

**RED CROSS  
VOLUNTEER SERVICE**

**KNITTING**  
Yarn for helmets was issued this week to: Mesdames Sella Gentry, W. J. Clifford, A. B. Turner, D. W. Wadsworth, Crockett Taylor, J. W. Evans, Frank Mc-

Clure, Joe Kendall, A. J. Sibley, Ernest Kent, Frank Phelan, and Miss Lee Patton. Mrs. Ernest Kent, Mrs. A. J. Sibley and Mrs. Frank McClure are working on their sixth helmet and their energetic work is greatly appreciated. Those turning in completed helmets are: Mesdames Ernest Kent, Frank McClure, Joe Kendall, Crockett Taylor, W. A. Riney, A. J. Sibley, Marie Patter-

son, A. B. Turner, D. W. Wadsworth and Miss Lee Patton. Sweaters turned in this week were knitted by: Mesdames J. W. Evans, Joe McMurtry, Fontayne Elmore, Gerald Mann, Frank Phelan, Harry Ruddell, Mamie Lane, and Misses Edgar Mae Mongole, Annie Ree Porter, Ila Pool. Mufflers were knitted by: Mesdames R. A. Chamberlain, Homer Glascoe, A. L. Chase, J. N. Weav-

er, and Misses Betty John Goldston, Ila Pool. Completed wristlets were received from: Mesdames Crockett Taylor, C. E. Griggs and W. W. Taylor. Those who turned in squares are: Mesdames Roy Crutchfield, Alta Angle and Jane Wright. Mrs. James Trent has taken out fifty squares with which to start another afagan.

The only yarn now available is that for helmets, but the public is urged to come in and receive instruction and yarn.

The presence of Mrs. C. E. Griggs, an instructor who has moved to Dalhart, will be missed as she has been a very enthusiastic worker with the Red Cross. The Windy Valley women, Mrs. Harvey Shaw, Mrs. G. H. Parker and Mrs. J. R. Gillean turned in children dresses made from shirts. They also took out fifteen (15) blouses.

Mrs. Burton's Sunday school class turned in six (6) sheets, ten (10) pillow cases, and forty-eight (48) bandages. These articles are for the Emergency Chest.

Mrs. U. J. Boston, Chairman of the Cutting, has announced that all blouses have been cut and there are still more than one hundred (100) to be completed. The leaders of the different church societies are urged to come by during the first week in September and leave the number that they will be willing to take and complete.

**Labor Day Rodeo  
At Dalhart  
Sept. 6th**

DALHART, Sept. 3—Headlined with a \$2,000 match roping contest between two veteran arena performers, a Labor Day Rodeo program will be held in Dalhart Sunday afternoon, Sept. 6, at 2:00.

A bronc peeling match, Junior steer riding event and a contest roping open to cowboys in this tri-state area as well as to turtle association members will round out the day.

The match roping is between Pat Lewis, 27, of House, N. M., unbeaten in ten years, and J. C. King, 33, of Clayton, N. M. Each will rope and tie ten wild Mexican calves. The men were only seconds apart in a roping match at Clayton last year, when King rode into hard luck and missed his last calf.

**The Story Your  
Shoes Tell**

If Johnny tends to wear out shoes in a small round hole over the prominence of the ankle, it probably means that there is a tendency to flat feet. Because these holes indicate that he interferes and knocks his feet together at this point. This happens when he toes out as a result of weakness of the feet in beginning flat feet or weak feet.

High heeled shoes in women, which are worn on the inside of the heels and sole, and in which the heels tend to be bent outward, indicate that the wearer is harmed by high heels. High heels put quite a strain on the ankles and muscles of the calf (to say nothing of general posture). When the calf and ankle muscles are not strong enough to maintain the ankle line erect on top of the high heels, the heels tend to flare outward so that the lower legs and angles begin to resemble the letter X and, this wears out the inner side of the heel and sole.

The point where the sole wears out may indicate a possible weakening of the transverse arch of the feet, or possibly an enlargement of the bone or joint underneath. Wearing out of the extreme tip of the sole indicates a weakness or sometimes a paralysis of the leg muscles so that the toes are dragged. A shoe which wears out "normally," indicating a healthy foot, is one in which the heel wears out at the very back in the middle, or slightly to the outside, and the sole tends to wear out in the exact center of the ball of the foot.—The National Chiropractic Journal.

**A POEM TO MOTHER**

The following poem was handed to us by Mrs. P. H. Longan who received it from Alvis Meeks of Ft. Moultrie, S. C.

To us dear mother you are queen of May.

And in our hearts you will always stay.

We brought you sorrow and made you cry.

For the things we did in the years gone by.

We're soldiers now of the U.S.A.

We know you are proud and want it that way.

This war we are fighting is for you my dear,

So don't worry or ever fear.

We will slap those Japs and Axis powers

That you may live in this land of sunshine and flowers.

**Cotton Leaf Worms Not So Bad Now**

Reports from all parts of the county are that the cotton leaf worms are not as bad as in the past two weeks. The worms have "webbed up" and the next hatch will be the greatest danger to the crops now infested if the weather is favorable and the worms hatch out.

The fields poisoned by the dusting and spraying of calcium arsenate has produced results and the farmers claim a good kill on the worms.

Farmers reporting that the infestation is well under control after dusting is Heckle Stark, Frank Hardin, Lon Rundell, Frank Bourland, Charlie Hurn, Wes Sullivan and several others.

An order of 5,800 pounds of calcium arsenate was submitted, but the shipment only contained 2800 pounds due to the shortage of the poison in Texas. Reports from the state office indicate that more calcium arsenate might be obtained after the first of the month.

Persons noticing infestations of leaf worms in the cotton, should contact the county agent and he will try to obtain the poison for them.

**Aid To Dependent Children Program To Be Cut**

The new fiscal year, which begins for the state on September 1st, will bring sharp curtailment of the Aid to Dependent Children program, the State Department of Public Welfare predicted today. The constitutional amendment and the law authorizing aid to the state's dependent children limit the cost of the program to \$1,500,000 a year out of state funds. The federal government matches this with an equal sum. This makes available a total of \$3,000,000 in equal monthly installments of \$250,000. This means that in September the state will have only \$250,000 to pay grants which will total approximately \$430,500, causing a flat cut in each grant of \$10.

The Aid to Dependent Children program issued its first checks in September, 1941. In the early months of the program, while the rolls were small, not all of the monthly installment of \$250,000 was required and this money built up a reserve which enabled the state to pay out more than the monthly installment after the rolls developed an overload. In August, 19,226 families with 39,680 children received a total of \$394,004. Grants in September will probably call for distribution of \$430,000 to around 21,000 recipients—with only \$250,000 with which to pay the obligation. The average check in September is expected to drop to around \$11.50 as compared with an average of \$20.49 in August.

Maximum grants under the constitutional amendment and the state law are \$16 for a family with one child and \$24 for a family with two or more children. Under proration maximum checks will probably drop in September to \$6 for a family with one child and \$14 for larger families with still lower checks in prospect if eligibles are added to the rolls.

Mr. George B. Bagby  
Clarendon, Texas

Dear George:

You have rounded out fourteen years in the Life Insurance business, as our representative and co-worker, and this is our surprise way of saying WE'RE MIGHTY PROUD OF YOU.

You have been a friend and neighbor of the folks of Clarendon and Donley County for forty years. In the heat of the day, in the dark hours of the night...they've talked to you about their innermost problems and desires...about the welfare of their loved ones... and we know you have unselfishly aided them...you have made many hearts light...many dark days bright...many a burden easier for, countless scores of people. George, in all of our observation and experience, we have known no one who has done more to make people happy.

We know, too, you always have given your time and talent without thought of financial reward...even to the detriment of your own health. We have seen boys and girls grow up to become fine, useful citizens because you told their Dad about Life Insurance. Yes, George, you have met the widowed mother at the door...given her a check and seen Life Insurance step in and carry on. Throughout the years we have received many letters from your policyholders...all in praise, and not a single one of complaint.

We know you have nurtured the dreams of many young men and helped them realize their ambitions.

Then, too, George, we are proud that you and I are a part of a Texas institution; we have grown because of you and the confidence your friends and policyholders have had in us. We have tried hard to keep faith by employing Texas people...by paying Texas taxes...by investing money in Texas institutions...by lending money to build Texas industry...by building Texas homes...by helping to educate Texas children... Yes, by preserving and advancing the Heritage of Texas.

-2-

Now, in Our Country's Hour of Peril, United Fidelity is doing its part to reach beyond the borders of Texas and share in the preservation of Our American Way of Life. Every premium dollar is a triple-duty soldier in democracy's army. Those dollars are maintaining the security of our Texas homes; they are deposited in Texas banks where Texas people can use them in their farming, ranching and business activities; and now we are happy to buy United States War Bonds through your Clarendon bank. And, we'll buy more and more for our boys Over There.

Yes, George, we know you share the Hopes...the Fears...the Faith...and the Prayers of the people of Clarendon and West Texas; and we know, too, there's a Star Shining Bright for the limitless good that's within you.

Hats off to the past...coats off to the future...and may your fifteenth year and the years to follow be ever brighter, better and happier.

As always, our doors are wide open and our will is strong to serve you and your policyholders in every way possible.

Sincerely yours,

### GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

The Turner Nichols yard is a very attractive landscape, with its shrubs and bright colored flowers. Some very nice giant marigolds and other bright colored flowers are blossoming in the garden of R. T. Brown. The shrubs and lawn are also an asset to the grounds. The whole picture reminds one of an old colonial mansion.

The Fred Chamberlain home is especially noticeable with its ivy covered rustic rock fence, its giant maples, and its spacious lawn and vari-colored flowers.

There are a number of crepe myrtle shrubs in the city that are especially beautiful. The garden glancer's attention was called especially to those in the gardens of C. W. Taylor and C. B. Morris.

A hedge of marvelous beauty is produced by the pink Crepe Myrtle in the garden of M. P. Gentry. Some very lovely white lilies are beginning to show in the yard of George Ryan.

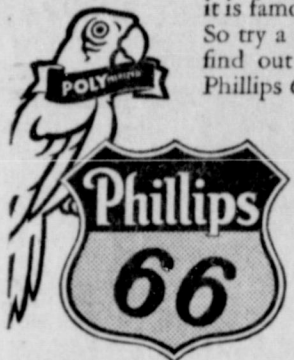

# "AIN'T WE EVER GOIN' RIDING ANYMORE?"

**Good Americans** have given up joy-riding for the duration. They realize that all-essential tires must be used only for vital transportation . . . for going to work . . . for necessary shopping . . . for getting to and from places where other forms of transportation are inadequate or non-existent.

Your car was a peacetime luxury; now it is a wartime necessity. The economic life of the country, and our victory effort, may depend on how long you make your tires last, on how well you take care of your car.

The Phillips 66 Service Man will gladly help you. He will inspect your tires for cuts and bruises, check air pressure, and criss-cross them with the spare every 3,000 miles. He will check your radiator, battery, and air filter. He will lubricate your car from tip to toe. Then, with Phillips 66 Poly Gas and Phillips 66 Motor Oil, your car and your money will both go farther.

You know that Phillips 66 Poly Gas is the favorite of millions of car owners, that it is famous for pep and mileage. So try a tankful for yourself and find out just how good today's Phillips 66 Poly Gas is.

**Phill-up with Phillips for Greater Mileage**

Misses Jessie Ingram, Eva Patching and Naomi Allison left Monday for Amarillo to be ready for teaching school.

## Scrap Metal Drive Covering County

Forrest Sawyer, chairman of the local salvage committee of the USDA War Board says that the county is being covered by the WPA with trucks furnished by the county in collecting scrap metal in a statement issued by county agent H. M. Breedlove of the Texas A&M College Extension Service.

"It is hard to estimate the amount of scrap metal that will be collected by the method now being used," Breedlove said, "but when the entire county has been covered the total amount of scrap metal collected will be published."

This method of sending trucks over the county is the sure method of getting all of the old scrap metal that the people want to get in to the central collecting plant.

The WPA collects and weighs the scrap metal for the people wanting to sell the iron and then the government sends them a check for the material.

All persons are urged to pile up the old iron so that when the trucks arrive they can load the iron in a quicker manner and proceed to the other houses.

### J. M. NOEL SERVICES ARE CONDUCTED AT McLEAN

McLEAN, Aug. 30 — Funeral services were held at the Methodist church this afternoon for J. M. Noel, 67, who died at an Amarillo hospital August 28.

Services were conducted by Rev. R. S. Watkins, assisted by Rev. Ed R. Wallace of Shamrock. Pallbearers were Wib Fowler, W. M. Bourland, C. M. Carpenter, D. C. Carpenter, Jess Kemp and C. C. Bogan.

Mr. Noel, who was a pioneer cattleman, moved to this community in 1897, moving to town in 1911. He leaves a widow, a son, James, a daughter, Mrs. Paul Kennedy, and a granddaughter, Monta Jean Kennedy, a brother, J. W. Noel of Hedley.

Burial was made in Hillcrest Cemetery under the direction of Womack Funeral Home.

## Surplus Wheat May Find Market As Hog Feed

Texas surplus wheat has a chance of probable market in the feeding of hogs, according to county agent H. M. Breedlove of the Texas A&M College Extension Service. This will give the farmers a chance to full feed the three and a quarter million hog crop. Farmers who have not had experience with feeding wheat may ask the value of wheat compared with corn or other grains.

"Wheat, like all other grains should be balanced with a protein supplement," Breedlove said. "It is deficient in vitamins A and D, and these must be made up by green grazing, or by the addition of alfalfa meal or hay to the ration. For best results wheat should not constitute the only grain feed. Hogs fed wheat alone are likely to go off feed and a good way to feed wheat is to mix equal parts with corn or grain sorghum."

"A good ration should be made up of these proportions: 40 pounds of ground wheat, 40 pounds of ground grain sorghum or corn, 4 pounds of cotton seed meal, 4 pounds of tankage and 5 pounds of alfalfa meal or say. If the hogs have access to green grazing, the alfalfa may be omitted. I believe that this ration will be of benefit to farmers wishing to feed wheat and will put the fat on the hogs."

Breedlove stated that this ration had been fed at the experiment stations over Texas and had been found to be very good for the fattening of hogs for the market.

### GOOD DOPE.

I've been given a lot of good things to eat in my time, but never a better watermelon than that given me by Devertie E. Leathers a few days ago. It was the first old-time sweet grade that I had seen since I used to swipe them out of patches at night when a kid more than fifteen years. Maybe longer. Thanks a lot, Mr. Leathers.

### NOSEY DOPE.

If you would find a good many faults, be on the lookout. If you want to find them in great gobs, be on the look-in.

### WORK DOPE.

Here is a postal from Mrs. Evie Simpson of 1311 North Polk street, Amarillo, wanting the address of some one who will need help to gather cotton. See her or write her about her ability to put hands in the field. She wants a job, and is not a broker.

### OLD DOPE.

"It was a 'wonderful wedding'. The girl was as sweet as any girl who ever lived, but modern. As she walked up the aisle on her father's arm, her lips tightly tilted at the corners with a happy smile, she was a picture of modest beauty. Her filmy wedding gown and gossamer veil floated around her fair blonde head like a halo. She was as nearly an angel as girls get to be in this world. At the altar as she passed from her father, the man she had always loved, to the other man to whom she would devote the rest of her life, her dainty slipper touched a potted lily resting on the floor and turned it over. Smiling again, she turned to the dear old pastor waiting at the chancel rail, and said, "That was a h— of a place to put a lily."

### COMMON DOPE.

Gently, he pushed her quivering shoulders back against the chair. She raised beseeching eyes in which faint hope and fear were struggling. From her parted lips the breath came in short, wenching gasps. Reassuringly, he smiled at her.

Buzzzz, went the dentist's drill.

### RETURN HOME

Mr. and Mrs. Paul Scott and son of California, who spent the week end here, were accompanied home Monday by Mrs. Dorothy Campbell. Mrs. Campbell has been here quite some time with her parents, Mr. and Mrs. F. A. White.

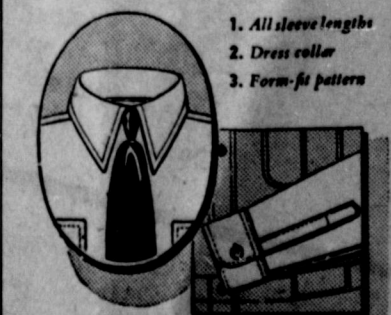

Dr. Laura Lowell is visiting relatives in Chicago.
