## Around Muleshoe

Reconstruction work continues on State Highway 214 in Bailey County, from US 70 in Muleshoe to the Parmer County line, Rhea E. Bradley, Supervising Resident Engineer, State Department of Highways and Public Transportation, of Littlefield, stated Friday.

The contractor is in the process of preparing the base for asphalt surfacing and applying asphalt surfacing, with completion expected the last of this month.

He said the public is urged to watch for loose gravel, observe barricades and warning signs and to drive slowly through the project.

Visiting with Mr. and Mrs. Weidon Eagle, Heath and Micaela and Inez McWilliams during the holidays were their sister and daughter, Mr. and Mrs. Tom Schlabach, Kimberly and Kelly of Lubbock.

Word was received at press time that Oliver Glenn, 78, died Friday night at St. Anthony's Hospital in Amarillo. Services are pending at Ellis Funeral Home.

Mark Ell Northcutt, son of Mr. and Mrs. Ed Northcutt, was among the graduates at the Texas Tech University commencement held May 11.

Northcutt received the Bachelor of Science degree in Chemical Engineering. He was the highest ranking graduate with a 4.0 GPA and was named "Outstanding Student Engineer" by the Engineering Student Council and also by the American Institute of Chemists.

He served as treasurer of the Student Chapter of American Institute of Chemical Engineers and was secretary-treasurer of Omega Chi Epsilon, a Chemical Engineer Honor Society, during 1983-84.

He was a member of Tau Beta Pi, a National Engineering Honor Society, and was named

### Board Members

Bailey County Commissioners will meet in regular session on Monday July 9 at 10 a.m.

Items to be considered during the day will include meet with representatives of the Bailey County Child Welfare Board; consider seal coating for county pavement and review departmental reports.

Also, review county treasurer's report for June, 1984; payment of routine county bills; appointment of directors for Muleshoe Heritage Foundation, Inc. and miscellaneous items.

**GOLF TOURNAMENT WINNERS**-Ricky Claybrook, left, was the winner of the Mule Putt Miniature Golf Tournament Wednesday morning, and is pictured with his trophy. Center, Brandon Carpenter was the second place winner, and his dad, Alton Carpenter, right, came in third.

## Celebration Draws Crowd

One of the largest crowds in some time to attend the Independence Day Celebration in Muleshoe enjoyed a day of activity Wednesday, topped off with approximately 3,000 people in the city park Wednesday night for the entertainment and fireworks, as well as the 4-H barbecue.

Events got off to a running start Wednesday morning with the two-mile and six-mile runs.

A total of 108 runners finished the two races, according to John Medlin, coordinator of the run. He said 58 completed the two mile run and 50 runners finished the six mile race.

"We had at least twice the number of runners we have ever had," commented Medlin. "It appears to be the most successful race ever conducted here, and we're looking forward to another run on August 11, during the Mule Day Festival."

Overall winners in the two-mile run were David Medlin, first with a time of 10:45 and first for the women's division was Quay Gregory, with a time of 13:52.

Also in the top three in the men's division were Ralph Salazar, second and Timothy Kriehauser, third. LaDawn Lee finished second in the women's division and Stacy Haley was third.

In the six-mile run, Richard Dulin was first, with a time of 37:25, followed by Martin Blea and Tony Brownell. First in the women's division of the six-mile was DeAnn Halford, followed by Jane Jones and Roxi Johnson.

Entries in the runs, other than the good representation from Muleshoe included Portales, Tatum, Clovis, and Dora, all in N.M.; and Lubbock, Monahans, Hereford, Littlefield, Friona, Goodland, Amarillo, Dimmitt, West Camp,

Farwell and Alabama.

Jama Brown was named the World's Champion Mule Shoe pitcher and also took first in the women's division and second with Dee Brown in the doubles.

Jerry Helton beat out Calvin Embry for first place in the men's singles and was named the men's champion.

During the finals at the Mule Putt Golf Course, Ricky Claybrook was named the winner following playoffs on Wednesday morning. He had a 49 to take the first place.

In second place was Brandon Carpenter with 53; Alton Carpenter, third at 54 strokes and in fourth place was Sean Shipman at 55.

## Federal Suit Filed Against Police, City

City Manager Dave Marr said Friday morning that neither he, Chief of Police Les Irvin, nor any one else connected, had been served with civil suit papers regarding a suit filed in federal district court in Lubbock on Thursday.

The city manager said he felt he could not comment on the pending litigation as he had not even seen a copy of the complaint filed in the Federal District Court in Lubbock by Muleshoe Attorney Dee Treadwell.

According to the Lubbock Avalanche Journal Friday morning:

"A Muleshoe couple claims they were falsely arrested for public intoxication May 12 and filed suit Thursday against the city of Muleshoe, a police officer and the police chief.

"The suit states that Johnny St. Clair and Cindy Puckett were traveling east on U.S. 84 outside the city limits and pulled over to have a discussion. St. Clair stopped the car in the driveway of the Texas Department of Highways, according to the federal court document.

"The plaintiffs allege that police officer Eugene Porres then pulled up behind them and arrested them, without reading them their rights, for public intoxication.

"The two were taken to the Bailey County Law Enforcement Center where Miss Puckett requested a blood test and was refused, the suit claims.

The next morning, the plaintiffs were taken before Municipal Judge Linda Huckaby, and she advised them to plead guilty unless they could

# '84 Wheat Harvest Ending; Good Yield

## Energas Asking 7.7 Percent Rate Increase

Energas Company Friday notified the 63 cities on its West Texas City Plant System, including Muleshoe, that the company is filing for a 7.7 percent increase in the general service rate for natural gas service to domestic and commercial type customers, effective August 10, 1984.

The spokesman said about 186,000 general service rate customers in a region from Pampa, Hereford and Lubbock to Midland and Odessa would be affected by the rate ruling which requests an overall rate of return related to net original cost rate base of 11.63 percent.

He said that according to an independent study contracted by the company on the cost and revenues of the West Texas City Plant System for the calendar year ending December 31, 1983, the rate would be 11.63 percent.

Joe Stevenson at King Grain said most of their wheat has come in although they do expect to receive just a little more. He said dryland yields

have ranged from seven to 29 bushels per acre, while irrigated wheat has averaged 50-80 bushels.

According to Sherley-Anderson Grain at Lazbuddie, they are at the "tail end" of the wheat harvest in that community. According to figures from their elevator, the yield covered a wide range, from 40 bushel to 122 bushels per acre.

However, the elevator reported the total received down slightly from 1983.

At Lariat, Sherley-Anderson Grain Company said their harvest is almost over, and they are figuring about an average of 75 bushels per acre. They, too, report less wheat received this year.

Harry Johnson at Sherley Grain in Bovina said the only wheat they are receiving now is from the Rhea community west of Friona. The area harvest is just about over, he added.

"Our yields depended on how many times the crop had been watered," said Johnson. "Some farmers did not water their dryland, but we averaged about 20 bushels per acre on the dryland, and in some spotted instances the yield was 100 bushels in irrigated land." The average on irrigated wheat, according to whether it had been watered twice or four or five times ranged from 63-104 bushels per acre.

Johnson said the quality of wheat was very good this year, although they did not receive as much wheat as they did in 1983.

"The rain came almost too late to benefit the wheat farmer," he added.

## Tuesday Rain Fails To Dampen Holiday Spirit

A heavy thunder and lightning storm which moved through the area shortly before midnight Tuesday left nearly an inch of moisture behind and provided its own version of fireworks.

No hail accompanied the storm, as constant lightning made the sky almost as light as day, while constant thunder rumbled through the sky.

Officially in Muleshoe, .94 was recorded, although amounts of up to 1.3 inches were reported, with 1.1 inches being common reports.

Less than one-fourth of an inch was received in southwest Bailey County, as the storm appeared to be confined to a narrow band passing to the southeast.

Partly cloudy skies and temperatures in the mid-90s took over for the rest of the week.

General admission for the Friday and Saturday night editions of the rodeo will be \$3 for adults and \$2 for students.

Rodeo time will be 8:30 p.m. each evening, and serving of the barbecue will end at 8 p.m. on Thursday.

C-T Rodeo Company will be providing the stock for the rodeo, and several special attractions have been planned. Included in the special attractions will be a stick horse race for kids six and under each night; the Little Miss Cowgirl Contest, 7:30 p.m. on Thursday, followed by the Queen Contest at 8 p.m. Playday is scheduled in the park from 12 noon to 6 p.m. on Saturday, along with the celebration of Earth's 60th birthday.

Rodeo entries will be accepted until Wednesday, July 18, noon to 6 p.m. at the rodeo office located at the rodeo grounds.

Trophy buckles will be presented for the first place winners in each event, and there is a \$50 entry fee for all events except girl's barrel racing, which has a \$40 entry fee.

Events scheduled are calf roping, bareback riding (open), saddle bronc riding (open), Con't Page 6, Col. 6

Wheat harvest is "just about over" for this area, with all area elevators reporting only small amounts of wheat being brought in each day at this time. Most predict the harvest will be completed within the next three to five days.

Also, although Parmer County elevators reported a decrease in the amount of wheat brought in this year, all three elevators receiving wheat in Muleshoe reported increases for 1984.

Nancy Stovall at Farmer's Cooperative Elevators in Muleshoe said the harvest is just about over and although no figures on yields from irrigated wheat have been computed as yet, dry land wheat has produced an average 10-12 bushels per acre.

Three to four days will complete the grain harvest for Ray Griffiths and Sons, according to Cliff Griffiths. He said even the dryland wheat turned out fairly good yields this year, and the yields ranged from ten bushels to over 100 per acre.

Joe Stevenson at King Grain said most of their wheat has come in although they do expect to receive just a little more. He said dryland yields

## 40th Annual Earth Rodeo Planned Soon

With the Muleshoe July 4th Celebration history now, it is time to turn all eyes to the east, 18 miles down Highway 70. The 40th Annual TCRA Earth Rodeo will be getting underway on July 19.

Billed as the "Biggest Rodeo in the Southwest (For The Size of The Town)" the ever-popular threeday rodeo is ready to "take off."

Events will officially get underway with the 5 p.m. parade down the Main Street (Highway 70) ending at the rodeo grounds just west of the city limits.

Persons who purchase a ticket for the Thursday, July 19 rodeo, at \$5 may also attend the big barbecue, prepared and served on the rodeo grounds each year.

### School Trustees

### Face Big Agenda

### For Monday Meet

Members of the Board of Trustees of the Muleshoe Independent School District will meet in regular session Monday night at 8 p.m. with a number of items to be discussed during the evening.

Under business items, board members will consider approval of a localized Policy Update Twenty-two; School Volunteer Program for the 1984-85 School year; lunchroom prices for 1984-85; and the student insurance program for 1984-85.

They will hear the tax collection report and go into executive session then consider appropriate personnel action following the session.

Superintendent H. John Fuller will report on correspondence and on school and community events.

Informational reports will be given on the Legislative report of the Special Session; progress report on summer maintenance programs; high school campus beautification committee and an accreditation report from TEA.

Under financials reports will be the review of bank balances in each school fund; reviewing expenditures in each function of the school budget and consider approval of payment of current bills.

**FREEDOM RINGS WHEN GOD REIGNS**-The winning float in the parade Wednesday afternoon was the entry by the Assembly of God Church. The entry, which followed the theme of the parade this year "Freedom Parade" was judged to be the first place entry.

**WINNER OF THE SIX MILE**--Richard Dulin, of Clovis, was the first place winner of the 10-K run in Muleshoe Wednesday morning with a time of 37:25.

**FIRST TO COME HOME**--David Medlin, of Clovis, was the first to cross the finish line with a time of 10:25.

## Creative Woman

by Sheryl Borden

Topics to be presented on "The Creative Woman" show on July 10 and 14 include decorating with sheets and information on cooking vegetables in the microwave oven. Jo Ann Emmel, Housing Specialist with the Cooperative Extension Service in Las Cruces will talk about some of the advantages, as well as drawbacks to using sheets in decorating. She'll have several examples of items decorated with sheets.

Marcia Schwall, home economist with the Litton Co. in Dallas, Texas will talk about selection of vegetables for microwave cooking, discuss the types of containers that work

best and talk about the importance of arrangement when cooking vegetables in the microwave oven.

On July 12 and 15, the topics will include travel tip number four and a pressing and quilting technique. Betty Chalker, a sewing instructor from Atlanta, Georgia will demonstrate how the press and quilt technique can turn very ordinary fabric into something very special. She will also show how to make "snap-in" sleeves for garments.

The fourth travel tip will be on fashion tips for the traveling woman. The number of women business travelers is increasing three times faster than that of men and the fashion industry has definitely taken notice of this.

"The Creative Woman" is produced and hosted by Sheryl Borden. The show airs at 12:00 noon on Tuesday and Thursday at 2:00 p.m. on Saturday and at 5:00 on Sunday on KENW-TV, Channel 3, Portales, N.M.

## '4-H Fiesta International' Theme Of 4-H Congress

Learning experiences relating to international issues will be in store for the approximately 500 4-H delegates, their agent advisors, and Texas 4-H Council members when the Texas 4-H Congress convenes in Brownsville, July 17-19.

"4-H - Fiesta International" will be the theme of the Congress, the eleventh annual activity of its type to be staged.

**Muleshoe OES Chapter Meeting Held Tuesday**

The Regular meeting of Muleshoe Chapter No. 792, Order of the Eastern Star, was held Tuesday evening, July 3, in Masonic Hall, with Elaine Phillips, Worthy Matron and Bob Phillips, Worthy Patron, presiding.

The Bible was opened upon the Altar; Pledge of Allegiance was recited in unison and "God Bless America" was sung.

An invitation was received from Tullia Chapter to their Friendship night and Rob Morris Program, August 7th, when Mrs. Elsie Paladino, Grand Conductress of the Grand Chapter of Texas, O.E.S. will give the program.

An invitation was received from West Texas Past Matrons and Patrons Association of District 2, to a banquet, honoring Mrs. Dorothy Vernon, Associate Grand Conductress, August 11th, in Abilene.

"Happy Birthday" was sung for: Bob Phillips; Wayne Williams; Judy Cooper and Glenn Lust.

Refreshment Hostesses were: Virginia Weyer; Elizabeth Harden and Mary Farley.

Headquarters for the Congress will be the Fort Brown Motor Hotel, although seminars will be held at the adjacent Jacob Brown Auditorium.

**Jehovah Witness 1984 Convention Includes Amarillo**

The Watchtower Bible and Tract Society of New York has revealed completion of plans for a series of 119 district conventions of Jehovah's Witnesses during the summer of 1984.

Stanley Weigel, official spokesman, said 65 separate sites will be utilized for the annual meetings. A total of more than 1,150,000 persons are expected to attend the conventions in the United States.

Many delegates from this area will be attending various conventions in the United States. One of the 65 cities selected is Amarillo, Texas where the Civic Center Coliseum will host delegates July 19-22.

The theme for the 1984 conventions is "Kingdom Increase" and much of the program content will center the growth of the religious movement in recent years.

"Jehovah's Witnesses are marking a centennial this year," one delegate said. "The movement started one hundred years ago with a handful of Bible students and today is conducting ministerial and preaching activity in 205 lands with 2,600,000 now associated worldwide."

He said the convention is scheduled this year at the Amarillo Civic Center with a projected attendance of 5,500 persons expected.

"This is indicative of the tremendous growth in recent years," he concluded.

Serving as keynoter for the Congress will be Michael Broome, futurist and humorist located at Charlotte, N.C., whose subject will be "Tomorrow's America."

Among special features of the 4-H Congress program will be a chartered bus tour into Mexico to view agricultural facilities near Matamoros, educational tours to study the shrimp industry and a boat manufacturing firm near Brownsville, a tour of historic homes which will help depict the early history and culture of the area, and a trip to the Gladys Porter Zoo of Brownsville, a source zoo for restocking other zoos around the country, explains Dr. Warren S. Mauk of College Station, Extension 4-H specialist.

Seminars dealing with such international issues as trade, and in particular the interrelationship of the U.S. and Mexico in getting merchandise and produce from one country to another, will be among other features of 4-H Congress.

A simulated sea-air rescue program on South Padre Island, with the U.S. Coast Guard coordinating the project, is planned as another program segment of 4-H Congress.

Besides assistance from 4-H Council members in helping stage the Congress program, several key leaders of the Texas 4-H Adult Leaders Association also will assist. Scheduled to take part are Mrs. Sandy Wille of Kingsbury, Association president, and Mrs. Morlene Davis of Freer, treasurer.

## Sudan News

by Evelyn Ritchie

The second annual Tri-city baseball tournament will be held in Amherst July 5, 6 and 7th with the hometown defending Tri-city Champion Dodgers playing their first game of the series on July 6th.

Teams from Amherst and Earth will be on hand to try to dethrone the Dodgers, who ended regular season play last week undefeated.

Everyone is encouraged to take the time to drive to Amherst and fill the stands to support this super championship team.

This is the same group of boys who won the Nationals in Little Dribblers.

The Sudan Dodger baseball machine cranked out win number six in Amherst on June 21 against the Amherst Cubs by a score of 25-1.

The winning Dodger pitcher was Jarod Bellar who held the Cub offense to one run on one hit.

Sticking the ball for the Dodgers were Bryan Baker at 2 for 4; Kyle Maxfield at 2 for 4; Gary Boyles 2 for 4; Tray Baker 3 for 4; and Jay Harrison at 2 for 4 with one homerun.

MR. AND MRS. ED JOHNSON

## Golden Anniversary Reception Honors Mr. And Mrs. Johnson

Mr. and Mrs. Ed Johnson were honored with a golden anniversary reception Saturday, June 30 from 2 until 4 p.m. in the Bailey County Coliseum, hosted by nieces, Nona Faye Precure of Lazbuddie and Margaret Ann Edwards of Merritt Island, Florida. Guests were registered by Donna Precure Rose of Lubbock, niece. After registering, guests were received by the honorees, Mr. and Mrs. Johnson, and several nieces and nephews. Mr. and Mrs. John Smith, June Wagon, Joe Mack Wagon and Mrs. Lou David also assisted in greeting the guests.

The main serving table was covered with a bronze floor length chifon cloth centered with a four tiered anniversary cake decorated in a yellow-bronze-ivory motif of flowers. An antique brass lamp given to Mrs. Johnson by Johnson graced the table with soft bronze lighting.

Mrs. June Wagon and Mrs. Joe Mack Wagon of Muleshoe served the cake and punch was served from the main table by Mrs. Bonnie Brooks Dunna-hoo of Albuquerque, N.M.

Melon, fresh fruits and cheeses were served from a table covered in ivory tuckled lace centered with a brass candelabra with ivory tapers. Mrs. Jack Lenderson and Mrs. Ross Goodwin of Muleshoe served the guests from this table.

The vegetable-con d i m e n t table was draped with an ivory tuckled lace floor length cloth and guests were served from this table by Miss Billye (Littleone) Jones of Muleshoe. Anniversary cards and remembrances were displayed on a bulletin board and lace cloth covered table near the guests

registration table. Approximately 150 guests attended.

Relatives and close friends from out of town included: Mrs. Henry Morgan, Mr. and Mrs. Bill Yates, Mr. and Mrs. Tom Yates, all of Los Lunas, N.M.; Mr. and Mrs. Stanley Collum, Mr. and Mrs. Elmer Sumrule of Lovington, N.M.; Mrs. Katherine Collum and members of her family of Brownfield.

Also Mr. and Mrs. Ralph Messenger and daughter, Melissa of Hobbs, N.M.; Mr. and Mrs. Ross Smith of Dallas; Mr. and Mrs. Frances Rose of Lubbock; and Mr. and Mrs. Laurance Widener of Bovina.

Johnson came to Bailey County in 1924, and he and the former Blanche Collum were married on June 29, 1934, in Raton, N.M. At that time Mrs. Johnson was teaching school in Tatum and continued teaching there until 1938, when the couple moved to Muleshoe. Mrs. Johnson continued her

career as a teacher and librarian in the Muleshoe school system until her retirement in 1966.

Johnson was a cotton buyer and farmer and retired from farming in 1946.

## Small Businesses

Much is constantly heard about big business in the U.S. But for every giant corporation there are hundreds of small businesses. They, not the giants, are the heart of the nation.

They're also its lifeblood. According to the Small Business Administration, small businesses employ about 50 million Americans, half the nation's work force. Some of the rest of the work force is in farming or in family businesses.

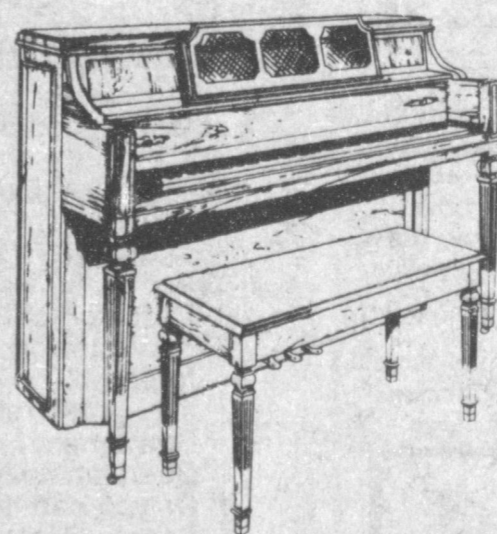

The SBA says small business, not big business, has invented most of society's innovative products and processes.

In the recent economic recovery, it was small business, not big business, which led the way. In the years 1981 and 1982, the total number of new jobs created was about 945,000. SBA says small business created all of them!

In addition, small business provides job opportunities for the young, elderly and unskilled--who often can not initially land jobs with large corporations.

Of the 14,000,000 non-farm businesses in the U.S., 13,000,000 are small businesses employing 100 people or less, often only a few.

### WTSU Schedules

#### Free Enterprise

#### Graduate Course

Dr. Roy E. Thoman, director of the College of Education at West Texas State University has received a grant from the Texas Bureau for Economic Understanding to conduct a special program on the free enterprise system.

A six-hour graduate level program, it has been designed mainly for social studies teachers, who can apply for one of the approximately 30 scholarships to be awarded.

Dr. Thomas commented "Those receiving scholarships will be able to enroll for six graduate credit hours, with the scholarships providing free tuition, fees, books, and in some cases, free university housing."

Deadline for making application will be July 10, and although the entire six hour course is recommended, some three hour courses will be awarded.

Those approved for the six hour scholarships need to send a \$25 registration fee, and those who are awarded the three hour course will need to send a \$15 registration fee, explained Dr. Thoman.

Beginning on July 13, the program will end August 7.

"American Government and the Free Enterprise System" and "Political Systems and Capitalism" will be offered in the afternoon, with the former program beginning around 12:30 p.m. The courses will be offered on an accelerating basis, with the entire program lasting only about three and a half weeks.

"I sincerely believe that you will enjoy this opportunity to learn about the interaction between government and the free enterprise system in a relaxed, friendly, and professional seminar atmosphere," concluded the WT director.

Government will cost more money as long as people demand more services, free of charge.

## Experiment Station Helps With Trees, Lawns

Whether gazing at a tree or watering the yard, urban dwellers rarely consider this type of agriculture as being related to the work of the Texas Agricultural Experiment Station in Lubbock. Urban contributions have been made by the station for 75 years and now offer several benefits for the home owner.

"Everything you look at that's growing higher than a weed, that is trees, shrubs and planted flowers, is based on the work we did at the station, said Frank Gaines, plant breeder for 50 years at the Lubbock research center.

In cooperation with the Texas Forest Service and the State Forester, the Lubbock station began work on a forest nursery project in 1917. Scientists began experimenting with trees for shade and ornamental purposes in response to the interest and demand for information of suitable plants to grow in the

"afford" to be away from work for 30 days to serve jail sentences, the suit contends. After some discussion between the judge and a police officer on whether St. Clair's case should have been filed as driving while intoxicated, the couple pleaded guilty and paid fines of \$150 for St. Clair and \$100 for Miss Puckett, according to the suit.

"The plaintiffs allege that the judge then told police officer Tom Watson she would not take any more cases such as that one and that they should be filed on driving while intoxicated.

"The plaintiffs contend they were falsely arrested because there was no probable cause and illegally imprisoned. The suit seeks \$10,000 in actual damages and \$10,000 in punitive damages for each plaintiff."

Officer Watson, who arraigned the couple before Judge Huckaby the next morning, is not a party in the lawsuit.

The Lubbock paper did not indicate any trial date on the suit, and City Attorney Mike Caldwell will be defending the city, and the officers, involved in the suit.

Project leaders included R.E. Karper, station superintendent 1915-1925, Don L. Jones, station superintendent 1925-1957, and Gaines. "We developed, identified and introduced trees, shrubs and ornamentals suitable for the area," Gaines said.

After experimenting with thousands of trees grown from seed at the station, the Chinese elm and the Arizona cypress proved to be the best suited.

Introduced in 1919, the Chinese elm provided shade, windbreak and ornamentation. In 1920, 8,000 trees were distributed by the research center to 24 high plains counties by 1938, 86,000 trees were distributed. The station furnished trees to line Broadway Avenue

31, 1983, the deficit amount is \$8.9 million in gross revenue over cost of service to domestic and commercial type customers.

To domestic customers, the proposed rate increase would average 35.8 cents per thousand cubic feet (Mcf), which would increase the price per Mcf from \$4.62 to \$4.98, based on an average annual use of 98 Mcf and March 1984 gas cost of \$3.13 per Mcf.

The last rate case filed by Energas for the West Texas City Plant System was in 1981 and the subsequent increase became effective for bills rendered on and after December 15, 1981, he added.

Customers affected by the increase include single and multi-family dwellings, retail and service establishments, public authorities such as schools and health facilities and all other customers who are not on larger volume interruptible service contracts with the company.

Customer classes not affected by the proposed rate increase would be industrial and large air conditioning classifications.

Governing bodies of the 63 cities and towns in the West Texas City Plant System will be provided with additional information from Energas as supportive documentation for the company's rate increase request, he noted.

in Lubbock, for planting on the Texas Technological College campus and 500 trees were given to the Boy Scout Camp at Post.

Windbreak planting plans to position trees for maximum protection of orchards and fields were also furnished to farmers and home owners by the station.

Of the evergreens, the Arizona cypress was found to be the most suitable for the area. This tree has been ideal for specimen planting, tall back-groves and windbreaks.

Farmers and urban dwellers benefited from the forest nursery project as the trees served for both windbreak and ornamental purposes. Although discontinued in 1938, the project was responsible for transforming a treeless urban area into the pleasant landscape of today.

A grove in Mackenzie State Park, inside the City of Lubbock, bears the name of "Karper's Grove" in appreciation of the Experiment Station's work on trees and shrubbery under Karper's supervision.

Today, the Texas Forest Service conducts research and a windbreak nursery at the Texas A&M Agricultural Research and Extension Center in Lubbock and Halfway.

Current urban contributions made by the station have resulted from lawn water studies and grass variety research. Initiated in June 1981, the Urban Water Conservation research has offered home owners information on lawn sprinkler use and efficiency, and the effects of growth regulators and select-

ed fertilizer treatments. The evaluation of the performance of lawn sprinklers has given the urban dweller the techniques to conserve municipal water supplies.

Urban water conservation and turfgrass management research are continuing and offer many benefits to the home owner. "People in this location and climate should irrigate their lawns for long periods of time," said Dr. Charles W. Wendt, professor of soil and water at the station.

Studies have found that lawns should be irrigated between midnight and 3 a.m. to receive the most efficient use of applied water. "When putting in a new system, people should get the most water efficient grass and consider the differences in irrigation systems," Wendt said.

## EATING OUT

By Rose Hughes  
PIES seem to be more a man's favorite, while women seem to go in for cake. But everyone eats pie from time to time.

PIES are rich, some richer than others. Fruit pies are, to many, the best of pies. Apple pie is the all-American favorite, and with ice cream (a la mode), it's usually dependable.

ASK your waiter if the pies are homemade. That is usually a good reason to try them. But sometimes, in bigger cities where there are special pastry bakeries, the pies from a specialty house will be superb.

PECAN pie is a southern favorite, best from October into spring, when the fall crop of nuts is still fresh. If it is mostly a jelly-like goo, beneath a few pecans, avoid it.

A good one should be thickly covered with nuts, and have a caramel color, and the goo needn't be over half an inch thick, and not jelly-like. Key Lime pie is a favorite in Florida. It's made from the native Key lime, and is a good choice in hot weather.

BLACKBERRY pie is almost royal--if made right. It will stain your teeth a bit but is worth it. As with all pies, the crust should be crisp. And in many cases this is hard to accomplish with fruit pies.

MINCEMEAT pie, a Thanksgiving special, is one of the best. Lemon meringue pie is a fine choice for summer. Rare, but wonderful, is raspberry pie. If you find it, try it.

Tried businessmen might try resting.

Money should not be the end sought in life.

Regular exercise is the secret of old age.
