County Banks Show Near Eight Million On Deposit December 31st

According to financial statements of the two banks here in Clarendon and the one at Hedley, nearly eight million dollars was on deposit at the close of business December 31, 1959. This is a slight decrease from the all time high for the three banks at the close of business December 31, 1958. At that time the total deposits was \$7,822,500.27 and the total this year was \$7,781,372.75, a decrease of only \$41,127.52.

The loan figure for the three banks shows an increase of \$103,354.61 for the same period. At the close of business Dec. 31, 1958, total loans was \$3,307,172.57 and the 1959 total was \$3,410,527.18. This total loan increase was much less than the increase from 1957 to 1958 which was \$465,203.35.

8-10 Inch Snow Nets .70 Moisture

A white, fluffy snow which began falling during Monday night and continuing through Tuesday netted .70 inch moisture and left a cover of from 8 to 10 inches of snow over the area. Very little wind accompanied the snow and drifting was minimized.

Travel on all major roads was slowed down but snow plows kept the roads open. Some country roads were hard to negotiate and most people in the country remained at home. Schools here were closed Wednesday as bus routes were difficult and the majority of students are from the rural area.

The weather cleared during Tuesday night allowing the temperature to drop to a low of 2 degrees above zero. A warming trend is forecast until the week end when more precipitation is predicted.

1959 was an above average year for moisture in Donley County with the final total being 30.67 inches. With the .70 inch Tuesday, this gives us a good start for 1960.

SCHOOL CENSUS NOW BEING TAKEN

Principal K. D. Vaughan is asking for full cooperation of parents in completing the annual school census which must be completed before February 1, 1960.

Parents are requested to report all children in this school district that will be six on or before September 1, 1960. You may contact either Mr. Vaughan or Stina Cain at the Jr. High School.

It is very important that parents of youngsters that will be entering school for the first time to make this census report as the basis for state money to operate the schools is based on students listed in the census report.

If Senator Lyndon B. Johnson decides to run in the 1960 Presidential Derby, he has a horse for the purpose. This four-year-old quarter horse was presented to the Senator by Tarrant County supporters at a recent appreciation dinner. Senator Johnson lifts his western-style hat in responsive appreciation.

Bulldogs Meet Frank Phillips Here Saturday Night

The Bulldogs of Clarendon Junior College will open West Zone Conference play here Saturday night against the always tough Frank Phillips Plainsmen of Borger. The Plainsmen are coached this year by former Bulldog coach, Don Loyd, and are expected to field their usual high scoring type of team. Their record at this date is unknown. They are led again this year by their high scoring, former all-state player, Warren Tipton.

The Bulldogs will take an 8-4 record into the game. Their losses have been to Pratt and Hutchinson, Kansas, and to San Angelo and Amarillo in the Howard County Tournament. The wonderful Howard County Jaycocks, coached by another ex-Bulldog coach, Buddy Travis, have been established as the favorite to win the conference title. The Amarillo Badgers have been ranked second with Frank Phillips, Odesa and Clarendon slated to battle for third place.

Coach Roy Young has indicated that he will probably go along with his regular starting lineup for the Frank Phillips game which has Alva Carter at center, H. D. Yarbrough and Felix Johnson at forwards and Oscar Bronniman and Bobby Lesley at guards.

High School Teams Meet Silverton Here Friday Night

The Clarendon High School boys and girls basketball teams will meet Silverton here Friday night. The first game will get started at seven o'clock. The local boys hope for revenge against the Silverton team. The Bronchos lost to the Owls at Silverton early in the season by a score of 46 to 38. The local girls won an overtime game at Silverton.

Both the Bronchos and the Bronchoettes were eliminated in the second round of the North Plains Tournament at Claude last week. The boys defeated Groom in the opening game and lost to Gruver in the second game. The girls beat Groom in the first game but lost to Friona in the second round.

The local teams will play their second District 2-A conference game at McLean on Saturday night of this week. The game was regularly scheduled for Tuesday night but was postponed and rescheduled because of the heavy snow on Tuesday. The Clarendon boys and girls both have 1-0 records in conference play. They defeated Lefors in their only conference game to date.

The Bronchos and Bronchoettes will play Wellington here next Tuesday night.

SHOP PLENTIFUL FOODS LIST IN 1960

College Station — "I resolve to eat better and more economically in 1960." That could well be the No. 1 New Year's resolution for every Texas homemaker. It makes sense.

How? Here's an idea that will help: Follow the U.S. Department of Agriculture's monthly list of plentiful foods, suggests the Texas Agricultural Extension Service.

Lower prices usually accompany in-season and abundant food supplies. Wider selection for quality also enters the picture. And when crops are large, quality usually runs higher.

USDA's monthly list is determined by the Agricultural Marketing Service on the basis of expected availability. When the supply of any farm-produced food exceeds normal trade needs, that food is eligible for listing. Newspapers, radio stations and the food trade, in general, then cooperate with growers and the USDA in nationwide promotion. Special prices often accompany these efforts.

Start with January: Look for an abundance of eggs. Supplies are increasing, seasonally. Eggs, especially the larger sizes, right now, return a lot of nutrition compared to cost.

Plenty of apples, oranges, raisins and cranberries also are in prospect. Vegetable bins will be loaded with sweetpotatoes, onions and Irish potatoes. Lamb is the only meat on the January list. Then, there'll be an abundance of rice, for economy dishes, and vegetable fats and oils, for salad dressings and all cooking.

That's the 11-item list that can help you hold down the cost of feeding your family in January. Keep them in mind all through the month. Serve them often.

ANNUAL VISIT

Mr. and Mrs. Ben Tanner of Gustine, Calif., and Mrs. W. P. Howard of Amarillo, all former residents, visited the past week with friends and relatives in Oklahoma, Lelia Lake and Clarendon. We look forward to Mr. Tanner's annual visit as he always drops by the Leader office with a big bag of English walnuts which he grows in California. He reported the crop short this year due to an early freeze the previous fall.

FARM NEWS

from the County ASC Committee

31,916 Acres To Be In Soil Bank
About 31,916 acres of Donley County cropland will be held out of production in 1960 under Conservation Reserve contracts, according to a year-end report on Soil Bank activity by Mr. Cooke, of the Donley County Agricultural Stabilization and Conservation office.

Land in the Conservation Reserve is held out of production to help ease the farm surplus situation and is kept in conservation uses to meet future needs.

About 31,916 Donley County acres are already out of production under this program, and approximately 3,095 more are expected to be added in 1960 as a result of the sign-up last fall, Mr. Cooke said.

Whole farms (farms on which all the cropland is out of production) account for about 10,086 acres of the total amount of cropland under contract in the county in 1959. A farmer who places all his cropland in the Conservation Reserve may continue to live on the farm, maintain a home garden, and use the permanent pasture and orchard land. Whole farm contracts, Mr. Cooke pointed out, remove the entire production potential of the farm and leave no land for more intensive farming.

The Conservation Reserve is a program under which farmers voluntarily sign the contracts with the Federal Government to retire excess cropland from production. The government makes an annual rental payment for the land and pays part of the cost of establishing the conservation use. About 5 per cent of the nation's total cropland is now reserved under this program.

Listing Cotton Land Only—1960
Listing cotton land only was approved for 1960. This is to be done by February 15th and reported not later than March 1st. All 1959 work and concurrent work will need to be reported on or before January 15th. This will be work completed by December 31st.

Social Security Reminder
Every farmer with net earnings of \$400 or more is required to file a federal income tax return and report his earnings for social security credit even if no income tax is due.

Self-employed farmers may report their earnings and pay the social security tax if their gross income from farming is as much as \$600 in a year. Benefit payments to the farmer and his family are figured from the amount of earnings he reports. If he fails to report or reports incorrectly, the amount of monthly benefit payments may be affected later on.

FORMER COUNTY JUDGE REPAYS COUNTY IN FULL

County Judge R. E. Drennan was in receipt of a check January 1st in the amount of \$1,965.27 from former Judge Jack E. Gray which completes full payment to the county for excess fees totaling \$2,965.27 which Gray received prior to his resignation March 1, 1958.

This amount was ruled in excess of the amount Gray was due to receive for the short time he served during the fiscal year of 1958. Gray paid \$1,000 of the amount last October.

Dr. and Mrs. Frank Baugh and family returned to their home in Colorado Springs Thursday. They were accompanied home by Mr. and Mrs. Van Knox, who enjoyed the scenic spots around Colorado Springs before returning home Monday.

Bulldogs Play Sayre Here Tonight, 8:00

Coach Roy Young's CJC Bulldogs will meet the Sayre, Oklahoma, Yellowjackets here tonight beginning at eight o'clock. This game was scheduled for Tuesday night of this week but was re-scheduled for tonight because of the bad weather conditions on Tuesday.

The Bulldogs will be slight favorites in this game since they defeated the Yellowjackets at Sayre early in December.

TEXAS SAILOR ON TELEVISION

Kenneth D. Evans, yeoman, second class, U.S. Navy, son of Mr. and Mrs. Kermit Evans, formerly of Clarendon, and presently living in Arlington, had a stroke of good luck on the night of Tuesday, December 8, 1959. He obtained a ticket to Art Linkletter's "People Are Funny" program and was chosen as a contestant.

His "stunt" was to make an 18-month-old baby laugh in two minutes or less, and for a prize he was to receive \$200.00. He gave it a good old Texas try, but the baby just wasn't in the mood for laughter. He did get a smile out of the baby though. One thing may be said; Ken, as he prefers to be called, really had the audience in stitches. He received as a consolation prize a Bell and Howell movie camera and projector, which, he says, will come in handy when the ship deploys to the Far East.

Ken is a graduate of Clarendon High School. While in school he was active in many sports and other class functions. He won his letter three times as a tackle on the Clarendon football team, and he says that his ambition is to be a football coach. He plans to attend Arlington State College.

Yeoman, second class Evans is presently serving aboard the U.S.S. Helena, a heavy cruiser, as a legal yeoman and court reporter. His duty stations before the Helena included a year and a half on the attack carrier Kearsarge, a two month course at the Naval Justice School in Newport, Rhode Island, and a four month tour with Commander Seventh Fleet. He has been to the Far East two times, and will be with the Helena when it deploys on the 5th of January, 1960. Ken's enlistment expires soon after the Helena arrives back in the States, and he says he doesn't plan to reenlist.

Evans may be seen on television on the night of January 22nd.

Coleman - Thompson Vows Exchanged

Miss Aleta Ellen Coleman, daughter of Mr. and Mrs. John Alex Coleman, of Dozier, Texas, became the bride of William James Thompson, son of Mrs. Cordia Thompson of Clarendon, in a service performed in the home of the bride's parents December 21.

The double-ring ceremony was read by Joe Duke, minister of the Allison Church of Christ. Gold and white decorations were used.

Mrs. Jimmie Lee Daberry, matron of honor, wore a gold knit suit with beige accessories and a corsage of pom poms. Donald Smith of Clarendon was best man.

The bride was given in marriage by her father. She wore a ballerina length dress of white chantilly lace with a scalloped neckline and long sleeves that terminated in points over the hands. The skirt was inset with lace side gores and a back bow. Her veil was of white chantilly lace and illusion and she carried a bouquet of white carnations with tufts of net and white streamers atop a white Bible.

Following the ceremony a reception was held. The bride's table featured a floral arrangement of gold chrysanthemums, gold wedding bands and bells. Miss Donna McGee of McLean and Mrs. J. C. Breeding presided.

For a wedding trip to Albuquerque, N.M., the bride chose a travelling costume of gold trim bulky knit sweater and slim gold skirt. She wore a white hat and black accessories.

Mrs. Thompson graduated from

Samnorwood High School, attended Clarendon Junior College, and holds a Bachelor of Science degree from West Texas State College. She is presently a teacher of Home Economics in the Claude schools. AUSTIN — As the year draws to a close, it's hard to look backward for looking forward to what so many are sure will be the "silver-lined sixties."

But 1959 was an eventful year. Some of the biggest Texas headlines centered on these happenings:

SPEAKER'S RACE — Suspense became almost unbearable in a hard-fought, down-to-the-wire speakers race. Waggoner Carr won a second term, 79-71, over challenger Joe Burkett. Now the race is on again with Reps. Wade Siplan and McAllen and James Turman of Guber contending for the job in '61.

TAX BILL — It took a marathon meeting of the Legislature — from January until August — before agreement could be reached on a \$185,000,000 new tax bill. Lawmakers faced, not only the need to cover a \$2,418,000,000 budget for the 1959-61 biennium, but a dismaying \$65,000,000 deficit.

Biggest bones of contention were two of Gov. Price Daniel's key proposals: the abandoned property tax, which did not pass; and the severance beneficiary tax on natural gas, which did. Three-fourths of the new revenue comes from selective sales taxes. A number of old sales levies, on autos, cigarettes and liquor, were upped. New ones, including furs, jewelry, air conditioners, phonographs, hotel and motel rentals, were added.

SIGNALS CHANGED — Though it was primarily a "tax session," Legislature passed a number of other laws with wide public effect. Political primaries and conventions will be held in May and June, instead of July and August. Boat owners must

register their craft, observe certain safety regulations. City firemen and policemen won shorter hours, and city administrative officials grudgingly juggled their budgets to meet the extra cost. Truckers finally passed a bill they'd been pushing for some years to raise the truck load limit from 53,400 to 72,000 pounds.

TEACHER PAY — Question of whether a fourth special session should be called to raise money to increase teachers' salaries was posed but not answered in '59. Governor Daniel said he would leave it to the people to decide. Thus far the decision is not known, except that the governor said if he calls a session, it will not begin until after the Feb. 1 filing deadline for public office.

TIDELANDS — Texas officials went before the U.S. Supreme Court again to fight for state ownership of the tidelands. Texas claims it owns the submerged lands for 10 1/2 miles out. U.S. Attorney General says state ownership extends only three miles. High court's decision is awaited.

NEW BUILDINGS — A big part of Texas government picked up and moved this part fall from rented quarters scattered over Austin into three new state buildings. Texas Employment Commission Building, State Office Building and State Courts Building were completed within a few months of each other. Earlier the Health Department expanded into a new building. A State Archives Building is in construction, and an Insurance Building is on the drawing board.

AUTO INSURANCE RATES — State Board of Insurance announced new auto insurance

rates designed to put the burden of expense on the drivers who have the accidents. Plan has stirred up a beehive of controversy. But it has gone into effect, as scheduled, Jan. 1.

LBJ FOR PRESIDENT — State politics was almost swept aside after Speaker Sam Rayburn announced a Lyndon Johnson for President campaign. Texas party leaders took up the banner, and Johnson clubs spread across the state, covering, at last count, 191 counties. Senator Johnson says he is not a candidate for president. But he has criss-crossed the state in an energetic "re-election" campaign.

ELECTION CAMPAIGNS — Politicking was rampant as the year ended, but very few candidates have paid their filing fees for statewide offices. Some put off filing until January to avoid competing with Christmas for public attention. Others are awaiting for Governor Daniel to say whether he will seek a third term before they decide whether to stay put or try to move up.

OIL STILL TRICKLING — Texas oil wells will flow only 10 days in January. This production pattern, the same as during December, was ordered by the Railroad Commission after major purchasers' requests ranged from 9 to 11 days.

THREE MILLION JOBS — Texas will enter the 'sixties with more than 3,000,000 employed in non-farm jobs. Employment gained 7,000 over November to push the total at mid-December to 2,999,800, the Texas Employment Commission reported.

Attainment of the 3,000,000 figure was expected by late December, the report said.

ANOTHER TAX STUDY — State taxes will undergo another study by a nine-member legislative and layman committee. Particular attention will be directed at property taxes and the new taxes adopted in the recent sessions.

Sen. William S. Fly of Victoria, who was chairman of the tax study committee for the past two years, was named to head the new effort. Rep. Frates Seeliger of San Antonio will again be vice chairman as before. A

layman, John McKee of Dallas, will also serve again in his previous role as secretary.

Other members of the committee are Sen. George Parkhouse of Dallas; Sen. Louis Crump, San Saba; Rep. Gordon Bristow, Big Spring; Rep. V. L. (Bo) Ramsey, Beckville; Hugo Lorvenstein, Amarillo; Dr. John R. Stockton of Austin.

Hearings will again be heard over the state as during the past two years. They will begin early in 1960.

TEXAS CITIES SELF-RELIANT — Cities of only four other states are more self-reliant than Texas cities, according to a study by the Texas Municipal League.

State assistance to Texas cities amounts to 3.1 per cent of the expenditures of municipal government. States in which the percentage is lower are Missouri, 3 per cent; Kentucky, 1.3 per cent; Montana, 0.9 per cent; and West Virginia, 0.4 per cent. National average is 16 per cent.

INSURANCE PLAN HIT — You may pay more, or less, for your automobile insurance after January 1. Everything hinges on your driving record. But the new system is being challenged.

Sen. Grady Hazlewood of Amarillo has leveled a barrage of criticism at the merit rating plan. Under the system, drivers are assessed rate increases for accidents and moving traffic violations occurring during the three years preceding the payment of the premium. Drivers with flawless records get a 20 per cent reduction.

Hazlewood complained that the application of the plan to past offenses was unfair. He said lack of uniformity in traffic law enforcement is also unfair to drivers in strict enforcement areas.

Law requires the Board of Insurance to call a hearing within 30 days after a request from any policyholder or insurer. So the Board set a hearing for Jan. 14 at 9:30 a.m. in the State Highway Department hearing room.

Insurance Board Chairman Penn J. Jackson said the plan and the new rates will go into effect Jan. 1. Changes could be ordered lat-

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

1960: WHAT TO EXPECT

1960 will be an unusual year in the Congress. It is a presidential election year, which usually means that highly controversial issues will be at a standstill. However, this will not be the case in 1960, the reason being that there probably has never been a time in our history when there were more crucial as well as controversial issues to be faced both on the domestic and international fronts. Let us divide these into their respective categories.

INTERNATIONAL

1. The arms race between the free world and the communist world. There will undoubtedly be many suggestions as to disarmament programs and disarmament proposals. These must be weighed in the finest balance. The destructive power of modern-day weapons demands that any disarmament proposal be not tainted with the slightest degree of misunderstanding or ambiguity. One misstep could mean the beginning of events that could easily lead to the third world war.

2. Summit meeting. Whatever subjects may be finally decided upon for discussion at the scheduled summit talks, it can be expected that these talks will provide issues to be decided upon by this country that can and undoubtedly will develop much controversy. The settlement of these issues which will develop cannot wait simply because this is a presidential election year. A firm and unmistakable stand must be taken and these issues must be squarely defined and debated so that the American people can have a clear understanding of what is at stake.

3. Economic trends. Our world markets will undoubtedly be challenged to a greater degree in 1960 than heretofore. The European Common Market, which anticipates an economic coordination as well as a political coordination between the six member countries, can be expected to have a noticeable influence in world trade. The same is true of the so-called "Outer Seven", which includes Great Britain and six other countries in the European and Scandinavian areas. How much further Russia will move into the consumer goods area is not yet known, but her activities in this regard could have further influence on the world commerce picture.

4. Recognition of Red China. This will be a number one issue in 1960 and will be the subject of extended debate in the Congress of the United States. Many take the position that the free Chinese on Formosa are an ineffective force and are expendable; that the present communist government of Red China is the government of the Chinese people and should be recognized. On the other hand, there are those who subscribe to the policy that no nation should be allowed to obtain recognition from this country by the use of force and arms and that until the Chinese people have had a fair and undictated opportunity to make an honest choice as to their government, our continued recognition should not be changed. Much of the demand for recognition of Red China comes from the clamor of many countries who depend upon trade. They realize the vast market which is available in Red China. The advocates of recognition in this country also believe that unless we recognize Red China, we will lose much of these markets. This is a subject that should be thoroughly understood by the American people before any action is taken. It would be a most serious step and principles should not be sacrificed for possible material profit.

DOMESTIC

1. Taxes. The entire tax structure is undergoing a complete surveillance anticipatory of a complete overhaul. As I pointed out earlier in the fall, there is not much possibility of a tax cut in 1960. However, it is expected that the groundwork will be laid to bring about much-needed corrective measures in early 1961.

2. Civil rights. The so-called civil rights advocates have again become vociferous and can be

expected to push and plan to make it possible for the Attorney General to represent individual citizens in the courts regardless of the desires of the individual citizen involved. This may look good on its face, but it is contrary to the basic law of this country and could do much damage in furthering the centralization of this government.

3. Health insurance. This, sometimes referred to as socialized medicine, will be a subject of great controversy in 1960. It is presently rumored that the Administration will come forward with a measure similar to pending proposals and efforts will be made to push through this type of legislation. Many feel that there are political overtones involved. In any event, the people generally should be on the alert.

ELLIS

Mr. Claude Homer Ellis, 91, passed away Sunday, January 3, at 4:40 a.m. in the Thurman Rest Home of Amarillo. He was a member of the First Baptist Church and Clarendon Masonic Lodge.

Funeral services were held Monday in the First Baptist Church with Rev. W. R. Lawrence, pastor, officiating. Interment followed in Citizens Cemetery. Pallbearers were Van Kennedy, W. W. Jones, J. R. Brandon, Lee Holland, Bill Ray, and Kinch Leathers.

Survivors include three daughters, Mrs. Betsy Landers of Clarendon, Mrs. Lucille Kercheville of El Paso, Texas, Mrs. Donna Leta Gerlach of Levelland, Texas, three sons, Eldridge of Borger, Texas, Dorr of Eagle Pass, Texas, Henry of Paris, Texas, two sisters, Miss Pearl Ellis of Claremont, Calif., Mrs. Addie Kerns of Springfield, Ohio, one brother, Fred of Kansas City, Kansas, thirteen grandchildren and seventeen great grandchildren.

There are many other issues which I must wait until later newsletters to discuss, because of the lack of space.

GRASS ROOTS OPINION

Chewelah, Wm., Independent. "Labor, as an organization, should never be denied the right to quit work if it so desires. What is needed is a new approach to settlement. Labor leaders... are too sensitive to their position, feeling that in every contract negotiation they must be in a position to say, 'see what I got for you this time.'"

"There must inevitably come a time when the saturation point has been reached, and industry, to stay in business, must stop. This is where we must say, 'Otherwise we are being catapulted into an inflation that will ruin our entire economy.'"

GEORGE'S WIFE
By "Sarah"

The January issue of Progressive Farmer carries an editorial that should be of interest to farmers as well as people in all

walks of life. He tells us AFL-CIO executive council has approved a broad program aimed at signing up farm workers into their union. For the first time the origination campaign will be well financed to do so. Farmers are forced to pay

union wages, then more than ever it becomes necessary for Government to support prices and union wages as well. We cannot imagine farmers paying union wages for a 40 hour week, with time and a half for overtime. Just imagine what it would do to the nation for a

strike to be called around harvest time. One happy suggestion was that it might force farmers into a stronger organization to protect themselves, that would lead strikes with the government, forcing compulsory arbitration to keep folks from going hungry. George says he's been waiting for something like this or "The Population Explosion." Said he would hold onto the north 40 until that time and make the Amarillo parking lots look like pickers.

We think it's a faster way of doing away with farmers than the land retirement or any other method they have thought up yet. Either way, it's a brand new year with new faith for greater things to come

supremacy. It took more than 100 years for this country to win it back.

The necessity of a U.S. merchant marine second to none resulted in public policies that have helped to insure needed ship replacement. Recently, the first nuclear powered vessel, the N. S. Savannah was launched, as a "floating laboratory." There are many problems to be solved in the nuclear ship. American merchantment do not intend to be caught napping in this area. A prominent shipping official declares, "One thing is as certain as the rising sun; American merchant shipping must not ignore in ostrich-like fashion the advent of nuclear propulsion as it did that of steam . . . galliance

on our part might put us once again in the position where not even a century would permit recovery of our status as a maritime power."

GRASSROOTS OPINION

Fredonia, N.Y., Censor: Almost everyone used to regard the handicapped as a kind of charity. The man who gave jobs to workers suffering from some sort of physical disadvantage was generally looked upon as a good-hearted fellow willing to

assist others at some cost to himself. "The heart has its reasons. So has the brain. And the brain, judging on the basis of experience, now informs us that employing the handicapped is a lot closer to good business than it is to charity."

LET'S NOT MISS AGAIN

It seems to be a historical fact that once a nation loses the lead in any area of human endeavor, the process of catching up is a long hard road. In spite of all the sugar-coated rationalizing, the United States is not leading in the art of rocketry. And in its comparatively brief history it has lagged on other occasions—and paid heavy penalties.

Most of us are familiar with the glorious days of the Yankee Clipper. During the 1800's, American sailing ships were renowned throughout the world. Then a little steam vessel called the Savannah managed to cross the Atlantic. Its feat was discounted by 19th Century statisticians and cost accountants. American owners continued to develop sailing ships. Great Britain, meanwhile, found ways to improve steam's performance and soon recaptured maritime

Blowin' Out the CORNERS
by Uncle Zeb

Those wonderful New Year's resolutions;
We never fail to make them.

And then with equal ease and speed, Proceed right off to break the.

We wonder sometimes what would be the net result of the average person's resolutions at the beginning of each new year. Taking an estimate that each person made at least five new resolves beginning with the first day of the year we wonder how many would still be going strong

by Ground Hog Day. If all were as prone to slip as the person we should know best, then most would be broken by then.

Even at that, it would seem a good thing to keep right on with the habit of making them. And if at least one good resolution out of the five should become a habit then we would be well paid for our trouble.

Someone resolved among other things to go to church regularly in 1960. Perhaps after two or three attendances based on this good resolve they would find that there was something really wonderful for them in church attendance. Just a few visits to church might change their whole life.

Another person might decide to use more kindness toward those about them, especially the family. Kindness being something which we can not lose in that the more we try to give it away the more it comes back into our own lives. This could become a habit overnight. I've already convinced myself to keep right on making my New Year's resolutions.

The weeds are "chuck-full" of presidential timber, so they think. This is certainly true, if we are to judge by the echos coming from the forest as all of the would be willing venture cut into the political clearing.

It seems that it is no longer smart politics to come right out in the open, sound your hunting horn, and tell the whole world just what and where your intentions are and why. It has gotten to be a common practice to just more or less run in circles until one sees which way the tree is going to fall.

This is a degree of mild deception, but we guess that it is legal just so long as it is not done on TV or that they have transcribed

their maneuvers and are bribing someone for a playback.

One thing that makes running for the big offices easy this day and time is the fact that we have one storn plank that is firmly agreed on as bi-partisan policy. This point to which everyone seems willing is that the one electe will promise to cut-spend his predecessor. This seems to be a must.

Actually, we shouldn't put all the blame for this on the would-be politicians. If some down to earth fellow were to get in the race on a pay-as-you-go tax as you spend platform we all would get scared and give him a political pruning before he could get started.

We have gotten so deep into the forest of wild spending and tacking the burden on to the little saplings that are growing up that we are afraid to turn back or even stop.

The pot and the kettle Both hung on the rack, And each called the other A very mean black.

When the Quiz Shows were rigged We each said my, my, Neither guessed that the cause Might be you and I.

At first glance most people seemed inclined to pass over the incident of the rigged TV shows with a "so what" attitude. If this had been the only incident of deceit and crookedness in the last little while we would all have been willing to just let it pass. However, this was not the case.

There was the case of Mr. Gold-fine and the mink coat gifts. We had all heard of government contracts, going to favored individuals, and of relatives on federal payrolls. These and many other incidents caused us all to take a second look. False advertising

claims along with pay-offs on musical recordings helped to keep our attention on the problem.

As many bad things sometimes do this may all turn into a blessing. It could be that which would wake us up to the fact that dishonesty, especially in small matters, has come to be too widely accepted as acceptable. From the time we tried to cheat a bit on a high school exam until the time we rendered our taxes too low we have mostly been guilty in one way or another. It makes us ask ourselves how small a thing can be and still be wrong. It makes us wonder if by

getting used to little things which do not seem important, we can grow to the point of being willing to commit the larger wrongs.

Federal Hail in New York City served as the first Capitol of the United States, after the Constitution was adopted.

Let us explain:
This young housewife has stopped dirt dead in its tracks by making sure it never collects in the first place. It's all done through the modern miracle of Electric Heating. And doesn't it make sense to have Electric Heat and Electric Cooling help you with your housework 52 weeks a year. It's the cleanest, most comfortable heating and cooling there is today.

FORD'S ECONOMY TWINS FOR 1960
The Economy Choice of a lifetime - Two new Fords... Two new low-price fields...
Two wonderful new ways to go 'The Finest'

THE 1960 FORD FALCON
Now there's both a new economy-size Ford and a large economy-size Ford.
The new economy-size is the Ford Falcon—America's lowest-priced 6-passenger car. It's up to \$124 less than other 6-passenger cars in the compact field.* It goes up to 30 miles on a gallon of regular gas. Servicing is easy and repair costs are low. You can even save up to 15% on your insurance.
And the Falcon is the one American compact car that is thoroughly proved for American driving. There's room for 6 people—luggage and all.
*Based upon a comparison of manufacturers' suggested retail delivered prices.

THE 1960 FORD FAIRLANE 500
Now consider the large economy-size Ford, the Fairlane 500. Here is the most car per dollar ever built. The Fairlane 500 brings you fine-car styling, luxury and comfort, yet it offers Ford economy like regular gas, 4,000-mile oil changes, double-life aluminum mufflers, and no more waxing. Like the Falcon, too, it brings you big price news: \$112 less than last year's popular Fairlane 500!
