## Highway Commission Grants Association Parley

### PLEA FOR NORTH-SOUTH ROAD SET FOR SEPT. 1ST

DELEGATIONS TO AUSTIN FOR HEARING TO ASK EARLY CONSTRUCTION

Following the action of the North-South Highway Rally at Turkey a few days ago, application for a formal hearing was made to the highway department by the Association through its secretary, John R. Gillham of Clarendon. Gillham has been notified that the application has been granted and the hearing set for September 1st, which will be the next sitting of the commission following the summer vacation.

County officials and directors of the North-South Highway association have been notified of the hearing date and plans are under way for a large delegation from the numerous counties involved to appear before the commission at Austin on the day appointed.

County Judge R. Y. King of Donley County says if plans under way here go through every member of the Donley County court will be present for the hearing besides officials of the chamber of commerce and the Association.

It is said that every right-of-way detail in Hall and Donley counties will be out of the way by September 1st, and according to the action of the Turkey Rally early construction of the Turkey-Clarendon gap will be urged, along with other work completing the route from the state line in Ochiltree County all the way down to Del Rio and the international boundary with Mexico.

### Penelope Blocker Is Prize Winner at Memphis Rodeo

Miss Penelope Blocker of Clarendon, tied for second place for the "out-of-town" sponsors contest in the Hall County Old Settlers reunion rodeo. Miss Blocker and Miss Fern Sawyer of Brownfield were judged second to Elizabeth Miller of Snyder who won the \$125 saddle for first place.

The Clarendon contestant received a fine pair of boots.

Sponsors competed from Shamrock, Throckmorton, Panhandle, Silverton, Spur, Water Valley, Estelline, Seymour, Childress, Matador, McMurtry ranch, Turkey, and Plainview.

### Lightning Kills Howard Holland Friday on Farm Near Ashtola

Howard Holland, 38, former Donley County resident, was killed instantly by a bolt of lightning as he and his tenant D. E. Bell, were walking in the Holland farm home yard near Ashtola Friday afternoon.

Holland, son of Mr. and Mrs. J. W. Holland of Clarendon, was an employee of the city of Amarillo and was spending part of his vacation on his Donley County farm.

According to a Clarendon physician, called to the farm, the victim and Bell were walking in the yard. The bolt killed Holland instantly and stunned Bell.

Mr. Holland has been employed by the city of Amarillo since 1924 and was shop foreman at the time of his death. He was due back to work Monday.

A native of Alabama, he had been in Amarillo several years. He served in the World War and was stationed at Panama.

Funeral services were held Saturday afternoon at Boxwell Brothers funeral home in Amarillo with Rev. Clinton V. Oldham pastor of the North Amarillo Church of Christ officiating.

He is survived by his widow five sons, Garland, Murl, Theron, Bobby and Harold; two brothers, Lawrence Holland of Erick, Oklahoma and Bernard Holland of Amarillo; and four sisters, Mrs. L. E. Smith of Mayfield, Oklahoma, Mrs. J. H. Riffe of Hedley, Mrs. Virgil Beavers and Mrs. Earl Miller, both of Amarillo.

### Dalhart's General XIT Celebration Committee

Here are the men, one of them a former XIT Cowhand, who constitute the General Committee in charge of the Fourth Annual XIT Reunion and Rodeo in Dalhart August 7 and 8. Left to right, they are Charlie Coombes, John Colquitt, chairman; Mayor

Frank Farwell, who once worked for the spread, County Judge John Honts, Allyn Finch, Coombes, Colquitt, and Farwell are business men; Finch is a rancher. Texas in the 1880's paid for its Austin capitol with the three million acre XIT ranch which since has been cut into

smaller ranges and farms. The forthcoming program, honoring former XIT hands and all pioneers, includes a tribute service Sunday night, August 6; rodeos, pageant, parades, band contest, old time and modern dances, numerous Western specialty acts on the other two days.

### 6,000-Foot Test In Hall County

MEMPHIS, Aug. 2.—Hall County is to have a new wild-cat test. Active leases for the proposed test are G. H. Bugbee, of Redlands, California, a former cattleman of this section, and his niece, Mrs. Charlotte Carter of Boston, Mass.

Leases are about complete, and Mrs. Carter will leave for Boston this week where private capital is being supplied by eastern interests for the test.

The well will be spudded in soon on the Deep Lake block, 15 miles southwest of Memphis, Bugbee said.

A standard rotary rig will be used for the independent test to be drilled to a depth of 6,000 feet, or more, Bugby stated.

A well was drilled here in the early twenties, but was bungled and abandoned at 1800 feet.

Earl and Henry Shewmaker of Memphis are visiting Clarendon.

### KING WINS \$10.48 IN SUIT AGAINST GAS COMPANY

JUDGE WINS RECOVERY CASE TO MARK HIS SECOND VICTORY

County Judge R. Y. King Wednesday afternoon was awarded a \$10.48 judgement against the City Gas Company in the justice court on a suit filed alleging an overcharge on gas bills over a period of approximately twenty months.

Judge W. A. Davis returned a verdict in favor of the fiery judge after a rapid trial in which only two witnesses were heard. Judge L. B. Penix of Mineral Wells, attorney for the gas company, failed to make a fight saying he was only a spectator when asked if he had anything to say.

King and D. R. Davis, local manager for the company were the two witnesses. W. T. Link, Clarendon attorney represented King.

The case is the second against the City Gas Company won by King. The first, asking for eighteen cents refund on overcharge, was held several months ago.

### LEGION NAMES JOE HOLLAND AS POST COMMANDER

LOCAL POST ELECTS NEW STAFF IN TUESDAY EVENING SESSION

Aubyn E. Clark Post, American Legion, held its annual election of officers in regular session at the Legion Hall here Tuesday evening. Joe Holland was named Post Commander; Regan Bryan, 1st Vice Commander; Nathan Cox, 2nd Vice Commander; Rayborn Smith, Adjutant; R. W. Moore, Chaplain; Tom Tucker, Sergeant-at-Arms; C. J. Douglas, Service Officer; Flen Caraway, Historian; Ralph Andis, Dick Chunn and L. E. Thompson were elected as the executive committee.

The local post voted a \$10.00 contribution to the City Park Board for the forwarding of its work on the park project now under construction.

According to L. E. Thompson, retiring Post Commander, the new staff of officers will be installed at the regular September meeting of the Post.

### BAPTISTS TO HOLD ENCAMPMENT AT MIAMI SOON

REV. J. PERRY KING OF CLARENDON TO HOLD DAILY SERVICES

MIAMI, Aug. 2.—The fourteenth annual session of the District 10 Baptist encampment will be held August 7-13 one and one-half miles east of Miami, with Rev. Lem Hodges, pastor of the San Jacinto Baptist church, Amarillo, as camp director. Arthur Nelson, educational director of the First Baptist church of Pampa, will lead the music at the encampment and Rev. J. M. Mason, pastor of the Memphis Baptist church, will be chairman of the recreational program which will include swimming, volleyball, soft ball, tennis, horseshoe pitching, and croquet.

Rev. J. Perry King, pastor of the Clarendon church, will preach each morning, except Monday, the opening day, at 11 o'clock.

### CONSTABLE NAMED

M. L. Putman has been appointed deputy constable for precinct two, it was learned this week. C. Huffman is constable for the precinct.

### Former Clarendon Druggist Dies In Fort Worth

Ben E. Smith, employed at the Stocking's Drug Store in Clarendon from 1924 to 1936, died Thursday at his home in Fort Worth, it was learned this week. He was sixty-two years old. Smith succumbed after a brief illness.

From Clarendon he went to Childress where he was a drug store employee for several years. Funeral services were held in Fort Worth Friday.

### Remodeling of Local Gasoline Station Begins Wednesday

Workmen yesterday began tearing up the driveway of the Hilliard Service Station on East Second street and a \$3,500 remodeling job got underway.

The plans call for additional washing and greasing rooms, new and larger station quarters and general repairs. The building when completed will be one of Clarendon's most modern stations, according to the contractors.

The building is owned by Mr. and Mrs. George Ryan. Homer Mulkey was in Dallas this week.

## Life Giving Moisture Falls Over Wide Area In County Today

### Home Destroyed By Fire Here Tuesday

Fire of an undetermined origin destroyed the A. B. Merideth home in West Clarendon Tuesday morning about 3 o'clock at a loss of approximately \$1,000.

Merideth, employed by the Clarendon Motor Company, said his wife was in Amarillo and he was at home alone. He awoke with the house full of smoke and was unable to salvage but a few articles.

Included in the loss was recently purchased furniture valued at around \$500.

### HIGHWAY BODY TO ACCEPT CITY'S PROPOSITION

MOVE MADE BY COUNCIL TO ASSURE WAREHOUSE REMAINS IN CLARENDON

The city council today felt assured the State Highway department's maintenance warehouse would remain in Clarendon for an indefinite period following receipt of a letter from the department saying the state would gladly accept title to the property on which the building and equipment is situated.

In the letter, addressed to Commissioner W. B. Haile, Mayor pro-tem, the department said, "Your letter of July 24, to Mr. W. A. Riney, in which you state the City of Clarendon is willing to pass title to the Texas State Highway Department, in consideration of \$1 and other good and valuable consideration, is very pleasing to us.

"We should be extremely grateful to acquire title to these lots on which our maintenance warehouse is located. It will be entirely agreeable to insert a reversionary clause to the effect that should the department abandon the use of this property as the highway warehouse, and storage ground, the title of the lots will revert to the City of Clarendon."

The abstracts will probably be drawn up this week.

### PROGRAM NOT YET COMPLETED FOR OLD SETTLERS

ENTERTAINMENT TO BE LARGELY SELECTED FROM GROUNDS

Program committeemen W. C. Bridges and Homer Mulkey said today entertainment for the annual Donley County Old Settlers picnic, to be held at Tate Grove near Hedley, August 18, will closely follow that of other years.

The program annually is largely impromptu with talent picked at random from those attending.

Cal Farley's Flying Dutchman Circus has entertained the crowd for the past two years and is expected back for the all-day party this year.

There are no dues or assessments for the organization and everyone having lived in Donley County for twenty years is urged to attend. Each family must bring their own basket lunch but coffee is furnished free.

### Frank Davis Wins Model Airplane Test Sunday

Frank Davis, Amarillo, brother-in-law of Regan Bain, Clarendon, took top honors Sunday in the gasoline powered model airplane contests in Tucuman. Davis won a \$45 purse and a gold loving cup.

### DRENNAN TELLS LIONS OF TRIP TO PITTSBURGH

STORY OF HUGE INTERNATIONAL CONVENTION OF LIONS TOLD LOCAL CLUB

President R. E. Drennan was in his place Tuesday at the Clarendon Lions Club weekly luncheon at the Hotel Clarendon, after having been away for the past two weeks on a trip which included attendance on the International Convention of Lions Clubs at Pittsburgh, Pa.

The program period Tuesday was taken up in a report of the convention by Boss Lion Drennan, who brought much of the color and detail of the big convention to the club members in a most interesting manner. The Texas delegation, according to Lion Drennan, was the largest single state delegation present, with California and the combined Florida and Cuba groups in close order.

Florida joined with Cuba and Puerto Rico in a campaign to win the 1940 convention for Havana. Detroit was the other entry with the support of the Canadian delegations, but the glamour and appeal of the Island City was too strong, so Havana won. San Antonio is an avowed entry for the 1941 convention, with an apparent fair chance of success. The convention sessions, the huge parade, the boat trip on the Ohio river, and other high spots of entertainment were described by the speaker.

Visitors for the day were Rev. Paul Hanna of Mission, Texas, and Roy Clayton of this city. Rev. Mr. Hanna is a brother of Mrs. J. H. Howze of Clarendon and made a brief but interesting response.

Committees were appointed to look after certain details of club interest.

## July 1939 Drier, Hotter Than Same Month Last Year, Records Show

### F. F. A. Advisor Expects Fine Fall Pig Show

Prospects are bright for one of the best fall pig shows ever held in Donley County, J. R. Gillham, F. F. A. Advisor, declared after visiting hog projects throughout the county.

Over 200 hogs are now on feed, Gillham advised, saying over forty boys expected to enter animals in the exhibit.

While on the inspection tour, pictures were made of sows, gilts and pastures. The pictures will be used in the chapter's scrap book.

### Misfortune Falls Twice in One Day

Misfortune befell A. B. Merideth for the second time within 15 hours Tuesday when his hands were painfully burned as he was washing in paint thinner.

Merideth, whose house was leveled by fire early that morning, was using the highly inflammable liquid to clean his hands after the day's work. A mechanic lighted a match near by and the vapors ignited. He received medical treatment for the burns.

### COUNTY SCHOOL BOARD TO MEET SATURDAY AT COURT HOUSE HERE

The Donley County board of education will meet in the district court room at the court house in Clarendon, Saturday afternoon at one o'clock, it was announced this week.

Bonds for county school bus drivers will be the main subject at the business meeting, it was announced.

Life giving moisture, ranging from three-quarters to over an inch, fell over a wide area in Donley County today, and low hanging clouds gave promise of continued showers this afternoon.

The heaviest downpour fell in Clarendon between eleven and twelve o'clock this morning when 1.25 inches fell to turn long dry gullies into surging rivulets. City lawns, range land and farms showing hot spots from the last few days heat, were materially benefited.

With .14 of an inch received here yesterday afternoon, the two day precipitation now stands well above the one inch mark.

The long dry Chamberlain community was again skipped today by the rainfall which came into the county from the northwest and slanted to the east. Only a light sprinkle was reported from Chamberlain last night.

Hedley had also been missed by mid morning today but it was believed that moisture reached there by noon. The Word ranch, southeast of here, at noon reported no moisture.

Jericho reported approximately one-half inch last night and "still raining" at noon today. The precipitation in that section is expected to exceed two inches.

Goldston received good showers and water was standing high in the furrows at the Davis farm north east of Clarendon. A good shower was reported near the Naylor community last night but failed to reach the W. M. Pickering farm, however, Mr. Pickering estimated a good fall this morning.

### MEMPHIS LEADS LEAGUE WITH ONE GAME TO PLAY

MEMPHIS, Aug. 1.—Memphis continued her winning streak Sunday to outplay Hedley, 14 to 8, and retain first place in the Hall County Baseball League.

In the finals of the season next Sunday, Memphis will play at Tel, Hedley at Estelline and Lakeview at Goldston.

July's weather in Clarendon was not exceptional compared with the same month a year ago but was slightly drier and warmer, according to records kept by weatherman, Joe Goldston.

Only .82 of an inch of moisture fell this year as compared to 1.45 inches in 1938. Rainfall was recorded on four days of the month but the total left 1939's figures .66 of an inch behind last year. Two other days, light showers failed to bring enough moisture to record.

Seven one-hundredths of an inch fell July 2, July 17, seventeen one-hundredths was received, the following day 23.

Although the heat held on longer, 105 degrees was the highest reached in both July 1938 and 1939. This year, however, had the edge on extremely hot days with the thermometer reaching 100 degrees or over on fourteen occasions. The mercury climbed to 100 degrees or over only eleven times in 1938.

July's total of .82 of an inch of moisture brought the year's total to 12.34 inches, 4.59 inches short of the first six months in 1938 when 16.93 inches fell.

### Brumley-Rundell Buy Gasoline Agency Here

H. C. Brumley and Lon Rundell, associated in the Allis Chalmers tractor agency, announced this week the purchase of the Panhandle Oil Company agency here.

Brumley and Rundell will continue to sell tractors along with gas and oil and automobile accessories, at the same location on east Highway 370.

In a statement to The News, the partners said they wished to extend an invitation to everyone to visit their new station.

## NATION IS BEHIND ROOSEVELT ON NEED FOR NEW NEUTRALITY LEGISLATION

There are vast divergencies of opinion with most of the policies of the Roosevelt administration in and out of the Democratic party, but there is one demand of the president which is generally supported by Americans without regard to party or partisan lines, and that is his demand on Congress for new neutrality legislation.

Congress has displayed a pettishness in answer to that policy of the administration which does itself no credit, and is apt to weaken its position in other more worthy variance with the chief executive.

There is a wholesale support of Cordell Hull's recent abrogation of the trade treaty with Japan, which proves the Nation demands, along with the president, a more effective authority for dealing with aggressor nations. Since it has become the style for aggressors to make war without formal declaration, then new methods must be employed by neutral nations in coping with such a lawless situation.

Congress ought to effect an early adjournment, but it ought not to adjourn without passing the sought-for neutrality legislation the president asks for, backed by a huge popular demand of the people.

## THE GARNER BOOM ASSUMES TANGIBLE FORM

Press reports from over the nation indicate that the boom for Texas Jack Garner for the standard-bearer of the Democratic party in 1940 is assuming tangible form in all sections.

There can be no doubt that the battle is on between the New Dealers and the Conservatives of the Democratic party—a battle to the finish. Being what they are if the New Dealers win and capture the convention there will be no traditional Democratic party left. The only hope for the time-honored principles of Democracy is for the conservative Democrats to control the next national convention of the party. John Garner is without question the man of destiny for the task of saving Democratic principles for the party and the republic. He is old enough to have no personal ambitions after the presidency, except the good of the Nation. He is sane and smart enough to navigate the rapids of American return to sound government without loss of the ship of state.

Last week's blast of CIO Lewis against him proves the mounting strength of the hard-working, plain, Democratic Garner, for Lewis would not have wasted the shot on a figure with no future political possibilities.

All over Texas there is a strong movement to get behind Garner from precinct to state convention, sending to the National Convention a strong, virile and aggressive band of Garner-for-President crusaders. Texas Democrats can render no more patriotic service to the Nation than this.

## PUBLIC ANGER RISES AGAINST LIQUOR IN TEXAS

News-item: "Drunk driving cost Texas twenty-six lives in June."

Public resentment in Texas is rising against liquor for its enlarged toll of human life, aside from the wreckage of character, happiness and home it causes in cases too numerous to count.

The Lynn County News sensed this rising tide of anger against the outlaw criminal of all ages when it said a few days ago: "Almost

every day we read of some drunken fool causing some kind of automobile collision or otherwise inflicting injury to innocent people. Liquor is worse than a mocker; it is a devil. Liquor advertising should be barred from the radio, the newspapers and the magazines. Decent people are getting tired, anyway, of listening to this beer-boasting over the radio. And they are getting tired of seeing hellish whiskey advertisements emblazoned on the pages of their favorite magazine or newspaper."

## PRETTY CHEAP, WE CALLS IT!

About the cheapest exhibition on the part of a government with a noble past is that displayed by the various bureaus in their dealings with the newspapers of the Nation. For years, now, they have bombarded the newspaper offices with "free publicity", much of it the rankest sort of political propaganda, while at the same time of all businesses in the country the said newspapers have had the least consideration from the government while it has been broadcasting millions to other businesses in one sort of subsidy, grant or gift.

Now these bureaus approach the newspapers to know if their frequent "hand-outs" of publicity or propaganda is wanted and after loading the mails with millions of pounds of free stuff, they have the nerve to ask newspapers to pay postage on their post-card or letter replies.

The nerve of it! Pretty cheap, we calls it!

## ELOQUENT IS THE WORD

Two business men were riding in the subway, sitting side by side, saying nothing but looking very worried. After many minutes one of them heaved a long deep sigh. The other looked at him for a moment and said, "You're telling me!"

## NOBODY'S BUSINESS

By JULIAN CAPERS JR.

AUSTIN — Appointment by Governor O'Daniel of the new State Welfare Board, which on September 1, will take over administration of social security functions, and a declaration by members of the board of their personnel policy, quieted fears of a wholesale clean-out of the pension staff.

The board members who serve without pay, are Judge Beeman Strong, of Beaumont, veteran lawyer and politician; Marvin Leonard, Fort Worth merchant, heretofore unidentified with politics; and Dr. M. E. Sadler, of Austin, pastor of First Christian Church in Austin, attended by Governor O'Daniel and Ex-Governors Allred and Sterling. The appointees issued a joint statement, indicating they would retain efficient employees required to do the work efficiently.

## Little May Remain—

Grapevine reports were that Jack Little, at present director of pension administration under the Board of control, stood a good chance for reappointment by the new board. Little had been badly worried before the board was named. The Governor issued a statement, declaring he would maintain a "hands off" policy regarding personnel. During his campaign last year, he assailed the pension investigators with his famous story about "Grandma's chewing gum, and Grandpa's milk cow" until many believed he would "clean out" the staff under reorganization. If he does not change his mind, existing personnel probably will not be greatly changed.

## Crisis Is Coming—

A pension crisis is due within two or three months after the new board takes charge. September 1, the pension fund must begin repaying a banking syndicate from which it borrowed, \$200,000 a month. That means loss of a \$200,000 matching fund from the Federal government each month. If the liberalized pension law adds from 50,000 upwards of new pensioners, the present average pension payment of nearly \$14 is expected to drop sharply, unless the Federal government puts up a great deal more money, now regarded as unlikely this year. Then will come the test to see whether O'Daniel can keep the old folks satisfied without a revenue-raising special session, for another year and a half, by his Sunday morning radio talks about religion, law enforcement, economy in government, and similar abstract subjects.

## A Book On Session—

Senate Joint Resolution No. 12 the famous sales tax amendment which blocked revenue raising ef-

forts of the regular session, is due to be the most widely discussed political issue in Texas during the next 18 months. So few folks actually know what it was, that Buck Taylor, veteran Texas writer and legislative observer, who now headquarters at 102 East Second Street, Austin, has issued a pamphlet, entitled "SJR 12". It sells for a quarter and contains not only the complete official text of SJR 12, but a careful, unbiased analysis, showing just what the resolution would have accomplished. The pamphlet is one chapter of a forthcoming book by Taylor, entitled "Did You Say They Tried To Steal Texas?" telling the story of the O'Daniel administration from the inauguration through the end of the session.

## \$22 Per Capita—

The State school per capita apportionment will be \$22 for the third successive year, the Board of Education ruled, rejecting pleas for the maximum of \$22.50 fixed by the new law, because of deficit in this year's payment. The action probably will make necessary a constitutional maximum ad valorem tax rate of 35 cents for general school purposes, since the Automatic Tax Board must levy a rate sufficient to yield the \$22 fixed by the School board.

## Begin Garner Work—

Opening headquarters in Austin, Price Daniel, member of the Legislature from Liberty, and president of the Texas Young Democrats, this weekend launched a statewide campaign among youthful voters to support Vice-President John Garner for the presidential nomination, when pre-

## The Low Down FROM HICKORY GROVE

For having your feet on the ground, you will find people who will say it is just the Republicans who do so. And also you will find another bunch, who will claim the Republicans, they are just as flighty as the Democrats.

But I just been reading about this here Senator Pat Harrison from down there around Winona or Jackson, or wherever it is he hails from, in the old mud-cat state. And I take off my chapeau to him.

Patrick, he is one Democrat who does not just tip-toe around in the clouds, or touch the ground with one foot now and then—he has both feet smack-dab on terra-firma.

He says it is time to take off the tinted glasses, if we expect to get out of the bog or get our jobs back. And also, he says, we gotta stop living on borrowed money, right now—not manana. And by doing so, he says, we may yet be able to avoid the sheriff.

Maybe you do not like Democrats and maybe you do, but whichever it is, you gotta hand it to this old boy from Mississipp.

Yours, with the low down,  
Jo Serra.

## STATE BUSINESS OUTLOOK VERY ENCOURAGING

INDUSTRY AND COMMERCE  
CLIMBED FIVE PER CENT  
IN JUNE OVER 1938

AUSTIN — Outlook for Tex-  
as business is "encouraging" as  
the composite index for the  
State's industry and commerce in  
June climbed 5 per cent above  
this time last year, University  
of Texas business statisticians  
said Monday.

The composite business index  
for June remained almost exact-  
ly at the May level, officials of  
the University Bureau of Business  
Research reported.

Little material change is an-  
ticipated during the next few  
months, but as the national busi-  
ness picture appears to be defi-  
nitely more favorable, "any de-  
parture from the present almost  
horizontal plane of the Texas  
business curve will have an up-  
ward rather than a downward  
tendency," it was stated.

"Such a development in the na-  
tional economy would tend to im-  
prove the demand for Texas' huge  
surplus commodities—notably oil  
and agricultural products—which  
in turn would stimulate Texas  
industry and trade in general,"  
the Bureau's report said.

With forty-five calves on feed  
in Donley County by 24 4-H and  
F. F. A. members, the best  
calf show in the history of Don-  
ley county is in prospect, J. R.  
Gillham, F. F. A. Advisor, said  
today.

The largest show ever held ex-  
hibited only forty calves.  
All of the calves were on feed  
before June 1, and some of the  
animals tip the scales at around  
750 pounds. All of the calves are  
Hirefords.

Three youths are feeding ani-  
mals for the fourth year; three  
for the third time; five for the  
second year and thirteen for the  
first.

Feeding calves are Johnny  
Leathers, Carl Morris, Cleo Rus-  
sell, Doyle Martin, Edwin Floyd,  
Joe Williams, Billy Thornberry,  
Floyd, Jack and Leland Lewis,  
Earl Shannon, Harley Longan,  
Herschel Brinson, Charles and  
William Sullivan, H. C. Shaw,  
Horace Green, J. M. Morris,  
Gene Putman, Wayne Naylor,  
Howard Gibbs, Frank Mahaffey,  
Cecil Heckman and Rex Shannon.

fire pits. Matates and manos  
were found in and around the  
corn grinding bins where the  
corn meal was found.

Students found many pieces of  
pottery, some of which will be  
fully restored. In one room a  
fireplace was found with broken  
cooking utensils underneath. Oth-  
er objects included arrow shaft  
polishers, flint awls, grinding im-  
plements, projectile points, por-  
tions of pipes and prayer sticks.

Findings have not yet been  
catalogued, but they are now in  
the West Texas Museum being  
classified. Detailed report of the  
expedition is being prepared, af-  
ter which the archaeological de-  
partment will tabulate, catalogue,  
and photograph the relics.

## TREND IS AWAY FROM COTTON DEPENDANCE

PICKERS WILL COVER  
LESS ACREAGE THIS  
YEAR, EXPERTS SAY

COLLEGE STATION — A  
sharp trend away from depen-  
dence upon cotton is reflected in  
current estimates of the 1939  
planted acreage in Texas, which  
indicate the cotton pickers this  
year will drag sacks over con-  
siderably less space than even  
that allotted to the state by the  
AAA.

The state cotton acreage allot-  
ment for 1939 is 10,200,000  
acres. And the Bureau of Crop  
and Livestock Estimates this  
month figured that King Cotton  
will rule not more than 8,980,-  
000 planted acres in Texas this  
year.

This compares with approxi-  
mately 9,400,000 acres seeded in  
the state last year and an an-  
nual average for the ten years  
1927-36 of about 13,710,000 acres.

George Slaughter, chairman of  
the Texas Agricultural Conserva-  
tion Committee, pointed out that  
the comparatively small planted  
acreage of 1938 yielded 3,124,000  
bales, compared with a 3,997,000  
annual average from 1927-36.

From these facts Slaughter,  
who farms on a diversified basis  
in Wharton county, concluded:

1. That Texas farmers as a  
group are more than cooperating  
with the farm program.
2. That apparently the cotton  
acreage allotment is not crowding  
Texas farmers as a group, as  
they are voluntarily cutting cot-  
ton acreage more than a million  
acres below the state allotment.
3. That Texas farmers are  
willingly devoting more and more  
land to soil-conserving and food  
and feed crops mainly for home  
or neighborhood consumption.
4. That although the 1938  
acreage may be comparatively  
small, the production of cotton  
may be fairly normal, as it was  
in 1938, as crop rotation, soil-  
building and retirement of sub-  
marginal cotton land under the  
program ordinarily would tend to  
increase the yield per acre.

## DRASTIC SLUMP IN LIVESTOCK MARKET REPORTED IN JUNE

CATTLE SHIPMENTS OFF  
38.7 BUT HOG CAR  
LOADINGS INCREASED

AUSTIN — Market demand  
for Texas livestock slumped dur-  
ing June to a point drastically  
below that of June last year,  
The University of Texas Bureau  
of Business Research announced  
Monday.

Reports to the Bureau from all  
railroad shipping stations in Tex-  
as and the Fort Worth stock  
yards show total shipments of  
5,545 cars during June, a drop  
of 26.2 per cent from the 7,516  
cars forwarded during June of  
1938.

Cattle shipments dropped 38.7  
per cent to 2,841 cars and sheep  
shipments, 1,053 cars, dropped  
33.1 per cent.

On the other hand, hog ship-  
ments, at 744 cars were 50.3 per  
cent above June of last year, and  
shipments of calves gained 11.8  
per cent to 907 cars.

## FARM WOMEN ARE FINDING PROFITS IN CO-OP MARKET

CHICKENS, CAKES, BREAD,  
PICKLES, BUTTER, ETC  
READILY SOLD IN TOWN

COLLEGE STATION — The  
woman whose husband was "laid  
off by a corporation" has begun  
to look around for an electric re-  
frigerator.

That is what a "farm home-  
makers' cooperative market"  
meant to one of fourteen Tarrant  
county farm women who have  
taken "home industries" to town  
and brought dressed chickens,  
cakes, bread, pickles, ham, but-  
ter, eggs and other home-grown  
and home-made products to city  
and country consumers without  
the cost of "middle-men."

Another of these women, Mrs.  
D. W. Robbins of Forest Hill,  
outlined the background and ex-  
plained the purpose of this mar-  
ket at the Farmers' Short  
Course here.

"We had a hard go of it at  
first," she testified, "but soon  
many came to look and stayed  
to buy, as the saying goes. And  
they weren't all women either.  
We have some men customers  
who never miss a market day."

Mrs. Harvey Watkins, who  
helps run a similar market at  
Lockhart, said, "It keeps some  
change in our purse for the  
little things of life, and some of  
the big things too."  
Proceeds from her market, she  
reported, had put two girls  
through school, paid rent, taxes  
and interest on several houses and  
brightened up home life general-  
ly.

There are 14 such markets in  
the state, according to Mrs. Is-  
la Mae Chapman, Texas A. and  
M. College Extension Service  
specialist in home industries.

She explained that in each case  
a group of farm women get to-  
gether and obtain a market place,  
and then hold one or two mar-  
ket days a week and offer their  
home-made products for sale. All  
products have to meet a rigid  
test of quality.

## STRONG DRAMATIC ROLE IS PLAYED BY MERLE OBERON IN "WUTHERING HEIGHTS"

Lovely, titian-haired Merle Ob-  
eron has her most important and  
dramatic role to date in the  
Samuel Goldwyn production of  
"Wuthering Heights," the great  
love story which stars her op-  
posite two dapper leading men—  
Laurence Olivier and David Niven  
—at the Pastime Theatre next  
Wednesday and Thursday.

"Wuthering Heights" casts slim  
and sylph-like Merle as Cathy,  
hot-tempered, devil-may-care  
Nineteenth Century lass who  
runs wild over the moors and  
crags of Yorkshire. Cathy's  
beauty and vivacity attract the  
loves of two men—brooding and  
darksome Heathcliff, and wealthy  
and socially prominent Edgar  
Linton. In her youth Cathy turns  
to Heathcliff in spite of his boor-  
ish manners and strange ways  
—because their love is mingled  
with the mystery of the moors.  
But Cathy's love is not strong  
enough to stand the glows of dis-  
appointment. Heathcliff does not  
fulfill her childish dreams and  
conquer the world to lay at her  
feet. Instead he deteriorates into  
a lowly stable boy, content to  
be near her and worship her.

A strange and unhappy cli-  
max separates the lovers. Heath-  
cliff disappears and Cathy mar-  
ries Edgar Linton.

## Random Reflections

By DICK COOKE

According to information from Texas A. & M. you can stop chigger bites from stinging by taking a bath then applying sulphur, coal-oil, medicated soap, etc., but has anyone some advice about stopping mosquitoes. A tri-motored papa mosquito got even with me the other night for all the mean things I have ever said against his tribe. He zoomed in while I was peacefully slumbering and before I could get fully awake and plan a defense he bit me more times than the Federal grandjury indicted L. S. U.'s prexy James Monroe Smith—or about as often.

When I'd switch on the light he'd retire to his lair, or whatever he lives in, then when the room was dark he'd grit his teeth and with a deafening drone pound on my arms, neck and head driving his plunger four feet into my unprotected flesh.

I was a pitiful site the next morning with blue marks around both ears where I'd think he was landing and try for a knockout with a fast slap. For a while I would be unable to hear his hideous whine because of the ringing in my ears from the mighty whacks so I'd lay back exulted with a conqueror's sleep in mind. It was no use though, so toward morning I pulled a sheet over my poor mangled torso and slept despite the rivers of blood and perspiration dripping onto the floor.

It seems sad, somehow, that racketeers have forced the Salvation Army to discard their tambourines. For eighty years in 95 countries and colonies the Army has served distressed men and women, discouraged youths and girls with money derived principally from street collections. The tambourines, the peaked bonnets and sometimes a trumpet and bass drum, always held our fancy as we admired those christian souls who put ridicule and more worldly pleasures aside to sing, preach beg or pray as the occasion demanded.

Only 15 per cent of collections go for administrative and other expenses and 85 per cent is used for charity. Their "Home Away from Home" system whereby young boys and girls may find food and shelter and solace when in dire need. Also girls in cities working for small salaries may find nice rooms and board for \$3.50 weekly. This amount the Army says, pays only the expenses of the home.

### GETTING NAMES WILL BE EASIER FOR UNCLE SAM'S CENSUS TAKERS IN '40

WASHINGTON — Counting the people in the United States every ten years is a big job, but getting the names and addresses will be easier in 1940—because there is no national prohibition law.

During the last two censuses, the individual connected with the illegal alcohol business was a problem child to the census bureau.

Most of the time the census taker couldn't find him. When he did, the man was reluctant to talk about himself.

Back in the hills it was even worse. Census takers often were regarded as "revenuers" and treated as such.

Repeal of prohibition is one reason officials expect a drop in the number of John Smiths and William Joneses in the 1940 census.

However, the bureau still will collect the oddest assortment of names in the nation. It's always been that way. The first census had its share.

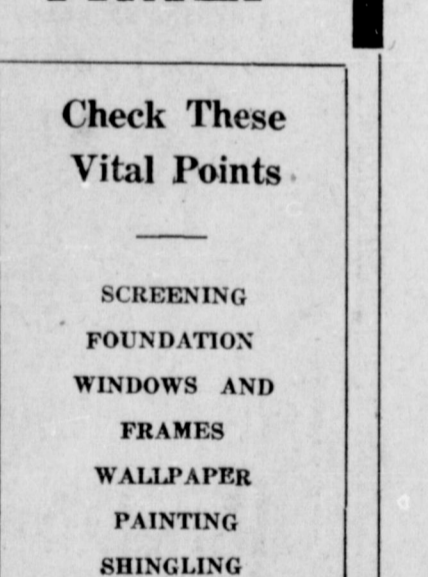

### ICE CREAM BOOMS AS OTHER DAIRY PRODUCTS DROP

AUSTIN — Ice cream consumption in Texas continues to boom, reports on dairy products to the University of Texas Bureau of Business Research showed today.

Production of ice cream during June rose to 1,122,000 gallons, the Bureau estimated. This was an increase of 9.2 per cent over June of last year, "reflecting the improved purchasing power of the urban population of the state," the Bureau announced.

Other dairy products—butter and cheese—dropped, due to the influence of the spring and early summer drought on some of the important dairy areas, it was stated. Estimated production of creamery butter was 2,881,000 pounds, a decline of 11.3 per cent from June of last year, while only 1,773,000 pounds of American cheese were produced, 26.1 per cent less than in June 1938.

Clyde Douglas and family left Wednesday for Drake, Colorado.

**THE TRUTH SIMPLY TOLD**

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for functional kidney disorder and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination may be warning of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

### Garden Glances Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners"

"America the beautiful lies in the hands of the gardeners." "Mistress Mary, quite contrary, How does your garden grow?" The dahlias wilt and petals of the roses and fragile gladioli are ruined by the sun before noon. If one can afford the water, the trees and grass are not affected by the dry weather and intense heat.

Have you noticed the lovely lawn at the Wesley Knopp home? It is lovelier than I have ever seen it. The lawn of the Charley McMurry home is pretty, too. The John Molesworth home has green turf, and a border of flowers across the front. The Clarence Peabody lawn is carefully kept also.

There are attractively arranged baskets with growing plants, and other features on various lawns. Mrs. Jim McMurry, has a colorful basket of petunias, Mrs. Boston has an old Kettle of verbenas. Don't neglect to notice the lovely pine near the pool on Allen Bryan's lawn, and the catalpa in the background. The lawn is being improved at the Latson apartment near the

### WEDDING OF INTEREST IN CLARENDON TAKES PLACE FRIDAY

A marriage of wide interest in Clarendon is that of Miss Bernice Brunner, daughter of Mr. and Mrs. G. B. Brunner of Groom and Dwight Stubblefield, prominent McLean merchant.

Stubblefield, a brother of Mrs. Tom Goldston of Clarendon, is well known here having attended Clarendon College where he was graduated.

The wedding took place at the Polk Street Methodist Church Friday in Amarillo at 10 o'clock. The bride was accompanied by Dr. C. C. Grimes officiating with a ring ceremony.

The bride, given in marriage by her father, wore a maroon spot suit with corsage of roses. Her sister, of Amarillo, served as maid of honor.

James Stubblefield of Wellington served his brother as best man.

Mr. and Mrs. Stubblefield left after the ceremony on a ten-day trip to Yellowstone National Park. They will live at McLean where Stubblefield is the owner of the Stubblefield Department Store.

Guests at the wedding were the bride's parents and small sisters, Carolyn and Donna; and the bridegroom's sister, Mrs. Tom Goldston of Clarendon.

The bride, a graduate of St. Anthony's Hospital School of Nursing, did graduate work at Vanderbilt University in Nashville, Tenn. Until recently she was employed as district nurse in the state department of health.

### 2,000 Families Pay \$25 a Year for Medical Care at Hospital They Own

ELK CITY, Okla.(AP) — On the outskirts of this Western Oklahoma community of 5,000 population, a modest country doctor has found his answer, at least, to the nation's debate over "socialized" medicine.

Here, in 1929, Dr. Michael A. Shadid founded what he claims is America's first cooperative hospital, and today that institution is flourishing with 2,000 stockholder families who obtain for around \$25 a year the ser-

vices of a staff of doctors, surgeons and dentists.

Its name is the Farmers Union Co-Operative Hospital Association.

The experiment led the way, he claims, to establishment of many medical practice groups over the nation in recent years. However, he adds, the United States has never had another hospital owned and controlled by its member patients.

Although the hospital, which now has 85 beds, was started and developed by Doctor Shadid, he is employed by the board of directors as chief of staff and is subject to yearly contract.

By those favoring group medicine, Doctor Shadid is described as a "genius." His foes speak in critical terms. These foes, however, claim they are not necessarily opposed to the cooperative plan. Their opposition, they say, is to the way group medicine is being practiced in Oklahoma.

His attempts to correct what they term "unethical" methods of Doctor Shadid and his associates have included dropping him from membership in the county medical society and attempting to revoke his license. This attempt has been stalled in the courts.

Ownership and management of the Elk City hospital are set up under the co-operative laws of the state.

Each share of stock sells for \$50. A paid-up share entitles the owner to a vote at the annual meeting. It also entitles him to complete service for himself and his family for \$25 and additional charges which Doctor Shadid says, and members agree, are small and are specified before treatment.

"Let's take a typical family of five," we asked Doctor Shadid. "The father has paid for his share of stock and \$25 for a year's service. His son breaks a leg. What are the charges for his treatment?"

"The services of the doctors are free," he replied. "There probably would be an X-ray examination which would cost \$2. The boy probably would stay in bed five days at \$2 a day. That would be \$12 complete charge."

"What about the wife who thinks she is ill and wants to be examined?"

"There is no charge for such examinations. If she is given some medicine, she gets it in our own drug store at cost.

"And a childbirth case?"

"The mother gets pre-natal care and examination free. The delivery room and anesthetic costs \$10. Then it costs \$2 a day while she is here.

Major criticism of the plan is that it smacks of "steerage," a term which means much the same to doctors as "ambulance chasing" does to lawyers. They contend the use of agents to sell memberships, which Doctor Shadid admits, is "unethical."

And what do the co-operative members say?

"I'm for it," declared H. J. Banks of Willow. "Nobody's been abused or complaining. We own that hospital and we can vote a change any time we think it's

### Farmers and Gasoline Dealers Are Urged to Study New Tax Refund Law

Farmers and gasoline dealers—as well as all others who under the law are entitled to a refund in gasoline taxes—were urged by Comptroller George Sheppard today to study the terms of a new state law making several material changes effective September 1.

Farmers are among largest users of gasoline upon which they tax is paid; and after September 1, Sheppard pointed out, the Comptroller can pay refunds only to those who purchased their fuel from licensed dealers. Hence it is important that they make certain the dealer is licensed.

The departmental analysis of the law showed that these changes were made:

1. Beginning September 1, 1939 the Comptroller is prohibited from issuing warrant in payment of a refund claim on any motor fuel not purchased from a licensed dealer.

2. All dealers in motor fuel for refund purposes must obtain license from the Comptroller authorizing such dealers to sell motor fuel. Failure to obtain license subjects the dealer to criminal prosecution.

3. Licenses and invoices of exemption will be furnished the dealer, free of cost, by the comptroller's department when application is made therefor.

4. All invoices of exemption will be serially numbered and each supply furnished a dealer by the Comptroller's Department will be charged to such dealer, and an accurate account of all such invoices of exemption must be kept by the dealer. No other form of invoice of exemption may be used than that furnished by the Comptroller.

5. The dealer is required to keep accurate record of all motor fuel sold, for a period of two years.

6. Blank invoices of exemption not transferable or assignable unless authorized by the Comptroller. Dealer is not authorized to lend or give away invoice exemption, as he must keep accu-

ate books, records and account of all invoices of exemption issued to him.

7. Invoices of exemption must be issued at the time of delivery of the motor fuel. Heretofore such invoices have been issued at the time of sale.

8. Unless the users of refund motor fuel and the dealers who sell refund motor fuel are advised of this change in the law a great deal of confusion will

result and a lot of refund claims will not be payable. It is therefore important that each user of refund motor fuel who expects to file claim for a refund of the tax acquaint himself with the new provisions of the law.

### Harris County Farm Pond

### Farm Ponds Afford Water Supply, Fish and Game for Families

COLLEGE STATION — In addition to supplying needed water for livestock, properly managed farm ponds often afford a home for wildlife which otherwise could not exist, according to R. E. Callender, game management specialist for the A and M College Extension Service.

In portions of Texas where streams and natural lakes are few, protected water vegetation feeds and provides cover for migratory waterfowl and other wild life of economic value. Callender says. Some farmers and ranchers cooperating with the Extension Service in game preserve demonstrations report mallards, blue-winged teal, pin-tails and ruddies nesting and rearing their young on small ponds in Northwest Texas.

Muskrats also often become established, and Texas co-operators frequently report supplementing their annual farm incomes with sales of muskrat pelts.

Callender explained that at least a part of the pond must

be fenced so that livestock will not trample out the aquatic plants. Some cooperators fence a narrow lane down to the water and others fence the entire area and pipe the stock water through a dam. Experts in the United States Department of Agriculture recommend to cooperators that they build ponds at least one to two miles apart, so that concentration of livestock will not cause overgrazing about the watering places.

Federal, State and local agencies are cooperating in building more ponds in Texas and other states on the Great Plains. Under the water facilities program of the USDA, additional ponds will be developed in 21 counties in Texas, Kansas, New Mexico, Colorado and Oklahoma.

Paul Slaton returned to work this week after a convalescing period of about two months after a major operation. Slaton is a druggist at the Norwood Pharmacy.

### PACKERS, HEALTH GROUP, ADOPT NEW RULES

#### STATE HOPES TO PROTECT THE CONSUMING PUBLIC AGAINST ADULTERATION

AUSTIN — At a meeting held in Austin by the State Department of Health with the meat packers of Texas to discuss new rules and regulations governing the preparation of meat and meat products, the rules adopted met with the approval of those present. Briefly the new rules are:

Meat, meat by-products or prepared meats shall not contain cereal, vegetable starch, or vegetable flour, individually or collectively in excess of 3 1/2 per cent.

To facilitate grinding, chopping and mixing not more than 3 per cent of water or ice may be added to sausage. These meats or meat by-products shall not contain any artificial coloring nor any quantity of soy bean flour or any other product of the soy bean.

Milk, skimmed milk, dried skimmed milk, malted milk, and analogous substances and products which may be approved for such purpose by the Federal Department of Agriculture, may be added to meat, meat by-products, prepared meats and meat food products shall not contain dried milk, dried skimmed milk, malted milk, or other dehydrated milk product in excess of 3.5 per cent, and if cereal, vegetable starch, vegetable flour, is also added, the combined amount of cereal, vegetable starch, vegetable flour and dehydrated milk product shall not exceed 3.5 per cent. Meat, meat by-products, prepared meats and meat food products shall not contain any quantity of artificial color.

These regulations were prepared by the State Department of Health in order to protect the consuming public against adulteration and to assure them they are getting a pure product when making purchases of ground meat.

### TEXAS OUT-O-DOORS

That the quail restoration projects being carried on in several sections of the state by the Texas Game, Fish and Oyster Commission, and which it is hoped will eventually be made statewide, is highly beneficial is vividly illustrated by an occurrence in Duval County recently.

The department's objective is to provide proper natural food and cover for quail. A brush shelter was recently completed on the Bryan Ranch near Benavides at 9:30 a.m. and at 4 p.m. that same day when the ranch owner and A. K. Short, regional game manager for the game department went to look at the shelter, a pair of quail had moved in and was making preparations to start nesting.

The most prolific pair of doves reported to the game department this year are nesting in Dimmitt County near Catarina, it is reported by State Game Warden Herbert Ward. The pair is now raising its fifth pair of young. Several times the female has laid eggs the same day she shoved her young out of the nest.

A ten inch bass and a three-inch perch may be alive today in Texas Panhandle streams because Ted Haughton, a ranch owner of the plains, prevented the pair from dying and at the same time kept the bass from making a meal of the perch.

Mr. Haughton, while fishing, saw a bass floating stomach up on a stream, but paid little attention, believing the bass dead. However, he saw the same bass an hour later and it was attempting to swim. Investigating more closely, Mr. Haughton found that the bass, in attempting to swallow the perch, had got it caught crosswise in his mouth. The sportsman extracted the smaller fish, released both and each swam away.

Fish dynamites in Terrell, Crockett and Pecos Counties have every reason to be more cautious than usual. The sportsmen of these three counties have banded together to co-operate with the game department in preventing dynamiting of fish and have raised a considerable fund to be paid to the person or persons responsible for the arrest and conviction of persons dynamiting in the streams and lakes of those three counties. State Game Warden O. Z. Pinley of Del Rio and Warden Tom Redford of Fort Davis are co-operating.

Distribution of the nearly 4,000,000 fish produced by the game department's ten hatcheries is under way at this time, but only the public waters of the state are being stocked now. Three kinds of bass, northern small mouthed, spotted or Ken-

tucky and the more common large mouthed bass, are being planted in the streams and lakes. Later on calico bass, four types of bream, red-earred, long eared, native and blue-gill; crapple, goggle-eye, green perch, rock bass and channel catfish will be distributed, making a total of thirteen species produced by the department's hatcheries this year. The total of 4,000,000 is an increase of 10 per cent over the 1938 production.

An experiment in breeding tame and wild ducks by E. E. Rainey, ranchman near Dimmitt in Castro County, is producing some unusual results. Mr. Rainey

crossed a wild gander with two tame geese. The offspring have not had their wings clipped, but none have attempted to leave the place of their birth, it is reported by State Game Warden, R. N. Barnett.

Mrs. W. J. Wade, Mrs. Eugene Wade and Mr. and Mrs. William Wade of Groom were visitors in the home of Mr. and Mrs. H. C. Wade last Sunday. Mrs. W. J. Wade is Editor of the Groom News.

Mr. and Mrs. W. W. Taylor visited their daughter, Mrs. Bert Boomer of Shamrock, Monday of this week.

**HOME ACCIDENTS CAN BE CUT MATERIALLY**

COLLEGE STATION — Better lighted stairways, elimination of small rugs on highly waxed floors, periodic inspection of electric connections and appliances will do much toward preserving the sentiment of "Home Sweet Home."

This is a suggestion of Mrs. Bernice Claytor, specialist in home improvement for the Extension Service of A. and M. College, who says increasing numbers of accidents in the home may eventually change the song to "Home is Sweet but Dangerous."

Almost 50 per cent of all accidents occur in the home, so it would be advisable to have first aid stations in the home as well as on the highways, Mrs. Claytor says. First aid kits should be kept handy, and members of the family should be instructed concerning the administering of aid to the injured, the specialist advises.

If a few precautions are taken, such as those previously listed, Mrs. Claytor concludes, the percentage of accidents in the home can be materially reduced.

**Brute Strength vs. Electric Service**  
ONE KILOWATT-HOUR  
is equal to the muscle work of a man...

- PUMPING THREE DAYS
- LIFTING WEIGHTS FOUR DAYS
- HAMMERING SIX DAYS
- CARRYING BRICKS FIVE DAYS
- PUSHING WHEELBARROW TEN DAYS
- SHOVELING DIRT ELEVEN DAYS

**SPEAKING OF Horse Power**

Reddy Kilowatt is one-third stronger

ONE kilowatt-hour equals 1,000 watts of electric energy. This is one-third more than one horsepower. Therefore, we say: "Reddy Kilowatt is one-third stronger than a horse." And many times stronger than a man!

A man, for example, hammering eight hours does 480,000 foot-pounds of work. It takes 2,655,200 foot-pounds to make one kilowatt-hour. Thus we learn that the man with the hammer does 18 per cent of a kilowatt-hour's work in an average day. This is equal to 180 watts, or, in turn, 22.5 watts per hour. So it takes a man approximately six days to do the same amount of work that Electric Service does in one hour!

**IT** therefore seems futile—and unnecessary—for Men or Women to do work that Reddy Kilowatt can—and should—do. Electric cranes, pumps, hammers, etc., do hard jobs more cheaply and efficiently than men.

Why do Women continue to perform the hard tasks in the home? No one has taken time to figure the foot-pounds of energy she expends in washing clothes and dishes, cooking over flame-type stoves, sweeping and other similar distasteful work. Whatever the amount, it's safe to suppose it might be reduced by two-thirds if the home was ALL-ELECTRIC.

The average residential electric rate is LESS than 5 cents per kilowatt-hour

### Uncle Billy Rains Came To This Section Behind Herd of Horses

HEDLEY, Aug. 2.—For pure homespun philosophy that gives one a definite "lift" we nominate W. I. (Uncle Billy) Rains, Hedley pioneer and president of the Donley County Old Settlers Association.

Uncle Billy, is one of the few remaining "honest-to-goodness" pioneers and his gentle but rugged features reflect the predominating will of those hardy souls that came to this section in the days when one's own character and ability to rise above hardships were the requisites of success.

He arrived in Donley County in 1891 behind a herd of half wild horses driven up the trail from Jack County. The purpose of the move, he said with a twinkle in his eyes, was so we and the horses could all eat.

Pleased with the prospects of Donley County, the horses were sold and Uncle Billy, his mother and grandfather filed on three claims west of the present town of Hedley. "The law was," he recounts, "that you had to live on your claims, so we built the house (still standing) on the corner where the three lines came together, and managed that part all right and could still live together."

Uncle Billy still lives on the land.

In his slow drawing voice that is always sought after by radio and screen character actors—but

never attained, Uncle Billy says he doesn't believe the government owes him anything.

The scripture, he says, declares that man's worldly goods must be gained by the sweat of the brow and "if I want to sit out here in the field and talk to you, the government ought not to pay me for it."

The pioneer, however, is a staunch friend of President Roosevelt's but admits that some things could be run better. "Of course," he opines with an amused smile, "I don't want these fellows to hear all that I've said because they'd want me up in Washington. I get most of my fun from slopping the hogs, raising a garden etc., and I couldn't do it there."

Mr. Rains is still one of this section's best ropers. He said he learned the old time way and had plenty of practice snapping the Jack County herd's heels on his way up.

"I very seldom rope now unless its something special that I don't want to let the boys wear out," he remarked. "I just let the boys rope themselves down then I go out and put it on them," he concluded jokingly.

Mr. and Mrs. Frank Stocking and son of Washington, D. C., are visiting in Clarendon this week.

Miss Jewell Williams of Amarillo was in Clarendon, Tuesday.

### MRS. A. W. McLEAN LAST RITES HELD HERE SUNDAY

#### CLARENDON PIONEER DIES AT HOME OF DAUGHTER EARLY SATURDAY

Funeral services for Mrs. A. W. McLean, 78, who came to Clarendon with her husband, a pioneer merchant, in 1892, were held at the First Methodist church here Sunday afternoon at 6:00 o'clock. The Rev. H. C. Gordon, local Methodist pastor, officiated.

Mrs. McLean succumbed to a heart attack about 5:30 o'clock Saturday morning at the home of a daughter, Mrs. C. C. Powell, in Clarendon. She had been visiting here for almost two weeks.

For the past several years, Mrs. McLean has been living in San Antonio, the home of three daughters. She was the widow of the late A. W. McLean who was a civic leader until his death in 1924. He served Clarendon in various offices and was one time mayor.

A native of Texas, Mrs. McLean was born in Elgin, April 12, 1861. It was also in Elgin that she met and married Mr. McLean.

Palbearers for the funeral were F. L. Bourland, J. R. Porter, F. E. Chamberlain, W. W. Taylor, Bill Bromley and J. H. Headrick.

Attending from out of town were Mr. and Mrs. E. N. Howell

and Mr. and Mrs. J. T. Turner of Breckenridge; Allen H. Guinn, Mrs. Reba Williams, and Mrs. Mae Whitley of Mineral Wells; Miss Lelia Clifford of Dumas; Mr. and Mrs. Perry C. Burks, Mr. and Mrs. W. R. Patterson, Ms. Maude Gladish, Mr. and Mrs. D. A. Park, Mr. and Mrs. J. B. Martin, Mr. and Mrs. Ralph Kerbow, Miss Hattula White, Miss Bonnie Bennett, Miss Cora Astle, Miss Lou Naylor, Mr. and Mrs. Perry Powell and daughter, Jean, all of Amarillo; Mr. and Mrs. S. H. Condon and Mr. and Mrs. L. F. Sheffey of Canyon, Mr. and Mrs. C. H. Dillehay, and daughters, Virginia and Doris of Vernon and Mrs. Willie T. Boyett and Miss Maude Thompson of McLean.

The Clarendon pioneer woman is survived by a son and seven daughters. They are John McLean of Hereford; Mrs. Maude McClung of Amarillo; Mrs. Mamie F. McLean, Miss Wilma McLean, and Miss Carolyn McLean of San Antonio; Mrs. Harold Guinn of Breckenridge; Mrs. Dwight T. Smith of Des Moines, Iowa; and Mrs. Powell of Clarendon. A son, M. B. #### LONG TIME RESIDENT AND CIVIC LEADER DIES OF HEART ATTACK FRIDAY

Hundreds of friends paid tribute to C. W. Bennett, Sr., Saturday morning when funeral services were held at the home of the 64-year-old pioneer merchant and civic leader who died suddenly about 10:30 Friday night.

The Rev. J. Perry King, pastor of the First Baptist Church in Clarendon officiated with the local Masonic Lodge in charge of the services.

Mr. Bennett succumbed to a heart attack at his home shortly after retiring. He had been in ill health recently but his condition seemed greatly improved. He had conducted business downtown all day Friday and seemed in high spirits.

A resident of Clarendon since 1903, Mr. Bennett had served as mayor and city commissioner. At the time of his death he was head of the Clarendon Grain Company, a business he had founded with the late John T. Sims as partner many years ago. Born in Crystal Springs, Mississippi July 21, 1875, Mr. Bennett came to Texas around 1900 and resided in Taylor for three years. He had been affiliated with the First Baptist Church since early manhood.

Palbearers for the funeral were Ralph Andis, Sam Dyer, Geo. Bagby, George Green, C. J. Douglas and H. B. Kerbow.

### LOCAL GOLFER FALLS IN BROADMOOR TITLE PLAY

Harry Todd, Dallas medalist, defeated Harrison Smith, Oklahoma City, 6 and 5.

Other Texans in the championship bracket were Rufus King, Wichita Falls; Lamar Seeligson, San Antonio; Harold Cohn, Houston and Tom Cochran, Dallas.

### RED CROSS FIELD MAN HERE FOR CONFERENCE

Robert T. Bridge, field representative of the American Red Cross was in Clarendon today to confer with officials of the Donley County Chapter concerning work of the organization in this territory.

Mr. Bridge had a conference with Mrs. A. T. Jefferies, roll call chairman for Donley, and went into plans with her for an enlarged roll call here this fall.

Conference was also had with Chapter Treasurer, J. D. Swift, Committeeman Homer Mulkey and Chapter Chairman, Sam M. Braswell, on the general activities of the local organization.

### Local Negroes To Form Political Organization

A better mode of living, property and poll tax payments, and representation, (through voting) in the political, Democratic party in 1940 is the aim of many Clarendon colored residents, according to a statement by gray haired, ebony hued, Rev. J. A. Washington, who spoke to a large negro crowd at one of their churches Monday night.

The Rev. Washington, of Wichita Falls, was here in an effort to form a Democratic club among the colored residents. He said the response was gratifying and that he would return in about three weeks.

The Episcopal Auxiliary and Mrs. Ben Andis were in charge of the flowers.

Special music included a trio, Mrs. George Ryan, Miss Montie Graves and Thomas Perkins who sang "Face to Face" and "Softly and Tenderly."

At the funeral from out of town were Mrs. E. Price, Mr. and Mrs. Leland Breckenridge, Wichita Falls; Joe J. Thames, Dallas; Roy Sanders and Sam Mitchell of Amarillo.

Mr. Bennett is survived by his widow; two children, Mrs. Clyde I. Price, Sr., and C. W. Bennett, Jr., one brother, W. O. Bennett of Anthony, New Mexico; three grandsons, Clyde I. Price, Jr., Carl W. Bennett Jr., and Jerry Bennett Price.

### TWO CLARENDON YOUTHS COMPLETE LAW SCHOOL

George McCleskey Jr. and Clyde Slavin, Clarendon youths, completed their studies for a law degree at the University of Texas and took the bar examination last week.

Results of the examinations will not be released for several weeks.

H. C. Squires and family of El Paso are visiting in the Otto Beach home this week. Mrs. Squires and Mrs. Beach are sisters.
