AMERICAN LEGION NEWS

For the benefit of those who were unable to attend the meeting last Tuesday, they missed something, there was more of the finest Chili and coffee than we could eat, but we thought about you.

Among other things I found in the Adjutants desk a folder enumerating the Facts why you should join the American Legion: Your membership card represents you and your interest in a Hundred Million Dollar Corporation, a stockholder if you please with Three Million members in 17,000 Local Posts located now practically all over the world where and wherein the interests of those who have honorably served in the armed forces defending the Principles of Freedom, Equity, Justice and Right: Coming together was the Beginning; Staying together was Progress; and, working together is a promise of Success. Notwithstanding; the trite saying that "Competition is the Life of Business" The foundation supporting and sustaining our most cherished and worthwhile affairs and conditions, if you will carefully note, that Cooperation appears in and under them all; and, if we can see it to our Individual interest and wish to protect and maintain these Ideals and worthwhile things we are going to have to get together, work together, and stay together with a lot of Cooperative effort on the part of each and every Individual; surely among all our organizations, Civic, Religious, Fraternal, Political or what have you, we can find a Leader who knows and can guide us and our efforts through the competitive and conflicting conditions, restore hope and confidence in that our Ideals are founded upon the Principle of Equity, Justice and Right. Think it over, then try it.—F.E.C., Publicity.

Clarendon To Be Represented At Southwestern Exposition And Fat Stock Show

Clarendon will be represented at the Southwestern Exposition and Fat Stock Show in Fort Worth, Jan. 26 through Feb. 4.

A record-breaking number of livestock will be displayed from 30 states, Canada and Cuba.

Clarendon entries are E. S. Ballew, 24 swine, and J. R. Gillham, two dairy cows in the Boys' Livestock Show and eight dairy cows in the Dairy Cattle Division.

The Fort Worth exposition is offering the largest amount of premiums in the 55 years' history of the Southwest's oldest and greatest stock-show — \$146,000 (including the rodeo and horse show).

The world's greatest indoor rodeo will be presented in magnificent Will Rogers Memorial Coliseum, with Verne Elliott, "Mr. Rodeo" himself, as the producer. Some 375 cowboys, the top competitors of the rodeo world, will contest for the championship honors and the rich rewards—approximately \$50,000. A new feature will be the wild horse race, which is truly rugged. Interspersed with the rodeo contests will be the horse show events with nearly \$25,000 in prizes to Quarter horses, cutting horses, Palominos and gaited horses. Skeeter, 1950 world's champion cutting horse, will compete in the open event. Especially acts and new clowns will appear.

The Southwestern Championship Square Dance Contest, which drew packed houses a year ago, again will be presented each afternoon.

Millions of dollars worth of the finest beef and dairy cattle, sheep and swine will be shown. The poultry, turkeys and rabbits will be housed in the new poultry building. Quarters for carload-an-pen division of bulls have been doubled and other improvements have been made, such as glassing in the archways connecting the livestock buildings. The Stock Show is not subject to the weather as it is all indoors—17 buildings, 32 acres under roof.

The boys' livestock show, Midway, commercial exhibits, numerous bands and "days" honoring cities and civic organizations will make the 1951 show the most educational and the most entertaining yet. And indications point to a new high in attendance.

### Teenager Gets Appetite Back; Thanks Hadacol

HADACOL Supplies Vitamins B, B<sub>12</sub>, Nicotin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel, but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B, B<sub>12</sub>, Nicotin and Iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 10 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."

There was a general discussion of the resolutions that were drawn up at the State Farm Bureau Convention, and other problems of great importance were brought to our attention.

There was a man from Plainview, that gave us a brief summary, on rural telephones. He reminded us, that thirty five or forty years ago we had better telephone service in the rural area than we do at the present time. Is that Progress? and went on to explain their procedure in getting some action on a rural telephone program.

It is an evident fact that the Southwestern Bell Telephone Co. in that area is trying hard to get their share of lines in that thickly populated area now. We read all of the time what wonderful progress and what good service the telephone companies are giving in the towns and cities, but they are certainly back sliding as far as the rural areas are concerned.

I suppose we will have to do as others have done that are getting phone service. There are a few telephones in the rural areas that are as good as the phones in town. We need them as bad if not worse than they are needed in town. They would save us many miles a year, besides the time lost in running to and from town, when a call would be sufficient.

We can have rural telephones if we will all put forth a little effort and some money that would pay us a great dividend.

We are going to have to Fight for Our Gasoline Tax refund again this year. The delegates were asked to be in readiness again to come to Austin, when the amendment comes before the House. The point was stressed that the greater the number that goes to Austin, to protest the amendment, the more influential

our organization will be in its future attempts at encouraging or protesting a Bill which ever the case might be.

In a conference with the State Commissioner of Agriculture, our Legislative Committee learned, that the Department of Agriculture is in a critical situation. There is one man available to cover the entire state, in making milk and cream tests; there are only four men in weights and measures, to cover the State. The committee strongly recommended an all out effort to co-operate with the Commissioner in revising and revitalizing this department so vital to Texas Agriculture.

I hesitate to state just what is to be done in connection with the rural roads program, but there is a resolution to levy a state tax upon our natural resources for that purpose, and after considerable discussion was placed in the hands of the committee to rewrite, relative to the decision of the delegates.

A resolution was adopted, to prohibit Cottonseed from being brought into Texas from Mexico, in order to protect our State from any greater infestation of the Pink Boll Worm.

Mr. Rodger Flemming, Sec. Treas. of the National Farm Bureau Federation, was the speaker at the banquet. Mr. Flemming gave us a summary of the general attitude of Washington in regard to the International situation.

Only Uncle Joe knows whether we are going to have a World War Three or not. Any time he thinks he has the upper hand, will be the time to strike. He is trying everything he can think of to persuade us to make the Declaration. For every day that we can prolong it, and continuously increase our mobilization efforts

the less likely it is to happen. Is Farm Bureau Growing? There were about as many attended the meeting of the County Legislative Committee, at Waco, Thursday, Jan. 18th, as attended the State Convention, only seven years or so back. I heard this remark more than once while I was there.

Those who went from here were J. L. Butler, Lee Shaller, and Orville Shaller of Amarillo. Lee Shaller, President Donley County Farm Bureau

### Gabe Betts Burton Library Notes

By May L. Prewitt

The boys have the following list of westerns for this week: "The Untamed" by Max Brand, "The Stirrup Boss" by Peter Dawson, "Doom Rock" by Archie Jocelyn, "The New Cowhand" by John Sims, "The Dr. at Coffin Gap" by Les Savage Jr.

Fr the adult readers we have

"The Left Hand of God," by William E. Barrett. This novel is a stirring, inspirational tale of sweeping adventure, and daring concept, an exciting story of thrilling action in China, and of strange doors which open when a man seeks God. An American ex-flier, Jim Carmody, because of a personal tragedy, returned to China at the end of the war. After crashing in a remote, inaccessible province, and throwing in his lot with the local bandit chief,

he grew dissatisfied with his unsavory existence and snatched the opportunity to escape by impersonating a Catholic priest. The entire book is clean, enjoyable, and well written. Another we have is "Blaze of Glory" by Agatha Young. It is a Doubleday One Dollar Book Club edition, and just fair entertainment. The readers may enjoy it, as her "Light In the Sky" was popular with several.

There has been so many calls for "The Harvester" by Gene Stratton Porter, that a copy has been purchased. "Vicki Finds the

Answer" by Helen Wells completes our adventure stories of Vicki Barr. "The Tell Tale Scar" by Fran Striker has been added to the The Tom Quest adventure series.

While these purchases are not sufficient in number to appease the reading appetites of all our readers they will eventually make the rounds.

## Basketball News

By WILSON  
Wellington Skyrocks  
-vs-  
Clarendon Bronchettes

The Clarendon girls started their game off with a bang Thursday by upsetting the Wellington girls with a score of 31-23. The starting line-up for Clarendon was Phillips, Polk, and Heathington as forwards, and Hall, Tims and Hill as guards. Polk started the long scoring for Clarendon with a field goal, then followed up with a free shot. Phillips took her turn at scoring with a free shot. Vada Cook of Wellington then made a free shot. Polk started the scoring again for Clarendon with a turn shot. Heathington sunk a

free shot as the whistle sounded, ending the first quarter with the score at 8 to 7 in Wellington's favor. Polk started the quarter with a crib shot. Phillips sunk another crib shot to follow with a free shot to tie the ball game. The score at the half was 15-15 with both teams playing wonderful ball. Bonita Polk started the third quarter by ending the tie with a hook shot. Phillips made a crib shot. In the third quarter, Clarendon seemed to be hitting the basket with unerring accuracy. The Wellington girls were playing good ball, but just couldn't stop Clarendon's stellar forwards. The score at the end of the third quarter was 28-18. Phillips sunk a free shot before fouling off in the fourth quarter. Bownds, taking Phillip's place, sunk a free throw. Tims also fouled off in the fourth quarter after playing a wonderful game of ball. When the final whistle sounded, Clarendon led 31-23. Bonita Polk was high point girl with 15 points. Venita Phillips followed close behind with 12 points. Joyce Hall acted as captain for the game. Both Heathington and Lane received medals for outstanding playing. Congratulations to both of you! Keep the good work up. Phillips was injured in the fourth quarter in the game with Dumas. The team wishes her a speedy recovery.

From where I sit... by Joe Marsh  
Right Under Our Nose!

Sometime back, we got word from the Governor, asking if we wanted to use the State Fire Inspection Team—a group of experts they send around to communities to inspect public buildings. We sent a letter saying: "Okay! Give us the once-over!" They came down, all right—last week. After the inspection, we got their report. Came out pretty well, all told. Town Hall and the School were O.K. Post Office just needed more sandbuckets. In fact, everything got a clean bill of health, except—the Fire Station!

From where I sit, we volunteer firemen had just been too blamed busy keeping everyone else on the ball—and not realizing our own firehouse was not up to snuff. Like the man who worries so much about his neighbors—about whether they work hard enough, about whether they can really afford their new car, about their enjoying a temperate glass of beer—that he forgets to take a good critical look at himself now and then.

 tory over the Bluebirds.  
 Peeples made two points for Quail after only a few seconds. Monk then sank a beautiful long shot to tie up the game. Lelia Lake then made ten points before Quail scored again. At the end of the first quarter it was twelve to two, Lelia Lake.  
 In the second quarter Wilkinson sank one from far out for Lelia Lake's only points for the second quarter, while Quail made nine points. At the end of the first half it was fourteen to eleven, Lelia Lake still in the lead.  
 In the third quarter Quail gradually pulled up and at the end of it was only two points behind. In the fourth quarter Quail went on the rampage and quickly pulled four points ahead. Lelia Lake, however, struck back and went into the lead by two points. Lelia Lake was attempting to stall the ball when Kenneth Wilkinson was called charging. Quail decided to take the ball outside rather than shoot, and tied the game with only a few seconds remaining. The clock ran out before the Bluebirds could

get it on their end of the court. The game ended 29 to 29.  
 In the first overtime period each team made two points and it ended 31 to 31. In the second overtime period Quail gained possession of the center jump and scored. Lelia Lake was unable to score so the game ended 33 to 31.  
 Neely was high point man for Quail with nine points while Wilkinson was high for Lelia Lake with sixteen.

**BLOWIN' Out the CORNERS**  
*By Uncle Zeb*  
 Ad in a Georgia paper:  
 Man and wife want job on a farm; wife is good tending chickens and can milk. Both Baptists.  
 A certain columnist ran out of something original to put in so he ran the Ten Commandments; the

next day the paper got a letter; "Cancel my subscription, you're getting too personal."  
 A lot of folks won't want overtime when they collect the wages of sin.

Another of my uncles sent me this story: "Two Jews were discussing Hell; one said there was no such place. I know there must be said the other; if not where did all the business go?"

One of the most unusual men that I have ever seen is R. G. LeTourneau who spoke in Amarillo last week. He is the millionaire who gives 98% of his income to Christian work. You sit spellbound as he testifies for his Lord. He is not a preacher. Anyway, he says that the statement that you can't take it with you is true; but hat you can send it on ahead and have it waiting for you.

I clipped the following little joke from a little magazine called NOW that he passed out free. Two men were arrested and brought into court; one was a Scotchman and the other a Jew. They were supposed to be drunk. Anyway, the Scotchman was throwing away five dollar bills and the Jew was picking them up and giving them back to him. (Uncle Bob please note)

Found another reader for my column; the linotype operator; he has to.

Another clip from NOW:  
 We get our good judgment from our experience; we get our experience from our bad judgment.

Dr. Criswell in his talk the

other night in Amarillo emphasized the fact that we as a nation had trusted in just about everything except God in our search for a solution to our fear and insecurity. We had fought two and over World wars thinking each time that this would be it. We had signed pact after pact to find them no good. Been members of the United Nations and built large carriers and even the Atomic bomb thinking that this would be it. We had fought with just about everybody in the world and against just about everyone of these same folks. Anyway, he used this little story to illustrate his point. A boy was wearing a pin with the letters BAIK on it and someone asked him what the letters stood for and he replied: "They stand for Boy Am I Konfused." "Why Son," said the man, "You don't spell confused with a K." Said the boy, "Brother, you don't know how Konfused I am" - - - And ain't it just the truth.

We look at the confusion in Washington and it is no small wonder we are confused. But I still maintain that the people; the man on the street has a better conception of values than that displayed in many cases by our leaders lately. We look at the Democratic party as it is in office and see how insipid the wishes of the people they play party politics until it is a disgrace to our forefathers. The will of the people means less and less to a man whose life blood runs in party politics. I think our great mistakes comes from the loss of a great two party system. We need to have them alternate once in awhile in order to get the cobwebs swept out of the corners. But we are going to have to suffer a lot before we are going to

go back to this system. Both parties are going to have to do a lot of getting right before we lose our confusion and lack of faith. The Republican Party, or some opposition party was needed to step in and take over for awhile, but they couldn't. They were too weak, and too full of jealousy and criticism. Instead of coming up with something good and constructive they sat in the corner and complained and criticised and did nothing. Many a time they would almost have an election won, as in the case of our congressman this year; then they would start dealing in personal-

ties and mud-slinging and bingo their chances were gone. No, we can't put the blame for the loss of our two party system entirely on either party. The sin of omission is as bad as the sin of commission. Let's all join together in a search for the thing that is right - - right in the sight of both God and man; pray about it and work for it. In the end the thing that is right will last and win.

Better not tell a restaurant man you're hungry enough to eat a horse. You're liable to eat just that.

**ALL-STAR LINE-UP FOR '51!**

**NOW ON DISPLAY**

Standard equipment, accessories and trim illustrated are subject to change without notice.

Your first eye-smacking look at the line of lovelies pictured here tells you that they've got what it takes in visual charm.

But the fellow who said a picture speaks louder than a thousand words wasn't talking about these superbly able 1951 Buicks.

Sure, they're smart to look at—smart in style and smart in dress.

But they're also smartly powered—smartly engineered—smartly priced. And it would take a book to describe in full their deep-down goodness.

What's been done for '51 is to take the best automobiles that ever bore the Buick name—and top them.

Come, look them over, and you'll see what we mean.

There's the SPECIAL which can accurately be titled "the newest car in the world"—new in structure, new in power, new in dimensions, new in thrift—and potent in price appeal.

There's the SUPER—that looks and is a smart new edition of its "best seller" forebear.

Then there's the ROADMASTER—that coddles your anatomy on luxurious new fabrics and cloud-soft cushions—pampers your pride with its lordly bearing—shoots a delicious tingle right up your spine by

the exuberance of its power and action.

We could go on and on. This is the car that "breathes through its nose." This is the car that sports a brand-new front-end styling. This is the car with new high-visibility instrument dials, more easily read at night. This is the car with glare-and-heat-reducing glass and a host of other news-making features you can't afford to miss.

So your No. 1 date this week end is with your Buick dealer. It won't take you long to conclude that he's offering the smartest buys of the year.
