## Donley County Day At Fair Wednesday, Sept. 18

### MOTORCADE WILL LEAVE HERE AT 8:30 A. M.

#### COUNTY TO HAVE MANY EXHIBITS, ENTRIES AT AMARILLO

Donley County day at the Tri-State Fair has been officially set for Wednesday, Sept. 18, according to John Gillham, chamber of commerce secretary.

A motorcade of Donley County citizens will leave the city hall here at 8:30 on Wednesday morning for the trip to the fair. The largest delegation in recent years is expected to attend the fair on this day as a result of the county school board's action in asking rural schools to dismiss. All Donley people expecting to visit the fair on this day are asked to make the trip in the caravan.

The Clarendon high school band will also attend the fair and be included in the motorcade.

Donley County will be well represented at the fair this year. County Agent Breediwe has announced that his county booth material is practically complete and he expects to have the best booth to ever represent this county.

Dairy cattle and poultry judging teams will represent Clarendon in the annual FFA judging contests on Monday, Sept. 16, the opening day of the fair.

Vocational Agricultural Instructor J. R. Gillham estimated that his F. F. A. boys would exhibit 150 chickens and 33 head of barrows in the poultry and swine divisions of the fair.

Bandmaster Ray Robbins has asked all Donley County Citizens attending the fair to register in the merchants building at the band booth in an effort to help the local band win one of the cash premiums given annually to the band from the town with the most registrations for any one day.

Mr. and Mrs. Harold Bugby are in Taos, N. M. vacationing.

### 150 DONLEY BIRDS TO BE SHOWN AT TRI-STATE FAIR

Approximately 150 birds will be shown in the annual Tri-State Fair by Clarendon FFA members and Donley County Poultry men, J. R. Gillham, secretary of the chamber of commerce and Vocational Agricultural Instructor announced this week.

The number though not as large as in recent years, is expected to put Donley County near the top again in competition for the best county group.

Pete and Ralph Morrow, Billy Thornberry, C. G. Kirkland, Maschil Cole, Beatty Hillman, Frank Mahaffey, Harold Donnell, and Lee Christie are FFA members who have made definite entries. Mrs. Bill Jordan, O. B. Rampey, Wilson Grey, L. Noble, J. F. Cannon, Sam Tankersley and several others are expected to exhibit their birds.

FFA members began today gathering the birds and taking them to the FFA room for conditioning and checking them in order to have them ready for the fair. Birds will be checked, banded, and transported to and from Amarillo Saturday morning and Sunday morning and those parties desiring to have their birds taken to Amarillo should have them at the agricultural rooms Friday morning. The birds are fed and watered free of charge while in Amarillo by the management of the fair.

### Fourth Of July Executive Committee Pays All Bills, Sets Aside Surplus And Lays Preliminary Plans For '41

Now that the full evidence is all in, it appears that Clarendon was one of the few cities in the Southwest to stage a Celebration in 1940, draw large crowds, give them a variety of entertainment, pay all bills in full and have a neat cash balance to guarantee the success of the 1941 Celebration.

The executive committee of Clarendon's Coronado Rancho Round-Up & 4th of July Celebration, met in session Monday afternoon at the chamber of commerce rooms at the city hall, and heard the detailed report of the treasurer, Isadore Mellinger receiving the more than \$2,500 received from all sources for the 1940 event, and the disbursements covering all expense. The committee voted to buy the lumber used in the rodeo and grandstand arena, instead of returning it and paying the customary damage charges. This item was \$206, which becomes a permanent investment on the part of the Celebration, which was unanimously ordered for 1941.

With all bills paid there still

remained a balance of \$468 and odd cents, which was set aside as a 1941 Celebration fund, with orders that it be invested in an interest-bearing time deposit.

Secretary John Gillham was authorized to make the detailed report to the chamber of commerce directors at its next meeting, with the recommendations as noted above.

General Chairman Sam M. Braswell expressed his thanks for the uniformly whole-hearted cooperation and able services of all members of the committee, the ranchmen of the area, and many others who contributed to the success of the 1940 Celebration.

### NEW GAS STATION TO BE ERECTED IN CITY

A new super service station will be constructed here on highway 282, E. E. Davis of Amarillo announced this week.

The station will be located on the lot formerly owned by Saral Porter, directly across the street from Wm. Cameron Lumber yard. Mr. Davis said the new station would be managed by Coy Radney, formerly of Clarendon, and would be known as "Davis Bumper To Bumper Service Station."

Work on clearing the lot was begun Tuesday morning, and the erection of the station will commence immediately.

Mr. Davis said that he would retail and wholesale Bell petroleum products. He said that his station would have three grades of gasoline and also kerosene.

The station will be stuccoed and will include a cafe, and washing and greasing service.

Forest Adamson is recuperating at his home after undergoing a tonsilectomy at Memphis last week.

Martí Kelly and Harry McCracken of Clarendon have enlisted in the U. S. army and are now stationed at Randolph field.

### Cattle And Poultry Judging Teams To Enter Fair

The Clarendon FFA Dairy Cattle and Poultry Judging teams have been working out for the past two weeks for the annual Tri-State Fair Contests to be held in Amarillo, Monday, September 16, in connection with the annual Tri-State Fair. The local Poultry team has won the silver loving cup in this contest for the past two years and plan to make it their permanent property by winning it for the third straight year.

Bill Thornberry, C. G. Kirkland, Woodie Spencer, and Bobbie Harold Smith have been working out for the poultry team, and Ray Robertson, Bailey Estes, Lee Christie, Redell Henson, and Billy Smith have been working out for the Dairy team.

### FHA PROGRAM TO BE EXPLAINED TONIGHT

#### MEETING SCHEDULED FOR 8 P. M. AT AMERICAN LEGION HALL

Clarendon's FHA problem is expected to be cleared up and a break-up of the "log jam" in local building is foreseen when a step by step explanation of the Federal Housing program will be made tonight at 8 o'clock at the American Legion Hall.

Building under the FHA program in Clarendon has been practically at a standstill, and the government is now taking steps to pave the way for the financing and building of homes under this federal plan.

Employees and salaried people are especially urged to attend tonight's meeting at the city hall where a FHA official will outline the steps by which they can buy or build homes under the Insured Mortgage plan.

At this meeting there will be shown thirty-six slides, in color, of houses ranging in cost from \$1,600 to \$5,400 which have been built and financed under the FHA plan in northwest Texas during recent months. At the conclusion of the meeting an opportunity will be given those present to ask questions concerning the FHA plan of home ownership.

FHA officials believe there are many employees who can afford to own their own homes under this program but lack definite information as to how to proceed. Therefore, the FHA has decided to send a man here for the purpose of explaining to these people the FHA plan.

All business firms in Clarendon have been advised of the meeting in order that they might acquaint their employees with plans for tonight's session. A large number of salaried people are expected to attend.

P. S. Luttrell of Dallas, State FHA official, has announced that Forest W. Gregory, field representative of the northwest Texas FHA district, will be in charge of the meeting.

### DISTRICT PASTORS HERE TUESDAY

Methodist pastors of Clarendon District convened here Tuesday morning at 9:30 at the Methodist Church in a Fall conference with Rev. G. T. Palmer, district superintendent.

With a few exceptions the charges were all represented, and after a devotional report on the status of the year's work were heard from each pastor. In view of the annual conference date of Nov. 15, when the fiscal year closes, the reports indicated a good percentage of completion to be realized.

Rev. and Mrs. Palmer were hosts to the group at a luncheon served at the district parsonage at the noon hour.

Mrs. Dan Foster, of Wellington was visiting here Tuesday. She is a former Clarendon resident.

### First Bale Cotton Is Ginned Here Last Friday

Donley County's first bale of 1940 cotton was ginned here last Friday at the Clarendon gin.

The bale, produced by Will Chamberlain of Spade Flat, was ginned from 1,580 pounds of snap cotton and made a 475 pound bale.

Thin McMahan, gin manager, said the bale made 30 per cent lint, or, in other words a good turnout.

The Chamber of Commerce contributed \$25 as a premium for the first bale.

Last year, the first bale was ginned by the Fitzgerald Gin and weighed 527 pounds. It was brought in by W. B. Bain of Lelia Lake.

### TEMPERATURE DROPS TO 54 DEGREES TUESDAY

Clarendon citizens grabbed for their heavier coats Tuesday morning when a sudden change in the weather sent the temperature down to 54 degrees.

Tuesday's highest was 68 degrees, according to Joe Goldston, local weatherman.

### 33 DONLEY SWINE TO BE SHOWN AT FAIR

Thirty three highly conditioned fat barrows and gilts will be exhibited at the Tri-State Fair by Members of the Clarendon FFA.

The local youths have established a reputation of showing more prize-winning animals at the fair than any other 4-H Club or FFA Chapter and they are busy shaping up what they think to be the best exhibit of barrows that they have ever entered in the Amarillo Show.

Bob Marshall, Redell Henson, Harice Green, Herman Higgins, Lee Christie and the FFA Chapter will each exhibit one or more herd of pigs. Higgins will exhibit a litter of eleven dueros and Christie a litter of six Poland Chinas.

Other breeds to be exhibited by the boys are Chester White's Spotted Poland Chinas, and Berkshires.

### BIDS CALLED FOR ON HIGHWAY 18 PAVING WORK

Bids for construction of five miles of stabilized base and base preservative for the paving of 5.2 miles on highway 18, beginning 3.6 miles south of Clarendon, will be received by the state highway department until Sept. 25.

The Donley paving is part of a fall road construction program to be begun soon by the highway department.

A contractors' notice appears in this week's issue of the News. G. K. Reading, resident engineer, arrived in Clarendon last week to oversee the preliminary work in connection with the project.

### HEDELY GETS FIRST BALE ON SATURDAY

Hedley's first bale of cotton of the season was ginned Saturday by the Farmers' Gin.

W. V. Bain of near Lelia Lake was the first one to bring his cotton into the gin. It made a 470 pound bale.

### BRONCHOS GIVEN HARD WORKOUT THIS WEEK

#### LOCAL GRIDDERS PREPARE FOR OPENING GAME AT LEFORS SEPT. 20

Twenty eight Clarendon High School Bronchos reported to College Field Monday and began a week's work of rugged drills for their first game of the 1940 season scheduled with the Lefors Pirates at Lefors Friday night, Sept. 20.

In reality the hard work began last Friday when coaches O. C. Warden and I. T. James ordered a smashing scrimmage for their young hopefuls. Taking up where they left off Monday, the squadmen sweated under a broiling sun in dummy scrimmage, blocking and tackling drills and passing and punting routines.

Heading the list of backfield candidates after two weeks of workouts are Bud Hermesmyer in the tailback slot, L. B. Hartzog in the blocking back post, and Carlton Gordon, Tutor Johnson, and Basil Smith.

At the two wing positions, ransy Olie McCarry and C. G. Kirkland are standouts while big bruising Leslie Wardlow and Jimmie Lumpkin seem a cinch for first choice at tackles.

Ralph Morrow, Clyde Peabody, Ray Bulls and Chester Gregory are the best bets for guards but only Bulls, last year started, has a cinch to be on the field when the first whistle blows.

To fill out the middle of the line the coaches will probably give the call to J. W. Goodman.

The Bronchos have their first home stand Friday night, Sept. 27 when they meet the Claude Mustangs on College Field.

The Bronchos found their chances of winning the district pennant fade somewhat this past week when Supt. H. T. Burton's announcement that two transfer students would be ineligible for this fall's grid season.

The two, both registered from Ashtola, an outlying Clarendon community, were Bill Adams, triple threat back, and Otis Spier, centerman and versatile line backer.

This was the first of a series of fall outings planned by the local FFA chapter as a part of its recreational program.

BREAK LOG JAM HOLDING UP CLARENDON'S GROWTH

It may well be that the appearance here this week of FHA officials to explain the workings of the plan for building modern housing well within the reach of the ordinary salaried man, may prove to be the break-up of the log-jam which has kept a fair sized building boom from our city.

Clarendon has experienced the greatest demand for modern housing this summer and early fall than she has known for over ten years, and there are a number of citizens ready to build when suitable financing arrangements can be made at long term and low rate interest.

If the FHA facilities can be fully and promptly extended to Clarendon we shall see a building boom which will stimulate every line of business and make for the substantial growth of our city, which is recognized as one of the most desirable residential locations in the South-west.

HIGHWAY COMMISSION MEMBER FROM WEST TEXAS

With the retirement in early 1941 of Hon. Harry Hines from the Texas Highway Commission, there will be no member on that body who knows the problems of West Texas and the Panhandle, unless Governor O'Daniel appoints a West Texan to the post.

The News feels that there ought to be a movement launched in our territory to urge the appointment of a West Texan to the Commission, and such a movement would be one of practical patriotism. This is no reflection of the fine honor and integrity of Hon. Brady Gentry of Tyler, Texas, nor of General Bobbitt of Laredo—they are both fine men and recognize the needs of all Texas, but the fact remains that West Texas problems fare better where they are represented by West Texans.

There are many worthy West Texans who would give the state distinguished service on the highway commission, and The News sincerely hopes that our governor sees fit to appoint one from our territory. He might not do so unless the matter is brought strongly to his attention.

RESENTMENT OF FACT

Caps hates war as much as any person. He was in one and has two boys almost old enough to go into another, but now that war is here, there is nothing to do but to accept the fact. It is a time for realists to take over and time for loose thinkers to keep their tongues.

As for the United States' position on the war, these facts ought to be self-evident to everyone: America went into the World War for reasons believed to be sufficient. A militant power was checked. Then America refused to stay and help enforce agreements. The militant power, in worse form, again went on the rampage. Again England and France took up the burden of crushing the power.

The average reader, following the official war communiques from the belligerent powers, goes around in something of a daze. They simply don't make sense. The Germans for instance, will claim the destruction of 50 British war planes with losses of but 15 of their own ships, while the British, on the same day, will reverse the figures.

combat. Whether that is the result of a shortage of pilots in Germany, or a policy of holding her best men in reserves for a future attack of unprecedented severity, is a matter of question. American military experts give Britain a far better chance of surviving now than they gave her two or three months back.

Britain, of course, is still in grave danger. If fog prevents flying, it also provides a screen for an invasion over water. Hitler is known to have constructed armadas of shallow draft boats, equipped to carry tanks and field pieces as well as troops.

Latest polls indicate that this, as forecast, may be one of the closest elections in a long time—margin between Roosevelt and Willkie in big key states is only one to five per cent.

Local Woman Asks News to Print Letters On Draft And War

A certain local woman came to The News office this week with the following "letters to the editor" of an Amarillo newspaper, and asked that we print them, since they represent her feelings and sentiments in the present national crisis.

What is a Man's Life Worth? When Uncle Sam takes from his folks a young man for whom they have sacrificed, deprived themselves, and given their all, don't you think it only fair that the boy should be given something in compensation for his giving up his freedom and perhaps his life?

a month (or perhaps a \$9 raise if they think he is deserving), there would be no conscription bill before Congress today. If the United States wants an army why aren't they at least willing to pay for it? When a country wants its homes, land and freedom protected it should want to pay its defenders.

when the outlook was so fraught with forebodings of wars, disasters and situations of dire distress. Why? One person can answer this as well as another. The world is war minded and all because one man wanted to plunge our good globe into another world war.

Europe has always had wars and wars, and America should keep out of these wars as nearly as possible, but where there is not concerted effort to avoid trouble, other countries are fortunate if not drawn into these wars.

Our nation is already taxed to death, our people are constantly in a mental strain, and our cry should be: "Give us men capable of leading a great nation!"

ANOTHER DRY HOLE?

In the constant search for new oil reserves in Texas, even the dry holes benefit the communities in which they are drilled.

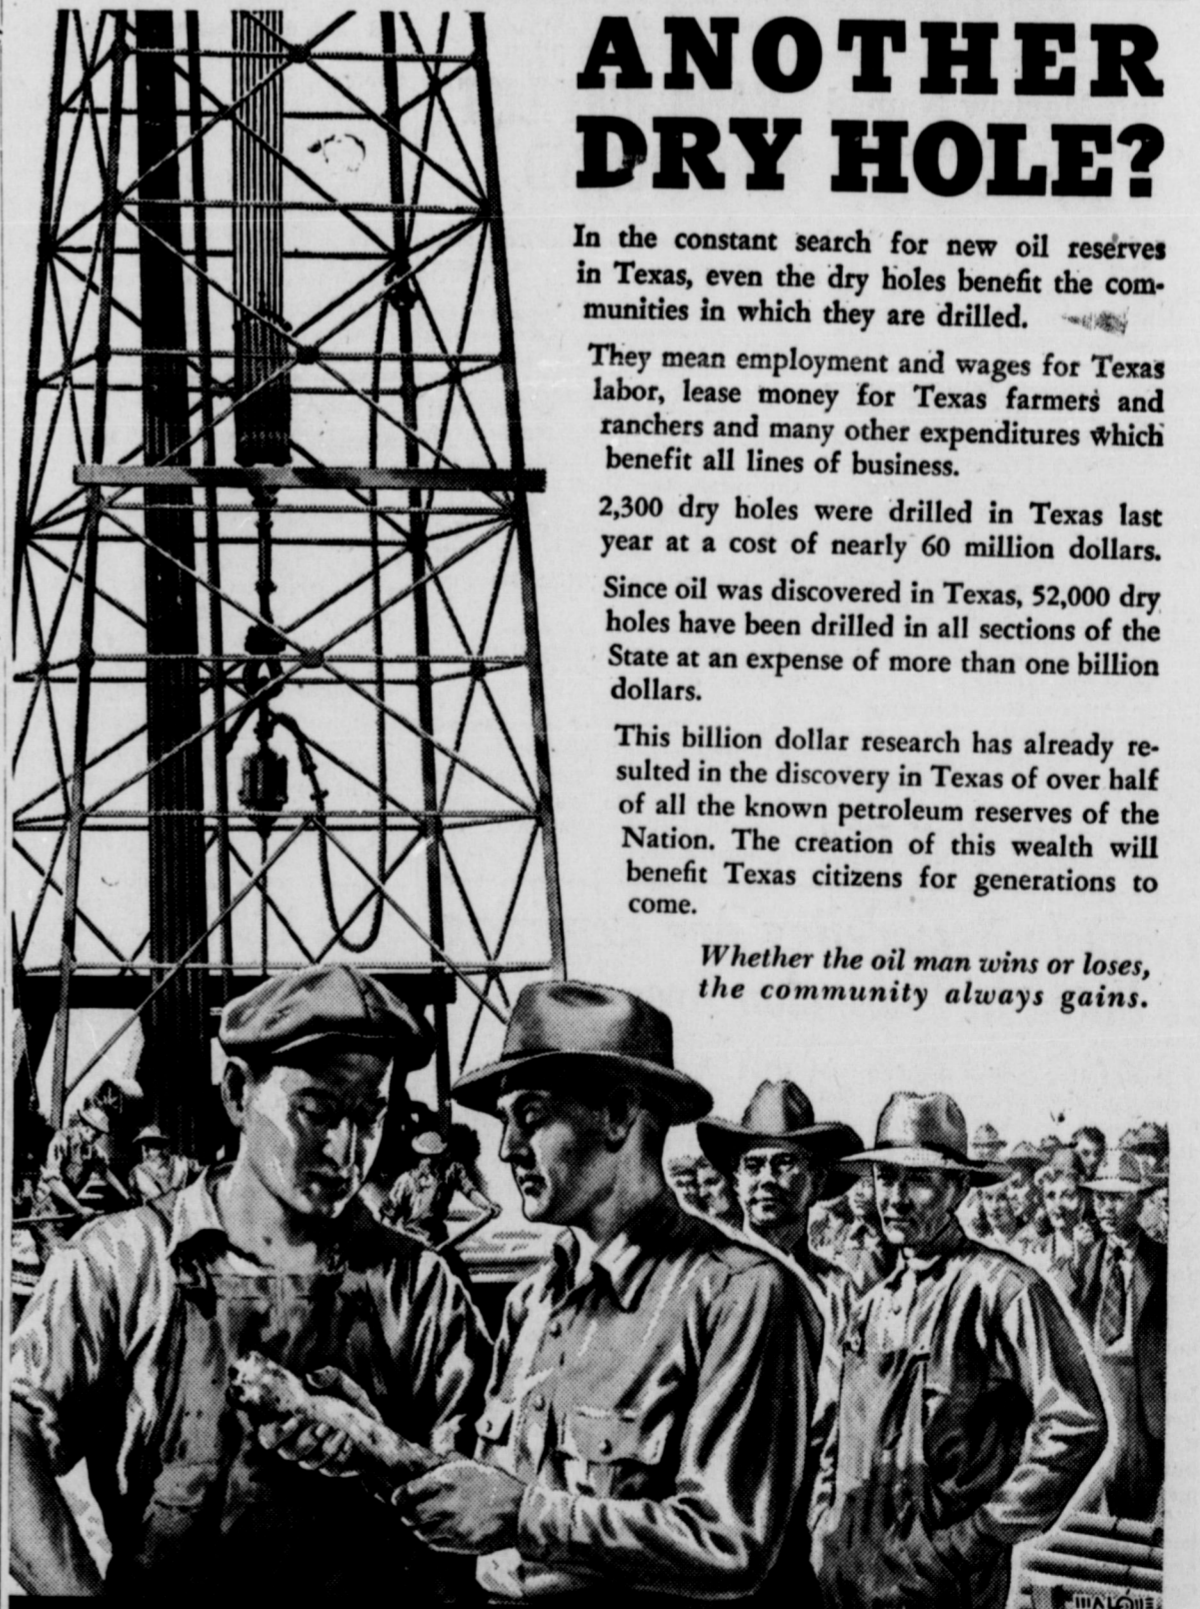

They mean employment and wages for Texas labor, lease money for Texas farmers and ranchers and many other expenditures which benefit all lines of business.

2,300 dry holes were drilled in Texas last year at a cost of nearly 60 million dollars.

Since oil was discovered in Texas, 52,000 dry holes have been drilled in all sections of the State at an expense of more than one billion dollars.

This billion dollar research has already resulted in the discovery in Texas of over half of all the known petroleum reserves of the Nation. The creation of this wealth will benefit Texas citizens for generations to come.

Whether the oil man wins or loses, the community always gains.

### LIBRARY NOTES

(By Mrs. C. A. Burton)

"How Green Was My Valley" still holds first place as a best seller after many weeks. Its author, Richard Llewellyn, a Welshman, wrote his publishers recently that he hoped to visit the United States soon. He said, "For years I've promised myself the privilege of leaning against a lamp post on Fifth Avenue to watch traffic go by, with a hamburger in one hand, and one of your bulky Sunday newspapers in the other."

Our people are becoming constantly more history conscious. Driving the last few days three prominent historians have been crossing the plains and canyons, tracing the 400-year-old trail used by Coronado in his futile search for the City of Quivira and for gold. They are Dr. Herbert E. Bolton, professor emeritus of history of the University of California; Dr. George P. Hammond, dean of the New Mexico University graduate school; and Dr. Aubrey Neasham of Santa Fe, regional supervisor of historical sites for the national park service. They are finding the "trail" very interesting.

Many unusual things are happening in warring Europe. Among them was the fact that Edward F. Hitchcock's biography of Benes, "I Built a Temple For Peace," was being printed on the Isle of Guernsey when the Germans occupied the island. All plates and proofs for it, together with the original manuscript, were seized and presumably destroyed. There was a copy of the text in England, however, and it is being reset and published just the same.

Along this same line in the "Where Are They?" corner is the quotation from a letter from R. C. Hutchinson to his publishers, Farror, and Pinchot, as follows: "I have a more ambitious book boiling up inside; it feels good, but I'm afraid it can't be tackled until we are through with this war. Yes, I've become a soldier, or rather I've donned a uniform and I'm learning to be a soldier, which means that any other work is out of the question at present. I can't say that I like army life, but it could be much worse."

Mr. Hutchinson is thirty-two years old, has a wife and four children, and has written six "supers and scudits" novels, says one reviewer. His latest, which is "The Fire and the Wood," a story of a Jewish doc-

tor in Nazi Germany. Hendrick Willem van Loon wrote recently, "I have just had news that the most brilliant among the young Dutch writers and critics, Mennoten Broek, had been obliged to kill himself on May 14th. He had been a severe critic of the Nazi philosophy of life and he knew that he was doomed. So he took the more honorable way out of an existence which had lost all further meaning."

Captain Liddell Hart, who is considered the world's greatest writer on military strategy, is doing confidential work for the British government in London and, at the same time, collecting material for a military history of the present war.

It seems that Metro-Goldwyn-Mayer insisted on the same price for "Gone With the Wind" in England which had been charged here, but the showman and the public won, and the picture can now be seen there for 25 cents, with the top price of 75 cents.

A bronze marker to the memory of Sidney Lanier was recently placed in the historic Exchange Hotel in Montgomery, Alabama. Montgomery is called "The Cradle of the Confederacy," and it was in this hotel that the first meeting of the Confederate cabinet was held. Sidney Lanier, the poet, worked there as a hotel clerk just after the Civil War.

A rare first folio volume of Shakespeare's plays, a toiled, red morocco volume, valued at \$50,000, mysteriously disappeared last February from William College, Williamstown, Mass. A few days ago it was as mysteriously returned by a messenger, who was unknown.

Recently there gathered at Louisville, Ky. the notables of the State to celebrate the birthday of Stephen Collins Foster, composer of songs of the Old South. The Honorable Order of Kentucky Colonels, presented to the governor of the state a portrait of Foster painted by Howard Chandler Christy which was placed on permanent exhibition in the Old Kentucky Home at Bardonia. A group of plantation Negro singers sang Swanee River and other Foster songs.

This list of the ten best plays of the year was recently published and is interesting: "Key Largo," Maxwell Anderson; "The Time of Your Life," William Sarayan; "There Shall Be No Night," Robert E. Sherwood; "Heavenly Express," Albert Beis; "The Male Animal," Jas. Thurber and Elliott Nugent;

Mazo de la Roche won great acclaim a few years ago with her "Galna" stories, beginning with "Galna" in which she introduced the Whiteoaks who are described as the "most turbulent, vital and arresting family in fiction today." She took her readers through the affairs of the family to a quite satisfactory conclusion in "The Master of Galna," the fourth volume. Then she went back and wrote "Young Renny," the story of the most interesting member of the Whiteoak family, as a child and now she brings her public another volume of the lives of the members of this clan in "Whiteoak Heritage"—a slightly confusing arrangement—but all of them very interesting.

One of our new books is The Stricklands "by Edwin Lanham, a novel of Oklahoma, of a people bruised by adversity, but not beaten. Edwin Lanham was born in Texas in 1894. He worked his way around the world on a freighter when he was 16, then went to college, lived abroad for four years, and now holds down a newspaper job in New York. His first novel was published in 1930. "The Wind Blew West," the story of the building of the R. R. from Ft. Worth to Weatherford was published in 1932—Two others followed, and now "The Stricklands."

### Free Attractions To Feature Tri-State Fair Program

AMARILLO — Free parking inside the Exposition grounds and free grandstand attractions afternoon and night will be features of the Tri-State Fair, September 16-21.

And on the midway this year will be the same shows which will appear later at the State Fair in Dallas. "There'll be more entertainment for less money than at any Tri-State Fair," explained Ray Pinkney, Association President. "The program in front of the grandstand each afternoon and each night during the week will be absolutely free and not only that, but arrangements have been made so it will be profitable to attend. Each show will last an hour and a half."

Admission to the grounds this year will be 10 cents for children between the ages of 6 and 12 years; 25 cents for adults. No reduction has been made in the premium list, which offers approximately \$16,000 in cash to exhibitors.

Each Department Superintendent has reported early, excellent entries. Scores of bands, accompanied by delegations, will be at the Exposition during the week. Members of the visiting bands will be guests of the Fair at luncheons on the grounds.

### DON'TS FOR DOVE HUNTERS

AUSTIN, Sept. 4. — With dove hunting under way pertinent DON'TS which, if followed, will save sportsmen consider trouble with state and federal game wardens have been formulated by the Texas Game Department's executive secretary. They include:

Don't shoot doves before sunrise nor after official sunset.

Don't shoot from a car or from, or along a public road.

Don't shoot doves with any gun except a shotgun larger than ten gauge.

Don't forget to plug your gun to three-shell capacity.

Don't forget your hunting license if you leave the county of your residence.

Don't kill more than 12 doves per day and do not have more than 12 in your possession, white wings and mourning doves.

Don't forget to clean your gun well before taking that first hunting trip of the season.

Don't shoot when you cannot see: there might be another hunter behind those trees.

Don't leave gates open and always get permission to hunt on private land; the trespass law is rather severe.

Don't forget that the quail season does not open until December 1.

### Giant Pre-Historic Skeletons Feature Texas Museum

AUSTIN — Skeletons in the closet? Texas Memorial Museum has its share of them!

For your next dose of bad dreams, check off a few of these pre-historic "nightmares"; they are already on the books at the massive white stone building, open on the University of Texas campus less than two years, as one of the finest collections of fossils in the country.

A 60,000,000 year-old 12-foot-long, sea-going fish, snared with a pick and shovel near Dallas. A 70,000,000 year-old sea monster's skull, excavated just seven miles south of Austin. Reconstructed, the cigar-shaped reptile—a mosasaur—would measure some 25 feet in length and weigh more than 10,000 pounds.

The skull of a giant, pre-historic buffalo with horns eighteen inches round at the core and a spread of some five feet. The animal would have dwarfed the modern bison, museum curators say.

A 13-inch-long pre-historic wolf skull, largest ever found. Its owner roamed the Texas plains alongside about the same time as the sabre-toothed tiger, preyed on the huge mastodons. The list goes on and on, according to Museum Director E. H. Sellards. It's part of the extensive geology exhibits at the state museum. Soon to go on display will be skeletal remains of a huge "shovel-jawed" mastodon, a huge ground sloth, and a glyptodon—prehistoric, armored relative of the armadillo, the size of an ox.

Mr. and Mrs. Louie Thompson and family spent Sunday in Memphis with friends and relatives.

The Fall Band Festival-Clinic will be held at the State Fair of Texas, October 17, 18 and 19, and will be held under the direction of Col. Earl D. Irons of North Texas Agricultural College at Arlington and Col. Everett McCracken of Baylor University.

### HEDDY LEMAR HAS PART OF SIREN IN PICTURES

Hedy Lamarr's first picture in which she plays the part of a siren is coming soon at the Pastime Theatre, according to Homer Mulkey, theatre manager.

Always before as a heroine, now she is a husband-stealer. Her role is shortest of any played by the stars, but every scene is a good one. She took the part to prove versatility and acting progress. She snipped four inches off that famous hair style to play the role. Incidentally, Claudette Colbert celebrates her tenth year of using bangs. She started vogue for bangs among stars, has never used anything else. In 1939 Miss Colbert signed for two M-G-M pictures. First was "It's a Wonderful World," with James Stewart. Studio promised second picture would be with either Gable or Tracy. She is with both in "Boom Town." It was a problem to locate the automobiles used in the picture. The period when they were used was 1919 and 1920. Of course, the cars had to antedate that year in models. The studio combed Southern California and by renting and purchase obtained sixty cars. The studio also had to locate samples of the license plates of several states for 1919-20-21.

## FRIDAY THE 13TH

Superstitious? Then beware, for tomorrow is Friday the 13th. The only solution we can find for such people on such a day is for them to crawl into a hole and pull the hole in after them. Let's hope that your Friday the 13th isn't like that of the man who walked under the ladder just as a black cat crossed his path and arrived home to learn that his house had just burned down, his wife had eloped with the iceman, and his dog had bitten the neighbor's kid. Of course, he wasn't exactly convinced of his bad luck until his best friend wrecked his automobile on his way to tell him that he had lost his job.

After listening to Mr. Roosevelt, we take it that he believes, "One Good Term Deserves Another."

## FAVOR BRITISH

Many who believe the British will win the war give the five following reasons:

1. England's superior resources of foodstuffs, supplies and money.
2. England's control of the sea and her aid from her colonies.
3. Confidence that the United States will not see the British beaten, or, as one person puts it, "England will win because the United States won't let her lose."
4. Confidence that Germany can't stand a long war.
5. Belief in the character and morale of the British people.

In addition, many think England is on the "right" side — "The side of democracy and the Lord."

Speaking of the hay-fever season, the "eyes" and "noses" appear to have it.

## CORN FOR DINNER

As Gertrude Stein would have it: Corn on the grass, Alas; Corn on the cob. A mob.

As Shelley would have it: Hail to thee blithe kernel, Though thou wast nurtured in sod, Thou causeth me tumults infernal, Thinkest thou, then, thou art God?

As Byron would have it: The piles of grease, the piles of grease Where once the limpid kernels hung Where there can be no earthly peace Until my teeth on thee are flung.

As Tennyson would have it: Half a row, half a row, Half a row onward, Into the jaws of death Slid the six kernels.

As Shakespeare would have it: Friends, Romans, countrymen, Lend me your ears.

If all the 1940 United States wheat crop plus the supply in the Ever-Normal Granary were used for food, it would provide every man, woman and child in the nation with twice as much bread, cereal and other wheat foods as each ate in the entire year of 1939.

### Garden Glances Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners"

I have learned that if you have a garden you will work from daylight until dark.

That your garden is never what you think it is going to be. That flowers never bloom just when you have planned, and it usually rains at planting time. That it doesn't matter how tired you are or how many things come up to keep your garden from being a success, you are never discouraged but keep right on working, believing that next year — your garden will be just as you have dreamed that it will be.

Garden Club will meet Monday, Sept. 16 at four o'clock in the home of Mrs. U. J. Boston.

### YEAR'S ACTIVITIES OF SENIOR BEAUX ARTS OPEN WITH BREAKFAST

Almost a full representation of the membership was present, with three out of town guests, Mrs. G. L. Stanley of Shamrock, Mrs. Carl Boston of Amarillo, and Miss Ineva Headrick of Amarillo. The breakfast has become an established feature given to honor the new and retiring presidents. Mrs. Geo. Bagby accepted the honor of president-elect with a graceful speech of acknowledgement and Mrs. U. J. Boston, in lieu of the retiring president, Mrs. R. L. Bigger, who could not be present, read a most clever farewell to her past responsibilities.

After doing justice to a lovely repast, the club was delightfully entertained by readings given by the guest of honor, Mrs. Stanley, who generally responded to the applause with a clever encore. The hostesses of the occasion were Mrs. Frank Bourland, Mrs. C. C. Powell and Mrs. W. A. Riney.

On Monday evening, Sept. 9, at the Memphis Country Club, Nita Meacham, recent bride of Dick Shelton of this city and daughter of Mr. and Mrs. C. C. Meacham of Memphis, was honored with a miscellaneous shower.

The Clubhouse was decorated to resemble a flower garden. The fireplace in the center of the north wall was banked with fern and numerous other flowers while trellises bedecked with roses and fern formed a small alcove in which the bride accompanied by her mother, Mrs. C. C. Meacham, sat. Over the alcove was a rain bow at the foot of which two large pots of gold holding a number of gifts. **NURSERY NEWS**

Mother Goose is almost batty. Her kids, or some of them at least, have made a habit of coming home in a high state of inebriation. Now, you wouldn't believe it of respectable nursery characters would you? But here is proof:

"Diddle, Diddle, Dumpling, my son John; he went to bed with his stockings on. One shoe off, and one show on. Boy! was he plastered!"

"Jack had money, Jill had nill. Jill married Jack, so Jack had Jill. Jill went to Reno. Now she's back. Jack has nothing, but Jill has Jack."

"Twinkle, twinkle little star. What the heck do you think you are, a light globe?"  
 Now do you believe us?

**LIGHTS IN OUR LIBRARY**

Have you ever thought about how pennies mount up when several hundred students begin paying library fines? No? Then perhaps you do not know that such a stack of copper coins paid for the new indirect lights in our library. This lighting system was installed last spring and was financed completely by fines collected for overdue books. Do not feel mistreated then when you have to pay a few cents fine. You are the one who derives the benefit after all!

**BIRTHDAY CLUB**

Members of this week's birthday club are Maxine Robertson, Annie Ree Porter, and Lee Christie. Since we really forgot to ask their ages, you will have to see them individually to find out.

**HOME ECONOMICS CLASSES**

A new group of first year students in the Home Ec. Department are finding an unusual interest in life, while studying the care of their clothing. The study of dinner menus is found to be very entertaining to the second year class. Nutrition and family relations are being studied by the third year group.

Plans are being made by the second and third year girls to initiate the first year group soon.

**STUDENTS ENJOY FIRST DANCE**

Miss Naomi Morris and Mr. Carl Morris entertained many of their friends Friday at their home with the first party and dance of the fall season. The yard was attractively lighted so that many kinds of games were available both there and in the house. The dancing was in the front room and on the front porch.

There were approximately forty couples present. Everyone had an unusually good time.

**BAND SPONSORS SHOW**

On Friday, September 13, the band is sponsoring Mr. George Bagby's Fourth of July Movie. Since they will receive all of the money from the show, they are especially eager to have a large attendance. Since new instruments will be bought with the proceeds, we feel that everyone will want to help this organization.

In a few days the band will start its rummage sales. If you have any old clothing we may have, please notify some member of the band and the articles will be collected immediately. We want to be able to supply these "new fall outfits."

The Clarendon Bronchos opened their second week of work-out Monday looking better than ever. The boys are all in good shape and their spirit is the highest that has probably ever been seen in Clarendon, or at least in several years. A very stiff workout was climaxed by a scrimmage that was rougher than ever.

New pads were issued to ten first string boys. They were as follows:  
 Ollie McCrary, LE, 180 pounds  
 Jimmy Lumpkin, LT 179 pounds  
 J. W. Goodman, C 150 pounds  
 Ray Bulls, RG 164 pounds  
 Lesley Wardlowe, RT 207 pounds  
 C. G. Kirkland, RE, 170 pounds  
 Carlton Gordon, BF, 155 pounds (passer-punter)  
 L. B. Hartzog, BF, 180 pounds (Blocking back)  
 Bud Hermesmeier, BF 180 lbs.  
 Raymond Johnson, BF, 135 lbs.  
 Other first string prospects are Clyde and Carrol Peabody at left guard and Basil Smith in back field.  
 George Reeves who suffered

an operation just before school started will be out later playing guard.

Other boys coming out are Robert Summers, Jack Roff, Chester Gregory, Woodie Spencer, W. G. Adams, Fleetwood Cornell, Ralph Morrow, Carl Hartzog, Billy Thornberry, Obra Spier, Maurice Risley, Ray Pitman, Johnnie Beard, Arlis Ray Allison, Denis Ratton, Harley Shaw, and Burl Ray. This is four more boys than were out this time last year.

The coaches are making things look mighty rosy. Let's keep them that way by BOOSTING THE BRONCHOS.

**OUR TIME KEEPER SPEAKS AGAIN**

Carelessly speaking, these first few days of school have been a peck of fun to me. Of course I told you about last year — but it was nothing to compare with this.

Really, I laughed last week until I was almost too ill to tick. Every few minutes some sophisticated college youngster would come sneaking by muttering to himself that he would come up for class the wrong day.

Then there were those tiny sophomores who were so lost it took three teachers to get them where they belonged. They have all looked a little more settled this week.

The thing that really surprises me though is that the hall step have been almost deserted. In place of hearing those low confiding tones that I hear from the group last year, I now hear, "Hey! Let's find a place to study!" And do you know everyone seems to have caught that spirit.

Of course these changes may spoil the fun for me for I really watched some interesting cases last year; but it will be worth my being bored if everyone stays busy. As the bell said to me yesterday, "Just one clang from me seems to put a thoughtful expression on every face!"  
 So long! I'll be ticking out the news to you all year.

able distribution of hunting during a short season. Duck increases this year make it possible to spread the hunting over a longer period, but shorter seasons may again be unavoidable...

Maryland, Virginia, North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Texas, and Arizona make up the southern zone.

The daily bag limit on geese, reduced last year from 5 to 4, has this year been lowered to 3. The bag limit on ducks remains at 10 a day.

Special protection, as formerly, is afforded canvasbacks, redheads, buffleheads, and ruddy ducks by limiting to 3 the number of any one of these species that may be included in the daily bag and providing further that not more than three of this entire group in the aggregate may be taken in a day.

A 60-DAY SEASON FOR DUCK-HUNTING IS ANNOUNCED

The duck-hunting rules have been liberalized.

Longer seasons, daily shooting to begin at sunrise, and a longer post-season possession of birds are among the 1940 rules for duck hunting announced by Secretary of the Interior Harold L. Ickes.

Governing the hunting of all migratory game birds in the United States, and Alaska, the new regulations also reduce the bag limits on geese, mourning doves, and whitewinged doves.

A season of 60 consecutive days, instead of 45, has been provided for hunting ducks, geese, coots, and jacksnipe. In the northern zone the season will be October 1 to November 29; in the intermediate zone, October 16 to December 14; and in the southern zone, which includes Texas, November 2 to December 31. All dates are inclusive.

The longer seasons, Secretary Ickes explained, have not been provided to give individual hunters more shooting but to make as fair a distribution as is possible of the available hunting.

See the mother nourishing her brood of pigs, the rooster fight, the farmer pitching hay to the barn loft, horses and cows drinking from the water fountain. Negro dance and watermelon feast, as well as dozens of other marvelous features as is daily carried on in farm work. In these minute details the keenness of Mr. Gifford's observation, and the skill of his fingers are marvelously worked out in The Little Farm.

See this unique mechanical farm. If everything represented above, as well as numerous other features, is not carried out as represented, your admission will be returned upon request as you pass out.—Adv.

Mr. Knorpp says they saw the Benedict family, formerly of Clarendon, at Carthage, Mo., who are well and happy. On the return trip they visited at Tulsa, Oklahoma with relatives. They also saw evidences of the high waters caused by torrential rains in Eastern Oklahoma as they came home.

Mr. and Mrs. James McGregor of Stinnett and Mr. and Mrs. Melvin Eagle visited friends and relatives here Sunday.

Billy Thompson of Memphis and Joan and Neel Thompson of Clarendon were business visitors in Amarillo Monday.

Betty Johnson of Memphis spent Tuesday and Wednesday here with Mr. and Mrs. Dick Shelton.
