CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, JULY 24, 1941

Established In 1878.

New Series, Vol. 52. No. 30

At Convention

Lions Club President McHenry Lane, with Mrs. Lane, is in New Orleans this week in attendance on the International Convention of Lions Clubs. The convention will adjourn Friday, and after a visit with relatives in the Texas coast country, the Lanes will return to Clarendon. They are making the trip by auto, leaving here Friday of last week.

TENTATIVE PLANS LAID TO SPEED LOCAL USO DRIVE

Stymied since its beginning by Celebration events and other distracting influences, Donley County's USO drive will be continued, with renewed vigor, until the quota of \$500 is raised, county chairman Buddy Knorrpp said this week.

The drive was scheduled to start immediately following the Celebration, but the vacation-time slump in local affairs has made it virtually impossible to work up any interest in a finance-raising effort for the past two weeks or so, Mr. Knorrpp said. As a result, little if anything has been accomplished with the drive so far. Since there is no time limit on the needs of America's defense forces for adequate recreational facilities, the drive has just as much importance now as ever, and will continue to be a worthwhile endeavor until it reaches a conclusion with the county's quota subscribed.

Preliminary plans were being made this week for several social and entertainment affairs to be staged locally as USO benefits, and Mr. Knorrpp promised more complete details on some of these events within the very near future.

Meanwhile, contributions of Donley County people to the USO fund are acceptable at any bank in the county, and contributors will have the satisfaction of knowing that their dollar will contribute to a better-rounded life for each of more than 100 Donley County men who are serving their country's defense needs as members of the nation's armed forces.

PAUL GREENE ASSOCIATED WITH PRIVATE CONCERN IN ASIATIC SERVICE

In order that there might be no misunderstanding of an article published in the News last week concerning Paul Greene, Clarendon flyer, the News wishes to make it definitely clear that Greene will not necessarily be directly connected with the Chinese government or its air force in the position he has accepted in Asia. Aviator Greene has signed a contract with Central Aircraft Manufacturing Company, for unspecified duties. He left San Francisco this week, to go by boat to a station at Rangoon, Burma.

Attending the District Young People's meeting in Pampa Thursday night as representatives from the Methodist Fellowship organization were Betty Jo Bartlett, Kitty Ruth Baley, Patti Quattlebaum, Ruth Patman, and Marilyn Merchant, Rev. J. O. Quattlebaum, Jr. accompanied them.

Bids For Third Time On Overpass Here Reported Due In August

Following the failure of the Texas Highway Commission to award a contract on the Fort Worth & Denver overpass in West Clarendon in the May lettings, the city, county and highway committee of the chamber of commerce has been carrying on a barrage of letters and telegrams to the Commission at Austin, chafing at the delay and urging the fulfillment of the promise to construct the overpass in Clarendon after county and city had furnished the right-of-way.

After a new hearing had been asked by the local authorities, the Texas Highway Commission has advised the county court that a hearing had been granted on July 31st, but went on to advise in his letter that a trip by local committeemen was not necessary, and that it was the plan of the commission to re-advertise for bids on the project in August.

In a letter to Sam M. Braswell, chamber of commerce highway committee chairman, Chairman Gentry, declared the overpass would be built, and reviewed the bids received on the two previous occasions, when only one bid was received in the first instance, and that too high according to the advice of the state engineer; and in the second instance, when two other bids were received which had all the appearance of "courtesy" bids.

Mr. Gentry also pointed out that uncertainty of deliveries on

structural steel in the project was a factor in bringing the bids to a higher level than anticipated, but the department was working with the Federal government on the matter of deliveries of such steel, which would assist in obviating this difficulty.

In a telephone conversation Mr. Braswell pointed out to Chairman Gentry that all costs were advancing that further delays could hardly bring anything but still higher costs. In Mr. Gentry's letter he admitted that some construction bids were as much as forty percent higher than they were a year ago.

While it appears that new bids will be asked in August, the chamber of commerce committee here feels that it would be safer and more to the interests of the city and county to be represented in Austin at the hearing on July 31. If the trip is made, a plea for more paving north and south on Highway 18 will probably be made. Some are urging that with 18 contracted from Pampa to the Donley County line, it would be proper to ask the paving of the unpaved strip in Donley so that mounting traffic North and South would have the benefit of an all-paved highway Clarendon to Pampa.

Plans here today indicate a delegation from city, county and chamber of commerce will attend the hearing July 31st.

\$11,000 PLACED IN CIRCULATION IN FOOD STAMPS

Donley County's Food Stamp Plan has placed more than \$11,000 in circulation in orange and blue food stamps since its inauguration in the county May 15, figures released this week by A. C. Donnell, local issuing officer, showed.

As the amount of stamps issued has grown, the percentage of participation by those who are eligible to take part in the plan has climbed steadily. Mr. Donnell said, until it now is around 75 percent. Initial participation in the plan was only 30 percent of those eligible, it will be remembered.

As is the custom, the Food Stamp issuing office will be closed for its regular month-end checking period part of next week, Mr. Donnell said. The office will close Tuesday night, and will not reopen until Friday morning, when a new month will be started. Those who have not bought their minimum amounts of food stamps until Tuesday to do so, or be taken from the eligible list, Mr. Donnell warned.

ACCIDENT FATAL TO FORMER RESIDENT OF HEDLEY

Victim of an oil-field accident, Lawrence Dodson, son of S. T. Dodson of Hedley, died in a Borger hospital Monday, of injuries received when he was crushed between two trucks.

Dodson was said to have been unloading fire bricks at an oil lease west of Borger when another truck rolled against the one near which he was standing, pinning his body between. He suffered a crushed chest and internal injuries, and efforts to save his life by the use of an iron lung were futile.

Funeral services were held at Hedley Tuesday, with Rev. J. E. Biggs of the Hedley Methodist Church, reading the last rites. Interment was in Rowe Cemetery near Hedley, with arrangements in charge of Womack Funeral Home.

Kathleen Ryan left Wednesday for a visit with her mother, and other relatives in Duncan, Oklahoma.

ASSISTANT COACH JAMES GOES TO CHILlicothe

I. T. James, who served the Clarendon Bronchos as assistant coach during a successful 1940 season, announced this week that he had resigned his place with the local school system to accept a position as head coach at Chillicothe High School. Mrs. James, who taught in the local school system last year, also has accepted a position in the Chillicothe schools, it was said.

Coach James came to Clarendon High School in 1940 from a successful school career at North Texas State Teachers College at Denton, where he was a four-year participant in football and other sports. Though he was new to his job and the

I. T. JAMES

team, his assistance to head coach O. C. Warden was given credit for much of the success enjoyed by the Broncho eleven last year, and his new position is taken by many local friends as another step upward for a hard-working and talented young man.

School officials were considering several applications for the position left vacant by James' resignation late this week, but had no announcement of any definite choice of his successor as yet.

CROP PROSPECTS BENEFITTED BY GENERAL RAIN

Donley County farmers and stockmen were happy today, as a slow, general rain which began last night boosted crop prospects upward and relieved a near-critical water shortage in many sections.

The rainfall, coming slowly as it did, covered most of the county with badly-needed moisture for growing grain and cotton crops, and furnished a new supply of water for farm home and stock use on farms and ranches over almost the entire county. On many farms, a water shortage had developed in the past week because there was not enough wind during hot, dry days to operate windmill water supplies.

Feed crops were especially well treated by the rainfall, which came at the time when moisture will provide abundant growth and make for a bumper crop later in the year. Cotton farmers were more optimistic about their crop prospects than they have been this year, as practically all cotton which will make it all was in need of rain to insure good stands. Much cotton had been abandoned over the county, but what is left should do well, farmers predicted today.

In Clarendon, rainfall began in earnest about 6 a. m., continuing until well up into the morning. Overcast skies gave promise of more rain to come, and forecasts for today and tomorrow were for scattered showers.

Mr. and Mrs. Walter Humphrey and daughters of Temple visited in the News office Wednesday afternoon. Mr. Humphrey is editor of the Temple Daily Telegram.

DONLEY RESIDENTS FATALLY INJURED IN WRECK SUNDAY

CLAUDINE TOLLETT AND O. E. SAUNDERS DIE IN TWO-CAR CRASH NEAR CLAUDE

Tragedy struck into two Donley County families Sunday when a collision of the automobile in which seven members of the two families were riding, with a loaded grain truck brought death to two persons, injuries to six others.

Fatally injured in the crash were O. E. Saunders, 36, Hedley, and Claudine Tollett, 9-month-old daughter of Mr. and Mrs. Earl Tollett, also of Hedley.

Injured most seriously was Wanda Lou Saunders, 6 years old, daughter of the accident victim, who suffered a deep gash in her forehead and a fractured skull. In a serious condition at first, she was reported recovering in an Amarillo hospital later this week.

Others who were injured included Mrs. Saunders, who was cut and bruised painfully and received a hip injury; Mrs. Tollett, who was cut and bruised severely; and Mr. Tollett, who suffered a broken ankle.

Four-year-old Tommie Earl Tollett was cut about the face, while Gus Tyler, 17, driver of the other vehicle involved in the accident, received injuries about the head and neck.

On a Sunday afternoon visit to relatives and friends who lived south of Claude, the two families were riding in the Saunders car, a 1941 Ford coach, when it collided broadside with the pickup truck at the intersection of two country roads. High weeds obscured the view at the intersection, and it seemed apparent that neither driver was aware of danger until the two cars collided. The passenger car, driven by Saunders, was overturned by the impact, crushing his body beneath its weight. The pickup truck remained upright. Both automobiles were badly damaged.

The injured were rushed to an Amarillo hospital immediately following the tragedy, and all of them were released after treatment but the Saunders child. The dead were taken to Hedley in a Womack ambulance for funeral services which were held Tuesday.

JOE GOLDSTON SUFFERS BROKEN COLLARBONE IN FALL AT HOME HERE

Joe Goldston, local jeweler and optometrist, was confined to his home today with a broken collarbone, suffered late yesterday afternoon, in a fall at his residence. Mr. Goldston was said to have been romping in the yard with his nephew when he accidentally tripped and fell, fracturing the bone. The injury was painful but not serious, and he is resting as well as could be expected, reports from his home indicate.

Pots and Pans Stack Up As Local Aluminum Drive Gains Headway

Aluminum for America's Defense—in the form of discarded coffee pots, pressure cookers, and other cooking utensil in every size, shape, and condition—was stacking up this week in the Donley County agent's office window, as testimony to the patriotism and cooperative spirit of Donley County residents.

The aluminum is going to make airplanes and other defense machinery, just as soon as enough of it accumulates to make a shipment worthwhile, and in the few days since the local drive for discarded pieces of the metal started a sizeable amount has accumulated.

County agent H. M. Breedlove, who acts as receiving agent for donations of old pots and pans and the like, says that the contributions are coming in from all sections of the county, and that as the stack of utensils grows in the window display space, interest in the movement grows also.

The Donley County drive is just a small part, but still an

WORK PROGRESSES ON REPAIRS TO COLLEGE BUILDING

With a full crew of brick masons and other skilled and semi-skilled workmen on the job, progress was being shown this week on the remodeling and repair job at the Clarendon College main building, where damages done by last month's storm are being erased and replaced by modern masonry and construction.

Work on the building, under contract to Neill Singleton of Amarillo, started last week, but it was not until late in the week that workmen were able to begin with actual rebuilding, several days being occupied with cleaning away ruined walls and erecting scaffolding and hoists around the building.

This week progress has been good with work on the building, and the remodeling of the front wall of the building is well along toward completion. Some excess brickwork and woodwork in addition to that damaged by the storm has been cut away to give the building simpler lines, in keeping with modern architectural trends.

Present plans are to keep a crew of brickmasons on the main building until they are finished with it, then begin work on the dormitory building, it is said. The contractor has promised to finish work on main building class rooms by September 1, but it is thought likely that work on the dormitory building will require a slightly longer time, as the entire third floor is to be cut away, in addition to repairs of damages on other floors.

NO BRICKS YET FOR CANYON MUSEUM RECEIVED HERE

Checking up with W. H. Patrick, who was charged with the leadership in securing bricks and donations in the Panhandle-wide drive to add a much needed addition to the Museum at West Texas Teachers College at Canyon, The News is informed that to-date, there has been no response from this community.

Sunday is the last day, and the former students, friends of WTSC, and interested citizens of Clarendon and Donley County are urged to attend promptly to this matter by Saturday.

Mr. Patrick will be very grateful to all who will contribute from one brick up, or a cash donation in any sum. The News suspects that he will feel deeply chagrined if the time limit comes on with no manifestation of interest here, whatsoever.

Mrs. B. C. Antrobus and Dorothea Watson are visiting today with Mrs. Antrobus' mother in Borger.

F. F. A. CHAPTER RANKED AS BEST IN TEXAS

For the second consecutive year, the Clarendon F. F. A. Chapter ranked as the best in the state, when rankings were announced to climax the State F. F. A. Convention held in Marshall this week.

Awarding of the Lone Star Chapter rating to the Clarendon Chapter marked the first instance in which a chapter has received the rating for two consecutive years. Five other chapters, Cotulla, Huntington, Waxahachie, Paducah, and Banquette, also received the Lone Star Chapter rating.

The local chapter was represented at the Marshall meet by Jack Riley and Advisor John Gillham. Gillham served as chairman of the State F. F. A. Swine Improvement Committee, and Riley played in the State F. F. A. Band, during the session.

The honor which Clarendon's F. F. A. group has won for two years marks the peak of state F. F. A. activity, and is the goal of every one of 647 chapters in the state. Last year, the local group won a similar recognition as a top-ranking chapter out of 7,000 in the United States, and its members are pointing for a repetition of that award again this year.

CLARENDON BOYS GIVEN LONE STAR FARMER DEGREES

Two Clarendon youths, Leo Christie and Frank Cannon, attained the peak of individual accomplishment in state F. F. A. work this week, when they were awarded the Lone Star Farmer degree at state F. F. A. Convention in Marshall.

Cannon was reporter for the local chapter in 1940, and was an outstanding dairy cattle and livestock judging team member. He represented the chapter in the recreational field as a member of its boxing team, and was a finalist in the 1940 and 1941 Golden Gloves tournaments at Amarillo.

Christie was president of the chapter last year and is a member of the championship team of Texas in Milk Judging, which he will accompany to national judging contests this fall.

To receive the degree, prized by all of Texas' 30,000 F. F. A. boys but won by very few, both the boys had to show an outstanding record of student activity, scholarship, and of work on F. F. A. projects.

Evangelist

J. L. Moyer, above, recently came to Clarendon as evangelist of the local Church of Christ, succeeding evangelist Claude C. Smith. Elder Moyer announced preliminary plans this week for a forthcoming revival at the church. Further details will be announced next week, he said.

A YARDSTICK FOR OUR TOWN

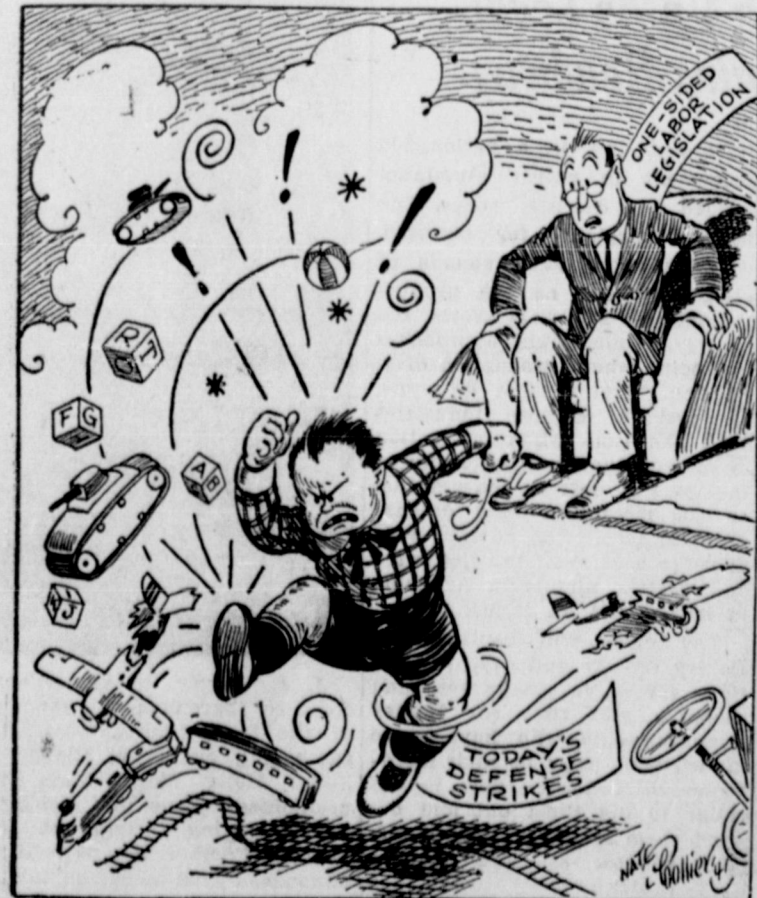

SCORE: Good—5 points; Fair—3; Poor—0.

This contest is being conducted by individuals in many cities in the United States, and was arranged by the Publishers Auxiliary. It will be interesting to have the scores of our own town, based upon no other yardstick than our own opinion. How high does our town rank on your score card?

- 1. INFANT MORTALITY.** The possibility a child will die its first year is four times greater in some cities than in others. Parental neglect is important, but community management of health is a big factor.
- 2. SCHOOLS, ETC.** The higher the value of the educational and recreational plant, the more likely it is that you are living in a "good town." Surveys show a direct relationship exists between them.
- 3. RECREATION.** Five acres of parks per 1,000 population is a reasonable goal for a community recreation program. Many small well-equipped neighborhood parks are favored over a few large ones.
- 4. PUBLIC PROPERTY.** The "value of public property minus public debt" rating in a survey of U. S. A. municipalities showed Evanston, Ill., Brookline, Mass., and Pasadena, Calif., high up on the list.
- 5. SCHOOL COSTS.** In general, a city is "better" whose citizens are given more dollar's worth of educational opportunity and more of whose young people can remain in school. How does your city rate?
- 6. SCHOOL GRADUATES.** In determining your city's rating, consider percentage of elementary students who graduate from public high schools. Some communities are known to have twice that of others.
- 7. READING HABITS.** Is your community library-conscious? Step over to the public library and inquire about the book and periodical circulation. It is an index of the social well-being of your city.
- PUPILS.** In some cities the percentage of school pupils in the 16-17 year bracket is twice that of others. Among the leaders in this particular rating is Brookline, Mass. Another is Pasadena, California.
- 9. TELEPHONES.** In some cities two families in three have telephones; in others, it may drop to one in eight. Generally speaking, the more phones, the better the town. What's your city's score?
- 10. ELECTRICITY.** Experts include the number of homes using electricity in rating the "goodness" of a community. Local power-company officials can supply you with necessary data for your own city.

My Town's Total Score Is _____

HIS BOUNCING BABY BOY

JUST HUMANS

"Glasses of What?"

REALIZING LIFE'S AMBITIONS

There was a pitiful story in last Sunday's daily papers, of a man who had always held an ambition to own a ranch. He got into the oil game, made a comfortable fortune, and finally bought a ranch near Dallas, and retired. He moved to his new ranch home, sickened and was dead in just a few days.

The pathos of the story is heightened by the name he had given his ranch home—"Atlanta Ranch".

Poor fellow, you say, but after all what a gain it was to that man to have such a compelling life ambition. The striving toward the goal was worth untold values to him. It kept him fighting, struggling onward, when many times the game didn't seem worth the candle.

The higher ambitions we adopt and cherish, the better we are off in this life. It is immaterial, that we achieve them early or late—or not at all. The rosy-hued power that impels us forward is the important asset in our lives.

May we all achieve our ambitions, and live to enjoy them, but more important, may we never be without ambitions to lighten and brighten our days, and buoy our spirits as we face life, and travel toward the Infinite.

THAT "V" FOR VICTORY

In the still hours of the night a few evenings back, wakeful, this writer heard a distant auto horn sound out the three dots and a dash—Britain's "Victory" slogan for enslaved Europe.

The signal came wierd and eerie on the night air, and caused us to ponder the shrewd propoganda back of this cry against the low tyranny of the dictator which is welding the down-trodden millions of Europe into an irresistible, pent-up, power that sooner or later will engulf Hitler and his minions in sudden, awful, terrifying destruction.

That brought on the thought, that while, the "victory" signal was designed primarily for Britain and Europe, it is not amiss here in this Nation for us to rally to some sort of simple signal of Liberty and Victory, if we are to remain a great and free people.

If the true situation and conditions of the world mean anything to us, then the cry for Victory is clear, insistent and compelling.

There can be no security for America and Americans until Hitler and his ideals are utterly crushed and swept from the corridors of this era.

Economic Highlights

Happenings That Affected the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.

According to most commentators, it is the belief of the President that this country can take many a belligerent step without formally becoming a participant in the war. Judging by recent German statements, that belief seems to be well-grounded. Hitler's spokesmen denounce the United States and its foreign policy, but they still say that Germany will not be forced into declaring war on us, by "overt acts." In short, Hitler's legions are busy enough now without taking on a new foe.

If Hitler had wished, he could obviously have construed the U. S. military occupation of Iceland as an act of war. Iceland is less than a thousand miles from Germany, and could be developed into a major air base for use against the Reich. Whether or not Iceland is actually a part of the Western Hemisphere is a highly debatable question. The little island lies across the 20th meridian, which is generally considered the dividing line of the two hemispheres. Two-thirds of the country is east of that line. However, the one-third which is west of the line includes Reykjavik, the only large Icelandic city and port.

The reasons for occupying Iceland are clear enough. First, the American occupation has released numbers of Empire troops for service elsewhere—the bulk of them will probably be sent to Africa, where Britain has just

depth charges over a German submarine. And American fighting ships are at sea now, warning the British whenever they come on a Nazi raider. The American Navy, in other words, is pretty much in the war.

Furthermore, American aid, though many still feel that it is not great enough, is becoming a real factor in the conflict. Some of the great bombers which have been blasting at German-occupied areas on the Continent, are of American make. British dreams of air equality and eventual air superiority have not yet been realized, but they are coming closer to actuality. And at this time, with a large part of the German strength mobilized in the Eastern front, British power, relatively speaking, is undoubtedly greater by far than in the past.

The recent statement by a British general to the effect that American manpower will be eventually necessary to lick Hitler, caused much speculation in this country. The British position, as stated by Mr. Churchill, has always been that the Empire needed only materials of war, not men. Whether that position will be changed, remains to be seen. Right now, there would be small chance of Congress authorizing another A. E. F.

In U. S. military circles, it is felt that the Russians proved tougher than the Germans expected. In these same circles, it is also felt that Germany will probably defeat Russia's European armies in the long run, though at a fearful cost in Nazi troops and material.

However, European Russia is only one part of that vast country. Asiatic Russia also has great armies and important industrial centers. The authorities are convinced that Hitler cannot stop until he has destroyed Russian military power in toto, and caused an overthrow of the Communist regime. Not until that is done can Hitler feel that he is safe from attack from the East.

That explains the belief in some quarters that Hitler may come to disaster in Russia. The size of Russia alone presents the invader with tremendously difficult problems, and Russian soldiers have always been fine defensive fighters. Stalin's "scorched earth" policy is said to be producing results.

Stamp Pad Ink at The News

COMPLETED PLANS ANNOUNCED FOR ALUMINUM DRIVE

Austin, Texas, July 22—Completion of plans for Texas to help turn the nation's used aluminum pots and pans into airplane parts and into other needed defense items was announced today by Governor W. Lee O'Daniel, as Chairman of the National Defense Committee for Texas.

The Governor had asked the county judges of the 254 counties in Texas to organize the campaign in their respective jurisdictions and to designate the mayors of municipalities as co-chairman.

In accordance with details of the national campaign as received by the Governor from William S. Knudsen, Director General, Office of Production Management, and from F. H. LaGuardia, Director, Office of Civilian Defense, final instructions regarding the collection campaign have been sent to every county judge.

Committees in each community and in the rural areas have been asked to take a house to house canvass and to gather up all used or discarded aluminum ware that housewives can spare without making replacements.

Public bins are being constructed in many communities and are located on such places as the city hall or county court house steps, or other accessible places, to enable aluminum contributors to deposit their gifts.

Complete instructions concerning the disposition of the aluminum will be forwarded to the local leaders at a later date. Concentration points have been designated by Mayor LaGuardia as follows: San Antonio, Houston, Dallas, El Paso, Amarillo, Fort Worth, Brownville and Austin.

All of the aluminum collected will be used strictly for defense. Governor O'Daniel specifically advised, and no individual and no organization is to make any profit from the collection.

Helen Hudson spent Sunday in Childers visiting with Effie Nell Farmer.

Mr. and Mrs. Dusty Rhodes of McLean were shopping in this city Saturday.

THE PASSING OF THE Boomtown

Oil boomtowns exist today only in the movies. The old-time "gusher" wells are gone forever.

In the early days, as long as oil flowed, the boomtowns flourished. But soon the wells failed and the booms collapsed, carrying with them the income and security of those who had depended on them.

Today, through a sound program of conserving oil and gas, hundreds of Texas communities are enjoying a permanent type of petroleum development. Furthermore, because of conservation, we have the largest oil reserves in the world, one of our greatest assets for National Defense.

Oil now builds stable communities. It provides assured tax revenues and greater ultimate tax returns than were ever possible in boomtown days. And every citizen benefits from the income oil creates.

Conservation not only protects Texas oil resources. It also assures for many years the prosperity which oil brings to every community where it is found.

One of the standout attractions at the sixth Annual XIT Reunion in Dalhart August 4 - 5 will be the Dalhart Cowgirls Trio who, left to right, are Irma Jeanette Karnes, Billie Jo French and Betty Steele. The XIT Reunion is based on the history of the 3,000,000-acre XIT Panhandle ranch which Texas in the 1880's traded to two Chicago financiers for a capitol. It is to honor all men and women who once worked for the ranch, and all other Western pioneers. The trio is shown in front of the Empty Saddle monument, located in down town Dalhart, and dedicated at the fifth annual reunion to the sons and daughters of the Old West.

What Your Defense Dollar Buys Given Graphic Illustration In Terms Of Aircraft, Guns, Ammunition

Austin, Texas, July 24—While the eyes of America are focused on the tense situation in Europe, Texas is bending every effort to aid in National Defense. Daily this state becomes of greater importance to the whole National Defense Program.

Bombers, of the type most needed by England, are being built at Dallas and Fort Worth. Ammunition will soon be turned out in large volume by the plant now under construction at Texarkana; other articles of vital importance are being turned out daily by Texas industries.

Large numbers of ships will soon be constructed in the new yards at Orange and Houston. American soldiers are being trained in modern warfare at Brownwood, Abilene, Mineral Wells, Palacios, San Antonio, El Paso and other cities. American Air Corps pilots are being taught flying, bombing, and aerial warfare at Randolph Field, the huge Naval Air Base at Corpus Christi, Victoria, Cuero, Brady, Corsicana and Stamford. Soon new air schools will be completed at Lubbock, Midland, Coleman, Grayson County, and

several other points in our state. Mechanics to service American planes will be trained in large numbers at Wichita Falls within the very near future.

Citizens of Texas are thinking in terms of Defense Bonds and Savings Stamps. They are anxious to help. They know that the Canadian people were asked recently to subscribe \$600,000,000 to put over Canada's Victory loan and that these friends on our North went over the top by buying \$710,958,950 of these securities.

The Secretary of the Treasury, Henry Morgenthau, Jr., said:

"Defense Savings Bonds and Stamps give us all a way to take a direct part in building the defense of our Country—an American way to find the billions needed for National Defense."

"The United States is today, as it has always been, the best investment in the world. This is an opportunity for each citizen to buy a share in America."

What Your Defense Dollar Buys

- \$1: 16 cartridges
- \$2: 3 cotton shirts
- \$3: 1 bayonet
- \$6: 1 anti-tank shell
- \$10: 1 tent
- \$11: 1 shell for 75-mm. gun
- \$15: 1 25-lb. fragmentation bomb.
- \$21: Pay for 1 Army private for 1 month
- \$27: 1 .45 automatic pistol
- \$30: 1 chaplain's outfit
- \$50: 1 Springfield rifle

- \$70,000: 1 pursuit plane
- \$220,000: 1 4-end. long-range bomber

BAPTIST CAMPAIGN FOR ARMY FUNDS SET FOR JULY 27

Texas Baptists have established religious centers for fifteen army camps in Texas. In many places chapels have been built, where the soldiers come to meet sweethearts, loved ones and friends, also to write letters and to have a good time socially. The chapels are likewise used for religious purposes. They do not serve as churches, however, but serve more as mission stations and recreation and religious centers.

Dr. A. C. Miller is the superintendent of Baptist work among the soldiers in Texas. He says, "there are twenty-two military posts, camps and stations with approximately 200,000 soldiers in Texas. There are also three more major camp sites now being surveyed. It is safe to estimate that more than a million young men will pass through the training camps of Texas during the five year defensive

"Why the Editor Left Town", a bit of humorous writing which M. L. Kimsey of the Crandall Star found somewhere:

There is only one occasion when the editor of a small town paper dares to cut loose and tell the truth in his paper and that is when he is ready to depart suddenly and permanently for some unknown destination. At such a delicious juncture he would perhaps write up a local wedding in this manner:

"Mr. Jim Zilch and Miss Georgianna Thistle were married Monday at the home of the bride's parents, Mr. and Mrs. Alex Thistle, the Rev. Jones officiating.

"The groom is a popular young bum who hasn't done a lick of work since he got expelled in his junior year at college. He manages to dress well and keeps a supply of spending money because his dad is a soft-hearted old fool who takes up his sealawg son's bad checks instead of letting him go to jail where he belongs.

"The bride is a skinny little idiot. She paints like a Sioux Indian, sucks cigarettes and drinks mean corn liquor.

"The house was newly plastered for the wedding and the exterior newly painted, thus appropriately carrying out the decorative scheme, for the groom was newly plastered and the bride freshly painted.

"The groom wore a rented dinner suit and his pants were held up by pale green suspenders. His number nine patent leather shoes matched his state of tightness, and harmonized nicely with the axle grease polish of his hair.

"This is probably the last issue of this paper, but my life ambition has been to write up one wedding and tell the truth. Now that is done, death can have no sting."

Haven't made up your mind where you'll spend your vacation? You might include a stay in New Braunfels, the quaint town with its old rock buildings and tin roofs, picturesque hills (almost mountains) surrounding it. Ranches are numerous and you can glimpse the abundant deer. There is a modern hotel, the Faust, managed by R. J. Grimsley; many new homes; a museum; two newspapers, the 50-year old Herald and the Zeitung, edited for 42 years by G. F. Oheim; a charming drive along the Guadalupe River; the State's shortest—but biggest, in volume—river, the Comal, which rises and ends in the city limits.

Dr. W. W. Melton, Secretary of the Baptist General Convention of Texas, says, "Texas Baptists will make an effort to raise \$25,000.00 on Sunday, July 27. We are doing this in cooperation with Southern Baptists with an effort to raise \$200,000.00 that one day. All of this money is to be used in behalf of our boys who are in government service.

"The pastors of the 3,250 Baptist churches in Texas have been asked to take a cash offering Sunday, July 27th. There are 750,000 Baptists in Texas, and each one should have a part in supporting the soldiers' program.

The Baptist Executive Board has employed seven ministers to devote their full time to the Baptist soldiers' program. These men are working under the direction of Dr. A. C. Miller and are making an effort to carry out the following five-point program.

1. To conserve the religious life of our Baptist men in government service.
2. To provide Baptist soldiers certificates of affiliation in lieu of church letters.
3. To win to Christ all whom we possibly can through personal testimony.
4. To cooperate with the local religious force in providing wholesome recreation and social contacts in the community for the many in the camps.
5. To cooperate with army officers and government officials in creating such conditions that the young men who enter government service may return to their homes better physically, better mentally, better socially and better religiously.

Dr. Melton said, "Texas Baptists can easily raise the \$25,000 on July 27. It ought to be done; it can be done; and we believe that it will be done."

and there are many attractive camps.

Walter Duffey, Fort Worth oil man, went through the famous Hogtown boom. His room was on the second story of the town's leading hotel and it jutted out over the sidewalk. "It's a wonder that some wild Westerner out for a celebration didn't blaze through the floor with a six-shooter", Duffey said. "I used to be awakened by the shouting of the service-car drivers at 6 a. m. Most of them yelled, 'Take you to Mings and bring you back' but one of them varied this with, 'Take you to Mings or break your back'—no idle boast, considering the condition of the roads.

Duffey also tells of the oil man who couldn't read or write but who was very successful. Whenever this man received a telegram, he would say to a friend, "What do you think about that? Just look at that!" And the friend, knowing that the operator couldn't read, would read it out loud.

There may be a place that could beat one county for colorful politics but I'm going to have to be shown — by-gone campaigns, because the county has tamed down now. But back in the days when the biggest oil boom in history had "fallen down and gone boom", folks had a "morning after" feeling.

For instance, a prosecuting attorney, running for re-election, was opposed by a lawyer who represented the defendants in almost all the criminal cases—so the county attorney referred to his opponents as "a legal scavenger."

A peace officer with a malodorous record handed a campaign card to a voter who said, "Sure, I'll be glad to help you out". And it was two blocks and ten minutes later that the officer figured out what the man had meant.

An unpopular officer had a shooting scrape but wasn't hit and indignant citizens started a subscription to prosecute the other fellow "for shooting at him—and missing."

And perhaps the most unusual charge ever leveled in any race was that a candidate had "stolen a church." The fact was that a

W. T. LINK ON UNOFFICIAL TOUR OF DISTRICT IN BEHALF OF CANDIDACY IN '42

The first declared candidate for any office in 1942 elections, attorney W. T. Link of Clarendon is busy these days laying the groundwork for his campaign next year for the office of chief justice of the Amarillo Court of Civil Appeals.

Though his announcement of intentions to run have been unofficial as yet, Mr. Link has lost little time in pushing his campaign through personal contacts with the voters of the district. Last week he visited friends in Childress, announcing his candidacy in that area, and reporting that he was in the midst of a "handshaking" tour of all counties in the district.

Mrs. Tom Blessingame was brought home Friday from an Amarillo hospital where she recently underwent a major operation.

big well had been drilled on the church grounds and dissection had sprung up. This candidate, as an attorney, had represented one fraction in a lawsuit and his side won.

Yes, sir, they used to take their politics straight in the good old days in that county.

NOTICE TO TAXPAYERS CLARENDON INDEPENDENT SCHOOL DISTRICT

The Board of Trustees of the District has adopted the provisions of the recent tax law, H. B. No. 76, passed by the State Legislature, wherein all penalty and interest, except 6%, is remitted on tax due and delinquent prior to July 31st, 1940, providing all tax due is paid before November 1st, 1941. The provisions of this remission bill were adopted by the Board in order to encourage payment of delinquent tax due the District at this time and to help relieve the financial problems caused by recent storm damage to school property.

Property owners, owing delinquent tax, can make a substantial saving in interest and penalty charges and at the same time materially aid their schools in this emergency. The provisions of the Act expire November 1st, 1941.

For further details see, A. L. Chase, Tax Collector.

LIBRARY NOTES

By MRS. C. A. BURTON

The American Library Association Bulletin for July is largely taken up with reports of the A. L. A. meeting at Boston in June. One of the very interesting articles is a discussion of the Newberry and Coldscott Award Winners by the chairman of Library work with children. She says that times like these call not only for heroes but for heroic books. And as such she designates these two winners, "Call It Courage" by Armstrong Sperry, winner of the Newberry Medal for "the most distinguished American contribution to children's literature" during the past year, and "They Were Strong and Good" by Robert Lawson, the most distinguished picture book of the year, winner of the Coldscott Medal. The 23 members of the Committee of Award live in thirteen widely scattered states, and votes were cast separately, so there was no chance of collusion.

The Newberry winner is the story of Mafatu, son of a Polynesian chief, and is based on a South Sea legend, embodying one of the oldest of human attributes—courage. The author, Armstrong Sperry, has an established place already as a writer of children's books.

The author of the Coldscott Medal, Robert Lawson, has for some years been well known as an illustrator, but his greatest success was "Ferdinand". This new story is a story of the Civil War, and the drawing which portrays the young soldier's return to his Alabama home a ragged boy limping down the war-desolated road is described as one of the memorable pages in all picture-book literature—containing strength, tenderness and beauty of line. We hope to have both of these soon—even though we are so crowded that we may not find a place to put them.

Miss Essie M. Culver, President of the A. L. A. began her speech at Boston with the statement that "The greatest tribute that has ever been paid to libraries has been and is being paid today by Adolf Hitler. He is afraid of them—he is destroying some of them—he is carrying others off to Germany. He is afraid of the contribution they make to the mind and the spirit of man. He is afraid of the truths they contain."

Then she tells of the destruction of the Polish libraries—that 100,000 volumes on education and 120,000 volumes relating to official matters were saved and taken to Germany—while agricultural plans which it would cost \$2,400,000 to replace were totally destroyed. She quotes from the Director of the Royal Library of Stockholm, "In the struggle against depression libraries can be reckoned among the most important means." She says Great Britain has found it true "that libraries and the ability to read books are fundamental guardians of popular liberty in a diseased and desperate world—and in Britain men are free to read and Britain is fighting that men all the world over shall be free to read."

This president of the A. L. A. goes on to say that as long as there are forty-seven million persons in the United States and Canada without access to libraries we cannot rest, we must be goaded by the knowledge that our task is only begun. In a report of 1940 by the New York Public Library one branch librarian says, "Recently as I looked around the room I numbered among our readers a Polish family from Warsaw, several Viennese, two children from Paris, and a little Jewish boy from Flanders who speaks five languages, but who thinks in Dutch. Into this gathering stepped a crisp young English girl, two days off the boat. She knew no one in this country except the lady in whose home she was to teach as a governess. She offered an English pound note as a deposit, saying 'for I simply must have books.'" This librarian went on to say, "It seemed a very wonderful thing to me that we in America could offer these people without charge intellectual refuge and sanctuary."

From President Roosevelt's greetings to the Boston Conference I quote the following: "Libraries are directly and immediately involved in the conflict which divides our world, and for two reasons: first, because they are essential to the functioning of a democratic society; second, because the contemporary conflict touches the integrity of scholarship, the freedom of the mind, and even the survival of culture, and libraries are the great tools of scholarship, the great repositories of culture and the great symbols of the freedom of the mind."

One of our late purchases is a book which we have wanted for quite a while because it has consistently held its place as a

Children Learn ABC's of Broadcasting

"Mike Wright" will never inhibit these third grade pupils of Texas State College for Women's demonstration school. All Denton children, Bobby Schmits, Betty Ray Peters, John Edward Tabor, and Elizabeth McPherson have set up a complete radio broadcasting unit this summer and are now thoroughly familiar with the broadcasting process from the writing of program scripts to the actual transmission of sound.

RITEs FOR FATHER OF LOCAL WOMAN HELD SUNDAY

Funeral services were held at Memphis Sunday for George William Melear, aged Memphis and father of Mrs. Ed Duncan of Clarendon, who died following an illness of several weeks Saturday afternoon.

Born in Georgia, Mr. Melear was 91 years old at the time of his death, having been born June 27, 1850. He is survived by eight children, two children and his wife having preceded him in death.

Survivors include six daughters: Mrs. Molly McKinney of Fort Worth, Mrs. Brown Lamb of Wellington, Mrs. Duncan, Mrs. M. N. Pounds, Mrs. J. W. Valence, and Miss Lena Melear, all of Memphis; two sons, Lon Melear of Shamrock and George Melear of Long Beach, California. A number of grandchildren also survive. Two of these, Mrs. Harry Claunch and Mrs. Silas Garrison of Fort Worth, attended the funeral services.

Last rites were held at the Memphis Church of Christ, with evangelist J. L. Moyer of Clarendon reading the services. Interment was in Memphis Cemetery, with Womack Funeral Home in charge of arrangements.

Citizens Cemetery Needs Funds For Summer Upkeep

The trustees of the Citizens Cemetery report they were some what disappointed in their call for donations for the up-keep of the grounds. They mailed out over five hundred letters to lot owners and others they thought would be interested, and also made several requests thru the newspapers. Up to this time only about 100 have responded to their appeal.

The excessive rains this spring have made it rather expensive to keep men working. Over three hundred graves had to be refilled and a number of trucks were used for a week which cost considerable money, then on account of the rank growth

library favorite in the larger libraries of the country. It is "Lassie Come Home" by Eric Knight. It is described as one of the most poignant, yet thorough, realistic dog stories of the past decade—the story of a lovely Collie which had met the small boy at the schoolhouse gate every day of his life—and he is sold as a "depression measure." But from the new home hundreds of miles away Lassie makes her weary trek back—to again meet the small boy at the schoolhouse gate—a story of a courageous dog and of a patient, courageous people.

Eric Knight, the author was born in Yorkshire, but came to America as a boy and received most of his schooling in this country. After serving with a Canadian regiment in the World War, he returned to this country and began his writing career. His short stories have received marked recognition.

The story is illustrated by Marguerite Kirmse, who has become famous for her dog pictures. The illustrations of "Lassie" were done with a warm understanding heart and blend perfectly with the spirit of the story. She and her husband raise dogs on their Connecticut farm, usually having from twenty-eight to thirty dogs of all breeds on their "Arcady Farm."

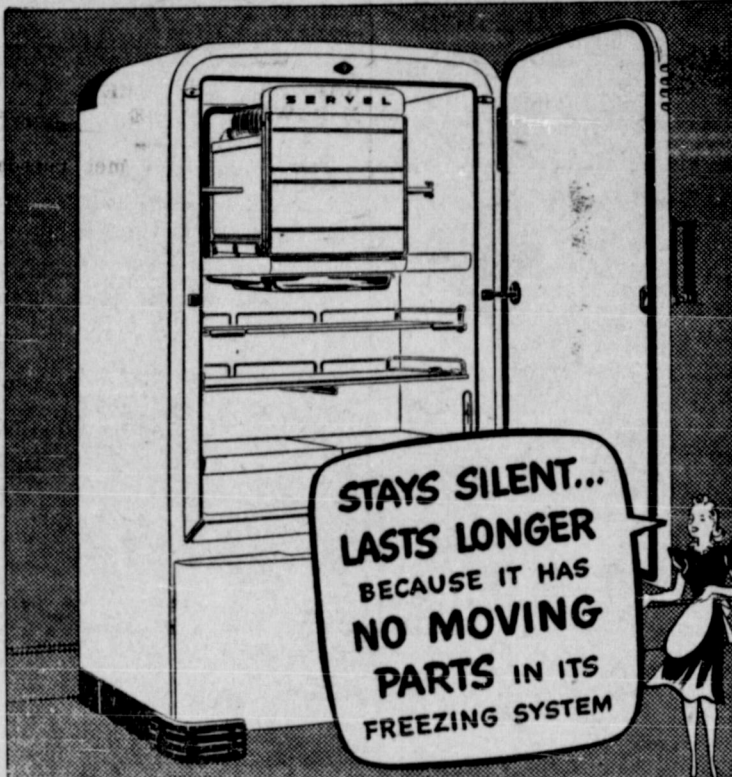

Robert Linder of Floydada spent the weekend with Mr. and Mrs. C. C. Powell. Mrs. Linder and son, Bob, arrived last week to spend the remainder of the summer with her parents.

Mrs. J. S. Parker of Santa Monica, California, visited here the last of the week with Pauline Watters. Mrs. Parker will be remembered here as Thurzia Turner.

SOCIETY

MISS VIVIAN TAYLOR

AILENE RHODES IS BRIDE OF SGT. WAYNE McELROY

The marriage of Miss Ailene Rhodes, daughter of Mr. and Mrs. John W. Rhodes of this city, to Staff Sergeant Wayne McElroy, son of Mr. and Mrs. S. J. McElroy of Hollis, Oklahoma, took place at nine o'clock Saturday evening in the Methodist parsonage in Junction City, Kansas.

The Reverend J. W. Campbell read the single ring ceremony in the presence of members of the immediate family.

The bride wore a navy redingote of sheer crepe with white trim and a large white hat. She carried a bouquet of white carnations and a white wreath with white shower ribbons tied at the ends with tiny nosegays of spiraea. Her bag and shoes were of navy.

Miss Irene Rhodes, sister of the bride, attended her as maid of honor. She was attired in sheer black crepe with white trim and her accessories were of black and white. She wore a corsage of white carnations and a white wreath. Corp. Ben Plummer of Ft. Riley, Kansas, attended the groom as best man.

After the ceremony, a wedding dinner was given the bride party in the dining hall of the Bartlett Hotel in Junction City. A large wedding cake topped with a miniature bride and groom served as the centerpiece for the table.

Mrs. McElroy is a graduate of the local high school and attended the San Jacinto Beauty School in Amarillo. For the past several years she has been associated with her sister in Irene's Beauty Shop. Mr. McElroy was graduated from Hollis, Oklahoma high school and has been stationed at Ft. Riley, Kansas, for the past eleven months.

The couple will be at home at 1704 North Jefferson Street in Junction City, Kansas. Attending the wedding from here were Mrs. McElroy's father, J. W. Rhodes and her two sisters, Misses Irene and Johnnie Rhodes.

FORMER RESIDENTS OF THIS CITY CELEBRATE GOLDEN WEDDING ANNIVERSARY

To honor Mr. and Mrs. E. C. Britain, former residents of this city who now reside at 1300 Monroe Street in Amarillo, on their golden wedding anniversary Saturday, four or five hundred guests called on them between the hours of 9 o'clock in the morning and 9 o'clock in the evening.

The surprise open house was arranged through a group of friends, who instructed all the guests to bring flowers from their own yards to Mrs. Britain, symbolizing her hobby of raising and distributing flowers to all her friends and acquaintances through the years.

Mr. and Mrs. Britain, who lived here for many years and left here in 1916, are the parents of Radie Britain Mueller, famed musician and composer, who taught music in Clarendon College and was organist in the Methodist church for sometime. Mr. and Mrs. Britain will be well remembered here by old residents, having been early promoters of early day Clarendon.

MISS MEADERS IS HOSTESS TO FRIENDSHIP CLUB

Miss Katie Meaders was hostess to the Friendship Club Tuesday afternoon when it met in the J. A. Meaders home which was attractively decorated with cut flowers from the Meaders yard. The meeting was opened with the Lord's Prayer, followed by the scripture reading given by Mrs. C. E. Lindsey. During the course of a short business session, it was decided that the club would have no more meetings until September 23rd at which time Mrs. Glenn Williams would be hostess.

A dainty refreshment plate was served to four guests, Mrs. Herman Schoeder, Misses Mary Virginia, and Jane Williams, and to the club members Mesdames C. E. Lindsey, Glenn Williams, H. Tyree, J. A. Meaders, J. D. Stocking, G. J. Teel, J. E. Mongole, and Miss Mabel Mongole.

WALLACES ARE HOSTS TO 1937 BRIDGE CLUB

Mr. and Mrs. L. L. Wallace were hosts to the 1937 Bridge Club Tuesday night. The entertaining rooms were attractively decorated with cut flowers.

Mrs. U. Z. Patterson was awarded high score for the women and L. B. Penick high for the men. Mrs. Elvis Burch drew consolation.

A delicious ice course was served the attending members, Mr. and Mrs. L. B. Penick, Mr. and Mrs. Elvis Burch, Mrs. George Wayne Estlack, Mrs. Alfred Estlack and to Mrs. U. Z. Patterson, and Mr. and Mrs. Harry Hart who were guests.

The club will discontinue the meetings during August and will again be active the first of September.

GARDEN CLUB MEETS IN McDOWELL HOME

The Garden Club met Tuesday afternoon in the home of Mrs. C. D. McDowell. Mrs. E. H. Noiland assisted Mrs. McDowell as hostess.

The house was beautifully decorated with lovely pink gladioli grown in the McDowell garden.

The most interesting and instructive program of the year was given under the leadership of Mrs. J. H. Howze, who conducted a quiz on roses. A discussion on the colorful garden phlox was given by Mrs. J. L. McMurtry, followed by an instructive lesson on plants and their uses to the medical world.

Attending were Mrs. R. H. Elkins, who was guest for the afternoon, and Mesdames H. C. Brumley, Lee Bell, A. L. Chase, R. R. Dawkins, Lee Holland, Sam Braswell, J. E. Mongole, J. L. McMurtry, J. H. Howze, A. W. Simpson, Joe Goldston, John Goldston, W. W. Taylor, and J. T. Hoy.

Avis Lee McElvany and Mrs. Robert Linder were in Amarillo on business Tuesday.

Mrs. Ben Andis of Amarillo visited with friends here Thursday.

Mrs. Emma Burnett and daughter, Martine, spent the weekend here with her mother, Mrs. Ed Bromley.

Mantie Graves left Sunday for a two week vacation trip to Ruidosa, New Mexico.

Garden Glances Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners"

Of all the hobbies that a person can pursue, one of the most gratifying is the growing of flowers. Not only to the hobbyist but also to their friends and neighbors and the town this hobby is a very pleasant avocation.

The flowers of the town continue to become more beautiful as the warm summer days advance. Dahlias are blooming beautifully in many gardens now. The garden glances noted the yard of A. W. Simpson with many different colors of this favored flower.

The Gentry home presents to the passerby one of the most unique and enchanting displays of phlox that one may find in any place not excepting California. One might employ all the adjectives relative to flowers and then not adequately express their marvelous beauty. They range in colors from white, white with pink centers to very deep pinks, and orchids. See these for your self, you will be glad you have the chance to see such a picture.

The home of Lonnie Woods is made more attractive by the phlox bed in their yard. The grounds of Ed Duncan are interesting with the round bed of pink cannas, the bright colored petunias in front and the phlox and exquisite white dahlia on the side. Eyes are greatly attracted to a yard such as this one.

Vitax trees are blooming in many local yards. A very pretty one is viewed in the yard at the Lovell home.

Gladioli are more gorgeous this year than ever. The home of U. J. Boston, C. D. McDowell and many others are the proud possessors of these rare specimens of grace and charm.

When passing the Hoy Flower Shop, look through the netting. It is a gratifying view. Contributed.

LOCALS

Coach and Mrs. I. T. James of Edgewood were here on business Thursday.

Homer McElvany and daughter, Avis, were called to Prague, Oklahoma, Thursday on account of his mother's illness.

Mr. J. W. Rhodes and daughters, Irene and Johnnie, were in Junction City, Kansas, over the weekend attending the McElroy-Rhodes wedding.

Joan Thompson and Charles Murphy attended the Tri Tau reunion in Canyon Saturday.

Mrs. G. T. Palmer and Ruth Palmer were Amarillo visitors Friday.

L. E. Thompson and Ernest Thompson were in Amarillo Monday on business.

Dorothea Watson was in Amarillo on business Monday.

Dr. and Mrs. C. G. Stricklin and daughter, Beverly, left today for an extended stay in their mountain cottage near Drake, Colorado.

Mr. and Mrs. Jimmy Weddington of Childress visited at the News office Saturday morning while enroute to El Paso on a vacation trip.

Mr. and Mrs. G. D. Shelley and sons, Guy, Jack, Lee, Ben, Ted, and Fred left Sunday for a two weeks vacation trip to Fayetteville, Arkansas.

Frances Morris of Canyon spent the weekend here with her parents, Mr. and Mrs. Wylie Morris.

Mrs. E. E. Finklea and son, E. E. Jr., and Elaine Kellam of Amarillo spent Sunday here with Mr. and Mrs. G. E. Norwood.

Ray Palmer and Homer Speed left Monday for an extended vacation trip into Colorado.

Mr. and Mrs. John McMahon returned Saturday from a week's vacation trip to Colorado.

Jimmy Watters, well-known local carpenter and building trades workman, recently joined the staff of C. D. Shamburger Lumber Company.

Mr. C. C. Bell and daughter Buleah Bess, of Wellington spent Sunday here with Mr. and Mrs. Regan Bryan.

Isadore Meilinger is in Dallas and Ft. Worth this week attending market.

Mr. and Mrs. Oscar Hay and children of Wills Point are visiting this week with Mr. and Mrs. Bob Hay and Mr. and Mrs. Haskell Hay.

Mr. and Mrs. Paul Salton and children are vacationing this week in Mineral Well.

Mrs. Mollie E. Gray, Mr. and Mrs. Dexter Todd and Randall Accord left Monday morning for Drake, Colorado, where they will spend the next two weeks.

Clarence Davis of Ft. Leonardwood, Missouri spent the first of the week here with his parents, Mr. and Mrs. W. K. Davis.

Mr. and Mrs. Homer Tucker of Memphis spent the weekend here with his mother, Mrs. J. R. Tucker.

Carroll Hudson of Canyon spent the weekend here with his parents, Mr. and Mrs. Major Hudson.

Mr. and Mrs. J. R. Porter and children returned home Sunday from an extended vacation trip into Tennessee, Arkansas, and Kentucky.

Dr. and Mrs. H. R. Beck returned this weekend from an extended trip into Minnesota where they visited Dr. Beck's old home.

Mr. and Mrs. T. M. Shaver and Mr. and Mrs. W. W. Taylor returned Friday from a fishing trip in Antonio, Colorado.

Arthur Chase who has been attending summer school at the University of Texas arrived this week to spend the remainder of the summer with his parents, Mr. and Mrs. A. L. Chase.

Mrs. Ernest Shepherd and sons, Jimmy and Larry, of Wichita Falls are here visiting Mrs. Shepherd's parents, Rev. and Mrs. G. T. Palmer.

Mr. and Mrs. C. R. Skinner left Tuesday morning for an indefinite visit with their son near Estes Park, Colorado.

Mrs. A. C. Hallmark and children of Shamrock spent Sunday here with her parents, Mr. and Mrs. S. B. Kutch.

Ruth Purselley of Garland, Texas, and Billie Lyle of Handley, Texas, spent the weekend here with Mr. and Mrs. Joe Ritter.

HUDGINS NEWS (By MRS. S. M. HARP)

There were not many out for Sunday School and Church services Sunday. Hope to have more out next Sunday.

Mr. and Mrs. Wayne Ewing and Sadie Beth spent Sunday at Brice.

Bro. Willard and family, Bro. and Mrs. Cleo Stonecipher and Ernestine Morgan ate Sunday dinner in the John Perdue home. Visitors in the afternoon were Mr. and Mrs. N. C. Hudson, Bob and Dorothy, Alton Webb and Floree Talley.

Miss Ernestine Morgan of Clarendon visited Audrey Perdue from Saturday until Tuesday.

The quilting club met with Mrs. S. M. Harp Tuesday. Those present were Mrs. N. C. Hudson, Mrs. O. L. Jacobs, Mrs. John Perdue, and Audrey Perdue. One quilt was quilted.

Bro. and Mrs. Willard and son, Davis took supper Sunday night with Mr. and Mrs. O. L. Jacobs.

Mr. and Mrs. J. L. Talley visited Mr. and Mrs. Edgar Talley of near Hedley Sunday.

MIDWAY (By Betty John Goldston)

Miss Reba Higgins of Amarillo visited her parents, Mr. and Mrs. W. D. Higgin Saturday.

Mr. and Mrs. Roy Davis and son arrived Sunday evening from North Carolina for a visit with his parents, Mr. and Mrs. W. K. Davis and other relatives.

Mrs. Guy Stidham and son, Charles and Mr. and Mrs. Loyce Davi and children of Los Angeles, California, are also visiting their parents, Mr. and Mrs. W. K. Davis.

Mr. and Mrs. Floyd Crawford and daughter from Naylor visited in the John Goldston home Sunday afternoon.

Mrs. Tom Eanes and children and Rebecca Eanes visited in the Joe Eanes home Sunday.

Miss Rebecca Eanes is spending the week with Mrs. Tom Eanes at Goldston.

Mr. and Mrs. John Goldston and family visited in the W. D. Higgins home Sunday night.

Mrs. Emma Burnett and daughter, Martine of Ardmore, Oklahoma, visited her mother, Mrs. E. M. Bromley Saturday and Sunday.

The John Goldston family and Mr. and Mrs. LaVerne Goldston and boys of McLean enjoyed fishing and picnicing at McClellan Lake Saturday afternoon and night.

Mr. and Mrs. D. W. Higgins of Amarillo visited in the Longan home Sunday.

Mrs. Bill Gather of Breckenridge spent the week with relatives here.

Mrs. Tomlinson spent Saturday night in the Potter home.

Mr. and Mrs. John Potter, Miss Majorie Harlen, Mrs. Evisizer and Mrs. Tomlinson went to Plainview Thursday. Mr. and Mrs. Potter attended the Old Settlers Reunion at Tulla Friday.

Dr. Keith and Laura Lowell

Mr. and Mrs. Frank Whitlock returned Sunday from California where they have been visiting with their daughter and family, Mr. and Mrs. George Garrison, and with their son, Price Whitlock.

WHAT NEXT? (From THE MERCHANDISE MART)

Gas bombs will mean cream puffs in American homes this winter when this new household gadget for making whip cream, griddle cakes, waffles, scrambled eggs or ice cream, reaches the retail stores following its introduction at the home furnishings market in Chicago. The controlled inflation process is brought about when "gas" is released through the bottom of the aerator. It is said a quart and a half of whipped cream can be made from a pint of cream.

were dinner guests of Mr. and Mrs. Bill Bromley the past Monday night.

Mr. and Mrs. A. B. Stevens of Matador are visiting her mother, Mrs. Edith Longan.

Mrs. Fay and Mrs. Ben Andis of Amarillo visited in the Longan home Thursday.

Mrs. L. E. Smith and family of San Angelo visited her sister, Mrs. Dick Tomlinson the past week.

Mrs. Edith Longan, Mr. and Mrs. Bill Gather visited Mr. and Mrs. J. C. Longan at Hedley Friday.

John Manley Cook of Borger spent the weekend in the Dick Tomlinson home.

Mrs. Lesson and Mrs. Charles Longan, Jack Lamberson, Jack Pitman, and Don Tomlinson visited in the Longan home Sunday.

Clarence Davis was home for a short visit the past Sunday.

TEXAS LONGHORN EMBLEM DUE TO SEE SERVICE IN BRITISH AIR BATTLES

Austin, Texas, July 24—The Texas Longhorn—athletic emblem of the University of Texas—will see service over Germany this fall.

University officials this week granted permission for three Texas members of the Royal Canadian Air Force to use the Longhorn as the insignia of their fighting planes.

"We are three Texans in the R. C. A. F.," a letter to University officials, signed "Harty, Gunn and Apple—the Flying Texans," read. "And after much debate and elimination we have selected, with your permission, the charging Longhorn steer—the spirit of Texas U.—the basis of our insignia and emblem."

"We would greatly appreciate it if you would send us the different types of decals and stickers using a full and three-quarter view of the steer. From these we hope to have our full

COTTON COMFORT PROGRAM TO START IN COUNTY DURING AUGUST, AGENT SAYS

Donley farm families who cooperated in making mattresses recently under a cotton mattress program have cotton comfort coming to go with each

insignia made up: a charging Texas Longhorn crashing through the ringed star insignia of the U. S. Air Corps, with the motto of the R. C. A. F. between the star's uppermost points, and the word, Texas, centered below."

The decals are on the way to the young Texans' training base in Canada, officials here said.

mattress, and they will get a chance to make them during August, County Agent H. M. Breedlove said this week.

One comfort will be allowed for each mattress made, and the comforts will be made just as the mattresses were, by cooperative labor in central work rooms at Clarendon and Hedley. Mr. Breedlove said. Since no comforts will be available except to those who made mattresses, no new applications will be required of those who are to participate in the program, which is due to start soon after August 1. Participants will be notified of the time when they are to start work, it was said.

MORE REST CALLED NECESSITY TO GOOD HEALTH

Austin, Texas, July 24—"The implication of the word 'rest' in 'restore' is of great importance to Texans in our present defense program", declares Dr. Geo. W. Cox, State Health Officer. Hot summer weather added to extra-heavy production schedules and strenuous labor places a debilitating load on our population.

At this time adequate rest is of greater importance to all of us than in previous years. Rest is the opportunity the body takes to rebuild and repair the tissues impaired in their efficiency by fatigue. In other words, the sum total of our individual physical fitness is measured by the resiliency of our faculties to return to normal after a depleting day's work.

The means by which we re-entire the ravages of fatigue through rest are several. Complete rest is most easily obtainable to sleep—at least eight or more hours nightly, according to individual needs.

Physical relaxation (rest) is of value to us also. The change from every day labor and worry through participation in sports, games, hobbies, and the like is a recognized principle of good mental hygiene. All of us should get in some sort of physical exercise daily—a brisk walk, if we lack the opportunity for more

active sports. Medical and public health authorities also recognize the need for mental relaxation, apart from physical sports or games which keep the mind keyed to a high pitch. Even when a person's physical apparatus is completely relaxed (resting) the mind may still be plagued with problems and be un-relaxed.

So mental relaxation, valuable as it is, is more evasive than physical relaxation. The simplest form of mental relaxation is "wakeful rest" where by the individual gets his mind competently away from himself and lets his mind "idle" by following something not of his personal creation or thought. It is thus possible to rest mentally and physically if the mind is entertained rather than exercised. Numerous diversions are available to us which offer inexpensive opportunities for "wakeful rest."

If we give thought to budgeting time each day so that our work quota is supplemented by physical and mental relaxation and adequate sleep, we will keep our health at par and increase our daily efficiency now when it is needed most for all-out defense effort.

Stamp Pad Ink at The News.

A little from you... means a lot to them

MATURITY DATE IS EXTENDED FOR EXCESS WHEAT

College Station, July 22—Loans on wheat defined as excess wheat under marketing quota provisions will be extended to April 30, 1943, Fred Renels, assistant administrative officer of the state AAA, has announced.

The maturity date for all 1941 loans on excess wheat stored on farms or in approved warehouses had been set previously as April 30, 1942.

This announcement, made through the United States Department of Agriculture, will materially aid farmers who overplanted their wheat acreage allotment this past season and who have excess wheat on hand, Renels said. Under marketing quota provisions, farmers with excess wheat on hand are permitted to store the wheat and postpone paying the 49-cent per bushel penalty at this time. And, in the event farmers with excess wheat underplant their permitted acreage or suffer crop loss next season, a portion or all of the excess wheat may be absorbed and marketed without penalty.

Producers who store excess wheat on farms are entitled to 7 cents per bushel storage allowance where the maturity date is April 30, 1942, and an additional 5 cents per bushel allowance for storage up to April 30, 1943, provided the wheat is delivered to the Commodity Credit Corporation as payment of the loan, the AAA official said. This storage allowance, however, applies only to farm stored wheat.

Loans secured by excess wheat stored on the farm will be written to the county AAA committee not later than April 30, 1942. Indicates that insurance certificates have been extended, consent for storage during the extended period has been obtained, and required inspection fees have been paid. Loans made on wheat in excess of wheat marketing quotas are made at 60 percent of the rate offered to farmers who plant within their acreage allotments.

Twenty-five percent of all the tax revenue of the 48 states is obtained from levies on gasoline.

Tillie Pratt and Pauline Watters spent the weekend with friends in Pampa.

Mr. and Mrs. J. P. Matheson of Goodnight spent Sunday here with his mother, Mrs. George Matheson.

TEXAS OUT-O'-DOORS

AUSTIN, Texas, July 22—Not only did the 47th Texas legislature set a record for longevity by being in session 171 days, it established a record of introducing almost one wild-life bill per day. In all, 141 bills dealing directly or indirectly with wild-life in Texas were introduced, 118 in the House and 23 in the Senate. Of those 141 bills, 105 were enacted into law, the largest number ever passed by any Texas Legislature.

In comparison, the 46th Legislature in 1939 considered 134 wild-life bills and enacted only 94 into law. Going a little further back into history, the three sessions of the Legislature in 1937 sent to final passage only 74 wild-life bills.

Only eight of the 105 new wild-life measures are general in nature, applying to the entire state. All the rest are local laws, some applying to one county, some to several, some to only portions of one county. Many of the local laws extended the life of old laws about to expire. All in all, most of them were protective as to purpose.

One of the outstanding local laws passed was one which could foreshadow legislative policy in the matter of game regulation. The law in question grants the Game, Fish and Oyster Commission the power to fix open and closed seasons, determine bag limits, and in other ways husband the fish resources of the huge Possum Kingdom Lake in Palo Pinto, Stephens and Young Counties. The Commission, working in cooperation and with the approval of the Brazos River Conservation and Reclamation District directors, will have an opportunity, under this new statute, to demonstrate the feasibility of sound fish management of a large lake that will be closely supervised, so far as fish life is concerned, by the Commission's aquatic biologist and his assistants.

Another general law forbids taking of muskrats on the land of another without the permission of the landowner or lessee, whether or not the land is enclosed or posted. The old law applied only to enclosed or posted land. Prairie chickens, so scarce a closed season was placed on them several years ago, were given added protection—until September 1, 1944—under terms of another law. Under another law, all deer, with the exceptions of cut up meat, must be removed from storage by June 5 of each year. A state-wide dove bill was passed, but final announcement of the when's and how's persons may shoot doves awaits word from the Washington office of the United States Fish and Wildlife Service, which has jurisdiction over migratory birds and waterfowl.

Another law forbids the killing or molesting of carrier pigeons. The author said this was necessary legislation in the present national emergency.

Sports fishermen on the coast will not be required to buy any sort of licenses, under terms of a new law. Commercial fishing licenses, however, are still required, as are licenses for sport fishermen using artificial lures in fresh water.

Another general statute provides certain closed seasons for taking shrimp in the inland salt waters of Texas, but it does not prohibit taking shrimp for bait at any time. The law also removes the five and one-half inch size limit on shrimp.

The final general law permits the killing of golden eagles or Mexican brown eagles at any time.

Full text of these laws and all other laws passed by the Legislature this year may be had for the asking by writing the Game, Fish and Oyster Commission, Austin.

10-DAY SENTENCE GIVEN FOR DRUNKEN DRIVING

Tried in county court Monday afternoon, Adam Risley was sentenced to ten days in the county jail, after being found guilty by a jury of a misdemeanor charge of driving while intoxicated.

The case was the third of its kind to be tried in Donley County in the short time since the Texas Legislature passed a new law making the first offense of driving while intoxicated a misdemeanor. Under the new law, second offenders will be liable to a mandatory punishment of from one to five years in case they are convicted.

Mrs. Paul Smith was in Amarillo Monday. Mr. Smith, who has been confined to the Veteran's Hospital there for the past month, returned home with her.

QUIZZ DEFENSE BOND

Q. What happens if I suddenly need the money I put into a Defense Savings Bond?

A. You can cash your Bond at any time, after 60 days, for the full amount paid, plus any interest due you.

Q. Do many Bond owners cash their Bonds?

A. No. People want to help arm America against all attacks. In many cases, people are putting every cent they can spare into Defense Bond and Stamps. Some are doing this by asking employers or banks to withhold part of their salaries in order to buy these Bonds or Stamps for them.

Note—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

RURAL AID WANTED IN ALUMINUM CAMPAIGN

College Station, July 22—Several thousand farm people visiting on the A. and M. College campus last week were urged to go home and dig up scrap aluminum for the recently announced collection to begin the week of July 21. All aluminum collected will be used for defense purposes, they were told.

Items suggested for donations include pots and pans, refrigerator trays, electrical appliances, kettles and double boilers, radio parts, toys, old washing machine parts, and bottle and jar caps. Visitors were told that the government needs all discarded or used aluminumware that can be spared without replacements.

Upon the request of Mayor F. H. LaGuardia, director, Office of Civilian Defense, and William S. Knudsen, director general, Office of Production Management, Governor W. Lee O'Daniel recently asked county judges in Texas to assume leadership of the campaign in their counties. Voluntary machinery for the pick-up of used aluminum articles is being organized in each community of the state with 4-H Club boys and girls, Boy Scouts, vocational agriculture and home-making students, and other youth groups assisting in house-to-house and farm-to-farm canvasses. County land use planning committees and various civic and fraternal organizations are also helping with the drive.

Approximately 500 county extension agents, in College Station for their annual conference at headquarters, were urged by Director H. H. Williamson and other leaders in the Extension Service to assist in the aluminum campaign throughout rural areas in every way possible.

COOKING UTENSILS INDUSTRY HIT BY METAL SHORTAGE

Austin, Texas, July 24—More than 3,413 persons, or approximately one-fifth of all the employees of the aluminum cooking utensil industry have been laid off or have quit their jobs as a result of the industry's present inability to obtain aluminum for non-defense products, the Office of Production Management advised the National Defense Committee for Texas today.

This number of lay-offs and resignation represented the total for 14 of the 22 concerns in the industry, the OPM announcement said.

Information from the remaining companies is not yet available.

"The possibility of converting these plants into defense production was discussed in a conference attended by representatives of several aluminum ware companies," the announcement continued, "and it was agreed that two of the industry's best engineers would be selected to consult with Government technicians regarding conversion possibilities."

The OPM statement gave the following additional information regarding the aluminum situation: "The manufacturers reported that the industry had 16,000 employees and gross sales of \$36,996,705 in 1940. Their civilian 'pots and pans' business is now practically gone, they said, because they are unable to obtain aluminum for this purpose and previously acquired stocks are either exhausted or nearly so.

"Several of the companies re-

Texans Give Oil To Great Britain

JOHN F. CAMP, San Antonio oil operator, heads the "Oil for Britain" movement by Texas producers to lift the shutdown to permit an extra day's allowable from their wells to be given to the President of the United States with the request that it be released to the people of Great Britain. The plan sponsored by Camp, when perfected and given final approval by the Texas Railroad Commission, should make available to Great Britain a million barrels or more of Texas crude. The Texas gift is to be made direct to the President who, in turn, will pass it on under the terms of the Lend-Lease Act.

The San Antonio man has already donated 5,000 barrels of regular production from his wells. In acknowledging the gift, President Roosevelt said: "This gift demonstrates that democracy in action is not a bare and meaningless phrase; it symbolizes the spirit of patriotism and unselfishness which exists throughout the country today."

ported that they had obtained sufficient defense contracts or subcontracts to retain a portion of their employees, but added that the cost of converting their plants to defense work made it difficult and often impossible to bid successfully against firms in other industries already equipped for such production. It was pointed out that there is a great volume of metal stamping facilities in the country."

Jimmy Lumpkin and Fred Cook, Jr. were Amarillo visitors Sunday.

Raymond Hay of Amarillo spent the weekend here with his parents, Mr. and Mrs. R. A. Hay.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOANS PILLS

A Dab a Day keeps P.O.* away!

(*Underarm Perspiration Odor)

VODORA DEODORANT CREAM

—Isn't stiff or sticky! Soft—it spreads like face cream.
—Is actually soothing! Use right after shaving—will not irritate.
—Has light, pleasant scent. No sticky smell to cling to fingers or clothing.
—Will not spoil delicate fabrics.

Yet tests in the tropics—made by nurses—prove that Vodora protects under trying conditions. In tubes or jars, 10c, 25c, 60c. McKesson & Robbins, Inc., Bridgeport, Conn.

Side Glances On Texas History

By CHARLES O. HUCKER University of Texas Library

The Famous Fight At The Council Table

Long after the Battle of San Jacinto supposedly had decided once and for all the question of Anglo-American settlers' rights to their new homes in Texas, blood still was spilt for those rights, torture was undergone, suffering was borne. For even after the Mexican Republic for all practical purposes had relinquished its claim to its old province, the settlers had yet to cope with another hostile nation—a nation in one sense even more menacing and more terrifying—which fought long and savagely to hold what once had been its homeland.

This other conflict was with the Comanche Indian nation. And when a Comanche warrior—daring, strong, courageous and imbued with a holy zeal for what he considered a holy cause—met face to face with an old-time Texan, fireworks could be expected. Such was the case at the famous peace conference in the San Antonio Council House. Its story is one of the most interesting to be found in the voluminous Texas Collection of the University of Texas Library, for this "peace" conference precipitated one of the most bloody episodes in the history of the state.

A Peace Pact?

That the hard-headed Comanches would ask for peace was strange in itself; so when, early in 1840, their envoys arranged for a talk with Texas commissioners, the Texans began to prepare themselves for any emergency. And on March 19, when sixty-five Indians, women and children among them, rode into San Antonio for the conference a troop of Texas soldiers was on hand as well.

Now the original arrangement had called upon the Comanches to bring in all of the white prisoners they had taken—thirteen, it was believed—before the Texans would consider any sort of a peace at all. But when the two parties met for their talk only one captive was produced, Miss Matilda Lockhart; and Mukwarrah, one of several chiefs in the Comanche party, denied any knowledge of others supposedly in their hands.

The Texas commissioners found Mukwarrah's stand a hard one to accept, particularly after speaking with Miss Lockhart, who had seen others in camp only the day before. And Mukwarrah, in his turn, was in no mood to be doubted. After watching the commissioners discuss the problem among themselves for a few minutes, he broke in with a defiant "How did you like the answer?" An Ultimatum Rejected

To this there came no reply; instead, the troop of soldiers marched into the conference room, stationing themselves solemnly about its walls. And then—stepping into the doorway and bolting out of sight the moment he said his say—the official interpreter gave Mukwarrah the Texas ultimatum: that all of the Comanches must stay in San Antonio as hostages until their remaining captives were brought in.

Well, the interpreter bolted just in time, for it became evident immediately that the Comanches had no intention of staying. In a few seconds the battle of the Council House was on, hand to hand; and when at last it was ended, both inside and outside the place, thirty-seven Indians lay dead and twenty-seven women and children were captives, one Mexican renegade having escaped. Of the Texans, seven were dead and eight were wounded.

This loss of its chiefs at San Antonio was a supreme crisis in the history of the Comanche nation, and from that bloody March day on everyone must have realized that the Indians would not rest until their revenge had fallen upon the white man. In August it did fall; it was the long-remembered Comanche invasion of 1840, the most terrible Indian uprising Texas ever saw.

100 Years Ago In Texas

"Below, we published the Report of Brig. Gen. Tarrant, of Red River. We congratulate the people of Red River, and the whole frontier, that the Gallant Gen. Tarrant was so fortunate as to discover the hiding place of our deadly enemy, the Cherokees. Lives there a Texian, with one drop of bravery and patriotism circulating in his veins, who can look with patience upon this most horrid and awful preparation of death, by the Cherokee friends of Gen. Sam Houston? People of Texas, we ask you again, are you prepared to make Gen. Houston President, who says: 'The blood of Bowie calls from the ground for revenge!' and that 'the Cherokees

REG'LAR FELLERS

Jimmie Got The Best 'Hand'

By Gene Byrnes

WHEAT PRODUCERS CAN STORE CROP; AVOID PENALTY

Wheat producers who have excess wheat may store the amount of the excess in order to postpone or avoid payment of the penalty. Walter J. Flynt, Secretary of the AAA committee, said. Some wheat farmers have misunderstood the motive of wheat marketing quotas but the primary objective is to keep the excess wheat off the market at this time since the United States has an enormous surplus on hand. The penalties on excess wheat are not to be confused with measures for raising revenue since the penalties are a means of inducing producers to keep excess wheat off the market and in no way constitutes a tax.

Wheat producers who have excess wheat and who wish to postpone or avoid the payment of the penalty may either store the wheat on the farm by executing a bond of indemnity, or by placing funds in escrow, through the county AAA committee, or by storing the wheat in a warehouse and depositing the warehouse receipts with the county AAA committee. The excess may be pledged to secure a Commodity Credit Corporation loan which will be at a rate of 60 percent of that available to cooperators.

If producers do not choose to store their wheat they may avoid the penalty by delivering the excess to the Secretary of Agriculture, through the local county AAA committee, for relief purposes.

Producers who do not choose any of these methods to dispose of their excess wheat must then pay the penalty on the excess before they are eligible to receive wheat marketing cards.

Flynt pointed out that an amount of wheat not less than the farm marketing excess must be either stored or delivered to the Secretary of Agriculture, or the penalty at the rate of 49 cents per bushel must be paid not later than 60 days after harvesting the wheat. If the excess is not accounted for in one of these ways, the producer will be liable for the amount of penalty incurred on the farm marketing excess.

According to Flynt, the payment of the penalty can be postponed as long as wheat is in storage.

BUY COAL NOW IF YOU WOULD SAVE

College Station, July 22—Texas families who burn coal had better lay in a supply this summer. That's the advice directed to consumers from the Office of Price Administration and Civilian Supply and given in a letter to Director H. H. Williamson of the A. and M. College Extension Service.

Buying coal this summer will not only save consumers money but it will contribute to national defense, the OPACS says. State and local defense councils have been asked to cooperate in this effort.

Nearly 4,000,000 children are transported by bus to school each day by more than 90,000 buses.

are better and more honest men, than those who drove them from their homes! These were Gen. Houston's assertions in Congress, and are his every day talk, as can be attested by hundreds of people in this Republic."

"Rutersville College: We are glad to hear, that the prospects of this institution are quite flattering. Seventy students were in attendance last session. The board of instruction has been enlarged, to correspond with the increasing patronage of the College; as its prospectus in today's paper shows."—The Texas Centinel (Austin), July 15, 1841.

TOPPING PROGRAM SET FOR ANNUAL XIT REUNION

Dalhart, Texas, July 24—Entertainment for the Sixth Annual XIT Ranch Reunion in Dalhart August 4-5 will really start Saturday night, August 2, in order to take care of the early comers. Three old-time organizations annually meet in Dalhart on XIT Reunion dates. One is the XIT Association, parent of the reunion and open only to men and women who once worked on the 3,000,000-acre spread that Texas in the 1880's traded for its \$3,000,000 red granite capitol in Austin.

Another is the Old Trail Drivers of the Southwest; and the third is the Texas-New Mexico-Oklahoma Cowboys Association, known as the TNO.

Many of the pioneer members of these organizations, and other old-timers, drift into Dalhart a day or two early to have a little more time to look up old acquaintances, renew friendships and swap yarns. And lots of the

7-CENT PENALTY ON COTTON SOLD OVER QUOTA

Cotton marketed in excess of 1941 farm marketing quotas will be subject to a penalty of approximately 7 cents per pound, Walter J. Flynt, county AAA secretary has announced.

In 1939 and 1940, Flynt continued, the penalty for excess cotton was 3 cents per pound and in 1938 the rate was 2 cents per pound. There will not be an increase however, in the total amount of penalties due on carryover penalty cotton marketed in excess of the 1941 quota.

The higher penalty rate will be applied on only that portion of the carry-over penalty cotton which would yield the same amount of penalties as all of the carry-over cotton would have yielded under the former rates. The remainder of the carry-over cotton would then become penalty free.

"To make my point clear", Flynt said, "suppose a farmer has 700 pounds of carry-over penalty cotton from 1940. Had he marketed the cotton last year, he would have paid a penalty of \$21 which is the equivalent of 3 cents per pound. If he elects to sell the cotton this year, however, the 7 cents per pound penalty would be in effect and he would pay 7 cents per pound penalty on only 300 pounds for the \$21 total penalty since this is the amount of the total penalty for 1940. The remaining 400 pounds of cotton would then become penalty free."

Recently enacted legislation which makes 85 percent of parity loans available on major commodities also provides that penalties on excess marketings will be 50 percent of the basic loan rate. The basic loan rate for cotton for 1941 will be set at 85 percent of the parity price as of the beginning of the marketing year which will be about August 1.

If, for example, Flynt continued, the parity price of cotton on August 1 is the same as it is at the present time, or 16.12 cents per pound, the basic loan rate will be 13.70 cents per pound, which is 85 percent of parity. The penalty on excess cotton in this case, would be 6.8 cents per pound. The loan for cotton marketed in excess of the farm marketing quota is 60 percent of that offered to producers who plant within their cotton acreage allotments.

Non-cooperators would be entitled to a 60 percent loan on only that portion of the crop which is in excess of the farm quota and when this cotton is placed under the loan it remains subject to the penalty when marketed in excess of the farm quota.

youngbloods come along. Major Saturday night attractions will be the dances. Three top-flight orchestras have been secured for the reunion—the Light Crust Doughboys of Fort Worth; the Melody Maids of Amarillo; Lasswell's Playboys of Dalhart.

The Dalhart Square Dance club, in the new legion hall, will be host to all old-timers Saturday night and each night of the reunion. Any old-timer with a badge from any one of the three pioneer organizations will be admitted free. Only old-time steps will be danced.

The annual Memorial Service paying tribute to the West and all its sons and daughters, passed and present, will be held Sunday night, August 3. Dr. J. A. Hill, president of West Texas State College at Canyon, will be the speaker.

Each reunion morning there will be band contests, maneuvers, massed concerts and the XIT parade. The professional rodeo, attracting top hands of the Southwest Rodeo Association and the Rodeo Association of America, will be held at 2 p. m. daily. A cowgirl sponsor contest, and an all-girls roping event will be standout attractions.

Brodbeck & Schrader shows will be here with rides only—but plenty of 'em—for the kiddoes.

COTTON MATTRESS PROGRAM NEARS HALF MILLION

College Station, July 22—Although the cotton mattress demonstration program in Texas has been slowed down considerably because of difficulty in getting ticking, 421,816 have been

Oil Field Cash for USO

Roustabouts, drillers, producers, farmers and town people chipped in their change and put Hutchinson County more than \$500 over its quota for the United Service Organizations. Here J. C. Phillips (left), editor and manager of the Berger Daily Times, director of the USO drive for Hutchinson County, is handing E. B. Germany, Dallas, Southwestern regional chairman, a check for \$2,000. Germany flew to the Panhandle to receive the check and to thank the Hutchinson County committee.

made since the program was inaugurated, according to reports compiled by Mildred Horton, Vice Director of the Extension Service, and R. T. Price, Field man at large, of the Triple-A Delivery of cotton ticking practically has stopped because of its need in defense preparations.

Nearly 30,000 mattresses and about 5,000 cotton comforters were made in June, the report shows. Altogether, 348,260 Texas families have received mattress-making materials.

JULY 24-30 SET FOR "EAT MORE PEACHES" DRIVE

Tasty appetizing peaches... so good to eat and so good for you, will be the central attraction on many Clarendon tables during the period of July 24th thru July 30th.

During this period a number of organization of the Peach Producing Industry, and the Food Trades Industry of the South are cooperating with the U. S. Department of Agriculture in a public-spirited campaign to increase consumption of fresh peaches by everyone.

W. E. Clifford, chairman of the Donley County Food Industry Committee, said that Donley County would take part in the campaign, pointing out that while food is rationed in war-torn Europe, we in America are faced with a different but serious problem.

"We are not eating enough of the basic health-protecting foods of which there is an abundance in this country," he said. "More than 40 per cent of our people are actually suffering from malnutrition in this land of plenty. And today, more than ever before, America needs strong, red-blooded men, women and children.

"All of us have always relished peaches and this delicious fruit now takes a new rank as a healthful food.

"Recent vitamin research has revealed that peaches are rich in Vitamins A, B, C and G (b2) necessary for good health."

QUITAQUE RODEO PLANNED FOR JULY 30 - 31

Rodeo fan in the Donley County area were interested this week in announced plans for Quitaque's Second Annual Amateur Rodeo, to be held in that city on July 30 and 31.

The two-day program includes four rodeo performances, with cash awards totalling \$550, two big street parades, home town and visiting sponsor events, and other attractions which go to make up a Southwest celebration day.

Rodeo events are open to amateurs only, and contestants will compete in all the usual rodeo events: calf roping, ribbon roping, break-away roping, bronc riding, bull riding and a wild mule race. Special events will be held for women entrants.

Geraldine Browder who has been visiting here with her grandmother, Mrs. R. A. Chamberlain, left Tuesday with her father for a short vacation trip into Colorado.

In urging all homemakers to eat more peaches at this time, Robert M. Moss, Area Supervisor of the Surplus Marketing Administration, pointed out that the National Defense Conservation and Nutrition program calls for more home canning and preserving. Home-canned peaches provide a splendid supply of basic health-protecting foods, and a very thrifty home food supply, too.

FUNERAL SERVICES AT HEDLEY FOR ACCIDENT VICTIMS

Double funeral services for the victims of a tragic traffic accident near Claude Sunday were held Tuesday afternoon at Hedley, when rites were conducted for O. E. Saunders and Claudine Tollett, nine-month-old daughter of Mr. and Mrs. Earl Tollett.

Mr. Saunders and the Tollett infant were fatally injured Sunday afternoon, when the car in which they were riding struck another vehicle and overturned.

Surviving the Tollett child are her parents, Mr. and Mrs. Earl Tollett; and one brother, Tommie Earl Tollett, 4 years old.

In addition to his wife and child, Mr. Saunders is survived by his parents, Mr. and Mrs. O. E. Saunders of Hedley, and several brothers and sisters. Among the latter is Mrs. Bryan Armstrong of Clarendon. Mr. and Mrs. Armstrong left on a vacation trip to New Mexico before the fatal accident, and attempts to reach them with information about the tragedy had been unsuccessful late this week.

Funeral services were held from the Baptist Church in Hedley, with Rev. M. E. Wells, a former pastor of the Hedley Baptist Church, conducting, assisted by Rev. E. E. Biggs, pastor of the Hedley Methodist Church, and A. L. Trapp, Baptist pastor in Hedley. Interment was in Rowe Cemetery near Hedley, with Womack Funeral Home in charge of arrangements.

The most glamorous couple in the world—Vivien Leigh and Laurence Olivier—provide the heart interest in Alexander Korda's "That Hamilton Woman" at the Pastime starting Saturday midnight, and continuing through the weekend, July 26, 27, and 28.

MARKETING CARDS FOR MIXED WHEAT ARE AVAILABLE

Since some buyers are deducting the wheat marketing penalty from the purchase price of a wheat mixture because it is not identified by a wheat marketing card, Nollie Simmons, Chairman of the Donley County AAA committee suggests that farmers who show a mixture of this kind and who intend selling it on the open market obtain a wheat marketing card from the local AAA office.

As a convenience to producers and grain dealers, the wheat marketing quota regulations have been modified so that wheat marketing cards might be delivered to producers of a farm from which a wheat mixture is harvested and which has been classified as wheat mixture under the Agricultural Conservation Program.

The wheat marketing card will not change the classification of the wheat mixture but is being given for the purpose of convenience to the producer and buyer.

The procedure for delivering the wheat mixture cards will be the same as for regular marketing cards except they will be issued only upon request by the producer affected and as a matter of reference the word "mixture" will be entered on the office records, Mr. Simmons said.

COUNTY SCHOOL TRUSTEES TO HEAR DISCUSSION OF NEW EQUALIZATION LAW FRIDAY

County school trustees of Donley County have been requested by Ruth Richerson, County Superintendent, to attend a meeting at the court-house in Clarendon Friday, July 25, at which the new equalization law will be explained and discussed. The new law, an important one to all rural schools, will be discussed by W. T. Lofland, district 1 deputy of the State Department of Education, with the assistance of Carl G. Clift, the new deputy in this area.

In another connection, Miss Richerson repeated her announcement of some weeks ago, that all transfers of rural school pupils into the Clarendon Independent School District for the 1941-1942 term must be made by August 1. Considerable office work is required to arrange the transfers, Miss Richerson said, and she indicated that it will be impossible to arrange transfers for students later than the deadline date, which is just one month before the opening of schools.

COUNTY PROPERTY OWNERS GIVEN CHANCE TO SAVE PENALTY AND INTEREST

Donley County property owners whose state and county taxes are delinquent have been offered a chance, through an act of the Legislature, to save money on their tax payments by cleaning up the delinquencies before November 1, according to county tax assessor-collector Guy Wright.

Under the new act, as interpreted by county attorney John C. Knorpp, payments of delinquent taxes will not be subject to the usual penalty and interest, provided all delinquent taxes are paid to bring the property owner's tax record up to a current basis. A substantial saving is offered the tax payer in this manner over the usual collection law, which provides for six percent interest plus a graduated

LIONS PORTER AND BECK ARE PROGRAM TUESDAY NOON

TRAVEL OBSERVATIONS EAST AND NORTH INTEREST CLUB MEMBERS

With Vice-President L. E. Thompson presiding in the absence of Lion President McHenry Lane, who is in New Orleans attending the International Convention of Lion Clubs, summer vacations kept the attendance level below normal this week at the Clarendon Lions Club Tuesday luncheon.

Program Chairman Patman had arranged a program of travel observations from two Lions just returned from trips to the East and North. Lion Porter gave a resume of things noted on a tour through Kansas, Missouri, Tennessee, Kentucky, South Carolina, Georgia, Florida and home through the Gulf states. He says it is impossible to travel in the area mentioned without being surprised at the stupendous defense effort and industries. Conditions are booming from a business standpoint all over the South-west, and it is moving this way according to his estimate.

Lion Beck gave a brief report on his travels through Kansas, Nebraska, the Dakotas and Minnesota, returning via Wyoming and Colorado. He said they encountered no hot weather on the tour until they came into Texas in the Dalhart area.

Mrs. L. E. Thompson was introduced as guest of the day, she acting as pianist in the absence of Lioness Rhoda Wiedman.

DONLEY FARMERS ALLOWED 15 DAYS IN WHICH TO PROTEST 1941 COTTON YIELD

Donley County farmers will be allowed fifteen days in which to file protests of their normal cotton yields, fixed by the county AAA office recently, Walter J. Flynt, local ACA secretary, said Wednesday.

The normal yield figures, on which 1941 AAA payments will be based, were mailed to Donley farmers on July 18th, Mr. Flynt said, and he warned county farmer who have a protest in mind that they must enter their protest with fifteen days after receiving the yield report if the protest is to be considered.

Cotton normal yields are figured for each farm on the basis of yield performance of that farm during the past five years, a method which takes into account both good and bad years to arrive at a normal yield from which AAA payments may be computed.

Bill Greene and Rhoda Weidman left Sunday for market in Ft. Worth and Dallas.

Coach and Mr. O. C. Warden of Ranger visited here Monday and Tuesday enroute to Houston where Coach will attend a coaching school. They will return here the last of August.

penalty on all delinquent tax payments.

If the property owner wishes to pay only a part of his delinquent ad valorem and poll taxes, leaving part of his tax obligations still on the delinquent list, he will be required to pay six percent interest on all that which he pays now, and will be charged both interest and penalty on all which is not paid before November 1, when the grace period provided by law expires.
