MEN AND BANKERS PREDICT OUTSTANDING YEAR

The rain that started falling late Saturday, and which continued throughout Sunday, broke the mid-winter drouth over the state, and also broke a record of 50 years standing, so say the oldtimers in this section, for Janu-

The rainfall registered at Clarendon was 2.75 inches. The average rainfall for January in this section is .43.

This increases the probability of unusually mild weather that has prevailed this fall, bringing stock along with a minimum of feed-

The entire Panhandle-Plains region got good rains, and most of gion got good rains, and most of the moisture was retained, as it IS BURIED HERE began falling slowly, and the heavy showers which fell later were intermittent. Eastern New LATE TUESDAY Mexico and Western Oklahoma also received good rains.

Crop prospects are now unusu ally good, as the land is in conally good, as the land is in condition for cultivation, wheat that has been planted but failed to come to a stand will now come up, and preparation for row crops is possible with a good season in the ground. In addition to the rain the mild weather that has prevailed so far continues, faciliprevailed so far continues, facilitating all work and being to the best possible advantage of the

This much rain, at this time, means good season in the ground for at least three months, and by that time more rain generally falls, so it looks like a good year

# THE FIRST SURPRISE OF THE NEW YEAR-RAIN!

What a rain for the Panhandle country and most of Texas! What a surprise!

The greatest element of interest in any New Year, is the anticipation of happy surprises. In recent years there hasn't been too many of the happy sort, but whatever 1939 may bring forth the BIG SURPRISE RAIN of January will lisger long in the minds of Panhandle people. The heartening thing about the big rain is, however, that it sets up the finest background for the best farming year Donley and her sister counties have had for decades-and engenders the faith that bumper yields will be realized.

Nobody, not even the weather-man, though any appreciable amount of moisture was in sight when the clouds began to form, but the rains totalling from one and a half to three inches over a far-flung territory proves again just how weak and futile man's judgment is-proved his faith even weaker. Then, too, everybody thought it would turn bitterly cold on top of the drought-breaker, but it surprised us again-it didn't, but was almost as balmy as Spring for thirty hours or better, giving the moisture every aid in bringing new life to wheat and grass roots.

Somehow, The News believes that the Surprise Route is the way prosperity will come back to this country, plus good hard work on the part of the great majority of our people.

Let's take our Big, Happy Surprise Rain of January 1939 as an omen of real progress and presperity for the New Year, and let us surprise ourselves and our neighbors by going forward by faith and good, honest efforts, into the coming months confident that faith and labor will be rewarded.

It was a wonderful rain-now let's all make the most

### IGNORANCE IS WASTEFUL GOVERNMENT'S BEST FRIEND

Many oil companies advertise the price of gasoline in this fashion: "Gas, 15 cents a gallon; state and federal tax, 6 cents; total, 21 cents."

If similar methods of illustrating the price of all products were employed, the American consumer would get the shock of his life.

When you buy a five-dollar pair of shoes, a dollor or more is for taxes. When you pay a three-dollar electric bill, 50 or 60 cents represents taxes. When you buy a fortydollar suit, close to ten dollars goes for taxes.

You can't dodge taxation-unless you're a hermit living in the hills. On a normal day, you pay taxes a dozen times, though you may not know it-when you drive your car, ride a trolley, eat lunch, or make a purchase. When the Amerian people get this truth through their heads, there will be a drive for economy in government that will get somewhere. For ignorance of the facts is a wasteful government's best friend,

# FRIENDSHIP

Your hand is worth a million when it meets another hand in friendship. It may not mean a thing today. It may not bring results tomorrow. It may develop nothing for a week, a month, or even a year. But, once you sow the seed of friendship, the results are bound to comemake no mistake about it .- The Lions Claw, Wichita, Kan.

AUSTIN. - Featured by the most elaborate and spectacular pageantly and whoopee that has ever characterized the inauguration of a governor of Texas, the formal introduction of Gov. W. Lee O'Daniel next Tuesday was quietly, and without the usual ex- fice. The new attorney general, citement of rival candidates for posts, quietly met, organized its of oil after the July election,s reof the new governor, which is ex oil is sold for 18 cents and only royal over pensions and taxes.

first flurry of the 1,200 to 1,500 bills that will fall into the legislative hopper during the next 60 days on their way, the solons generally took the attitude that the pensions and the methods of they will wait for his suggestions. Then the fight will start.

MANN IS BUSY Meanwhile, it appeared that the voters didn't make a mistake last summer in retiring certain state officials to private life, as lawsuits were launched, and policy changes indicated, to undo certain last-minute acts of retiring officials. Attorney General Gerald Mann promptly filed suit to void a vacancy granted by Land Commissioner Bill McDonald during mer Dallas legislator. McDonald sold a strip of land, being the through the heart of the Dallas industrial district, to Ray for \$10 channel several years ago when a levee was constructed. The

alleged the \$10 an acre price the plan will be offered early in "shocks the conscience of any the present session. reasonable persons" and moved to void the sale.

The regents of the University fice, in which 2,652 acres of Ector ers' license law, providing a small

University land, upon which there fee for examination of applicants are 56 producing oil wells, was sold to R. L. York of Midland, for \$3 an acre. A suit had already been filed to clear the university's title to this land, which it has controlled for many years, and Maj. J. R. Parten, chairman of the land committee, declared state of. ficials had agreed to suspend further action until the suit had been settled. He said McDonald's action came as a "distinct sur-

Mann also held up sale of 126, 714 barrels of confiscated oil, upon occupying the attention of Austin which court orders had been obweek. The Legislature tained by his predecessor in ofcommenting upon the sales of the speakership and other key several hundred thousand barrels two branches, and stood marking marked "something has been time, awaiting the first message wrong somewhere, when 75 cent pected to precipitate the battle one person is there to bid on it.' Mann indicated he will seek legis-With committee appointments lation, if necessary, to enable the out of the way, Emmett Morse, state to protect itself from havpopular Houston veteran seated as ing to sell confiscated oil at figspeaker without contest, and the ures substantially under its value

COUNTIES TO GET AID

Abandonment of the plan recommend by Norman Taber, New York expert, calling for a state bond issue of nearly \$200,000,000 raising the money to pay them to retire county road bonds, and is Gov. O'Daniel's "baby" and substitution of a similar program, under which the state would pay the principal and 2 per cent of the interest on outstanding county road bonds, was indicated here this week. The plan, worked out by the State Association of County Judges and Commissioners, headed by Judge Jake Loy of Sherman, has the ap-Department, the county officials and the Board of County and District Road Bond Indebtedness. It calls for assumption of the county debt not now taken over by the state, and the use of the surplus which has accrued through assignment of 1-cent of the 4-cent gasoline tax, to the retirement program. Sponsors of the plan claim the 1-cent gas tax allotment will enable the state to pay the principal and 2 per cent interest, The river was moved into a new locating the cent gas tax for a ately give substantial relief to "vacancy" includes land upon the general funds of the affected which railroads, in re-arranging counties by relieving them of most field.

KELLEY OFFERS BILLS Rogers Kelley, new senator from of Texas also moved to act with the Valley, lost no time in making Mann and the university' attorney good on two of his campaign

for license, and other bills to amend the present law which limits the loads of trucks on the highways to 7,000 pounds. Kelley would permit larger truck loads, but only under scientific regulations as to size of trucks, tires, air pressure, and other factors which affect the safety of the general public. His Valley constituency is strongly in favor of a larger truck load limit, as are other large groups in the state, because much of the Valley's citrus and vegetable crops are moved out of the area by truck, and lower freight rates will be possible with larger truck limits.

ALLRED STEPS OUT

Gov. Allred plans to leave Austin immediately for his new home in Houston, after the inaugural ceremonies. He will not take his seat on the federal bench until the U. S. Senate confirms him, expected to be within a few days . . He has leased a colonial residence in Houston, and will take Mrs. Alma Albert, his secretary, for the past eight years, with him as secretary in his new job . . . P. D. Smith, headquarters manager for Bill McCraw, during the summer gubernatorial race, has sued the former attorney general to retire county road bonds, and for \$4,166 which Smith claims he advanced McCraw during the campaign . . . Tom Beauchamp, of Tyler, new secretary of state, will reduce the staff of 54 persons employed in the office and field, he declared on arrival here . . . Lots of hiring and firing by Jerry Sadler, new rail commissioner, has created a furore in the railroad commission offices, but virtually proval, it is said, of the Highway all those fired have been replaced, netting little saving so far in the cost of operating the commission, despite economy talk . . . Harry Knox, flour distributor of Brownwood, is reported as O'Daniel's choice for adjutant general. Knox is a National Guardsman . . . Another flour man, A. J. Wylie of San Angelo, will be O'Daniel's secretary . . . The railroad commission will make no further efforts to prorate gas production in the West Panhandle field unand that through refunding by til the Legislature enacts new legislation, following the striking down of the latest order by a period of 25 years, will immedi- three-judge federal court on petition of Texahoma and Cities Service, chief producers in .hat

# 1939 AAA To Call For More Home-Grown

COLLEGE STATION. - More home grown feed for immediate use and storage on farms and ranches of Texas is contemplated in crop classifications of the AAA for 1939, according to new rulings clarified here by George Slaugh ter, chairman of the Texas Agricultural Conservation Committee of the AAA.

Slaughter called special atten tion to a '39 change with takes sweet sorghums and sudan grass out of the soil-depleting class.

This, he explained, will make more land available for grain sorghums, corn, non-commercia wheat and other general crops for which special allotments are not set up, and should add impetus to efforts of the Texas A. and M College extension Service to encourage the use of trench silos in Texas.

Extension reports recently indicated that the number of trench silos filled in 1938 might reach 20,00 in Texas, a figure which would mark the eight consecutive

Provisions that wheat on a farm green for hay.

AS ROAD WARNING

NEW STRIPES ADDED

AUSTIN, Jan. 6 .- Inauguration of a new system of traffic stripe painting on highways to increase safety was described Thursday by Harry S. Phillips, traffic engi-

neer for the Highway Department. With a center stripe having been painted on all hard-surfaced highways, one or two lines have been added as a warning in areas where single lines of traffic are essential.

One additional line is used on curves and hills where sight distance is restricted, Phillips said. It is placed to the right of the center line approaching a point of short sight distance and continues to where the driver is able to see at least 1,000 feet ahead.

"In certain sections where the highways have limited sight distance each way, warranting single line traffic in both directions, they are painted with three stripes," Phillips said, "and drivers should never pass another vehicle in such locations. Not only does there exist a possible chance of meeting an approaching vehicle but frequently the curvature of

Four-lane highways have a continuous double stripe which should never be crossed, Phillips said, and traffic should stay in the outside lane, using the inside At each census from 1890 to one for passing only.

### EDITORIAL

What's the matter with the Seniors? There hasn't been any thing done by any class this year, but the senior class of every school is supposed to set the example. We hear the students in the halls talk and complain about how they never have anything. What do you expect? Do you thing the teachers are going to worry them selves about your entertainment? It's up to you to do something about it. We realize that the authorities have refused to let us have the room in the home economics building, but let's not give up so easily. Do as the college has done-start giving parties in your homes. And here's something else When you do get your plans made

## BAND WILL GO TO CONTEST

for a party, everybody go. Show

yourselves and everybody that we

still have a school and a school

The High School Band will attend the district band contests to be held at Plainview the first week in April. Mr. Robbins received a letter this week saying that the required number has been selected. Every band is required to play "Military Overture," one other number of a selected list, and a warm up march. The local band has not as yet selected their march and choice

overture. Twenty-eight members will make the trip and as they have nearly three months more to practice they expect and of course hope to go far in the district con-

Thirty-two new books were made available to the students by the librarian this past week.

### \_BR-LITTLE FREDDIE'S DIARY

Dear Diary: A very unfortunate situation has arisen. Our school may lose one of its leading personalities. It seems that Anna Sue Williams semester is over. She has been one of the popular students in CJC, and I am sure that she will be missed by everyone.

The dance given at the home of swell event, and I hope that the students will continue to participate in all of the social events.

Rambling glimpses: The chemstry assistants seem to be rather popular this week as some of the students think that they may hold the key to a grade for the ... I'm afraid that someone is going to be fooled. A little poem I overheard today:

The tests were hard, the tests were tough. And I believe that I've had enough.

Not much of a poem but I believe that it expresses the sentiment of some of the students. Someone must have peeked over my shoulder and sneaked a look as I have heard rumors to that effect. Here's hoping that we have a pleasant second semester. FREDDIE.

# LISTENING IN ON ASSEMBLY

Assembly opened Friday with "The Battle Hymn of the Repub-tic" and "Old Black Joe."

The exercises were conducted by the agriculture department with Joe Williams in charge of the program.

The following talks were given: "F. F. A. Meetings," Joe Williams; "Intramural Judging Contests," Pete Morrow; "Pet Contests," Maschil Cole; and "The F. F. A. Trip to Yellowstone," Junior Spier.

### Shelterbelt Has Proven Value In This Region

Farmers and land owners who have doubted the value of Shelterbelts planted in this section of Texas by the Prairie States Forestry Project should find the following of more than usual inter-

In 1937 a Shelterbelt was planted on the farm of D. L. Lane, who lives some two and one-half miles southeast of Turkey. This was one of the 55 miles of belts originally planted in that area hope she will be back in school that year. Mr. Lane and his tenant realized that trees were just as much a crop as cotton or feed and required attention as such, if the belt was to be a success. They took excellent care of the belt in the way of cultivation during 1937 and 1938, with the result that the cottonwoods attained an average of approximately 14 feet

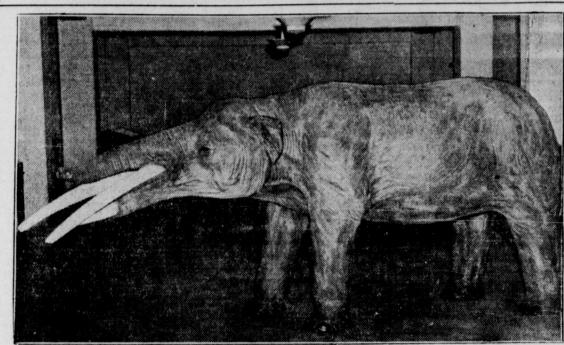

Forest service officers, noting an apparent marked difference in is going to leave us after this the cotton yield on stalks within the area protected by the trees from the drying winds of last summer, arranged to secure accurate figures on the yield within the protected area, as compared Rayburn Smith proved to be a with the balance of the same tected portion. These following figures were, as a result, obtained.

Rows 1 to 75, beginning imme diately north of the Shelterbelt, averaged 97 42.75 pounds per row. The next 89 rows, beginning with row, 76, average 87 50-89 pounds of cotton per row, an increase of ten pounds per row in favor of the area protected by the Shel- vield lessened with the exception terbelt. This is felt to be an ex- of rows seven and eight, which cellent showing for a belt of only were in a slight depression and two season's growth. This check was made on a measured half ture. mile, and bears out the statement of the forest service officers that belts will protect land and crops for a distance of approximately to a length of 1 1-2 inches by 20 times the length of the height midwinter and fall off in the of the tallest trees.

Another check was also made Rod row samples were taken from 16 1.2 feet, was measured and the heart until it goes back.

# Texas Farm Workers Club, New York City, who will better," he said. To Hold Meeting In Ft. Worth, Jan. 13-14

The Texas Agricultural Workers' Association, the only organization in Texas through which agricultural workers may meet on a common ground to discuss their problems and make their work for the welfare of the state's agriculture more effective, will hold its twelfth annual meeting in Fort Worth Jan. 13 and 14.

With the largest membership the association has ever had, the meeting is expected to draw a large attendance, and more than 50 state and national leaders in agriculture and home economics will appear on the program, according to Maurine Hearn, district agent of the Texas A. and M. College Extension Service and secretary of the organization.

The "New Department of Agriculture," as presented by M. L. Wilson, under-secretary of agriculture, and "Southern Handicaps, Agricultural and Industrial," an address by Dr. Walter Prescott Webb, professor of history at Texas University and a native Texan, will feature the first day's program.

Since the material foundation of the home is soil many will be interested in Dr. Helen M. Strong's address on "The Women's Part In Soil Conservation." Strong is head of the the Edu- sections of the state. cational Relations, Soil Conservaion Service, Washington, D. C.

### LAMB FEEDING MAY GROW IN THIS SECTION AS IT SHOWS MORE PROFIT

There are not as many lambs on feed in Texas as in the past feeding season, but those who are feeding lambs may look forward to a profitable operation, W. R. Nisbet, animal husbandman of the Texas A. and M. College Extention Service, said on his return from a swing through the sheep

"Lamb feeders bought their lambs cheap enough to enable them to make a profit on a fat amb market no better than that

Sources of Cash Income for the lambs fattened on wheat pas agent agricultural education, Texas, but very few lambs are on and make lamb feeding possible wheat because of the fall drought," Nisbet declared. "There are less dary Schools." "Distribution of Texas will have a greatly reduced lambs for market and do so year volume of fed lambs.

The 1938 lamb crop was the largest in the history of the country and that fact, together with the unprofitable operations of lamb feeders last season, was responsible for the low feeder prices. Many of the lambs that might have gone to feeders went to the packers, and Nisbet said the large lamp crop has been cut into more than was generally real-

Most lambs are in the hands The meeting will be presided of experienced feeders, and the over by President Louis P. Mer in and outers are largely out this season. The sheep and goat specialist thinks that Texas should 'eed out more lambs as part of

a long time program. One reason why Texas has not

fed a larger volume of lambs is "Generally, there are more that the forage production has been of poor quality. The trench throughout the state rather than lambs in the feed lots, too, so that in spots. Texas should feed more in and year out.

### MORE AIRPLANES

Aircraft production in the United States spurted in 1937 with 3,100 planes completed with 1,365 in 1935, according to preiminary reports of the U. S. Census Bureau. Of this number, 2,-196 were single-engine cabin air-

# **Keeping Cured Meat At Its Best**

By T. C. RICHARDSON, Secretary Texas Breeder-Feeder Association

It is not necessary to have | suggestions for West Texas concured hams and bacon dry or ran- ditions, and they will doubtless cessfully used as far south as the cid in summer as they do when left hanging in the smokehouse until used up. Our old friend leaving them in the cure two days It makes no difference what cotton plays a new role in good eating, and certainly cotton growers should be interested in any method that enables them to use more of their own product to advantage, as they have long done in cooking oils and compounds and more lately in margarine It has been found that refined cotton. seed oil is a superior meat preservative. Ask for refined cottonseed or cooking oil in bulk, or five gallon cans, at your grocer's. Since it can be used over, the cost of preserving meat in this manner is not excessive.

The Lubbock (Texas) Experiment Station gives the following

# TAL BELLEVIEW OF THE PARTY Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering aste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to re-move impurities that, if retained, may poison the system and upset the whole

poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder dis-order may be burning, scanty or too frequent urination. order may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

three years if necessary. It is recommended that bacon be used or removed from the oil after about six months. The Lubbock station has used the same oil for two years with-

out its becoming rancid. It is not yet known how often it can be used, but a method of restoring the oil to its neutral or non-rancid condition is being worked out.

The cottonseed oil method of storing cured meat has been sucapply to most of the Southwest. Gulf Coast, and for long enough

time to demonstrate its efficacy. "Hams can be properly cured by for each pound the ham weighs; method of curing is used-dry salt, sugar cure, smoked or un-smoked, the oil keeps the meat in for example, a fifteen pound ham will cure in thirty days. Bacons the condition in which it comes will cure in one day for each etc. When the meat is removed from the cure. The better the from the cure the excess salt is washed off with clean, cool water, course, but after all, that juicy, course, but after all, that juicy, fresh-cured taste will not be rethe meat is then soaked in fresh tained unless some method of preserving it is employed. The cot-tonseed oil bath excludes fungous bacons. Use fresh water for each molds, insects, and the drying-out effects of the air.

batch of meat, as the water becomes salty with use." Home-cured hams and bacon "The meat is then hung up to may be the best in the world, or drip and dry over night before the most unpalatable. Certainly smoking. Smoking is not absonobody enjoys rancid bacon, or lutely necessary before placing dry, salty ham, such as the best the meat in storage, but is de-"home-cured" becomes in time if sirable. After the smoking is comleft as it comes from the cure or pleted the meat should be allowed to cool. then pack it in any suit- the smoke-house

### CITIES GROW LARGER, BUT FARM POPULATION STABLE

about 33 per cent.

According to the Bureau of Agricultural Economics, the farm population, which is about onebirths and one-half of the excess of births over deaths each year. | become known all over the state. Failure of farm population to increase at as rapid a rate as national population is attributed to extensive migration from farms to villages, towns and cities. The number of people living on farms has decreased from one-half of the total population to one-fourth in less than a century.

Rapid technological changes have made it possible for a relatively stable number of farms to produce food and fiber crops, it pointed out. Increases in afficiency, however, have not been equally distributel in all parts of the country nor to all agricultural groups. But the increase in the productivity of the average worker in agriculture is said to have kept pace with that of the average factory worker.

Mr. Ballew who is one of the most prominent swine breeders of Donley county has been raising fourth of the total population in registered Hampshire hogs for the the United States, accounts for past 10 years and during this time approximately one-third of the Mr. Ballew has produced the quality of hogs for which he has

### RAIN LEAKS IN AND DAMAGES WARD SCHOOL BUILDING SATURDAY

The heavy rain Saturday night and Sunday damaged the South Ward School building to a con-siderable extent. Rain leaked in through the roof on the east side of the building and ran down through all three floors to the basement. Dry weather causing the roof to crack is believed to have been the cause of the leak. A large amount of water and sediment was deposited in the building. A number of books, particularly in Miss Elizabeth Stevens room, were ruined by water. The damage was discovered in time Sunday to have it cleaned up for school Monday.

### NEGRO BATTLE ROYAL TO FEATURE PROGRAM

A battle royal between four ne groes will be the featured bout in the fight program at the college auditorium on the night of January 26. Following the battle royal, the local F. F. A. leather throwers will match their skill with the "Terrible Turks" of Turkey High School.

On Saturday, January 24, a negro exhibition bout will be held per cent since 1900, according on the street between Bryan U. S. Census Bureau reports

Clothing Company and Mellinger Rosenwasser, for the purpose of advertising the Turkey and Estelline bouts. In addition to the two negro bouts, two other exhibition bouts will be presented in the roped area.

### BRONCHITIS DEATHS DROP

Deaths from bronchitis in the United States have decreased 93 per cent since 1900, according to

# IN FLORSHEIM SHOES

# WITH FLAREWEDGE

Normal outflare feet swing to the outside, press and rub the wall of an ordinary shoe . . . causing corns, callouses, strain, and "running-over." You end these evils in Flarewedge shoes, for they're scientifically designed to follow the lines of outflare feet.
