## New Election Laws Explained By New County Chairman

There is a bit of confusion in the minds of the voters relative to the 1959 election laws, and the purpose of this article is to help clear up a few questions in the minds of the voters.

Basically, there are two new laws now effective which change completely the make-up of the political conventions. One is called a "Party Affiliation" law, and the other fixes new dates for the primaries and conventions. Below is a summary of how these laws affect the Democratic Party in Texas, its primaries and conventions:

1. A person becomes a "Member" of the party when he votes in the primary. Only party members — those who have voted in the Primary — may participate in the Precinct, County and State Conventions, or hold a Party office.

2. The poll tax receipt form is changed to provide a space for party affiliation. This space is filled in only by the election judge at the time the voter participates in the primary. The tax assessor-collector should not fill this in, and neither should the voter, because this is contrary to the law.

3. When a person votes in the Democratic Primary, the election judge stamps on the poll tax receipt, exemption certificate or an affidavit of loss, the word, "Democrat" within the party affiliation space. Such action makes the voter a member of the Democratic Party for the duration of the poll tax period. He can not, during the year, participate in another Party's conventions.

4. Provisions also are made for the stamping of party affiliation in the case of absentee voters.

5. Persons not required to have a poll tax receipt or exemption certificate are furnished a certificate by the presiding judge, at the time they vote, showing their party affiliation. This certificate is proof of their party membership and entitles them to participate in the Party's Conventions.

6. Delegates to the State Convention of June 14 will also serve as delegates to the subsequent State Convention on Sept. 20.

7. Violation of the Party Affiliation Law is punishable by a fine of from \$20 to \$200.

In Donley County, voters who

have attained age 60 Will Not be required to obtain an exemption certificate in order to be able to vote. HOWEVER, if they want to attend the party conventions, they must get a certificate from the election judge at the time they vote as set out in item 5 above.

ALSO, it will expedite voting considerably if you bring your poll tax receipt with you when you vote. Otherwise, an election clerk will have to fill out an affidavit that your poll tax receipt has either been lost or destroyed. There will be no poll list for you to sign this time and filling out these affidavits will be time consuming.

Mrs. Frances Cooke, formerly the Donley County Democratic Chairman, has resigned due to her change in residence. At a called meeting of the County Executive Committee, Mike McCully was elected to fill her unexpired term. McCully was formerly precinct chairman of Precinct No. 2, and the County Executive Committee elected Richard V. "Dick" Kennedy to fill his unexpired term as precinct chairman.

Due to the above changes in the law, the election crews are really going to need the cooperation of the voters, and you can help most by bringing your poll tax receipt.

This is a big election year so

**PAY YOUR POLL TAX ON OR BEFORE JANUARY 31st.**

**SIMS P-TA TO MEET JANUARY 21**

Sims P-TA will have its monthly meeting January 21 at 3 p.m. in the Jr. High auditorium. The program will be presented by Bill Cornelius, Highway Patrolman, on Civil Defense and Safety.

Everyone is invited to come and enjoy this program. Your presence will also help your child's room in the room count.

There will be cartoons shown at the Muley Theatre at 2:30 for pre-school, grade school and Jr. high children. Admission will be 10c per child.

There will be an executive board meeting at 2 p.m. preceding the monthly meeting.

## Services Held Friday For J. L. McMurtry

Funeral services were held Friday afternoon in the First Methodist Church for J. L. McMurtry with Rev. C. M. Ryan and Dr. E. D. Landreth officiating.

Mr. McMurtry, 79, died last Wednesday morning in an Amarillo hospital. He had been a resident of Clarendon since January, 1900. He was a cattleman and banker and owned ranches at Goodnight, Alanreed and McLean.

Mr. McMurtry had served as vice-president of the Donley County State Bank and also was president of the American National Bank in McLean. He had been a member of the Texas and Southwestern Cattle Raisers Association since 1910 and served as a director of the organization several years.

He moved to Clarendon in 1900 and worked as a chuck wagon cook and cow-puncher for the RO Ranch and joined the JA outfit in 1902. In 1908 Jim and Charley McMurtry went into partnership as the McMurtry Brothers, establishing their cattle business on a larger scale and continuing the partnership until 1949.

He is survived by his wife; a son, J. Alfred McMurtry; two daughters, Mrs. J. W. Collins of Amarillo and Mrs. Ray Palmer; six brothers, R. L. McMurtry of Amarillo, Ed McMurtry of Vigo Park, A. L. McMurtry of Silverton, John McMurtry of Muleshoe, J. H. McMurtry of Clarendon and W. J. McMurtry of Archer City; three sisters, Mrs. Charles Carpenter of McLean, Mrs. Mae Hilburn of Wichita Falls and Mrs. Glenn White of Shamrock and nine grandchildren.

Pallbearers were Cap Morris, Reford Blackwell, Pete Kuntz, Clifford Allison, George Benson, Jess Kemp, Newton Harrell and Rex Long.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

## FFA Judging Team Wins First Place

The Clarendon FFA livestock judging team won first place in the Childress judging contest Saturday. Team members Dennis Bradshaw, Don Hudgins, Gary Longan and James McAnear won first in the FFA division, and then won the sweepstakes banner by having the highest score of the contest in competition with twenty-four 4-H and FFA teams.

Dennis Bradshaw, son of Mr. and Mrs. G. W. Bradshaw, was the high point individual of the entire contest. Dennis is chapter president this year and like other members of the team has had much experience in the livestock field.

Members of the judging team plan to compete for honors in the Southwestern Poland China Type Congress at Lubbock on Friday, January 15. They will compete in the Amarillo judging contest during the latter part of January and in the Pampa contest in March. The team is coached by Jerry Hawkins and Herman Boone, Clarendon FFA advisors.

## GIRL SCOUT FUND DRIVE TO END SOON

All those who haven't contributed to the Girl Scout Fund Drive and would like to do so are reminded to send their contributions to Mr. Emmett Simmons, Fund Chairman. Only a very short time is left to meet the quota as a part of the newly formed Indian Paint Brush Council. Anything given to help the girls of this city will be greatly appreciated.

## Services To Be Held Thursday For Mrs. C. D. McDowell

Funeral services have been set for 2:30 p.m. Thursday afternoon for Mrs. Ella Campbell McDowell at the Murphy Memorial Chapel.

Mrs. McDowell, 84, died at her home here Tuesday night. She had been a resident of Donley County 48 years. She was a member of the Methodist Church.

Mrs. McDowell was the wife of C. D. McDowell, pioneer rancher, who died Oct. 6, 1948. Mr. and Mrs. McDowell moved to Clarendon from Moore County in 1912.

Survivors include one daughter, Mrs. Walter Fraser of Groom; one son, Harlin McDowell of Amarillo, one sister, Mrs. Minnie Duffrey of Wellington; four grandchildren and three great-grandchildren.

Pallbearers will be nephews of Mrs. McDowell.

Burial will be in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

## Services Held Tuesday For Claude Lindsey

Funeral services were held Tuesday afternoon for Claude E. Lindsey in the Church of Christ with John L. Davis, local minister, officiating.

Mr. Lindsey, 75, died in the Groom hospital Sunday afternoon. He was a retired farmer and had been a resident of Donley County 42 years. He was a member of the Church of Christ. His wife predeceased him in death Feb. 9, 1954.

Survivors include a sister, Mrs. Lillie Robertson of Waco; a brother, Immanuel Lindsey of Bay City, and several nieces and nephews.

Pallbearers were Elmer Chenault, Oran Hott, Ellis Chenault, Leonard Dozier, Odis Stillwell and Woodley Richerson.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

## McLEAN FACTORY TO INTERVIEW PROSPECTIVE WORKERS HERE FRIDAY

Marie Foundations of McLean will take applications and give simple dexterity tests here Friday from 3 to 7 p.m. in the City Hall. The firm needs additional trainees as sewing machine operators.

All applicants who pass the dexterity tests will be given the approximate date of employment. Bus transportation will be available to carry workers to the job from Clarendon, a representative of the firm stated.

## HOSPITAL NOTES

Patients as of Wed., Jan. 13th: Boy Blackwell, J. D. Joslin, Mrs. Lena Baird, Dale Casteel, Mrs. Leck Goldston, Ruth Richerson and Mrs. May Kennedy.

Dismissals: F. S. Blackwell, Jess Hill, James McKinney and Miss Della Wood.

## More Enter City County And District Politics

Political announcements continued to climb this week with candidates announcing for city, county and district offices in addition to definite announcements in state politics. Governor Price Daniel and Attorney General Luther Wilson both have announced for re-election.

In city politics, W. M. Pickering came in and announced last week end for re-election as City Commissioner and Oscar H. Thomas made his announcement yesterday that he would also seek re-election as City Commissioner.

In county politics, there was one addition this week with the announcement of Vance Gray as a candidate for commissioner of Precinct No. 1.

In the district race, Judge Luther Gribble of Wellington authorized the Leader to announce his candidacy for re-election as District Judge.

There will be important election dates throughout the year and everyone should make it a definite point to pay their poll tax before the deadline January 31st.

To date only 719 poll tax receipts have been issued at the tax office which is less than half the usual number for this county for a general election year. This means there will be a mad rush and a long waiting line at the tax office toward the end of the month unless those wishing to vote get busy and purchase their poll tax right away. If you have already paid your other taxes, be sure you included your poll tax.

Sheriff Cornell announced that a member of the tax office will be at the City Hall in Hedley Jan. 16 and 23 to issue Poll Tax Receipts to residents of that area that wish to take advantage of this convenience. Hours will be from 2 to 5 p.m. on the above dates.

## Son Of Local Teacher Dies In Plane Crash

First Lt. Frank Ewing Patterson, 25, died in the crash of a B-47 jet bomber six miles northwest of Hugoton, Kansas, on Jan. 6. Lt. Patterson is the son of Mr. O. E. Patterson, teacher of physics, mathematics and business in the Clarendon High School and Junior College.

Also killed in the crash were Capt. Max Schmaling, 28, of Illinois, who was piloting the plane, and Capt. Russell Wynne, 35, navigator from Cambridge City, Ind. The lone survivor was Lt. Gordon White, 25, of Amarillo, who bailed out of the plane.

Witnesses said the plane was in the process of a mid-air refueling operation when it suddenly veered sharply to the left and spun to the ground.

Lt. Patterson was making his home in Marshall, Texas, at the time of his death and was buried there with military honors on Saturday, January 9. He was a graduate of Texas A&M College and had been in the Air Force two years. He was a four-sport star at Marshall High School. Survivors besides his father here include his mother who resides in Marshall and a sister, Melissa, who is a student at North Texas State College.

## REV. STRIBLING TO PREACH AT CHURCH

Rev. Baldwin Stribling of Amarillo will conduct the worship service Sunday morning, Jan. 17, 11 p.m. at the First Presbyterian Church. All members are urged to attend and visitors are welcome.

## La Jean Harrison Taylor Shows Grand Champion Steer At Odessa

### Sale Ends 50 Years In Theatre Business For Mrs. H. Mulkey

Mrs. Homer Mulkey climaxed 50 years in theatre business here with the sale of the Mulkey Theatre effective January 1st to Gary Barnhill, owner of the Sandell Drive-In Theatre.

Mr. and Mrs. Homer Mulkey opened the Pastime Theatre here in 1910 and Mrs. Mulkey had charge of the ticket window throughout the entire 50 years.

The Pastime Theatre was operated here in the same location until 12 years ago at which time the new Mulkey Theatre was constructed and named in memory of Mr. Mulkey who died in 1941. The old Pastime was redecorated for the first time here on October 26, 1929, featuring "The Coccinuts". This, along with the opening of the new Mulkey Theatre was one of the big highlights of my 50 years in the business," Mrs. Mulkey stated.

In addition to the Pastime, Mr. and Mrs. Mulkey operated the Queen Theatre where Saye's is located now and then later the Cozy Theatre which burned and was replaced by the Mulkey Theatre.

Lee Bell, manager of the Mulkey Theatre, moved to Clarendon in 1936 and assumed responsibilities as assistant manager. He took over management of the business in 1941 when Mr. Mulkey died. Mr. Bell stated that he plans to remain in Clarendon but that his future plans are indefinite at the present time.

### ANDRA PINKERTON IS CONTEST WINNER

Ten winners were named at Texas Tech in the district finals of the "Make It Yourself With Wool" contest Saturday, January 9th at Lubbock. The finalists will compete in state finals in San Antonio Saturday, January 16th.

Andra Pinkerton, daughter of Mr. and Mrs. W. W. Pinkerton, was one of the ten winners out of 43 entrants in the contest. The entrants made all-wool dresses, suits, coats or ensembles for the contest and were judged in three divisions, senior, junior, and sub-junior.

The next home game for the Bulldogs will be against the Howard County Jayhawks on January 30.

The Donley County 4-H Club members did well at the Sand Hills Hereford and Quarter Horse Show at Odessa, Texas. There were 115 top hereford steers from all over Texas at the show and La Jean Harrison Taylor, daughter of Mr. and Mrs. Ellis Harrison of Hedley won the grand championship honors. La Jean is fifteen years old and a sophomore at Quail High School. Her steer weighed 883 after being shrunk three percent. He sold by the head and brought \$3,000.00.

David Mooring of Lelia Lake had a heavyweight steer that placed fifth in his class. It weighed 994 and brought 55c per pound. Janice Floyd had a tenth place hereford steer in the middleweight class. It weighed 921 and brought 53c per pound. Wayne Leathers of Lelia Lake had a 15th place middleweight steer weighing 849 which brought 60c per pound. The Donley County group took 2nd place for the best group of 5 steers from any one county.

All weights shown were pay weights and the steers sold made good money for the 4-H Club members. H. M. Breedlove is in charge of 4-H Club work in the county.

Glenn Bratcher of Oklahoma State University judged the show at Odessa.

## Bulldogs Play South Plains Saturday Night

The next conference game for the Clarendon Junior College Bulldogs will be against the South Plains Junior College team at Levelland Saturday night beginning at 8:00 o'clock. This will be the third conference game for the Bulldogs.

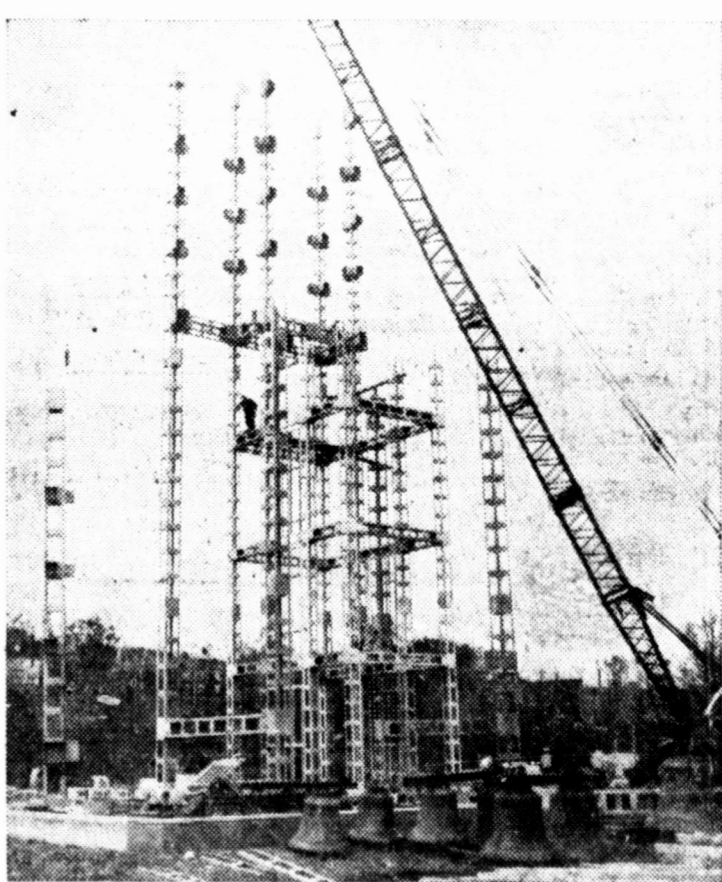

Coach Roy Young is expected to start his usual five of Alva Carter at center, H. D. Yarbrough and Felix Johnson at forwards and Bobby Lesley and Oscar Bronniman at guards. Marvin Young, John Alexander and Dee Blevins are coming along strong and any one of them may break into the starting line-up at any time. The Bulldogs have a strong bench this year for the first time in several seasons.

The next home game for the Bulldogs will be against the Howard County Jayhawks on January 30.

## Sen. Yarborough Leads Dimes Drive

Sen. Ralph Yarborough, of Texas, leads off the 1960 New March of Dimes with his contribution to Pat Lombardo, six-year-old polio victim in Washington, D. C. New March of Dimes funds are being used to combat three crippling: birth defects, arthritis and polio.

BELLS FOR ARLINGTON—Hard by the Tombs of the Unknowns at Arlington National Cemetery, work is steadily progressing on the bell tower to house a huge carillon donated to the national shrine by Queen Juliana of the Netherlands. Financed by Dutch contributions, the carillon was presented during the Queen's visit to the United States. The tower stands near the Wright Gate of Fort Myer, Virginia.

**HEDLEY NEWS**

Mabel Bridges

Everyone is wondering why there was no Hedley News last week. Your reporter mailed the newsletter Monday at 2 p.m., but it failed to reach the Leader office. We will keep trying and hope this won't happen again.

Mr. and Mrs. Hobart Moffitt are building a new home in east Hedley. Bad weather has slowed the carpenters. Paul Stewart is contractor. This will be a brick medallion home.

Mr. Butler, who has spent some time in Sanitorium, Texas, was brought home last week. He has not been feeling very well. Last Wednesday night he had the misfortune to fall and break a hip. He is in a Groom hospital where his condition is satisfactory.

Several Hedley women have begun work at McLean in Sear's garment factory.

**Lion's Den Moved**

The Hedley Lion's Den has been moved to Biffie Lunchroom Lion Oneal Weatherly is in charge of redecorating and arranging the new meeting place. Mrs. Henry Nivens will do the cooking since the Lelia Lake women have resigned after serving for a number of years.

The Jan. 14 meeting will be held at the new Den.

About 40 Lions and ladies enjoyed some good food, and a lot of noise at the New Year's Eve party in the Lion's Den.

Mr. S. F. Blackwell was able to be brought home from Adair Hospital where he has been quite ill. Glad to report him doing fine.

**Land Leveling for Irrigation**  
Land preparation for irrigation is expensive. Topography, depth of soil, and texture of soil and sub-soil, and volume of water determine size of blocks for leveling. It may not be practical to level the land for irrigation if the soils are shallow with broken rolling slopes. Irrigation land leveling can be very expensive. For that reason land should be leveled almost flat to utilize the rainfall as well as irrigation water. The average cost of about sixty-five dollars (\$65.00) per acre can be paid in two short years by increased yields. One of the most common mistakes in putting land into irrigation is starting the crop before the land is properly prepared, which may cause drowning out in spots from uneven distribution of water, and difficulty in applying the water may occur. After making cuts

and fills with scrapers, a contractor smoothes the land three times — twice at 45 degree angles and once down the slope parallel to the rows — with a land plane.  
The Soil Conservation Service can help with the engineering by making a topographic map which will help pick out the land which can best be leveled. From the map "cut sheets" are prepared and the field can be staked for the earth moving job. Much engineering labor is involved in preparing for the land leveling, but this is usually staked out by the farmer under the supervision of the Soil Conservation Service.  
After the contractor finishes the job of land leveling, there will be work to do. Some spots settle and need filling, and machinery scars will need smoothing over. There will be a maintenance job every year, but it pays when done properly.

**GRASSROOTS OPINION**  
Detroit Mich., Detroit: "Every once in awhile someone takes a crack at trying to come up with a word picture of the size of the national debt that can be imagined. Latest one is by Rep. Minshall (R-Ohio). 'One million dollars is a stack of \$1000 bills approximately 4 inches high one billion is a stack of bills 333 feet high.' To illustrate the national debt — you'd need a stack of bills more than 18 miles high. We haven't checked the figures, but what's one mile more or less."

**Tax-Man Sam Sez:**  
The Texas Society of Certified Public Accountants are working with school teachers again this

year on Teaching Taxes. Our Texas schools are doing a very fine job of training our young high school and college taxpayers on how to prepare their tax returns. The teachers take the material prepared by Internal Revenue Service and teach the students. The Certified Public Accountants in many areas are volunteering to visit the school or class at the end of the income tax training to answer questions. This was a popular program last year. The accountants usually had as much fun as the students. The CPA's deserve a pat on the head for good public service to our leaders of tomorrow.

## PATHFINDER CLUB MEETS FRIDAY

Pathfinder Club met Friday afternoon at 4 p.m. in Patching Club House with Mrs. George Benson presiding. The meeting was called to order with prayer by Mrs. Edd Dishman. Minutes of the last two meetings were read and approved. Twelve members answered roll call.

During the business meeting a treasurer's report was given. Mrs. J. B. Sorrell's resignation was read and accepted with regret. It was voted by the club to set up a memorial fund in memory of Mr. James L. McMurtry. Mrs. C. B. Morris, Mrs. Forest Sawyer, and Mrs. Carl Allmond were appointed to serve on this committee.

Mrs. Sam Lowe, chairman of the nominating committee, presented the following slate of officers to be voted on for the 1960-61 term: Elected were Mrs. C. E. Bairfield, president; Mrs. Heckle Stark, vice president; Mrs. Lee Holland, recording secretary; Miss Mable Mongole, treasurer; Mrs. Bill Greene, Sr., corresponding secretary; Mrs. Fyank Phelan, Jr., parliamentarian; Mrs. C. T. McMurtry, Federation Counselor; Mrs. L. N. Cox, historian.

Mrs. C. E. Bairfield gave the Federation news from the Club Woman's magazine. "The Intelligent Woman's Guide to Art" by John Canaday was presented to each woman present. This is a book prepared by the Book of the Month Club for distribution to the General Federation of Women's Clubs.

Hostesses, Mrs. H. T. Burton and Mrs. C. B. Morris, served delicious ice box pudding topped with whipped cream, nuts, tea, and coffee to one guest. Mrs.

Marguerite Goodner of Amarillo, and to members: Mesdames George Benson, Edd Dishman, Fred Butnin, Sam Lowe, Carl Allmond, Forest Sawyer, C. E. Bairfield, Frank Phelan, Jr., Heckle Stark, and Miss Mable Mongole. — Rep.

## GOOD NEIGHBORS CLUB MEETING

The Good Neighbors Club met January 8 in the home of Carrah Mixon. One quilt was quilted. Those to enjoy the good lunch were Bessie Helton, Nova Barker, Eula Butler, Florence Harp, one visitor, Darla Roberson and the hostess, Carrah Mixon.

Those coming for the afternoon were Alta Spradlin, Emma Davis and Rosie Bingham. Our project for the year other than quilting was to take cookies to the convalescent homes in town. Rosie Bingham suggested that we start a piggy bank for 1960.

Our next meeting will be with Alta Spradlin January 22. — Rep.

## MARTIN QUILTING CLUB MEETING

The Club met Wednesday, Jan. 6 with Lela Bulman. Eight members were present and one quilt was finished.

Those present for lunch were Lela Bulman, Lennie Cauthen, Cordie Yates, Sallie Christie, Eunice Land, Margaret Waldrop and Beth. Those to come in the afternoon were Edna Osburn, Brenda and Judy and Hazel Edens. An enjoyable day was had by all in spite of the bad weather.

The next meeting will be with Elsie Sibley Jan. 20 in her home. — Rep.

## DELTA KAPPA GAMMA-GAMMA KAPPA

Gamma Kappa Chapter of Delta Kappa Gamma met in the parlor of the Methodist Church at Childress Saturday afternoon at 2 p.m. "Appraisal of the Teacher Training Program" was the program topic with Mary Foreman as leader. Also taking part on the program were Myrtle Hill, Maudie Coffee, and Rita Stroble.

A White Elephant sale was held. A total of \$32 was raised for the scholarship fund and \$5 for the special scholarship fund.

In the business session the following officers were elected: Mary Foreman, president; Annie Mae Foster, vice president; L. C. Sweat, second vice president; Ruth Walker, recording secretary; Maxine Cape, corresponding secretary; Velma Weaver, parliamentarian.

The next meeting will be held in Pampa February 13. A tea honoring the state president will be held at this time with the five area chapters participating in the meeting.

Refreshments of cherry pie, coffee and tea were served. Clarendon members present included Hazel Brandon, Velma Weaver, Marguerite Goodner, Gladys Burnham, Inez Blankenship, and Edgar Mae Mongole. — Rep.

## MOTHERS STUDY CLUB

Mothers Study Club met Tuesday night at Patching Club House. Meeting was called to order by the president. The secretary read the minutes and called the roll; then a treasurer's report was given. The usual order of business was taken up.

New officers for the next club year were elected as follows: Doris Salmon, president; Jeanie Johnson, vice-president; Clarice Choate, secretary; Charlotte Johnson, treasurer; Bobbie Floyd, parliamentarian; Wanda Moore, reporter.

The program for the evening was presented by Jeanie Johnson. The topic for discussion was "Aggressiveness in Children." Cake, coffee, and Cokes were served to eleven members by the

hostesses, Joan Edens and Wanda Moore. — Rep.

## MRS. MYERS HOSTESS TO MIDWAY CLUB

The Midway Club met with Jewell Myers Thursday, January 7. A beautiful Dresden plate quilt was almost finished. Although the roads were muddy, nine members were present to enjoy a delightful noon meal. They were Eddie Williams, Josie Simmons, Allie Quattlebaum, Loyd Hillis, Louise Riley, Bobbie Dishman, Katie Belle Wells and Terry, one new member, Beulah Sanders, and the hostess, Jewell Myers.

Glenn Williams presented each member present with a beautiful dish towel. We all are very proud of this gift.

A chili supper was planned for Friday night, January 15, at the Earl Myers home. Dinner time will be at 6:30 p.m. Everyone come and bring a card table and dominoes.

The next meeting will be with Ida Pickering Thursday, January 21. Everyone come early and bring a sack lunch. This will also be our pollyanna day. — Rep.

## CHAMBERLAIN HAS COMMUNITY MEETING

# Blowing Out the Corners

By Uncle Zeb

Eagle Nest, New Mexico.

A kind deed warms our heart whether we are on the seashore, in the mountains, or just plain stuck in a snow bank. Especially, when we are the recipient of that kindness.

Leading up to the above kindness was our desire to leave the calm balmy weather of the Panhandle and take a winter look at the ski area around Red River, New Mexico. Perhaps you are

saying that we should have known better but curiosity once killed a cat and if it hadn't been for an act of kindness it might have frozen the toes of a couple of sightseers.

The Cimarrons had some snow but the heavy line seemed to begin at Eagle Nest. The kind and friendly postmaster had informed us that a good driver should make it on in to Red River without chains but that the inexperienced and the careful would be better off with them. We took that one in stride, thanked him for the good advice and started off down the road without putting on chains.

Things might not have been so bad at first but on top of everything else we took a short cut to the main highway. This is one of our weaknesses. Down the road a ways and just a short distance from the main road the snow deepened, the ruts narrowed and soon we settled down snugly in a snow bank.

All this leads up to the kindness. We looked around for our location and we were exactly in front of a logging camp shop. Here we found kindness at its best. Two wonderful friendly young men who knew how to tow out a stuck car and also the quickest way to put on a set of

chains.

Honestly, it turned out to be an act of Providence because if this had not happened we would have stalled on Red River Pass without chains, and with darkness approaching. Kindness is wonderful.

—o—  
Red River, New Mexico.

Never having seen this beautiful mountain valley dressed in its winter clothes we were in for a big surprise. One to two feet of soft snow had turned both the valley and the mountains into a Christmas appearing wonderland. On every hand were the pine trees flocked to perfection with nature's coat of snowy white.

Not only had nature performed wonders on this our favorite vacation spot but man had been making some changes, too. One of the most modern chair lifts in the country now reaches one and one-third miles up to slope of newly named Ski Mountain to a point 1800 feet, vertically speaking, above the town. This is a part of the development of one of the most up to date ski areas in the west. Over 100 chairs make the 6,000 ft. run to take the ski lovers to the top of the over two miles of runs. In the summer it will still operate to take the sightseer and those who love to hike to the mountain top.

The fact that we had not seen any snow and ice for over a week here in the Panhandle was not the only reason we took off for the mountains. We had long wanted to see them in the winter time.

Funny thing about it was that we landed in Red River with its 18 below weather but not one cloud drifted by in the three days and not one snow flake fell. Papers are late getting in if at all in the winter time, and Dan True can't reach over the high altitude so well. Because of this we sat there dreaming of the pretty weather back in Amarillo. Imagine our surprise on starting for home to find that we had missed a real snow right here at home.

Did you ever try starting a Panhandle car in 18 degree weather? By charging your battery, hoping, and letting the sun shine under the hood sometimes it will start by noon. It was beautiful up there just the same.

STATE OF TEXAS,  
COUNTY OF DONLEY

I, Walter B. Knorpp, being Vice-President & Cashier of the above named bank, do solemnly swear that the foregoing statement of condition is true to the best of my knowledge and belief.

WALTER B. KNORPP, Vice-President & Cashier

CORRECT—ATTEST:

**R. CHAMBERLAIN**  
W. CARROLL KNORPP

Subscribed and sworn to before me this 5th day of January, 1960.  
MARY NEAL RISLEY,  
Notary Public, Donley County, Texas.

dering what all that money was spent for, then consider the task of the Board of Control.

This relatively small state department is personal shopper for 200 state agencies. During the past fiscal year it selected the goods and paid the bills for purchases totaling \$80,000,000.

These millions went for more items than the average citizen can imagine. Everyone realizes that it requires tons of paper, thousands of filing cabinets, typewriters, desks and chairs to run the state's business . . . but—

Ever wonder how much yellow paint it takes to put a stripe down the highway from Amarillo to Brownsville?

Board of Control staff knows just how much to get for a given stretch of road and sees to it that the paint has little glass beads ground up into it to reflect your auto headlights at night. Just the other day they bought \$100,000 worth of the little glass beads, alone.

Board of Control buys all the state's automobiles — as well as trucks, tractors, motor scooters, motor graders, snow plows and school buses (for schools receiving state aid). Last week they purchased \$326,000 worth of new Plymouths.

It buys the industrial machinery with which the state prison system makes the state license plates. It buys the paper for your drivers license and pays for the printing.

It also buys buttons and zippers and shoes and socks and surgical tools and skin diving suits.

"We buy practically everything," says Executive Director William J. Burke.

It's a list that sounds unbelievable until the use for each item is run down. Clothing and repair needs for the apparel of the thousands of persons in state hospitals and schools must be bought by the Board of Control. State hospitals use surgical equipment. Game and Fish Commission uses boats and skin diving equipment in its inspection work.

If the State School for Girls at Gainesville starts a pottery class, Board of Control buys the clay. If the prison system builds a new prison building, Board of Control scouts around for the best buy in steel-barred doors.

Board of Control itself is a big user of paper. In the past fiscal year it processed 450,000 invoices. Nine employees handled these at the rate of 1,921 a day. It takes 15,000 envelopes to handle an average weekly mailing of bid invitations to suppliers.

It's all done according to a

very businesslike system. Purchases are consolidated, standardized, scheduled, bid on and checked for specifications, value and performance.

Yet all this procedure doesn't kill the element of human enjoyment. Director Burke recounts with relish the million printed envelopes just bought for a large state department at \$2.80 a thousand. That's less than the usual cost of unprinted envelopes.

Comparable pleasure can be found in housewives who have just found diapers at a dollar a dozen or tomato juice at five cents a can.

Board of Control is about to have its 40th anniversary. It began operation in 1920 after a statute passed in 1919 combined in one agency a number of state functions.

It is topped by a part-time policy making board whose three members serve overlapping six-year terms. They are appointed by the governor.

Present board members are E. E. McAdams of Austin, chairman; F. H. Flewelling of Austin and C. F. McAuliff of Dallas.

Burke, as executive director, is the top administrative officer. Under him are five divisions set up on what he terms "a check-and-balance system."

A specification division works out requirements for items to be bought. Purchasing division buys them. Administrative services division handles the clerical work. Inspection division has a team of "watchdogs" who go over the state to check new purchases to be sure they're what they should be.

A fifth division, building engineering and management, sees to a staggering list of housekeeping chores for the Capitol and state buildings. When the buildings now under way or being planned around the Capitol are finished, the Board of Control anticipates operating a heating system that will put out 60,000 pounds of team heat an hour and an air conditioning system of 2,750 tons.

It also sees to the upkeep of the Governor's Mansion, the San Jacinto and Fannin State Parks and the State Cemetery. It handles the rentals for state offices outside of Austin which do not have state quarters. Last year this required 356,000 square feet of office space.

As to the state buildings going up in Austin, Burke feels sure they will save the state money over the old rental system. "Besides having to pay rent," he pointed out, "the state can only lease for two years at a time, and you never know when you may have to move, which is expensive."

In the course of their myriad chores, Board of Control staffers become expert on many subjects. They learn the price of dairy cattle (for prison farms) or diamond drills, short wave radios and food mixers.

Many know more about the comparative value of dishwashing detergents and floor waxes than most housewives. They make extensive tests to find out.

As Burke explained, if "Brand X" can be proved to serve as well as a more expensive one, in state institution dishwashers, as much as \$30,000 can be saved on one purchase.

Specifications people spent hours, according to Burke, proving out a floor wax they felt would save money and serve the purpose. They even applied and polished it, he said, and made power.

"We try to be more careful periodic checks on its staying with the state's money than we would even with our own," says Burke. "I honestly wish I could take every Texas taxpayer on a guided tour of the whole operation."

JAYCEES NAME "TOP FIVE"—Five young Texans selected as "the most outstanding" of 1959 will be honored at a dinner in Austin Jan. 9. Sponsored by the Junior Chamber of Commerce, the selection is made annually by a judging committee.

This year's honorees: Sam H. Burris of Alice, Angus Dickson Jr. of Comanche County, Noah Kennedy Jr. of Corpus Christi, Jorter Loring Jr. of San Antonio and Thomas S. Mackey of Texas City.

If you can't get behind a movement for the good of the community, the least you can do is get out from in front of it.

## GABIE BETTS BURTON LIBRARY NOTES

EDITH BARNES

Now, while resolution making is so prevalent, might be a good time for most of us to resolve to get rid of a pet neurosis or two. There is a whole section of books in the library which will help you do just that.

Doctor Peale in his "A Guide to Confident Living" has this to say about one of our most common neuroses — fear: "The commonest and subtlest of all human diseases is fear," says a distinguished physician.

A well known psychologist declared that fear is the most disintegrating enemy of the human personality.

It might be a good idea in church to take up not one collection, but two. Very large baskets might be used for the second collection—. The people might be asked to put not money but fears in these baskets. When all the fears had been gathered up, let the ushers bring these baskets to the altar. They would be so heavy now that the ushers would stagger under them, but what a sense of release would be in that congregation!—

But do you know what would happen after the benediction? The people would start out and then one by one with a sheepish grin they would turn back to the basket in which each had placed his fear and fish around until he had found it. People are so used to their fears that they would feel homesick without them. People become such victims of fear that they are afraid to walk away from them." Fantastic, I think not else why do we hang on for dear life to something that does nothing but make us miserable.

We have in addition to Doctor Peale's books, Doctor Sockman's and Bishop Sheen's to name a few. Among lay writers we have "The Mature Mind" by H. A. Overstreet. "More Power to You" by Walter Pitkin and Orison S. Marden's "The Joy of

Living" who says, "Real happiness is cheap enough, yet how dearly we pay for its counterfeit."

## LESS FOR YOUR MONEY

An interesting comment on federal "aid" comes from the Tax Foundation.

"There's nothing small," it points out, "about the nearly 100 federal 'aid' programs to state and local governments which will cost \$6.8 billion in fiscal 1960, up \$2 billion since fiscal 1958."

"Three out of four of these 'aid' dollars (for agriculture, housing, veterans, highways, etc.) represent taxes that made the 'round trip' to Washington and return to the state of origin. Such 're-allocation' of tax monies results in some states paying over

\$2 in federal taxes for each \$1 received as 'aid'.

"The designation, 'federal aid,' is a misnomer in the implication that the government is the source of such bounty, but it is a handy label. The government has no money to distribute other than that it receives from the taxpayers. It simply serves as a broker, as a dealer in money, when its handouts are made. Because it costs money to handle money, the government has to exact what amounts to a brokerage fee. Thus, it pays out in 'aid' less than it receives. The greater the federal 'aid' the less the taxpayers get for their money."

Safety does not cost anything until you've neglected it.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### The Great Debate Continues

That is, the great debate on the taxation of income. But, it now looks as though something new has been added. It was shortly after the adoption of the income tax theory of taxation in this

country that the communistic type of government had its inception in Russia. The October Revolution and the many tragic events which followed through the years along the lines advocated by Karl Marx and Lenin, rightfully caused great alarm throughout the world. The Marx doctrine underwrote the taxing of the income of the individuals and corporate entities. This was promptly pounced upon by the vigorous opponents of the income taxation theory as definite

proof that this theory of taxation was unquestionably communistic. This argument has been used in many debates on the subject, although it has had little effect on bringing about the abolition of the income tax or even in preventing an increase of the same. The advocates of the income tax have always argued that it was a fair tax, if properly graduated, and was not communistic in nature regardless of what Karl Marx might say. We are now faced with new developments and new pronouncements that will undoubtedly leave both the pro and the con camps in this country in a quandary, as well as the followers of Karl Marx on the one hand and the modern-day communists on the other.

Mr. Khrushchev is alleged to have announced that new studies are being made of the income tax with the view of completely abolishing it in Russia. This pronouncement, insofar as the issue of income taxes being communistic or anti-communistic, puts everybody on the spot. If Mr. Khrushchev abolishes the income tax it will destroy the argument of the anti-income tax group in this country, because the income tax advocates can then say that the action of Mr. Khrushchev has definitely overruled and vetoed the words of Mr. Marx and thereby branded income tax as anti-communist, which everyone in this country is.

The income tax advocates will be put on the spot, because the anti-income tax people will argue that the taxing of income is so reprehensible that even the communists are refusing to do it. It could also put Mr. Khrushchev on the spot because the followers of Karl Marx could stand pat on the income tax doctrine laid down by Marx, and claim that Mr. Khrushchev, by his action, was denouncing communism and underwriting capitalism.

It could also put the Karl Marx boys on the spot because, if Khrushchev's pronouncements are to constitute the communistic constitution, regardless of how Capitalistic they might be, it would probably be more appropriate for the Karl Marx boys to be worrying about their heads rather than their pocketbooks.

In any event, you can see how confused things can get when people start paying too much attention to what one man says. If Mr. Khrushchev wants to do away with income taxes in Russia, that is his business. However, I suspect that there are more Russians worrying about income than there are worrying about the income tax. I would be satisfied, regardless of all the pro and con arguments relating to income taxes, if we in this country could reduce government expenditures to the extent that we could bal-

ance the budget and provide a simple reduction in income tax.

I sincerely hope that 1960 will provide enlightenment to those who seem to think that more government spending will produce more government income at less cost to the taxpayer. This is about as possible as riding one horse in four directions at the same time. Substitution of the type of tax will not provide tax relief to the taxpayer until government spending has been reduced in the amount of the relief intended to be afforded to the taxpayer.

(The names of the persons referred to have been intentionally deleted.) The writer, who was a woman, ended the letter by saying, "The firing of — and the suspension of — is shocking, frightening, and worse than any guilt by associa-

## SCHOOL CENSUS NOW BEING TAKEN

Principal K. D. Vaughan is asking for full cooperation of parents in completing the annual school census which must be completed before February 1, 1960.

Parents are requested to report all children in this school district that will be six on or before September 1, 1960. You may contact either Mr. Vaughan or Stina Cain at the Jr. High School.

It is very important that parents of youngsters that will be entering school for the first time to make this census report as the basis for state money to operate the schools is based on students listed in the census report.

## FFA MEMBERS ATTEND DISTRICT BANQUET

Approximately thirty members attended the Greenbelt District Banquet Monday night at Wellington. There were over 150 FFA members and guests from eleven schools at the banquet.

Linda Hardin, Clarendon FFA Sweetheart, was runner up in the District Sweetheart contest. The voting was very close and each school had some very attractive and outstanding sweethearts.

The Clarendon FFA Greenhand band placed second in the talent contest. The band consists of Bill Aaron, Robin Green, and Jim Formway. The team that won the contest had the edge in experience. The Clarendon FFA members think the Greenhand band will have a very good chance to win next year.

## GRASSROOTS OPINION

Pioche, Nev., Record: "While it would be cruel to accuse the parents of the victims of criminal negligence, the facts almost sustain the allegation."

"Hundreds of children are scalded to death because they could fall into steaming water. Other hundreds are burned to death, and some of them die because they have been permitted to play with matches or left unguarded around dangerous fuels and fires."

## CALF CROP DEPENDENT ON PRESENT MANAGEMENT

College Station — Your 1960-61 beef calf crop may be affected by the management practices being used now, according to Uel D. Thompson, extension animal husbandman. Very few winter weeds, grasses and legumes had started growth prior to the early freezes this year. The husbandman said this created a situation not experienced every year.

The old grasses killed by the freezes left cattle with little to graze except roughage. This caused cattle to lose weight rapidly due to a lack of proper nutrients not obtainable in the roughage.

Overcoming this situation and getting the most from dry pasture roughage means additional feed. Cattle need protein supplement now to keep them in good breeding and, calving condition. Thompson pointed out that cows should be fed about two pounds of a protein supplement daily based on a 41 percent crude protein analysis.

In addition to the protein supplement, cattle should be allowed access to steamed bonemeal and salt at all times. He added that supplying minerals and protein supplement will take care of your animals' needs at this time.

## The Case Against Compulsion

Proponents of the bill to give social security beneficiaries government-paid (i.e., taxpayer-paid) medical service would have us believe that most of the nation's older people are in serious financial straits, and unable to meet the costs of illness.

A preliminary report of a thorough-going study made by the National Opinion Research Center of the University of Chicago provides a very different picture.

More than 90 per cent of the over-65 group said they have the available means to pay a \$500 medical bill. Putting it precisely, only 9.6 per cent said they could not pay such a bill — and a big percentage of these are not eligible for social security, hence would not be benefited by the proposed legislation.

Another important factor which the compulsory government health insurance schemes ignore is the liquid assets of persons over 65. A report based on Federal Reserve Board figures shows that between 1949 and 1958, these people accumulated liquid assets faster than any other age group. And it is probable that their net worth is greater than that of any other age group.

No one denies that medical care problems exist — for people under 65 as well as over 65. But the solution does not lie in

turning the problems over to the federal bureaucracy, at a huge and ever-growing cost to the taxpayers. It lies, instead, in the further progress of private medicine and all the related agencies. For instance, the American Medical Association and the American Hospital Association have pledged themselves to mobilize their full resources to accelerate the development of adequately financed health care programs for needy persons — especially the aged needy. No one with any knowledge of the achievements of the past in this field can doubt the goal will be reached.

Farmers interested in the Conservation Reserve of the Soil Bank for the 1960 crop season can obtain the latest information on the program from the local ASC office. The USDA has announced a basic rate of \$12 an acre and a tentative goal of 452,000 acres for Texas under the 1960 program.

We have just returned from our vacation, not an elaborate one but an eye opener none the less. We both have enough kin-folk scattered around Texas to drive all day to reach them by night for a free bed and two meals for seven days straight, and that is just what we did. If they all pay back our visit this summer like they promised, we may not get a crop in this year.

East Texas is booming, even the small towns have an industry or a small factory outside of town.

**RECENT INCOME TAX CHANGES IMPORTANT**

College Station — Some taxpayers may overlook recent changes in income tax regulations that could reduce their 1959 tax. One new feature is the 20 percent first year depreciation allowance on tangible personal property. Farm and ranch operators should know the limitations on this special depreciation option in order to decide whether to use it, according to C. H. Bates, extension farm management specialist.

To be eligible for this year write-off, the property must have a useful life of six or more years. Usually a tractor or combine will qualify. Also, the property must have been purchased. Bates said any asset acquired by gift or inheritance does not qualify.

The maximum amount on which this depreciation can be taken is \$10,000 on a separate return and \$20,000 on a joint return. However, explained the specialist, this limitation may include several items of property to make up the total.

The full 20 percent additional depreciation can be taken on equipment bought in December so it enables quick recovery of this much of the cost. Then, the regular yearly depreciation can be set up for the remaining cost, less salvage value. For example, a tractor bought on December 5 for \$4,200, would be allowed \$840 first year depreciation. In addition, one month's regular depreciation would be allowed. If a salvage value of \$160 is set up, the annual straight line depreciation on an eight-year basis

Three years ago when we last visited down that way, between towns one might run onto a small saw mill now and then. Now set back among the pines and scrub oak are the most beautiful homes one can find anywhere.

The first night or two our stops were somewhat depressing, from one to two out of a family were drawing a government check of some kind. Even those places the younger generation is alert, because the towns showed it. Elaborate schools and churches were as numerous as fine homes.

You can't fool George though, he says bet the next half dozen generations will never get it paid for.

We think the trip helped though, before we hardly started toward home, he was planning new improvements. Maybe we will get a new roof on our house, before all that company comes next summer.

**FERTILIZER MEANS MORE GRAZING NOW AND LATER**

College Station — Well fertilized pastures will furnish additional grazing this fall and will also provide better grazing for longer period of time. Dr. W. I. Bennett, extension soil chemist, says well fertilized pastures will furnish grazing two weeks later in the fall and will be ready to graze two weeks earlier in the spring.

Topdressing pastures row for fall grazing is a good idea. Whether fertilizing will help the pasture depends on several items. One is the soil itself. If the soil is deficient in certain elements, then these elements should be applied. In this case, a soil test is the best way to determine what needs to be applied.

Another item which should be considered, Bennett adds, is the available moisture. If adequate moisture is in the soil and if fall rains are usually good, the fertilization will be more profitable. The stand of grass that is present also needs to be considered. If there is very little native or improved grass present, the fertilization will not pay. Fertilization of pastures heavily infested with weeds means that a lot of plant nutrients will be lost due to the weed growth.

Bennett suggests that soil samples be taken now and tested. Then if the stand of grass in the pasture is good and if moisture is adequate, fertilization will pay with additional grazing this fall as well as earlier grazing next spring.

Some situations in which this additional first year depreciation might be beneficial tax-wise are: In years of unusually high net income, and in periods where considerable borrowed capital is needed for beginning or expanding operations. Also, in case of casualty losses involving considerable equipment, such as a fire, windstorm or flood. Bates said the advantage of larger depreciation allowances would "cushion" the financial shock for re-investing in equipment needed.

For a complete explanation of this and other newer features of the tax regulations, obtain a copy of the 1960 Farmer's Tax Guide. It is available from your local county agricultural agent and from the Internal Revenue Service.

### Bulldogs Lose Conference Opener To Phillips, 93-90

The Clarendon Junior College Bulldogs lost a heart breaker to the Frank Phillips College Plainsmen in an overtime battle here last Saturday night, 93 to 90. It was a rough, hard fought game with a total of 53 fouls being called; 32 against the Bulldogs and 21 against the Plainsmen. The regulation game ended with the score 80-80. This was the first conference game for both teams.

Four Bulldog starters were sitting on the bench when the regulation game ended. Coach Young had only one regular and

four reserves for the overtime period. Felix Johnson, Alva Carter, Oscar Bronniman and Bobby Lesley were all disqualified by personal fouls. Carter suffered a broken nose early in the first half, but the stout hearted big center kept playing until he fouled out with ten minutes left.

The Plainsmen were led by their great all-state performer, big Warren Tipton, who scored 39 points on 16 field goals and seven free throws. The Bulldogs were paced by Felix Johnson who score 19 points. Carter scored 16, Lesley 13 and Bronniman 11.

The Bulldogs started strong and were leading 50 to 40 at the half. However, in the opening seven minutes of the second half the Plainsmen scored 12 points to only two for the Bulldogs and tied the score at 52-52. From there on it was a fight to the finish. H. D. Yarbrough dropped in a free throw with eight seconds on the clock that tied the game at 80-80 and sent it into overtime.

The Bulldogs lost the game at the free throw line. They outscored the Plainsmen on field goals, 34 to 32, but the Plainsmen took advantage of the excessive fouls called on the Bulldogs and made 29 of 47 free throws attempts to win the game.

Last Thursday night the Bulldogs defeated Sayre, Oklahoma, by a score of 78 to 70 here in the local gym. Oscar Bronniman led the scoring with 19 points followed by Lesley with 18 and Johnson with 11. Harold Whipkey paced Sayre with 26 points.

### Jr. High Teams Take Three From Turkey

Last Thursday night the Junior high basketball teams defeated the Turkey teams in 3 games.

In the opening game the seventh grade boys of Clarendon won over Turkey by a score of 39-11. All of the boys on the seventh grade squad saw action. The leading scorer was John Grady with 14 points, Bobby Cain had 11, Jack Robinson 6, Buddy Wooten 4, Johnny Wazencraft 2 and Cecil Jones 2. Other boys playing an important part in the game but not getting into the scoring column were Robert Moss, Douglas Bradshaw, Kenneth Price, Lloyd McCord and Mike Phillips.

The Clarendon girls defeated the Turkey girls 30-22. Janice Smith led the scoring with 12 points, followed by Lynn Bourland with 10, Dorothy Richey 6, and Karen Hill with 2. Regina Borden, Carolyn Graham, Charlene Gray, Marilyn Noble and Marie Mills played well on defense.

In the third game the Clarendon boys defeated the Turkey team 21-6. These two teams played earlier in the season with Turkey winning by 20 points.

In this game Troy Petty scored 9 points, Ted Graham 6, Faylon Watson 6, Steve Shelton, Dennis Stewart, Roger Stone, Ronnie McAnear, Tim Ray, Jerry Taylor and Ronnie Wood did not score but played well.

The Clarendon teams will go to Wellington Thursday, January 14, for three games. The seventh grade game will start at 5:30 with the other games to follow.

### High School Basketball Results

In games played here Tuesday night the high school boys defeated Wellington 61-45 and the girls lost 46-62.

At McLean Saturday night the boys lost 50-54 and the girls won their game 66-51.

The next games on the schedule will be against White Deer here next Tuesday night.

Eagle Nest, New Mexico.

A kind deed warms our heart whether we are on the seashore, in the mountains, or just plain stuck in a snow bank. Especially, when we are the recipient of that kindness.

Leading up to the above kindness was our desire to leave the calm balmy weather of the Panhandle and take a winter look at the ski area around Red River, New Mexico. Perhaps you are

saying that we should have known better but curiosity once killed a cat and if it hadn't been for an act of kindness it might have frozen the toes of a couple of sightseers.

The Cimarrons had some snow but the heavy line seemed to begin at Eagle Nest. The kind and friendly postmaster had informed us that a good driver should make it on in to Red River without chains but that the inexperienced and the careful would be better off with them. We took that one in stride, thanked him for the good advice and started off down the road without putting on chains.

Things might not have been so bad at first but on top of everything else we took a short cut to the main highway. This is one of our weaknesses. Down the road a ways and just a short distance from the main road the snow deepened, the ruts narrowed and soon we settled down snugly in a snow bank.

All this leads up to the kindness. We looked around for our location and we were exactly in front of a logging camp shop. Here we found kindness at its best. Two wonderful friendly young men who knew how to tow out a stuck car and also the quickest way to put on a set of

chains. Honestly, it turned out to be an act of Providence because if this had not happened we would have stalled on Red River Pass without chains, and with darkness approaching. Kindness is wonderful.

Red River, New Mexico.

Never having seen this beautiful mountain valley dressed in its winter clothes we were in for a big surprise. One to two feet of soft snow had turned both the valley and the mountains into a Christmas appearing wonderland. On every hand were the pine trees flocked to perfection with nature's coat of snowy white.

Not only had nature performed wonders on this our favorite vacation spot but man had been making some changes, too. One of the most modern chair lifts in the country now reaches one and one-third miles up to slope of newly named Ski Mountain to a point 1600 feet, vertically speaking, above the town. This is a part of the development of one of the most up to date ski areas in the west. Over 100 chairs make the 6,000 ft. run to take the ski lovers to the top of the over two miles of runs. In the summer it will still operate to take the sightseer and those who love to hike to the mountain top.

The fact that we had not seen any snow and ice for over a week here in the Panhandle was not the only reason we took off for the mountains. We had long wanted to see them in the winter time.

Funny thing about it was that we landed in Red River with its 18 below weather but not one cloud drifted by in the three days and not one snow flake fell. Papers are late getting in if at all in the winter time, and Dan True can't reach over the high altitude so well. Because of this we sat there dreaming of the pretty weather back in Amarillo. Imagine our surprise on starting for home to find that we had missed a real snow right here at home. Did you ever try starting a Panhandle car in 18 degree weather? By charging your battery, hoping, and letting the sun shine under the hood sometimes it will start by noon. It was beautiful up there just the same.

dering what all that money was spent for, then consider the task of the Board of Control.

This relatively small state department is personal shopper for 200 state agencies. During the past fiscal year it selected the goods and paid the bills for purchases totaling \$80,000,000.

These millions went for more items than the average citizen can imagine. Everyone realizes that it requires tons of paper, thousands of filing cabinets, typewriters, desks and chairs to run the state's business . . . but—

Ever wonder how much yellow paint it takes to put a stripe down the highway from Amarillo to Brownsville?

Board of Control staff knows just how much to get for a given stretch of road and sees to it that the paint has little glass beads ground up into it to reflect your auto headlights at night. Just the other day they bought \$100,000 worth of the little glass beads, alone.

Board of Control buys all the state's automobiles — as well as trucks, tractors, motor scooters, motor graders, snow plows and school buses (for schools receiving state aid). Last week they purchased \$326,000 worth of new Plymouths.

It buys the industrial machinery with which the state prison system makes the state license plates. It buys the paper for your drivers license and pays for the printing.

It also buys buttons and zippers and shoes and socks and surgical tools and skin diving suits.

"We buy practically everything," says Executive Director William J. Burke.

It's a list that sounds unbelievable until the use for each item is run down. Clothing and repair needs for the apparel of the thousands of persons in state hospitals and schools must be bought by the Board of Control. State hospitals use surgical equipment. Game and Fish Commission uses boats and skin diving equipment in its inspection work.

If the State School for Girls at Gainesville starts a pottery class, Board of Control buys the clay. If the prison system builds a new prison building, Board of Control scouts around for the best buy in steel-barred doors.

Board of Control itself is a big user of paper. In the past fiscal year it processed 450,000 invoices. Nine employees handled these at the rate of 1,921 a day. It takes 15,000 envelopes to handle an average weekly mailing of bid invitations to suppliers.

It's all done according to a

very businesslike system. Purchases are consolidated, standardized, scheduled, bid on and checked for specifications, value and performance.

Yet all this procedure doesn't kill the element of human enjoyment. Director Burke recounts with relish the million printed envelopes just bought for a large state department at \$2.80 a thousand. That's less than the usual cost of unprinted envelopes.

Comparable pleasure can be found in housewives who have just found diapers at a dollar a dozen or tomato juice at five cents a can.

Board of Control is about to have its 40th anniversary. It began operation in 1920 after a statute passed in 1919 combined in one agency a number of state functions.

It is topped by a part-time policy making board whose three members serve overlapping six-year terms. They are appointed by the governor.

Present board members are E. E. McAdams of Austin, chairman; F. H. Flewellen of Austin and C. F. McAuliff of Dallas.

Burke, as executive director, is the top administrative officer. Under him are five divisions set up on what he terms "a check-and-balance system."

A specification division works out requirements for items to be bought. Purchasing division buys them. Administrative services division handles the clerical work. Inspection division has a team of "watchdogs" who go over the state to check new purchases to be sure they're what they should be.

A fifth division, building engineering and management, sees to a staggering list of housekeeping chores for the Capitol and state buildings. When the buildings now under way or being planned around the Capitol are finished, the Board of Control anticipates operating a heating system that will put out 80,000 pounds of team heat an hour and an air conditioning system of 2-750 tons.

It also sees to the upkeep of the Governor's Mansion, the San Jacinto and Fannin State Parks and the State Cemetery. It handles the rentals for state offices outside of Austin which do not have state quarters. Last year this required 356,000 square feet of office space.

As to the state buildings going up in Austin, Burke feels sure they will save the state money over the old rental system. "Besides having to pay rent," he pointed out, "the state can only lease for two years at a time, and you never know when you may have to move, which is expensive."

In the course of their myriad chores, Board of Control staffers become expert on many subjects. They learn the price of dairy cattle (for prison farms) or diamond drills, short wave radios and food mixers.

Many know more about the comparative value of dishwashing detergents and floor waxes than most housewives. They make extensive tests to find out.

As Burke explained, if "Brand X" can be proved to serve as well as a more expensive one, in state institution dishwashers, as much as \$30,000 can be saved on one purchase.

Specifications people spent hours, according to Burke, proving out a floor wax they felt would save money and serve the purpose. They even applied and polished it, he said, and made power.

"We try to be more careful periodic checks on its staying with the state's money than we would even with our own," says Burke. "I honestly wish I could take every Texas taxpayer on a guided tour of the whole operation."

JAYCEES NAME 'TOP FIVE'—Five young Texans selected as "the most outstanding" of 1959 will be honored at a dinner in Austin Jan. 9. Sponsored by the Junior Chamber of Commerce, the selection is made annually by a judging committee.

This year's honorees: Sam H. Burrell of Alice, Angus Dickson Jr. of Comanche County, Noah Kennedy Jr. of Corpus Christi, Jorter Loring Jr. of San Antonio and Thomas S. Mackey of Texas City.

If you can't get behind a movement for the good of the community, the least you can do is get out from in front of it.

**LIBRARY NOTES**

EDITH BARNES

Now, while resolution making is so prevalent, might be a good time for most of us to resolve to get rid of a pet neurosis or two. There is a whole section of books in the library which will help you do just that.

Doctor Peale in his "A Guide to Confident Living" has this to say about one of our most common neuroses — fear: "The commonest and subtlest of all human diseases is fear," says a distinguished physician.

A well known psychologist declared that fear is the most disintegrating enemy of the human personality.

It might be a good idea in church to take up not one collection, but two. Very large baskets might be used for the second collection—. The people might be asked to put not money but fears in these baskets. When all the fears had been gathered up, let the ushers bring these baskets to the altar. They would be so heavy now that the ushers would stagger under them, but what a sense of release would be in that congregation!

But do you know what would happen after the benediction? The people would start out and then one by one with a sheepish grin they would turn back to the basket in which each had placed his fear and fish around until he had found it. People are so used to their fears that they would feel homesick without them. People become such victims of fear that they are afraid to walk away from them." Fantastic, I think not else why do we hang on for dear life to something that does nothing but make us miserable.

We have in addition to Doctor Peale's books, Doctor Sockman's and Bishop Sheen's to name a few. Among lay writers we have "The Mature Mind" by H. A. Overstreet. "More Power to You" by Walter Pitkin and Orison S. Marden's "The Joy of

Living" who says, "Real happiness is cheap enough, yet how dearly we pay for its counterfeit."

**LESS FOR YOUR MONEY**

An interesting comment on federal "aid" comes from the Tax Foundation.

"There's nothing small," it points out, "about the nearly 100 federal 'aid' programs to state and local governments which will cost \$6.8 billion in fiscal 1960, up \$2 billion since fiscal 1958."

"Three out of four of these 'aid' dollars (for agriculture, housing, veterans, highways, etc.) represent taxes that made the 'round trip' to Washington and return to the state of origin. Such 're-allocation' of tax monies results in some states paying over

\$2 in federal taxes for each \$1 received as 'aid'.

"The designation, 'federal aid,' is a misnomer in the implication that the government is the source of such bounty, but it is a handy label. The government has no money to distribute other than that it receives from the taxpayers. It simply serves as a broker, as a dealer in money, when its handouts are made. Because it costs money to handle money, the government has to exact what amounts to a brokerage fee. Thus, it pays out in 'aid' less than it receives. The greater the federal 'aid' the less the taxpayers get for their money."

Safety does not cost anything until you've neglected it.

By Congressman Walter Rogers

### The Great Debate Continues

That is, the great debate on the taxation of income. But, it now looks as though something new has been added. It was shortly after the adoption of the income tax theory of taxation in this

country that the communistic type of government had its inception in Russia. The October Revolution and the many tragic events which followed through the years along the lines advocated by Karl Marx and Lenin, rightfully caused great alarm throughout the world. The Marx doctrine underwrote the taxing of the income of the individuals and corporate entities. This was promptly pounced upon by the vigorous opponents of the income taxation theory as definite

proof that this theory of taxation was unquestionably communistic. This argument has been used in many debates on the subject, although it has had little effect on bringing about the abolition of the income tax or even in preventing an increase of the same. The advocates of the income tax have always argued that it was a fair tax, if properly graduated, and was not communistic in nature regardless of what Karl Marx might say. We are now faced with new developments and new pronouncements that will undoubtedly leave both the pro and the con camps in this country in a quandary, as well as the followers of Karl Marx on the one hand and the modern-day communists on the other.

Mr. Khrushchev is alleged to have announced that new studies are being made of the income tax with the view of completely abolishing it in Russia. This pronouncement, insofar as the issue of income taxes being communistic or anti-communistic, puts everybody on the spot. If Mr. Khrushchev abolishes the income tax it will destroy the argument of the anti-income tax group in this country, because the income tax advocates can then say that the action of Mr. Khrushchev has definitely overruled and vetoed the words of Mr. Marx and thereby branded income tax as anti-communist, which everyone in this country is.

The income tax advocates will be put on the spot, because the anti-income tax people will argue that the taxing of income is so reprehensible that even the communists are refusing to do it.

It could also put Mr. Khrushchev on the spot because the followers of Karl Marx could stand pat on the income tax doctrine laid down by Marx, and claim that Mr. Khrushchev, by his action, was denouncing communism and underwriting capitalism.

It could also put the Karl Marx boys on the spot because, if Khrushchev's pronouncements are to constitute the communistic constitution, regardless of how Capitalistic they might be, it would probably be more appropriate for the Karl Marx boys to be worrying about their heads rather than their pocketbooks.

In any event, you can see how confused things can get when people start paying too much attention to what one man says. If Mr. Khrushchev wants to do away with income taxes in Russia, that is his business. However, I suspect that there are more Russians worrying about income than there are worrying about the income tax. I would be satisfied, regardless of all the pro and con arguments relating to income taxes, if we in this country could reduce government expenditures to the extent that we could bal-

ance the budget and provide a simple reduction in income tax.

I sincerely hope that 1960 will provide enlightenment to those who seem to think that more government spending will produce more government income at less cost to the taxpayer. This is about as possible as riding one horse in four directions at the same time. Substitution of the type of tax will not provide tax relief to the taxpayer until government spending has been reduced in the amount of the relief intended to be afforded to the taxpayer.

The television quiz programs brought in much mail, both for and against those of us on the Subcommittee. One of the letters which I received bitterly attacked me and the other Subcommittee members. (The names of the persons referred to have been intentionally deleted.) The writer, who was a woman, ended the letter by saying, "The firing of — and the suspension of — is shocking, frightening, and worse than any guilt by associa-

tion charge ever assessed by McCarthy. Both of these splendid young men I personally know to be incorrigible." Could be.
