NAZIS ON THE MARCH

The terrific reverses in Libya are a tribute to German military leadership—and a harsh criticism on British military leadership. That seems to be the collective opinion of most authorities. The British were superior in the air and on the ground. That superiority gave them a fatal confidence. And Marshal Rommel and his Afrika Korps took a long and daring chance and succeeded.

The battle of Egypt is of the utmost importance. If Hitler can seize the Middle East, to which Egypt is the gateway, he will have resources and geographical positions whose value cannot be exaggerated. He will be well on his way to making contact with Japan. He will, with his satellite Italy, dominate the vital Mediterranean. Every resource the United Nations can muster will be used for the defense of the Middle East.

The Russian defense against vastly superior German legions has been nothing short of miraculous. Hitler is apparently throwing everything he has into the Russian front now. If that effort can be stopped before too much territory is lost, a long step toward breaking German military power will have been taken.

TROUBLE ON THE FARM

The statistics show that farm income has risen substantially during the past year. What the statistics do not show is that the farmer's costs have also risen heavily—and that such problems

as labor are getting steadily worse.

Dairy farming is a case in point. Cows must be milked twice a day, seven days a week. Expert experienced labor is necessary. But the farmer must pay several times as much for this kind of labor as he used to, even when he can get it. In many areas, it is virtually unobtainable at any price. Workers have gone to the cities, attracted by the high wages and relatively short hours of war industries.

The consumer wants cheap milk, and in many states milk is a public utility, with its price controlled by state boards. But the farmer can't sell milk at a fixed price if his labor cost steadily rises. As yet, no one seems to have any feasible solution to this problem. It simply illustrates that, contrary to the belief of many city people, everything isn't perfect down on the farm.

Mr. and Mrs. Douglas Goldston of Albuquerque, N. M. visited awhile Sunday afternoon with Mrs. Alfred Estlack. This was the first meeting in 14 years, they having been girl friends in Chilocco, Texas in 1928.

Wanda Horn of Hedley spent the week end with Betty Jo Taylor.

Mr. and Mrs. Weldon Couch and daughter and Mrs. B. N. Curtis and two grandchildren of Estline were visitors of Mr. and Mrs. B. N. Adams here the Fourth.

Army Flying Men Receive Wings

LUBBOCK, July 6—Before a record crowd numbering visitors from 23 states, the 42-F class of the Lubbock Army Flying School at Lubbock, Texas, was graduated in impressive ceremonies held in one of the large hangars at the field.

Mrs. Clint Breedlove, whose quick thinking saved perhaps many lives on the night of a recent electrical storm, was the guest of honor and was introduced by Colonel Thomas L. Gilbert, Commanding Officer.

Following the administration of the oath of office to the newly commissioned lieutenants, the Rev. H. I. Robison, minister of the First Methodist Church of Lubbock, addressed the graduates and guests.

Choosing as his topic "the advantages of altitude," Dr. Robinson pointed out that the great men of America's past, like Washington and Lincoln, have been able to see life from a far-seeing height. The men, he said, who today fly high for their country are the ones who will be the natural leaders now and in the peace which will inevitably follow the war. "The worst times require the best men," he said, "and the graduating lieutenants can so easily be those men."

Second Lieutenant Britton A. Storey of Fountain, Colorado, was awarded his wings by Colonel Gilbert in recognition of his being the highest ranking academic member of the group.

After the services formation flying took place for the visitors.

Waste Cotton Oil Is Source Of Glycerine

MEMPHIS, TENN., July 8—Enough glycerine to fire five anti-tank shells is contained in two pounds of cottonseed oil shortening left over in the kitchen frying pan.

Frying oils produced from cottonseed thus will play an important part in the campaign now being launched to salvage 500,000,000 pounds of waste kitchen fats and greases as a direct contribution of American housewives to the war effort.

Naval News

Most people are familiar with the Navy's V-1 program, which was inaugurated to allow college men to continue in school and for transfer to V-5 and V-7. The V-1 program will not begin to produce college graduates until February, 1944; therefore, the enlistment of ten thousand V-7 men is now authorized, the Navy Recruiting Station in Amarillo advised today.

These applicants for enlistment in Class V-7 must qualify under the following requirements: Must be male citizens of the United States, and have resided in the United States for ten years. Applicant must be unmarried, not less than 19 and under 28 years of age, as of date of enlistment. (College graduates who are married may enlist providing each married candidate furnishes a statement signed jointly by the candidate and his wife that his dependents will be adequately provided for while he is in training.)

Must meet the physical requirements for an Ensign, D-V(G), or E-V(G), U. S. Naval Reserve, except that the minimum height for Class V-7 is 65½ inches. Must possess one of the following degrees from an accredited University or College:—Bachelor of Arts, Bachelor of Science, Any Engi-

Use of these kitchen greases, two billion pounds of which are thrown out as waste each year, will serve the double purpose of supplying a direct source of glycerine and of releasing for food uses a larger quantity of the edible fats and oils now being allocated to industrial purposes.

neering Degree, Bachelor of Education, Bachelor of Philosophy, Bachelor of Business Administration, Bachelor of Commercial Science, Bachelor of Journalism, Bachelor of Laws, providing the applicant's law course was preceded by at least two years of pre-law work at an accredited institution.

Transcript of college record must be submitted to substantiate the degree, which must show two one-semester courses in mathematics of college grade. Any applicant who has taken Plane Trigonometry in high school must have two courses of three semester hours each in two major Maths, such as Analytical Geometry or College Algebra.

Candidate must be of good repute, agree not to marry before completion of Reserve Midshipmen training, be able to furnish birth certificate, and three letters of recommendation from responsible citizens. Application should be made at the Nearest Navy Recruiting Station now.

Mr. and Mrs. M. C. Carroll and daughter, Katherine of San Angelo, spent the week end with Mr. and Mrs. Frank White Sr. Katherine remained for a longer visit.

THE TEMPLE OF TRUTH
By the Apostle
THE EXPERT.
Watching the rodeo, a fine old boy as ever lived and who used to ride anything "with hair on it," as the old bronc riders used to say, turned to me and asked what I

thought about that "chute" business. Well it is different to the way we rode 'em years ago. We had to rope the animal in the pasture, saddle and mount and never expected to have any one around in the way. Finally this old boy says: "Durned if they won't hobble the stirrups in the next ten years." It's a different age, and the real old-time cow puncher just can't get the hang to it. He

likes real he-man stuff.
BIOLOGICAL.
There is a lot of fellows in this world who feather their own nest by robbing some other bird.
DEFINITION.
There are two genders—masculine and feminine. The masculine is divided into two forms—temperate and intemperate. The femi-

nine is divided, too—frigid and torrid. After all, this would have been a dreary old world without gender.
WANTED MORTIS.
When the old lady's son drowned in the gin tank, they had some trouble locating the body. The local newspaper man made mention of the fact in his "usual" graceful style by printing: "The

body was found late that night, but not until rigor mortis had set in." After reading that article, the old lady came down to the newspaper office and said: "Mr. Editor, I want to see Rigor Mortis and thank him for what he did down at the tank because if he had not set in when he did, they might have never found Ozzie."
SUGARITIS.
Reports are getting out through the daily press that the sugar mills are closing down for want of storage space. On the other hand we are told that sugar really is scarce. What we Americans would like to know is the plain facts in the case. We can take anything that comes along and take it standing, but if some screw-ball has messed things up with a pet idea of making us war conscious, we ought to find out that too. Will this continue until we have coffee rationing? or gas or a lot of other things? We want to know why—we Americans do. We want to help prosecute the war, but we don't want to be treated like a family of blamed fools while the war is eating in on us.

THAT LONESOME ROAD.
A Dallas banker is said to have read the following notation on a dollar bill Tuesday: "This is the last one of a cool million spent on fast women and slow horses."
LOSES MATE.
Mrs. Clair Curtain of Muskogee was granted a divorce when she explained:
"I was in Elreno in 1939 when I met this man. He was playing in a poker game and I was serving drinks. He turned to me and said, 'Okay, kid, let's get married.' So he took time out for the ceremony and turned to me again and said, okay, kid, I'm going to a card game. And that's the last I ever saw of the lying brute." She's looking for another of his type right now if she hasn't found him already.

WOOD WORK.
After receiving a cargo of broom handles, the English are said to have made a fine showing in the battles in Africa. They just needed backbone.

UNDECORATED.
From a letter from a very fine old friend in Arizona who writes from Lorenzo Hubbell's trading Post at Oraibi, I want my readers to get an insight into a bit of Indian character. This good friend writes in a paragraph of his long letter:
"An old Indian is here today, 'Smooth Talker' by name. He rode in horseback from near Pinyon. He is a cripple and has bought \$1.00 in defense stamps. He has turned his horse over to me and goes by truck tonight to Winslow to buy a \$100 war bond. As I walked around the Post last night and saw this aged Indian asleep on the ground and thought of his mission, not even knowing how he would get back from Winslow, I was touched—as hard as I am."
Two of my Indian friends of long standing are Haston Yazzie and Smooth Talker. They live far apart, the first being Navajo and the other Hopi, yet no better men ever lived than these fine old characters, neither of whom will likely ever be decorated for anything, yet their good deeds for more than a half century, is woven into their tribal history.

Mr. and Mrs. Elam Orcutt of Memphis visited Mr. and Mrs. B. N. Adams the Fourth, and also Miss Sophia Curtis of Amarillo.
Mrs. J. W. McMurtry of Windthorst is visiting her sons and families, J. L., Joe and Charley of Clarendon.
James Swift and a classmate, Keith Wells from Canyon, spent the week end with his parents, Mr. and Mrs. J. D. Swift.
Mr. and Mrs. Boles and Marian and Dorothy McCormick of Houston are visiting his sister, Mrs. June Taylor and family.
Mrs. Karl Adams and daughter June visited with her daughter, Mrs. D. E. Holt and family at Le-fors the week end.

Anniversary Reception

Mr. and Mrs. Harry Brumley celebrated their 50th wedding anniversary with a lovely reception at their home Sunday afternoon from 5 until 8 o'clock.

Mr. and Mrs. Brumley were wed July 5, 1892 at Alexandria, Texas. She was Miss Margaret Mims. They moved to Clarendon in 1900. Children of Mr. and Mrs. Brumley are Mrs. Joe Goldston and Rolle Brumley, both of Clarendon. Grandchildren are Carroll and Shirley Brumley, and all were present for the celebration. Also present at the wedding 50 years ago and the reception were Mr. Guy Stricklin of Clarendon and J. H. Brumley of Burkburnett, Texas.

Joe Goldston and Rolle Brumley met the guests at the door, and Mrs. Joe Goldston presented them to her parents.

A white and gold color scheme was carried out. The dining room table was covered with a hand-made lace cover over gold, and centered with a lovely 4-tier wedding cake which was placed on a huge mirror reflector, surrounded by fern and Shasta daisies. The cake was gold, iced with white, and decorated with yellow roses and topped with a miniature bride and groom. The cake was baked and decorated by Mrs. Harry Brumley.

The entertaining rooms were decorated with white gladioli, yellow roses and gold carnations.

Mrs. Brumley wore a Siberian blue formal trimmed with iridescence beads and a corsage of white Dutch iris. Mrs. Goldston's gown was azure blue net with a corsage of pink gladioli.

Those appearing on the program were Mrs. Allen Bryan and Miss Julia Dean of Amarillo who played a number of piano selections. Shirley Ann Brumley, dressed in a gold taffeta formal, sang "I Love You Truly," Mrs. Rolle Brumley singing, "When You and I Were Young Maggie," "Love's Old Sweet Song" and "A Perfect Day." Clyde Benton Douglas gave 2 flute numbers, "Indian Love Call" and "In The Gloaming." Mrs. Lee Nowlin sang "Ah Sweet Mystery of Life" and "A Bowl of Roses."

Mrs. U. J. Boston and Mrs. Fred Buntin cut and served the cake. Mrs. Clyde Douglas and Mrs. Gene Chamberlain of Memphis, presided at the guest book. Mrs. H. F. Harter and Mrs. Lee Bell served at the gift table.

Others assisting were Mmes. C. G. Stricklin, Bill Ray, Louie Thompson, Elvis Burch, Doss Palmer, Mike Stricklin, Walker Lane, Ralph Andis, Ralph Keys, U. Z. Patterson, F. L. Goldston. Assisting in the living room were Mrs. McHenry Lane, Beverly Grey Stricklin and Nelda Sue Burton.

One hundred and thirty guests registered during the afternoon.

SMALLWOOD—CROSS

Miss Mayme Smallwood, daughter of Mr. and Mrs. D. T. Smallwood of Brice, became the bride of Pvt. Marion Cross of Camp Barkley, son of Mrs. Alice Cross of Brice, at a single ring ceremony Sunday night, June 28th.

The wedding vows were spoken at the home of Rev. Sid B. Martin at Memphis, Rev. Martin officiating.

Miss Laurell Holland of Brice was the bride's only attendant. Murray Dial of Memphis was best man.

The bride grew to womanhood in Donley and Hall counties, having graduated from Clarendon High School.

The groom is a son of a pioneer ranching family. He graduated from Brice High School and attended Clarendon Jr. College. He was engaged in farming and ranching at Brice before his induction into the army.

They will make their home in Abilene, while he is in training.

The Leader joins their many friends in wishing them every success and happiness in the future.

Reusable Tumblers Recommended

POPULAR, HOME-MADE jams and jellies will be glassed this year in chip-proof tumblers—the reusable glasses with the Safedge rim in which you buy cottage cheese and many other products. Sliced Strawberry Jam and Rhubarb Strawberry Jelly, shown above, are made by new recipes which cut down on sugar requirement. At right is shown Golden Cottage Cheese Pie, made from the cottage cheese originally packed in the tumblers which are later used for jelly and jam making. Recipes are given below.

We heartily invite all to meet with us. You are welcome.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

One of the most attractive new yards is that of Carl Almond. The carefully arranged evergreens and trimmed lawn produce quite a pleasing contrast against the neat white cottage.

The Bert Smith home is made more attractive by the bright pink crepe myrtle blossoming in their yard.

Of all the mid-summer flowers, the perennial phlox is the most showy and beautiful. This lovely flower is found in profusion in the gardens of many including Roy Connally, G. J. Teel, T. F. Connally, L. E. Thompson and D. O. Stallings.

A very gorgeous display of phlox is presented by the garden of the M. P. Gentry home. There are many interesting colors and a great number of all colors.

J. W. Kent's yard is quite showy with its many vari-colored blossoms.

Petunias, phlox, zinnias and miscellaneous flowers are flowering gaily in the garden at the home of J. F. Blocker.

Mr. and Mrs. Freddie Weathers and Mr. and Mrs. Cloves Usery of Amarillo spent the 4th of July holiday with their parents, Mr. and Mrs. Jim Looper.

Mrs. Calvin Faulkner and daughter, May of Borger, came Saturday to get her daughter Ray, who has been visiting her grandmother, Mrs. Matheson the past three weeks.

Mrs. Tom Lane has been quite ill at her home this week but is reported as being somewhat improved today.

More Conservation Is Wartime Aim Of Farmers of Great Southwest

COLLEGE STATION, July 9.—At least three times as much soil-building work this year as in 1941 is one wartime aim of Texas farmers.

Total soil-building assistance, established under this year's farm program, is approximately three times as large as the 1941 allowance. The increase results from shifting a portion of AAA payments, which formerly were made for planting within special allotment acreage, to the soil-building allowance. Total assistance under the 1942 program, which may be used for carrying out approved practices, is approximately \$20,000,000 compared to \$9,000,000 under last year's program.

Faced with shortages of labor, materials and equipment, farmers must begin conservation work immediately if maximum payments are to be earned this year, Fred Rennels, assistant administrative officer of AAA in Texas, has announced.

The conservation materials and services program, which now is operating in 150 counties, is a definite method by which farmers can off-set shortages, he said. Under this plan, winter legume seed, superphosphate and terraces are paid for by AAA, with costs deducted later from individual AAA payments. Approximately 25,000 miles of terraces, 3,000,000 pounds of Austrian winter pea and vetch seed, and 17,000 tons of superphosphate have been requested under this program.

Feed In Silos Worth More

COLLEGE STATION—Almost any feed crop is worth twice as much an acre when made into silage as it is in the barn or stack, according to E. R. Eudaly, dairyman of the A&M College Extension Service. This is especially true of corn and grain sorghum crops which will not make much grain. It applies equally to sweet sorghums, Johnson grass and sudan.

If corn and grain sorghums can be left standing until the grain is hard, they will make better silage, provided the majority of the leaves still are green. Nevertheless, these feeds should be made into silage even though the leaves are burned or dried up. But all vitamin A would be lost in the latter case. Vitamin A is very essential, especially if silage is its only source, and the main origin of vitamin A for livestock is green feed.

It is even more necessary to have the sweet sorghums, such as redtop cane and seeded ribbon cane, ripe for making silage. Immature sweet sorghums make sour silage. Johnson and sudan grasses should be headed out and the seed in the dough stage. Any of the grasses and legumes should be dried until their water content is reduced to 35 or 40 percent before being put into the silo. This means about half dry enough to bale for hay.

When a majority of the leaves of corn, grain and sweet sorghums and Johnson and sudan grasses are green, it is not necessary to add water if the feed is chopped in one quarter inch lengths or less with an ensilage cutter when put in the trench. If the majority of the leaves are dry, it will be necessary to add enough water to wet the feed about like a heavy dew. Dampen bundle feed even though the majority of the leaves are green.

The silage should be well packed and the trench filled high enough so that it will not settle below the level of the ground. The trench should have good drainage.

Mr. and Mrs. Chas. Bairfield spent the 4th with her parents, Mr. and Mrs. Alexander at Wellington.

Mr. and Mrs. Bill Todd of Canyon visited here the Fourth.

Ray Morrison of Borger visited friends here over the week end.

Farm Prices Still Below That of World War I

AUSTIN—Although the rise in farm prices during the past year is contributing substantially to the rise in farm cash income, the present level of farm prices is still far below that reached in World War I, according to Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research.

Farm prices had reached a two-year low in August, 1939, just before the outbreak of war, Dr. Buechel points out, so the increase since then should not be viewed with alarm. Further substantial increases in farm prices above the present level would, he believes, however, be justifiable basis for concern.

Writing a monthly report on farm cash income for the state during May, Dr. Buechel points out that the Texas wheat harvest now under way is expected to be well above last year's and that higher prices now prevailing will mean a substantial increase in cash income from that source. Cotton and cottonseed prices during the marketing season are also expected to be considerably above a year ago, Dr. Buechel says, and a crop of the same size as last year will result in substantial income gains from these products. Growing income from milk and milk products, fruits and vegetables, poultry and eggs are also forecast.

Chester Talley and Byron Owens were business visitors in Amarillo Sunday.

Mrs. H. Tyree and Miss Grace Tyree visited in Amarillo Sunday.

Pvt. Lloyd Johnson of Sheppard Field visited friends and relatives here over the week end.

Nova Cook of Dumas was home for the 4th.

Southwest Leads In Army Building

DALLAS, July 9.—The program of Army construction in the Southwest is smashing all previous records, according to Colonel Stanley L. Scott, Dallas, Southwestern Division Engineer. Because of natural advantages in training troops and easy access to raw materials, approximately 20 per cent of all Army building at this time is concentrated in the Southwestern Division—one of thirteen such divisions in the United States.

Construction authorizations come into Division headquarters everyday from the War Department. They are for all types of new construction—troop housing, utilities, flying fields, hospitals, schools, manufacturing plants and miscellaneous additions to the hundreds of Army posts and stations located in the Southwest.

The Army Engineers have invited all contractors prepared to accept contracts of \$100,000 or more to write the Division Engineer, Southwestern Division, Cot-

ton Exchange Building, Dallas, Texas. Those contractors who do not have the facilities to handle a \$100,000 project are urged to pool their equipment and personnel with other contractors and go after the Army's business in combination.

U. S. District Engineers at the six district headquarters in the Southwestern Division may now award contracts up to \$3,000,000 and Division Engineers contracts up to \$5,000,000, Colonel Scott states. This is one of the many ways by which negotiations between private contractors and the Army Engineers are being speeded up to meet the emergency.

During the past week in the Southwestern Division, approximately forty contracts were awarded, another forty invitations to bid issued and twenty construction authorizations received, which when broken down for purposes of issuing bid invitations, will keep up the fast pace.

Mr. and Mrs. Ira Merchant and daughter, Marilyn, of Amarillo were visiting in Clarendon the Fourth.

Improvement In Seed Shows Increase

College Station, July 9.—Planting of state certified seed for most field crops is increasing steadily in Texas, says E. A. Miller, agronomist of the A&M College Extension Service. Use of pure seed of high yielding strains is more necessary now than ever before, in order to meet the growing demand for farm crops and products. Planting pure seed makes farming more profitable, too.

The grain sorghum seed improvement work has been rather outstanding, especially in connection with pythium root rot, Miller says. A resistant strain, called "Texas milo", developed by the Texas Agricultural Experiment Station, has replaced most of the susceptible seed and saved the milo maize growers of Texas several million dollars a year.

The seed improvement work with oats, barley and wheat consisted largely of demonstrating the value of the best varieties, and to get farmers to standardize on those which proved to be the most satisfactory. A systematic educational campaign in wheat was conducted in cooperation with the Texas Wheat Improvement Association, because the seed of many growers had become mixed and also because some poor baking varieties especially Chiefkan and Early Black-hull were gaining a foothold. The educational work resulted in a much bigger demand for pure seed of the best varieties.

UNITED STATES CIVIL SERVICE EXAMINATION

The United States Civil Service Commission announces open competitive examination for the positions of Assistant Communications Operator, \$1620 a year and Junior Communications Operator, \$1440 a year, for employment in Region Four, Bureau of Federal

Airways, Civil Aeronautics Administration, Headquarters, Fort Worth, Texas (comprising the States of Arkansas, New Mexico, Oklahoma, Texas and that part of Louisiana west of the Mississippi River).

The age limits for these positions are 18 to 50. The maximum age limit does not apply to persons granted military preference because of military or naval service.

Competitors will not be required to report to any place for written examination, but ratings will be assigned based on information in the application subject to corroboration.

Applications may be filed until further notice with the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, La.

Further information and application forms may be obtained from the local postoffice.

Mr. and Mrs. A. A. Mayes are at home after a 6 week's visit at Nashville, Tenn., Birmingham, Ala., and other places.

BAPTISM

Why Be Baptized?

Christ commanded it: Matt. 28:19. "Go ye therefore, and teach all nations, baptizing them in the name of the Father and of the Son, and of the Holy Spirit."

Believe, Baptized Saved:

Mk. 16:15-16. "Go ye into all the world and preach the gospel, to every creature; he that believeth and is baptized, shall be saved."

Repent, Be Baptized.

Remission of Sins: To people who had just heard the gospel and believed the same, and cried out what must we do? the apostle Peter gave the following command, Acts 2:39. "Then Peter said unto them; repent and be baptized every one of you, in the name of Jesus Christ, for the remission of the sins, and you shall receive the gift of the Holy Spirit."

Commanded: Acts 10:48. "And he commanded them to be baptized in the name of the Lord."

Be Baptized, Wash Away Sins: Acts 22:16. "And now why tarriest thou? arise and be baptized and wash away thy sins, calling on the name of the Lord."

Baptized Into Christ: Rom. 6:3. "Know ye not, that so many of us as were baptized into Jesus Christ were baptized into his death."

In Christ We Are New Creatures: 2 Cor. 5:17. "If any man be in Christ, he is a new creature, old things have passed away, behold everything has become new."

(Note) In Christ we are new creatures. We are baptized into Christ. Redemption Is In Christ: Col. 1:14. "In whom we have redemption through his blood, even the forgiveness of sins."

Baptized Into Christ: Gal. 3:27. "For as many of us as have been baptized into Christ, have put on Christ."

Baptism Saves: 1 Peter 3:21. "The like figure whereunto even baptism, doth also now save us."

Friends in the face of these scriptures, many will tell you that baptism is non-essential. Which will you accept?

Bascom Giles Announces For Re-election General Land Office

Bascom Giles, Commissioner of the General Land Office, made his formal announcement today for re-election. In reporting on his conduct of that important constitutional state office, he pledges continued honest, efficient, and faithful service to the people.

Soon after becoming Commissioner of the General Land Office, Mr. Giles submitted a number of recommendations to the Legislature that he had advocated in his campaign, which body put his recommendations into law. His outstanding accomplishments are the passage and administration of a law which ended vacancy racketeering and title clouding and gave the good-faith claimant or home owner a prior right to purchase the land when a vacancy is discovered; and the creation of the School Land Board to administer the public school lands of Texas. Commissioner Giles is chairman of this board and a member of the Board for Lease of University Lands; throughout his service there has not been a dissenting vote on either board. He has served on the School Land Board with two Texas governors and one attorney general.

Commissioner Giles secured the passage of a law to increase the down payment on new purchases of school lands from one-fortieth to one fifth. Another law he advocated was the extension until 1951, of the payment of principal on lands that had been previously sold, thus assuring the school fund a long-time steady income. The laws passed on his recommendations have made it possible for Commissioner Giles to increase the Public School Fund to more than \$75,000,000.

Commissioner Giles has compiled new state abstract volumes for publication, the first time since 1878; and instead of 62 cumbersome volumes, the 406,000 titles are compiled into eight compact volumes, each one complete for a district of the state.

Commissioner Giles said that he had received hundreds of highly complimentary letters commending him for the prompt and efficient service being rendered by the General Land Office which, he said, is in a large measure due to the efforts and ability of his employees.

"I invite you who have not done business with the Land Office during my administration to ask any of the 200,000 who have as to the character of service we are rendering," Commissioner Giles said.

A Story of War—And War Bonds

This new color poster, which soon will be used in all parts of the country to promote the sale of War Bonds and Stamps, is one of four recently created to emphasize new themes in the War Bond sales campaign.

Vaughn of Ox Bow came up for the Fourth, and visited the John Chamberlains.

Mrs. Reamer and daughter, Orene have gone to Arizona to visit her mother.

J. C. Longan lost two fine milk cows the past week.

Gene Chamberlain, who had been in St. Anthony hospital at Amarillo ten days following a major operation, was returned to his home in Memphis Thursday by a Buntin ambulance.

Mrs. Mary Sue Longan of Canyon spent the week end with Mrs. Edith Longan. Mrs. Longan will receive her degree the 25th of July.

Mr. and Mrs. Walter Grant of Snyder, formerly of Midway, visited the Longans and other friends here the past week.

Mr. and Mrs. D. W. Tomlinson of Borger spent the week end here with his parents, Mr. and Mrs. Dick Tomlinson.

Ralph Thompson is working now in New Mexico.

Mr. and Mrs. Ernest Davis visited his parents Friday.

Mrs. Glenn Williams spent part of the week with the J. A. Meaders. Mr. Meaders is confined to his bed.

Rev. Quattlebaum visited in the Meaders home Thursday.

Miss Jane Williams is attending school in Boulder, Colo. for the summer.

Mr. Loran Thompson and children Jo Ann and Jimmy, and Mr. Orville Couch and son and nephew all of Wellington visited in the J. A. Meaders home Saturday. Others to visit Mr. Meaders during the week end were Mr. Davis, Roy Wilson, Everett Stevenson, W. D. Higgins, Aubry Tompson and Arthur Seaton.

Joe Williams is working for the County Agent's office for the summer.

Mrs. Fanny Rector of Clarendon spent Tuesday with Mrs. Dick Tomlinson.

Mr. and Mrs. Lavern Goldston and boys of McLean came down for the Fourth and visited their parents over Sat. night. Freddy remained over for a week's visit with his Goldston grandparents.

Mrs. J. A. Meaders and Miss Virginia and Mary Williams went to Amarillo Tuesday.

Louis Stone, who is in the army hospital, is reported as not doing so well.

Mr. J. A. Meaders had a serious attack Friday, but is gradually improving now.

Mrs. Bill Bromley visited with her husband in Amarillo Tuesday. He is improving slowly.

The Misses Mosley of Pampa, and Miss Mosley, daughter of Mr. and Mrs. Jiggs Mosley, visited their aunt, Mrs. Ruby Bromley the past week.

Those Leg Pains

Pains in the legs are always symptoms of conditions which should not be neglected. We must take good care of our legs, particularly in these times of gas rationing, when for transportation purposes we shall have to depend on our legs more and conveyances less.

Causes of Leg Pains

Varicose veins, sciatica, arthritis, flat feet may be the underlying cause of pains in the leg.

Varicose veins are frequently the cause of severe pains in the legs. Veins may become varicose from a retardation of circulation, resulting from poor tone of blood vessels. Constipation is another cause, for the reason that there is interference with the return of blood from the lower extremities to the general circulation. Pregnancy is a cause of constipation for the same reason.

Sciatica is a common ailment that causes pain in the legs. It is an inflammation of the sciatic nerve which leaves the lower part of the spine and passes down the entire length of the leg.

Arthritis, and structural deformities of the feet, like flat feet, may also cause pains in the legs. Regardless of the cause, the chiropractor is able to locate underlying causative factors and remove them. What can be done about crippling pains in the legs? It indicates Chiropractic analysis and adjustment.

RED CROSS VOLUNTEER SERVICE

KNITTING

Knitted articles were coming in nicely this week at the Red Cross Rooms. Various knitted garments were turned in by Mrs. Forest Sawyer (od), Hazel Bingham (m), Betty Jo Rhodes (sq), Mrs. P. B. Gentry, Amarillo (2 wp), Ila Pool (wp), Mrs. A. B. Turner (wp), Mrs. Bill Hilliard (od), Ruby Terry (od), Mrs. Alta Angel (sq), Mrs. R. M. Morris (od), Mrs. J. D. Swift (sq), Maurice Berry (sq), Mrs. W. A. Riney (od), and Mrs. Jack Molesworth (od).

Ila Pool who turned in the War Production sweater last Thursday set a record time for the sweaters with sleeves. Miss Pool took the sweater out June 19 and returned it within fourteen days.

Maurice Berry who turned in several knitted squares for the afagans used her own wool. Thanks, to you, Miss Berry. We wish more women would be as generous.

Some of you may be in doubt as to the abbreviations we use in this column to conserve space. They have been explained before but to some of you who have not been reading the column long we explain the following abbreviations: od—the olive drab sleeveless sweaters; wp—the war production sweaters with sleeves; m—mufflers; and sqs—squares for the afagans.

Yarn for mufflers was issued this week to Mrs. Will Johnson, Ila Pool, Mrs. Alta Angel, Mrs. U. J. Boston, and Ruby Terry.

The yarn for several helmets has been given out to a few women for experimentation and as soon as an accurate account on the amount of yarn used the helmets will be ready to issue. The women who are working on the samples are Mrs. Ed Dishman, Mrs. Floyd Lumpkin, Mrs. J. T. Hoy, Mrs. Leo Cantrell, Mrs. W. A. Riney, Mrs. Paul Smithy, Mrs. Jack Molesworth, Mrs. Ralph Andis, Mrs. A. B. Turner, and Mrs. Tom Bugbee.

Cutting
Workers started last week cutting on the 800 yards of cotton material which will be used for the women's and children's blouses. The women who did cutting last week include Mrs. J. M. Acord, Mrs. Cal Merchant, Mrs. A. L. Chase, Mrs. John Potts, Mrs. Will Johnson, and Mrs. V. L. Smith.

These blouses will need buttons (six to the blouse) and we are again begging for donations. If you have any six buttons alike that you have no use for, please bring them to the Red Cross room.

All leaders of the church circles are asked to please get in touch with the distribution chairman, Mrs. C. T. McMurtry. Call Mrs. McMurtry at 80 and tell her how many blouses your circle will take. This applies to the women in the outlying communities also. If you wish to take any Red Cross sewing, call Mrs. McMurtry and she will see that it will be issued to you.

We have again been asked to announce that the Red Cross room is open each afternoon, including Wednesday, from 3 until 5:30 o'clock. Come at your convenience between these hours.

We wish to express our thanks and appreciation to Laverne McMurtry who so ably took charge and managed the arrangements of the cold drink and sandwich stand at the rodeo Saturday, July 4. Miss McMurtry did a wonderful job of getting the sandwiches and cold drinks together and the great amount of work that she did is greatly appreciated.

A SON AT SEA

O God, through tomorrow and the next day and the next, Watch o'er the sea!

Let starlit nights prevail, I ask of Thee!

Be master of the waves that toss the ship upon the deep, And safely guard a little boy I used to rock to sleep.

TO THE PRODUCERS OF DONLEY COUNTY.

Walter J. Flynt, Secretary
Donley County ACA

Since performance work has started, it has been brought to our attention that some of the Producers have been under the impression that Idle Cropland will count in the 20% that must be put in specified government crops or land uses. Idle Cropland will not count in the 20% unless it is left idle so that new terraces can be built during the 1942 crop year. Summer fallowed land will count, if it is really worked and in good condition. You may seed the 20% to sudan, millet, sweet sorghums, oats, rye or peas. Forest trees will count in the 20%, but your home garden is not a government specified crop this year, therefore it will not count.

Your soil-building practices should be started earlier this year so as to off-set the shortages of labor, equipment and machinery. Instead of waiting until the last two or three weeks of the program year to carry out these practices, work should be started now. Practical soil-building practices which may be carried out during the next few weeks include terracing, furrowing, contouring, and chiseling non-crop open pasture land, building tanks and reservoirs and planting non-leguminous green manure or cover crops. Most of the producers have, in all probability, carried out such practices as contour farming and listing, strip cropping on contour, cultivating and protecting a good stand of forest trees, protecting summer-fallowed acres, building terraces and growing a home garden.

Practices such as leaving stalks on the land, plowing the cover crop under or leaving it on the land will be checked again later. Failure of the Donley County farmers to carry out extensive soil-building practices not only will result in loss of soil fertility but will seriously hinder food and feed production in the War Program.

Conservation always has been a sound farming policy. This year it is a wartime necessity.

PENALTY RATE ON WHEAT ANNOUNCED

Penalty rate for wheat raised in excess of farm marketing quotas is 57 cents per bushel this year.

National loan rate previously has been announced at \$1.14, according to P. C. Colgin, state AAA commodity loan specialist.

STORY IN PROSE BY HEDLEY'S BEST POET

For many years Mrs. S. G. Adamson of Hedley has contributed many of her poems to the press. This one comes to the Apostle which he passes on to the big family of readers of your Donley County Leader. The theme is an apt expression these days.

Hedley, Texas
June 27, 1942

Dear Mr. Estlack:

I enjoy your weekly column very much and always wish you would write more. I get a kick out of the weekly "poems."

I thought of this one since we have been having so many hot windy days.

When the breezes are cool
Instead of hot
And the mocking bird loves to sing
Rather than not,
I can stand most any kind of trouble.
But when the breezes that
Blow are hot,
And the mocking bird won't sing,
Then I see double.
Yours sincerely,
Mrs. S. G. Adamson
