

"DONLEY COUNTY NAVY ENLISTMENTS WILL EQUAL ENOUGH MEN TO MAN A NAVY GUN"

The Donley County Leader

A friend to the farmer, his home and his family. A champion of his rights and a willing promoter of his interests.

Complete Trade Territory Coverage

Volume 13 Number 29

CLARENDON, DONLEY COUNTY, TEXAS, SEPTEMBER 10, 1942

A Common Paper for Common People

All Service Business Must File Ceiling Price Lists Now

All service business in Donley County were advised today by G. E. Kinslow, chairman of the Donley County War Price and Rationing Board...

"Every owner of a service business such as a garage, laundry, dry cleaning establishment, various repair and rental services and agricultural services such as bagging and ginning should know his responsibilities under the law and live up to them," Mr. Kinslow advised.

"The pamphlets we now have contain a digest of the law, written as a guide and examples of how a service business must prepare and file its report by September 10, with the local War Price and Rationing Board. There is also a list of the services covered by this regulation."

Effective July 1, the price ceiling regulation on these services limited such service businesses to the highest price charged in March, 1942. All records showing prices charged in March must be kept. Whether receipts were given or not in the past, this is now required if a customer demands it.

Moreover, the service business must keep in its store a statement showing the highest prices charged for services supplied during last March, a description of each of these services, the pricing method used, and all allowances, discounts and other price differentials the service business was in the habit of giving during last March. This statement must be shown to any person who asks to see it during ordinary business hours.

"A copy of this statement must be filed with the local War Price and Rationing Board by September 10th and if a new business is opened offering a service, it must prepare such a statement within 10 days after starting business and file it within 20 days after it starts operations."

The service covered range from automobile repairs, servicing and storage to the repairs of bicycles, boats, cameras, vacuum cleaners, gas appliances, typewriters, farm equipment and furs to window washing, tool sharpening, hat blocking, fur repair and storage, film development and printing, parking lot charges, and a long list of other services.

Dr. and Mrs. J. W. Fitzjarrald of Memphis were visitors in the home of Dr. and Mrs. B. B. Harris Sunday evening.

Donley County Cow, Sow And Hen Program Making Fine Progress

The Cow, Sow and Hen program in Donley county as sponsored by the Sears Roebuck and company is coming along fine, according to county agent H. M. Breedlove of the Texas A&M College Extension Service.

Clarendon on the ninth and tenth of October. The eight gilts will be judged and the first place gilt of the eight in the county will be given a registered Jersey heifer; second place will be 100 baby chickens, third place 75 baby chicks and fourth, fifth, sixth and seventh places is 50 baby chicks.

These prizes are given in Donley county by the Sears Roebuck and company to help the boys to put over the Cow-Sow and Hen program in the county.

NEW DRUNK DRIVING LAW SHOWS RESULTS

The Texas Safety Association reports that the new drunk driving law, one year old in June, has taken 3,113 drivers from off the road for six months' mandatory suspensions since its enactment.

ACCEPTED FOR ARMY SERVICE TUESDAY

The following twelve men were accepted at Lubbock Tuesday for military duty. They will report for duty in two weeks.

Clifford Decker, Curtis Moffett, William Jackson, Charlie Duff, Willie Anderson, John Ashcraft, Claude Palmer, James Hightower, Virgil Hatfield, Tom Stotts, William Foster, Paul Reeves.

ATTEND MISSION STUDY

Mesdames L. N. Cox, M. R. Allensworth, Elba Ballew and C. A. Burton went to Amarillo Friday to attend a meeting of the Mission Study Leaders of the Womens Society of Christian Service.

Clarendon Approved for War Production Training Center

Word was received by the Leader office this week that Mr. and Mrs. L. B. Penick are now living at Shore Acres Ave., Rt. 1, East Greenwich, R. I. Mr. Penick is a Physical instructor in the U. S. Navy and is stationed near Greenwich.

Sheriff Warns Hunters

Following several complaints, Sheriff Guy Wright issued a Notice this morning, warning all hunters to abide by the game laws. The main points he stressed was shooting from the highway or country lane; also shooting quail out of season. Several farmers south and west of town have complained to the sheriff that hunters have been shooting their quail and have been shooting too close to their houses and barns.

"It will save everyone concerned, time, trouble and maybe some money if all game laws are observed," the sheriff stated.

Educators On Visit Here

Here for most of the afternoon Wednesday were three members of the faculty of West Texas College of Canyon. The men were interested in securing specimens for the Panhandle-Plains Museum of Canyon.

They called on friends of the Museum, and personal acquaintances. A call at the office of the West Texas Utilities was a pleasure where the Indian artifact of Chas. M. Lowry was seen. This is said to be the finest collection of the kind in the Southwest.

Some time was spent looking over the gem collection of Postmaster J. C. Estlack at the Donley County State bank where it is kept in the bank vault. His collection of paleontology, marine fossil invertebrates and gem rock material of hundreds of choice specimens claimed the attention of the educators for the greatest period of time spent here.

In the party were Dr. Archie MacAlpin, head of the Department of Geology, and Mr. John A. Gillis, head of the Department of Industrial Arts, and Mr. Boone McClure, assistant curator of the Panhandle-Plains Museum.

VISITS PARENTS

Corp. Harry Miller from the Field Artillery at Abilene spent the week end with his parents, Mr. and Mrs. Will Miller. He was on his way to attend the Officers Candidate Training School at Ft. Sill, Okla.

J. R. Gillham, local vocational agriculture instructor, received notice this week from M. F. Thurmond, State Supervisor of the War Production Training Program, that the local school had been approved as a training center for mechanics and production courses.

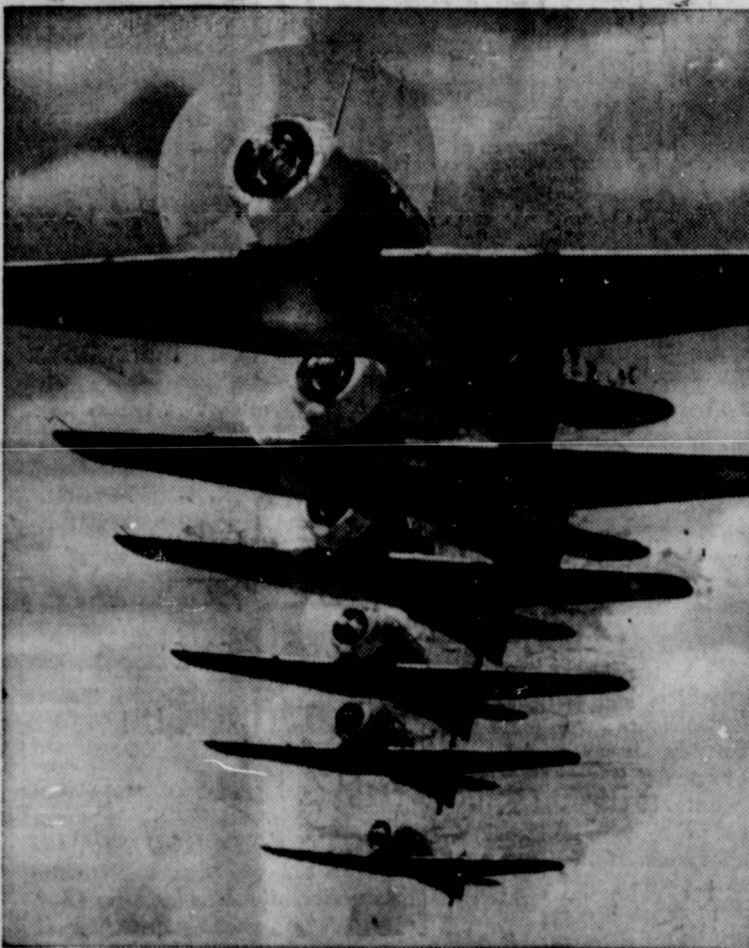

Under the proposed setup, if there is sufficient interest among farmers, unemployed youth, or any other individual over 17 years of age, war production training courses in automobile and tractor repair and operation, welding and farm machinery construction, woodwork, and farm machinery repair and construction will be offered at the local school. The courses if offered will be taught by local individuals who are outstanding in one of the particular phases offered in the courses.

The purpose of the courses is to enable farmers and other individuals to be better able to repair and operate their own machinery and equipment at the present time and in the future when repairs and repairs will not be available. The courses will be taught at night with hours to be arranged by the teacher and those desiring to take the courses.

In addition to the mechanics courses, the government agency is asking the local vocational agriculture department in cooperation with the farm security administration and extension service agents to conduct a series of production courses in the rural communities surrounding Clarendon for the purpose of upping feed production by better feeding, care and management of the various types of livestock.

Every individual interested in taking any of the four mechanics courses (welding, operation and repair of tractors and automobiles, woodwork, or repair and construction of farm machinery) should contact J. R. Gillham at the earliest possible date. There will be no charge of any kind to students taking the course as the course is provided by the federal government through the War Production Board.

AERIAL AXIS BUSTERS REHEARSE

Soon-to-be fighter pilots at the Air Forces Advanced Flying School at Kelly Field, Texas, fly their 200 miles an hour planes in spectacular echelon formation preparatory to winning their wings. Similar scenes were enacted daily at Foster Field and Moore Field, both in Texas, and the Lake Charles, La., Advanced Flying School before graduation exercises September 6th.

EMMETT SIMMONS WILL BE HOME

Word was received this week by Mr. and Mrs. Nollie Simmons that their son, Emmett, who is rated 1st Class Radio Operator, would be home Monday, September 14th. Emmett has been in the Naval service for quite some time and has seen action in the war zones.

IN SAN ANTONIO

Mrs. Ed Speed and daughter Betty Jean left Sunday for San Antonio to visit her son Homer Charles who is being transferred to California Tuesday.

MARVIN JONES PROMOTED

Friends will be glad to learn that Pvt. Marvin Jones has been promoted to the rank of Corporal and also crew chief over a group of men. He began a six weeks course in the Technical Training school at Lubbock this week, after receiving his promotion.

VISITS PARENTS

Mrs. Thayer Acord and daughter visited Friday in the J. M. Acord home. Thayer arrived Saturday on his way to San Diego and Los Angeles where he will do research work in Aircraft.

County Agent Urges All Farmers To Take Well Care of Their Cottonseed

PREACHING WILL BE HELD FRIDAY EVENING AT CHURCH OF CHRIST

Carlos D. Speck of Austin will preach at the Church of Christ Friday evening, Sept. 11th. Services will begin at 8:30. The public is invited to attend this service.

Donley County Show Board To Have Meeting

County agent H. M. Breedlove of the Texas A&M College Extension Service announced this morning that a meeting of the board of directors of the Donley county show board would be held in his office on the twelfth of this month at two o'clock, this coming Saturday. Reports from the various committees will be heard and the general progress of the various committees will be discussed. All members of the show board are urged to be present at this meeting.

The Donley county fair will be held in Clarendon on the ninth and tenth of October. The fair will be composed of agricultural exhibits from all communities in the county; boys club swine show and sale, dairy show, poultry show and horse show. The fair is planned to be one of the best ever staged in the county.

Texas cotton growers will need all of the seed that they can save this fall for the planting next spring, and the seed not used will be needed in other parts of the state for planting and to meet the urgent demand for fats and oils.

According to county agent H. M. Breedlove of the Texas A&M College Extension Service, storing damp cotton seed in a warm place damages it for planting and also damages the quality of the oil from the seed. It is also not practical to dry wet seed in the cotton drier at the gin, Breedlove says.

The only practical way to prevent poor germination on the seed and damage to the oil, the county agent explains, "is for the grower to have the seed cotton fairly dry before he tues it to the gin. It is also advisable when seed cotton is sacked to stand the sacks on the end in rows so that the air can circulate throughout the sacks and keep the seed from heating to certain extent in this manner. We want to be sure to keep plenty of good seed this fall and store it in a good place so that it will be in good condition for the spring planting."

Cotton seed may be scarce next spring due to the shortage of oil products in the form of oils. The cotton oils may have to take the place of some of the oils that heretofore have been shipped to the United States from other nations. Take good care of your cottonseed is a good slogan for the coming year.

Forrest Sawyer Receives Letter That Stresses Importance of Scrap Metal To The National Armament Drive

HARRY McCracken IS PROMOTED

Harry K. McCracken, 27, airplane mechanic, formerly of Clarendon, has been promoted to the rank of Staff Sergeant in the Army Air Forces. S/Sgt. McCracken enlisted in the Army on August 28, 1940.

Harry is well-known here, having grown up here and attended the local schools.

LEAVES FOR CLEBURNE

After a visit with his grandmother, Mrs. J. D. Stocking, Soxy Stocking left Saturday for Cleburne, Texas where he will visit his grandmother, Mrs. Otto Foster. He will leave there by plane for his home at Washington, D. C.

ATTEND FUNERAL

Mr. and Mrs. Joe Ritter and Mrs. I. M. McCuam attended the funeral for Bobby Don, son of Mr. and Mrs. W. D. McCuam at Tolar, Hood County, Saturday afternoon. Bobby Don was a nephew of Mr. I. M. McCuam of this city.

Navy Recruiting Figures Must Be Raised

"More than 100 men a day were enlisted in the Navy from this district during the first week of September," Lieut. L. H. Ridout Jr., officer in charge, announced today.

"In ordinary times, this would be not only an astounding figure but recruiting facilities would be taxed. However, these are not ordinary times, and the figure must be raised if we are to meet our month's quota of 3,600 men. Don't worry. We are fully equipped to take care of all increases in enlistments."

At week's end, total figures showed that from Donley County, one recruit had been sworn in.

"Whether you have or have not met your local seven-day quota, I urge you to talk and think Navy wherever you go," Lieutenant Ridout emphasized. "Chance street corner conversations with friends, armchair discussions in your home, pointing out the Navy's vital needs at your luncheon club, over the bridge table, on the golf course—all this will impress the Navy upon your acquaintances."

"Remember. Without our boys overseas, these accepted comforts would disappear. There wouldn't be any bridge games, any teeing off, any public meetings. If you expect to continue wartime pleasures, you should expect to shoulder wartime responsibilities. The Navy is one of them."

He reminded Negro men that an officer will be in Dallas September 14, 15, and 16 to interview them for ratings in the Seabees. Physical examinations and two letters of recommendation must be obtained before interviews can be arranged.

Twenty Five Dollar War Bond For Grand Champion Barrow

George B. Bagby, local duroc breeder, announced this week that he was planning to present the exhibitor of the grand champion barrow of the 1942 Donley County Fair with a \$25 war bond as a special premium. Mr. Bagby has been an enthusiastic promoter of boys club work for years and since entering the swine breeding business has given many premiums and a great deal of time and

Forrest Sawyer, Chairman of the Donley County Salvage Committee, states that the drive for scrap metal is still underway despite the fact that the salvage drive is handicapped for lack of working facilities. More and more scrap metal continues to pile up at the local collecting center and Mr. Sawyer states that he is well pleased with the cooperation being given his working crew by the farmers and ranchers.

This week Mr. Sawyer received a letter from Lewis C. Huff, Assistant Executive Secretary of the Texas Salvage Committee pertaining to the national salvage drive and the urgent need of united cooperation and a better understanding among the people at this tragic hour when speed and efficiency of carrying out the salvage drive means so much to the national production of armament and supplies.

The letter follows: Dear Mr. Sawyer: Frankly, I am worried—worried because so many people refuse to turn in their Junk simply because it has to go through a Junk Dealer. I don't think that it is Axis propaganda; it is far more deadly than any propaganda those buzzards could possibly conjure up, and it is at work night and day gnawing at the very vitals of our war program. Either you and I and all of the other Salvage workers are going to overcome this

Prince of Saboteurs—or else I shudder to think of the consequences. This is a war of steel—it is being fought with steel ships; steel tanks; steel guns; steel bullets; steel submarines; and steel bombs. And one-half of all of this steel is iron and steel scrap—Junk!

Every day we read in our newspapers that our shipyards could make more ships, but there isn't enough steel; our factories could make more tanks, but the steel isn't available. The outcome of this war may hinge upon our ability to produce steel in ever increasing quantities.

And steel is made from 50% (See LETTER Page Eight)

Post Office To Have Change

Assistant postmaster, Mrs. Norma Rhode Chamberlain, has resigned her position with the local postoffice, effective the 17th. She is now taking vacation. She began as a clerk in the local office more than twenty years ago when Curry C. Powell was postmaster.

Will P. Chamberlain began work as an auxiliary clerk in the local postoffice Wednesday.

The postal department is experiencing handicaps for help in many branches at this time due to the younger employees entering the service. High wages attracts many more from entering the postal department work. No salary advances have been made in any branch of the postal service since 1924.

interest to furthering the cause of the club youths. With a minimum of 50c per pound guaranteed, the war bond premium will probably enable the youthful owner of the grand champion pig to realize over \$100 from the sale of the one pig. Local youths have been informed of the special offer by their club leaders and all are enthusiastic in their response to the generous offer.

Families of Armed Forces Urged To Use V-Mail

NEW ORLEANS, Sept. 4—Admiral Chester W. Nimitz, Commander-in-chief of the Pacific Fleet, has issued an appeal to families of service personnel to use the new, fast V-Mail system for correspondence from the Mainland to forces afloat and ashore.

Pacific Fleet V-Mail authorities pointed out that speed, privacy and economy should make use of this microfilm service attractive to the armed forces.

Whereas regular airmail from the Hawaiian area to Pacific Coast points often takes many days—even going by convoy when mails are unusually congested—V-Mail to these same cities averages only four days. V-Mail for East Coast points takes only six days from the time of posting to arrival at its addressed destination.

In the Fleet, mail clerks have been supplied with special V-Mail forms. Letters written on these blanks and posted for censorship are not read again until they reach the addressees.

Hawaiian area V-Mail is photographed on 16-millimeter microfilm spools in Honolulu. These rolls, two of which contain as many letters as an ordinary mail-pouch, go to the Mainland by the FIRST AVAILABLE air trans-

portation. They rate highest priority; they go immediately.

By fast mail train, completed V-Mail is then sped to recipients, who get 4-by-5 1/2 inch enlargements of the tiny negatives in official envelopes—without charge.

Mainlanders corresponding with men afloat or ashore may obtain their V-Mail blanks from any postoffice. Full instructions appear on each form. Letters are sent to the nearest V-Mail center for forwarding by air to the soldier, sailor or marine concerned. Again, days are saved; and valuable airplane space is conserved for vital war goods.

It was urged that service users of V-Mail request their correspondents to take advantage of this fast system. V-Mail now goes to personnel on duty in Australia—and in intermediate island bases.

BE YOUR OWN FIREMAN

If civilian defense activity is to achieve maximum results, the prevention and control of fire must be stressed at all times. No one knows whether fire bombs will ever rain down from the skies upon our cities, towns, farms and industrial centers. If that does happen—and never forget that it can happen—the very life of this country may depend upon the efficiency of our fire fighters, both professional and volunteer. If it doesn't happen, a public which is trained in the basic principles of fire prevention can be of inestimable service in

We Can't Equal Their Sacrifices, but We Might Try

IF ALL THE REST OF US SACRIFICED EVERYTHING TO BUY MORE BONDS WE COULDN'T EVEN 'THE SCOUR'

—By Darling U. S. Treasury Department Copyright, 1942, New York Tribune Inc

reducing the vast toll of fires which occur "normally."

It has been said that many communities have relaxed their civilian defense fire training simply because they couldn't obtain as much fire-fighting equipment as they'd like to have. Any community which does that is asking for destruction. It would be very fine if every town could be supplied at once with all the apparatus it wants. But that is obviously impossible. And in the meantime, every community should be preparing volunteers to handle equipment when it comes—and to fight fire in other ways if it doesn't come.

It's just as important to extinguish a fire which starts from a faulty stove, as a fire which started from an incendiary. And the most important thing of all is to eliminate the causes of fire. The average American home contains many grave hazards which its occupants never think of. The same thing is true of the average place of business. Improperly stored inflammable liquids, accumulations of paper, rags and odds and ends, poorly-maintained heating equip-

ment—such hazards as these cause fires which take hundreds of lives and destroy tens of millions of dollars worth of property each year.

Wheat Acreage Diversion To War Crops

COLLEGE STATION, Sept. 8—Diversion of wheat acreage to the production of warcrops will not affect AAA wheat payments or allotments in future years.

Coupled with this announcement from the Texas AAA office was a renewed plea for the diversion to warcrops of acreage normally planted to wheat in those areas where other crops can be grown.

George Slaughter, state AAA committee chairman, declared that farmers who underplant their 1943 wheat allotments in order to increase their acreages of crops which are vitally needed in the war will not suffer deductions from AAA wheat payments for 1943, nor will their wheat acreage allotments be reduced in future years because of such diversions.

"Present supplies of wheat are more than sufficient for domestic needs for the next two years," Slaughter pointed out, "whereas the need for certain other commodities, such as soybeans, flaxseed, peanuts for oil and certain feed crops, is likely to be even greater in 1943 than this year. Every wheat farmer who can divert some wheat acreage to these emergency warcrops will be making a substantial contribution to the war effort."

At the same time, Slaughter reminded farmers that if no wheat whatsoever was seeded on a farm for three consecutive years, the farm would be eligible only for the provisions of the Agricultural Adjustment Act of 1938.

Price Support of Cottonseed

COLLEGE STATION, Sept. 8—Texas cotton growers should benefit materially from the recently-announced U. S. Department of Agriculture program to support the price of cottonseed. B. F. Vance, State USDA War Board chairman, declared this week.

Under the new program, Commodity Credit Corporation, thru contacts with crushers, will support the price of cottonseed to growers and provide for the orderly movement of the crop so as to obtain maximum production of oil and linters needed in the war. Under terms of the contract, the minimum price to be paid by processors for cottonseed in Texas is \$49 for basis grade seed at the gin. Basis grade is 100.

USDA officials estimate that on the basis of these support prices, taking into consideration average quality premiums and discounts and average ginners' margin of not more than \$3 per ton, prices to growers should average approximately \$47.50 per ton. Prices received, of course, will vary from time to time and by areas according to the quality of the seed being marketed, the prices being paid by mills, and the ginners' margin in effect at the time of marketing.

Under the program, the CCC also will support prices of cottonseed products. Cottonseed oil and linters will be supported at the ceiling prices.

Fresh Apples Join Victory Food Specials

COLLEGE STATION, Sept. 8—Fresh apples will join the Victory Food Special ranks during the period September 17-26.

While different producing areas have local favorites, consumer attention in Texas will be directed at Golden Delicious, Red Delicious, King David and Jonathan varieties since they are at their best during the fall months of the year.

The object of Victory Food Specials, sponsored by the Agricultural Marketing Administration, is to encourage maximum use of foods in seasonal abundance. Other Food Specials which already have been featured include broilers and fryers, cheese, peaches and tomatoes.

"While Texas is not considered a major apple producing state, we can help out other fruit producers by buying apples when they are featured in grocery stores," B. F. Vance, chairman of the Texas USDA War Board, has announced. During the period from October 22-31, fresh apples again will be featured as a Victory Food Special, especially throughout the New England States, Vance said.

Yesir... you'll find all your chick raising needs right at our store. This is a real opportunity year, as egg and poultry prices are going to be good... that's why it's so important for you to get started right! This is the year to buy the best—buy good chicks, feed a good starting feed, and protect your chicks from disease with careful sanitation. We have everything you need to do the job right. Come in now—place your orders for chicks and feed early!

THE TEMPLE OF TRUTH
By the Apostle

A REMINDER.
The postal department rules and regulations require the payment of box rent before September 1st. If not paid, the box must be declared vacant and rented to any one else who will pay the rental. Please don't overlook this small item. You can begin paying any time after the 20th of the month. If you lose your box, remember that you have no one to blame except yourself.

BUYING BONDS.
In addition to defense stamp sales, war bond buying is brisk at the banks and the postoffice this week. Get yourself some of either and help our cause. If you can't buy anything but stamps, buy them. Every little helps. Those whose means are limited, are just as patriotic as a bond buyer when they buy stamps.

THAT 8th WONDER.
The old Apostle saw the Carlsbad cavern Sunday. There has been vast improvement made for the public pleasure the past few years. In the darkness they continue to sing "Rock of Ages" with the folks grouped in the large room where sits the gigantic but beautifully draped "Rock of Ages." The drops of moisture give the rock an aspect of drapery bedecked with diamonds. It may be that the great stone weeps because it is doomed to eternal darkness, but one rather prefers to think that it is tears of rejoicing over the thousands—yea millions—of friends who come to admire it most of all the beauty in that wonderful Cavern, rightly termed the eighth wonder of the Globe. Texas led in the attendance Sunday as is the general custom. Texas leads in everything if we care to find it.

INJUSTICE.
If a soldier strikes he is court martialled for obstructing the cause of our defense. If anyone else strikes, they get more pay. Why the difference?

REGULATION.
The President has a sensible view of price regulation to avoid inflation. In spite of all that has been done, inflation has been creeping up right along. We need price regulating all-round. In addition to that, we need synthetic rubber so that our people can carry on and buy war bonds and stamps, too. This nation can get the job done without handicap if the talent is turned loose. The President will get to rubber regulation right soon, and then we will produce in a manner that will make our nation more independent of the rest of the Globe. Real talent has always been handicapped, mostly by extreme poverty. Latent patents have lain idle in Washington while the public struggled along fifty or more years behind the times. Now is a good time to let us enjoy what we have been denied because of corporate greed.

FORCE OF HABIT.
A former banker opened a service station and his first customer asked for ten gallons of gas. "Where are you going?" inquired the ex-banker. The customer explained in detail and then the ex-banker asked: "Don't you think you could get along with five?"

My banker friends will get a kick out of that last squib. No one else will hardly recognize that habit—maybe. Here's luck to my readers until Niagara Falls.

FABRIC WASTE PROBED
WPB officials plan an investigation of violations of the men's and women's clothing simplification orders by manufacturers making "zoot suits" for men and "juke" coats for women. Worn mostly by jitterbug dancers, the "zoot suit" features a coat which comes almost to the knees and trousers that have a high rise and are full at the knees. The "juke" coat is a very long jacket. Large amounts of fabric are wasted in both garments.

Mrs. A. L. Chase took her daughter Mrs. Keith Stegall and children to her home at Kingsmill Friday. They had been visiting Mr. and Mrs. Chase the past week.

RED CROSS
VOLUNTEER SERVICE

The completed sweaters turned into the Red Cross this week were received from Mrs. Joe Goldston, and Mrs. Carl Peabody.

Helmets were issued to Mrs. Ernest Keat, Mrs. W. T. Clifford, Mrs. Carl Peabody, Mrs. Karl Adams, Mrs. Jack Molesworth and eight to the Ashtola chapter. Completed helmets were turned in by: Mrs. Hattie Palmer, Mrs. Sella Gentry and two (2) from Mrs. W. T. Clifford.

Mrs. J. L. McMurtry donated the yarn and knit twenty-four (24) afagan squares.

We are sorry to lose Mrs. Paul Smithey as a Knitting Instructor—she has been a most faithful worker.

In the sewing division, Mrs. Harvey Shaw of Windy Valley took out thirty-six (36) blouses to be completed by her community.

Mrs. Doss Palmer and Mrs. Bob Head took out ten (10) more blouses, scraps for a quilt and sweaters to rip—the yarn from these sweaters will then be used to crochet afagan squares together. These articles will be finished by the Dorcus Alathean Sunday school class of the Baptist church.

The Production Room would like to express their appreciation to Homer Parsons for the free cleaning of the clothes given the Red Cross. The Red Cross receives calls weekly for clothing, and we do appreciate all donations. Mr. Carroll Knorpp gave a suit of clothes last week.

Ashtola
The Ashtola community turned in twenty-two (22) sweaters this past week. The knitters were: Mrs. Harlon Gore, Mrs. C. E. Nel-

son, Mrs. A. J. Garland, Mrs. F. M. Watkins, Mrs. Clarence Cobb, Mrs. Albert Reid, Mrs. M. Dunn, Mrs. M. H. Rhoades, Mrs. Alma Gladney (3), Mrs. Doyce Graham, Mrs. W. P. Holley (3), Mrs. Lu McClellan, Mrs. J. M. Graham, Mrs. J. R. Brandon, Mrs. Hubert Rhoades, Miss Laura Mae Harp, and Miss Jessie Cook (2). Mrs. D. W. Tomlinson turned in two completed mufflers and Miss Doris McKee one muffler.

One quilt was received from the Ashtola workers. The colored blocks were furnished by Mrs. Pink Marshall, Mrs. Slayton Mahaffey and Mrs. Ed Wheeler. They were pieced and quilted by Mrs. Ed Wheeler.

Ashtola has reason to be especially proud of two of its Red Cross workers on the knitting quota just turned in. Doris McKee, daughter of Mr. and Mrs. Ed McKee, who is thirteen years old is the youngest knitter in the community and has turned in her first muffler. The much loved Mrs. Alma Gladney, who is seventy-three years young, has turned in her tenth sweater, and this is aside from helping on others and making numberless crocheted afagan squares. If necessary she can knit a sweater with sleeves in a week.

MAYO-HART

Miss Emogene Mayo, daughter of Mr. and Mrs. J. T. Mayo and Billy Hart, son of Mr. and Mrs. L. A. Hart of Amarillo, were married at the Summit Baptist church in Amarillo, Sunday, August 30.

The bride wore a Navy blue suit with Navy and white accessories with a corsage of red roses.

The bridegroom's sister, Mrs. Wayne Hamilton was bridesmaid and Mr. Emmitt Buyers was best man.

Those attending the wedding were the brides mother and father and sister, Mrs. Tommie Pierce; Mr. and Mrs. O. D. Mayo, the bride's brother; the bridegroom's mother and father and a few friends and other relatives.

A wedding dinner was held in the home of Mr. and Mrs. L. A. Hart. The table was centered with a wedding cake topped with a miniature bride and bridegroom and surrounded by flowers.

The couple will make their home in Amarillo, where she is employed at the Pantex Ordnance Plant.

The bride finished her schooling at Clarendon and attended Fleming's Business College at Amarillo in 1941.

The groom has been reared in Amarillo since he was seven and finished high school in Amarillo.

1937 BRIDGE CLUB

Met with Mr. and Mrs. L. T. Whitlock Tuesday evening. In the games, high score prize went to Mr. and Mrs. Geo. W. Estlack, and low to Mr. and Mrs. D. Lowery.

Refreshments were served to guests, Mr. and Mrs. Ray Ferguson, Mr. and Mrs. A. B. Turner, Mr. and Mrs. D. Lowery, Members Mr. and Mrs. G. W. Estlack, Mr. and Mrs. A. D. Estlack, and the hosts, Mr. and Mrs. L. T. Whitlock.

Melba Christie of Dalhart spent week end with her parents, Mr. and Mrs. L. O. Christie.

Mrs. Tick Barbee spent the week with her parents, Mr. and Mrs. Geo. Bulman.

We are sorry to report Mrs. V. R. Jordan is ill. We hope her speedy recovery.

Kay Jackson spent Saturday night and Sunday with Leota Marshall of Ashtola.

Mrs. Lena Antrobus returned from Oklahoma City Tuesday night where she has been with her daughter, Mrs. Tren Stargel. Mrs. Stargel has been quite ill but is much improved at this time.

Mrs. U. S. Absher of Hobart, Okla. came Monday for an extended visit with her sister, Mrs. J. L. Allison.

Ben H. Brown, instructor in Chemical Engineering in Amarillo visited his aunt, Mrs. Minnie Dyer over the week end.

Mrs. Faye Scoggins left Friday for Florence, Arizona where she will teach the coming year.

Mrs. Ed Duncan visited her sister in Ft. Worth over the week end.

Mrs. Wheat and Mrs. St. Clair of Seymour were here the first of the week visiting friends and relatives.

Ruth Palmer of Amarillo returned home Sunday.

David Johnson who is working for the Amarillo Hardware spent the week end at home.

UNITED STATES CIVIL SERVICE EXAMINATION

The United States Civil Service Commission announces open competitive examination for the position of Electrician, \$10.08, \$9.60, \$9.12 per diem, for employment with the U. S. Naval Air Station, Corpus Christi, Texas.

The minimum age limit for this examination is 20 years. There is no maximum.

Competitors will not be required to report to any place for a written examination, but ratings will be based on information in the application, subject to corroboration. Applicants must show that they have completed a regular four-year apprenticeship as electrician, or have had four years of practical experience as electrician, the substantial equivalent of such completed apprenticeship.

Applications may be filed with the Recorder, Labor Board, U. S. Naval Air Station, Corpus Christi, Texas, until further notice.

Further information and application blanks may be obtained from the local postoffice.

Mr. and Mrs. John McMahan and baby, Nanda Lee visited Sunday with Mr. and Mrs. Ollie Hommel and family at Alanreed.

Misses Geraldine and Willie Maude Pratt have returned home after visiting their father, Mr. and Mrs. Pratt in Los Angeles.

Mr. and Mrs. Stevens and daughter Carolyn of Wichita Falls spent the week end with her parents, Mr. and Mrs. E. M. Ozier.

Mr. and Mrs. Doss Palmer and Mr. and Mrs. John McMahan were Amarillo visitors Monday.

Little Patricia Turner visited her grandparents, Mr. and Mrs. Kirby at McLean last week.

BEHIND THE SCENES IN AMERICAN BUSINESS

By John Craddock

Meatless days, heatless apartments, songless telegrams, bounceless tennis balls, spiceless spice cakes -- These are some of the recent threats that keep impressing on us, in various new forms, the fact, that there's no escaping the backlash of war in civil life. Even up to a couple of months ago, food was one item Americans hadn't worried about at all in connection with the war. Yet so sweeping has been the tide of this global war that already there are a number of elements in the civilian food supply situation that cause concern and readjustments, if not "worry." There's no cause for alarm concerning the overall food situation, but we'll surely feel a great many pinches in the way of specific foods. These will probably be temporary and regional in nature. Already WPB has recommended allocation of meats to relieve regional shortages. If that doesn't work, there'll surely be consumer rationing of meat. Packing executives say the combination of price ceilings and war-boostered incomes is chiefly responsible for demand outrunning supply.

Chances for chillblains along the east coast are still good this winter. New Yorkers got serious when Mayor LaGuardia warned that apartments may be allowed to supply warm water—not hot—only in mornings and evenings, on account of the fuel oil shortage. Western Union and Postal Telegraph are giving up all "luxury" items like singing telegrams, kid-diagrams, holiday and birthday specials, come September 18, because war-drive messages need so much space and priority on the wires. Very few tennis balls made of virgin rubber are still available; those made with reclaim are holding up pretty well, but they must have at least a pinch of crude, and it's not sure that even those amounts will be available indefinitely for such use. Some spice prices have ballooned fifty-fold and more.

News of shut-downs due to materials shortages has tapered off, though the shortages themselves won't be solved for many months. First is, the war has come pretty close to making this a

"have-not" nation practically overnight, and the re-adjustments are extremely sobering.

OIL AND RUBBER

To argue that the oil industry is trying to prevent the manufacture of synthetic rubber from any process whatsoever, whether it involves the use of petroleum or not, amounts to arguing that this industry is hell-bent on its own destruction.

The situation is simple enough. The very life of the oil industry depends upon the maintenance of motor car transportation. The industry has big war orders, of course—but civilian consumption of gasoline and lubricants are still the foundation of its business. And when the war is over, the motor car will represent its principal market. It is clear to oil men, as well as the rest of us, that the industry can't continue to sell to motorists unless they can obtain tires.

Even if every ounce of synthetic rubber were manufactured from petroleum products, the money value to the oil industry would be microscopic in the light of its total business. And, in many instances, the industry is operating government-owned synthetic rubber plants without profit. From the purely commercial point of view, rubber simply represents a means to an end so far as the oil industry is concerned—and the end is the sale of gas and lubricants. It is in the oil business—not the tire business.

There are many synthetic rubber formulas, and some involve the use of petroleum, and some do not. Only the chemists and the engineers can decide which is best, quickest and most practical. The position of the oil industry is one of complete cooperation with any program which promises to solve the critical rubber problem. It is devoting all its resources and facilities toward that goal.

Misses Phebe Ann Buntin and Frances Grady spent the week end with Jo Word at the JA ranch.

Nova Cook returned to Dumas this week where she will teach this winter.

Mrs. Lalar Wilkerson and Margaret returned to Silverton this week where Mrs. Wilkerson teaches Public School Music.

Peanut Oil Becomes U. S. Weapon

Almost five million acres of peanuts—twice as many as were produced in any single year before! That's one of the contributions U. S. farmers are making this year toward keeping this Nation at its maximum hitting power. Most of these peanuts will go into oil—oil from which thousands of necessary items for both civilian and military purposes can be made. This chemist and hundreds of others are busy finding and improving these new and potent uses for peanut oil.

Miss Helen Hudson visited her parents, Mr. and Mrs. Arthur Hudson at Wellington Sunday.

Mrs. W. C. Stewart and Mrs. Simmons of Dallas spent the week end here visiting friends.

Bunk Ozier of Amarillo is visiting his parents, Mr. and Mrs. E. M. Ozier this week.

Mrs. Jack Perkins of McKnight visited in the John Rhodes home Monday.

Mr. and Mrs. John Morris of Claude spent the week end with Mr. and Mrs. C. B. Morris.

Jack Reeves of Dumas spent the week end with his parents, Mr. and Mrs. G. G. Reeves.

COTTEN LINTERS "FROZEN"

Cotton linters, essential in the manufacture of explosives, plastics and other war materials, now may be sold by producers only to the commodity Credit Corporation, under an amendment to WPB general preference order M-12. Commodity Credit Corporation also will be the only supplier to consumer, under direction of WPB. Through the amendment, all sellers of linters are offered an immediate market, at fixed prices, and all obstacles to maximum linters supply, such as transportation and prices, are removed.

Geraldine Pratt left Sunday for Lefors where she has accepted a position as Librarian.

Mr. and Mrs. Oren left this week for Port Arthur where he had accepted a position with a picture show concern.

Jack Lackey returned from Amarillo this week to enroll in College here.

Mrs. A. J. Howard is at home after an extended visit with her son A. J. Howard Jr. at San Diego, Calif.

Mrs. W. A. Davis spent Tuesday in Amarillo visiting her daughter Mrs. Baker.

HELPING UNCLE SAM'S PILOTS CRACK THE AXIS are these Duncan Field, Texas, aircraft technicians. All are members of mobile air depot groups, soon to be overseas in action against the enemy. In the oval Duncan

soldiers are shown putting final touches on a big flying fortress. Upper left, a sergeant is spot-welding airplane parts. Upper right, two sergeants are operating a big radio transmitter and receiver. Lower right, a non-com is

"phoning" instructions from the control tower to a pilot. Lower left, two corporals are repairing a plane fuselage. Quick ratings and quick action now are promised by the Air Forces to men enlisting in air depot groups.

What Is Neuritis?

Neuritis is a painful disease in which there is inflammation of one or more nerves. Sometimes the condition begins with fever but usually with numbness, pain and weakness in the parts affected. These parts are commonly the arms and legs. As the disease gets worse, the symptoms increase, so that the patient cannot walk. Sometimes paralysis develops. The cause of this disease lies in the spine where a misaligned vertebra is producing pressure on a nerve supplying the affected part of the body. The pressure here causes inflammation and excessive heat. As a result of the heat, blood vessels become swollen and the fluid portion of the blood filters into the nerves. This prevents

the nerves from performing their work properly and is the cause of the various nerve symptoms, such as numbness, pain, muscular paralysis, burning sensation. If this condition of the nerve is allowed to continue, certain changes take place in the nerve itself to make the paralysis permanent, because these changes are in the nature of a replacement of the nerve tissue with a harder tissue which cannot do the work of a nerve tissue. All that is necessary to prevent these hurtful changes from taking place is to take out the inflammation. Chiropractors are trained to locate the vertebra which is choking the spinal nerves and to adjust it to release the pressure. As soon as this is done, the inflammation subsides and the fluids which have filtered into the nerve substance are absorbed. The nerve

again does its work. The symptoms will then be quickly removed and health will be restored. Many people have milder forms of neuritis and feel pains in different parts of the body. To those, I would say, give Chiropractic a chance to restore your health, and you will again have a zest for living.

Dr. B. B. Harris
Chiropractor

Restore vital health so you will be able to buy DEFENSE BONDS and STAMPS—The Health Builder. (Adv.)

Mrs. W. J. McConnell left Friday for her home at Panhandle after a visit with her mother, Mrs. J. D. Stocking.

Donley County Leader, \$2 a year.

ASHTOLA

Mrs. W. B. Miller

Rev. Vernon Willard from Clarendon filled his regular appointment for the Methodist church Sunday. He was accompanied by Mrs. Willard and the children.

Mrs. W. S. Mahaffey spent one day last week in the home of her sister, Mrs. Otis Naylor in the Sunnyview community.

Mr. and Mrs. Doyce Graham and children from Borger were week end visitors at Ashtola.

Miss Bobbie Watts spent the week end in the home of her parents, Mr. and Mrs. Jim Watts at Canyon.

We are glad that Jimmy McKee's broken leg has improved sufficiently for him to enter school yesterday. He is still wearing a cast.

W. B. Miller, who is employed at Dumas, spent the wee end here with his family.

Mrs. J. T. Beggs and little daughter Wanda Joyce, and Mrs. T. B. Nelson and little Paul Gene left last Thursday to visit relatives in east Texas.

Miss Gladys Holley left recently to take up her work as Librarian in White Deer school which began its year's work Monday.

Mr. and Mrs. Charley Nelson accompanied by grandmother Nelson and Grady Nelson, are spending this week with relatives at Floydada.

A. L. Allen spent several days last week visiting in the home of his son, Mr. Sam Allen at Amarillo.

Miss Mary Charlotte Word re-

cently went to Canadian where she began work as a teacher in the Canadian school, last week.

Miss Margaret Hill from Amarillo spent the week end in the home of her mother, Mrs. Lucille Jameson.

Mrs. Lucy Swearingen and children, accompanied by Mr. and Mrs. Lester Joyner visited in Borger Sunday.

HUDGINS

Mrs. S. M. Harp

The ten day revival closed Sunday with Bro. Richerson of Turkey doing most of the preaching.

Bill Perdue spent Saturday night with Junior Mann.

Mr. and Mrs. Jimmy Allee and children of Pampa spent Saturday night and Sunday with Mr. and Mrs. J. L. Talley and family.

Those to take dinner in the Harp home Friday were Mr. and Mrs. J. L. Talley, Mr. and Mrs. John Perdue, Bro. and Mrs. L. Stonecipher and Bro. Richerson.

Mr. and Mrs. Jih Awfill and Mary Rae of Amarillo spent Sunday with her parents, Mr. and Mrs. J. L. Talley and family.

Mr. and Mrs. Jack Foster and family took Sunday dinner with Mr. and Mrs. John Perdue and family.

Mrs. A. L. Jacobs and daughters returned to their home in Dumas Thursday after a weeks visit in this community.

Mr. and Mrs. Hawk and daughter of Corpus Christi visited in this community Sunday afternoon. Mrs. Hawk will be remembered as Miss Lopez Whitt.

Billy Curtis took supper with Sidney Harp Thursday night.

Mr. and Mrs. Harp entertained company from Brice and Dumas Sunday.

Mr. and Mrs. O. L. Jacobs and Rudolph Perdue visited awhile in the Jack Foster home Sunday night.

Mr. and Mrs. John Fowlkes and daughters visited in this community Thursday.

Everone remember this next Sunday night is our singing night and everyone in invited to come and help us.

GOLDSTON

Beatrice Smith

Very few attended Sunday School and church Sunday morning. Bro. Holland, a brother-in-law of Wilson Gray, held services after Sunday school and then Sunday night.

Those to visit in the John Stewart home Sunday evening were Mr. and Mrs. W. C. Higdon and daughters, Mr. and Mrs. Walter Goldston, Mr. and Mrs. Joe Dilli and family and Bill Mooring.

Mr. and Mrs. Eulan Higdon visited his parents, Mr. and Mrs.

W. C. Higdon and family awhile Saturday.

The Junior Sunday school class enjoyed an ice cream supper at the school house Friday night.

Mr. and Mrs. Lester Shields and daughter, Mr. and Mrs. Roy Roberson and family and Mr. and Mrs. H. C. Smith and family attended the boat races at Lake McClellan.

Mr. and Mrs. Floyd Holcomb and daughter moved to Fritch, Texas during the week end.

Mr. and Mrs. Roy Roberson and family and Mary Alice Petterson, a niece of Mrs. Roberson, spent Friday night and Saturday in Amarillo.

The young folks Sunday school class enjoyed a water melon feast at the river Friday night.

Bonnie Rowe spent Sunday nite with her brother and wife, Mr. and Mrs. M. Rowe.

Helen Porter spent Sunday evening with Vilas and Ziegler.

Mrs. J. R. Mack of Tacoma, Washington who visited a few days with Mrs. J. D. Stocking left Saturday for Hedley to visit her brother, Leslie Bowlin.

At Amarillo is a Navy recruiting station. Apply there and help save our nation!

Mrs. John Goldston
Guests in the W. K. Davis home Sunday were Mr. and Mrs. J. L. Riley of Johnston City, Tenn.; Mr. and Mrs. Blanehead and children of Amarillo, Mr. and Mrs. Clifford Davis and son, Kennedy Davis, Mr. and Mrs. Milt Allen and daughter Eula from Plainview, Mr. and Mrs. Arthur Davis, Mr. and Mrs. L. L. Taylor.

the week end with Mrs. Longan and Harley. They went to Lake McClellan Sunday afternoon for the boat races.
Mrs. Al Word and Mrs. Word Sr. are to meet Al in Amarillo Thursday. He is to be home on a furlough from the Navy in San Diego, Cal.
Mrs. Dick Tomlinson spent the week end with her daughter, Mrs. Mason at Loveland.

LELIA LAKE

Mrs. Kirkland of Golden is a guest of her sister, Mrs. Olen Usery and family.
Mrs. Greer Cottingham and small son returned Sunday from a few days visit with her sister, Mrs. Gerald Noble of Enid, Okla.
Mrs. Lena Johnson of Borger is visiting her mother, Mrs. Henry Simmons this week.

URGES BONDS—NOW!

Don't Let That Shadow Touch Them Buy WAR BONDS

New Bond Poster.—Now being displayed throughout the country is this impelling poster pointing out the urgency of buying War Bonds now before it is too late.

Of this \$22 increase farmers got \$6 in higher return for their produce. Every time the farmer received an additional dollar, an extra \$2.66 went into the pockets of those who buy, process, transport and sell these foods to the ultimate consumer, Mr. Bowles declared.

There were 58 items of food included in this study. The consumer's dollar is split 51 cents to the farmer and 49 cents to those who handle it before it gets on the dinner table, and for the first time in 21 years the farmer received as much as half of the food dollar.

Retail prices of cotton and wool articles net the farmer only a dime on the dollar. Cooperative action is the only way for farmers to get a larger share of the consumer's dollar, Mr. Bowles points out. Texas has 845 farmer cooperatives embracing 180,000 families, Bowles says.

Air Raid Drama To Be Given Over Quality Network

AUSTIN, Sept. 9.—The part of doctors, nurses, and first aid workers in a war encompassing our civilian population will be featured in this week's dramatization of "Texans on the Alert," presented over the Texas Quality Network at 2:00 o'clock Sunday afternoon, Sept. 13th.

The scene is that of a typical Texas city immediately following an air raid, with the central figure, a doctor, maintaining contact with the Local Control Center and directing the care of the injured and dying.

Mr. Civilian is given his cue as a defense volunteer when Ranger Dub Naylor calls attention to a new publication of the Office of Civilian Defense, "What Can I Do?" which is available to the public upon written request to the National Defense Committee for Texas or Governor Coke Stevenson, Austin, Texas. The

booklet, illustrated by Gluyas Williams, outlines the part which every citizen should have in the war effort.

The broadcasts in this series originate from the studios of WFAA in Dallas, and are carried over WOAI, WBAP, and KPRC as a public service feature of the Texas Quality Network and the Texas School of the Air. Scripts are prepared by Mrs. Elithe Hamilton Beal, director of radio at The University of Texas.

Game Hunters Warned

AUSTIN, Sept. 9.—The bag and possession limit on mourning and white-winged doves is given as 12 in the printed matter on the reverse of the new 1942-43 State hunting licenses, but the actual limits are 10 per day and 10 in possession at any one time, the Executive Secretary of the Game Commission cautioned today.

The inconsistency is the result of new Federal regulations which conflict with State laws. A note to sportsmen warning them to check the latest Digest of Game Laws for any changes is printed on the reverse of the license as a further warning to sportsmen.

State law provides that new licenses must have printed on the back the bag and possession limits of game species, and the current State law limits provided by the Legislature last year were followed when the licenses were made up and sent to the printer months ago. Recently these State limits fixed by the Legislature were superseded by Federal regulations issued by the U. S. Fish and Wildlife Service, which has regulatory power over migratory birds and migratory waterfowl. For the same reason, limits on geese and brant as printed on the new licenses are in error. Last year's Federal regulations, which had to be followed in printing the new licenses, provided a daily bag of four geese and a possession limit of eight. But the Federal authorities recently amended waterfowl rules to provide for a daily bag of two geese or brant, and a possession limit of four.

GARDEN GLANCES

"America beautiful lies in the hands of the gardener."

The Rayburn Smith home is very attractive with a closely cut lawn, various flowers and a few large dahlias to emphasize the beauty.

I wish that the John Goldston's yard was in town so that more people might enjoy the lovely display of rare specimens of dahlias. Some marvelous blooms of yellow, pink, rose and purple are found here. The most gorgeous one is of a rich velvety purple of about ten inches in diameter. The whole garden is quite a treat to the visitor.

The dahlia is considered man's flower. Wesley Knorpp who has

become a dahlia enthusiast has a very choice collection of giant dahlias in a variety of colors. J. T. Hoy has quite a nice display of dahlias which produce a gay splash of color to the landscape.

The home of O. C. Watson is attractive with its well-kept lawn and vari-colored flowers.

A white vine is draped gracefully over the front of the Joe Goldston home adding a bit more to the beauty of the surroundings.

The lace vines are probably at the height of their beauty at this time. A very showy one is found in the yard of Ed Speed.

Farmers Are Not Responsible For Living Costs

COLLEGE STATION, Sept. 8.—Living costs definitely have gone up, but don't blame the farmer for the prices you are forced to pay.

This advice comes from C. E. Bowles, extension specialist in organization and cooperative marketing of the Texas A&M College.

Before Pearl Harbor a year's supply of foods for the average working man's family cost \$462, Mr. Bowles says in quoting figures from a check made by the Bureau of Agricultural Economics of the U. S. Department of Agriculture.

Three months later staple foods—beans, pork, bread, milk, potatoes—had risen to \$484, an advance of \$22.

INVEST IN AMERICA — Buy War Bonds and Stamps!

"I flicked the switch —but Nothing Happened!"

CLICK!... Thousands of times each year, day and night, her fingertips had repeated that simple motion until it had become automatic and unthinking.

Let's suppose it's you. You let yourself in late some night. You flick the switch—and nothing happens! No light anywhere! At first you are annoyed. But your emotions quickly turn to confusion, concern—and fear.

Something's seriously wrong when the lights won't work!

The very fact that West Texans do take electric service for granted is a tribute to the men and women who supply it. They've made it dependable. And they've made it cheap.

The average West Texas family gets twice as much electricity for its money as it did 10 or 15 years ago. It's made it possible for most families to enjoy the comfort and convenience of many more time and labor-saving appliances.

This has been accomplished under the American tradition of freedom. Freedom of business management under government regulation—freedom to make our own laws... live our own lives... freedom to invest, invest and produce more for everybody's benefit. That is the American Way—the absolute opposite to the Hitler system of political management and state slavery.

The American Way has made this the most power-full nation in the world today... proving that practical business management is meeting the needs of our way of life.

Clarendon National Farm Loan Ass'n. Has Interesting Meeting Saturday

What farmers and ranchmen can do to help in the winning of the war was one of the topics discussed at the annual stockholders' meeting of the Clarendon National Farm Loan Association, here Saturday, September 5th at the Pastime Theatre.

County agent H. M. Breedlove made an interesting talk and emphasized that this is a time when all of the members of the Association need (1) to produce, (2) to conserve, (3) to reduce their indebtedness and to dig trench silos on their farms to save their surplus feed crops.

The land bank system which served so well during the depression by staying with borrowers is now urging that all borrowers use today's income to put all obligations into current position and to build reserves. A plan has been provided to create a reserve to meet future installments, these reserves accumulations bearing the same rate of interest as the loan. This is a real help to the family that is trying to pay its home and business out of debt and the Nation's leaders have asked that all contribute to the Nation's strength by cutting down debts now.

This was the 25th anniversary of the land bank system and Secretary-Treasurer, C. E. Killough, reminded the borrowers that the interest rate would be only 3 1/2 % for the next two years as passed by Congress, effecting all Federal and Commissioners loans.

Land bank loans, designed to provide mortgages based on normal agricultural value of land so that the debt can be retired by small, semi-annual payments out of farm income run from 20 to 34 years in many cases. Members say that experience has proved this fits the farm and ranch business much better than the old-type loans which usually ran from 3 to 5 years.

Figures showed that more than 30,000 families in Texas have repaid their loans in full on their farm and ranch homes.

During the past year many new loans were made to families seeking to protect their homes against the uncertain future through long-term low-rate amortized loans on the basis of normal agricultural values rather than temporary sales trends, a report from the Federal Land Bank of Houston showed.

Members elected R. W. Moore as director to serve for the coming 3 years. Other directors are: Odos Caraway, Henry Williams, C. B. Morris, and C. H. Bugbee; C. E. Killough, Sec.-Treas.

Aid to Dependent Children Being Cut Down

AUSTIN, Sept. 6—Cutting Aid to Dependent Children almost in half, the State Department of Public Welfare announced today that September checks are being written, totalling \$217,622 and averaging \$10.61, for 20,504 recipients representing 42,263 children. Authorized grants totalled \$425,069.

The sharp cut in grants is due to the \$1,500,000 a year restriction which the constitutional amendment places upon the amount of money the state can spend for aid to dependent children, welfare officials explained. With federal money this makes possible a total expenditure of \$3,000,000 a year, or \$250,000 a month. The law does not limit the number which can be placed upon the rolls, but simply defines eligibility qualifications and provides that sufficient money is unavailable grants shall be prorated. While in August, 14 cases were removed because of death and 528 were found to be currently ineligible, 1,820 families proved eligibility, causing the rolls to make a net gain of 1,278. Future gains in the rolls will force deeper cuts in individual grants.

SPECIAL FARM POSTER

Promotes War Bonds.—Urging farmers to purchase War Bonds every market day, this striking War Bond poster will serve as a constant reminder of the farmer's stake in the War, for it will be displayed generally in the rural areas during the next few months. Illustration is by John Stewart Curry.

Local REA System Observes 3rd Anniversary

The Greenbelt Electric Cooperative, Wellington, this week enters its fourth year of service in bringing electricity to farmers and other rural consumers in this area.

Citing the growth and increasing financial stability of the Cooperative since its lines were first energized on Sept. 9, 1939, Supt. Orval Couch recalled that the system had only 235 consumers at the end of its first month of operation. Today the Cooperative furnishes electric service to 620 consumers along 313 miles of distribution line in Collingsworth, Donley and Armstrong counties in Texas and Harmon county in Oklahoma.

Revenue per mile was \$7.58 in July 1942—an increase of 39 percent since the first year of operation. Consumers now number 1.98 per mile of line as compared with 1.67 during the Cooperative's first year. The average consumption per consumer has been 46 kilowatt hours per month during 1942.

Mr. Couch said that farmers now receiving electric service from the Cooperative are able to produce more food with less labor.

University of Texas Pledges All-Out War Effort As School Swings Into The 1942-43 Long Session

AUSTIN, Sept. 7—In less than two weeks, the University of Texas, pledged to all-out war effort, will full-strength "production" for the nation's victory drive as every resource—classroom, laboratory, personnel, physical plant and service agencies—swings into the 1942-43 long session.

The University is already operating on a 12-months-a-year schedule to turn out graduates in 32 months. Every student will be in training for war service, either in the front lines of military service, in war industries, in government offices, or on the home front to relieve those called to active war duty.

President Homer P. Rainey estimates that probably 70 percent of the University's men students this fall will be enrolled in one of the country's military reserves to train to become commissioned officers at graduation. Army, Navy, Air Forces, Marines, and Coast Guard have set up reserve plans at the University to help meet the critical need for officer material, and the University will encourage all able-bodied men students to enroll in one of these services this fall.

engineers the University this fall will open a new undergraduate department of aeronautical engineering.

Opportunity For Mechanics And Radio Men

RANDOLPH FIELD, Sept. 8—Mechanically-minded men, including those with some technical knowledge of radio, now may enlist in the United States Army Air Forces, where they will be trained as aircraft mechanics and aircraft radio operators and repairmen.

The training doubtless will be of value, later, in civilian life. More-over, many of these enlisted technicians, it is expected, will qualify for non-commissioned officer ratings. Inquiries may be made through the Technician Procurement Officer at any Gulf Coast Army Air Force flying school. At Randolph Field, the officer is Maj. Thomas H. Royder, Post Headquarters building.

Little Miss Linda Ann Acord of Dallas is visiting her grandparents, Mr. and Mrs. J. M. Acord this week.

Ethlyn Drennan has accepted a position in the Darrowzette school. She will teach the third and fourth grades.

TO THE PRODUCERS OF DONLEY COUNTY:

Walter J. Flynt, Secretary
Donley County ACA

Letter—

(Continued from Front page)

iron and steel scrap and 50% pig iron!

More ships? Iron and steel scrap! More tanks? Iron and steel scrap! More planes? Iron and steel scrap! More shells? Iron and steel scrap!

And still so many people refuse to turn in their Junk because it has to go through a Junk dealer. Certainly it has to go through a Junk dealer—that's their business and if we didn't have them to sort, grade, collect, and prepare this Junk for the steel making furnaces the war would soon be over for us. Bear in mind that there are over seventy grades of iron and steel scrap, and over one hundred grades and types of metal. All of this Junk must be carefully and accurately graded and prepared to specifications and then shipped to the mills in car loads of one grade. Who else but a Junk dealer has the knowledge, experience, equipment and ability to perform this very necessary service?

Our people must awaken to the fact that we are engaged in "Total War," and that our enemies are determined to destroy us. Our brave young men are fighting to save us, but bravery alone cannot avail—they must have steel—

And one half of all steel is iron and steel scrap!

This is WAR—The time when we could consider personal prejudices is past—Either we unite IN ONE SUPREME EFFORT, or else we face the fate of those brave and valiant people of Greece, where in Athens alone hundreds of persons are dying each week from starvation, and the people are licking out the empty cans from the garbage of the invading soldiers!

Nothing must stand between us and our production of steel! Every piece of iron and steel scrap in Texas must go NOW to our steel making furnaces even if it has to go through the Devil himself! Brave men shall not die because those on whom they depended let personal prejudices stand between them and their duty!

Certainly in this tragic hour, when all civilization is at stake, no man can willfully hoard material (Junk) so vitally needed and still maintain any semblance of self-respect.

Yours sincerely,
Lewis C. Huff
Asst. Executive Sec'y,
Texas Salvage
Committee

Mr. and Mrs. Clyde Douglas and Jimmy returned Tuesday after taking Clyde Benton to Austin where he enrolled in the University.

Paul Shelton who is working in Dumas spent the week end with homelinks.

This office has received no definite information regarding the loan price on cotton, however from the information at hand, we judge that the price on 15/16 middling cotton will be approximately .16 30/100 cents per pound. The Loan program will be administered practically the same as last year by clerks in Clarendon and Hedley.

Texas cotton growers should benefit materially from the recently-announced U. S. Department of Agriculture program to support the price of cottonseed, B. F. Vance, State AAA Administrator, declared this week.

Under the new program, Commodity Credit Corporation, thru contracts with crushers, will support the price of cottonseed to growers and provide for the orderly movement of the crop so as to obtain maximum production of oil and linters needed in the war.

Under terms of the contract, the minimum price to be paid by processors for cottonseed in Texas is \$49. per basis grade seed at the gin. Basis grade is 100.

AAA officials estimate that on the basis of these support prices, taking into consideration average quality premiums and discounts and average ginners' margin of not more than \$3 per ton, prices to growers should average approximately \$47.50 per ton. Prices received, of course, will vary from time to time and by areas according to the quality of the seed being marketed, the prices being paid by mills, and the ginners' margin in effect at the time of marketing.

Under the program, the CCC also will support prices of cottonseed products. Cottonseed oil and linters will be supported at the ceiling prices.

The Grain Sorghum Loan Program is not yet set up in the Counties, however we expect to hear regarding this matter within the next week or two.

RETURNS HOME

Mrs. J. D. Jefferies has returned from Plainview where she has been visiting her daughter, Mrs. W. C. McDonald and family for the past 12 days.

STORAGE BATTERIES RESTRICTED

In a move designed to save millions of pounds of primary and secondary lead and substantial amounts of secondary antimony for war production, WPB has issued order L-180, which will limit production of storage batteries to the number necessary for replacement in passenger cars, trucks and other vehicles during the remainder of this year.
